9-story apartment complex planned

Plymouth Rd. site seen for \$19 million project

BY DONNA LOMAS

A \$19 million, nine-story office-apartment complex is being proposed for a five-acre site next to the Burroughs parking lot on Plymouth Road.

A local investment firm, Group Four, proposed the concept last Wednesday at a Plymouth Township Planning Commission meeting. Group Four, which holds option on the land, is comprised of Erick Carne, Carl Hosier, Joseph Panackia and Donald Derem. The five-acre parcel is owned by Hillside Inn restaurateur Robert Stremich. The restaurant is located across Plymouth Road from the proposed nine-story complex.

Although part of the five-acre parcel is included in annexation proceedings the City of Plymouth has brought against the township, Carne, a local architect and city planning commissioner said, "it wouldn't really affect our project whichever way the court rules." He added the proposal would be an "asset" for either local government.

The project is up for rezoning before Plymouth Township. Group Four is requesting the parcel be rezoned from C-2 commercial to M-R mid-rise.

Current township zoning permits mid-rise projects such

as this only within one block of an expressway. Discussion of zoning for this parcel is expected at a public hearing scheduled for Sept. 6.

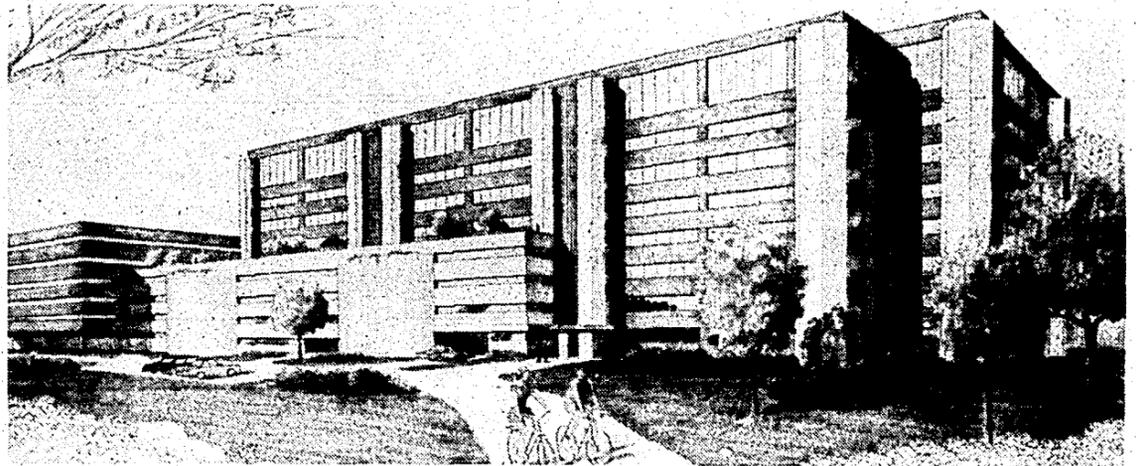

The proposed complex features a five-story, 50,000 square foot office building facing Plymouth Road, Carne said. Behind the offices will be a five-level parking structure, connected to the offices and a nine-story apartment complex. A roof garden is planned for the top level of the parking structure. The structure will provide 425 of the required 462 parking spaces.

"About 90 percent of the parking will be provided for in the structure," said Carne. "Office and residential parking will be separate." A small visitor parking area is planned adjacent to the parking structure. There will also be storage-space available for recreation vehicles, Carne added.

The group has visualized 97 residence apartments grouped around a skylighted atrium. Apartments will range from 1,100 to 1,600 square feet and each will have its own sun room, which will provide passive solar heat to the apartment, Carne noted.

Stremich told the township board in a letter that

Cont. on pg. 29

PROPOSED FOR A SITE on Plymouth Road across from the Hillside Inn, the 'Plymouth Atrium' would be the area's most expensive apartment-office project. The nine-story, 97-unit apartment portion of the com-

plex would be designed for a 'distinguished' community of residents who no longer want to maintain their own homes, its developers say. (Rendering by Erick Carne.)

Schools OK contracts for 30

Administrators' pay hiked

BY CHAS CHILD

The top four administrators of the Plymouth-Canton School District were given salary increases ranging from two to four per cent by the Board of Education Monday night.

Supt. Mike Hoben received a three per cent increase, boosting his pay from \$45,555 to \$46,921.

Ray Hoedel, assistant superintendent for business, got a four per cent raise, which increased his salary from \$36,480 to \$37,939.

Asst. Supt. for Instruction Mike Homes's pay will rise from \$33,600 to \$36,624, giving him a four per cent jump.

And Norm Kee, assistant superintendent for employee relations, received a two per cent increase, which boosted his salary from \$36,480 to \$37,204.

The increases are effective for one year.

All four executive officers also received an increase of one and one-half per cent of their base salary in their fringe, benefits.

In another round of pay

raises, the board gave 7.8 per cent boosts to all non-union administrators. According to Kee, about 30 employees fall in this category.

He noted that the unionized administrators (principals, assistant principals and directors) received exactly the same increase after negotiations completed earlier this year.

Trustee Joe Gray objected to the raises to the non-union employees. "I'm disturbed that they are all getting blanket increases without taking each person's performance into account," he said.

Meet your candidates

Tonight will be the first of two Candidate's Nights sponsored by the League of Women Voters of Plymouth and Canton.

The first forum for candidates seeking offices in Canton will be held tonight at 7:30 p.m. at Miller School, 43721 Hanford Road. The audience can question three candidates for supervisor, three for treasurer and six hopefuls for two trustee seats.

Tomorrow, July 27, voters can hear Plymouth Township candidates at 7:30 p.m. in Pioneer Middle School, 46081 W. Ann Arbor Road.

Three candidates for clerk in Plymouth Township will be present and eight candidates for two trustee seats will also be present.

At both candidates' nights, the Plymouth-Canton LWV will introduce hopefuls vying for the Wayne County Board of Commissioners and the second judicial judgeship in the 35th District Court.

Crash sends cars into lake

NEARLY THREE HOURS after the driver of this car and another collided head-on Friday night on Hines Drive and plunged into Wilcox Lake, a Wayne County Sheriff's Department diver attached a tow chain under water so a wrecker could extricate both vehicles back to the surface. According to the Sheriff's Department, driver Mary Bushroe, 51, of Westland, tried to pass another car while eastbound on Hines west of Wilcox Road. She crossed the center line and struck a compact car driven by Ethel Brown, 72, of Six Mile Road in Northville Township, police

said. Both cars careened off the road and were submerged in the murky lake. Mrs. Brown was reported in guarded condition yesterday in the intensive care unit of St. Mary Hospital, while Mrs. Bushroe was treated for minor injuries. The accident occurred at the height of a brief thunderstorm. State and Plymouth Police joined Sheriff's deputies in turning traffic away from the scene while the diver and a tow-truck crew pulled the cars out. Mrs. Bushroe was ticketed for improper lane usage. As city-township talks continue

Panel gets 'safe' name

The committee of City of Plymouth and Plymouth Township residents exploring the merger of services in the two communities will meet again Thursday.

The group has a title now -- Citizens Committee for United

Services -- to avoid the connotations associated with its earlier nicknames: "consolidation" or "unification" committee.

In addition to the possibility of merged fire departments, the group is also look-

ing into combined recreation and public works departments, according to Joe West, Township Treasurer, a member of the committee.

"We're just getting into it now, really. We should have a good meeting on Thursday," said West.

One city representative, William Hartmann, has announced his resignation for health reasons.

Girl rescued

A two and one-half year old girl was saved from drowning by the Canton Rescue Squad Saturday afternoon.

Tina Nowak of Westland had stopped breathing when the squad arrived after being pulled from the swimming pool at 42388 Glencove Court in Canton.

She was taken to Wayne County General Hospital where she regained her breathing, said Canton Fire Chief Mel Paulun.

As county ponders DeHoCo closing

Are jail staff jobs secure?

BY DONNA LOMAS

The 185 employees at the Detroit House of Corrections on Beck and Ridge roads in Plymouth Township will probably be offered county jobs once Detroit turns management of the prison facility over to Wayne County Dec. 1 county sources said last week.

However, Wayne County may close DeHoCo down because extensive renovations costing a "small fortune" will be necessary for the county to bring the maximum security prison up to new state code requirements.

William Rucks, superintendent of the Detroit prison

facility, said there "is no other place to do it. This area is recognized as a prison zone area. However, if people agree that we can build a new place somewhere, fine. But there was a lot of opposition two years ago to the Northville prison."

Rucks said DeHoCo was a "prison, not a jail, and there is substantial difference between the two."

"In jail, you are locked up constantly. In prison, sentenced prisoners are supervised by trustees and they work, attend school, and participate in recreational activities. We work at rehabilitation here."

DeHoCo now houses about 650 male prisoners, but has a capacity for up to 1,400, Rucks said.

The DeHoCo Superintendent said it costs Detroit about \$6 million to operate DeHoCo for one year.

Jail fate unclear

The possibility of closing the Detroit House of Corrections in Plymouth Township was discussed last night by the Wayne County Board of Commissioners Monday night, although a final decision is not due until October.

The future of DeHoCo was put in doubt by the City of Detroit's planned pull-out on Nov. 30. Management of the minimum security facility will then fall into the hands of the County Board of Commissioners, which is reluctant to continue operating because the facility needs about \$23 million worth of renovation, according to a county spokesman.

Commissioners Monday night heard alternatives to DeHoCo, including a satellite prison system in the county, said John Wiktor, administrative assistant to the board.

DeHoCo houses about 600 prisoners who are serving terms less than one year. The inmates live in barracks, not cells at the 5 Mile facility between Beck and Ridge roads.

Rates forced up

A jump in postal rates has forced The Crier to raise the rate for its mail subscriptions from \$11 to \$13 per year.

"We've absorbed two increases in the last four months," said Circulation Director Phyllis Redfern. "The second hike forced us to make the change."

Schools scrap plans for alternate high

Plans for an alternative high school were shelved by the Plymouth-Canton Board of Education Monday night.

Citing the failure of the June 12 millage increase, the Alternative Education Committee recommended to the board that "implementation of the Alternative Education Program, as defined, be deferred..."

However, the committee also recommended that the "feasibility of educational options" which the board endorsed. "The millage defeat means we can't find a school at a separate site, but we will be looking for other solu-

tions," said Member Steve Harper.

"This shows our desire to keep the door open," said Member Dick Arlen.

The alternative high school was originally planned for Central Middle School but opposition from Central staff and parents killed the proposal.

As envisioned by the committee, the alternative high would serve about 125 students who had trouble fitting into the regular curriculum at Canton and Salem highs.

After Central was ruled out by the board, another site was sought but none was found.

Nursery school may get approval

Following approval last week by the township planning commission, Plymouth Township trustees were expected last night to consider

a tentative site plan for a KinderCare Center nursery school planned for Joy Road across from Salem High School.

Myers cries foul in permit snafu

BY CHAS CHILD

Canton Trustee Robert Myers charged Monday that the Canton Police Department was used for political purposes after he was told by Chief Walter MacGregor that he needed a one-day liquor license for a candidate fundraiser held Saturday night.

MacGregor, who also visited the fundraiser, refused to comment on the matter.

"He came to our party but was escorted out by my attorney for not having a search warrant," said Myers.

Two other Canton police officers came to the party at UAW Hall 735 on Michigan Avenue in Canton. One was told to leave, while the other was allowed to stay, said Myers.

Supervisor Harold Stein denied any prior knowledge of the incident. He and Myers have been political adversaries on the Canton Board of Trustees, although Myers is now running for the Democratic nomination for Wayne County Commissioner, and Stein is seeking another term as Supervisor.

According to Myers, the fundraiser for his candidacy had been planned for a number of weeks. On Saturday morning, however, MacGregor called him and said he needed a one-day liquor license to hold the affair, said Myers.

On the morning of the fundraiser it was too late to obtain a license, so Myers said he changed it to just a private party with no admission.

McDonald's robbed; shot misses manager

A man in a green army coat fled with \$1,100 from McDonald's restaurant in Plymouth early Sunday morning after firing a shot near the manager's head, police report.

According to the report, the gunman entered an unlocked back door at the restaurant on Ann Arbor Road around 1:30 a.m., and said to Manager John Meade, "Give me the money."

After repeating the command, the man put a pistol near Meade's head and fired a shot which missed by about

However, MacGregor and Det. Sgt. Larry Stewart both entered the party that evening and were told to leave because they didn't have a search warrant, said Myers. A third Canton police officer, Robert VanLith, also visited the party, but was allowed to stay because he was a friend of a local businessman, Myers said.

"MacGregor told me that he received a call from a Lieutenant Gregory of the Wayne County Sheriff Department about the liquor license," Myers said. "I don't know who called Gregory, but I think it was someone in the Canton administration. Someone in the administration is using the police department to their own end."

Myers said he knew he needed a one-day liquor license to hold the affair but said he thought the UAW Hall had one.

"Anyway," Myers said, "I didn't charge admission, which means it was a private party. I sold three tickets in advance, but I gave the money back."

"Does this set a precedent for shutting down private parties in Canton?" said Myers. "Are they all going to be invaded by the Canton Police Department?"

three feet, said the police. A police spokesman said the gun may have been fired accidentally.

Meade then opened the safe and gave the gunman two bank bags containing about \$1,100, said police.

"I got a wife and three kids," said the gunman, according to the report. "I don't want to hurt you. I don't want to hurt anyone, I don't want any calls." He then left, the report said.

The robbery is under investigation, police said.

OK seen for new subdivision

The Plymouth Township Board of Trustees was expected last night to consider final approval of the plat of Ridgewood Hills, a new subdivision planned for the northeast corner of Ridge and Ann Arbor roads.

The first phase of the project calls for 185 units, out of a total of 388 planned for

the 199-acre site.

In a related item, the board was scheduled to act on a recommendation of the township planning commission that preliminary plat approval be granted for the 10-lot Wedgewood Manor subdivision, adjacent to the Wedgewood Village condominiums north of Ann Arbor Road west of Sheldon.

Candidates abuse sign rules, Canton officer says

Three Canton sign ordinance violations were given out last Thursday to candidates Noel Culbert, Gary Roberts and the United Democratic Club of Canton for erecting signs in areas not allowed by the 1975 sign ordinance.

Ordinance Officer Bruce Phillips said he cited "everybody" Thursday morning.

All sign ordinance violations are considered criminal, Phillips said, and those cited must appear before 35th District Court Judge Dunbar Davis.

The penalty for the violations "are up to the judge" Phillips said, but could be a fine up to \$100 or 90 days in jail.

Supervisor Harold Stein, who is being backed by the United Democratic Club of Canton, was not cited personally, but rather the club was, according to Phillips.

Stein's slate for the Aug. primary is also backed by the Canton political club, and includes incumbent treasurer Anne Bradley and trustee hopefuls Frank McMurray and Robert Schaetzl.

Phillips said the club was cited for "erecting signs prohibited under the (1975) sign ordinance." A revised sign ordinance has not yet been approved by the township.

Noel Culbert, a candidate for the supervisor's seat, was cited for "allowing political signs to be posted on other than his property," Phillips said. "He has made an effort to take them down, but not all," Phillips added.

Gary Roberts, a Republican candidate for a trustee's seat

in Canton, was issued a citation for "posting political signs on his home and garage," Phillips said.

The ordinance officer said

the sign ordinance does not allow posting of signs on a home, but does allow a lawn sign or a sign in a window of a residence.

Several of the signs were posted on commercially zoned properties, Phillips said, which is also not allowed in the 1975 sign ordinance.

"The reason the citations were issued were many citizens complaints of all three," Phillips said.

Write-in foe still possible for Pursell

Now that Earl Greene, the Democratic challenger to U.S. Rep. Carl Pursell has been disqualified for the Aug. 8 primary, will Pursell face any opposition in the November general election?

The answer is maybe. A crash write-in campaign for the primary is the only way for a Democrat to place his name on the November ballot.

According to Dave Peterson, election specialist for the State Election Commission, a write-in candidate would need 15 per cent of the highest number of votes for any Democratic candidate for any office which completely covers the Second

Congressional District.

The only two offices on the primary which cover the district are Governor and Senator. So, if the leading Democratic candidate for either of these offices gets 10,000 votes in the district, the write-in candidate must receive 1,500 votes to get his name on the November ballot.

Greene, an Ann Arbor Councilman, was disqualified for not having enough signatures on his nominating petitions.

The Second Congressional District includes the City of Plymouth, Plymouth Township and Livonia.

Township still hopes to expand golf course

Although Plymouth Township officials have not yet found a source of funds to help them buy 33 acres adjoining the Hilltop Glen Golf Course, a vote to purchase the land is still on the Aug. 8 primary ballot and officials hope funds from other sources will still make the purchase possible.

Clerk Helen Richardson said

the township might be able to transfer funds from federal revenue-sharing allocations or other accounts.

"We still want to buy it in some way that will not increase the millage," she said.

Township officials hope to use the 33 acres to expand the township-owned golf course from nine holes to 18.

Trickle of victims closes flood relief office here

The Small Business Administration announced the closing of the temporary Disaster Field Office in Plymouth, Michigan on Friday, July 21, because of the unusually low business volume here since the office opened.

This temporary field office was opened two weeks ago to provide information and applications for low interest rate disaster loans to persons who suffered property damage due to the severe thunderstorms and flooding which occurred here on May 30.

However, homeowners and businesses still desiring assistance may continue to contact the main Disaster Branch Office in Detroit located on the mezzanine of the McNamara Building, 477 Michigan, in Detroit 48226, or by phoning (313) 1-226-4030, said loan officer Lee Futrell.

Office hours are 8:30 a.m. to 5:00 p.m., Monday through Friday. Physical disaster loan applications must be filed on or before Aug. 28. No applications can be accepted after this date.

ALLEN C. INGLE FOR DISTRICT JUDGE

AL INGLE —the Experienced Judge

Prior to moving to this District in 1965, served as justice first in the City of Farmington, then Township of Farmington for 12 years.

Gained a reputation throughout the State as a FAIR, HONEST, and IMPARTIAL Judge.

Former State Police Commander of the Detroit Post (as reported by the Detroit Free Press) said that Ingle is a good judge, is available all the time, and keeps good records.

Handled over 50,000 criminal and civil cases as a judge.

Has proved that there can be law and order.

Al's record of fairness, ability and sense of true justice, resulted in his being requested by the State Police and Prosecutor's office to handle the Madison Heights Gambling case and the first cases in Royal Oak Township which eventually resulted in a grand jury.

AL INGLE —the Experienced Lawyer

Practicing attorney since 1949.

General practice including before Michigan Court of Appeals and Supreme Court.

Admitted to practice before United States Supreme Court in 1957

Member American Trial Lawyers Association

Charter member of Society of Irish/American Lawyers

AL INGLE —the Citizen

Served in World War II with the 8th and 78th Infantry Divisions, and the Secret Intelligence Branch of O.S.S.

Member of the Veterans of Foreign Wars and the American Legion

Al has served as President of:
Michigan Justices Association
Oakland County Judicial Association
Farmington Savings and Loan Assn.

Served on the Governor's Safety Committee as well as the National Committee on Uniform Traffic Laws.

Director in Little League football and baseball as a coach.

Served on Township Planning Board.

"YOU CAN JUDGE HIS FUTURE PERFORMANCE BY HIS PAST ACCOMPLISHMENTS"

ALLEN INGLE'S PLEDGE TO THE PEOPLE

"I will absolutely dedicate myself to the enforcement of good order in this District. I will do my utmost to guarantee every person a fair trial with speed and dispatch. I will endeavor to reduce to a minimum the time required for witnesses or parties to be in Court."

Paid for by committee to Elect INGLE Judge - 47115 Grasmere, Northville, Michigan

Community Opinions

July 5, 1978

Informed voters becoming extinct

Here's an addition to the almost-extinct species list: the informed voter.

Each year it seems the number of voters that elect candidates on the basis of names, looks or complementary astrological signs grows.

Inevitably, an uninformed voter makes a last ditch attempt to vote as a knowledgeable voter would in the primary. But it doesn't work. No amount of astrological aids, hearsay from neighbors or political rhetoric makes up for knowing who the candidate is and what he or she thinks about the issues facing Canton and Plymouth townships.

The League of Women Voters (LWV) is doing its best again this year to inform us about local candidates.

The LWV is striving to make us all more informed before we pull the lever Aug. 8 by sponsoring two candidates nights, tonight and tomorrow.

Both are chances for Canton

and Plymouth Township voters to become better acquainted with local candidates. Tonight at 7:30 p.m., Canton hopefuls vying for the supervisor, treasurer and two trustee seats will answer questions from voters at Miller School on Hanford Road in Canton.

If you want to know why Canton purchased its golf course, future township recreation plans and homeowner's complaints, stop by and ask the candidates about those issues.

For residents in Plymouth Township, Thursday night at 7:30 p.m. is the time to stop by Pioneer Middle School and quiz township candidates for clerk and trustee.

Wayne County Commissioner candidates as well as those vying for the second judgeship in the 35th District will also be present both nights.

To make an informed choice on Aug. 8, be there.

THE COMMUNITY CRIER

Fair cars abandoned

THE FUN is over, but the junk is left. These two cars, stars of the Canton Fair's auto smash, were still sitting Tuesday morn-

ing on the fairgrounds at Lilley and Ford road. (Crier photo by Bill Bresler.)

Stein's performance poor

EDITOR:

Open letter to the Stein-Bradley Administration:

As a concerned citizen of Canton, I would like to give you a chance to tell the residents of Canton what you have accomplished in the last two years. To be perfectly honest with you, I have seen very little, but I may be wrong. Let me try to tell you what I and most new Canton residents have or have not seen.

1. I did not see a full-time police department until

July in which we voted a 1-mill increase to begin in January. I did read about a lot of court action over the forming of the new police department. I think the residents should know the total cost of attorney fees for that litigation.

2. The only commercial growth I have seen in the last two years is a white elephant restaurant as you first enter Canton, a car wash under construction, and the purchase of a 1,000,000 golf course. I understand a large food company is to locate on the Michigan corridor but that does not help the tax base for the Plymouth-Canton school district.

3. I have seen a tremendous amount of growth in

single family homes in the last two years but I have not heard of any programs by your administration to limit this growth. In fact, the building has been so heavy near our subdivision we couldn't get any water pressure to our upstairs bath. Wasn't the water pressure suppose to be increased this year?

4. I have not seen one road improvement in the last two years and believe me they are bad!

I believe the time has come Mr. Stein for you and your administration to account for your last two years. No wonder the citizens of this state support the "Tisch Amendment" when you can't get a drop of water from their politicians.

BILL UNGER

Editorial disturbs coach

EDITOR:

The editorial authored by Eric Olson, which appeared in the July 12 issue of The Community Crier, criticizing the recent Sandy Koufax Baseball Tournament, disturbed me.

This article was critical of the behavior of participating coaches, players and parents. It unfairly indicts all participants, and I don't think that

Turtle killers show cruelty

EDITOR:

I, too, want to state my disapproval of the picture and article which appeared in The Crier several weeks ago concerning the two boys who killed the large, old, snapping turtle with bows and arrows.

To me it was a wanton act of cruelty and served absolutely no useful purpose - except to gain a little publicity and serve as a bad example to others with similar inclinations.

Had it been a good deed, fine, but it was not and I am critical of your judgment in printing it as I feel it implies condonance of such acts and serves as a bad example.

We see enough of man's inhumane treatment of animals, e.g. your article last week concerning the horses.

ELIZABETH HAFLEY

accusation is accurate. To unjustly criticize all in the tournament is unfair. If Mr. Olson is to make such critical comments, it is my opinion that he should be specific and not cast suspicions upon all individuals.

If in fact, the example cited was a result of one of the out-of-town teams, then that point should be made and the character of the other participants be left alone. As part of the philosophies taught these boys in the Canton Koufax program, good sports-

manship and respect for others, including their opponents, coaches, and umpires, is emphasized.

It is my belief that these young men accept and practice these concepts. Each young man has been a delight to work with and a thrill to watch develop. As manager of the Canton Koufax Baseball Team, I am proud of the caliber of boy that plays for me.

Don't litter in yard

EDITOR:

I suppose there are some people who enjoy the disposable nature of our economy, characterized by the motto "Use it up and throw it away, who knows where."

"Where" seems to be my front yard a certain percentage of the time, at least for the glass bottle and beer can crowd. I suppose I can understand how people in cars, separated from the rest of the world by twenty-eight thousandths of an inch of steel, can glibly toss bottles and cans out the car window. I cannot understand how someone could break a large bottle on the sidewalk and simply walk away.

We use our sidewalks. Children and adults walk and play on them, people ride their bikes on them, and they act as avenues of communication for our neighborhood. Glass on the sidewalk promotes none of these activities.

So, for those of you to whom glass and metal is an important part of your lives, when you are done with them, please put them someplace where no one will be harmed by them.

I would like my children to grow up with their bicycle tires intact and all five of their toes on each foot.

REEF MORSE

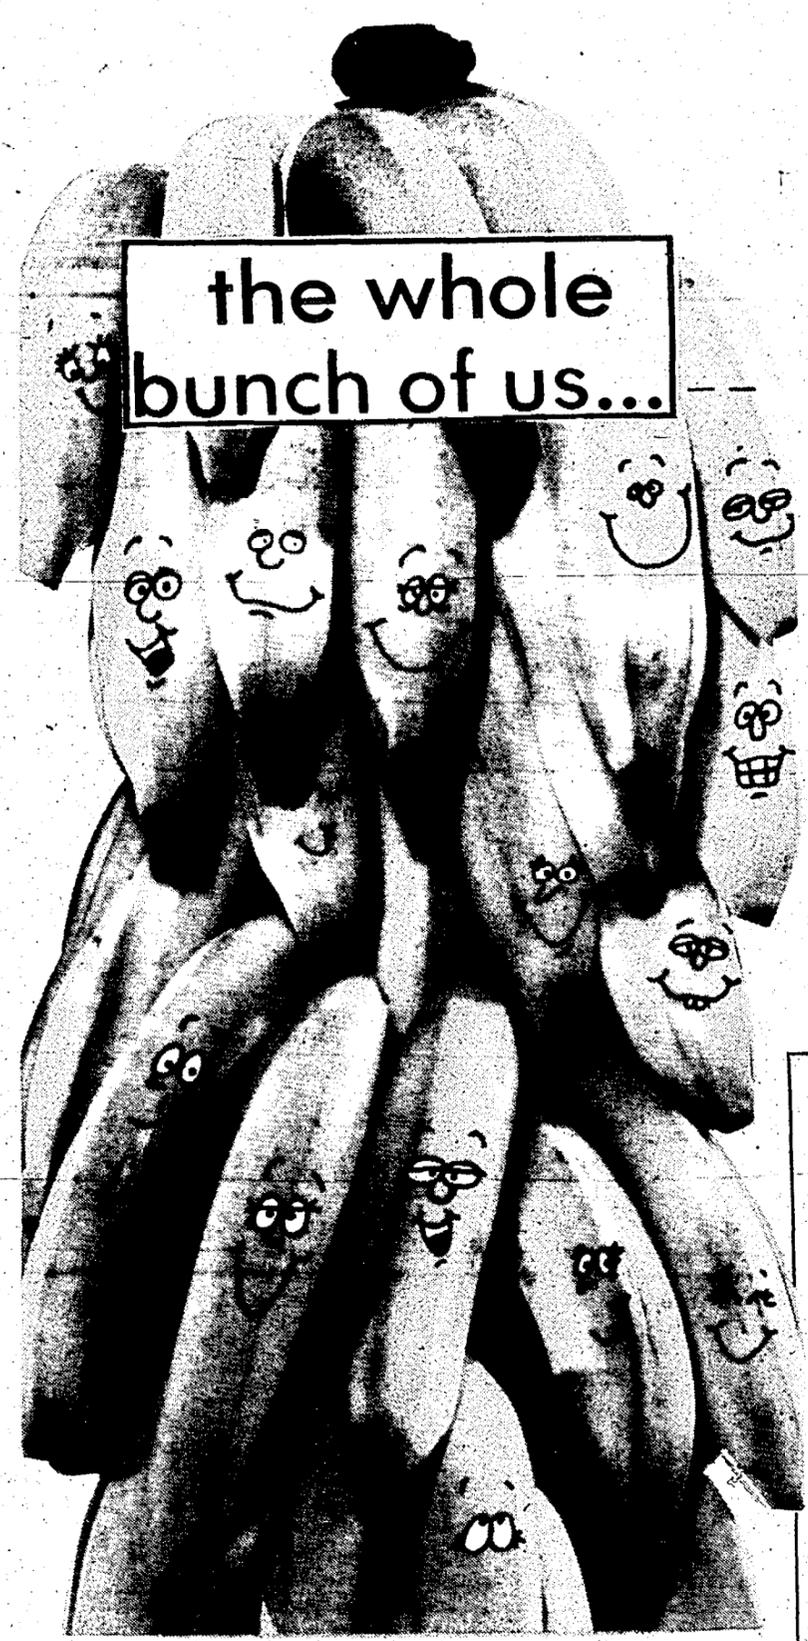

Bradley ignores law

EDITOR:

I am amazed at politicians who try to break the law and get caught, but to come out and say "I think he is getting a little carried away with this law enforcement business" is absolutely revolting and insulting.

Treasurer Ann Bradley made this statement about Bruce Phillips, Director of the Ordinance Department, who is trying to enforce Canton laws. The law is the law! No matter who you are, everyone must obey the law!

A NEW Canton police car met a sudden end Saturday night when a car smashed into its rear on I-275. The vehicle was towed to the Canton DPW yard after the accident. (Crier photo by Bill Bresler.)

Car wrecked; cops unhurt

Two Canton policemen escaped injury early Sunday morning when their patrol car was demolished in a freak accident on I-275.

According to the police report, Sergeant Jerry Cox and Patrolman Kurt Johnson were parked on the west shoulder of the highway near Cherry Hill when a Mercury Cougar slammed into their car's rear at a high rate of speed.

The officers had pulled over to help a motorist who was stalled with car trouble, said the police. Their car was hit while they waited for the stopped car to re-enter the highway, the police said.

John Vetter, 19, of Detroit, was driving the car which hit the police car, according to the report. He was charged with careless driving.

With a dead radio due to the crash, the officers had to rely on a truck driver to relay the news of the accident to police with his CB, said police.

Johnston was treated for minor cuts on his arms while Cox was unhurt, police said. The car, on the other hand, was destroyed. It was less than four months old.

Development group taps Kenyon

Meeting last Monday night at City Hall, directors of Plymouth's newly-formed Economic Development Corporation chose Ralph Kenyon of Hartsough Street as their chairman and Ken Way as secretary.

The corporation, whose by-laws were approved by the city commission earlier this year, is designed to attract more business and industry to the community by helping finance projects with interest-free revenue bonds.

"This will be a vehicle for attracting various commercial and industrial projects to the Plymouth area," said Jack Wilcox, a director of the corporation.

The group's next meeting is Aug. 8. "We're getting organized and ready for projects," Wilcox said.

Also serving as directors of the corporation are William Leonard, William Odom, Roland Schmidt, Clifford Tait and Ken Way.

Mark Wollenweber, assistant to City Manager Fred Yockey, urged persons or corporations interested in aid in developing a business in the area to contact the city manager's office at Plymouth City Hall.

Schools pick vendors

Bids for rubbish removal, milk and baking supplies and a multi media system were approved by the Plymouth-Canton Board of Education Monday night.

ITT Continental, the maker of Wonder Bread received the baking contract for the coming school year. Dan White of the schools' finance department said each loaf of Wonder Bread had 31 slices, giving it an edge over the competitors, Holsum Way and American.

Guernsey Farms Dairy of Northville received the milk contract, while Aaro Disposal will collect the district's rubbish next year.

The board also awarded a bid of \$13,530 to Learning Consultants to purchase a multi media system to improve reading and math skills for students in DeHoCo.

The multi media purchase will be totally funded by federal money, school officials said.

nutritional notes...

VITAMIN B-3

(Niacin -- flushing reaction; Niacinamide -- non flushing reaction.)
 Water soluble B vitamin necessary for making blood cells along with B-1 and B-2. Important for proper circulation and healthy functioning of the nervous system. Often prescribed in cases of mental and emotional disorders -- excessive depression & nervousness. In some cases may prevent migraine headaches -- helpful in maintenance of healthy skin. Natural sources: brewer's yeast, wheat germ & brown rice. Minimum Daily Requirement -- 10 mg. Therapeutically -- 100 mg. with each meal together with other B vitamins.

100 tablets (100-mg.) -- \$1.95

Growthworks gets grant

Youth Center remodeling set

Growthworks, Inc. a local social services agency, received a \$50,000 grant from Wayne County recently to renovate its building on Main Street.

The City of Plymouth made the application to Wayne County on behalf of Growthworks under the community development program, according to Assistant City Manager Mark Wollenweber.

"Canton and the township

also said Growthworks was a help in their communities," Wollenweber said. "The building did need significant renovation. The city made their application on their behalf because they are not covered by United Fund money and they do deliver services to our community."

A local architect has donated his services for the renovation and Growthworks mem-

bers will be putting a lot of "sweat equity" into the remodeling, Wollenweber said.

Included in the plans are a new roof, exterior improvements, and a heating system for a yet-to-be community room in the building at 271 S. Main.

"They are doing it almost on a shoestring," the city official said.

Jaycees praised

Were the Canton Jaycees playing favorites when they apparently invited some candidates but not others to attend a candidates' forum two weeks ago at their annual fair?

Several candidates said yes, and charged that members of the incumbent administration slate of Harold Stein may have received preferential treatment.

But one slate candidate,

Robert Schaeztl, said he too did not receive much notice of the affair. He did not, however, dispute the Jaycees' handling of the event.

In a letter to The Crier, he said, "I also did not receive an invitation, and learned about the event two days prior; about the opportunity to speak 10 minutes before the program began."

But, "nonetheless," he said, he enjoyed the program.

New pupils need shots

All children new to the Plymouth-Canton Community Schools or entering school for the first time must have proof of immunization before they are permitted to start school in August. The policy here is in line with Michigan state

law, the schools say. Michigan Public Act 299 states that diseases that can be prevented by immunization are an unnecessary hazard to the health of children in the classroom, to their family, and to others in the community.

By order of the Michigan Director of Public Health all new school entrants must have written proof of immunization.

To comply with the law, parents must provide the schools with a statement signed by a physician that their child has received four kinds of vaccines. They must be immunized against measles and rubella; and they must have received a minimum of three doses plus a booster of oral polio vaccine and DPT (Diphtheria, pertussis, and tetanus).

If immunization is against the parents' beliefs, they must sign a waiver form which is available at the child's school. This form must be signed and witnessed in the school. If a child has not received the necessary immunizations, they can be obtained from a family doctor or by contacting the Wayne County Department of Health.

Darlene Huyck, Plymouth-Canton Community School nurse, can answer any additional questions about school immunization policy. She can be reached at the office of Pupil Personnel Services at 455-0470.

What's happening

CANTON CHAMBER BBQ

Aug. 6th will be our Third annual chicken barbeque. It will be held at Griffin Park (Canton Center Road, north of Cherry Hill). Buy advance tickets at the Chamber office or contact any Chamber member. Carry outs will be available.

ABUSE HELP

Twp. to get stop signs

The Wayne County Road Commission has announced plans to install stop signs at several Plymouth Township intersections.

A four-way stop is slated for the intersection of Farmbrook and Ivywood in the Lake Pointe Village area. Stop signs have been approved for Beacon Hill Drive at Beacon Hill Court and Concord Drive, and on Bonnie Brook at Glenview Drive and Portsmouth crossing road.

Also, traffic on Aspen Drive will now have a stop sign at Parkview Drive.

Real Estate
BY WILLIAM DECKER
REALTOR

FINANCING INCOME-PROPERTY

If you are contemplating the purchase of income property, the question of how large a mortgage loan you should have will undoubtedly arise. Those who specialize in this type of real estate, almost to a man, go on the philosophy that income property should be purchased with as large a mortgage as possible provided the property yields enough net income to meet mortgage payments.

percentage of investment return. In no other investment do you have the opportunity to use leverage (a small percentage of your money to a great percentage of another's) like you do in real estate. So, the larger the mortgage loan, the further your own money will go.

From the standpoint of investment analysis, it can be shown that this policy usually gives the greatest capital gain, the largest amount of tax-free income, and the largest

If there is anything we can do to help you in the field of real estate, please phone or drop in at REALTY WORLD, Wm. Decker, Inc. Realtors, 670 S. Main St. Plymouth. Phone: 455-8400. We're here to help!

Unopposed Davis quizzed on court

Here are the answers to the questions posed by The Community Crier to Judge Dunbar Davis, who is running unopposed for a seat on the 35 District Court bench.

1. Why are you a candidate for judge?

2. What experience do you have of the Plymouth-Canton-Northville area that will make you an effective judge?

3. Are the railroad fines for blocked crossings adequate? Why?

4. What is your attitude towards juvenile offenders? Is the present system effective in keeping young offenders to a minimum in this area?

5. Will you hold night court to accommodate citizens whose work hours don't allow them to appear during the

day? If not, why? How many nights?

6. Do you think police officers spend too much time in court? Why? How would you change it?

1. I enjoy the work as judge. I like to think I do a workmanlike job.

2. I was a practicing attorney for 30 years, Municipal Judge of Plymouth for 1½ years and District Judge almost 10 years.

3. Yes. The purpose of fining the Railroad is to motivate it to cause the least possible disruption and inconvenience to traffic. For 9½ years the 35th District Court has maintained an ongoing study of measures to be implemented by the RR to this end. The schedule of fines used by the Court has been adequate to attain compliance.

4. Juvenile Court, rather than District Court, has jurisdiction over juvenile offenders, the 35th District Court has a very active Probation Department that utilizes part time professional counseling and psychiatric services as well as approximately 85 Volunteers working one to one to help youthful offenders become useful, law abiding citizens.

5. From its beginning the 35th District has had extensive night sessions of Court. Night court will be held as often as is needed.

6. Yes - any time spent

waiting in Court is too much. Suggestions to alleviate time spent in Court waiting for cases, not only by law enforcement but by citizens in general, have been solicited by this judge, and received, from State Police, local Police and interested observers. When appro-

priate, these suggestions have been put into practice. This is an area of court procedure that should be of continuing concern and study, with an emphasis of having witnesses on call to appear in one hour rather than waiting hours on end for their case to come up.

Write-in vies for Canton trustee

SALLY MUNDO

Sally Mundo of 6353 Courtland in Canton has announced that she will be a Republican write-in candidate for a Canton trustee seat in the November 7 election.

A resident in the Pickwick Village subdivision since 1974,

Mrs. Mundo said she is running because she "wants the average citizen of Canton to have a voice" in Canton politics.

"The township should be open to all groups and more opinions should be welcome," the November hopeful said. She is married and the mother of three children.

Section 582 of the State Election Law states that write-in candidates must receive not less than 10 votes a total number that equals 15 per cent of the total votes same party candidates receive in the primary election.

In this instance, Gary Roberts is the only other Republican running for one of two trustee seats in Canton. Mrs. Mundo will have to receive a number equal to 15 per cent of Roberts' votes to qualify for the ballot in the Nov. 7 election, Canton Clerk John Flodin said.

Bresler, Farhat exchange vows

William J. Bresler and Susan E. Farhat of Plymouth were married June 24 at the Mercy Center in Farmington. Father Robert Schaden officiated.

Janet Farhat was the Maid of honor, while Nick Petsikas was the best man. Bridesmaids were Beth Bresler, Sue Thill, Linda Witkowski and Sandy Watts. Ushers were Gary Farhat, Mike Carne, Dave Lambert and David Farhat.

William is the son of Mr. and Mrs. William F. Bresler of Lansing, and Susan is the daughter of Edward L. Farhat of Livonia.

The couple honeymooned in St. Croix in the U.S. Virgin Islands. Bresler is the Photo Editor of The Community Crier.

BILL AND SUSAN BRESLER

THE FIFTH annual "Fly High" to benefit the Muscular Dystrophy Association on Saturday, July 29 and Sunday, July 30 from 11 a.m. to 5 p.m. will be at Mettetal Airphort in Canton. Tickets are \$7.50 per adult and \$5 for children under 12. Additional entertainment will include clowns, mimes, magicians, and local celebrities. Local pilots will be volunteering their planes and services. These pilots are, left to right, front row, Dorothy and Don Ross, Janet Bone and Bob and Shirley Hoton. Rear, Greg Bollella, and Austin Lynch. Not pictured is Barb Lynch.

Pilots aid MD drive

Mettetal Airport on Joy and Lilley roads will be the site this Saturday for an annual Muscular Dystrophy benefit.

Pilots at Mettetal will "Fly High for Dystrophy" and provides rides for the public in return for a \$7.50 donation.

Celebrities, television and radio personalities and clowns and mimes will also be on hand for entertainment. Refreshments will be available.

The benefit will begin at 11 a.m. Saturday and end at 5 p.m.

CEP schedule

The Centennial Educational Park scheduling "arena" will be held Aug. 11th through Aug. 18th. The following is the time schedule.

Aug. 11, Special Education Certified Students from 11 a.m. to 2 p.m.

Aug. 14 Seniors: A - B 8 a.m. - 8:30 a.m.; Q - R 8:30 a.m. - 9 a.m.; S - T 9 a.m. - 9:30 a.m.; G - H 9:30 a.m. - 10 a.m.; E - F 10 a.m. - 10:30 a.m.; C - D 10:30 a.m. - 11 a.m.; N-O-P 11 a.m. - 11:30 a.m.; L - M 12:30 p.m. - 1 p.m.; I-J-K 1 p.m. - 1:30 p.m.; U-V-W-X-Y-Z 1:30 p.m. - 2 p.m.

Aug. 15 Juniors: same schedule as above. On Aug. 16 Sophomores will register, followed by Freshmen Aug. 17. Aug. 18 is make-up day.

Students will receive information in the mail with complete instructions. Students who cannot be present at the appointed time should plan to send someone with their information to represent them in the arena. It is essential that every student participate in the arena, Canton High principal Kent Buikema said.

ROBERT B. DELANEY
ATTORNEY AT LAW
747 WEST ANN ARBOR TRAIL
PLYMOUTH, MICHIGAN 48170

July 24, 1978

Re: Maurice Breen, Esq.
I have known Mr. Breen for more than 20 years and know him to be a person of high moral character, intelligence and judicial temperament. He is an excellent family man and has considerable experience in dealing with young adults and other residents of the Northville, Canton and Plymouth area.

As a successful practicing attorney in Plymouth, he has handled a wide range of both civil and criminal matters, which is essential to the judicial disposition of the type of legal work normally encountered in District Courts.

In my opinion his qualifications for Judge of the 35th District Court are outstanding and he merits our support.

Very truly yours,

ROBERT B. DELANEY

Paid for by Robert B. Delaney, 747 West Ann Arbor Trail, Plymouth.

Koi gets Legion job

Dorothy J. Koi became the first female Legionaire elected as State Finance Officer of the Michigan American Legion in its 60 year history recently. She received the entire 1,974 delegate votes cast during the closing session of the annual Convention held in Grand Rapids.

Mrs. Koi has also been a first in other activities in a basically male membership oriented organization of veterans. She served as a State Vice-Commander during the 1975-76 Bi-Centennial year and was also the first woman to be Commander of the Myron H. Beals Post of Livonia and also the American Legion's 17th District Association.

Before that, while she was a member of Plymouth's Passage-Gayde Post, she was elected to four consecutive terms from 1957 to 1961 as State Historian.

During her 25 year Legion association, Mrs. Koi has served on numerous local, District and State Committees as a member as well as a Chairperson. She has been Director VIP of the Michigan Echelon No. 18, the 20&4, which is an Honor Society of Women Legionnaires of the State and National organization.

She is a WWII Army veteran and was in the Finance Section of the Second Air Force Headquarters at the time of her discharge from the service in 1945.

She is currently employed by the Plymouth-Canton Community School District, in the Buildings and Grounds Section.

Shelter OK

Plymouth Township trustees were scheduled last night to consider approval of plans for a partially-enclosed meeting room and shelter for the township Recreational Park on Ann Arbor Trail.

Festival plans set

Fall Festival plans are well underway for the Oddfellows Flea Market and the Fall Fest Costume Contest, sponsored by the American Association of University Women (AAUW).

Applications for the Odd-fellow Flea Market will be sent to anyone interested in displays at the market. Table space will be available inside and outside of the Oddfellow Hall on Ann Arbor Trail, and will run all four days of the Fall Fest, Sept. 8, 9, 10, 11.

The Rebekahs will again be selling hot dogs and root beer during the four day fest. For further information on the

Flea Market, call Earl Gray at 453-0477.

For historical fashion fans, the AAUW Costume Contest theme this year will be the 1890 through 1910 era.

Authentic costumes or a good reproduction are required for the fashion competition to be held Sunday, Sept. 10, the AAUW says.

For old-time fashions advice, the AAUW suggests entrants visit the Plymouth Historical Museum for ideas. All costumes must be complete except for footwear.

Categories in the contest will include: family, of two or more related persons; children, up to age 14; and adults, age 15 and up.

One of the most exciting and memorable experiences for anyone is to see and ride on the Chessie Steam Train. But nothing can surpass the excitement of being able to ride up front in the steam engine. I felt like a little kid on Christmas morning with that special wish coming true, when Ken Cotten, train manager said, "OK if you really want to ride up in that hot, dirty engine, let's go."

So dressed in the engineer's jacket, gloves, goggles and hat, up I climbed into the cab. Thank heavens there weren't any photographers around. It was so thrilling to be up there where the action is watching them shovel coal, apply the brakes, blow the whistle and see just how that mighty steam engine runs.

Every speck of dirt and grime I had to scrub off was well worth it. Thanks to all the railroad personnel for being so nice.

I would also like to point out one thing. There were no problems with the train when I was up there, so let's watch that stuff about females bringing bad luck to the engine, which I was told before I talked them into giving me a chance.

The Chessie will be going through Plymouth again this weekend so don't miss your chance to see it.

Along with the trains there are other fun things to enjoy in Plymouth. Every Thursday evening The Plymouth Community Band presents a band concert in Kellogg Park. The theme for tomorrow night's concert is "South of the Border", and next Thursday, the last concert of the season, the theme will be "LaMer." Bring your lawn chairs (the grass is comfortable too) and sit back and relax with your friends and neighbors and listen to the great sounds of the Community Band.

Tammy Tervo of Plymouth participated in a Summer Youth Program sketching course at Michigan Technological University in Houghton. During the week long workshop, Tammy learned to draw with pencil, pen and ink.

Students from Plymouth who will be freshmen at Western Michigan University this fall recently completed a three-day orientation program there. Learning their way around campus were Laurie Herr, John Marshall, Linda Bar, Matthew Priebe, Dawn Halliburton, Karen Sweeney and Mary Marsh.

Highball, 2101!

ANDY DARGIE climbs into the cab.

Excitement and black smoke filled the air when the Chessie Steam Train roared into Plymouth. Children and adults of all ages greeted the big iron horse, a common sight here at the turn of the century.

The Chessie Steam Special, a steam excursion passenger train running from Detroit to Clio is visiting the Plymouth area in its second season. Chessie decided to run the Steam Special, drawn by Reading Locomotive 2101, again this year, "because of hundreds of requests from those who rode it last year, or saw it churn along the rails through their fields and neighbors," said Milton Dolinger, director of public relations and advertising for the Chessie System.

Passengers and sightseers along the tracks had something in common -- they were here to relive a part of America's past. The warm, friendly attitude of the passengers and the railroad personnel reflected in the smiles of people waving to the train as it passed.

Train buffs with cameras around their necks climbed the steep, grassy hill when the train stopped for the photo

run-by. The clicking of shutters and whirring of movie cameras was completely drowned-out by the train whistle.

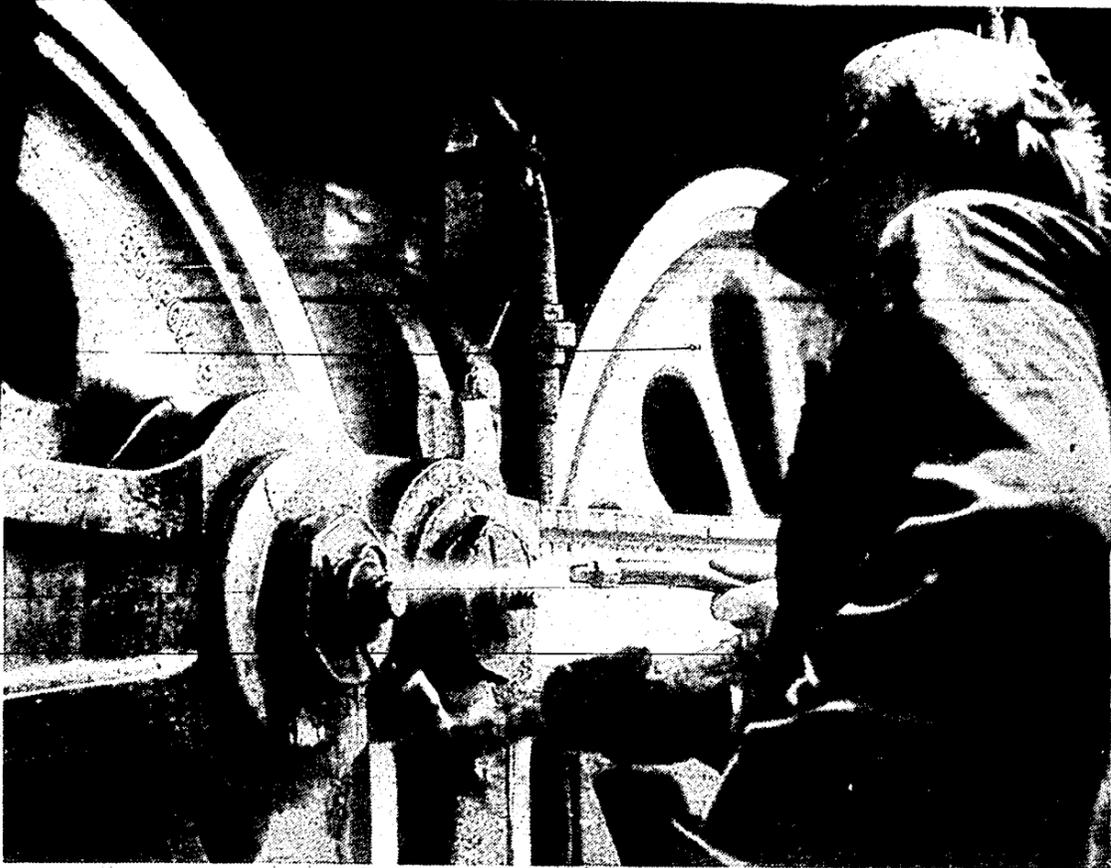

In residential sections, people stood on their porches, and in some areas, people had picnics near the tracks, all in the hopes of getting a glimpse of history. It was surprising to see someone standing in what seemed like the middle of nowhere with a camera, just waiting to see the Chessie.

The one-of-a-kind passenger train was a special thrill for everyone riding and watching it. According to William Howes, director of the steam train program, "there are no plans at this time to run the program again next year."

The Chessie will be in Plymouth again this weekend. It is scheduled to leave Plymouth at 9 a.m. and return at 6:30 p.m. on Saturday and Sunday. Tickets are available at Beitner Jewelry on Ann Arbor Trail in Plymouth. If you can't be a passenger, don't miss this chance in a lifetime to see for yourself and show your children part of America's past -- the steam train.

Hulsing, Fidge vie for Twp. clerk

Crier Editor Chas Child interviewed recently Esther Hulsing and Lee Fidge, two of three candidates on the Republican primary ballot seeking nomination as Plymouth Township Clerk.

No Democrats are contesting the office, so the winner of the Aug. 8 primary is virtually assured election.

The third candidate, Frances Ardanowski, did not respond to a Crier request for an interview.

On the sewer vote: "if the people say 'no', I would like the township to fight it out in court."

LEE FIDGE

LEE FIDGE

Saying she has the most experience for the job, Trustee Lee Fidge is running for Plymouth Township Clerk.

"I've prepared myself for the job with courses in book-keeping, federal funding, revenue sharing and land management," she said. "And I think my term as a trustee on the Plymouth Township board has been a good apprenticeship for the Clerk's job."

In an interview with The Community Crier, Fidge said she supports unifying of services provided by the township and the City of Plymouth, although she voted against setting up the committee which is now studying the possibilities.

"There have been many studies prepared," she said. "Besides, the committee does not have to implement unification of services. We, as the board, have the responsibilities."

She also said the unification of services committee chose a difficult service to study -- fire protection. Solving the problems of Tonquish Creek flooding may get better results, she said.

On the primary ballot proposal that asks voters to fund sewer extension in the township, Fidge declined to say how she would vote. She said she supported the extensions to existing developments that need sewers, but did not support extensions to undeveloped areas.

"If the people say 'no,' however, I would like the township to fight it out in court so we only have to extend them to already developed areas. I don't think any court would deny us our request," she said.

Another ballot proposal asks voters if the township should purchase about 34 acres near Hilltop Glen Golf Course to expand the course from nine to 18 holes.

"I support buying the property for three reasons 1) to expand the golf course, 2) to expand open land in the township, and 3) to expand the Tonquish Creek retention basin," said Fidge.

Also on recreation, she said she strongly supports buying land for the township, not only in the western half, but in the eastern half. "I would also like township-wide bicycle paths," Fidge said.

Tennis courts and a swimming pool at the township park are "way down the line," she said.

Although many people have said the opening of M-14 through the township will bring a lot of development, Fidge said this does not have to happen. "We should hold a very hard line, especially on commercial developments

On growth: Setting minimum lot sizes of one-half acre would be an effective measure to control growth.

ESTHER HULSING

along the exits," said she.

The basic concepts of the township's land use plan unveiled last year are good, she said. However, it calls for a population of 65,000 to 77,500, which she said was too many. "There won't be enough sewer capacity to handle this growth, even with the super sewer," Fidge said.

To cut response time to fires, Fidge said she supports two more fire stations in the township.

Also, now that the state legislature has passed a bill (4030) that protects charter townships from annexations, Fidge said it might be good to seek charter status.

ESTHER HULSING

Esther Hulsing, candidate for Plymouth Township Clerk, said the City of Plymouth and the township should share services such as recreation, police and fire protection.

In a Community Crier interview, she said she also supports extending sewers to the people who need them in the township, as well as growth management and getting more people involved in local government.

Hulsing faces two other Republicans in the Aug. 8 primary, Frances Ardanowski and Lee Fidge.

"We should co-ordinate our efforts," she said, referring to services that could be shared by the city and township. "Police protection is our most pressing need."

She also said that acquiring charter status for the township might be a good way of forestalling annexation, considering the legislature recently passed a bill protecting charter townships' boundaries.

Regarding the Aug. 8 ballot proposal which asks voters if the township should extend its sewer system, Hulsing said she supports the plan.

However, the ballot proposal is not the best solution, she said. If it is passed it will give sewers not only to developed areas which need them, but also to some

undeveloped areas, said the candidate.

"Ideally, we should extend the sewers in stages, but we are under a court order to build them all at once. If we can't change that, I would make the best of a bad situation and build the sewers, she said. "It is probably cheaper to do it all at once; anyway, and the longer we wait, the higher the cost."

On growth, Hulsing said she would like to slow it down. Setting minimum lot sizes of one-half acre would be an effective measure to growth control, she said.

The Township has to be careful on lot-size minimums, however, because it might prevent a good mix of age groups and persons with different backgrounds, which she said she favors.

"Developers want to make money, and when they're done the local government is left with the problems," she said. "I don't want to see any 500-house subdivision or any 200-house subdivisions for that matter."

"I want Plymouth Township to stay the pleasant place it is to live with growth accomplished slowly," said she.

On recreation, Hulsing said expansion of the facilities at the township park should be studied by a citizens committee. Also, a study is needed to determine if the township should expand Hilltop Glen Golf Course from nine to 18 holes, she said.

Voters will be asked in the primary if Plymouth Township should proceed with negotiations to buy land to expand the course.

Overall, Hulsing advocated getting more people involved in township government, especially on short-term citizens committees. "It is the closest level of government to the people," she said. "People can be effective in local government."

She said she also favors opening a third fire station in the western portion of the township for faster response times.

Commenting on the criticism made by some observers that the clerk in Plymouth Township has assumed many duties of the supervisor, Hulsing said she would not make any changes until she was elected and knew the job thoroughly.

9-story project eyed

Cont. from pg. 1

"There are distinguished people in our community... who will come to the time when they need somewhat less space and (wish) to be relieved of the responsibilities of maintaining green vistas. They want to be free to travel, but wish to maintain a dwelling with amenities in Plymouth.

"An office building for tenants' use and for their service would complement the dwelling (apartments), make

the project more financially feasible and create a home-work environment for those who desired one," Stremich said.

The investors said the lack of other homes around the parcel, the proposed project's substantial contribution to local tax revenues, a minimal affect on school loads and the nature of the project were all "positive factors" for a rezoning request that would be required.

LWV quizzes hopefuls

GARY ROBERTS

1. I like the ideal of preserving farm lands, providing that the land is used for the Farmers Market Program. The things that I question: Price of development rights, will there be any legal problems with farmers in the future? Who decides that he doesn't want to be involved after a few years. Will land be farmed, or will it set and become a sore eye? This preserved farmlands should be studied very carefully, and the people should be able to vote on it.

2. a. 1.) Public Library. 2.) Recreation for young children and adults. 3.) Township programs for Senior Citizens who want to work and be involved. b. The very best training for Police Officers and the very best equipment. Benefit programs, and a security for wives or husbands of Police Officers who lost their lives in the line of duty or who become disabled.

3. Land should only be purchased for recreation or improvements of Township offices and Police and Fire Dept. for enlargement.

4. Yes, there should be a program of measuring the growth, with the growth of our facilities. The way to accomplish this, is having a timetable which includes minimizing building permits. A system is the only way you can be successful.

JOHN FLODIN

JOHN W. FLODIN

1. I certainly do favor the preservation of farmland by the purchase of development rights by the Township, but the implementation of the program is no simple task. The people of this community must first agree that this is their majority wish, and that they are willing to finance the purchase. If this is accomplished, the next step is to negotiate the purchase with the owners of the land. The process will be long, but if we are successful yet unborn generations will thank us.

2. I feel that the Township should maintain a surplus fund of \$500,000.00 for unforeseen contingencies. This rapidly growing community is in need of many public improvements. The Township Board should carefully study and establish priorities for the use of this money. The full time Police Department has not completed a full year yet, and is such there are no records yet available on the exact cost of this effort. If surplus monies exist, I would favor a reduction in this millage.

3. Anything the Township purchases is paid for with tax dollars. The Township should continue its policy of purchasing land for parks. These lands will soon be gone. The land recently purchased for an industrial park will return huge dividends in tax base, and with the sale of industrial sites the money will be returned to the general fund. An aggressive program should be started to stimulate the construction of non-residential tax base in the township, which will provide new jobs and much needed tax base.

4. I am not sure I favor a growth control policy, but recognize there is a need for some control. Sanitary sewer capacity for future growth is limited, and future sewer capacity has not yet been agreed upon. This soon will limit growth. Large lot zoning is another method of control. Acquisition of development rights will remove 5,000 acres from development possibilities. I have been privileged to live in Canton Township most of my life. It is an excellent place to live. It is a difficult task to participate in legislation which might prohibit citizens from sharing it with us.

Community deaths

Walaskey

Margaret R. Walaskey, 67, of Plymouth Township, died July 19 at St. Joseph Mercy Hospital in Superior Township. Funeral services were held at United Assembly of God with Pastor Edmund Lothar officiating. Funeral arrangements were by Schrader Funeral Home. Burial was in Riverside Cemetery.

Mrs. Walaskey is survived by her husband, Rev. John Walaskey; sons, John Hilton of Hillsdale, David Edward of Henderson, James Daniel of Plymouth; daughters, Mrs. Jane Ruth Cochran of Belleville, Mrs. Eva Marie Wortz of Belleville; brothers, Vincent G. MacKay of St. Thomas, Ont.; sister Bertha McNally of Miami, Fla.; and 15 grandchildren.

She came to Plymouth in 1935 from Detroit and was

a member of the United Assembly of God church in Plymouth Township, assistant to her husband at that church, active in Girl Scouts, President of Church Women United in Plymouth; sectional representatives in Southeastern Michigan Women's Ministries - Assemblies of God; and also affiliated with Farmington Hills Christian Center.

Beal

Salana C. Beal, 89, of Canton, died July 17 in Westland. Funeral services were held at Schrader Funeral Home with the Lt. William C. Harfoot of the Salvation Army in Plymouth officiating. Burial was in Cadillac Memorial Gardens in Westland.

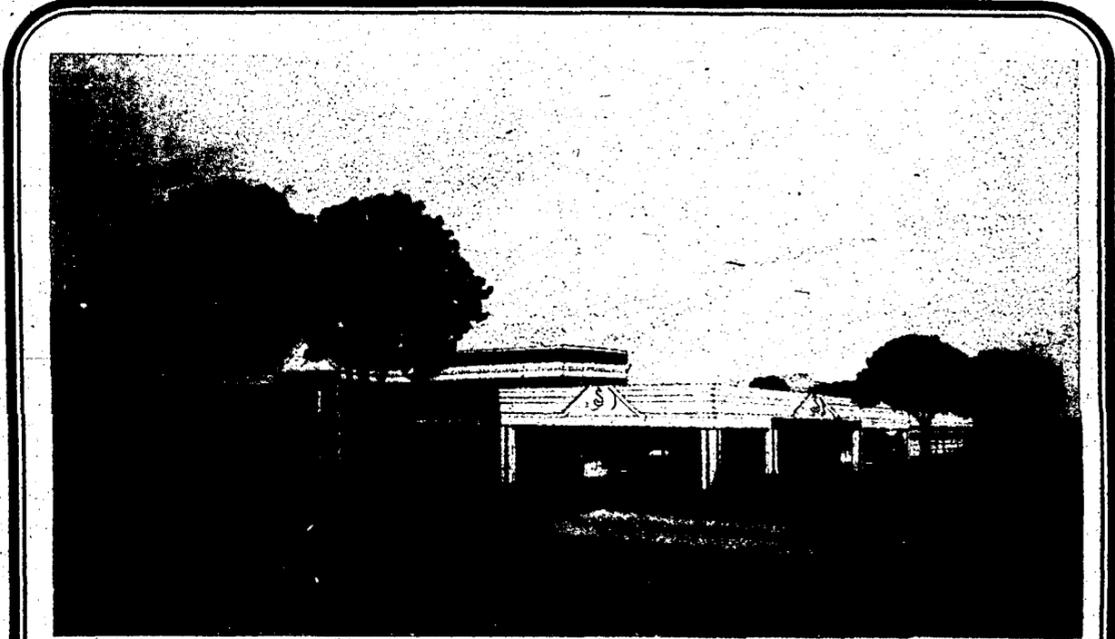

She is survived by a daughter, Mrs. Mary Krout of Kansas City, Mo.; several grandchildren, great grandchildren and great-great grandchildren.

Hauk

Alvin E. Hauk, 71, of Detroit, formerly of Plymouth died July 16 in Detroit. Funeral services were held at Schrader Funeral Home with The Rev. Samuel D. Stout of the First United Methodist Church officiating. Burial was in Grand Lawn Cemetery.

Mr. Hauk is survived by his wife, Rae; son, Clarence of Detroit; daughters, Mrs. Marabelle Virgin of Redford, Mrs. Marjorie Urbani of Dearborn Hgts., Mrs. Erma Primeau of Fenton, Delores Malicki of Detroit; sisters, Mrs. Wilhelmina Miller of Clermont, Fla., Mrs. Leona Hatcher of Plymouth, Mrs. Wilford Heidt of South Lyon, Mrs. Loretta Laura of Clermont, Fla.; six grandchildren and one great-grandchild.

He was a driver for the U.S. Mail and had lived on a farm at Warren and Beck Roads until 1934.

WE'RE EXPANDING

To meet the needs of our growing community, and to continue to provide the most complete facilities in the area, we are currently expanding.

During this time, the Schrader Family will continue to provide the highest degree of personal, considerate and complete service just as we have, every day, for 74 years.

Crowded field seeks Canton jobs

The League of Women voters, a non-partisan organization that promotes political responsibility in the Plymouth-Canton area, asked the following four questions for candidates running for office in Canton. The League does not endorse or oppose any candidate of any political party. As a service to our readers, The Crier is printing the responses.

1. With the information available to you at this time, do you favor the preservation of farmlands through the purchase of development rights? Explain.

2. List your priorities for any present or future surplus monies in the General Fund; list your priorities for any present or future surplus monies in the police budget.

3. What should be the role of the Township regarding the purchase of land with tax dollars?

4. Do you favor a growth control policy? If so, what measures would you favor to implement effective growth control in the Township? If you do not favor such a policy, please explain your position?

NOEL CULBERT

1. Yes. However, I believe that these rights would have to be purchased through federal or state monies, since the voters would probably reject any large millage for development rights.

2. My first priority is to rebate one mill to the taxpayers since they had to pay for increased and new millages (which helped establish the surplus.) Then money should be used for township recreation needs (purchase of land and new programs.) Some reserves should be used for establishment of a township library. Any police budget reserves should be used to upgrade the quality of the department.

3. The township should, in line with the budget, purchase lands for recreation. Any large purchases which would add to the taxpayer's burden should

The answers of two more candidates, Gary Roberts and John Flodin, appear on pg. 29.

be done with only the consent of the people.

4. Absolutely. I would immediately declare a building moratorium since Canton has reached, or will reach in the immediate future, maximum sewer capacity. Thereafter, building permits would be rationed out while the township developed a master plan which would deal with the growth control problems.

HAROLD STEIN

1. The information presently available on the purchase of developmental rights is not complete. While I support a program that is economically feasible and fair to all parties, as Supervisor, my position has been one of initiating those studies that would explore both the pros and cons of buying developmental rights and presenting this information to the public for their consideration. Most recently, I favored the formation of an 'education' committee to acquaint all voters with the ramifications of a Farmland Preservation Program. This would prepare Canton's electorate for a ballot-issue question - where I believe the issue should ultimately be decided.

2. Part of the general surplus should be returned to taxpayers in the form of reduced millage, where possible. Some should also be held in reserve to provide various services and facilities that are necessary to a growing community and that may not be covered by federal funds. With the possibility of some federal funds "drying up", it's imperative to protect this reserve for future needs in the areas of public safety, recreation etc. While I don't feel there will be a surplus in the police budget, should that situation present itself, I would favor its being used to further enhance the professional nature of the department, i.e. through improved techniques, additional equipment etc.

3. I believe that where good value dictates, the Township should purchase those properties that will benefit the community as a whole, i.e. recreational sites and industrial park sites. The long-term ad-

vantages are multi-fold: Recreation sites, for example, promote open-space, family oriented leisure areas; in the case of industrial parks, the economics are that as the land appreciates, business is induced to develop in our area, resulting in a broadened tax base and a reduced tax burden on homeowners.

4. Yes. I strongly support a comprehensive land-use plan that promotes orderly, balanced growth and a broadened tax base from commercial/industrial sources. In pursuing a workable plan, I will continue to use citizen input and many of the findings and suggestions of the Professional Growth Management Study, which I initiated in my first term.

ANNE BRADLEY

1. First, I believe those people directly affected by any developmental rights purchases - the farmers - should have more of a voice on this issue. Second, as elected representatives, I believe it is our responsibility to see that all voters are informed on the advantages and disadvantages of purchasing development rights. This is why I supported formation of a non-partisan committee to acquaint voters with all aspects of preserving farmland, so that this question may be resolved in a democratic fashion, by a majority vote, at the ballot-box.

2. If possible, I would like to see some of the general fund surplus used to give taxpayers a break through reduced millage; and part of it held in reserve, either for arising needs, emergencies, or for that day when federal grants may not be as readily available as they are now. I don't foresee any surplus in the police budget. However, should that happen, I believe that safety-first in a growing community like ours demands that we explore the possibility of expanding our police patrol.

3. Most who know me as Treasurer, also know my reputation for being thrifty. And part of being thrifty, I believe, is making those smart buys that work for the

betterment of the community and its future. So, when it's economically feasible, I do place a value on the public purchase of parks, senior-citizen meeting or recreational sites, and industrial parks as examples.

4. Like most Cantonites, I too would like to see some of our open space preserved. I also realize that there are legal limits to confining growth and that some allowances must be made for the market of new homebuyers, like young couples purchasing their first home. While I do not pretend to have the ultimate answer, I do know that a 'bedroom' community cannot support all community operations and services. So part of the answer, I believe, lies in pursuing a broadened commercial and industrial tax base that spares homeowners a disproportionate share of the tax burden.

JAMES R. DONAHUE

1. We must consider preserving farmlands through purchase of development rights for two reasons: economics and aesthetics. Evidence is showing lower costs using preservation-through-purchase rather than providing services required by development. Caution must be exercised when setting values of the development rights so all landowners are protected, receiving equitable sums for these rights. Secondly, few people want Canton to become a repeat of nearby suburbs. The open, "rural" appearance of Canton is pleasing - and makes the value of our homes increase at a rate second to none.

2. Uses for overages in the General Fund: 1) Create a reserve in high-yield savings for emergencies (i.e. last winter's snow storm); 2) Facility improvement for the Police Department; 3) Increased locations - Fire Department; 4) Staff handling residents' complaints with new home construction. Police budget: 1) Increased manpower; upper limit: one officer per 1,000 residents (this level recommended by law enforcement experts). If overages persist after meeting the required needs, **REDUCE TAXES.** Government is not meant to be

profit-making. Taxes must only be used to generate the money truly needed for operation.

3. Government should only purchase land when it benefits a majority of the community. Government is neither land speculator nor realtor - and it should not make the mistake of thinking it is. Purchased lands should be directly usable by the people (parks, etc.), or needed for the operation of services (Fire, Police, D.P.W., etc). One exception: land should be purchased when it provides an immediate relief for a clear majority of the community from either property taxes or undesirable uses.

4. There's a nationwide effort by communities - organizing their growth pattern and rate so their physical and financial abilities to serve are not outstripped by the influx of new residents. Property owners should not be overburdened with tax increases funding school and services required by uncontrolled growth. The necessary stability could be achieved through adopting the 1976 Zoning Ordinance implementing the voter-approved Master Land Use Plan. We must guard against uncontrolled growth - leading to a lowering of the quality of life to all while increasing the costs to everyone.

CAROL BODENMILLER

1. Yes, I favor the preservation of farmlands through the purchase of developmental rights as outlined in the 1976 Land Use Plan and coupled with tax reductions for the affected areas. If we don't purchase developmental rights the cost of providing municipal services to the farmlands will exceed the original cost of the "rights". The homeowner with assessed valuation of \$26,000 who lives in the township 7 years will pay a total of \$142.99 in additional taxes. If the same taxpayer stays 15 years he recovers an investment of

...hopefuls answer LWV questions

\$142.99 and may save an additional \$780.26. (Seidman and Seidman Report)

2. Surplus monies in the General Fund should be used to hire a growth control expert so we can plan the township growth in an orderly rate. This growth then will not be a burden to the homeowner. We should raise the salaries of our police officers to make them comparable to other full time police departments.

3. At present the township is negotiating to buy and prepare, with utilities, land for industrial use. The problem lies in the fact that to entice industry to Canton these industries are generally granted a tax exemption up to 50 per cent for 12 years. Therefore, no real money is being brought into Canton, only expenses going out for developing these lands - utilities etc. Schools would not benefit because the Industrial Facility Tax goes back to state and is then distributed among other school districts for state education aid. Proposed industrial land purchase plus golf course puts township budget in the red. As a member of the Charter Township Act we are not to exceed our budget. Article (5.46(29)).

4. Unregulated residential growth rate has an adverse effect on our school system (recent millage failure) highways, sewers etc. In order to have growth control the township board must devise a method to regulate the rate at which the community grows to the desired population. We need the expertise of a growth control expert in an advisory capacity to see what is and what is not allowed by law to control growth.

sation should consist of reimbursement of past taxes paid as a result of the inflated land values and a reduction of present assessed valuations to an amount consistent with the land's actual use as farmland. Owners of farmland should be compensated for the burden they have shouldered, but land speculators should not be rewarded.

2. A top priority should be the reduction of the millage rate. A declining tax rate will encourage industrial development, thereby increasing the tax base without expense to township residents. As an alternative, surplus could be used in funding the fire and police departments, allowing those special millage rates to be lowered. With the possibility that a tax limitation or rollback might be imposed in the State by voters in the November election, Canton Township should be prepared. The surplus could also be used as initial funding of a development rights purchase plan, decreasing the eventual tax burden if such a plan is adopted. Any surplus in the police millage should be used to increase police protection. The present ratio of one full time police officer for every 2700 residents is inadequate.

3. Taxpayers' dollars should not be used to purchase and develop land for private enterprise. Government should not be involved in land speculation. Land should only be purchased for public use and proper governmental purposes.

4. I do favor a growth control policy and I suggest limitation of building permits below the present unregulated level and rezone residential areas to require larger minimum lot sizes. Also, the Township Board should deny all present and future requests for rezoning of land to smaller lot sizes.

lars in local taxes now and in the future. The concept for purchase of development rights was also originated by me, and the funding was to come from the Federal Government on an experimental basis. It is not too late, but not much time is left.

2. General fund surplus should be handled as follows: an amount be kept for a "rainy day fund" unforeseeables; the balance be directed primarily to the police department until it is established and can properly protect people and property in Canton. The present Township government has literally strangled the police department forcing it to function on voted millage refusing to give one extra dollar.

3. The purchase of an existing golf course and many acres of tax producing lands on Warren and Haggerty for speculation is the biggest absurdity and obscenity enacted by a sitting government already filled with absurd and obscene acts. It is not the function of Township government to bail out private investors and confer outrageous profits with taxpayers dollars. The golf course was already recreational land; Township need not purchase it to preserve it. Farmlands and development rights may be purchased so that they not be developed and become a substantial service burden on the Canton taxpayer and on the School system. All land purchases with taxpayers' dollars must be done in the open, owners of property must be known publicly and a policy established like the School System that the Township will pay only so many dollars over the original Land purchase price to insure that no excessive profits are made at the taxpayers' expense.

4. I have always favored a strong growth control policy. It is a sin and a shame that in two years the present government has not adopted a master plan which was approved overwhelmingly by the voters of Canton. Without a master plan, no growth control is possible.

land is not owned by farmers. I am in favor of assisting the farmer and the senior citizens by reducing taxes, but it appears that it would be the people east of Canton Center who will pay for the "farmlands" through a millage. There is still much to be learned before this land can be "preserved".

2. The present surplus monies should be used as an "emergency fund". Future monies should be used in the budget to reduce the taxes. The present surplus monies in the police budget should be used to offset the allocated millage for next year. Future monies should be used to establish an "emergency fund" and the balance to reduce taxes.

3. I believe that the government should buy, sell or trade lands. These lands could be for the future sites of DPW, Fire, Police and Recreation Parks. If the purchases are a sound and just buy then this could save the taxpayer money in the future. Land will never be any cheaper than it is now.

4. Yes, but not in the same light that others might think. I believe that there are certain built-in valves for growth control. The main one being sewer capacity; others are the utilities and the roads. And let's not forget that system we all live under, "free enterprise". There is a law of supply and demand that is also at work. People want in on a good thing, that's why they moved to Canton. I think if there was a plan or policy it would have been set up long ago.

term effect on the community and deserves serious study.

2. I am opposed to unnecessary government spending and would support effort to return surplus funds to the taxpayer. We should not, however, allow ourselves to eliminate all reserve funds. Unexpected expense does arise from time to time and some funds must be available for such contingencies.

3. We are a growing community where there is a need to provide for not only the present residents but the future as well. To use tax dollars to purchase recreational sites, industrial/commercial sites or development rights, where any or all of these benefit the resident is certainly in our community best interest. What we do today in providing for the future would be far less expensive than if we were to wait.

4. As a trustee I would certainly encourage and support a land use plan that would be in concert with an effective growth control policy. In listening to residents in our community I feel that this issue is becoming confused. Are we concerned about the elimination of agricultural areas and the rural atmosphere or the burden/demand for additional services as residential areas expand (and related tax increase) or some additional concerns. There are several distinctly different problems that require different solutions. I believe that we may have gotten into a situation that: "when you are up to your knees in alligators we've forgotten that our objective was to drain the swamp." The only way to solve a problem is to very clearly identify the true source of concern.

LARRY BOWERMAN

1. Yes, but not as proposed by the Seidman & Seidman study. The suggested purchase price of \$3200.00 per acre is too high. Present land values have been inflated by land speculation. As a result, farmlands have been improperly overtaxed. Compens-

ROBERT GREENSTEIN

1. I originated and very strongly favor preserving existing farmlands. It makes good sense from the point of view of ecology and good mental health to have open spaces and will save the Canton taxpayer millions and millions of dol-

FRANK MCMURRAY

1. No, the best farmlands are under houses east of Canton Center Rd. Most of the

ROBERT SCHAETZL

1. The information relative to the purchase of development rights is inadequate. At such time when there is data addressing to the total scope of this program (the total properties involved), the number of potential participants, an accurate statement of the actual funding, etc. it then should be presented to the electorate for their total consideration. The purchase of development rights has long

THE COMMUNITY CRIER: July 26, 1978

Football sign-up deadline July 29

Final registration for the Plymouth-Canton Junior Football program will be held this Saturday, July 29, at Canton High School Cafeteria from 9 a.m. until noon.

The program is for boys from the ages nine to 13 as of Sept. 1. Minimum weights are 65 pounds for freshman and a maximum weight of 130 pounds for boys on the varsity level. The registration fee of \$15 is payable at time of registration. For any questions call 455-2138.

Net novices to fight for Osebold trophy

The annual Osebold Invitational Tennis Tournament, directed by James Osebold of Plymouth, has been scheduled for Aug. 18, 19, and 20 at the Schoolcraft Community College tennis courts.

A draw of 16 players will be chosen in the following manner: Dan Rodgers and Ray Maloni who were the finalists in the men's division of the Harvey Barcus Novice Tennis Tournament; Jim Berry and Jim Humphries the two finalists from the previous Osebold tournament, six unseeded players who pass the second round in The Crier Plymouth-Canton Tennis Tournament, and six players from a qualifying tournament to be held Aug. 11, 12, and 13.

All players selected must not have won any major tournaments, never played on a college tennis team, or have played first, second, or third singles on a high school team. Also, all contestants must be Plymouth or Canton residents.

The entry fee is \$2 and for more information call 453-1445.

First prize will be one adult membership to the Western Racquet Club awarded by club director Gene Fritz. There will also be trophies given to the two finalists, certificates for all competing players, and an action photograph for each of the contestants.

sports opinion

Reader replies... ...negative, positive

BY ERIC OLSON

I finally got some response to something I wrote. It is important to me to get some type of feedback from the readers be it positive or negative.

This time the feedback was somewhat negative, however, I also consider it positive because I learned something.

It was about the editorial I wrote in the July 12 issue on the unruly behavior and the poor sportsmanship of one of the teams in the Canton Sandy Koufax baseball tournament.

Some of the sponsors of the Canton team who foot some of the bills, like the trip to Birmingham, Alabama which the team is currently

on, were unhappy with the bad image the team was conveying.

I would hate to see a group of kids miss out on a great experience like the trip because some sponsor jumped to a conclusion. I am happy to say that neither the Canton team nor the Salem team were involved. Or any of the local teams in the tournament.

My thinking was that it would be unfair to name the team involved because some of the calls that went against them were plain and simply terrible calls. And it would be impossible to gauge what other teams would do in a similar situation.

I hope my message was not lost by people saying "it wasn't us."

SALEM'S Bruce Piper raises a cloud of dust but is out at the plate against Canton in Connie Mack League play Thursday. Canton won, 9-3. (Crier photo by Bill Bresler.)

Canton Mantlers second

Competing in a five day (Thursday thru Sunday) in Juliet, Illinois, the Canton Mickey Mantle baseball team placed second in a field of nine teams with a 4-2 record.

"We had tremendous fielding and hitting in the games," said Coach Fred Crissey. "It is quite an honor to go to a series like this on a national level and to finish as high as we did."

They won their first three games by 2-1, 6-5, and 8-2 scores. In the first game Scott Dawson was the hero as he fired a three hitter and struckout 11 and in the

second contest Don Dreher was in the limelight as ripped a triple with two outs in the last inning. The hit game came with the bases loaded and it scored three runs.

In their fourth game they lost to a team from Independ-

dence, Missouri, but they bounced back in their next game to win 6-5.

In the championship game they were shutout by the Independence, Missouri team, 2-0.

Canton clinches berth in national tourney

The Canton Sandy Koufax baseball team clinched a right to play in a national Koufax Tournament in Birmingham, Alabama by edging Redford 8-7 last Tuesday at Central Middle School.

Canton's Billy Hannis doubled home the winning

run in the bottom of the seventh inning. Steve Johnson of Canton had a three run homer to pace the attack. The win left the team's record at 13-1 for the season.

The team left yesterday for Birmingham.

Canton downs Salem

The Canton Connie Mack baseball team remained in first place by winning two games last week. On Tuesday they edged Farmington Harrison 5-4 and on Thursday they downed

Salem 9-3. The wins left Canton at 12-3 on the year.

Against Salem, Russ Mandel and Mark Zdyck each had solo home runs to back the six hit pitching of Brian James. And Doug Smith went the distance to record the win in the game with Farmington Harrison.

Should the Canton Mackmen win their three games this weekend then they will clinch first place in their league.

Pair first in Seniors

Floyd Vickery and Bill Begg took over the lead in the fifth week of the Canton Seniors Golf League. Floyd posted his best round of the year as he came in with a 49 and Bill tied his best round of the year with a 43. Both men took 5 points to establish a firm 2 point advantage over Emma and Gary Aleman. The Alemans also took a total of 10 points.

Area soccer registration

Soccer registration for Plymouth-Canton residents has begun at the Cultural Center and will run to Aug. 4 between the hours of 8:30-5 Monday thru Friday. The league will be for players between the ages 6-19 and there is a \$12 entry fee for the first child and \$11 for the second. If a parent coaches, then one child will be allowed in free.

Frey cards 47

Nasty weather could not stop the charge of the Canton Women's Golf League as one half of the women who showed, left with 5 points. Mary Kay Frey turned in the best round as she carded a 47. Kay Nichols with a 51 and Bev Green with a 53 shot the next best rounds. Tiiu Himmelberger posted her best round of the year as she carded a 56.

Stuebben, Seewald lead in Canton golf

The Canton Township Men's second eight week golf league started this week and finished with 4 teams tied for first. Stuebben & Seewald, Oberhelman and Mattingly, Sheets & Eminger, and Ryan & White all swept five points from their opponents to tie for first after one week of league play. Bruce Watt and Bill Lindley, first eight week league winners, lost all five to Dennis Stuebben and his substitute partner Mike Roemer. Substitute Mike Roemer and regular Paul Oberhelman turned in the best rounds, each carding a 39. Jack Koers and Jim Gabriel both shot 40's.

Don't miss Crier tennis tourney

If all a tie-breaker means to you was the last time you didn't get or give a tie for Fathers day than you need to increase your vocabulary by entering the City of Plymouth Crier Tennis tournament.

In tennis, a tie-breaker is a hair raising, nerve racking, packed with action period of play where an entire set is decided by only a few points it is not a pair of socks, after shave lotion, a pipe ect.

So clip out the entry

form on this page and send before the Aug. 2, 5 p.m. deadline to the City of Plymouth Parks and Recreation Department, 525 Farmer St. or call 455-6620 for more information.

The tournament will be held on Aug. 4, 5, and 6 is open to all Plymouth-Canton residents for \$2 per person per event. All matches will be played at the Canton High School tennis courts.

The age divisions for men and women are: 10-12 and

under, 13-15 and under, 16 and over, 35 and over, doubles, and mixed doubles.

Players are limited to one singles and two doubles categories. There must be six players of teams in a division before it will be opened.

Entries are especially needed for the women's divisions.

Players are asked to furnish three new USTA approved, preferably optic yellow, tennis balls.

Harvey Street, and also on the bulletin board in the City Hall at 201 S. Main Street. These minutes are posted in accordance with Section 5.11 of the City Charter for the benefit and information of all interested citizens of the City of Plymouth.

PAUL V. BRUMFIELD,
CITY CLERK

CANTON TOWNSHIP PLANNING COMMISSION CHARTER TOWNSHIP OF CANTON NOTICE OF PUBLIC HEARING PROPOSED AMENDMENTS TO THE ZONING ORDINANCE OF THE CHARTER TOWNSHIP OF CANTON, WAYNE COUNTY, MICHIGAN.

NOTICE IS HEREBY GIVEN pursuant to Act 184 of the Public Acts of Michigan as amended, and pursuant to the Zoning Ordinance of the Charter Township of Canton that the Planning Commission of the Charter Township of Canton will hold a Public Hearing on Monday, August 14, 1978 at the Canton Township Hall, 128 Canton Center Road at 8:00 p.m. on the following proposed amendments to the Zoning Ordinance:

PUBLIC HEARING NO. 1
To consider an amendment to the Cherry Hill planned unit development agreement to permit the platting of 60' lots of a parcel on the east side of Morton Taylor, and on the north side of Palmer. The amendment would allow construction of single family homes on the 47 acres in section 22 in lieu of duplexes.

PUBLIC HEARING NO. 2
Consider rezoning from R-1B residential (100' lots) to R-1CA residential (70' lots) acreage located on the west side of Canton Center Road between Ford and Saltz, and described as follows: The east half of the northeast 1/4 of section 16, excepting a parcel of land at the extreme corner with 640' of frontage on Ford Road, and 600' of frontage on Canton Center Road; also known as parcels 61B2b, 61C, 61D, 61E, and the westerly 340 feet of parcel 61B2a.

Comments on the proposed changes may be made in writing prior to the scheduled hearing date, and submitted to the township's administrative offices at 44508 Geddes Road and/or comments may be given at the time of the hearing.

JOHN W. FLODIN,
TOWNSHIP CLERK

CANTON TOWNSHIP PLANNING COMMISSION
CHARTER TOWNSHIP OF CANTON
NOTICE OF PUBLIC HEARING

PROPOSED AMENDMENT TO THE ZONING ORDINANCE OF THE CHARTER TOWNSHIP OF CANTON, WAYNE COUNTY, MICHIGAN.

NOTICE IS HEREBY GIVEN pursuant to Act 184 of the Public Acts of Michigan as amended, and pursuant to the Zoning Ordinance of the Charter Township of Canton that the Planning Commission of the Charter Township of Canton will hold a Public Hearing on Monday, August 28, 1978 at the Canton Township Hall, 128 Canton Center Road at 8:00 p.m. on the following proposed amendments to the Zoning Ordinance:

Landscape Requirements
Article II, Definitions

Landscape: Material such as, but not limited to, grass, ground covers, shrubs, vines, hedges or trees, and non-living durable material commonly used in landscape development.

Opacity: The state of being impervious to rays of light. This state will be measured by observation of any two square yard area lying between two feet and ten feet from the ground.

Screen: Plant material or other durable landscape material such as but not limited to, walls, berms and wood fencing. Wire fencing is not included in the definition.

Shrubs: Self-supporting, deciduous, and/or evergreen woody species, normally branched near the base, bushy, less than 15 feet in height, as normally grown in Wayne County.

Trees: Self-supporting woody, deciduous and/or evergreen plants with a well-defined central stem or a species which normally grow to a height of (15) fifteen feet or more in Wayne County.

Vines: Plants which normally require physical support to reach mature vertical form.

Berm: A continuously mounded pile of earth, free of large stones, refuse, capable of growing turf and decorative plant materials and with a height, width, side slope ratio, and landscaping as noted in the zoning regulations.

Article IV, General Provisions

Section 4.32 Landscaping

This is intended to: (1) Improve the appearance of off-street parking areas and vehicular use areas and property abutting public rights-of-way, (2) require buffering between non-compatible land uses, (3) protect and preserve the appearance, character, and value of the surrounding neighborhoods, thereby promoting the public health, safety and general welfare, (4) prevent soil erosion and soil depletion and (5) increase soil water retention thereby helping to prevent flooding.

a. Scope of Application

- (1) Scope of Application: The provisions of this ordinance shall apply to all lots, sites and parcels which hereafter are developed, redeveloped or expanded pursuant to a site plan required by the Township.
- (2) Compliance Required: No site plan shall be approved unless said site plan shall show landscaping consistent with the requirements of this section.
- (3) New Site Development: No building, structure or vehicular use area shall hereafter be constructed and used unless landscaping is provided as required by the provisions of this section.
- (4) Site Alterations: No building, structure or parking area shall hereafter be altered to the extent that such building, structure or parking area as altered would require additional landscaping as required hereunder, unless the minimum landscaping as required by the provisions of this section is provided for the entire building, structure or parking area.
- (5) Change in Classification: The occupancy of any building, structure or parking area shall not be changed from one classification to another to the extent that additional landscaping would be required hereunder due to the change in classification, unless minimum landscaping as required by the provisions of this section is provided for the entire building, structure or parking area.

b. Installation and Maintenance

In cases where an owner of property is required to install and maintain landscaping, he shall observe the following standards:

- (1) Installation: Landscaping shall be installed in accord with standards recommended by the Wayne County Cooperative Extension Service. The standards shall be in written form and shall be maintained by the clerks office and made available to all interested parties. If, in a particular case, no standard is applicable, landscaping shall be planted in a sound workmanlike manner and according to accepted good planting procedures with the quality of plant materials as hereinafter described. Landscaped areas must be protected from vehicular encroachment by such means as, but not limited to, wheel stops. If building or paving construction is completed during a planting season, then no certificates of occupancy will be issued unless the landscaping meets the requirements herein provided. If building or paving construction is completed in an off-planting season, the certificates of occupancy will be issued only after the owner provided a Performance Bond to the Township clerk to insure installation of required landscaping in the next planting season.
- (2) Maintenance: The owner of landscaping required by this Ordinance shall maintain such landscaping in good condition so as to present a healthy, neat and orderly appearance, free from refuse and debris. All unhealthy and dead material shall be replaced within one year or the next appropriate planting period which ever comes first. All landscaped areas shall be provided with a readily available and acceptable water supply, or with at least one outlet located within 300 feet of all plant material to be maintained.

c. Plant Material

- (1) Quality: Plant and grass materials used in conformance with provisions of this ordinance shall conform to the recommendations of the Wayne County Cooperative Extension Service and shall have passed any inspections required under State Regulations. These standards shall be in written form and shall be maintained by the clerks office and made available to all interested parties. Grass sod shall be clean and free of weeds and noxious pests or diseases.
- (2) Deciduous trees: Deciduous trees shall be varieties having an average mature crown spread of greater than fifteen (15) feet in Wayne County and having trunk(s) which can be maintained with over five (5) feet clear stem if conditions or visibility require, except however at intersections where the requirement of eight (8) foot clear stem as established shall be followed. Trees having an average mature crown spread of less than fifteen (15) feet may be substituted by grouping the same so as to create the equivalent of a 15 foot crown spread. Deciduous tree species shall be a minimum caliper of 1-1/2 inches immediately after planting.
- (3) Shrubs and Hedges: Shrubs shall be a minimum of two (2) feet in height when measured immediately after planting or two feet in spread if plants are low growing evergreens. Hedges, where provided, shall be planted and maintained so as to form a continuous, unbroken, solid, visual screen within a maximum of two (2) years after time of planting.
- (4) Vines: Vines shall be a minimum of thirty (30) inches in length after one growing season and may be used in conjunction with fences, screens, or walls to meet physical buffer requirements to specified.
- (5) Ground Covers: Ground covers used in lieu of grass in whole or in part shall be planted in such a manner as to present a finished appearance and reasonably complete coverage after one complete growing season.
- (6) Lawn Grass: Grass areas shall be planted in species normally grown as permanent lawns in Canton Township. Grass may be sodded, plugged, sprigged or seeded except that solid sod shall be used in swales or other areas subject to erosion, and providing that in areas where grass is to be established by a method other than complete sodding or seeding, nurse-grass seed shall be sown for immediate effect and protection until coverage is otherwise achieved. Compliance with existing soil erosion ordinances shall be required.
- (7) Evergreen Trees: Evergreen trees shall not be placed where they will prevent pedestrian movement or where they will obstruct visual line of sight of a public right-of-way. Evergreen trees shall be a minimum of four (4) feet high at time of planting.
- (8) In no case shall any tree, shrub or hedge be planted in a way which will interfere with or cause damage to underground utility lines, public roadways or other public works. Species of trees whose roots are known to cause damage to public roadways or other public works shall not be planted closer than fifteen (15) feet to such public works. A list of such tree species shall be maintained by the clerk's office for distribution to all interested parties.

d. Landscaping Requirements

- (1) Commercial districts shall have a bermed areas adjacent to all public rights-of-way whose

height and width are consistent with and required by Article XVIII Footnote to Schedule of Regulations, (n).

* The side slope ratio shall not be less than 3:1, i.e., three feet of horizontal distance for each foot of vertical rise.

* Required landscaping to be planted -- for each forty (40) feet of linear distance, one deciduous hardwood tree, at least one and one-half (1 1/2) inch caliper in size; evergreen hedging material that provides a total berm height of six (6) feet for at least fifty (50) percent of the berm length; for each one hundred (100) feet of linear distance, one decorative spring flowering tree, five (5) feet in height; remaining ground surface area shall be sodded or seeded; all landscape materials shall be live, hardy, adaptable to the rigorous local climate and maintained in a healthy growing condition.

* Where a berm extends beyond one hundred (100) feet in length, the Planning Commission may permit the berm to undulate as long as the overall berm effect is maintained.

* Off-Street parking areas containing six (6) or more spaces shall have at least fifteen (15) square feet of interior landscaping for each parking space excluding those spaces abutting a buffer planting area or a planting area abutting a public right-of-way for which landscaping is required by other sections of this ordinance.

* Each separate landscaped area shall be no less than 50 square feet and shall have a minimum dimension of at least five (5) feet, and shall be adequately landscaped. Approved landscaping material, excepting trees, shall be maintained so as not to exceed three (3) feet in height. The total number of trees shall not be less than one (1) for each one hundred (100) square feet or fraction thereof of required interior landscaped parking area. Such landscape areas shall be located in such a manner as to divide and break up the expanse of paving. No more than three landscape units of fifty (50) square feet may be combined in plans designed to meet minimum requirements only; however, areas larger than 150 square feet (3-50 square feet units) can be provided if the amount over 150 square feet is in excess of minimum requirements.

* A vehicle may encroach upon any interior landscaped area when said area is at least three and one-half (3 1/2) feet in depth per abutting parking space and protected by wheel stops or curbing. (One and one-half (1 1/2) feet of said landscaped area may be part of the required depth of each abutting parking space).

* Garbage and refuse collection areas if visible from the abutting public street shall be screened. The screening, if composed of live landscape material such as, trees, shrubs, and hedges and shall provide 80% or more summer opacity and 60% winter opacity within two years when viewed from between two (2) feet and six (6) feet above ground level. The layout of the landscape screen shall in no way impede the pick-up and collection operation.

(2) Multiple Housing & Mobile Home Park Developments shall meet the following landscaping requirements.

* There shall be provided at least one (1) deciduous hardwood tree of a minimum of one and one-half (1 1/2) to two (2) inch caliper for each mobile home site or dwelling unit. Trees may be planted in a five (5) foot strip between curb and sidewalk or in other open unpaved areas. Dead trees shall be replaced.

* This requirement is in addition to any tree planted for buffering or greenbelt purposes, or otherwise required.

* The areas between mobile homes or multiple housing structures and other open areas shall be seeded or sodded with grass or lawn and landscaped with trees and shrubs and thereafter maintained so as to provide a utilitarian and healthful area for the residents of the development.

* Off-street parking areas containing six (6) or more parking spaces shall have at least ten (10) square feet of interior landscaping for each parking space, excluding those spaces abutting a right-of-way and buffer zone for which landscaping is required by other sections hereof and excluding all parking spaces which are directly served by a driveway abutting and running parallel to a public right-of-way of a buffer zone. Each separate landscaped area shall contain a minimum dimension of at least five (5) feet and shall be adequately landscaped. Approved landscaping material excepting trees, shall be maintained so as not to exceed three (3) feet in height. The total number of trees shall not be less than one (1), for each one hundred (100) square feet or fraction thereof of required interior landscaped area. Such landscaped areas shall be located in such a manner as to divide and break up the expanse of paving. To encourage parking area median planting, the front of a vehicle may encroach upon any interior landscaped area when said area is at least three and one-half (3 1/2) feet in depth per abutting parking space and protected by wheel stops or curbing. One and one-half (1 1/2) feet of said landscaped area may be part of the required depth of each abutting parking space.

* Garbage and refuse collection areas shall be screened. The screening, if composed of live landscape material such as, but not limited to, trees, shrubs and hedges, and shall provide 80% or more summer opacity and 60% winter opacity within two years when viewed from between two (2) feet and ten (10) feet above the ground. The layout of the landscape screen shall in no way impede the pick-up and collection operation.

If, in the opinion of the Planning Commission, site restriction and site layout factors prohibit the use of live landscape material, wood fencing may be used and shall have one vine which adheres to wood planted every ten (10) lineal feet thereof.

(3) Industrial development shall meet the landscape requirements in Section 15.04 Protective Screening.

In addition:

* Off-street parking areas containing six (6) or more spaces shall have at least eight square feet of interior landscaping for each parking space excluding those spaces abutting a buffer planting areas or a planting area abutting a public right-of-way for which landscaping is required by other sections of this ordinance. Each separate landscape area shall be no less than 50 square feet, shall have a minimum dimension of at least five (5) feet, and shall be adequately landscaped. Approved landscaping material excepting trees, shall be maintained so as not to exceed three (3) feet in height. The total number of trees shall not be less than one (1) for each one hundred

fifty (150) square feet or fraction thereof of required interior landscaped parking area. Such landscaped areas shall be located in such a manner as to divide and break up the expanse of paving. No more than three landscape units of fifty (50) square feet may be combined.

* A vehicle may encroach upon any interior landscaped area when said area is at least three (3) feet in depth per abutting space and protected by wheel stops or curbing. (One and one-half (1 1/2) feet of said landscaped area may be part of the required depth of each abutting parking space and protected by wheel stops or curbing).

* Garbage and refuse collection areas and construction material storage areas if visible from the abutting public street shall be screened. The screening, if composed of live landscape material such as, but not limited to, trees, shrubs and hedges, and shall provide within two years 80% or more summer opacity and 60% winter opacity when viewed from between two (2) and ten (10) feet above ground level. The layout of the landscape screen shall in no way impede the pick up and collection operation.

* If site restriction and site layout prohibit the use of live landscape material, wood fencing shall be used and shall have one vine which adheres to wood planted every ten (10) lineal feet thereof.

e. Existing Plant Material: In instances where healthy plant material exists on a site prior to its development, the enforcement of this section may adjust the application of the above standards to allow credit for such plant material if such an adjustment is in keeping with and will preserve the intent of this ordinance.

COMMENTS ON THE PROPOSED AMENDMENT MAY BE MADE IN WRITING PRIOR TO THE SCHEDULED HEARING DATE, AND SUBMITTED TO THE TOWNSHIP'S ADMINISTRATIVE OFFICES AT 44508 GEDDES ROAD AND/OR COMMENTS MAY BE GIVEN AT THE TIME OF THE HEARING.

**NOTICE OF PUBLIC HEARING
PROPOSED AMENDMENTS
TO THE ZONING ORDINANCE
OF THE CHARTER TOWNSHIP
OF CANTON, WAYNE COUNTY,
MICHIGAN.**

NOTICE IS HEREBY GIVEN pursuant to Act 184 of the Public Acts of Michigan as amended, and pursuant to the Zoning Ordinance of the Charter Township of Canton that the Planning Commission of the Charter Township of Canton will hold a Public Hearing on Monday, August 14, 1978 at the Canton Township Hall, 128 Canton Center Road at 8:00 p.m. on the following proposed amendments to the Zoning Ordinance:

PUBLIC HEARING NO. 1
To consider an amendment to the Cherry Hill planned unit development agreement to permit the platting of 60' lots of a parcel on the east side of Morton Taylor, and on the north side of Palmer. The amendment would allow construction of single family homes on the 47 acres in section 22 in lieu of duplexes.

PUBLIC HEARING NO. 2
Consider rezoning from R-1B residential (100' lots) to R-1CA residential (70' lots) acreage located on the west side of Canton Center Road between Ford and Saltz, and described as follows: The east half of the northeast 1/4 of section 16, excepting a parcel of land at the extreme corner with 640' of frontage on Ford Road, and 600' of frontage on Canton Center Road; also known as parcels 61B2b, 61C, 61D, 61E, and the westerly 340 feet of parcel 61B2a.

Comments on the proposed changes may be made in writing prior to the scheduled hearing date, and submitted to the township's administrative offices at 44508 Geddes Road and/or comments may be given at the time of the hearing.

CANTON TOWNSHIP PLANNING COMMISSION CHARTER TOWNSHIP OF CANTON NOTICE OF PUBLIC HEARING

PROPOSED AMENDMENT TO THE ZONING ORDINANCE OF THE CHARTER TOWNSHIP OF CANTON, WAYNE COUNTY, MICHIGAN.
NOTICE IS HEREBY GIVEN pursuant to Act 184 of the Public Acts of Michigan as amended, and pursuant to the Zoning Ordinance of the Charter Township of Canton that the Planning Commission of the Charter Township of Canton will hold a Public Hearing on Monday, August 28, 1978 at the Canton Township Hall, 128 Canton Center Road at 8:00 p.m. on the following proposed amendments to the Zoning Ordinance:

Landscape Requirements Article II, Definitions

Landscaping: Material such as, but not limited to, grass, ground covers, shrubs, vines, hedges or trees, and non-living durable material commonly used in landscape development.

Opacity: The state of being impervious to rays of light. This state will be measured by observation of any two square yard area lying between two feet and ten feet from the ground.

Screen: Plant material or other durable landscape material such as but not limited to; walls, berms and wood fencing. Wire fencing is not included in the definition.

Shrubs: Self-supporting, deciduous, and/or evergreen woody species, normally branched near the base, bushy, less than 15 feet in height, as normally grown in Wayne County.

Trees: Self-supporting woody, deciduous and/or evergreen plants with a well-defined central stem or a species which normally grow to a height of (15) fifteen feet or more in Wayne County.

Vines: Plants which normally require physical support to reach mature vertical form.

Berm: A continuously mounded pile of earth, free of large stones, refuse, capable of growing turf and decorative plant materials and with a height, width, side slope ratio, and landscaping as noted in the zoning regulations.

Article IV, General Provisions

Section 4.32 Landscaping

This is intended to: (1) Improve the appearance of off-street parking areas and vehicular use areas and property abutting public rights-of-way, (2) require buffering between non-compatible land uses, (3) protect and preserve the appearance, character, and value of the surrounding neighborhoods, thereby promoting the public health, safety and general welfare, (4) prevent soil erosion and soil depletion and (5) increase soil water retention thereby helping to prevent flooding.

a. Scope of Application

(1) **Scope of Application:** The provisions of this ordinance shall apply to all lots, sites and parcels which hereafter are developed, redeveloped or expanded pursuant to a site plan required by the Township.

(2) **Compliance Required:** No site plan shall be approved unless said site plan shall show landscaping consistent with the requirements of this section.

(3) **New Site Development:** No building, structure or vehicular use area shall hereafter be constructed and used unless landscaping is provided as required by the provisions of this section.

(4) **Site Alterations:** No building, structure or parking area shall hereafter be altered to the extent that such building, structure or parking area as altered would require additional landscaping as required hereunder, unless the minimum landscaping as required by the provisions of this section is provided for the entire building, structure or parking area.

(5) **Change in Classification:** The occupancy of any building, structure or parking area shall not be changed from one classification to another to the extent that additional landscaping would be required hereunder due to the change in classification, unless minimum landscaping as required by the provisions of this section is provided for the entire building, structure or parking area.

b. Installation and Maintenance

In cases where an owner of property is required to install and maintain landscaping, he shall observe the following standards:

(1) **Installation:** Landscaping shall be installed in accord with standards recommended by the Wayne County Cooperative Extension Service. The standards shall be in written form and shall be maintained by the clerks office and made available to all interested parties. If, in a particular case, no standard is applicable, landscaping shall be planted in a sound workmanlike manner and according to accepted good planting procedures with the quality of plant materials as hereinafter described. Landscaped areas must be protected from vehicular encroachment by such means as, but not limited to, wheel stops. If building or paving construction is completed during a planting season, then no certificates of occupancy will be issued unless the landscaping meets the requirements herein provided. If building or paving construction is completed in an off-planting season, the certificates of occupancy will be issued only after the owner provided a Performance Bond to the Township clerk to insure installation of required landscaping in the next planting season.

(2) **Maintenance:** The owner of landscaping required by this Ordinance shall maintain such landscaping in good condition so as to present a healthy, neat and orderly appearance, free from refuse and debris. All unhealthy and dead material shall be replaced within one year or the next appropriate planting period which ever comes first. All landscaped areas shall be provided with a readily available and acceptable water supply, or with at least one outlet located within 300 feet of all plant material to be maintained.

c. Plant Material

(1) **Quality:** Plant and grass materials used in conformance with provisions of this ordinance shall conform to the recommendations of the Wayne County Cooperative Extension Service and shall have passed any inspections required under State Regulations. These standards shall be in written form and shall be maintained by the clerks office and made available to all interested parties. Grass sod shall be clean and free of weeds and noxious pests or diseases.

(2) **Deciduous trees:** Deciduous trees shall be varieties having an average mature crown spread of greater than fifteen (15) feet in Wayne County and having trunk(s) which can be maintained with over five (5) feet clear stem if conditions or visibility require, except however at intersections where the requirement of eight (8) foot clear stem as established shall be followed. Trees having an average mature crown spread of less than fifteen (15) feet may be substituted by grouping the same so as to create the equivalent of a 15 foot crown spread. Deciduous tree species shall be a minimum caliper of 1-1/2 inches immediately after planting.

(3) **Shrubs and Hedges:** Shrubs shall be a minimum of two (2) feet in height when measured immediately after planting or two feet in spread if plants are low growing evergreens. Hedges, where provided, shall be planted and maintained so as to form a continuous, unbroken, solid, visual screen within a maximum of two (2) years after time of planting.

(4) **Vines:** Vines shall be a minimum of thirty (30) inches in length after one growing season and may be used in conjunction with fences, screens, or walls to meet physical buffer requirements to specified.

(5) **Ground Covers:** Ground covers used in lieu of grass in whole or in part shall be planted in such a manner as to present a finished appearance and reasonably complete coverage after one complete growing season.

(6) **Lawn Grass:** Grass areas shall be planted in species normally grown as permanent lawns in Canton Township. Grass may be sodded, plugged, sprigged or seeded except that solid sod shall be used in swales or other areas subject to erosion, and providing that in areas where grass is to be established by a method other than complete sodding or seeding, nurse-grass seed shall be sown for immediate effect and protection until coverage is otherwise achieved. Compliance with existing soil erosion ordinances shall be required.

(7) **Evergreen Trees:** Evergreen trees shall not be placed where they will prevent pedestrian movement or where they will obstruct visual line of sight of a public right-of-way. Evergreen trees shall be a minimum of four (4) feet high at time of planting.

(8) In no case shall any tree, shrub or hedge be planted in a way which will interfere with or cause damage to underground utility lines, public roadways or other public works. Species of trees whose roots are known to cause damage to public roadways or other public works shall not be planted closer than fifteen (15) feet to such public works. A list of such tree species shall be maintained by the clerk's office for distribution to all interested parties.

d. Landscaping Requirements

(1) **Commercial districts** shall have a bermed areas adjacent to all public rights-of-way whose

height and width are consistent with and required by Article XVIII Footnote to Schedule of Regulations, (n).

* The side slope ratio shall not be less than 3:1, i.e., three feet of horizontal distance for each foot of vertical rise.

* Required landscaping to be planted -- for each forty (40) feet of linear distance, one deciduous hardwood tree, at least one and one-half (1 1/2) inch caliper in size; evergreen hedging material that provides a total berm height of six (6) feet for at least fifty (50) percent of the berm length; for each one hundred (100) feet of linear distance, one decorative spring flowering tree, five (5) feet in height; remaining ground surface area shall be sodded or seeded; all landscape materials shall be live, hardy, adaptable to the rigorous local climate and maintained in a healthy growing condition.

* Where a berm extends beyond one hundred (100) feet in length, the Planning Commission may permit the berm to undulate as long as the overall berm effect is maintained.

* Off-Street parking areas containing six (6) or more spaces shall have at least fifteen (15) square feet of interior landscaping for each parking space excluding those spaces abutting a buffer planting area or a planting area abutting a public right-of-way for which landscaping is required by other sections of this ordinance.

* Each separate landscaped area shall be no less than 50 square feet and shall have a minimum dimension of at least five (5) feet, and shall be adequately landscaped. Approved landscaping material, excepting trees, shall be maintained so as not to exceed three (3) feet in height. The total number of trees shall not be less than one (1) for each one hundred (100) square feet or fraction thereof of required interior landscaped parking area. Such landscape areas shall be located in such a manner as to divide and break up the expanse of paving. No more than three landscape units of fifty (50) square feet may be combined in plans designed to meet minimum requirements only; however, areas larger than 150 square feet (3-50 square feet units) can be provided if the amount over 150 square feet is in excess of minimum requirements.

* A vehicle may encroach upon any interior landscaped area when said area is at least three and one-half (3 1/2) feet in depth per abutting parking space and protected by wheel stops or curbing. (One and one-half (1 1/2) feet of said landscaped area may be part of the required depth of each abutting parking space).

* Garbage and refuse collection areas if visible from the abutting public street shall be screened. The screening, if composed of live landscape material such as, trees, shrubs, and hedges and shall provide 80% or more summer opacity and 60% winter opacity within two years when viewed from between two (2) feet and six (6) feet above ground level. The layout of the landscape screen shall in no way impede the pick-up and collection operation.

(2) **Multiple Housing & Mobile Home Park Developments** shall meet the following landscaping requirements.

* There shall be provided at least one (1) deciduous hardwood tree of a minimum of one and one-half (1 1/2) to two (2) inch caliper for each mobile home site or dwelling unit. Trees may be planted in a five (5) foot strip between curb and sidewalk or in other open unpaved areas. Dead trees shall be replaced.

* This requirement is in addition to any tree planted for buffering or greenbelt purposes, or otherwise required.

* The areas between mobile homes or multiple housing structures and other open areas shall be seeded or sodded with grass or lawn and landscaped with trees and shrubs and thereafter maintained so as to provide a utilitarian and healthful area for the residents of the development.

* Off-street parking areas containing six (6) or more parking spaces shall have at least ten (10) square feet of interior landscaping for each parking space, excluding those spaces abutting a right-of-way and buffer zone for which landscaping is required by other sections hereof and excluding all parking spaces which are directly served by a driveway abutting and running parallel to a public right-of-way of a buffer zone. Each separate landscaped area shall contain a minimum dimension of at least five (5) feet and shall be adequately landscaped. Approved landscaping material excepting trees, shall be maintained so as not to exceed three (3) feet in height. The total number of trees shall not be less than one (1), for each one hundred (100) square feet or fraction thereof of required interior landscaped area. Such landscaped areas shall be located in such a manner as to divide and break up the expanse of paving. To encourage parking area median planting, the front of a vehicle may encroach upon any interior landscaped area when said area is at least three and one-half (3 1/2) feet in depth per abutting parking space and protected by wheel stops or curbing. One and one-half (1 1/2) feet of said landscaped area may be part of the required depth of each abutting parking space.

* Garbage and refuse collection areas shall be screened. The screening, if composed of live landscape material such as, but not limited to, trees, shrubs and hedges, and shall provide 80% or more summer opacity and 60% winter opacity within two years when viewed from between two (2) feet and ten (10) feet above the ground. The layout of the landscape screen shall in no way impede the pick-up and collection operation.

If, in the opinion of the Planning Commission, site restriction and site layout factors prohibit the use of live landscape material, wood fencing may be used and shall have one vine which adheres to wood planted every ten (10) lineal feet thereof.

(3) **Industrial development** shall meet the landscape requirements in Section 15.04 Protective Screening.

In addition:

* Off-street parking areas containing six (6) or more spaces shall have at least eight square feet of interior landscaping for each parking space excluding those spaces abutting a buffer planting area or a planting area abutting a public right-of-way for which landscaping is required by other sections of this ordinance. Each separate landscape area shall be no less than 50 square feet, shall have a minimum dimension of at least five (5) feet, and shall be adequately landscaped. Approved landscaping material excepting trees, shall be maintained so as not to exceed three (3) feet in height. The total number of trees shall not be less than one (1) for each one hundred

fifty (150) square feet or fraction thereof of required interior landscaped parking area. Such landscaped areas shall be located in such a manner as to divide and break up the expanse of paving. No more than three landscape units of fifty (50) square feet may be combined.

* A vehicle may encroach upon any interior landscaped area when said area is at least three (3) feet in depth per abutting space and protected by wheel stops or curbing. (One and one-half (1 1/2) feet of said landscaped area may be part of the required depth of each abutting parking space and protected by wheel stops or curbing).

* Garbage and refuse collection areas and construction material storage areas if visible from the abutting public street shall be screened. The screening, if composed of live landscape material such as, but not limited to, trees, shrubs and hedges, and shall provide within two years 80% or more summer opacity and 60% winter opacity when viewed from between two (2) and ten (10) feet above ground level. The layout of the landscape screen shall in no way impede the pick up and collection operation.

* If site restriction and site layout prohibit the use of live landscape material, wood fencing shall be used and shall have one vine which adheres to wood planted every ten (10) lineal feet thereof.

c. **Existing Plant Material:** In instances where healthy plant material exists on a site prior to its development, the enforcement of this section may adjust the application of the above standards to allow credit for such plant material if such an adjustment is in keeping with and will preserve the intent of this ordinance.

COMMENTS ON THE PROPOSED AMENDMENT MAY BE MADE IN WRITING PRIOR TO THE SCHEDULED HEARING DATE, AND SUBMITTED TO THE TOWNSHIP'S ADMINISTRATIVE OFFICES AT 44508 GEDDES ROAD AND/OR COMMENTS MAY BE GIVEN AT THE TIME OF THE HEARING.
