WORLD WIDE COAL STRIKE NOW FEARED HARD AND SOFT COLLIERIES IN AMERICA MAY BE TIED UP IF ARBITRATION PLANS FAIL ANTHRACITE OPERATORS EX-PECTED TO REFUSE DEMANDS OF MINERS. how mu With More Than a Million British Miners Out and 150,000 German Miners Threatening, the Situation is Berious. A worldwide strike of coal miners is regarded by the coal trade as more than a likelihood if the present nego-tiations now in progress between the-anthractic and bjituminous workers and their employers in this country do not result in a settlement of work-ing conditions. With more than a million coal miners on strike in Great Britain and 130,000 miners in Ger-many voting to quit work to force higher wages, a severe coal shortage in Europe is faced. The anthractice coal operators are drafting their reply which is expect-ed to be a refusal of the demand to the hard coal workers here, while next week at Cleveland the bitumin-ous operators and their employes will confer for the wurders of trying 10 hext week at Cleveland the employes will ous operators and their employes will confer for the purpose of trying to bring about an adjustment of condi-tions in the soft coal fields. Russia Recalis Ambassador to Turkey. The Russian ambassador to Turkey, M. Tcharykoff, has been recalled and appointed a senator. His sudden re-moval from Constantinople is regard-ed as somewhat of a discrace. The Novoe Vremya, in praising M. Tchary-koff, says the foreign office is chang-ing horses in midstream and had not a single astisfactory candidate for the position. It demands that an out-sider should be appointed, and sug-gests M. Guchkoff, ex-president of the duma. The Vremya's attack is direct-ed against M. Neratoff, under minister of foreign affairs, the foreigu office's candidate. known.

Tyrant of Halti to be Executed. General Jules Colcou, the former military tyrant of Haiti, was con-demned to death by a jury in the criminal court in Port Au Prince on the charge of having been the prin-cipal author of the fusiliade of March 15, 1908, in which 10 persons, includ-ing three of his own brothers, were shot to death. ing three of shot to death.

Roosevelt to Take the Stump. Roosevelt to Take the Stump. Col. Roosevelt to Take the Stump. Col. Roosevelt has decided to fol-low his hat into the ring. He will probably begin his speaking tour very shortly after his jury service is over. The preferential primary for presi-dential candidates will probably he the main theme of Col. Roosevelt's discourses, although it is understood that he will have some things to say about the "unfair tactics" employed by the administration campaign man-agers. agers.

Lawrence Strikers Continue Struggle. Lawrence Strikers Continue Struggle, Although leaders in the textile workers' strike in Lawrence, Mass., express the belief that the end is close at hand, with a considerable victory for the strikers already as-sured by the granting of general in-crease in wages, there was uo let up in preparations for continuing the struggle. Speakers at nearly a score of meetings laid stress upon the ne-cessity of maintaining their strength. The leaders planned to have more pickets on duity than at any time since the strike was begun, two months ago.

Shot With a Knife

Years ago in a stock perform Years ago in a stock performance of a famous old melodrama, the villata. Charles Wolcott, suddenly discovered that he had left his revolver in the dressing room. In much confusion, he fumbled in his pocket and found s' panknife which, he figured, would do just as well for the bloody deed. Imagine his consternation when, aften plunging the blade tuto the hero's breast, that player failed to change his wice: 'Heaven forgive you! I'm his voice: 'Heaven forgive you! shot."

New Commandment.

Workingmen's Ticket Wins

We believe the village election las Monday resulted in the largest vote being polled in the annals of the village 461 being the number. Every effort ate and some tall hustling was done by riends and candidates on both tickets There were two tickets in the field, the Workingmen's and the Union, the lat

ter a new party organized by voters not satisfied with the first named ticket Though late in the field, it gave the candidates on the other ticket a "run for their money," its friends scarcely hoping for its success, however. The vote in figures was as follows, the first memod being Workingmen's, the last Union: Union sident-Louis Hillmer 254, Geo.

OBITUARY

ANNIE R. SHEARER. Annie R. Cransten was born in Natic Rhode, Island, September 11, 1829 When only nine years old she moved with her parents to Willimantic, Conn. where she lived until 1860, when she was united in marriage to Laban D Shearer. The 30th of September, 1860, she came to Plymouth, Mich., where she has resided ever since. She passed to her reward March 6, 1912, at the age of eighty-two years, five months and twenty-four days.

She was loved and respected by many friends. During all of her illness she thought of every one but herself. She leaves to mourn her departure one son,

Chas. F. Shearer and family. The funeral services were held at the Fridry afternoon at 1:30, March 8, 1912, Rev. Shippin of Detroit officiating

MRS. MARY MACUMBER

Mary Baldwin was bown in England November 28, 1817 and died Friday, March 8, 1812. She came with her parents to New York when she was mine years old, living there until Sept 17, 1837, when she was married to Sax-ton Macumber. They went together to Chicago where they remained but one year, and finally settled in Washtenaw Co. Michigan. Since that time she has resided in either Washtenaw or Wayne counties

She was the mother of ten children, eight daughters and two sons. Five of the daughters and the two sons are living and are left to be blessed by the ory of a good mother.

Mrs. Macumber with her husband the passed on twelve years ago, knew the hardships and struggles of pioneer hife in this wilderness. They helfed to lay the foundations for the comforts and conveniences of civilization which we today enjoy. When the deceased was only a girl

the was converted and united with the Methodist Episcopal church.

The funeral was held from her late ome Sunday afternoon, Rev. E: J. Warren conducting services.

INTRODUCTORY.

Fifty-one years ago THE ROYAL WORCESTER CORSET CO. began to design and manufacture Corsets. From the very beginning everything that entered into the making was of the finest materials then obtainable and the workmanship perfection. This ideal of things have been maintained continuously all these years, so that to-day the ROYAL WORCES-TER CORSETS are universally acknowledged as the highest type of Corset perfection.

We have handled this corset for 20 years and we should know its merits. It would be folly for us to say it is the best Corset, but we do say there is no better corset made than the ROYAL WORCESTER CORSET.

WHAT'S THE ANOWERT

"WHY SHOULD I USE CUTICURA SOAP2"

"There is nothing the matter with ay skin, and I thought Cuticura Soap vas only for skin troubles." True, it for skin troubles, but its great mis-on is to prevent skin troubles. For more that a generation its delicate emollient and prophylactic properties have rendered it the standard for this purpose, while its extreme purity and refreshing fragrance give to it all the advantages of the best of toilet scaps. It is also invaluable in keeping the Mands soft and white, the hair live and glossy, and the scalp free from dandruff and irritation.

While its first cost is a few cents more than that of ordinary toilet soaps, it is prepared with such care and of such materials, that it wears to a water, often outlasting several cakes of other soap, and making its use. in practice, most economical. these depots were marked with flags, seven kilometers on each side in the easterly and westerly directions. The weight of the sledges was 300 kilos, and the number of dogs was six for and the number of dogs was six for each sledge. The surface of the bar-rier was smooth and fine with no sastrugi. Winter on the ice Barrier. Before the arrival of winter we had \$,000 kilos of seal meat in the depots.

6,000 kilos of seal meat in the depots, enough for ourselves and 110 dogs. Eight dog houses, a combination of teffits and snow huts, were built. Having cared for the dogs the turn came to use our solid fittle hut. It was almost entirely covered with snow by the middle of April. First we had to get light and air. The Lux lamp, which had a power of 200 standard candles gave us a bril-200 standard candles gave us a brilliant light and kept the temperature

up to 20 degrees celsius (68 degrees Fahrenheit) throughout the winter, and our excellent ventilation system gave us all the air we wanted.

In direct communication with the hut and dug-out on the Barrier were work shops, packing rooms, cellars for provisions, coal, wood and oil, a plain bath, a steam bath and observ atories. Thus we had everything within doors if the weather should be too cold and stormy.

The sun left us on the 22nd of April and did not return until four months

later. The winter was spent in changing our whole outfit, which on the depot trips was found to be too clumsy and solid for the smooth surface of the Barrier. Besides this, as much scien-tific work as possible was done, and some astonishing meteorological ob-servations were taken.

body ready to set about the task that had to be solved. Already, the day before, we had arought our sledges to the starting place for our search toward the south. Only in the beginning of September did the temperature rise to such an extent that there was any question of

setting out then.

The First Start for the Pole.

On the sth of September, eight men, with seven sledges, ninety dogs, and provisions for four months, started. The ground was perfect. The temper-ature was not bad. The next day it appeared that we had started too early, as the temperature of the following as the temperature of the following days fell and kept steadily between Days fell and kept steadily between minus 50 and 60 celsus 150 degrees and 76 degrees below zero Fahren-heit). Personally we did not suffer at all from the cold. Our good furs pro-tected us. But with our dogs it was a different matter. It could easily be seen that they shruk from day to seen that they shrunk from day to day, and we understood preity soon that they could not stand the long run to our depot at 80 degrees south.

We agreed on returning and to wait for the arrival of spring. The pro-visions were cached and off we went for the hut. With the exception of the loss of a few dogs and a couple of frozen heels everything was all right Only in the middle of October spring

should go toward the south had been changed. Five men had to do this work, while the other three were to ward VII. Land. This last mentioned trip was not

included in our program, but owing to the fact that the English had not reached it, at least this summer, as was their intention, we agreed that the best thing to do was also to make

this trip. On October 20 the southern party started—five men, four sledges, fiftytwo dogs, and provisions for four months-everything in excellent order. The Journey to the Pole. From the start it was the intention

on the 5th of November, where the dogs for the last time got all they wanted to eat. On the 6th, southward again, with a daily march of 50 kilometers. In order to lighten our heavy

sledges we established depots at each degree of south latitude. Like a Pleasure Trip.

The trip from 82 to 85 degrees, be came a pleasure trip-excellent ground, fine sledging, and an even temperature. Everything went, like a dance.

On the ninth we sighted South Victoria land and the continuation of the mountain range which Sir Ernest Shackleton mentioned in his chart as running toward the southeast from the Beardmore glacler, and on the same day we reached 83 degrees and established here depot No. 4. On the eleventh we made the interesting discovery that the Ross Barrier termieast at 56 degrees south latitude and 163 degrees west longitude, formed between the southeast mountain range running from South Victoria land and a range on the opposite side running in a southwesterly direction-probably a continuation of King Edward VII. land.

On the thirteenth we reached \$4 de grees where we established a depot; on the sixteenth we were at 85 de-grees, where, also, we made a depot. From our winter quarters, "Fram-heim," 78 degrees 38 minutes south latitude, we had been marching due south. On the seventeenth of Novem-

ber, at 85 degrees, we arrived at a place where the land and barrier were connected. This was done without any great difficulty. The barrier here-rises in undulations to about 300 feet. Some few big crevices indicated the

limited boundary. Here we made our head depot, ta-king provisions for sixty days on sledges and leaving thirty days provisions on the spot. The next day we began to climb.

Up to this time the observations and dead reckoning agreed remarks bly well and we made out that we ought to be at the pole on December 14 in the afternoon. that

That day was a beautiful one—s light breeze from the southwest, the temperature minus 23 celsius (9.4 degrees below zero Fahrenheit) and the

ground and aledging were perfect. The day went along as usual, and at three p. m. we made a halt.

Sixty Years Ago

Sixty Years Ago The people of New England were us-ing Dr. Herrick's Sugar Coated Liver Pulls for biliousness, sour stomach, in-digestion and coastipation and they are still using them when needed for the same purpose. Why? Because they never fail to give the desired results and they do it gently and comfortably but thoroughly. A dose taken at night makes you feel fine, bright and otherful nex: morning. Try them, the druggist, and Beyer's Pharmacy.

Loses in Love and Marriage Hair is certainly most necessary to woman. Who could love and marry a bald-headed woman? What charms could one array to offset such a disfig-urement? A woman's goal is usually love and marriage. Her crowning glory is her hair. The loss of her hair mars her right here in Rochester, there are thousands of women who are neglecting or injurng their hair to such an extent that it is only a matter of time when it will be utterly ruined. Many women destroy the beautty of their hair through thoughtlessness or ignorance of certain facts.
