A THROUGH TICKET?

Millions of men in this nation are employed transporting their fellows from one town to another. Street railway traffic alone has multiplied three or four times in the last twenty years.

Most persons ride on a through ticket. They know where they wish to go and desire to get there as speedily as possible.

How about life itself? How many are sure of a through ticket to the "land that is fairer than day?"

Christianity points the way to the ticket window. The ticket is free, but strength of will is needed to keep close to the teachings of the Bible. Faith in Jesus Christ alone insures safe arrival at the journey's end. Attend some church next Sunday and learn more about this "through ticket."

PENNIMAN ALLEN THEATRE RE-OPENS NEXT WEDNESDAY

Newly Re-decorated, Plymouth's Popular Playhouse Will Re-open With Charles Ray in "The Tailor Made Man," Wednesday Evening, Sept. 20th

After being closed for the past four weeks, while the interior of the theatre was being decorated, the Penniman Allen theatre will re-open next Wednesday evening. The newly decorated interior presents a beautiful appearance, and it will be a most pleasing surprise for the patrons of this popular playhouse, when they see for themselves how handsome the theatre looks. The color scheme has been worked out in white, blue and gold, artistically blended and in perfect harmony.

The offering on next Wednesday evening will be, Charles Ray in "The Tailor Made Man," a picture which is having a big run at the Broadway Strand in Detroit for two weeks. A good comedy and scenic round out a most excellent program. There is no doubt that the reopening night will see capacity houses for both shows.

ANOTHER NEW FIRM

Arthur J. Eckles and Oliver Goldsmith have formed a co-partnership, under the firm name of Eckles & Goldsmith, and will carry a full line of cement, lime, dairy feed, fertilizer and baskets.

The new firm has purchased the property known as the old cheese factory site, just east of the Pere Marquette depot, and ground has been broken for the erection of a fine new warehouse. The building is to be 30 x 80 feet, the front, facing Holbrook avenue, is to be used for office purposes. The north side, facing the P. M. R. R., for unloading cars, and the south side, for outgoing business. The new firm has also been thoughtful for the long wanted need of Plymouth, a "good team track." Arrangements have been made with the Pere Marquette Railroad Co. for a siding, beginning at a point west of Holbrook avenue, extending east to York street, and connecting with the present siding of The Plymouth Preserving Co. [Both Mr. Eckles and Mr. Goldsmith are well and favorably known to the people of Plymouth and vicinity, and have a host of friends who will wish them abundant success in their new business venture.]

WATERFORD MAN BELIEVED TO HAVE BEEN DROWNED

Friends and relatives of Ivan Dickinson of Waterford, have been suffering intense suspense during the past week, as it is believed that Mr. Dickinson was drowned in Mitchawa Lake, near South Lyon, last week Thursday night. Mr. Dickinson left home last week Thursday evening about 7:30 o'clock, saying that he would return about 11:00, as he was going to the lake to fish for bullheads. When morning came and he had not returned, Mrs. Dickinson called the Ford factory at Northville, thinking that perhaps he had gone to work without returning home, but on learning that he was not there, search was begun, which has continued throughout the week. Mr. Dickinson's automobile was found near the lake where he left it, his hat was found near the shore and the boat was floating on the lake.

Miss Helen VanDeCar and guest, Edward Kellenberger, of Blythe, California, were dinner guests of Mr. and Mrs. Gilbert Brown last Saturday evening, at their home on Farmer street.

THE ELECTION IN PLYMOUTH

AN UNUSUALLY LARGE VOTE WAS CAST AT THE PRIMARY ELECTION HELD TUESDAY.

The Primary election held here Tuesday brought out an unusually large vote. Three Things You Demand

There are three things you demand from your bank: First, it must offer a place of unquestioned safety for the money you entrust to its care.

Secondly, it must lend its funds not only with the security of the investment in mind, but with the good of the community and its proper development always under consideration.

Thirdly, you demand that your bank shall be friendly, pleasant and helpful in all its dealings with you.

We believe these demands of yours are reasonable, and we aim to meet them in every respect. We invite your business upon this basis.

THE EYES OF FAITH

WHEN— Sorrows and afflictions come to the soul or to the home, whither may we flee for comfort?

WHEN— Trials and tribulations assail us, who is our surest refuge?

CAN— Any human arm or power save or help us? Is there money enough in the world to purchase freedom from these things?

WHY NOT— Put our trust in Almighty God, the loving Heavenly Father, who alone has power and grace sufficient for all our needs. In Jesus Christ, "Is the way, the truth, and the life. No one can come unto the Father but by Him?"

DO YOU BELIEVE?

HOG PROFITS HINGE ON THE CORN CROP

RELATIVE PRICE WILL DETERMINE NUMBER OF PORKERS RAISED IN COMING YEAR, SAYS M. A. C. The size of the corn crop this fall, with its resultant effect upon the price of corn, will bear directly upon the profit to be gained from hog raising in Michigan during the coming season, is the statement made here by Prof. George A. Brown, head of the animal husbandry department at the Michigan Agricultural College.

Mrs. Mabel Hanchett, who has been visiting her aunt the last week, at Holloway, returned home Sunday night.

GRAND FIREWORKS AT WASHTEENAW COUNTY FAIR

The crowning glory of the fireworks exhibition is that it can be seen. The old need not blink and peer, and complain to the manager who is deaf, dumb and blind, and the young need not whine and cry to be taken up in arms. There are not hats to obstruct the view; there are no seats, hogs; and the observer need not worry if the world's fatest man or woman climb into a seat just in front of him. This is because—well, there are two because. In the first place, fireworks are fireworks, and couldn't be hidden under a bushel. In the second place, it's the knack of management, well illustrated by the fact that every fireworks set-piece, every fireworks tableau, every fireworks drama, is staged at least six feet, and more often not less than ten feet, above the level of the ground. And that helps a lot.

ADD FRUIT EXPERTS TO COLLEGE STAFF

ORTICULTURAL DEPARTMENT REORGANIZED UNDER GARDNER, READY FOR MORE EFFICIENT SERVICE.

Headed by Prof. V. R. Gardner, the horticultural department at Michigan Agricultural College has been enlarged and reorganized and is now in position to give better service to fruit growers of the state than ever before.

Three other new men have been added. They are F. C. Bradford, associate professor and research associate, a graduate of Harvard, who has taught at the University of Maine,

Oregon Agricultural College and the University of Missouri; E. P. Lewis, special instructor in vegetable work, a graduate of Purdue, and formerly a teacher at the University of Illinois; and H. M. Wells, instructor, a graduate of Ohio State.

Prof. Gardner himself is returning to his old love in coming to M. A. C. for he graduated here in 1905. Since that time he has been engaged in horticultural work of various kinds in Iowa, Quebec, Maine, Oregon and most recently as head of the department at the University of Missouri. He and Bradford are two of the joint authors of the book, "Fundamentals of Fruit Production," published last spring, which other horticulturists at M. A. C. declare is the only comprehensive text book for upper class horticultural students now available.

The reorganized department will

consist of thirteen men, including research and extension specialists. Men retained are Roy E. Marshall, associate professor and research associate; R. E. Loree, associate professor; W. C. Dutton, research associate; N. L. Partridge, assistant professor; T. A. Farrand, extension specialist; Thomas Gunson, floriculturist and assistant professor; Stanley Johnston, superintendent of the South Haven Experiment Station, who will teach in the short course division at the college during the winter; and H. D. Hootman, superintendent of the Graham Horticultural Experiment Station, at Grand Rapids. Prof. C. P. Halligan, formerly head of the department, will devote his entire time to the teaching of landscape gardening.

The added personnel will make possible the assignment of special lines of work.

Today's Reflections

The price of hard drinks suggests that a lot of fellows better forget them if they want any hard coal.

There may not be enough parking space in Plymouth, but there is said to be no dearth of sparking places along our country lanes.

An Ohio man says a train just missed his auto two inches. Suppose the train had been ahead of time?

Here's a good beauty secret—keeping your nose out of other people's business prevents it from getting flat.

There's nothing longer than the summer days to the girl who is engaged to be married in the fall.

If you see a Plymouth boy out riding with a girl and only one of his arms is visible don't worry. The other is around somewhere.

Lots of times a woman calls a man a woman hater, simply because he refuses to admire her.

We've also noticed that the man who makes hay while the sun shines seldom has a sun stroke.

Another thing we can't figure out is why a Plymouth woman is always younger than a man born on the same day.

People go on picnics to forget everything. And this usually includes salt and pepper for the eggs.

It's a good thing that "Tin Lizzie" can keep a secret better than most women.

Plymouth girls used to kiss and make up. Now they make up and do their kissing afterward.

That man who dropped dead on Wall street may have been a farmer learning the price of wheat.

If health is wealth, then the hay fever victim feels that he is dead broke.

Plymouth merchants should always bear in mind that the more sales they expose themselves to the more sales they will make. And that's where printer's ink comes in.
