

PLYMOUTH GETS MACK-CRAFT AMPHIBIAN PLANT

Ground to be broken within 10 days. Must build 14 planes before next January. \$50,000 to be put into Machinery.

The Mack-Craft Amphibian Corporation will break ground for its first unit of its factory within ten days," said Mr. McIntosh, president and general manager of the corporation. "We have decided on a program that we hope to follow for the balance of this year. It is planned to build fourteen (14) S-place Amphibians before January, 1930, and will build about forty to fifty ships in 1930. We will have about forty employees within thirty days, on night and day shifts, in order to make up for lost time. It is hoped to make a test of our first ship sometime in August. Before the end of the year, we hope to have 150 employees. We will add another ten thousand square feet being a second unit before January. "This company is endeavoring to fill orders received from a company which is being formed on the west coast. If our company should grow just one-half as fast as a number of aircraft factories now in existence, we can expect to have about fifty thousand square feet of floor space and three or four hundred employees in three years. The Amphibian will be the dominating airplane in the field, because it is the safest kind of

(Continued on page 8, col. 3.)

League of Women Voters Held Meeting

A pleasantly informal meeting of the Plymouth League of Women Voters was held at the Hotel Mayflower, Monday afternoon at 2:30. Two exceptionally interesting speakers were on the program. John Emens, principal of the Plymouth High School, was the first speaker. Mr. Emens is favorably known to all in Plymouth through his activities in the church, his interest in clean sports for the boys and girls in Plymouth, and his influence for good on the young men of the high school.

Mr. Emens drew a sharp contrast between the schools of today and those of even a few years ago. He spoke of the many opportunities offered through the various organizations in the schools today to develop leadership in both boys and girls. He pointed out the value these organizations have in developing character, cooperation and citizenship, and how parliamentary law is thus taught in a practical way. He quoted statistics showing that young people are not only better educated than formerly, but are better equipped to meet life.

Following Mr. Emens, Mrs. Kate Campbell, assistant superintendent of the Detroit House of Correction, gave a most comprehensive talk on her work among the unfortunates who are sent to this institution. Mrs. Campbell is an authority and has made a study of criminology for more than fifteen years. The institution at Northville aims, through scientific methods, to put back into society, useful citizens instead of confined criminals.

Before adjournment, a short business meeting was held, and plans for the June meeting discussed. There will be no meetings held during July and August.

Northville Inter-County League Opening Game

Plymouth Merchants will play Northville at Northville, Sunday, May 19th, at 3:00 p. m. Through the management of Roy Booth, Booth Stock Farms, Northville will have a baseball team that will be hard to beat. They are making arrangements to have the Northville band, and also the Detroit News news reel will be on the job to take moving pictures of the game. With Plymouth's new team and the team that Mr. Booth has contracted, you may be assured that you will see a good game. So save Sunday afternoon date, and let us try and show Northville that our team has a real following. Don't forget, Northville, Sunday, 3:00 p. m. Let's go!

DEATH OF MRS. ALVIN ROWLAND.

Mrs. Alvin Rowland died at the Howell Sanatorium, Thursday, May 9th, aged 30 years. The deceased leaves a husband and one daughter. The funeral services were held Saturday, May 11th, from Schrader Bros. Funeral Home, with interment in Riverside cemetery.

Plymouth Rock Lodge F. & A. M. Entertain

Plymouth Rock Lodge, F. & A. M., entertained the DeMolay boys and their mothers at 6:30 at the Masonic temple, last week Thursday evening. A splendid banquet was served to Master Masons, their wives, members of DeMolay chapter and their mothers. At the conclusion of which a splendid program was enjoyed, before the men and boys retired to the lodge room. Fine musical selections and a vocal solo were rendered by members of a Detroit DeMolay chapter, and two selections were especially well rendered by the high school girls' double quartette, under the direction of Miss Gladys Schrader.

Short talks were given by Ernest Henry, Superintendent George A. Smith, and "Daddy" Joe Himmelpach, sponsor for the Northville chapter of DeMolay boys. The address of the evening was given by Rev. E. F. Dunlavy of Farmington, on the subject, "Mothers."

The men and boys then retired to the lodge room, where the DeMolay work was exemplified. Gerald Knapp, Frederick Shear, Elton Knapp and two Farmington boys were initiated into the order. The ladies present at the banquet were entertained in the banquet room during the initiatory work in the lodge room.

Everyone present at the banquet, initiation and entertainments felt that the evening had been a very fitting tribute to "Our Mothers," and one long to be remembered and profitable to those present.

Funeral Services for Mrs. Marcellus Kenyon

Funeral services for Mrs. Marcellus Kenyon were held from Schrader Bros. Funeral Home last week Wednesday afternoon, with Dr. F. A. Lendum officiating. Two vocal numbers were beautifully rendered by Francis Bodwell and Stewart Bair, members of the Five Freshmen troupe of which Pierre Kenyon is a member. The interment took place in Riverside cemetery.

Jennie Harland was born in Clinton, Ont., April 8, 1865, and was married in 1881 to Marcellus Kenyon. She is survived by her husband and five children, John H. of Detroit; Mrs. S. W. Ambler, Northville; Albert T. of Portland, Ore.; and Pierre and Gertrude of Plymouth.

The deceased was a member of the Methodist Episcopal church. She had been a resident of Plymouth for the past thirteen years.

Johnson-Lang

Mr. and Mrs. John G. Lang announce the marriage of their daughter, Juanita Mae, to Hugh L. Johnson of Flint, on Thursday, May 9th. Rev. Nichol officiated at the ceremony which was performed at the First Presbyterian church at 12:00 o'clock high noon.

The bride was gowned in white silk crepe, trimmed in lace, with a beautiful head dress of pearls and orange blossoms. She carried a shower bouquet of white and yellow roses and white sweet peas. The bride was attended by the groom's sister, Miss Geraldine Johnson, wearing a gown of pale green georgette crepe, and carrying an arm bouquet of yellow and white roses and white sweet peas. Harry Lang, brother of the bride, assisted the groom.

After the ceremony, the bridal party drove to the groom's sister's home in Flint, where a very dainty luncheon was served to the immediate families at four o'clock. The tables were prettily decorated with yellow and white flowers and white tapers.

The bride is a graduate of Plymouth High School in the class of 1925, and for the past three years has been an employee of the Detroit Edison Co. The groom is an employee of the Buick Motor Car Co., Flint.

Mr. and Mrs. Johnson are at home at 609 Leith St., Flint, Mich. Their many friends wish them much joy and prosperity throughout their wedded life.

LOCAL BUSINESSMEN BACK C. OF C. MEMBERSHIP DRIVE

Plymouth Products Displayed In Detroit

Plymouth and its manufacturing concerns are being featured this week in an attractive display in one of the large Washington boulevard, Detroit, windows of the Michigan Bell Telephone company. Roy E. Crowe, local manager of the Michigan Bell company, and the Plymouth Chamber of Commerce were responsible for arranging the display. It has been seen by many thousands of people.

The Plymouth window is one of a series that has been appearing at regular intervals, featuring the various prominent cities of the state. The displays are titled the "Know Michigan" series, and are planned to acquaint Detroiters and Detroit visitors with the many fine communities of Michigan, and their manufacturing

concerns and natural resources. Included in the Plymouth window are samples of the manufactured products of the following firms: C. J. Hamilton & Son, Daisy Manufacturing company, Plymouth Plating Works, H. S. Lee Foundry & Machine Company, Trenton Fiber Products Co., Willett's Toy & Novelty Co., Dunn Steel Products Co., Plymouth Tube Co., King Manufacturing Co., and the National Window Shade Co.

In the center of the display, is an attractively lettered placard which reads: "Plymouth, an attractive location for industry and homes, is located in Wayne county, 23 miles west of Detroit. Transportation is afforded by the Pere Marquette railroad, the De-

troit Motorbus Co., the Outer Belt Transit Co., and the Southwestern Motor Coach lines.

"There are two grade schools, two high school, seven churches, two hotels, a modern hospital, three banks and a weekly newspaper, The Plymouth Mail. Plymouth has an ample supply of pure spring water, an efficient fire and police department and more than ten diversified industries, the largest of which is the manufacture of air rifles.

"The population is 5,500, and 80% of the residents own their own homes. There are 1,350 telephones, and the station-to-station day rate to Detroit is twenty cents."

PLYMOUTH SCHOOL DISTRICT FORMED INTO VOTING PRECINCT

A Mother-in-Law Makes \$36 Speech

SON CONVICTED, SHE BERATES WIFE AND GETS FINE.

When she rushed toward her daughter-in-law, who had appeared against her son on a non-support charge, Mrs. Mina Brown, 50 years old, was herself halted before the court by Phoebe Patterson, justice of the peace, in Plymouth, Tuesday and fined \$25 and \$11 costs.

Mrs. Brown's son, Beecher Brown, was charged by his wife, Marguerite, with having failed to support her and their six-months old child. He was sentenced to 90 days in the Detroit House of Correction, and may be taken into the Circuit Court after his release for violating the terms of his parole, granted when he was arrested last September on a charge of breaking and entering.

On hearing sentence passed, Mrs. Brown rushed at the young wife, who fell into a chair hysterical. The older woman was shouting epithets at her daughter-in-law when her arrest was ordered on a charge of disturbing the peace. Stephen Davidow, assistant prosecuting attorney, was in charge of the prosecution of the son, and recommended the complat and warrant for Mrs. Brown.

MATHEW B. SHERWOOD

Mathew B. Sherwood was the son of Richard and Charlotte Sherwood. He was born at Wallaceville, Wayne county, September 27, 1864, and was united in marriage to Rose D. Sherwood, June 18, 1894. Mrs. Sherwood preceded him in death, January 2, 1909. To this union four children were born, two of whom died in infancy.

Those left to mourn their loss are two daughters, Mrs. Maud Kipper of Detroit, and Mrs. Bessie Huegel of Dexter, and two sisters, Mrs. Libbie Parmalee of Northville, and Mrs. Will Parmenter of Plymouth. Mr. Sherwood was a man of very sterling qualities, and kind and obliging neighbor, and being obliged to be both father and mother to his family. He fulfilled his obligations with love, kindness and sympathy, and his death is deeply felt by his loving daughters, Maude and Bessie.

At a regular meeting of the Board of Education held Wednesday, May 8, by resolution, the Board of Education formed Plymouth District No. 1 fractional of Plymouth and Northville townships into a voting precinct. The power for this action is granted to the Board of Education by Chapter 7 of the General School Laws.

Sec. 1. Voting Precincts, Formation of. The board of education of any school district, except primary school districts, may form said district into one or more voting precincts.

Provision was made for registration of all voters in said district, the first registration taking place Saturday, May 11, and as will be noted by notice elsewhere in this issue of the Mail, registrations will also be made at the high school office Saturday, June 1, from 1:00 to 8:00 p. m., also Saturday, June 8, from 1:00 to 5:00 p. m. It will be necessary for every one who votes to register on or before the final afternoon for registration which is Saturday, June 8.

QUALIFICATIONS OF VOTERS

In all school elections every citizen of the United States of the age of twenty-one years, male or female, who owns property which is assessed for school taxes in the district, or who is the parent or legal guardian of any child of school age included in the school census of said district, and who has resided in said district three months next preceding said election, shall be a qualified voter.

On the question of voting school taxes, every citizen of the United States of the age of twenty-one years, male or female, who owns property which is assessed for school taxes in the district, and who has

(Continued on Page 5, Col. 6.)

KNIGHTS OF PYTHIAS ELECT OFFICERS

Plymouth Lodge No. 238, Knights of Pythias, held their annual election of officers last Thursday night, May 9th, and the following officers were elected to their respective stations:

- C. C.—Russell Bingley
- V. C.—Glenn Davis
- Pr.—Jay B. Winans
- M. W.—Charles McConnell
- K. of R. & S.—Charles Thorne
- M. of F.—L. L. Ball
- M. E.—George Gebhardt
- M. A.—Albert Drews
- I. G.—Archie J. Meddaugh
- O. G.—J. Morgan

Business and Professional Women's Club Held Dinner Meeting

The Business and Professional Women's Club of Plymouth held their regular dinner meeting Tuesday evening, May 14, at the Hotel Mayflower, with fifteen members present.

The club is reading a series of interesting articles on finance, and Sarah Gayle presented the second article in this series, entitled, "Description of the Banking System" written by Lawrence P. Smith, vice-president of the First National Bank of Detroit.

Mrs. Irene Bailey, Mrs. Phoebe Patterson and Mrs. Frances Sullivan were elected to membership.

Plans for the coming national convention to be held at Mackinac Island in July, and which promises to be an outstanding event for Michigan members, were discussed. All members are being urged to attend this convention, as it may be the only convention Michigan will be privileged to entertain, inasmuch as conventions are held only once in two years and there are forty-seven states that will in rotation entertain the national convention.

Katherine Kuhl and Esta West were in charge of the evening's program, and at the conclusion of the business meeting they invited the members to adjourn to the local building of the Michigan Bell Telephone Co., where Miss Kuhl explained to the visitors, in a very interesting manner, the intricacies of the switchboard and various points in regard to the telephone system. Later the guests gathered for a little chat in the charming recreation room provided by the telephone company, for the pleasure and use of its employees, in the meantime taking a peep into the completely equipped little kitchenette adjoining, and all agreed that Katherine is an accomplished housekeeper as well as a very competent chief operator.

The next regular meeting of the club will be held on May 28.

Student Council Plays

Due to the seniors' relinquishment of their opportunity to give a play this year, the student council decided to re-imburse their treasury by giving three one-act plays May 23 and 24. The proceeds will help to sponsor our honor banquet to be held June 4.

One of the plays, "The Robbery," is the story of a girl who develops a

Largest Plymouth Chamber of Commerce Subscription ever raised.

Improvement Money

STATE OF MICHIGAN AUTHORIZES \$200,000 TO BE USED BY C'S. OF C. AND OTHER SIMILAR ORGANIZATIONS FOR 1929 AND 1930.

An organization is underway for the organizing of the Southeastern Michigan Tourist and Publicity Association to secure for this portion of Michigan, a proportionate share of the state's allotment. One of the conditions upon this allotment is that the local organization raise a similar amount to use.

This should materially help this section of Southeastern Michigan, and is a step toward the cooperation of the state with the local Chambers of Commerce.

The membership drive of the Chamber of Commerce is progressing most satisfactorily, and the goal of \$4,000, which has been set, is almost reached. This will insure a paid secretary for the organization, which means that there will be a trained executive on the ground all the while. At a meeting of business men held Monday evening, eighteen men were willing and took it upon themselves to go out and raise the amount of money lacking to put the proposition across.

From the membership goal it is a pleasure to see that the business men of Plymouth are well represented. The board of directors hope that any party who has not been approached by a member of a team will call or write in to the Chamber of Commerce

(Continued on page 5, Col. 2.)

Record Attendance at Methodist S. S. Contest

Last Sunday morning was supposed to be the last day of the contest between the Red and the Blue sides, but after all present were counted, it was found that there was a tie score for the five consecutive weeks, and next Sunday, May 19th, will tell the story of who will eat the beans. The supper is to be served by the losing side, and will be Wednesday evening, May 22, at 6:30, in the church dining room. The largest attendance in the history of the Sunday-school was shown on the secretary's books for last Sunday, totalling over 340, which beat the best previous record by more than 30. Next week's paper will tell who enjoyed the fire July steak.

AUTO ACCIDENT

An automobile driven by Cecil Packard of this place, crashed into the rear end of a truck pulling a trailer, at New Hudson, early last Saturday evening. Young Packard was seriously cut about the face, requiring twenty-two stitches to close. Miss Margaret Dunning, also of this place, another occupant of the car, was hurt about the head, and was taken to the hospital at Howell. She is getting along nicely at this writing. Another young couple who were passengers in the rear seat of the car, were practically uninjured.

De-Ho-Co Game Called off Last Sunday—Wet

Last Sunday the scheduled game between De-Ho-Co and Battle Creek Kelloggs was called off on account of wet grounds. It is expected that later on in the season, the local fans will have the opportunity to see the Battle Creek players in action at De-Ho-Co Park.

Sunday, May 19th, the De-Ho-Coites will take on the strong City of Hamtramck team. Hartner will probably be the choice of Manager Prough to go on the mound for De-Ho-Co, and Speed McGee, a newcomer to the local ranks, is the probable choice on the receiving end.

Fans are assured of snappy baseball and a real tough battle in this Sunday's contest, as the Hamtramck group are well known in semi-pro ranks.

The House of Correction De-Ho-Co Park grounds are 3 1/2 miles from Plymouth on the Phoenix road.

BOY SCOUTS AND PARENT-TEACHERS

Friday evening last, eight scouts from Troop I of Plymouth, were taken by Scoutmaster Strong and troop Committeeman William Hayball to the stone house north of Dixboro, to put on a demonstration of scouting activities before the Town-Line P. T. A. there. The boys went through the usual troop opening and closing ceremonies, and showed signalling methods, knot boards and first aid. The boys especially enjoyed the good eats following the program.

TEN WINNERS ANNOUNCED.

The First National Bank of this place, made the announcement last week that in connection with the distribution of the twenty-five dollars in cash on May 11 to ten members of their 1929 Christmas Club, the following persons were awarded \$2.50 apiece: John Baze, Barbara Kenaler, Mrs. Irma Kaiser, V. W. Hitt, Wyman Bartlett, David Bolton, Frank Capatosta, Gertrude Willmore, Lloyd Ellis and David Gallin.

Episcopal Supper

Wednesday evening was the fourth of the supper-program series of St. John's Men's Club. The Women's Guild served a fine supper, and the program was exceptional.

Mrs. Harry Bucher, dean of women of the University School of Music at Ann Arbor, and president of the State Federation of Music Clubs, spoke of the benefits of music to the community and of the advance in public school music methods and results in recent years. She emphasized the appreciation and knowledge of really good music, which was bound to develop as so many of our children grew up with this better training in the schools.

Mrs. Baehner brought with her from the university, Miss Gertrude Frederick, violinist, who charmed the audience with "Chanson-Meditation" by Cotanet, and "Spanish Dance" by Granados, as arranged by Kreisler. She was accompanied on the piano by Miss Mary Alice Case.

The Midnite Sons Quartet of the University Glee Club, composed of Roland Catchpole, first tenor; Sydney Straight, second tenor; Otto Brown, first bass, and Vincent Peterson, second bass, sang two groups of songs which were very much enjoyed by the listeners.

The Men's Club of St. John's and their supper guests are very much indebted to Mrs. Baehner, Miss Frederick and the quartet for this very fine program.

The next and last supper of this series will be on May 29th, when Capt. Edwin Pollock, U. S. N., will give an illustrated lecture on Samoa.

LOCAL SCOUTS TO ATTEND CAMP BRADY.

All Scouts and their fathers are urged to attend an over night hike to Camp Brady, May 25 and 26. Transportation to and from camp will be provided by the members of the Rotary Club. The Scoutmasters of Troops No. 1 and 2, and also a number of the troop committeemen are attending. The fees are \$1.25 each, which includes board and lodging.

GAS PRICES

Plymouth motorists who are preparing for auto trips into other territory will be interested in knowing that a campaign has been started by the American Automobile Association whereby it is hoped to bring about more uniform gasoline prices. On a recent day in February telegrams to this association showed 77 different gas prices in seven states. The price ranged from 12c a gallon to 45c a gallon for "regular" gas; sometimes there was a variance of as much as 5c between stations located only two miles apart. Today it's a case of a motorist not knowing one mile what gas is going to cost the next, and when starting out he hasn't any idea how to figure in this necessary part of his travel bill. The A. A. A. believes the government and the gasoline producers can get together and fix a price that will be something like uniform all over the country. They may be sure of earning the thanks of something like 25,000,000 motorists if they do.

LIVING AND LEARNING

We live and we learn, and as a rule the things we learn help us in our everyday life. Here comes a report that experiments made in feeding ordinary seaweed—known as "kelp"—to livestock and poultry have shown this product to be valuable as a ration. Seaweed has never been anything more than a nuisance to sailors. Now, however, it promises to contribute to the entire nation's welfare by serving as a rich and healthy food for cattle, dogs, sheep and poultry. Since there is no apparent end to the supply that can be gathered out of the Atlantic and Pacific oceans, who can say but that in a few years farmers around Plymouth will be receiving kelp, dried and baled the same as hay and straw, for feeding purposes, and at prices lower than he has ever paid for anything in the shape of stock rations. The man who said "this is the day of small things" knew what he was talking about.

NO WAR PAINT HERE

Everything seems to change but human nature. We make that statement simply because we still encounter every now and then a reader who feels we are not doing our duty by the community unless we "jump on" a certain movement, a certain organization, or a certain individual. Why some people imagine that we are anxious to don the war-paint and "jump on" somebody or some thing in which the public is interested we do not know; nor do we understand why there is in every community a few who have not learned that a newspaper man would far rather be writing something nice than something harsh about somebody, or that the newspaper would rather be building up than tearing down. Such requests go in one ear and out the other. We merely suggest that there's trouble enough in the world without our starting more. And we saunter on our way wondering why the fellow who requested us to "jump on" somebody doesn't look at life the same way.

A RECORD WINTER

Although the country has emerged from its most severe winter in years, the damage to wheat, meadow crops and fruit has been less than usual, according to forecasts now being sent out.

It would appear to the average Plymouth citizen that such a winter would bring more serious damage

than one in which the temperatures were more normal, yet experts say that just the reverse is true. While temperatures all over the nation were very low, the cold waves followed each other so rapidly that there was very little of the mechanical effect of alternate freezing and thawing. The plants remained in a state of complete suspension of growth and there was a minimum of "heaving" to break the roots.

The soft wheat territory has suffered but little, they say, and the condition of it is excellent. The hard wheat territory, especially in Nebraska and Kansas, is not quite so good, since growth was small last fall and the plants did not get quite enough root. However, crop and fruit prospects, particularly in our western states, are reasonably satisfactory, the forecasters say, and with ordinary weather from now on through the growing season we should have another excellent harvest. Here and there throughout the country, of course, unlooked for conditions will spring up to mitigate against it. But taking the country as a whole, we have no cause for complaint, and the severe winter, as uncomfortable as it may have been for a lot of us, may yet prove to have been a real blessing in disguise.

THOSE TOLL BRIDGES

The matter of toll highways and toll bridges has a great deal of interest for residents of every section of the U. S. just now. It is becoming a vital question in territory where private capital is stepping in to grab off revenue in the shape of tolls. The proposition to build toll bridges and private roads on which toll would be collected is not unusual now; it's getting to be a familiar request of officials in many states. So Plymouth motorists should not pass the subject by with a wave of the hand. They may wake up a little later to find that they cannot travel very far from home without having to dig into their pockets to satisfy the greed of some toll road or toll bridge corporation.

Toll roads and bridges have no proper place in this country. The U. S. has become a great nation in such a short time largely because travel and communication between its various sections has been free and open. Today good roads are our greatest national economy. Millions of people use the roads of other states every year for travel, recreation and business. Much of the nation's commerce is now flowing over hard-surfaced roads that have been constructed by its taxpayers. Toll roads and bridges would defeat this plan and prove barriers to travel and trade through levying a tribute on those who travel them. It is up to every motorist to raise his voice against those who seek franchisees for privately-owned highways, and toll bridges should only be built with the understanding that they are eventually to revert to the people. It's a question to serious thought, and the taxpayer who has his own welfare at heart should be quick to recognize that fact.

Well It Should Be So

"For some mysterious and fortunate reason," said H. Ho, the sage of Chinatown, "enemies are easily forgotten, while friendships never are."—Washington Star

COMMISSIONER'S NOTICE.

148816

In the Matter of the Estate of DANIEL A. JOLLIFFE (D. A. JOLLIFFE) Deceased.

We, the undersigned, having been appointed by the Probate Court for the County of Wayne, State of Michigan, Commissioners to receive, examine and adjust all claims and demands of all persons against said deceased, do hereby give notice that we will meet at the Plymouth United Savings Bank, Plymouth, Wayne County, Michigan, in said County, on Tuesday the 18th day of June A. D. 1929, and on Saturday the 17th day of August A. D. 1929, at two o'clock P. M. of each of said days, for the purpose of examining and allowing said claims, and that four months from the 18th day of April A. D. 1929, were allowed by said Court for creditors to present their claims to us for examination and allowance. Dated April 18, 1929.

ERNEST J. ALLISON,
WILLIAM J. STURGIS,
Commissioners.

CANTON CENTER

Mr. and Mrs. John Schiller, Sr., and three daughters arrived at the home of their son, John, Jr., Monday, after a five years stay in Florida.

Mrs. Josephine Hix visited during the past week, at the home of her sons, Perry and Cady, of this place. Hough school held their last P. T. A. meeting of the year, Wednesday evening. Miss Anna L. Youngs of Newburg, presented a program of Indian songs, which was followed by a whole roast. A most enjoyable evening was had by all.

Mr. and Mrs. L. E. Kaiser entertained a host of their relatives and friends at a dance in their home Saturday evening.

Mrs. Robert Hutton underwent an operation at Henry Ford hospital, Detroit, Wednesday morning.

Mr. and Mrs. James Swegles and family spent Sunday at Belle Isle.

Mrs. John Schiller was an Ypsilanti visitor Tuesday evening.

Mr. and Mrs. Nelson Horn of Ypsilanti, were Sunday visitors at the home of the former's aunt, Mrs. Perry Hix.

Mrs. Louis Wudyka, who has been on the sick list the past few days, is somewhat improved at this writing.

Miss Etta Ewers of Big Beaver, Michigan, spent Sunday with her cousin, Amy Ewers of this place.

Frigid Temperature

In the Antarctic regions the temperature falls to 80 degrees F. below zero during the winter night of six months, and in the "summer" with the sun out 24 hours a day the temperature rarely, if ever, rises above zero.

Architectural Delight

Bentley hall, Allegheny college, at Meadville, Pa., is said to be second only to Independence hall in Philadelphia as an example of pure Colonial architecture.

NOTICE OF PUBLIC HEARING

Notice is hereby given that at a regular meeting of the village Commission to be held in the commission chamber at the village hall, Monday, May 20, 1929, at 7:00 p. m., a public hearing will be held for the purpose of hearing objections to the construction of the following proposed public improvements:

1. Lateral storm sewer in Sutherland Ave., from S. Harvey St. to S. Main St.
2. Lateral storm sewer in Palmer Ave., from S. Main St. westward to end of street.

It is deemed that the following lots and parcels of land will receive a particular benefit from the construction of the proposed improvements and are proposed to be included in the special assessment districts to be assessed for the costs thereof, to wit:

1. Sutherland Ave. District: Lots 5, 6, 7, 8 and lots 76 to 102 inclusive, Puritan Holms Addition; also lots 7 to 12 inclusive, William McKay Sutherland's Addition.
2. Palmer Ave. District: All lots and parcels of land abutting upon Palmer Ave., from S. Main St. to the end of the street; also lots 2, 3 and 4, Puritan Holms Add., and lots 70 and the north half of lot 69, Sunshine Acres Sub.

A. J. KOENIG,
Village Clerk

Why the new Ford is such a strong and sturdy car

The manner in which electric welding has been developed and used in the new Ford is in itself one of the wonder tales of industry.

Without increasing weight, it permits the use of steel forgings instead of stampings or castings, with resulting increase in strength and simplicity. One-piece units are used where formerly several separate parts were bolted or riveted together.

This has an important bearing on reliability and good performance and is also one of the reasons why the new Ford is such a strong and sturdy car. More steel forgings, in fact, are used in the new Ford than in almost any other car, regardless of price. In every least little detail, you are buying real quality when you buy the new Ford.

Phaeton, \$460	Roadster, \$450	Tudor Sedan, \$525
Business Coupe, \$525	Sport Coupe, with rumble seat, \$550	Fordor Sedan, \$625

WHEN BUYING AUTOMOBILES ARE BUILT BUICK WILL BUILD THEM

London Bobby to Shed Old Bell Bottom Hat

London.—The famous bell bottom helmet and the straight-jacket tunic of the London bobby are to be relegated to the museum, and within a month the London cop will appear in a costume that will make him look more like a human being and less like a character in an Irish art theater play.

The high helmet will be supplanted by a neat peaked military cap and a military jacket will replace the tight tunic. The tremendous leather belt around the constable's midriff upon which is mounted an electric lamp of formidable proportions is going to go. Hereafter the policeman will carry an electric hand torch.

The double-breasted coat, about the thickness of a medium-sized steak, is also taboo. In its place will be worn a coat, open at the neck, with a storm collar for use the 95 days out of every 100 that English weather necessitates it. The color of the costume remains blue.

Town May Have to Move When Leases Expire

Austin, Texas.—An entire town built upon leased land must move on July 1, 1930, unless a new lease is arranged. The town is Best, Reagan county, a community of 1,500 population. Stores, churches and homes have been built on land upon which the lease expires in little more than a year.

Best sprang up five years ago as a result of discovery of oil in the vicinity. Both the oil and Best are on part of the land with which Texas endowed its state university.

The university leased the townsite to P. L. Childress of Ozona, receiving a cash payment of \$1,192 and 20 per cent of the net proceeds of subleases.

Four other prospective towns are to spring up on townsite leases made by the university in Ward county, if oil development takes place there, as in Reagan county.

The university received \$1,000 cash payment for each of these 640-acre leases and will also get 20 per cent of net proceeds of subleases if the towns are built.

Unreasonable!

Worcester, Mass.—Claiming that she had to wash her husband's feet six times a week, that he bought her a piano but objected to her taking music lessons, and that he once beat her for donating 25 cents to the Salvation Army, Mrs. Mary Georgeson has applied for a divorce here.

100-Year-Old Doll Still Used as Toy

Atlanta, Ga.—Christine Jones, six years old, claims she has one of the oldest dolls. The doll's appearance supports Christine's claims. It was made more than 100 years ago for a little girl in England and has been played with by a great many little mothers since then. There is surely the hint of a nose left and the once beautiful complexion has turned from cream pink to almost black. The eyes have become slightly popped as the wax lids have worn away.

Pet Snail at Last Decides to Feast

Pontiac, Mich.—Balzar, pet snail who came to his home in Pontiac by some misstep in his early life which landed him in a shipment of bananas from Honduras, at last has ended his "sulks," and come out of his shell for food.

For several months Balzar would have nothing to do with humanity and the food his—on is it "her"—human captors offered. At last, however, hunger overcame timidity and the feast was on.

It was a quite a job to find out what Balzar craved as nourishment, but an offer of bread soaked in milk, overcame the last vestige of shyness and he feasts copiously on this concoction.

Newburg School Notes

By Evelyn Stutzner

Monday, May 13, Miss Ried awarded us with badges. They were: pink for teeth, yellow for weight, green for posture, and lavender for effort. Everyone in the grammar room, except Jack Goodsell, received at least two badges.

In the Intermediate Room these people are on the honor roll: Doris Schmidt, Elizabeth Stevens, Dorothy Hearn, Edmund Zielasko, David Gates, Gerald Cook, Howard Holmes, Donald Schmidt.

HERE IS SECRET OF SKIN BEAUTY

A wonderful discovery is the new French process which gives MELLO-GLO Face Powder its unparalleled smoothness and makes it stay on longer. The purest powder made—its color is tested. Never gives a pasty or flaky look! Will not irritate or clog the pores! Its youthful bloom stays on longer. Remember the name—MELLO-GLO. Community Pharmacy. "We Serve You Right."

We have a new girl who started school May 13, 1929. Her name is Mary Joyce.

Angeline Smithling visited the Primary Room Tuesday.

Miss Ried awarded twenty badges for health, seven badges for teeth and twenty-three badges for good posture to the children in the Primary room.

WATERFORD

The Get-Together Club met last Thursday afternoon, with Mrs. C. H. Ebersole. Twelve ladies were present and it was voted upon and carried that each member bring five cents each meeting until our election of officers in August. The next meeting will be with Mrs. Wm. Markham on May 23.

Mr. and Mrs. G. W. King attended a banquet and meeting of Wholesale and Retail grocers in Ann Arbor Wednesday evening. They are distributors of the Plee Zing brand which seems to be the coming thing.

Mr. and Mrs. G. W. King and Wm. Richards spent Thursday in Ferndale and Royal Oak.

Mr. and Mrs. C. H. Ebersole and children were Sunday dinner guests of Mr. and Mrs. Albert Ebersole. They also called upon Mr. and Mrs. Archie Herrick in Plymouth Sunday evening.

W. H. McKeerghan, who has been very sick for a couple of months, is able to be out again.

Mr. and Mrs. Arthur Johnson and son Orin, of Ypsilanti, spent Saturday afternoon with their parents Mr. and Mrs. W. H. McKeerghan.

The Misses Edith and Marjorie Peck, Wilbur Ebersole and Earl Beckler spent Sunday with the former's par-

ents Mr. and Mrs. Chas. Peck, of Ortonville.

Mrs. Ida Hughes and Mr. and Mrs. Chas. Waterman and children were Sunday dinner guests of Mr. and Mrs. Frank McGraw at Plymouth.

Mr. and Mrs. Don Miller and family were visitors at Mrs. Miller's parents in Birmingham Sunday.

Mrs. James Wilson and children of Fordson, spent the week-end with her parents, Mr. and Mrs. Elmer Perkins.

Mrs. Joseph Denton and little Pearl attended the Presbyterian church Mother and Daughter banquet last Friday evening. Mrs. Borchering and Miss Evelyn Grennan accompanied them. They had a most enjoyable time.

Mr. and Mrs. Robert Beckler of Lincoln Park were Sunday afternoon guests at the Arthur Gotts home.

Mrs. Arlene Plankell, Mrs. Ada Watson and Miss Marjorie Peck attended the Zo To Or banquet at the Hotel Mayflower last week Tuesday evening.

Mr. and Mrs. Lewis Cammon of Plymouth were Sunday dinner guests of Mr. and Mrs. Edmond Watson.

"Speaking of peace," comments Dad Plymouth, "there isn't a stream in the world whose banks differ as much as those of the Rio Grande."

STUDENT COUNCIL PLAYS.

(Continued from page One)

fright while her parents are absent one night. Due to the intensity and quality of her screams, she makes the acquaintance of a young man who comes to her rescue. When her parents return suddenly, they find a rather romantic situation well under way. Katherine Hitt plays the part of the girl; Russell Wallace, the boy; Winona Kenter, the mother; Ted Baughin, the father; and Clifton Sackow, the butler.

Another play, "The Valiant," is a tragedy, with the setting laid in the office of a warden of a prison. The story concerns a young murderer of unknown identity. The warden and priest are attempting to cross examine the convict for some clue pertaining to who he is. Although this man has conducted himself exceptionally well, he is finally led to the execution room after all the attempts have failed. Gale Kenyon poses as the warden; Dick Smith, as the priest; Harold Hubert, the condemned prisoner; Dora Gallimore, his sister; Charles Root, the jailor, and Clifton Sackow as the guard.

"The Knave of Hearts," a comedy given by the Junior Drama Club, is the third play. It is the tale of a king who wishes to possess a queen by the kind of pastry that she can bake. Although Lady Violetta has never baked or done anything for herself, she wishes to become queen. After mixing an absurd concoction supposed to be raspberry tart, the Knave of Hearts comes to her rescue by supplementing her tart with some delicious ones made by his wife. Thus the lady becomes Queen of Hearts. The cast consists of the manager, Donald Robinson; Yellow Hose, Philip Doerr; Blue Hose, Kenneth Greer; King Pomegranate, Max Todd; Chancellor, Willie Golden; Lady Violetta, Irene Humphries; Knave, Ernest Afeher; Ursula, Zephora Blunk; first Herald, Gordon Roy; second Herald, Donald Bronson.

The admission will be 25c for students, and 35c for adults. No seats will be reserved. The dates are Thursday and Friday, May 23 and 24.

Rev. Johnson paid a fine tribute to Motherhood, Sunday, Sarah Lillian Cutler, Lydia Joy and Alice Gilbert sang "Tell Mother I'll Be There," with Miss Joy McNaught accompanying on the piano. Miss McNaught also played the offertory. Rev. Johnson's sermon to the children was worthy of attention from the oldest to the youngest. There were eighty in Sunday-school. Arrangements are being made for Children's Day Exercises. Next Sunday will be Allium day.

The many friends of Newton Youngs are glad to learn he is getting along so well. He is still at the Receiving Hospital, Detroit.

Trees that have stood for over 60 and 70 years, are being ruthlessly cut down to make room for ten feet more of widening on Plymouth road. Maples, black walnuts and many others that were set out by loving hands so many years ago, have to make way for more traffic. Nothing but telephone poles to beautify the landscape.

Mrs. Frank Ryder and son, Bert, of Salem, and Mr. and Mrs. Nat. Ryder and Mr. and Mrs. Earl Ryder of Plymouth, called on C. E. Ryder Saturday afternoon.

Mrs. Mary Paddock and daughter, Florence, and Gene Konkio of Highland Park, and Hobart Jones of Acworth, New Hampshire, were callers on Mr. and Mrs. C. E. Ryder, Sunday.

The cemetery is being mowed and nicely taken care of, so that it will present a nice appearance for Decoration day.

Newburg friends of Mrs. Bessie Dunning were thankful to learn that her daughter, Margaret, was not more seriously injured in the auto accident, last Saturday night.

Rev. F. I. Walker called on C. E. Ryder last Friday morning and took dinner with Mr. and Mrs. Jesse Jewell.

Repair work on the old school has progressed so slow that it will not be ready for the opening Friday, May 17, and the carnival and jitney lunch given by the Ladies Auxiliary will be held in the Ladies Aid Hall on that date.

Mr. and Mrs. Vern Mackinder and son, Harold, and daughter, Fern, of Grand Rapids, and Mr. and Mrs. James Norris and son, Walter, of Strathmore, spent Mother's Day with Mr. and Mrs. C. Mackinder.

Mr. and Mrs. Don Ryder called on Mrs. R. Barnes at South Lyon, Sunday afternoon, finding her very poorly.

Mrs. Nettie Boree of Detroit, spent the week-end with her mother, Mrs. Farwell, who is feeling better at this time.

Rev. and Mrs. Johnson and family spent Monday and Tuesday with Mrs. Johnson's parents in Caro.

Miss Bartha Warner and Mrs. Carle Warner called on Mrs. Mackinder, Monday evening. Mrs. Warner is resting comfortably after her fall two weeks ago.

Mr. and Mrs. Clyde Smith and Mr. and Mrs. Wm. Smith spent Sunday with relatives in Toledo.

YOUR Garden or Lawn

Why have less than specimen blooms in your garden or brown or bare patches in your lawn? It's all a matter of soil. It takes humus to make good soil. Add humus to your sand or clay and you have rich black soil. One load of humus makes five loads of good soil. A load of humus is equal to five loads of black dirt. It is the modern scientific substitute for manure and is superior to manure.

We deliver Kendall Humus at \$6.00 a load (cu. yard). Equal to two bales of imported German Peat Humus.

H. J. Fisher, J. L. Olsaver, Homer Jewell, Roy Streng's men, George Springer, David Gallin.

BOY SCOUTS HOLD RALLY

On Wednesday evening, May 8th, the Boy Scouts of this district staged a competitive rally and high court of honor at the high school. Troops I, II and III of Plymouth, and troops from Rosedale Gardens and Northville competed in the scouting events which were under the direction of E. A. Gagan, Field Scout executive of Detroit. Boys from a troop at Newburg now being organized, were interested watchers. The events included knot tying, first aid, signalling, boxing the compass, a scout obstacle race and a fire by friction contest.

A large crowd of parents and friends occupied bleachers and chairs around the sides of the auditorium, and cheered the boys on. Plymouth I and Rosedale Gardens tied for first place with 21 points each; Plymouth II, 18 points; Plymouth III, nine points, and Northville, six points following.

After the rally, Field Scout Executive C. K. Loomis, Sr., of Detroit, took charge of the award of advancement certificates and pins and merit badges, working through a committee acting as a court, composed of Sgt. George A. Smith, Rev. Walter Nichol, Frank Barrows and Sidney D. Strong. The following is the list of awards made, which shows a wonderful

amount of interest on the part of the boys in advancing in their scout program.

SECOND CLASS: Plymouth I—J. D. McLaren, Homer Schryer. Plymouth II—Chester Simpson, Matthew McLellan, Albin Keizman, Russell Micol, Ernest Archer, Billy Langendam, James Holloway, E. Arcott, Donald Potter, Mason Potter. Plymouth III—Vincent Hector, Donald Robinson. Northville I—Arthur Sessions, Warner Neal, Harry Cassl.

FIRST CLASS: Plymouth I—Gordon Ray, Frank Backwith, Plymouth II—James Holloway, E. Arcott, Bruce Miller, Billy Langendam, Matthew McLellan, Jim Stimpson. Plymouth 3—Steve Dudek, Donald Robinson.

MERIT BADGES: Plymouth I—Laurie Sherman, scholarship; Billy Kirkpatrick, pathfinding, personal health, music, public health, handicraft, firemanship; Gordon Roy, athletics, carpentry, music, cft. in wood, personal health, public health; Casler Stevens, public health, handicraft, music, personal health, pathfinding, firemanship, cft. in wood, Melvin Blunk, cft. in woodcarving, first aid, personal health, public health; Gilbert Williams, first aid, music, camping, athletics, masonry; Frank Allison, personal health, first aid, cft. in leather, public health, Plymouth II—Bruce Miller, handicraft, pathfinding; James Holloway,

firemanship, carpentry, cft. in woodcarving. Plymouth III—Arden Connel, civics, pioneering, cft. in basketry, automobiling, personal health, public health, physical development, first aid, cft. in wood, cft. in woodcarving, athletics. Rosedale Gardens I—W. Hodson, Jr., Scoutmaster, first aid to animals, pathfinding, cft. in woodcarving, machinery, weather, painting, farm mechanics, pioneering, cft. in metal, foundry practice, physical development, bird study, photography; George Shepherd, scholarship; Franklin Goodling, first aid to animals, cft. in bookbinding, carpentry, civics; W. G. Hodson, scholarship, cft. in bookbinding, conservation, animal industry, physical development; Joseph Schroeder, handicraft; Wilbur Warden, cft. in metal.

EAGLE PALMS: Rosedale Gardens I—Wilbur Warden, bronze.

LIFE: Plymouth III—Arden Connel; Rosedale Gardens I—W. G. Hodson.

STAR: Plymouth I—Casler Stevens, Billy Kirkpatrick.

A felt pennant bearing the names of the towns in this district was awarded during the evening, to the troop which had the largest percentage of parents present at the rally. Rosedale won this flag which will be competed for again at the next rally.

Over a hundred scouts were in attendance Wednesday evening, and all had some part in the proceedings which were marked by the usual Scout-like good fellowship and sportsmanship. The evening closed with all scouts at attention, repeating the Great Scoutmaster Benediction.

with the secretary of the board of education not less than fifteen days nor more than thirty days prior to the date of election. Each petition shall be signed by not less than fifty qualified registered school electors of the district. No elector shall sign the petition for more candidates than are to be elected. Said petition shall be substantially in the following form:

"We, the undersigned qualified school electors of the (name of district) do hereby nominate _____ of _____ street, a resident and a qualified elector of said district, as a member of the board of education of said district for the term expiring on _____ 19____."

Blanks for nomination petitions have been printed by the Board of Education and the same may be received by applying to Mrs. Ada Murray, Secretary, Board of Education, or at the office of Superintendent of Schools at the Central High School.

Petitions containing signatures of not less than fifty qualified voters in the school district must be filed with the secretary of the board of education on or before Monday, May 27, which is fifteen days prior to the election to hold June 10.

The purpose of the board in establishing a voting precinct of the school district is to make it easier for all qualified voters within the district to vote because the polls will be open during the day and early evening of June 10, and hence it will be possible for many people to vote who do not find it convenient to be present at the evening meeting at which the financial summary of the board of education will be read.

A CARD: We desire to express our sincere thanks and appreciation for the many acts of kindness shown us in our recent bereavement, especially do we wish to thank those who sent the beautiful flowers.

Marcellus Kenyon and Family.

Everybody invited. Capt. and Mrs. F. W. Wright in charge.

EPISCOPAL NOTES

Sunday is the Feast of Pentecost, or Whitsunday. The birthday of the Church, when all communicant members should endeavor to receive the Holy Communion. Therefore, there will be a special service of Holy Communion at the regular hour of morning service, 10:00 o'clock.

When the day of Pentecost was fully come, they were all with one accord in one place.

That is the meaning of the church, to come with one accord into one place—to commune with the Master. And where two or three are gathered together in His name, He is in the midst of them, always, even unto the ends of the world!

Christian Science Notes

“Adam and Fallen Man” was the subject of the lesson-sermon in all Christian Science churches on Sunday, May 12.

Among the citations which comprised the lesson-sermon, was the following from the Bible: “Let Israel hope in the Lord; for with the Lord there is mercy, and with Him is plenteous redemption” (Ps. 130:7).

The lesson-sermon also included the following passages from the Christian Science textbook, “Science and Health with Key to the Scriptures,” by Mary Baker Eddy: “Divine Science rolls back the clouds of error with the light of Truth, and lifts the curtain on man as never born and as never dying, but as coexistent with his creator” (p. 557).

METHODIST NOTES

“Blessed are they which do hunger and thirst after righteousness: for they shall be filled.”—Matthew 5:6.
Wednesday, 7:15 to 8:00 o'clock—our family worship night. A most delightful time last week, and a very helpful message. Come and see for yourself.

On account of the entertainment, “A Tourist's Romance,” in the church house tonight, Friday, the Booster class will meet next Friday, May 24. This entertainment promises a good evening's fun. Come and help our L. A. S. Admission, 40c and 25c. Eight o'clock.

Next Wednesday the junior missionary boys and girls will meet directly after school. Every member come and bring your mite boxes. There will be a program and a treat. On account of the Sunday-school contest being a “tie,” it will continue for another week.

The Philathea class will hold their party next Thursday night, May 23, at the home of Mrs. Fred Wolfman, 254 Blunk avenue.

The Men's class will have their “get together” and supper Thursday night, May 23. If the weather is suitable, they will eat out-of-doors.

BAPTIST NOTES

The young people from Wayne will have charge of the B. Y. P. U. service Sunday evening at 6:00 o'clock. Their subject will be the “Dynamic 33,” which is the thirty-eighth annual convention of the B. Y. P. U. of America.

Our prayer meetings the past few weeks, have been well attended. Increasing interest has been shown in Bible study. We have been studying together “Paul's Epistle,” II Corinthians.

PRESBYTERIAN NOTES.

The Ready Service class will meet on Tuesday of next week, at the home of Mrs. John Oik, Wayne road. There will be cooperative dinner at noon, followed by a business and work meeting. There will also be a program. Any who call phone 138, will be assured of a drive.

The Busy Women's Class placed in the church last Sunday, a beautiful bouquet of flowers, as a tribute to the memory of former members of the class whom death has called away.

Preparations are being made for the observance of Children's Day, on Sunday, June 23.

CATHOLIC NOTES

Sunday is the feast of Pentecost—the descent of the Holy Ghost upon the apostles. It is also general communion Sunday for the ladies of the parish.

May 20th is ordination day in Detroit, at St. Peter and Paul Cathedral, at 8:30 a. m. Among the candidates to be elevated to the priesthood, is John McMillan. He is known to many in Plymouth, and assisted in the dedication services of our church last July.

The parish extends its sympathy to Russell McIntyre of Rosedale Gardens, upon the death of his wife, Alice. The funeral services were held in Saginaw, from the home of her parents. She leaves to mourn their loss, three small children and her husband.

The interior of our church has been richly enhanced by a much needed want, two holy water fonts and a baptismal font. These contributions were made possible through the efforts of the Girls' Nethem Club.

A very fine attendance was present last Sunday, paying tribute to mother.

Nethem baseball team suffered a very bad inning last Sunday, and yielded its victory to the Liberty A. C., 6-14. Next Sunday, Nethem vs. Ann Arbor at Newburg, at 3:00 o'clock.

The children's first communion class is started, and all are to be at the instructions Saturday, at 9:30 a. m.

D. A. R.

The annual meeting of the Sarah Ann Cochrane chapter of the D. A. R. will be held Monday afternoon, May 20th, at the home of Mrs. D. N. McKinnon, on Church street. At this meeting will be the annual election of officers.

PROBATE NOTICE

STATE OF MICHIGAN,
County of Wayne, SS.

144380
At a session of the Probate Court for said County of Wayne, held at the Probate Court Room in the City of Detroit, on the seventh day of May in the year one thousand nine hundred and twenty-nine.

Present EDWARD COMMAND, Judge of Probate.

In the Matter of the Estate of VIOLA A. WESTFALL, Deceased.

John B. Hubert, administrator of said estate having rendered to this Court his final account and filed therewith his petition praying that the residue of said estate be assigned to the persons entitled thereto.

It is ordered, That the eleventh day of June, next at ten o'clock in the forenoon at said Court Room be appointed for examining and allowing said account and hearing said petition.

And it is further Ordered, That a copy of this order be published three successive weeks previous to said time of hearing, in the Plymouth Mail a newspaper printed and circulating in said County of Wayne.

EDWARD COMMAND,
Judge of Probate.

Mr. and Mrs. Russel Densmore and daughter of this place, and Mr. and Mrs. Albert Tuska and son of Northville, were week-end guests of Mr. and Mrs. Ezra Wilsey, of Tecumseh.

Rev. H. E. Sayles, former pastor of the Plymouth Baptist church, has resigned his charge at Stockbridge, and is retiring from the active ministry. He will make his home in Florida.

Mr. and Mrs. Vern Mackinder and children of Grand Rapids, and Mr. and Mrs. James Norris of Detroit, were Sunday guests of their parents, Mr. and Mrs. Clark Mackinder, of Newburg.

Monday evening callers at the home of Mr. and Mrs. Clark Mackinder, at Newburg, were: Mrs. Russell Warner of Schenectady, N. Y.; Miss Bertha Warner and Mr. and Mrs. C. V. Chambers of Plymouth.

Several families from this place and Detroit, with well filled baskets, surprised Mrs. Clyde Laslett at her home in Chelsea, the occasion being in honor of her birthday. Mrs. Laslett was the recipient of many beautiful gifts. When the guests departed, they wished her many more happy returns of the day.

When Miss Spring gives us promise of merry sunshine—she sometimes keeps us waiting at the church in a blinding snowstorm. Just like a woman to change her mind.

Don't depend on Spring to keep you warm—our coal is much more reliable. Take no chances and give us your order today.

 "YOUR GAS COMPANY"

PLYMOUTH GETS MACK-CRAFT AMPHIBIAN PLANT
 (Continued from page One)

airplane. It is on water 80% of the time. Water offers an unlimited landing field.

"The Mack-Craft Amphibian Corporation will be one of the busiest factories of its kind in this country, as we are endeavoring to deliver to the west coast, ten ships before the season ends there, for vacationists and tourists.

"This factory, located on the Hess farm on Golden road, and being about four and a half minutes drive from the park, should mean a great deal to the merchants of Plymouth.

"The aviation business is thriving, and there is unlimited amount of capital offered to any legitimate aviation proposition. We, therefore, will not be embarrassed for lack of capital, but will be handicapped for lack of space in a very short time.

"After many meetings with the Plymouth business men, they have very generously supported our project to help build a building for this company," said McIntosh. "We expect to put \$50,000 in machinery and equipment, and we do appreciate the generous cooperation from the business men who have supported us in creating enough money to build our first unit. The directors of the Mack-Craft Amphibian Corporation held a meeting, at which time it was decided to establish our factory in Plymouth, because it will be close to Detroit, and second, because we will have sufficient landing field to accommodate us. The Plymouth Tube Co. being located here, makes it handy for our company.

"The coming of this factory to Plymouth will undoubtedly bring other airplane companies. It should be the birth of more industries for Plymouth just as it was a stimulant to the growth of Wichita, Kansas, which now has fourteen aircraft companies.

"Charles H. Bennett was the first man of Plymouth to sponsor the Mack-Craft Amphibian Corporation, and has helped a great deal in bringing the financing of the building to a close. Other members who have generously supported the new building are: Russell A. Roe, A. J. Eckles, John Dempsey, Frank Palmer, Plymouth Elevator, M. P. Powell & Son, Roy E. Streng, A. W. Smith and many others.

"The Mack-Craft Amphibian Corporation is ready to start its first ship upon the completion of the building. There are four engineers working in the downtown office, who will move into the new building as soon as it is completed.

"Due to the fact that we have been so successful in raising a substantial amount of money in such a short period of time, we feel justified in making the announcement of this company coming to Plymouth. G. A. Rakewell, who is responsible for bringing this company to Plymouth, reports that he is short a couple thousand dollars more in reaching the total amount that the company is planning on. We therefore will not undertake the starting of the building until the total amount is subscribed, as we want to avoid being placed in an embarrassing position."

The officers and directors of the Mack-Craft Amphibian Corporation are as follows: R. U. McIntosh, president and general manager; Edward

NOTICE TO THE PUBLIC!

In view of the serious accident which occurred when the Village fire trucks collided while enroute to a fire Monday night, which accident was directly traceable to the failure of certain motorists to give right of way to the fire trucks, it becomes necessary for the Village to strictly enforce the provisions of our traffic ordinance dealing with this situation.

Notice is therefore given that hereafter all motorists falling to give right of way to Village fire trucks or police cars, or who closely follow fire trucks to a fire, or who park their cars within a block of fire trucks on duty at a fire, may expect to be cited for violation of our traffic ordinance and to answer to the charge as in the case of any other traffic violation.

A. J. KOENIG, Village Manager.

WIND AND SLEET HIT PHONE LINES

Broke and Displaced More Than 12,000 Poles And a Thousand Miles of Circuits Of The Bell Telephone Co.

Telephone lines in Michigan have been harder hit by wind and sleet storms this spring than in any year since 1922, it is stated by Roy E. Crowe, manager for the Michigan Bell Telephone company in this area. Three unusually severe storms, occurring March 6, March 31 and May 2, broke and displaced more than 12,000 poles and a thousand miles of circuits of the Michigan Bell company, causing total damage estimated at over a million dollars. Many of the smaller companies and rural cooperative lines also were hard hit. It is stated. The last storm struck before damage caused by that of March 31 had been repaired, and it may be two weeks before service can be restored fully to normal.

The circuits were broken and poles were toppled under the weight of heavy wind and sleet. Ice formed on the wires from one to three inches thick, during these storms.

The district most affected in last week's storm was within an area bounded roughly by lines drawn from Grand Rapids to Owosso, on the north, and from Lansing, Jackson, Kalamazoo and Dowagiac, to Niles, on the east and south. Telephone plants was damaged most seriously in Grattan, Elmdale, Alto, Clarksville, Corning, Belding, Greenville, Ionia, Sylvania, Lowell, Woodland, Lake Odessa, Freepport, Mulliken, Caledonia, Middleville, Hastings, Nashville, Vermontville, Scott, Galien, Alamo, Paw Paw, Lawton, Lawrence, Dowagiac, Cassopolis, Marcellus and Decatur.

Service in other sections of the state was affected to a lesser degree, by that storm. Twenty-nine Detroit long distance circuits and several important telephone arteries in the Thumb area were broken. Principal among the latter were the Saginaw-Bad Axe, Reese-Elkton and Bad Axe-Harbor Beach long distance leads. Long distance service in that area was completely out of temporarily. East Tawas and communities to the north also were isolated. Service to

East Tawas was restored very shortly after the storm, and circuits to points farther north have been re-established. Deep snow hampered the work to some extent. Ten emergency repair crews are working in the Thumb area.

These towns that suffered the greatest damage in the March 31st storm, and where repairs are about completed, were: Selswaing, Bay City, Auburn, Freeland, Udy, Bad Axe, Midland, West Branch, St. Charles, Chaire, Standish, Linwood, Birch Run, Rosebush, Coleman, Saginaw, Armada, Peck, Crosswell, Port Huron, Grand Rapids, Grandville, Byron Center, Clarksville, Rockford, Ionia, Belding, Lowell, Greenville, Sylvania, Big Rapids, Grant, Cedar Springs, Cassopolis, Sand Lake, Sparta, Lake Odessa, Caledonia, Kent City, Ada, Marne, Dutton, Jamestown and Grattan.

The Michigan Bell has had 100 crews of telephone repairmen working on an emergency basis, night and day, to restore the service, both long distance and local. Ohio Bell, Indiana Bell and American Telephone & Telegraph company crews are assisting. President Burch Foraker of the Michigan Bell company visited the affected districts, and inspected the damage and directed the beginning of general restoration work, following the May 2 storm.

Restoration of service after each storm was gotten under way before the storm was more than a few hours old, and carloads of poles, wire, cable and other equipment were being headed toward the affected districts. Temporary circuits were established at all points, and arrangement to handle emergency calls were completed within a few hours.

Officials of the Michigan Bell announced that an adjustment of telephone bills would be made, as soon as possible, in cases of service interruption over its lines due to the storm, and requested that customers affected who do not receive such adjustments notify the company.

Municipal Notes

BY THE MANAGER

The straightening of the curb line of South Main street along Kellogg Park, has been completed, and parking lines have been laid along the new curb. The contractor is now engaged in repairing broken curb in the uptown section. The widening of South Main street in the business section, is proving to be a much appreciated improvement.

Calcium chloride for dust laying purposes, has been purchased, and will be applied to our gravel streets as soon as conditions warrant. Recent heavy rains have seriously interfered

with our plans to look after dust laying early in the season.

A sidewalk is being laid along the Penniman Ave. and Ann Arbor St. sides of Kellogg Park, just back of the curb, for the accommodation of motorists who park their cars along the curb and wish to go back to South Main street. The sidewalk replaces a footpath which has developed along the curb since last fall.

Dog owners are reminded that the licensing year begins June first, and that new tags must be purchased for the ensuing year. These will be available within the next few days.

Electric Cookery tastes better

ONCE you have enjoyed electric cookery you will never again agree to cook with fuels. Only with an Electric Range can you secure the rich, natural flavor and melting tenderness of meats and vegetables—because the natural flavors are sealed in. Even cheaper cuts of meat cook tender in an electric oven. Consistent baking results are easy to secure because the controls and automatic features eliminate guesswork.

You can enjoy electric cookery in YOUR kitchen NOW. Convenient time payments and a liberal allowance for your present cooking equipment make it unusually easy for you to install a MODERN electric range. Come in and inspect the new models.

THE DETROIT EDISON COMPANY

SEND YOUR NEWS ITEMS EARLY

It costs very little to recondition a MODEL T FORD

THE Ford Motor Company is making a new car, but it is still proud of the Model T. It wants every owner of one of these cars to run it as long as possible at a minimum of trouble and expense.

Because of this policy and because of the investment that millions of motorists have in Model T cars, the Ford Motor Company will continue to supply parts as long as they are needed by Ford owners.

So that you may get the greatest use from your Model T, we suggest that you take it to the nearest Ford dealer and have him estimate on the cost of any replacement parts that may be necessary.

You will find this the economical thing to do because a small expenditure now will help to prevent costlier repairs later on, increase the value of the car, and give you thousands of miles of additional service.

For a labor charge of only \$2.60 you can have your generator put in first-class condition. A new universal joint will be installed for a labor cost of \$3. Overhauling the carburetor costs \$1.50; steering gear, \$3.50; radiator, \$7.50. A complete overhauling of the rear axle assembly runs between \$5.75 and \$7 for labor. An average price of \$22.50 covers the overhauling of the motor and transmission.

These prices are for labor only because the need and number of new parts depend on the condition of each car. The cost of these parts is low, however, because of the Ford policy of manufacturing and selling at a small margin of profit.

CANTON CENTER

(Crowded out last week.)

Mr. and Mrs. J. M. Swegles and family were Monday visitors at the home of the former's sister, Mrs. Hebler, in Ann Arbor.

Mr. and Mrs. James Gates entertained Mr. and Mrs. Frank Loomis, Mr. and Mrs. Albert Stevens and Mr. and Mrs. Ross Gates at dinner, Sunday. Mr. and Mrs. Loomis left for Florida, Tuesday of this week.

Mr. and Mrs. L. E. Kaiser and daughter, Lottie, and Mr. and Mrs. John Kirk of Plymouth, attended a dance at the home of Herman Nanka in Superior township, Saturday evening.

Mr. and Mrs. John Schiller are daily expecting the arrival of the former's parents from Florida.

Raphael Mettetal's floral houses present a nuptial very appropriate to Mother's Day.

Mrs. John Schwartz, Sr., who recently underwent an operation in an Ann Arbor hospital, is reported to be doing very nicely at this writing.

Mr. and Mrs. James Swegles and family attended a concert in Ypsilanti last week. Two of Mr. Swegles' nieces who took part in the program played violin and cello.

Mr. and Mrs. Louis Kaiser and family visited the former's brother, Albert Kaiser and family at Grass Lake, Sunday.

Mr. and Mrs. Jesse Hines and family were Detroit visitors, recently.

Little Dale Kaiser has been on the sick list this week.

Areas Become Free From Tuberculosis

TESTS SHOW FEW INFECTED CATTLE IN MICHIGAN DAIRY COUNTIES.

The progress of the campaign for the eradication of bovine tuberculosis in Michigan is so far advanced that it is now possible, for the first time, to select animals for a consignment sale from herds which represent leading blood lines in the state and which are also located in modified accredited areas, according to a statement by dairy specialists at Michigan State College.

Sixty-six counties of the state are now accredited with having less than one-half of one per cent of cattle infected with tuberculosis in the herds within the county. Animals which will be sent to the State Holstein sale at East Lansing, May 21, will not have to be tested individually, as in previous years, because the area test plan has eliminated infected animals in the sections from which cattle will be consigned.

Many of the animals which will be at East Lansing, May 21, were chosen because they represent the type of young stock which is desired by 4-H club members in the state.

Owners of the consigned animals, except three, have had their herds under test in herd improvement associations, and the three which are not in the associations have tested their cattle under advanced registry supervision.

HEALTH RETURNS QUICKLY THROUGH USE OF KONJOLA.

ILLS THAT DEFIED EVERY
TREATMENT FOR 15 YEARS
YIELD TO MODERN
MEDICINE.

MRS. HAZEL STYERS

"More words cannot express my appreciation for what Konjola did for me," said Mrs. Hazel Styers, 525 Cherry street, Ann Arbor. "Stomach and kidney troubles were the source of my suffering. Indigestion, gas pains and bloating followed every meal. As my condition grew worse, my nerves weakened, and I was bothered by a very nervous condition.

"Two bottles of Konjola made me feel better than I had felt for the last fifteen years. Every one of my old health troubles were swept away. I gained in weight and strength, and feel better all over. No wonder Konjola is such a famous medicine!"

Konjola is sold in Plymouth at Community drug store and by all the best druggists in all towns throughout this entire section.

W.C.T.U.

The Woman's Christian Temperance Union will meet Thursday, May 23, at 2:30 p. m. with Mrs. Emma Ruff, 244 Hamilton Street.

The leader for the day will be Mrs. John Rattenbury.

Program

Reading—Mother's Prayer.
Talk—The Recovery of the Home.
Reading—Prayer for Womankind.
Talk—My Mother's Old Woolen Shoes.
Song—Home, Sweet Home.
Guests are always welcome at these meetings.

The Michigan Union of May says:

An explanation of America's prosperity is incomplete if it does not include recognition of prohibition, declares William F. Whiting, Secretary of Commerce of the United States.

Mr. Whiting thus places himself on record beside his predecessor, Herbert Hoover, in attributing a major share in the responsibility for present unparalleled national well-being to the effects of the dry law.

BIG TOMCAT CASTS HOODOO ON SHIP

So It Walks Plank Into Shark-Strewn Sea.

New York.—The crew of the full-rigged ship, the Seven Seas, have to in the mouth of the Hudson river with a tale of a "sea devil with fur" that walked the plank into a shark-strewn sea.

Fifty-one days out of Cowes, Isle of Wight, the Seven Seas arrived here to become the property of Inalls Moore Uppercu, who intends to refit her for a junket to the South seas.

Uppercu thanked the 21 members of the crew for disposing of the "sea devil with fur," which, on closer questioning, turned out to be a black tomcat, appropriately christened "Old Hellion."

"Old Hellion" turned up seven days out of Cowes and the cook's dough turned sour almost immediately. It was said. Then the ship's charts were clawed to pieces and there were mutterings in the forward cabin about the way "Old Hellion" was treating the shepherd puppy that was the official ship's mascot. Then it developed that the cook had kissed a girl on the Isle of Wight and promised he would see to it that Alice was the only cat on board.

Alice, a blue ribbon around her neck, covered under the kitchen store from the time "Old Hellion" raged into view and the cook passed the word on up to the foremast that no black tomcat was going to make a coward out of Alice.

The crew conferred and it doesn't matter what they decided, for "Old Hellion" was not to be found. Seaman C. H. Rasmussen started aloft when "Old Hellion" sprang out of nowhere onto his shoulder. Rasmussen couldn't shake him off, and aloft they went. Then the top gallant mast snapped and Rasmussen plunged into the sea to be rescued promptly.

"Old Hellion" plunged, too, but there was no mention of a lifeboat putting out to save one of the black devil's nine lives.

"The Mill Will Never Grind With The Water That Has Passed"

HOW often a person wishes for the money he has spent for unnecessary things—but he never regrets having that same money in a reserve fund when opportunity or emergency calls for ready cash.

The grain is ground with the steady, constant flow of water over the mill-wheel, not by an occasional rush of flood water. And a reserve fund is invariably built the same way—by steady, regular reservations from the income—plus the triple advantage of protection, interest and financial counsel and cooperation that is provided by this institution.

In The Theatre

"THE HAUNTED HOUSE"

Those who like their mystery seasoned with laughter and who prefer a cold chill topped by a grin, will do well to visit the Penman Allen theatre Sunday and Monday, May 19 and 20, where "The Haunted House" will create mirth and mystery galore.

Chester Conklin and Flora Finch and others of the fine cast provide plenty of comedy in this First National picture which Benjamin Christensen directed. This comedy team is always to be relied upon and their experiences in a house that is reputed to be decidedly an unhealthy spot for people with weak nerves, are excruciating.

They go there seeking a hidden packet of bonds; they run up against mad men, somnambulists, a horrible old caretaker and a hundred and one things of an untoward nature.

Thelma Todd, Eve Southern and Barbara Bedford are three beautiful girls who provide the love element as well as much of the mystery.

Montagu Love and William V. Mong are two of the strange and menacing figures while Larry Kent is the handsome young hero of the piece. There are a number of other talented actors and withal the cast is far above the ordinary.

Much may be said for the sets; the interiors of the old house are perfect in their atmospheric character. The original stage play, by Owen Davis, possessed fewer thrills than the film version.

There is no questioning the popularity of mystery pictures and "The Haunted House" is one of the finest.

"THE WHIP"

Enough thrills and excitement to last a lifetime are packed into a few reels of film in "The Whip," First National's picturization of the famous stage melodrama which will be shown at the Penman Allen theatre, Wednesday and Thursday, May 22 and 23.

For sheer, mile-a-minute melodrama, with deep-dyed villains, beautiful heroines, noble heroes and all the other familiar components of melodrama of this type, "The Whip" can scarcely be surpassed.

It has train wrecks, a hero with amnesia, an automobile smashup, numerous falls from horses both unintentional and otherwise, enough plots to start twenty South American revolutions and divers other accompanying highlights.

It has moreover, a cast of excellently chosen and directed players, a richness of setting and costuming found in few productions and a smoothness of dramatic technique which makes it all seem highly plausible.

To Dorothy Mackall goes first honors for her portrayal of the heroine, Lady Diana. Lowell Sherman, sleek and suave and unscrupulous cinematic villain contributes a delightfully subtle performance, and Ralph Forbes is a thoroughly satisfactory hero.

Never has Anna Q. Nilsson looked more beautiful or striking than in her role of "Madame d'Aquila," a woman of the world who lends a hand to Mr. Sherman's innumerable connivings.

Charles Brabin directed "The Whip" and Sam E. Rork produced it for First National Pictures.

"MARQUIS PREFERRED"

Rich comedy fare is provided for those who patronize the Penman Allen theatre Saturday, May 25th. Adolphe Menjou's new laughing comedy, "Marquis Preferred," is to be shown, and it is the best this star has made in many months.

The story is one of those smart, laughable mix-ups which Adolphe Menjou does so well. It concerns a bankrupt French nobleman who, at the instigation of his tailor, his valet and his chef, incorporates for the purpose of effecting a money marriage. While his three partners are looking for a girl with a dowry, Menjou is falling in love with a penniless young governess.

The governess discovers the plot and scorns Menjou and he is forced to go through with his bargain. He marries the wealthy girl, but leaves her after the ceremony, sets out to make his own way in the world and, through a series of circumstances, everything ends happily.

Chester Conklin, Dot Farley and the attractive Nora Lane are included in the supporting cast and the picture is excellently directed, emphasizing the comedy situations.

"Marquis Preferred" is a picture worth seeing by those who enjoy a good laugh from a picture well constructed and a performance well acted.

The Rarest Gift

Humor cannot be acquired, but it may be capitalized. The way to be funny is not to try to be.—Woman's Home Companion.

Maybe It Does, Too

The normal, red-blooded woman pleads to the end of time in believing that romance exists here right around the corner.—American Magazine.

HERE'S A HOBBY; KENTUCKY RIFLES

New York Surgeon Has Fine Collection of Firearms of Forefathers' Day.

New York.—Some people collect stamps; others gather relics of the ages when the dawn horse roamed; others gather evidence and call it a profession; Dr. W. P. Saybolt, surgeon, of No. 35 Greenway Terrace, Forest Hills, collects Kentucky rifles and calls it sport.

Two corners of his sleeping quarters are lined with these products of American genius, long, lean, tributes to the skill of our forefathers. The barrel that felt the sweat of a nervous hand as the sight covered a red-skin's head; the smooth stock worn by the calloused hand of a Mormon elder plodding West beside a covered wagon; they're all there in the racks, their sleek curly maple stocks and clean barrels testifying to the care they received.

He has the gun Tom Quirk, Indian hunter of Pike county, Pa., used to rely on in the days when a long barreled rifle was a friend in need. He has the gun Tom Beecher traveled West with when the followers of a new prophet set out to plant their faith in a new country.

A Left-Handed Rifle.

Old Beecher carried a beautiful instrument of the mule ear type, it has the characteristic moon and star brass inlay on the stock, proving it a regular Kaintuck. The weapon is a "left-handed rifle." The pioneer maker of rifles sitting in his little shop in some mountain town decided to go his contemporaries one better and the left-handed rifle is the result. The cap box is on the left side as is the hammer.

The longest rifle of Doctor Saybolt's collection, and they average five feet in length, is a good six feet eight. This is one of the earliest, a flint lock, probably dating around 1740. The general characteristics of the collection are the long barrel, the stock running to the muzzle, the curly maple wood and the brass trim. One of the collection, however, is unique in having all its trimmings, with the exception of the forward sight of iron, showing. Doctor Saybolt says that the community where this gun was made devised methods of forging iron to take the place of brass.

Doctor Saybolt is quite clear in his denial that the day of the Kentucky rifle is over. He has spent much time in the remote mountain villages of Pennsylvania where, he says, many families take great pride in the household firearm, a lanky Kentucky rifle, handed down from generation to generation and still kept in order for squirrel shooting or for hunting the bigger game which still roam those hills.

He has used some of his guns, Doctor Saybolt says, and insists that the tradition of accuracy the Revolutionaries established when the British learned to respect the Kentucky rifle is no myth.

Accurate at Short Range.

The Kentucky rifle is extremely accurate at short range, say 60 to 100 yards, he testifies. And one has to credit the doctor with a little ability of his own when one handles one of these heavy-barreled gentry of early America, lifts the 13 or more pounds of firearm and tries leveling it at a target. The American frontiersman must have had overdeveloped biceps. To the person familiar with the modern rifle the balance of the Kentucky rifle is strange, for the barrel weight throws the arm off balance, and one has the impression of aiming several yards of sewer pipe.

The Saybolt collection, some 35 in all, show the development of the Kentucky rifle from the old and plain flint lock to the ornate specimen of the post-Revolutionary days with the ivory inlay, the brass and gun revealing the craftsmanship too seldom identified with American production. Characteristics of the Revolutionary gun is a swirl of brass inlay known in collection as the "angel's head." The cap box of brass came with the development of the percussion type. The ram rod, running along beneath the stock is striped. The curly maple is polished, the brass shines. Looking at these products of American genius, necessarily clothed with artistry, one understands why the British respected the man under Gen. Andrew Jackson who fought at New Orleans behind these homemade weapons, and why the story of Daniel Boone and "Old Betsey," his Kaintuck, remains inherently a part of American history.

The Kentucky rifle gave way to the plains rifle, the plains rifle to the modern army rifle, and these peculiarly American contributions to the history of armament became museum pieces. And a few of those to whom a gun is more than the accessory of war or brigandage, collect these beautiful tributes to indigenous art instead of stamps or evidence or precious stones.

Off Houdini Staff

New York.—Sam Reback is off the Houdini staff. He thought he had it down pat and permitted himself to be locked in the strong room of a fur store where he is employed. Police, firemen and an ambulance were on the way when the boss arrived and opened the vault. Sam had told a confederate the combination, but the confederate forgot it.

COMPARE the delivered price as well as the list price in considering automobile values. Chevrolet's delivered prices include only reasonable charges for delivery and financing.

If you are considering the purchase of an automobile, you owe it to yourself to check the new Chevrolet Six against any other car—value for value and price for price!

Here, in the price range of the four, is offered a smooth, powerful, six-cylinder valve-in-head motor—which delivers better than 20 miles to the gallon of gasoline—and whose smooth, quiet, velvety operation, with its complete lack of drumming and vibration, is a revelation. Here are beautiful bodies by Fisher—with fittings by Ternstedt . . . rich, deep-tufted upholstery and adjustable driver's seat. And throughout the entire chassis are found numerous examples of advanced engineering—such as quiet, non-locking 4-wheel brakes . . . ball bearing steering mechanism . . . and automatic acceleration pump.

But no mere recital of features can give you any conception of Chevrolet's value leadership. So we urge you to come in and see for yourself why over 500,000 people have chosen the new Chevrolet Six since January 1st!

WORLD SPLIT 50-50 ON RULES OF ROAD

Europe Presents Puzzle to Visiting American.

Washington.—Automobile drivers in the United States keep to the right. Automobile drivers in England, Austria, Sweden, Argentina and Angola keep to the left.

How did these opposite customs arise?

"For the world divides roughly half and half on the rule of the motoring road," says a bulletin from the Washington (D. C.) headquarters of the National Geographic society.

The present score is: Sixty of the nations and colonies favor the right-side drive; 43 cling to the left. Iraq added one to the right-side score when she decided to reverse the English rule of left-side driving, which has been in use there since the World war, and return to her former rule of keeping to the right.

Problem for Motorist.

"The need of a uniform rule is not so apparent in North America as in Europe. Consider the problem of a motorist who tries to drive from Norway to Italy through the Dolomites. He starts bravely out from Oslo, keeping to the right until he reaches the Swedish border. Thereupon he keeps to the left. Let him have his wife about him, because, when he ferries over to Denmark, he must again move over to the right of the road. Germany the same, he thanks heaven. Back again to the left in Czechoslovakia. And just as the bewildered autoist gets used to left driving in Austria he must steel his nerves to switch back to the right rule of the road in Yugoslavia and Italy.

"Probably our custom had its origin because it was natural to grasp weapons with the right hand while the left hand carried the shield over the heart on the left side of the body. From this it follows that armed men passed each other shield to shield, left hand to left hand.

"That fact accounts for the pedestrian custom of keeping to the right.

"Even in England the rule of the sidewalk or pathway is 'keep to the right.' How, then, did England acquire the custom of keeping to the left on highways?

"One student of the problem finds the origin of the practice in the habit of the English coachman of sitting on the right side of the coach driver's seat. He grasped the whip in his right hand. In passing another coach he wanted to be in a position where he could best prevent a collision. So he passed an oncoming coach on that coach's right. From his seat on the right of his coach he could see how near his wheels came to those of the other vehicle.

Rhyme Summarizes Code.

"The English rule of the road was made a law in 1835, but before that date this poem appeared in an English journal:

The law of the road is a paradox quite
As you're driving your carriage along:
If you go to the left you're sure to go right,
If you go to the right you go wrong.

"On the continent it was more frequently the custom for a postillon to guide the horses than a coachman. The postillon took his place at the left of the lead team in order to have his right hand free to grasp the nearest bridle. He also wanted to avoid collisions, but, being on the left, it was better for him to turn his horses to the right. Thus France and other European countries have the same rule of the road as the United States.

"It has been suggested that automobiles in America keep to the right because oxen did in the old days. Oxen were the draft animals most used in the colonies. The ox driver directed them by voice and whip. He held his whip in his right hand and trudged along on the left of the oxen and, therefore, turned to the right.

"All the countries of the New world keep to the right except British Honduras, Panama, Paraguay, Argentina, Uruguay and Prince Edward Island in Canada. The Far East follows the British or left turning custom, almost unanimously; China, Japan, Siam and even the Philippines. That the Philippines should reverse the American custom is surprising. Generally as a country drives so drives the colony or protectorate. Nearly all British colonies follow the mother country's lead. Exceptions are Iraq, Palestine, Canada and British Guiana. Most French colonies keep to the right with France, but Angola has the left driving rule although Portugal stands by the 'right.'

Today's Reflections

Blessed are the poor. They can go to jail instead of waiting until some lawyer strips them.

A born leader is the man who can persuade others to do the work while he takes the glory.

Another thing we miss in Plymouth are the old days when a fellow could do a little day-draming while crossing the street.

The trouble with the Mexicans is its too easy for them to switch over from bull fighting to bullet fighting.

Our idea of wasted energy is honking a horn to get a horse-drawn vehicle at the head of the line to speed up.

Nowadays in some home around Plymouth, mamma puts on the "dog" and father merely puts out the cat.

What has become of the old-fashioned man who thought any man was rich who had a pair of shoes to wear while he was having another pair half-soled?

There's no danger of a divorce lawyer getting rich off a Plymouth girl whose wedding outfit contains about six kitchen aprons.

A middle-aged man is one who has quit growing on either end, but who continues to grow in the middle.

Pasteurized Milk has more "kick" in it than any other drink!

Does that sound strange? It may but it is nevertheless true. There is more substantial nourishment in pasteurized milk than in any other food drink. Healthy people drink pasteurized milk because, in addition to its fine taste and its thirst-quenching power, it helps them to keep healthy. Sick persons are advised by physicians to drink pasteurized milk in order to regain their strength.

Yes, pasteurized milk has a "kick" to it; and unlike other drinks with a "kick," builds up the bodily tissues rather than tending to break them down.

Fisherman Wins Fight Against Huge Octopus

San Mateo, Calif.—W. J. Terry of this city now is a full-fledged member of that small band of persons who have successfully combated and escaped an octopus.

While hunting abalones at Point Arena recently, Terry suddenly felt his legs jerked together. He was horrified to find himself in the grip of a 16-foot devilfish.

Terry's cries for help brought a companion to his assistance and for five minutes the two men fought the octopus before Terry escaped from the tentacles.

"His body was as big as a dishpan, and his eyes the size of a cat's," was Terry's description of the monster.

Where Maori Eat

The Maori alone understands the art of cooking eels, according to the Danish scientist, Dr. Johannes Schmidt. He has studied the methods adopted by the natives of New Zealand. The Danish and European people consume eels fried or cooked in jelly, and prepared by special smoking processes similar to those of the Maori, though the latter methods were more crude.

VOLUME II

AND DAUGHTER BANQUET

Approximately three hundred and fourteen mothers and daughters gathered last Friday evening in the high school auditorium...

The Girl Reserves' banquets were especially made for them, which had the Girl Reserve insignia on it.

As it is the custom of the Girl Reserves to serve the father and son banquet, so it is the custom of the H-Y boys to serve the mother and daughter banquet.

The tables were decorated in spring colors of green, yellow and pink, with bouquets of flowering almond, spruce, holly and snap dragons.

During the dinner and for a short time afterwards, Velma Petz led the group in singing several well-known Girl Reserve and Camp Fire songs.

Then the program was begun, with Alice Gilbert, president of the senior Girl Reserves, lighting the fire and introducing the toastmistress...

A startling fire always sends "Dancing Shadows" over the ground, and so four Junior Girl Reserves next gave a dance called "Dancing Shadows."

And next was "Chimney Sparks" by Miss Anderson, a Y. W. C. A. secretary in Detroit.

The children in the B kindergarten are going to start learning to read next week.

In Mrs. Root's room, group one has finished the phonetic work, and word drills in the Elson primer...

They are now having drills on the words and phonetics in the supplementary primers and are building sentences with small word cards.

On the blackboard there has been placed one page or more of the seat work of every child, for the annual exhibit.

The children have decorated their room with yellow and green tissue paper chains which are strung from the lights to the corners of the room.

They are also making furniture and rocking horses. Isabelle Naira, Doris Buzzard and Geraldine Plachta were successful in spelling the second grade in Miss Weatherhead's room, down last week.

The children have finished their nature study booklets. The story of "Pencchia in America" is being read to the children.

In Miss Orr's room Marie Raper's side is ahead in the arithmetic contest. The fourth graders of this room are making a May calendar in which is kept a record of all the signs of spring which the children see each day.

The third graders are making booklets on Hiawatha's childhood. In Miss Faraud's room, Irene McLeod spelled the room down last week.

LOS GITANOS

Fortunately Helen Bridge gave her talk again to the Travel Club on May 9th. This time it was centered more about Italy.

In Milan, one will be greatly interested in seeing such places as the various cathedrals. In one of these there is an altar entirely made of marble. The statue of Saint Bartholomew and the original painting of the Lord's Supper by da Vinci make some other cathedrals more proud.

As one enters Venice, the vision of drain buildings and the odor of the stagnant water of the canals are none too pleasing. However, still there are many interesting scenes.

Paradise Doors, at which baptisms are performed, were thus called because a child cannot enter the church until he has been baptized at these doors in Florence.

Seeing Rome might surprise anyone, for almost everyone imagines this city as odd and old-fashioned, but it is quite modern with its wide, long paved streets and massive buildings.

Extra! Extra! Big combat over world news! Yes, sir, that is exactly what happened. Miss Asman's Ancient History class was divided into two teams, according to the rows in the classroom.

Miss Johnson's pupils have just finished an "Autograph" booklet, in which each put five lines or verses he thought appropriate to write in his friends' autograph books.

Work is being placed on display for the annual exhibit. Florence, blessing from Miss Bal-four's room has been forced to quit school on account of sickness.

The students have finished making their hygiene note books. Miss Stader's 1-A class is very much interested in their new "Chart Library Reader."

The 2-B grade is reading "Work-Day Dolings on the Farm" and enjoying it. Four people have completed the drawings for books to be sent to Detroit, hoping to get a prize.

The children in Miss Hallahan's room are having a reading contest. The captain of the team are Jack Wilcox and Duane Koenig.

PHYSICS CLASS VISITS WATER-FORD PLANT

Instead of having the regular laboratory work which they are accustomed to on Thursday, the Physics class visited the Ford plant at Waterford, last Thursday, May 9.

Upstairs we were just about turned loose, so to speak, because we could wander around and find out things for ourselves. I do not think that many of us realized how much time and work it takes to make a gauge—even the tiniest ones.

The machine that bores the holes in the different types of gauges, when it is properly set up, will come within 1-100,000 of an inch from where it is supposed to.

Extra! Extra! Big combat over world news! Yes, sir, that is exactly what happened. Miss Asman's Ancient History class was divided into two teams, according to the rows in the classroom.

SCHOOL CALENDAR
May 20, Monday—
May 21, Tuesday—Golf with Farmington, there.
May 22, Wednesday—General assembly. Tennis with Ann Arbor Central High School, there.
May 23, Thursday—Golf with Fordson, there. Student Council plays.
May 24, Friday—Annual school exhibit. Tennis with University of Michigan High School, there. Student Council plays. State track meet.
May 25, Saturday—State track meet, Lansing.
May 27, Monday—
May 28, Tuesday—Baseball with Michigan State Normal College freshman, here. Golf with Wayne, there.
May 29, Wednesday—General assembly with an outside speaker. Tennis with Fordson, there. Junior-Senior banquet.
May 30, Thursday—Memorial day, with a holiday for the school.
May 31, Friday—Baseball with Our Lady of Lords, at River Rouge. Freshman class party.
June 1, Saturday—Regional tennis and golf meets.

SENIOR GIRL RESERVES
Madelon Shingleton and Mary Haskell, members of the Senior Girl Reserves, led a discussion on the relationship of mother and daughter, Friday, May 10. During this meeting, it was brought up by several members that mother should be a pal to her daughter. On the other hand, each should confide in and sympathize with each other.

GOLF TEAM SHOWS POSSIBILITY
There are eight men on the golf squad; two seniors, Captain Dale Rittenhouse and Bill Baker; two juniors, Ralph Lorenz and Howard Dix; four sophomores, Charles Ball, Clayton Simpson, Steven Horvath and Edward DePorter.

STARKWEATHER NOTES
Miss Johnson's pupils have just finished an "Autograph" booklet, in which each put five lines or verses he thought appropriate to write in his friends' autograph books.

JUNIOR ASSEMBLY
A scene from the Student Council play, "The Valiant," was presented last week at assembly. The play was concerning the last moments of a prisoner in the death cell. This man refused to tell his name, and wished to die without revealing anything about himself.

NATURE STUDY CLUB
Welcome Warblers! We awakened last Saturday morning to find warbler migration well advanced.

warblers are the "most beautiful, most abundant, and least known birds." "Least known," perhaps, because scarcely a warbler in the U. S. remains throughout the winter in the neighborhood of its nesting site.

During the next few days, if you see an exquisite little bird flashing his brilliant, salmon-pink and black feathers among your trees and shrubs, busily darting hither and around, springing about in the air after insects, you will surely agree that he is the most beautiful, as well as the most lively bird you ever saw.

PRINTING NEW BILLS KEEPING U. S. BUSY

Nine Million of Small Size Ready July 1.

Washington.—Nearly 9,000,000 bills, greenbacks and yellowbacks, issued by the United States government and scattered among banks, business houses, and people throughout the country, on or near July 1, will be able to go into permanent retirement at the discretion of their holders.

This does not mean that Uncle Sam has decided to call in all his paper money and issue in its place gold and silver, but that on that date he will replace this 1,500 tons of money, which would fill 40 box cars, with a new series of standardized notes one-third less in size and weight and occupying one-third less space in storage and handling.

Plant Hard at Work.

This stupendous task of replacement is being done by the bureau of printing and engraving in Washington, where the United States government manufactures its paper money. The plant is working night and day under full force to have this new issue ready on time, and is turning out the largest order in its history. It is producing six tons of the new money every 24 hours. Eight hundred and fifty-seven million pieces of fresh, crisp currency are being stored in the vaults of the treasury to be soon distributed to every state in the Union.

The suggestion of smaller paper money for the United States first came from Americans who had returned from the Philippine Islands and had become accustomed to the smaller size of currency in use there, which they found far more convenient to handle. When money was first being printed for the Philippine government, to avoid the confusion that would be caused if both currencies were of the same size, the islands were furnished paper money in sizes one-third smaller than that used in the United States.

Counterfeiting Forestalled.

Extreme care is being used in the printing and engraving of the new paper money to prevent counterfeiting. The faces will represent the highly specialized and artistic work of some half dozen different expert engravers, and the character of the engraving is such that it is almost impossible to match.

No longer will there be any yellowbacks and the repetition of portraits on bills of different denominations. All bills will be engraved and printed in green and black. The portrait of Washington will be on the one-dollar bills, Jefferson on the two's, Lincoln on the five's, Hamilton on the ten's, Jackson on the twenty's, Grant on the fifty's, Franklin on the hundred's, McKinley on the five hundred's, Cleveland on the thousand's, Madison on the five thousand's, and Chase on the ten thousand's.

While an immense saving is foreseen by government officials in the paper and ink used, and the printing and handling of the new paper money, a question which has arisen and yet remains to be solved is the changing of the national bank notes to conform with the new style.

The bureau of engraving and printing has a set of engraved plates for each denomination ordered by the national banks throughout the country. These aggregate more than 10,000 plates, and the re-engraving of all of them would take many years to accomplish and cost nearly \$1,000,000. The only solutions that remain open are the extremely expensive processes of re-engraving all the plates, the elimination of the national bank currency after 1930, or the issuing of a universal bank note upon which the name of the bank can be imprinted.

Official Courting Room

in English Fire Station

London.—Birmingham is probably the only city in the world which has an official courting chamber or love lounge, as the citizens are prone to call it.

The salon of cupid has been provided for the convenience of the unmarried firemen at Birmingham's central fire station.

Except on their weekly day "off," firemen are not permitted to go out of sound of the station alarm bell. Consequently, firemen and their sweethearts had to prosecute their love affairs just outside the station—and in the public notice, they felt uncomfortable, no doubt.

One of the rooms of the fire station, therefore, has been equipped by the city with easy chairs, a library and a gramophone. But even then Cupid must step aside when the fire gong rings.

The laudable part of the official match-making, however, is that the girls always wait in the lounge until the smoke enters return from the fire.

Woman Hands Conductor Transfer 36 Years Old

Chicago.—What worries F. W. Rapp of Chicago is whether one of his customers actually waited 36 years for his street car at a Chicago intersection.

Rapp has been a conductor on the Chicago lines a long time. When a woman handed him a transfer after boarding his car at a crossing, his quick eye discerned an anachronism.

The time and place seemed correct. The transfer was from a car on a Chicago line, and the hour and day were correctly punched, but the year was 1893.

Typical

Americanism: Throwing circulars into the waste basket; spending your money to buy circulars for the other fellow's waste basket.—Nashville Tennessean.

The Future.

Take care of the present and the future will take care of itself. Worry about nothing, accomplish nothing. It does mental and physical harm.

FEAR DISASTROUS ERA OF TORNADES

Weather Bureau Officials See Trouble Ahead.

Washington.—The tornado record for the first quarter of 1929 as shown by information gathered by the United States weather bureau here promises another unusual year for these disastrous storms.

Last year more tornadoes occurred in the United States than during any previous year for which the government meteorologists have gathered data. The record for 1928 nearly doubled the usual number of 90 to 100 a year. But the loss of life due to tornadoes in 1928 was exceedingly small and the property loss was far below that of the worst years.

In the first two months of this year ten tornadoes caused 22 deaths compared with only four tornadoes and no deaths in January and February of 1928. March kept up the unfavorable condition, with some half dozen whirlwinds and a dozen or so of deaths. And the Arkansas tornado toll gives April the beginnings of a bad showing.

As May and June are the months that usually show the largest damage from tornadoes, meteorologists feel that more storms and suffering must be expected.

The Southern states experience their tornado storms most frequently in late winter and early spring. Then the whirler season invades the Northern states. Contrary to popular opinion there is no "tornado belt." Statistics show that over half of the extremely destructive tornadoes have occurred east of the Mississippi.

The tornado is born of currents of air above the ground that differ in direction and come in contact. A condition of warm, moist air near the ground overlaid with cold air sets up violent heat transfer and overturning of the atmosphere. A great whirl or vortex results, releasing the pent-up energy of the air. Not always does the funnel-shaped cloud reach the ground, but when it does the low pressure of its center explodes houses, and the wind about the vortex prostrates all that it encounters.

Usually a tornado moves east or northward at the rate of 25 to 50 miles per hour. If you see one coming at you, run toward the northwest, as due to the small path, a few feet may mean the difference between death and safety.

Chief of Volga Pirates Gets Sentence of Death

Moscow.—The reign of the Volga river's most famous band of pirates, murderers, and bandits is at an end. Pasha, the gypsy, and four of his henchmen have been sentenced to die.

The court's sentence, which also jailed 21 others, including Pasha's beautiful wife, Voronina, ended a dramatic five-day confession in court by the leader himself, Pasha Kuznetsov. A recommendation for a reprieve was made for Kuznetsov because he turned state's evidence. He admitted 11 murders and 35 robberies.

Farmer Digs Post Hole; Gold Nets Him \$60,000

Toronto, Ont.—W. P. Rhodes, Beatty township farmer, has just finished digging a 300,000 posthole. He expects that the same hole will yield him double that amount. Rhodes, pioneering on the edge of the northern clay belt, decided to fence in more of his property. He had to use dynamite to dig his postholes. The first blast uncovered free gold. Rhodes sold his find to the Schumacher mining interests for \$60,000 cash and a large interest in the property.

Coins for Ornaments

New York.—Fifty thousand dollars in \$10 gold pieces of a design no longer used at the mint has been sent to Semarang, Java. The coins are in demand for use as ornaments.

Italy's Fat Woman Dead

Mantua, Italy.—The fattest woman in Italy, Giovanna Orsina, who weighed more than 450 pounds, has just died here.

Farmer Finds Buried Gold Coin in Barn

Interlaken, N. Y.—For no particular reason Will Eastman, a farmer living near here, started digging in a corner of his barn recently.

Belief of a practical turn of mind, it is reported, he wasn't sure if everything was right with himself when he came upon an ancient urn containing a fortune in gold coins and precious gems. He took the gems to a jeweler, however, and remained reticent about the amount of gold he found, meanwhile attempting to discover whether he had a legal claim to the treasure.

In the urn were two cards, bearing the inscriptions: "The heart will with its treasure be; be faithful until death, 1838"; and "William Smart, stone mason, New Road, Spalding, Lincolnshire—for Charlotte Bernard, Billington, Lincolnshire." No families of Smirts or Bernards are known in this section, so far as can be learned.

Grasp Present Gifts

Such knowledge have I of the actual blessedness and wonder of this present life that I believe there are some good things here which, if we do not take them now, in all the ranges of existence, we shall have no opportunity to find again what we have carelessly let slip.—John Chadwick.

Do you want to buy a good farm or a good house? See today's Classified Section on Page 4.

Club Members Given Trip To Washington

LEADERS CHOOSE BOYS AND GIRLS TO REPRESENT MICHIGAN AT NATIONAL ENCAMPMENT.

Four Michigan 4-H club members, John Converse, Union City; Ruth A. Gingell, Johannesburg; David Bergman, Ruyard; and Ingrid Mattson, Iron River, have been awarded trips to the national club encampment at Washington, D. C., June 19 to 25, for outstanding work during the past year.

The Michigan delegation is chosen by state club leaders and their selection is based upon the completion of club projects and their records as leaders of the clubs in their communities. Each of the boys and girls in

this year's group has been a club member for several years.

Ruth A. Gingell has won most of the honors possible to obtain for proficiency in preserving food in cans; John Converse has participated in all sorts of club projects, specializing in crops, but one year canned 200 quarts of fruit and vegetables; David Bergman is a livestock producer and now has a herd of pure-bred Holsteins; and Ingrid Mattson owns a flock of 120 laying hens which were raised last year as a club project.

The following statements made by these four club members summarize their belief in the work. "Dad has always helped me to get the things to use in the exhibits and mother has helped me just as much." "I like to act as club leader because the little folks here can hardly wait until they are old enough to begin."

"We have learned to work together and play together." "The great lesson of club work is to learn to win without bragging and to lose without squealing."

Recipes for the Red Man Revival of the old cooking recipes of the American Indian is suggested by the Woman's Home Companion, which starts the ball rolling with the prescription for "wild duck roasted with yampa." Yampa is a wild vegetable known only to the Indians of Oregon. As a reason for adopting Indian cookery it is suggested that "these 6-foot red men who used to make whoopee in this country weren't brought up on tea and toast."

GAS MADE HER CROSS, CAN'T EAT OR SLEEP

"When I ate I would bloat up with gas. I couldn't sleep, was cross and nervous. Adlerika has given me real relief."—Mrs. M. Meyer.

Adlerika relieves stomach gas and sourness in TEN minutes. Acting on BOTH upper and lower bowel, it removes old waste matter you never thought was in your system. Let Adlerika give your stomach and bowels a REAL cleansing and see how much better you feel. It will surprise you! Beyer Pharmacy and Dodge Drug Co.

CAMEL CIGARETTES

WHY CAMELS ARE THE BETTER CIGARETTE

Camels are made of the choicest tobaccos grown.

The Camel blend of Domestic and Turkish tobaccos has never been equaled.

Camels are mild and mellow.

They do not tire the taste.

They leave no cigarette after-taste.

Camels have a delightful fragrance that is pleasing to everyone.

Show Best Methods of Curing Alfalfa

LEAVES OF THIS LEGUME CONTAIN LARGE PART OF PROTEIN IN ROUGHAGE.

Men who swung a scythe in the hay fields of pioneer times will have an opportunity to see the latest hay-making machinery swing into action

at hay making demonstrations to be given this summer in 25 Michigan counties by members of the farm crops department at Michigan State College.

Old time methods involved a lot of hand labor but the quality of hay which was produced was usually good because the small quantities which were cut each day could be taken care of before the hay became so dry that the leaves shattered badly. Early crops of hay did not include alfalfa in this state and methods which will successfully cure other

hay crops are not so satisfactory with alfalfa.

Most of the protein contained in alfalfa hay is contained in the leaves, and the farm crops specialists say that unless these leaves are retained on the hay a great deal of the feeding value is lost. The methods and machinery used in the demonstrations enable farmers to handle large acreages of alfalfa in a manner which assures an excellent quality of hay.

County agricultural agents have arranged to hold the hay making demonstrations in the following coun-

ties: Monroe, Branch, Cass, Jackson, Calhoun, Ingham, Barry, Ottawa, Ionia, St. Clair, Sanilac, Saginaw, Gratiot, Montcalm, Newaygo, Oceana, Wexford, Oscoda, Clare, Benzie, Alcona, Alpena, Presque Isle, Cheboygan and Emmet.

The dates of the meetings are determined by the season, but they usually start about June 15 in the southern counties.

Public servants are a good deal like other servants, they're never very high and mighty until after they get the job.

FRISCO TRAINS MEN TO DO HOUSEWORK

Result of Unemployment Situation There.

San Francisco, Calif.—The unemployment situation in San Francisco has played havoc with the "stronger sex," in the opinion of the city's old-timers who remember at least a few of the days of '49 and when North Beach was the world's toughest community.

The old-timers' views were aired, in a typically old-time manner, after an announcement that the Associated Charities of San Francisco had started a school to train men to do housework.

"It just don't seem reasonable," was the comment of one of the old guard, "that the male folk should have to scrub floors and run them dinged-fangled sweepers in order to make a livin'."

"Now I remember when—" and here the gray-haired veteran launched into a graphic story of the time when "men were men" and San Francisco was the "wide open" city of the world.

However, officials of the Associated Charities can see no reason why men should not be trained to do domestic work.

"Men are better fitted to do heavy housework than women," one of the officials explained.

"Why, they can wax floors, operate vacuum cleaners, wash windows and woodwork, run washing machines and do innumerable things."

Under the direction of the officials, seven men were chosen to take the first course, and after an intensive series of lessons in the art of housework were graduated with honors.

The men studied house cleaning, use of modern appliances, manners of taking care of floors, and were taken into the finishing department and taught the polishing, touching up and cleaning of furniture.

Then followed ten days' practical experience in homes and, according to the officials, the ability of the men "was simply marvelous."

Should San Francisco take to the idea of employing men for household work, it is planned to enlarge the school and to add additional courses such as laundering and gardening.

New York Schools Cut Down on Home Study

New York.—What may prove to be a precedent for other school systems throughout the country has been set by New York city, in the curtailment, and in many cases the elimination of home work.

The new policy was announced by Dr. William J. O'Shea, superintendent of schools. Doctor O'Shea's recommendations, effective immediately, provide:

Elimination of all home work in the first three years of elementary schools.

Light home study assignments for the next three years.

Only the most essential and attractive forms of home work for the upper grades.

Junior high schools to be limited to not more than an hour and a half of home work a day.

Abolition of all monotonous forms of home work.

Doctor O'Shea made it plain that he did not approve parental aid in the work of students. He also classified as "monotonous and useless repetition" home work that involved writing a large amount of formal penmanship drills or words a number of times, or the copying from books and the analyzing of complicated sentences.

Loaf of Bread Baked in 1853 on Exhibition

Edwood, Ind.—A small loaf of bread said to have been baked Good Friday, March 22, 1853, is on exhibition here. It is owned by Mrs. Bee Hough Bartlett, eighty-nine, and was baked by her mother, Mrs. Bartlett says a legend that a loaf baked on Good Friday will endure forever prompted its making and its preservation for 76 years.

Gets Moving Stairs

Moscow.—The Soviet capital will soon have its first moving stairways, an innovation that makes patriots proud of their modernization. The stairways will be in a new building for the central co-operative organizations (Centrosouz) here.

Bible Is Most Stolen Book From Libraries

New York.—Best sellers may come and best sellers may go, but the Bible goes on forever, outselling the most popular modern books 100 times over, according to the Rev. Wilbur E. Saunders, Baptist minister.

One-half a million copies of the Bible were sold in New York last year, the Reverend Saunders said, and besides being a best seller, the book that is stolen most from libraries is the Bible.

Ancestors' Picture Painted

Roanoke, Va.—Dr. Ivey Foreman of the University of Virginia believes our most remote ancestors had large eye brows, no chins and meager brain capacity.

DISPATCH OF LETTERS AND POST CARDS BETWEEN THIS COUNTRY AND GERMANY VIA AIRSHIP "GRAF ZEPPELIN."

The return flight of Graf Zeppelin to Germany will be made from Lakehurst, N. J. on or about May 25th. There will be accepted for dispatch by that flight unregistered letters weighing not more than 1 ounce each and unregistered post cards which are addressed for delivery in any European country and are prepaid \$1.05 for each letter and 53 cents for each single post card. These rates include the postage and the fee for the transportation by the Graf Zeppelin, and must be prepaid by means of United States stamps affixed to each article.

Articles to be dispatched by the airship named should be marked by the sender "By Graf Zeppelin from Lakehurst, N. J." in the upper left-hand corner, and should be deposited in the mails in regular course.

Dispatch by the Graf Zeppelin can not be guaranteed. If the return flight is not made as expected articles marked for dispatch thereby will be dispatched by the ordinary means, unless they are endorsed. Do not forward by steamship, and bear the return address of the sender, in which case they will be returned to the sender and the air mail fee will be refunded on application through the office of mailing.

Articles to be dispatched by the Graf Zeppelin will be forwarded by the office of mailing to the New York office to be held there until it is determined whether they shall be forwarded to Lakehurst, N. J., to be dispatched on the Graf Zeppelin on its return flight, or, if the return flight is not made, be otherwise disposed of.

No special cancellation or cachet be used in connection with articles to be dispatched by this flight.

"Laureation"

By the ancient Greeks the laurel was called *daphne* and was sacred to Apollo. Berry-bearing twigs of ten were wound around the foreheads of victorious heroes and poets; and in later times the degree of doctor was conferred with this ceremony, whence the term, laureation.

Overdue Payments

The man who pays every penny the day it is due and goes into business will draw dollars as a magnet draws steel.—American Magazine.

Some things will always remain a mystery, and one of them is what the new style galoshes are really for.

sets the Redford player being no match for Knapp's fast playing and serving. Score: 6-1.

On Wednesday of the same week, Plymouth played a return game at Redford, on the courts at the Ford Republic, and again won by the same score. The matches are as follows: Match No. 1—Bake was defeated by Marion of Redford, their captain and No. 1 player, in a very fast and close match. Score: 6-1; 7-5.

PLYMOUTH OVERWHELMS NORTHBVILLE, 11 TO 3.

Good hitting, air tight defense and errors on the opponents' part all combined to help Plymouth win. Bunching four hits in the second, enabled Plymouth to score six runs. In the sixth inning, it seemed as though Northville would rally. After a man had walked, a triple sent him home, and a man was on third and none were out. However, the next three men failed to do anything.

and Berndt fled to Smith in left field. No runs, no hits, no errors. For Plymouth—Atchinson walked, and stole both second and third. Van Bonn was again hit by a pitched ball, and stole second. L. Simmons was out at first, Watts to Johnson. Atchinson scored on a pass ball. Collins was safe at first on a fielder's choice, and VanBonn was out at the plate. On Smith's single, G. Simmons scored. Herrick was out at first, Watts to Johnson. Two runs, one hit, no errors.

BOX SCORE

Table with columns: AB, R, H, SH, PO, A, E. Rows for Plymouth and Northville.

he stole second base. L. Simmons struck out. G. Simmons singled, but was out trying for second. Meanwhile VanBonn scored. One run, one hit, one error.

Atchinson, Parrish fled to Gates, and Stuart grounded to G. Simmons. No runs, no hits, no errors.

PLYMOUTH DEFEATS ROOSEVELT, 8 TO 0; COLLINS PITCHES A NO-HIT, NO-RUN GAME.

"Big" Collins pitched his first no-run game of the season last Friday, against Ypsi Roosevelt. The only time a man went on bases was in the fourth inning when a wide throw by VanBonn pulled Herrick off the sack, allowing the latter to go safe. Not another error than this one had the Plymouth players.

BOX SCORE

Table with columns: AB, R, H, SH, PO, A, E. Rows for Plymouth and Roosevelt.

For Roosevelt—Stump and Beauchamp struck out, Parrish fled to Gates. No runs, no hits, no errors.
