

## SECRETARY OF C. OF C. COMES AUG. 1

**PUBLIC INVITED TO MEETING HELD AT C. OF C. ROOMS NEXT MONDAY EVENING.**

We take pleasure this week in presenting to our readers a half-ton portrait of the man who is coming to guide the destinies of the Plymouth Chamber of Commerce. Berg D. Moore of Indianapolis, Ind. Mr. Moore, a was stated in last week's Mail, has had several years' experience in connection with the Chamber of Commerce of that city, and is well qualified by this experience to fill the position here.

Ever since the local chamber of commerce was organized, it has been felt by those who have been closely identified with its work, that the services of a full time secretary were needed to make it function as it should and for the best interests of Plymouth.

Many things that could have been accomplished, have had to be left undone because no one individual could possibly give it the time that such work requires. There is always a large amount of correspondence regarding factory sites and various matters that need the attention of a man constantly on the job.

It is not to be expected that a secretary can do everything. He must have the loyal support of every business man and citizen if great results are to be expected—in fact cooperation is the keynote of the future success of the Plymouth Chamber of Commerce.

Sufficient memberships have already been pledged to carry out the proposed program for the next six months, and those who have not already renounced their memberships, are requested to do so as soon as possible. On Monday evening, August 5th, at 8:00 o'clock, there will be a get-together meeting at the Chamber of Commerce room in the Hotel Mayflower block, and every citizen who is interested in the growth and prosperity of Plymouth is invited to be present and meet the new secretary.

### ANNOUNCES NEW FALL STYLES

On another page of today's Mail, Paul Hayward has taken a large space to announce the new fall styles in men's clothes and furnishings. Mr. Hayward says that he has an exceptionally fine showing of the latest fashions in men's wear, and extends a cordial welcome to the men of Plymouth and vicinity to come in and inspect the newest creations.

### NOTICE TO C. OF C. MEMBERS!

The new secretary will be on the job August 1, and the board of directors is desirous that all memberships in the organization be paid in as soon as possible, so those who have not already done so are asked to mail in their checks at once, so that the new secretary can start the work with a paid up membership. The board of directors has done its share, now let's do ours.

### Improvements At Riverside Park

### WAYNE COUNTY PARK COMMISSION HAS FORCE OF MEN AT WORK.

What was known as the Plymouth tourist camp and now as Plymouth Riverside Park, is undergoing some rapid changes by a force of men in the employ of the Wayne County Park Commission, who have recently taken over the property.

The new road is being built from the Plymouth road entrance, and a big fill is being made on the hill leading to the Ann Arbor street entrance. Many rustic tables and seats have been put in place, together with stoves for cooking purposes. Trees are being trimmed and rank undergrowth is being cleaned out.

The work now being done is but preliminary to the program of improvements that will follow. When the park is completed, it will be one of the finest and best located in Wayne county. Several hundred people visited the park last Sunday.

### Burglars Enter Central Garage

Burglars broke into the Central Garage on South Main street, last Saturday night or Sunday morning, entrance being gained by breaking a window at the rear of the garage. When A. J. Baker, who operates the garage, arrived in the morning, he found the cash register lying on the floor at the rear of the building. In the office at the front of the garage, he found drawers pulled out from the desk and papers scattered about the floor. A safe in the office had not been opened and nothing indicated that it had been molested.

So far as can be ascertained, the thieves got nothing for their trouble. Officer Charles Thumme was called and made a thorough investigation of the matter.

### MORE LOCAL NEWS.

Items of local interest will be found on every page of today's Mail.

### Plymouth Man Hurt In Auto Accident

A. R. Martin of this place, who drives a gasoline truck for the White Star Oil Co., met with a serious accident five miles north of Monroe on the Dixie highway, last Sunday, when another car in an attempt to pass him collided with the truck, overturning it into the ditch and pinning Mr. Martin underneath. He suffered a dislocated and splintered left shoulder and a broken pelvis. There were four people in the other car, but none were injured.

One of the fortunate things about the accident was the fact that the tanks on the truck contained hundreds of gallons of gasoline and when the truck was overturned, this was let loose but did not ignite.

Mr. Martin was taken to the hospital at Monroe, where he is getting along as well as could be expected.

### Kiwianians Hear Light's Golden Jubilee

A very interesting program was brought to the Kiwanian luncheon hour last Tuesday noon, when Roy E. Crowe, the chairman of the day's program committee introduced W. C. Cook, a representative of the Detroit Edison staff.

Taking for his subject, "Light's Golden Jubilee," the speaker with the aid of the movie camera, held the closest attention of his listeners as he narrated the autobiography of artificial light.

Tracing primitive man's method of producing fire and light from the friction produced by rubbing two pieces of flint together, down through the years when the tallow and wick, oil and gas and carbon sticks held sway, the speaker brought his subject up to the date of October 31, 1879, when Thomas A. Edison was proclaimed the inventor of the present used electric incandescent bulb.

Mr. Cook showed upon the movie screen, Edison's experiments with different films used in producing his 100 watt lamp of yesterday to the one perfected and used at the present time. Light's Golden Jubilee will be celebrated this fall at Henry Ford's Dearborn, Michigan, estate, where Thomas A. Edison will be accorded the highest honors which rightly belong to this wizard of the electrical age.

### Dobbs-Hondorp

Miss Henrietta Hondorp, daughter of Mr. and Mrs. H. L. Hondorp, and Edward Dobbs, son of Mr. and Mrs. H. C. Dobbs, were united in marriage Saturday, July 20th, at 6:00 o'clock, by Rev. Walter Nichol, at the home of the bride's parents. Anna Hondorp, sister of the bride, was maid of honor. While Russell Penney was best man.

A dinner was served following the ceremony, after which the couple left for Portage lake, where they will stay for a couple of weeks.

The young couple have the best wishes of their many friends for a happy and prosperous wedded life.

### Death of Joseph Hance

Joseph Hance, for many years a respected resident of this place, passed away at the University hospital in Ann Arbor, where he has been for the past ten days, Tuesday morning, July 23rd. Mr. Hance was 66 years of age, and he leaves five children, Mrs. Albert Beegle, Mrs. Clarence Pelley, Joseph, George and Arthur. He is also survived by eleven grandchildren and six great grandchildren, three brothers and one sister.

The funeral services were held from Our Lady of Good Counsel church, Friday morning at 9:00 o'clock, Rev. Fr. Lefevre officiating. Interment took place in Riverside cemetery.

Joseph Hance was born in Montreal, Canada, March 20, 1863. He was united in marriage to Emma Racine of Rutland, Vt., November 26, 1882. He came to this country in 1883, and became a citizen of the United States. To this union seven children were born, five of whom are living. On December 29, 1920, he was married to Anna Dugan.

### AUTO CLUB SHOWS PICTURES IN KELLOGG PARR

Under the auspices of the Detroit Automobile Club Safety and Traffic Division, a moving picture show was given in Kellogg Park last Saturday evening. The entertainment is part of a state wide campaign to impress people, especially children, of the dangers of dynamite as a plaything, exhaust gas from cars in closed garages, trying to beat a train at crossings, etc.

### BASE BALL NEWS ON FRONT PAGE OF SECTION TWO

### PLYMOUTH'S NEW MODEL HOME

Thomas W. Moss (Archit. '29)

This small English house, a simple adaptation of the English farmhouse type now being built in the Hough Park subdivision as a model home, has been designed to meet the demands of the small house owner, a definite style of architecture, simple and honest use of materials, giving an attractive exterior and an economical plan.

The house is to be of brick construction, with stucco and timber work, and owes its charm to its carefully studied proportion and informal balance of design. The brick is to be in reds and browns with raked cream color mortar joints, the stucco tinted a soft ochre, the timber work stained a dark brown and the roof shingles feathered grey. Stone trim will surround the front entrance door and the small leaded casement windows of the stair hall.

The house has been placed on the lot to allow a feeling of complete isolation and privacy to the garden exposure of the house, where a paved terrace and covered porch gives ample opportunity for out of door life during the summer months. On the garden side, French doors opening off the south wall of the living room, help to connect more intimately the living quarters of the house with the terrace, lawn and flower gardens.

On the right on entering the front entrance door, a large coat closet with toilet room adjoining, tiled with a delicate shade of buff mosaic faience tile. The main entrance hall, lighted

with four small leaded glass casement windows next to the entrance door, leads to the living room through a vaulted sub-hall, off this hall is the enclosed stair and door to the service quarters of the house.

The living room occupies the entire eastern end of the house, permitting casement windows on three exposures, on the west wall of this room is a huge recessed fireplace with the floor and bookshelves built into the wall on each side of the nook. Over the mantel is a recess lined with wood panelling, giving a quaint and domestic appearance to the room. On the south wall, we have the French doors leading out onto the open porch. Off the living room, is the dining recess, with built-in china cabinet, designed so that when not in use can easily be served as a living room alcove, giving the room a spacious appearance.

The kitchen contains a folding breakfast table and seats, which can be folded back into the wall when not used, giving a maximum amount of floor space, a broom closet and built-in refrigerator is included.

On the second floor hall is a window seat at the head of the stair, and a sub-hall containing the linen closet. A master bedroom, size 11 feet by 20 feet, with dressing room adjoining, containing wardrobes, dressing table and lavatory; from this room a private entrance to the main bathroom is obtained. There are two other large

bedrooms with ample closet capacity. All the bedrooms have windows on two exposures allowing cross ventilation at all times. The guest's bedroom and master bedroom will have windows overlooking the garden and terrace on the south. The bathroom will have mosaic faience tiled floor and walls in delicate shades of orchid with green trim. A built-in tub with shower over is recessed on the west wall.

From the second floor, there is a stair leading to a playroom 10 feet by 36 feet on the third floor, with a window on the east and west walls.

The basement will contain a recreation room, 13 feet by 23 feet, with a beamed ceiling.

The construction throughout is first class, one hundred per cent insulated and heated mechanically with warm forced air.

### Local Contractors, Where Possible, Are Retained for the Model Home.

The general contractor and builder of this home is Roy C. Streng, with the following sub-contractors: Heating, Holland Furnace Co., forced air; plumbing and sheet metal work, all plumbing fixtures, Kohler make, Henry Ray; tile and marble, Ann Arbor Tile & Fireplace; steel casements, Critical Steel Casements, Detroit; insulation, Celotex Co. and Balsam Wool; stone, Detroit Cut Stone; building supplies, Eckles Coal & Supply Co.; lumber, Towle & Roe; architect, Thomas W. Moss.

### Cars Broken Into At Phoenix Park

For some time petty thieving has been going on at Phoenix Park, and last Sunday night some boys saw two men breaking into cars parked at the roadside, and notified Deputy Sheriff Albert Williams who arrested two men who gave their names as Robert Lissner and August Barnowski of Detroit. The men were brought to Plymouth and lodged in the village jail, and later turned over to the county officers.

It is expected that the men will be given a hearing in a local justice court next Tuesday.

### Serious Auto Accident

Little "Billy" Daeschner, the three year old son of Mr. and Mrs. W. J. Daeschner of the Wayne road, fell from the moving car in which he was riding on the Ford road last Tuesday afternoon, and sustained a severe injury to the back of the head. Passing motorists brought him to the office of Dr. Peck, where it was found the young lad had sustained a basal fracture of the skull. The little patient was later removed to his parents' home where he is at present writing, resting as well as could be expected.

### Big Red Arrow Sale Now On

### WILLOUGHBY BROS. INAUGURATED BIG ANNUAL EVENT THURSDAY, JULY 25TH.

Willoughby Bros.' big Red Arrow sale, which has become an annual event with this store, was opened last Thursday morning with an eager throng of buyers waiting for the store to open at 9:00 o'clock. The entire stock of high class shoes has been marked down to real bargains for the event that is sure to attract the attention of buyers who are looking for big values at money-saving prices.

Men's, women's and children's shoes are all offered at greatly reduced prices. Your attention is called to the full page advertisement in today's Mail, where full particulars are given.

### KIWANIANS ENJOY DELIGHTFUL PICNIC

### MR. AND MRS. CARL HEIDE WERE HOST AND HOSTESS AT THEIR BASE LAKE SUMMER HOME.

One of the season's high lights in Kiwanian entertainment, was staged last Wednesday afternoon and evening when Kiwanians and their friends numbering over one hundred, motored to the Heide cottage on Base Lake, Washtenaw County, as guests of Mr. and Mrs. Carl Heide of this village.

This was Plymouth Kiwanians' second annual picnic to the summer home of Mr. and Mrs. Heide, who proved themselves delightful entertainers in every sense the word implies. From the moment the autos began their entrance to the parking grounds surrounding the Heide cottage, our genial Kiwanian, Carl, was on hand to assist the guests to the cottage entrance where Mrs. Heide welcomed them in her very pleasing and cordial way.

During the afternoon, games and merriment of all kinds were indulged in by the guests. Bridge for the ladies, golf for the men (both barnyard and field), boating and swimming were enjoyed by all and gave an afternoon of pleasure long to be remembered.

And then that miniature trip to Milwaukee, an entertainment provided especially for the men, showed that Carl left no stone unturned, to remind his guests that his recent visit to the international convention at Milwaukee, Wis., provided no more than was forthcoming right here inside his hospitable Heidelberg annex.

At the supper hour, when all the guests were assembled at the tables arranged out on the spacious lawn, a menu replete in every detail was served; proving again that our host and hostess were experienced entertainers.

When the time for departure had arrived, Kiwanians and their friends voiced to Mr. and Mrs. Heide that this was the best picnic ever.

The writer, who was privileged to be one of the Kiwanians present, desires to express at this writing, the sincere thanks from all the club members for the wonderful treat provided by Kiwanian Carl and Mrs. Heide.

### NEW MACK-CRAFT AMPHIBIAN CONTAINS MANY NEW FEATURES

### THE NEW PLANT ON ANN ARBOR ROAD IS FAST NEARING COMPLETION.

The Mack-Craft Amphibian Corporation of Plymouth, Michigan, is manufacturing the Dolphin. This amphibian is capable of carrying tremendous loads. There are many new features incorporated in this latest flying amphibian. It will weigh, loaded, approximately three tons. Its top speed is over 150 miles an hour. It will be powered with the Hornet 525 horse power engine, manufactured by the Pratt-Whitney Company. The cruising radius is 1300 miles. The company's plant is located about 17 miles from Detroit, in the city of Plymouth. The plant is especially constructed to enable them to build a Super-Dolphin amphibian which will carry approximately 30 passengers. "The present market needs this type of amphibian because of the safety factor it offers," said R. U. McIntosh, president and general manager of the company. The amphibian will have a full cantilever wing which will do away with external bracing. This new amphibian is 100 per cent stream line and is absent of parasite resistance.

"The flying public today must have the same comfort and convenience in flying transportation as in any other form," said McIntosh. "The Dolphin amphibian will be equipped most luxuriously. It will have overstuffed mohair seats, hot and cold running water, lavatory, toilet, ice box, buffet and many other such refinements that make comfort for the air passenger travelers.

"The world is seven-eighths water and offers unlimited landing field for the amphibian. All large cities are located next to water. The amphibian will be able to land within the shadows of the tall buildings, and saves hours of valuable time traveling to and from the airports. The Mack-Craft Amphibian Corporation is endeavoring to get into production as quickly as they can. Many of the amphibians are going to a company on the west coast. Mr. McIntosh has incorporated into this new amphibian many new features that mark a new level for the amphibian airplane. The company has organized an engineering force that will be hard to equal. The amphibian is now under construction, and will be completed, ready for a test hop in sixty days.

Following the test hops the amphibian will be put to a severe test by making a non-stop flight to Egypt. This trip is proposed by Mr. Adams, a pilot and engineer in charge of the engineering force. Mr. McIntosh will accompany him.

**WILL PUT ON CIRCUS**

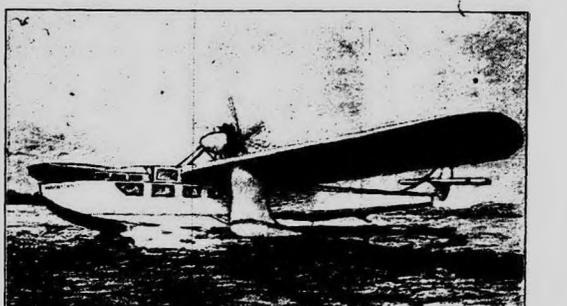

The second annual circus will be held on the girls' playground at the Wayne County Training School, Saturday afternoon, July 27th. The grand parade takes place at 3:30 p. m. The side show opens at 4:00 o'clock, and the main show begins at 4:30. The circus is put on entirely by the children of the school. All costumes, trappings, vehicles and other paraphernalia are the products of their own hands. The public is cordially invited to attend.

### The New Buick Will Be Here Tomorrow

The 1930 Buick is here, and the Plymouth Buick Sales Co. will have one of them on display in their showrooms Saturday, July 27th. The new Buick is one of the outstanding achievements in automobile building of the year, in both performance and appearance. A number of changes have been made in the 1930 Buick, that are sure to please and claim the attention of those who seek the greatest performance and comfort in motor cars. A full description of 1930 Buick appears on page 10 of the second section of the Mail today.

The Plymouth Buick Sales Co., local dealers, extend a cordial invitation to the public to call and see the new car.

### The New Mack-Craft Amphibian Plane Dolphin

This amphibian was designed by R. U. McIntosh, president and general manager of the Mack-Craft Amphibian Corporation. It is expected to make in excess of 150 miles an hour. The engineers who have worked on various parts of this amphibian are A. A. Adams, C. J. Ratky, J. J. Maskey, C. T. Davis and H. Robinson. The specifications are as follows: Gross Weight—5600 lbs. Weight Empty—4000 lbs. Payload—1200 lbs. Wing Area—481 sq. ft. Wing Span—57 ft. Length Over All—44 ft. 6 in. Cruising Speed—225 M. P. H.

Top—150 M. P. H. Power plant, Pratt-Whitney—525 (Hornet) Landing Speed—55 M. P. H. Gas Capacity—200 gals. Oil Capacity—20 gals. Cruising Range—1300 miles. The factory is located on the Ann Arbor road, just four minutes from the hotel. The factory will have in its employ when they get into production about 150 employees. This type of ship will be sent to all points of the globe. There is a transportation company on the West Coast that will take the entire production for the next three years.

### Look Boys, And Read!

If you are over twelve years old and want to enter in a model airplane building contest for which several prizes will be given, see Mr. R. U. McIntosh of the Mack-Craft Amphibian Corporation. The boys will build three different types of airplanes. A. A. Adams, Herald Hamill and Mr. McIntosh will be the judges, and will assist the boys in the building of the three different types of airplanes. One will be for speed, another for endurance and another for altitude. These different types of airplanes are built especially for the purpose that they will be intended for. "This," said Mr. Adams, "is where I come in. I will try to show the boys how to construct these different models and help them each make the best."

The Mack-Craft Amphibian Corporation will turn over its factory to the boys after working hours, so that they may avail themselves of the machinery and necessary equipment. There must be a total of fifteen boys before the contest starts, and they will use a part of the forty acres of the Mack-Craft Amphibian Corporation site to hold the contest on.

The mothers and fathers are cordially invited to attend the meet, and it promises to be a thrilling event.

Mr. McIntosh has been judge for several boys' model meets in some of the largest cities in the United States.

These models will be built out of balsa wood, and you may purchase your pieces from the Mack-Craft Amphibian Corporation, enough for your three airplanes for about 75c. This does not include the propeller. The Mack-Craft Amphibian Corporation will have to order these propellers from Detroit, according to the many types and sizes of the many airplanes that will be built.

Now boys, you are not to bother Mr. McIntosh or Mr. Adams during their working hours, but you may all get together in the park across the street Saturday morning at 10:00 o'clock, and Mr. McIntosh, Mr. Adams and Mr. Hamill will initiate the boys and present them with a copy of rules and regulations governing this meet.

Now boys, get a few nickels together. The balsa wood has been ordered, and let's have lots of fun.

Gee, kids! The prize is going to be a surprise. No one will know what it will be, but Oh! Boys! Some prize!

# AT NORTHVILLE THEATER

## To Our Patrons

The Penniman Allen Theatre at Plymouth will close for the months of July and August. This is made necessary in order to make changes to provide for the installation of sound and talking equipment. We have always tried to give our patrons the best in entertainment and will continue by purchasing the most up-to-minute sound equipment on the market.

The Northville theatre will continue its regular policy of three changes a week—Sunday, Wednesday and Saturday.

We will hope to see you all the first of September and expect to have a real treat for you.

JULY 26, 1929.

### THE CORN CROP

According to the latest crop report, corn growers are in for a little better price in the near future. On July 1, the corn crop condition in the U. S. was only 77.6 per cent of normal, indicating a production of 2,662,050,000 bushels. Acreage under cultivation is above 98,000,000. The figures for all wheat indicate a production of 863,869,000 bushels, with an indicated condition of 74.9 per cent of normal. There have been unusually heavy and destructive rainfalls in many sections of the country, however, since that forecast was made, and if the figures are changed it probably will be to show a still lower percentage. It is a little early to throw up your hat or to become too optimistic, but at the present moment it looks as though our Plymouth friends who have been hoping the farmer would get a better "break" this year will realize that hope. And yet it's hard to see where less corn and wheat, though sold at higher prices, is going to help him much.

### IT'S YOUR PROBLEM

Many people around Plymouth seem to think that while accidents are rapidly increasing they will never have mishaps, or that accidents are always going to befall the other fellow and that they will come out all right. This is a poor way of thinking. It leads to loose safety practices and really causes accidents. These days one needs all the power of observation, carefulness and judgment; there's too much reliance on the other fellow to do his part—and a bit more—to prevent accidents. The cash value of human sacrifice each year is placed at \$3,200,000,000. Fatal accidents alone run close to 95,000 annually. Of course, autos account for nearly one-third. And since safety experts say that 98 per cent of all auto accidents can be avoided it is not hard to see wherein we waste the vast sum of over three billion dollars yearly. One human being is killed in an accident every six minutes during the year and 18 are injured every minute throughout the year. The human suffering and misery these accidents entail cannot be estimated. Yet many people believe, or seem to believe, that they are in no danger and that there is no special need for intimate co-operation. But so long as this kind of thinking goes on the accident rate is going to grow heavier instead of being reduced. This day in time it behooves every individual to look after himself as though he had a positive tip that he was going to be a victim of the very next accident.

### GO EASY ON SWEETS

There's an old adage, familiar to most residents of Plymouth to the effect that the average man digs his grave with his teeth. The common sense and truth of this statement is empha-

sized by a bulletin being sent out by one of the country's largest insurance companies.

In this bulletin, and we refer to it because it touches on the important subject of health, it is stated that there has been an unusual increase in the death rate from diabetes in the last three years. And it is attributed to the richness of the American diet. Since 1900 the consumption of cereals has decreased more than 36 per cent. We eat 40 per cent less corn than was being eaten 20 years ago, and the consumption of wheat is not as great by 20 per cent. There has also been a big decline in the amount of beef consumed this year.

On the other hand there has been a big increase in the amount of sugar consumed; far more candy, cake, ice cream and pie is eaten now than ever before in our history, and to this is attributed the startling increase in deaths from diabetes. The bulletin offers no hint for lowering this death rate, other than a suggestion that we return to a diet of beef and vegetables and forego an over-indulgence in sweets. In view of the fact that thousands are dying every year from a disease that was rather uncommon 20 years ago, the warning contained in the bulletin is worthy of the consideration of everyone.

### PRETTIER SCHOOLS

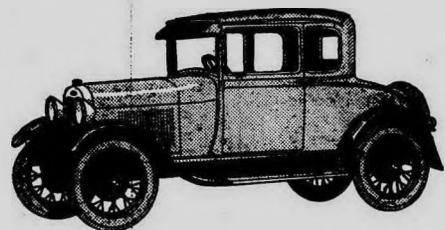

There is no reason to believe that children in the schools of our smaller towns and rural districts prefer rough, unkempt school grounds and unpainted school houses and broken-down fences to neatly kept yards, fences and buildings. Nor is there any reason why a small town or country school cannot be kept as attractive as those in our larger cities, where shrubbery and trees and flowers cost even more than out in the country. We believe rural school children respond as readily to nature's beauties as do the children of our cities, and we also feel they are just as much entitled to pretty buildings and well-kept playgrounds. Parents who never stop to consider whether or not environment has any influence on their children's education should give the subject a little thought. And school officials in every town and every rural school district should not let themselves grow into the belief that progress is as rapid in a run-down school house as it is in one that is well kept, both inside and out.

### JUST A SUGGESTION

If the gentlemen who have in charge the placing of highway markers warning of dangerous curves and railroad crossings could be persuaded to drive by night over the roads they have marked there would be far less accidents in this country. No matter how plainly the sign may be read by daylight, it is worthless unless it is easily and readily distinguishable at night. Ask any Plymouth motorist about night driving and he will, in almost every case, tell you that his chief objection to it is that too many warning signs are not placed so they can be seen as quickly and read as clearly by the light of the auto headlights as they can be seen and read in daytime. It is high time that those in charge of marking our roads recognize this and set about improving such conditions. It might take a little more of their time, but they are getting paid by the day anyhow, so the saving in human life would far offset the additional cost.

## Women appreciate this riding comfort

Long trips are easy when you drive a FORD

EASY-RIDING comfort is one of the features of the new Ford. Somehow, it seems to just glide along, as if every road were a good road. Even rough stretches may be taken at a fast pace without hard jolts or bumps or the exaggerated bouncing rebound which is the cause of most motoring fatigue.

Come in and arrange for a demonstration. You'll know then that the transverse springs and Houdaille shock absorbers make a big difference in riding comfort.

Call or telephone for demonstration

## Building of Westminster Abbey Commences

WILL BE ONE OF THE COUNTRY'S MOST IMPOSING MAUSOLEUMS.

The erection of one of the country's largest mausoleums has been started at the intersection of the Walled Lake and Twelve Mile roads. Westminster Abbey is to be one of the finest structures of its kind in America, through the efforts of E. J. Ryan of Detroit. The contract for the erection of the building has been let to the Eifer Construction Co. of Goshen, Indiana.

Several years ago, the building of such a structure was only an idea of Mr. Ryan, who came to Detroit and eventually interested a group of prominent Detroiters in the project. His idea was to build a permanent mausoleum, which would express in marble the tranquility of everlasting sleep.

Mr. Ryan has had an extensive experience in mausoleum construction and development. He was largely instrumental in the successful abbey in Youngstown, Ohio, and also at Pittsburgh, Pa., which has only recently been dedicated.

Mr. Ryan has secured the cooperation of a group of the best known business and professional men in Detroit, and already Westminster Abbey has been selected by about 175 of Detroit's leading families who have joined together in its construction.

One of Detroit's leading trust companies has been named as business executive, and all moneys are paid direct to the trust company under a trust agreement that safeguards the purchasers of crypts, rooms and compartments. Included in the agreement is provision for a perpetual care fund, which will insure a perpetuation of the mausoleum for all time.

Detroit's Westminster Abbey is being built on the highest spot in Grand Oakland Memorial Park, at Twelve Mile and Walled Lake roads. This beautiful park, now being landscaped by the Greening Nursery Company of Monroe, and equipped with underground sprinkler system will be one of the beauty spots of Michigan.

## All Townships Get Tax Increase Except Dearborn

As a result of the equalization of property values for tax purposes by the County Board of Supervisors Tuesday, Dearborn is the only one of the 18 townships in Wayne county which shows a decrease. This decrease amounted to \$12,808,000, which was lost through the annexation of part of the township to the City of Dearborn. The increase of the other 17 townships was insufficient to overcome this loss and all townships show a total decrease of \$2,275,000.

Detroit's assessment is set at \$2,080,000,000. The assessments of the other cities in the county follows: Dearborn, \$289,902,410; Hamtramck, 119,898,529; Highland Park, 135,501,200; Lincoln Park, \$26,019,859; Wyandotte, \$48,952,438.

The assessments of the townships follow: Grosse Pointe, \$127,954,536; Ecorse, 48,347,227; Monguagon, \$22,844,640; Dearborn, \$17,048,800; Grosse Ile, \$13,690,730; Nankin, \$12,421,838; Plymouth, \$9,235,764; Redford, \$8,920,065; Taylor, \$8,820,186; Brownstown, \$8,356,881; Northville, \$5,469,525; Van Buren, \$4,442,705; Romulus, \$4,203,965; Canton, \$3,549,490; Huron, \$2,890,487; Grosse Pointe Woods, \$2,591,725; Sumpter, \$1,718,742.

## Annual Motor Cycle Rodeo and Field Meet

The annual motor cycle rodeo and field meet will take place at the Old Dutch Mill at Middle Belt and Five Mile roads, on Sunday, August 4th.

All of the events will be run in the afternoon, starting at one o'clock. The feature event will be the polo game between Pontiac State champions and Detroit. This game will be played in fifteen minute quarters. Other events will be miss and out race, stake race, potato race, relay race, Australian pursuit race, broad jump, slow race. In addition to this some of the best motor cycle riders in the state will do some fancy stunt riding. Everybody invited.

### Evil in Disputation

The pain of dispute exceeds by much its utility. All disputation makes the mind deaf, and when people are deaf I am dumb.—Jonbert.

### Moods

Moods are often a form of self-indulgence. Sympathy and teasing do no good. When moody folk are left alone they soon become normal.

It remains for Dad Plymouth to declare that the reason so few widows bob their hair is because they haven't any husbands to tell them not to.

The reason there is plenty of room at the top is because so many who get there fall off.

Subscribe for the Mail.

## NEWBURG

Rev. Frank Purdy made an earnest plea last Sabbath for everyone to be a soul winner for Christ. A quartet composed of Mr. Montgomery, Elden Gency, Misses Anna and Ada Youngs, sang "The Old Rugged Cross," with Miss Joy McNabb at the piano.

Those attending the Sunday-school picnic are requested to be at the church at 10:30 a. m. and proceed to River Rouge Park entrance on Warren avenue. Perrinville and Beech are to join with Newburg. There will be races and games, with prizes for the winners. Paper plates will be furnished. You are asked to bring cup and fork or spoon. Everyone invited to attend.

The Phillia Sunday-school class had charge of the opening exercises last Sunday. Mrs. M. Eva Smith read one of Edgar Guest's poems entitled, "Envy." The Men's Class will have charge next Sunday. Interest is keeping up fine.

Mrs. Jesse Thomas and son, Frederick attended a Burroughs picnic at Island Lake, last Saturday.

Mr. and Mrs. G. Konkle and Mrs. Mary Paddock of Highland Park, took Sunday dinner with Mrs. Emma Ryder and family, and later called on Mrs. Bert Hodge at Northville.

Elizabeth Stevens is spending a few weeks with her grandmother, Mrs. Ransom Lewis of Chelsea.

Mr. and Mrs. George Clemens and daughter, Carrol of Vicksburg, Miss., are spending their vacation at the parental home.

Mr. and Mrs. Roy Walker and son, Clyde, and Miss Margaret Benson of Dayton, Ohio, were week-end visitors of Mrs. Walker's niece, Mrs. Edgar Stevens.

Mr. and Mrs. Harmon Smith of Plymouth, were dinner guests of Mrs. Emma Ryder, last Friday.

Carlous Allen, young son of Mr. and Mrs. Allen, fell and broke his arm, Sunday.

Russell Stevens entertained the eighth grade graduates last Wednesday evening.

Russell Carter and Clinton Bachr took a fourteen hundred mile motor trip last week.

Mrs. Edgar Stevens called on Mrs. Ruth Lewis and Mrs. C. V. Chambers in Plymouth, last Thursday afternoon.

Mr. and Mrs. Clyde Smith have let the contract for their new house. The foundation is completed. Mark Joy furnishing the blocks.

Mrs. Currie Hatt of Jackson spent a few days last week with her sister, Mrs. Ella Mackinder.

Mr. and Mrs. Fred Gency spent the week-end visiting relatives in Traverse City.

Rusting and Sarah Lillian Cutler spent Sunday afternoon with the Leonard's at Lake Orion.

## PIANO RECITAL GIVEN TUESDAY

The following pupils of Miss Melissa Roe gave a very pleasant recital Tuesday evening at 8:00 o'clock, in her studio:

Quotation "I Am Music"  
Ernestine Wilson, Phyllis Ratnour  
Solo, "The Swallow" Lighthouse  
Phyllis Samsen  
Priella's Saturday Billbro  
Dorothy McCullough  
Little Wooden Shoes Dale  
Carol Campbell

(a) Giant Steps Adams  
(b) The Bumble Bee Weston  
Phyllis Roe  
Duet, Maypole Dance Gurlitt  
Solo, Bark, The Band Eri

Phyllis Ratnour  
(a) The Gallipoli Huntsman Blake  
(b) The Surprise Schmitt  
Norma Jean Roe  
The Flowing Brook Krentzlin  
Ernestine Wilson

Heliotope Risher  
John Miller  
Duet, In Stately Measure Aletter  
Coraline Rathburn, Andrea Kroeger  
Solo, America

(transposed to any major key)  
Norma Jean Roe  
Toboggan Slide Hueter  
Estelle Miller  
On a Hike Gaul  
Andrea Kreeger  
Chasing Butterflies Dennee  
Coraline Rathburn  
(a) The Storm Pitcher  
(b) To the Rising Sun Forjussen  
Joy Thompson

## WHITBECK'S CORNERS

Mr. and Mrs. Emory Hix returned home last week, after spending the just five months at Drumright, Okla.

The Helping Hand Society is planning to hold a picnic in Benton Park, the first Wednesday in August.

Donald Schille spent several days last week at the home of his uncle, Gerald Hix, in Perrinville.

Mr. and Mrs. A. C. Procknow were Sunday guests of the latter's sister, M. and Mrs. Wm. Green, at West Flint.

C. A. Parrish and son, of Ypsilanti, and J. Frank Parrish of Perrinville, called on their mother, Mrs. Parrish, this week.

Mrs. Joseph Beck and children of Chelsea, visited her sister and family, Mr. and Mrs. Walter Dehloff, over the week-end.

## FOR SAFETY IN SWIMMING

If you are able to do any swimming this summer—and what able-bodied American isn't?—it might be a good thing for you to give a little thought to the remarks of Health Commissioner Shirley Wynne of New York, about the dangers of swimming.

Examining the nation's statistics on swimming fatalities, the commissioner discovers that more than 8,000 Americans were drowned at bathing beaches and swimming holes last summer. Oddly enough, most of the victims could swim.

The use of ordinary care and common sense is recommended by Commissioner Wynne as the best way of cutting down this toll.

"One must learn how long he can remain in the water without becoming chilled, how many times he can dive and how far he can swim without becoming exhausted," says the commissioner. "Exhaustion at any time is dangerous."

"Everyone should know how to swim. If you do not know how, learn now. It is not enough to know how to swim a few strokes. One must be able to swim a good distance without becoming unduly fatigued, and every person also should be able to swim a few minutes while fully clothed."

"Absolute self-control is necessary when one is in the water. If one loses that self-control, a single convulsive breath may mean death. When water touches the opening of the windpipe it may cause a spasm of that pipe and a drawing of water into the lungs."

"If you are in danger of drowning, try not to struggle. Turn on your back, kick with your legs and float until you become quiet and have regained self-control. Persons subject to fainting or epilepsy should never enter the water; those suffering with kidney or heart disease or high blood pressure should enter the water solely on the advice of their physicians."

Those suggestions are not hard to remember. Properly heeded, they could save many lives.

Time has changed that old motto that used to hang in Plymouth homes to read: "What Is Home Without a Motor Car?"

If the most-itching fad ever does become general it's going to be a big thing for the safety razor makers.

It takes 1,500 metal nuts to hold a ear together but one human nut can scatter it all over town.

Dad Plymouth declares he'll never believe the end of the world is near until he sees some woman go to a bargain sale with a \$5 bill and return home without having had it broken.

Dad Plymouth says if you think education will increase your earning power, look around you and see what school teachers get as salaries.

## PROBATE NOTICE

No. 151890  
STATE OF MICHIGAN, County of Wayne, ss.

At a session of the Probate Court for said County of Wayne, held at the Probate Court Room in the City of Detroit, on the twenty-second day of July in the year one thousand nine hundred and twenty-nine.

Present, ERVIN R. PALMER, Judge of Probate.

In the Matter of the Estate of HARRIET EMMA HARTSOUGH, deceased.

On reading and filing the petition of Palmer Hartsough praying that administration with the will annexed of said estate be granted to the Plymouth United Savings Bank, or some suitable person.

It is ordered, That the twenty-first day of August, next at ten o'clock in the forenoon at said Court Room be appointed for hearing said petition.

And it is further Ordered, That a copy of this order be published three successive weeks previous to said time of hearing, in the Plymouth Mail, a newspaper printed and circulating in said County of Wayne.

ERVIN R. PALMER, Judge of Probate  
Theodore J. Brown, Deputy Probate Register.

(A true copy)

knife. Owner can have same by call-  
ing at park, describing it and paying  
for this ad. 1c

Will the party who wrote to the  
postmaster at Tyrone, Pa., enquiring  
about several people who lived there  
and at Shuking Valley, Pa., about 1895,  
call at the Plymouth Postoffice?  
B. E. GILES, Postmaster. 1c

## An Invitation

While spending my vacation in  
Plymouth, I will have some time to  
play tennis. The game here is quite  
popular, and the two cement courts  
are very much crowded. There are  
at least 250 tennis rackets in the  
town, and there will soon be a need  
for three or four more tennis courts.  
Tennis courts are easily made here be-  
cause we have the natural clay.

Would like to meet all the tennis  
players of Plymouth, Saturday evening  
at the High School courts, at 5:30.  
There will be room for any new ideas  
for the improvement of our present  
courts, and the building of new ones.  
Ralph W. Crossley.

Tennis coach and Court Building.  
Formerly of Suburban Club Balto and  
Bar Harbor, Me.

Dad Plymouth says he has noticed  
that fluctuations in the price of wheat  
never seems to affect the high price of  
wild oats.

"The only drawback about widening  
all roads to 40 feet," says Dad Plym-  
outh, "is that it would mean changing  
the buses to about 38 feet."

The next war, they say, will be  
fought in the air. But, thank good-  
ness, cooties can't fly.

## AMERICANS EAT 35 POUNDS OF SUGAR MORE THAN 1910

Sweets Can Add Energy if Wisely  
Used, But Excess Is Danger-  
ous, Says Expert.

New York.—Americans today are  
consuming more than 115 pounds of  
sugar per capita each year, or 35  
pounds a year more than in 1910. What  
is that added 35 pounds doing to  
American health?

The rise of pro-sugar and anti-sugar  
diet faddlers over the country has  
led Dr. Walter H. Eddy, widely  
known dietary expert of Columbia uni-  
versity, to offer a comprehensive an-  
swer to that question in the Good  
Housekeeping Magazine.

"Harmful effects of sugar are trace-  
able to excesses in its use, rather than  
any harm in the sugar itself, which is  
an essential food," he points out, add-  
ing that the excess may be represented  
as often by the sugar used as fuel  
as by the amount consumed. The av-  
erage healthy adult can consume three  
to four ounces a day without diffi-  
culty or ill effects, it is estimated.

The amount consumed by any in-  
dividual depends largely, however, on  
the individual's degree of physical ac-  
tivity, Doctor Eddy points out.

For example, since sugar is a fuel,  
a boy who spends several hours a day  
in strenuous outdoor games can con-  
sume more than the average amount  
and find it advantageous, since it  
adds to his energy. His sister who  
spends the afternoon curled up with  
a book will quickly grow fat and slow  
to mind and body if she tried to eat  
the same amount of sugar in candy  
form. The same comparison applies  
to the office worker, who spends his  
days at his desk, and the laborer  
whose body is being exercised through  
the day.

Candy itself may supply needed en-  
ergy at times. With athletes, if eaten  
soon before a contest, it adds fuel to  
supply bodily power, it is found. But  
if eaten before meals the result is  
discomforting because the chemical  
action of the sugar has retarded the  
flow of gastric juices.

"Suppose we dump a lot of sugar  
into the stomach just before dinner,"  
says the Good Housekeeping article.  
"In the first place it tends to destroy  
our appetite for less strongly flavored  
food. If we sit down to dinner and  
consume our beefsteak, the steak  
finds no gastric juice to digest it. It  
has to remain there until the sugar is  
digested and the acid begins to flow,  
or it is sent on only partly digested.  
You see then the wisdom in placing  
desserts at the end of the meal."

Doctor Eddy disputes the claim that  
candy causes tooth decay. "Sugar is  
a good germ food, but it is hard to  
see how much of it could remain in  
the crevices of the teeth, since it is  
readily soluble in saliva and hence  
would be steadily diluted," he points  
out.

**Feminist Move Finds  
Small Favor in Tunis**

Tunis, North Africa.—When Arab  
meets Arab amidst the picturesque  
white-washed houses of Tunisia, the  
pair may talk about everything under  
the eternally blazing sun except their  
wives. It is against etiquette, for so-  
cially, Arabian women do not exist.  
"How's your father?" the Arab may  
say, but never "How's your wife?"  
Feminine emancipation has made no  
advance here in Tunisia, where the  
woman folk rank as vassals or domes-  
tics. They look with veiled but en-  
vious eyes toward their sisters of Is-  
lam under the modern rule of Kemal  
Pasha in Turkey, whose order that all  
women go unveiled is regarded as  
proof by the older generations here.  
There have been many attempts in  
recent years to bring Tunisian women  
into line with their more modern  
neighbors, but always the ingrained  
religious conservatism of the coun-  
try resisted the suggestion.

**The Age Worry**

To worry because you are getting  
old is to make yourself older in looks,  
mind, and body than you really are.  
Forget your age; keep young in spirit,  
and you'll look and feel young.

**Lengthy Air Line**

From the extreme south point of  
Texas, due north to the boundary of  
the United States, the air line is about  
1,600 miles.

**Uncle Eben**

"Tain' no use to find fault," said  
Uncle Eben, "unless you's got some  
way to get rid of it."—Washington  
Star.

## ASIA JOINS IN BEAUTY PARADE

American Exports of Toilet  
Preparations Show  
Big Increase.

Washington.—"Thou shalt find thy  
happiness on earth through prayer,  
love and perfume."  
Thus commands the Koran to all  
true believers.

Cosmetic concerns of Christian  
countries, including the United  
States, are devoutly eager to have  
Muslims fulfill the exhortation as it  
relates to perfumes and, of course,  
use their products. Super-salesmen,  
samples, advertising, pretty pack-  
ages—all the tricks of western trade  
line up back of the Mohammedan  
Bible, the Koran.

"Discrimination in favor of Mus-  
lems, however, is not countenanced.  
All the women of all the races and  
religions of Asia are welcomed to  
join the beauty parade," says a bul-  
letin from the Washington headquar-  
ters of the National Geographic so-  
ciety.

**Cosmetics Export Increases.**

"The United States gets its share  
of the business. American exports of  
perfumes and toilet preparations have  
risen in value to \$3,850,000 per year.  
This represents an increase of 1,000  
per cent over 1910 exports. After  
Europe, Asia is our next best cus-  
tomer.

"Although dental creams, face pow-  
der and rouge bulk large in Ameri-  
can cosmetic exports to the Far East,  
beautification in the Orient is by no  
means limited to a spray-the-face-and-  
you-save-all campaign. The Philip-  
pine Islands, for example, are the  
United States' second best customer  
for toilet soap, third best for per-  
fume, and second best as buyers of  
talcum and other powders.

"The 'secrets of make-up' are most-  
ly familiar facts of history to Chinese  
women. The famous beauties of  
Cathay employed many of the mod-  
ern 'Ye Beauty Shopper' arts. They  
used the eyebrow pencil, rouge, face  
cream and hair oil, with such skill  
that their charms caused the moon  
to hide its face and the very flow-  
ers to feel shame! That was in the  
days when a British woman's idea  
of cosmetics was a head-to-foot of  
blue clay paint.

**Ousts Charred Twig.**

"Chinese women welcome better  
beauty toils. They have given up  
the charred willow twig of Ming main-  
tenance for the modern eyebrow pencil,  
rejected the silk rouge pad for the  
modern compact, banished sheep tal-  
low creams for improved cold and  
vanishing creams, and turned from  
musk and sandalwood to more deli-  
cate perfumes (although the oriental  
countries prefer much stronger per-  
fumes than please the occidental na-  
tions). Unlike many other oriental  
states China now supplies its cos-  
metic trade chiefly by home manufac-  
ture.

"Trade in certain cosmetic products  
is dominated (with exceptions) by  
different western countries selling in  
the Far East. French eau-de-cologne  
and higher priced perfumes usually  
rule those particular roosts. British  
and German cheap perfumes, and  
British face creams and toilet soaps  
make large sales. The United States,  
probably by virtue of the world-wide  
respect for its dentists and dental  
schools, commands the dentifrice  
market. Its powder compacts also en-  
joy wide sales."

**London Cocktail Club  
Sells Unusual Volumes**

London.—"Sliggs" is a funny name  
for a funny place. It is London's new  
bookselling, cocktail, sandwich club.  
And the books are not ordinary! The  
two popular books are "What Men  
Know About Women" by F. E. Male,  
and "What Women Know About  
Men" by Male. Neither book, by the  
way, has any reading matter, the buy-  
ers help free to inscribe their own  
views on the blank pages.

**Infant Prodigy Wins  
Fame as Violinist at 3**

Boston.—Little Elsa Tokman, who  
isn't yet three years old, already has  
established a neighborhood reputa-  
tion as a violinist. Her father, Lewis  
Tokman, former violinist in the Bos-  
ton Symphony orchestra, hopes that  
some day she will make a name for  
herself like her cousin, Jascha Hel-  
fer.

## Reddaway-Eastlake

Miss Florence Eastlake, daughter of  
Mr. and Mrs. Stuart Eastlake of De-  
troit, and John W. Reddaway, son of  
Mr. and Mrs. David Reddaway of De-  
troit, were united in marriage by Rev.  
Ballinger in the Stanton Park Bap-  
tist church at 11:00 o'clock, July 22.

The bride was lovely, dressed in blue  
georgette with hat to match, and car-  
rying a bouquet of yellow roses. The  
groom wore a tuxedo. The bride's  
matron of honor, Mrs. E. J. Drew,  
young of this place, sister of the bride,  
wore rose and tan georgette with hat  
to match. E. J. Drew's young was best  
man.

Immediately following the wedding  
breakfast given at the Mansion, near  
Jefferson avenue, the couple left on a  
ten-day trip to Niagara Falls and  
Wheeling, West Virginia. On their  
return, they will make their home on  
East Ferry Ave., Detroit.

The regular fair display of livestock,  
fruits, field crops, vegetables, ladies'  
handwork, school work, etc., will be  
large and may be seen both day and  
night during the four days of the fair.

The night fair will present the whole  
series of free acts, band concert, and  
as a special attraction, a historical  
pageant. The pageant, rehearsals for  
which are actively under way, will  
require about 300 people for its pro-  
duction and groups and individuals  
from all over the county will have  
prominent parts.

The pageant, while called historical,  
and based on English county history,  
will specialize also in spectacular fea-  
tures and dances. A new stage, espe-  
cially for its production, is being erect-  
ed in front of the grand stand.

The pageant will be produced under  
direction of the John H. Rogers Pro-  
ducing Co. of Postoria, Ohio.

**Robinson Sub. Base  
Ball Team Win Again**

The Robinson Sub. indoor baseball  
team won another game on Wednes-  
day evening, when they crossed bats  
with the Daisley Mfg. Co. team. This  
was the first game played with the  
"Happy Daisley Boys" and it is hoped  
another game can be arranged with  
them in the near future.

Last Monday evening, the Ford  
Taps team won from the Robinson  
Sub. nine, 12 to 5, which makes two  
games they have lost out of twelve  
full games played.

Tonight, Friday, the R. S. team will  
play Todd's Nine at the high school  
diamond. The outcome of this game  
will be anticipated with considerable  
interest.

Monday, Wednesday and Friday of  
next week, games will be played with  
Dunn Steel, Ford Taps and either  
Todd's team or the Daisley boys.

**Oakland County  
Fair August 7-10**

The Oakland County fair, coming  
with the first among the long list of  
Michigan fairs is held this year on

August 7 to 10. In the entertainment  
line, the fair, a member of the Wolver-  
ine racing circuit, presents a four-day  
race program with four stake races  
and four class races for liberal purses;  
a three-day baseball tournament; a  
fine list of platform and aerial free  
acts; an automobile show, a dog show  
and a horse show.

The night fair will present the whole  
series of free acts, band concert, and  
as a special attraction, a historical  
pageant. The pageant, rehearsals for  
which are actively under way, will  
require about 300 people for its pro-  
duction and groups and individuals  
from all over the county will have  
prominent parts.

The pageant, while called historical,  
and based on English county history,  
will specialize also in spectacular fea-  
tures and dances. A new stage, espe-  
cially for its production, is being erect-  
ed in front of the grand stand.

The pageant will be produced under  
direction of the John H. Rogers Pro-  
ducing Co. of Postoria, Ohio.

The regular fair display of livestock,  
fruits, field crops, vegetables, ladies'  
handwork, school work, etc., will be  
large and may be seen both day and  
night during the four days of the fair.

# HOW SCHEMERS FLEECED PUBLIC

## Oil Tricks, Stopped by New Policy, Described by Interior Department.

Washington.—"What," asks the Department of Interior in a recent press memorandum, "is behind the 34,000 permits, involving millions of acres of land, issued to individuals and companies to prospect for oil and gas on the public domain since the general leasing law was passed by congress nine years ago? Why have these permits ripened into only fifty-six leases? Why have 15,000 permits, whose rights have already been canceled for noncompliance with the law, allowed their claims to lapse? And how will the new federal oil conservation policy curb the speculation in the potential oil lands of the country?"

"These," the bulletin continues, "are some of the questions that have caused the Department of the Interior to issue a statement describing the speculation in the public domain and the methods by which promoters have been able to turn the lure of oil to their own profit and to the disadvantage of the public in exploiting the national resources."

"Many letters are on file at the department which reveal the methods by which individuals have been imposed upon in the matter of these oil lands."

"I subscribed for twenty-five acres of oil land," wrote an enlisted man in the army, "to be filed on at \$2 per acre. I have already paid \$10 and will pay \$10 more this pay day. The land is supposed to be United States government land."

"Another correspondent who had begun to become suspicious of an oil development scheme wrote:

"What steps would I take to get my money back? My wife and I have paid in \$120 and we cannot lose it. As the association claimed the government had granted it the permit to develop, I cannot see why the government is not liable to be obliged to refund the money. As it has been some time since the filing, possibly the association has begun operations, and if so all is well. However, I can get no communication from them."

### Explains Permit.

"An oil and gas application is the holder's claim to the right to prospect on 2.50 acres of public land. This is filed in the local land office with a description of the land. A permit is his right to prospect which grows out of the application. The law requires that drilling be done progressively within time limits. Upon discovery of oil, the permittee is entitled to a lease, paying the government a royalty on all oil produced."

"It is admitted that many permits have been acquired by legitimate developers and the government has received millions of dollars in royalty from their efforts. No censure is attached to them. But upon the passage of the general leasing act, thousands of applications for prospecting permits were filed for land in so-called 'wildcat' territory, which, by the way, is land that has no visible evidence of containing oil and gas."

"These applications were filed in many instances without geological examination and by individuals without financial means of complying with the drilling requirements of the law. They had no special reason to believe that oil was present. Actual development, obviously, was not their purpose. Apparently, the hope was to obtain permits and hold them until some one had tested land for oil and gas in the vicinity, which would enable them to sell out at a large profit or secure a royalty on any oil that might be produced on their own area by others."

"When these permits were canceled for lack of development work, the lands would be filed upon again. Upon the failure of the second permittee to do the necessary prospecting work to hold the land, a third crop of applications might be filed, thus holding the land indefinitely without development."

"In the early days, when permits were canceled, the land became subject to another filing by the first qualified applicant at the district land office. The practice was criticized because certain people might obtain advance information as to when the permit was to be canceled and thus have an advantage over others. Later, the General Land Office allowed all interested parties to file on a canceled area, awarding the land to the individual whose number was first drawn."

"To take advantage of this situation interested persons or companies obtained the applications of hundreds of people whom they could control. It was like buying a multitude of chances in a lottery. The greater the number of controlled applicants at the time of drawing the better would be the chances of an individual or company getting the land. In one drawing there were 7,000 applications filed for a single tract of land—another evidence of pure speculation on behalf of the applicants. To circumvent this a \$10 filing fee was required of each applicant at drawings in recent years, which materially reduced the number. Efforts to Safeguard the Public. "That the general leasing law has been used by many unscrupulous persons and associations for their

The good hotels now have everything to make you feel at home except a door that won't stay fastened and a window that rattles all night.

A bride can spend a whole day worrying over what they'll name the baby in case they have one.

There wasn't any high-cost-of-living problem before the luxuries of yesterday became the necessities of today.

own special benefit and to the detriment of those induced to enter into their schemes has long been apparent to the Department of the Interior, and every means possible has been taken to safeguard the public. Some of the schemes violate the general laws against fraud rather than the public land laws. They may involve an improper use of the mails and so need to be prosecuted by the Post Office Department. They are carefully watched by the authorities who enforce the various state and federal laws with which they come into conflict.

"A correspondent who is a mining engineer and geologist wrote the department as follows:

"I found that every available acre of public land which was within ten miles had been tied up with permits overlapping one another so that in places they were two or three deep and over lands that had been taken as grazing homesteads or the mineral rights withheld. The parties who had obtained the permits were boomers, men without any knowledge or experience in oil structures or lands, without any money or backing or standing to obtain any and whose sole object was to get one to try it out for a little cash and agreement to get a share of the royalties. They would hold the permits as long as they could and then come back for renewal without even so much as digging a five-foot hole on them."

"In one instance an attorney prepared applications in blank or had them signed by people scattered through several states and forwarded to him. He held them until such time as he could discover from the district land office records lands which were subject to filing and then inserted the description of the land in the application. If the application had been executed some time in advance the date would be changed so as to conform more nearly to the time of the filing of the application. Usually these applications were accompanied by a power of attorney given to him by the applicant. In each instance the attorney would retain for himself a certain royalty interest and the holder of the application would have little to say as to the operations under the application or permit. Thus one man might control thousands of acres embraced in the applications and permits. The purpose of the law, that of giving individual citizens a chance to acquire valuable land, was thus interfered with."

### "Interest" in Associations.

"Another group of persons advertised extensively that government oil land might be had at a nominal cost, that every citizen had a right to claim his share, and that promoters would show the way to great profits through these rights. They cited outstanding successes of others on government land. They proposed to organize associations, which they induced hundreds of people throughout the United States to join. Interest in these associations were sold for \$2 an acre, not more than 100 acres going to any one person. They advertised that the interest holders would have nothing to do except to draw the royalties when oil was discovered, the backers of the association attending to all the details looking toward compliance with the terms of the permit."

"The filing of an oil and gas application for permit for 2,500 acres cost \$12 in fees. The association under this scheme would thus make a profit of \$3,000 on each application filed. The evidence is that these associations have done little more than file the applications. Their purpose, evidently, has not been oil development. The investors in their associations have taken long chances of getting any return on their investments, even where the associations have carried on development work, for all such applications have been filed on lands within strictly wildcat territory."

"The exploitation of the public through these permits to prospect will be automatically stopped by the application of President Hoover's oil conservation policy. Under that policy permits to prospect are not to be granted. Since they are not to be granted promoters will not be able to profit because of any alleged prospects of wealth that might lie in them. One element of speculation that is likely to be a part of the development of oil and mining areas will have been removed."

### Woman Works at Art of Hand Brickmaking

London.—Mrs. Beattie Gibbs of Crossways Farm, Ingham, is said to be the only woman in England working at the art of hand brickmaking. Her brickyard, which she inherited from her husband after his death a few years ago, has an output of 500,000 bricks a year.

She takes samples of her work around in an automobile to builders and architects.

### 940 Millionaires

Now in Sweden Stockholm—Sweden has now 940 millionaires (in crowns), 748 men and 192 women, according to latest government statistics. The majority of these, or 195, are found in the class of the landed gentry who have made their money on forestry, agriculture, real estate deals, etc. But a Swedish millionaire would have only \$250,000 in the United States.

Some of the happiest homes in Plymouth are ones where they always forget to put on the butter-knife unless there is company.

Now that the census bill has been signed, the girls can go right ahead and fix up their ages.

The farmers of this country have a daylight-saving system of their own. They save all of it.

# Municipal Notes

BY THE MANAGER

Work has been completed upon head walls, steps, etc., which had to be installed for the protection of several pieces of property upon North Mill street, following the 1928 paving program. The completion of this work again leaves this portion of Mill street in presentable condition.

Work is now in progress at the intersection of Theodore St. and North Main St., where a standard intersection is being constructed to replace an approach and crosswalk, which have long since been broken down by traffic.

This improvement should be completed within a few days.

Taxes collected to date exceed by approximately one-third, the collections of last year, for the same period. This would seem to indicate somewhat greater local prosperity this year than last.

Painters have just completed redecorating the general village offices at the Village Hall. The surroundings are much brighter and more cheerful as a result of the new buff and tan color effect.

## DEATH OF MRS. LENA SMITH

Mrs. Lena Smith, widow of the late Henry Smith, died at her home near

Cherry Hill, Wednesday, July 24th. She leaves to mourn their loss, one son, Fred, and two daughters, Mrs. Mabel Murdock and Florence Smith.

Funeral services will be held from her late home, this Friday, afternoon at 2:00 o'clock. Interment will take place at Glenwood cemetery at Wayne.

# NEW HORSE SHOW TRACK TO BE BUILT

DIRECTORS OF FAIR ALSO VOTE TO MOVE BALL GROUNDS.

Through the generous offer of Phil Grennan and William Maybury, the Northville Wayne County Fair Association at a meeting Tuesday night voted to make numerous changes in the interior of the track and authorized President Nelson Schrader, William H. Maybury and Secretary North to direct the extensive improvements that are to be made immediately.

The baseball diamond will be relocated and entirely rebuilt, the field for the ball players to be as flat as any of the national league diamonds. The ball ground will be placed to the southwest of the grandstand, and a new track built for the horse show to the east of the grandstand.

Mr. Grennan's liberal offer of assistance is accompanied with a quality-

ing clause that the association must take out all the old fences, remove all unnecessary posts and conduct a sort of general "clean-up" campaign within the track circle.

Harry Clark, who has direct charge of the horse show and who has been in conference with Mr. Grennan pertaining to these improvements, was requested to assist the president of the association and Mr. Maybury in the work that is to be done in the central part of the fair grounds.

There has been considerable work done of a nature that is not yet ready for publication, but it can be safely stated that never in the history of the association in any one year has there been so much improvement work done at the fair grounds as so far this summer. The work has barely been started.

Officials and directors of the association let it be known at the meeting Tuesday night that they were indeed appreciative of the interest being taken in the fair and its future by such men as Mr. Maybury and Mr. Grennan. Mr. Maybury has been giving a large amount of his time since early in the spring to the direction of much of the work at the fair grounds, and Mr. Grennan has shown exceptional

interest in the development of a track and grounds for the horse which has in the last couple of years come to be one of the big features of the fair.

When the new track for the horse show, which will lie just to the east of the grandstand, is completed there will be nothing better in the state.

Workmen in the next two or three days will start taking down the old posts, fences and other objects that have to a certain extent marred the view of the interior field.

Another move that is to be made that will please the thousands of people will be the removal of the judge's stand to a position a trifle lower and on the north side of the track. While it has not been fully decided, there is a possibility that the covering for the judge's stand will be of canvas, so that in clear weather it can be removed, giving a clear view of the entire track and inside field from the judge's stand.

Never in the history of the association have such elaborate plans been considered for the fair as this year, and if early predictions are at all safe, it can be said now that weather permitting, there will doubtless be a record breaking attendance this year. —Northville Record.

## LAST WEEK OF Boyer's ANNIVERSARY SPECIALS

We are continuing our Anniversary Specials for one more week. The demand for last week's specials was so great that we feel many of our customers were not properly taken care of, so to give everyone a break we have taken the most reasonable items and slashed our regular cut price to the bone.

**REMEMBER THIS!—We are giving you "standard, nationally advertised merchandise," all backed by our guarantee: "Your Money Back With a Smile if You're Not Satisfied."**

# Westminster Abbey Mausoleum

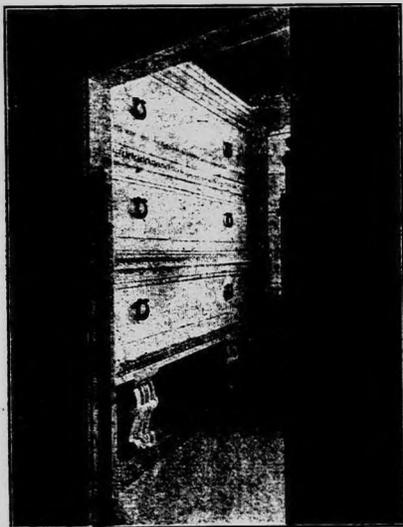

To Serve Detroit's Metropolitan Area  
and Environs

Of Special Interest to The Citizens of Plymouth  
Situated in Grand Oakland Memorial Park

## TWELVE MILE and WALLED LAKE ROADS

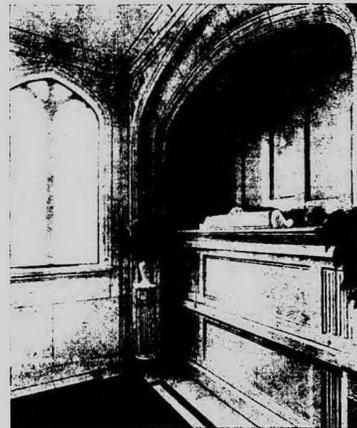

On one of its highest and most beautiful elevations, embracing a magnificent view of the surrounding country. This site has been pronounced by experienced mausoleum architects and contractors to be one of the finest in the country. A visit to the locality and a drive through the Park, which is being rapidly developed and landscaped by the nationally known Greening Nursery Company of Monroe, Michigan, will convince you that Grand Oakland Memorial Park and Westminster Abbey Mausoleum will constitute one of the world's greatest necropolises.

## Construction of Westminster Abbey Mausoleum

Entrance to one of the Crypts

One of the Family Alcoves

is now under way. The construction contract calls for a surety bond in an amount sufficient to guarantee the completion of the building in accordance with plans and specifications on file with the trust company trustee.

This beautiful place of sacred memories will fully and completely meet the requirements of those persons of fine feelings and sensibilities who abhor below ground burial. We have presented a plan that one can consider with clarity, openness, breadth and thoughtfulness the same as any other sensible provision.

There can be no question but that mausoleum entombment holds for the living more of comfort and less of bereavement than any other provision that can be made. It gives the sense, not of hiding away or losing, but of providing a home—a last resting place that is beautiful, comfortable and eternally secure.

Westminster Abbey will be just as beautiful and permanent as money, art and science can build. A few desirable memorial rooms and crypts remain. The cost need be no more than earth burial.

**Local News**

Dr. B. I. Johnstone of the Ford hospital, wife and son were guests at the home of H. A. Smith last week Wednesday.

Mrs. Wm. Rattenbury and son, Lawrence, have started on a two weeks' trip through Montreal, Quebec and on to the New England States.

William D. McCullough and brother-in-law, John Herrick of Salem, left the first of the week for a two weeks' camping trip in northern Michigan.

Two men escaped from the House of Correction farm at 2:00 o'clock last Sunday afternoon. At the time of our going to press, the men had not yet been apprehended.

Mrs. C. H. Bennett and Miss Pauline Peck were hostesses to eighty of their friends at a beautifully appointed bridge luncheon at the Detroit Boat Club, Belle Isle, Wednesday.

Mr. and Mrs. Elmer C. Huston and Mrs. O. M. Ballard of Birmingham, and Mrs. C. W. Gill and Mr. and Mrs. Albert Logan of Ann Arbor, were dinner guests of Mr. and Mrs. Austin Whipple, at their home on Penniman avenue, Thursday evening.

Mr. and Mrs. George F. Whaley of 1298 Sheridan avenue, entertained at a dinner party at the Hotel Mayflower last Sunday afternoon. Out of town guests were Mr. and Mrs. Leo VonDette of Saginaw, and Mr. and Mrs. Lynton Whaley and son, Junior, of Detroit.

Relics of Washtenaw County's early history have been transferred to the University of Michigan Museum building through the efforts of the recently reorganized Historical Society. Dr. Carl Guthe has directed the transfer. The exhibits include many odd things familiar to early days in the county such as wooden water pipes, ox cart wheels, harpsichord, spinning wheels, a banner carried in a parade in 1875, a brass bound chest, bundles of newspapers, and saddle bags.

Mrs. O. W. Showers and son, Noel, spent Sunday at Three Rivers.

Miss Jane Shontz has taken a position in Perry Richwine's law office.

Harold Brown, son of Mr. and Mrs. Richard Brown, has gone to Camp Custer.

Mr. and Mrs. Charles Carmichael are spending the week in Buffalo, N. Y., with friends.

Mr. and Mrs. Harry Wiseman spent last Saturday evening with the former's sister in Detroit.

Miss Marian Nichol of Detroit, is spending the week with her cousin, Lyle Schaufele of South Main street.

Mrs. Douglas Tracy's sister from Winnipeg, Manitoba, who has been visiting her, has returned to her home.

Miss Virginia Kincaid, who spent a few days with her mother, Mrs. Ethel Kincaid at Ann Arbor, has returned home.

Mr. and Mrs. Paul Becker and children of near Northville, were Sunday guests of Mr. and Mrs. Merle Rosenbacher.

Lyle Alexander has sold a building lot in the Nash subdivision, to Ralph Bulmon of Newburg. G. A. Bakewell, realtor, negotiated the deal.

Mr. and Mrs. Lloyd Fillmore and son, Wellman, are leaving today to visit relatives and also attend the Fillmore reunion at Coldwater.

The Mission Study class will meet at the home of Lloyd Williams, Tuesday, July 30th, for a pot-luck supper. Please bring your own dishes.

Miss Ruth Wilkin arrived home Sunday, from Harbor Springs. While there, she attended the Michigan Cherry Festival at Traverse City.

Mr. and Mrs. George Miller of East Plymouth, and Mr. and Mrs. C. V. Chambers of this place, spent Sunday afternoon at Flat Rock and Carleton.

Mrs. Grace Cook underwent an operation for gonorrhea, Monday morning, at Harper hospital. She is getting along as well as can be expected at this writing.

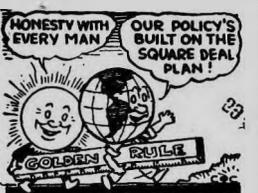

Mr. and Mrs. Claude Showers and two sons, Max and Lyle, and niece, Shirley Freeland of Dowagiac, are spending the week with the former's father, O. W. Showers and family.

Mr. and Mrs. E. A. Gulliph and son, Errol of Newark, Ohio, spent their vacation north of the Straits, and on their return, spent over Sunday with Mr. and Mrs. A. C. Rodman of Blanche street.

Mrs. Edith Crowley of Scranton, Pa.; Mrs. Mabel Green of Ononota, New York, and Mr. and Mrs. L. G. Vanvle and Miss Becky Rosen of Detroit, were guests of Mrs. Josephine Fish, Tuesday.

Mr. and Mrs. B. J. Holcomb of Chicago, were week-end guests of relatives here. Mr. Holcomb has just completed his work as director of the Daily Vacation Bible School of the Ottawa Street M. E. church at Juliet Hill.

Mrs. Frank Westfall and sons, Glenn and Alton, and friends from Wyandotte and Niagara Falls, toured through Canada, including Quebec, and also to Buffalo and New York City. They visited many points of interest, and were gone about two weeks.

Cards have been received announcing the marriage of Miss Sarah Louise Springer, daughter of Mr. and Mrs. Stanley Thompson Springer, to James Prather Steinbauer, on Saturday, July 20, at Sault Ste. Marie, Mich. The couple will be at home to their friends after September first, Meridian, Miss.

Mr. and Mrs. H. A. Sage left Thursday for a two week's visit with friends in New York and Washington, D. C.

Mrs. Sherrill Ambler of Northville, entertained Wednesday afternoon, at a linen shower in honor of her sister, Miss Gertrude Kenyon of this village, whose marriage to Clifford Cline has been announced to take place soon. Covers were laid for twelve young ladies from Northville and Plymouth.

HONOR DETROIT VISITORS Mrs. J. W. McAllister entertained at dinner at her home in East Brainerd, Tenn., to honor Mr. and Mrs. Kenneth Wilson and Mrs. Charles Missud and Miss Lillian Williams, all of Detroit, Mich.

The dining table held a central arrangement of dahlias in the colors, yellow and red. Covers were placed for twelve close friends. Mrs. Wilson and Mrs. Missud will be remembered here as Misses Mary Alice and Grace Phillips.

Misses Cecil and Esther Hewitt entertained at a theatre party on Thursday afternoon to honor Mrs. Wilson and Mrs. Missud and Miss Williams. Following the show at the Tivoli, luncheon was enjoyed at the Palace. The guests numbered eleven.

Longest Concrete Bridge The bridge crossing the Seine at St. Pierre du Vaucray, France, is built of concrete. From end to end the span is 432 feet—the longest bridge of the kind in the world.

Walls of Water to Guard Bank Vaults Tokyo.—The Bank of Japan is planning a new building approximately three times the size of the present structure at a cost of 25,000,000 yen. Work will be started in June and completed in seven years. The present building will remain as an annex.

The new building will be five stories high. Plans of the architect, Ubei Nagano, call for the diverting of water from one of Tokyo's canals to surround and protect the bank vaults in case of fire. The architect declares it will be possible to turn the water on at a moment's notice.

Six-Foot-Ten Scot Picks Canadian Fruit Winnipeg.—Andrew Kelina, hap of Les Mathawgow, Scotland, height six feet ten and a half inches, is not the tallest man in Scotland but nearly the shortest brother of a family of six. Too shy to vote for himself, he somehow got the prize for being Scotland's tallest, and arrived as such in Winnipeg along with hundreds of other future Canadians. The long Scot found himself adapted to fruit picking and chose to use his natural ability in Canada as a start toward the prosperity he has heard so much about.

DIAGNOSIS OF "TB" NOW SURE

Tuberculin, Used in Test, Has Been Reduced to Absolute Purity.

Atlantic City.—Two great scientific advances of far-reaching consequences in the diagnosis and treatment of tuberculosis were disclosed in reports rendered to the National Tuberculosis association in annual session here. Tuberculin, the substance used in the test for detecting tuberculosis in human beings as well as cattle, has been reduced to absolute purity, something heretofore never achieved, so that it can be supplied wholly free from other substances which have affected the accuracy of these tests in the past. The details of these tests were described by Dr. Esmond R. Long and Dr. Florence B. Seibert, of the University of Chicago. The second research achievement consists of the production of a wholly new mechanism for testing the individual for the presence of tuberculosis, which is expected to render the detection of this disease possible within three or four days of infection instead of an average of two months afterward, as is present the case. This was disclosed in reports submitted by Drs. Florence R. Sabin, C. A. Doun and C. E. Forkner of the Rockefeller Institute for Medical Research. Both these scientific groups conducted their studies in co-operation with the medical research committee of the National Tuberculosis association of which Dr. William Charles White of Washington, is chairman.

Makes Diagnosis Exact.

Diagnosis of tuberculosis will become much more exact by reason of the perfection of tuberculin to crystalline purity, according to scientific authorities in attendance at the meeting. Particularly in the examination of children suspected of infection will the new tuberculin be of great value, for heretofore it has not been certain, in the individual case, that a positive reaction was not caused by one of the various impurities which were known to exist in the tuberculin used. The skin test has always probably been complicated by elements in the test fluid other than those which indicate the disease. It will also affect directly the testing of cattle, and reduce the number of animals which are slaughtered because they react positively to tuberculin and yet show no signs of tuberculosis.

Research work is to be continued by Doctors Long and Seibert of the University of Chicago to discover to what extent the avian type of the disease in chickens and the bovine type in cattle may be the cause of the human disease. Authorities state that the work already done in eliminating foreign elements from tuberculin will affect the diagnosis of other bacterial diseases in a similar manner, rendering methods much more accurate and dependable.

The new test devised for the earlier diagnosis of tuberculosis by members of the Rockefeller institute utilizes a small quantity of the blood of the patient. The red corpuscles are removed and the remaining serum diluted and placed in a test tube containing one of the fatty fractions of the tuberculosis germ, known as phosphatide. If the patient has tuberculosis there will be a precipitate, but if the disease is not present, nothing at all will occur. This new test will also be of use in distinguishing between cases of meningitis which are tuberculosis and those which are not, something which science has heretofore been unable to do early in the disease and accurately.

Result of Long Study. In commenting on these two achievements, Dr. Kendall Emerson, managing director of the National Tuberculosis association, stated that these definite and significant results are the reward of seven years' work by the scientists engaged in various related realms of research. This particular branch of research has been directed under a system of counselors drawn from leading scientific men of the country. From time to time these men have held meetings, listened to reports of progress by different workers in allied fields, and as a "jury of scientific peers" have assisted the plan of attack on problems, advising lines of effort to be pursued.

The "chemical jury" of the research committee which established the base line for these studies, includes: Dr. Paul A. Lewis, Rockefeller Institute; Dr. Allen K. Kramase, Johns Hopkins hospital; Dr. Esmond R. Long, University of Chicago; Drs. Eugene L. Ople, H. R. M. Landis and Charles J. Hatfield, Henry Phipps Institute; Prof. Treat B. Johnson, Yale University; Prof. Hans Zinsser, Harvard Medical school; Prof. John J. Abel, Johns Hopkins Medical school; Prof. A. N. Richards, University of Pennsylvania; Dr. Linsly R. Williams, National Tuberculosis association; Dr. William Charles White, Washington.

Hen Pays Passage Fulton, Mo.—In defiance of postal laws prohibiting companions for rural mail carriers on their rounds, a "stow-away" hen was found by Curtis Overstreet, a carrier out of Fulton. Hearing a cackle, Overstreet found the hen had paid for its passage with an egg, newly laid under the seat.

A California editor was held up and robbed of \$7. But anyone who robs an editor of \$7 isn't a highwayman—he's a magician.

And another thing to be said for our Plymouth girls, they are quick to determine when there are intentions back of attentions.

DE-HO-CO LOSES TWO; SALEM WINS TWO; MERCHANTS LOSE

Farmers Given "Run" By Flint Majors. Nethem Defeats Burger Creamery 8-7; Salem Trounces Scio and Walled Lake.

The representatives of De-Ho-Co journeyed to Flint over Saturday and Sunday, and lost two games to the Buick Majors of that city.

The Buicks took a decided liking to the De-Ho-Co brand of hurling, and pounded out twenty-nine safeties during the two games.

The De-Ho-Co-ites were not idle with their bats either, getting twelve hits in each encounter, but they couldn't bunch them as well as did their opponents, hence the results.

In the first game the Buicks started right out to win by scoring two runs in the second inning, to overcome the one scored by De-Ho-Co in the opening stanza.

The second encounter looked very much like De-Ho-Co's game until Hartner blew up in the eighth. The end of the sixth inning found the teams tied at three runs.

strong in the first of the eighth and scored three, giving them a two run lead. Then came that fatal eighth inning rally, three successive singles and a base on balls sent Mr. Hartner to the showers, and Rowland to the mound.

Next Sunday the De-Ho-Co-ites will again be in action on their home stamping ground, when the American Oil Co. of Lansing, pays a visit to De-Ho-Co Park.

Following is the box score of the two games.

Table with columns AB H C E for De-Ho-Co and Buick Majors. De-Ho-Co: 1 0 0 0. Buick Majors: 5 2 3 0.

Table with columns AB H C E for De-Ho-Co and Buick Majors. De-Ho-Co: 1 0 0 0. Buick Majors: 0 2 0 1.

Table with columns AB H C E for De-Ho-Co and Buick Majors. De-Ho-Co: 4 1 6 0. Buick Majors: 4 2 1 0.

Table with columns AB H C E for Buick Majors. Buick Majors: 5 2 3 0.

## 1930 Buick Has New Body Lines

The 1930 Buick makes its debut this week on the showroom floors of approximately 4,000 dealers throughout the country and, according to factory officials at Flint, Michigan, this new creation will prove one of the outstanding sensations of the year in both performance and appearance.

The Buick line, as in former years, is divided into three series. The wheelbase and the horsepower of all models of the three series have been increased. The wheelbase of the six models of the 40 series has been increased from 116 to 118 inches and the engine has been stepped up to 90½ horsepower.

Wheelbase on the two models in the series 50 line is increased from 121 inches to 124 inches and on the six models of 60 series from 129 inches to 132 inches. Models in the 50 and 60 series have an engine which will develop 99 horsepower. All models in all series have an actual speed well up in the seventies.

In addition to lengthening the wheelbase, the car has been built lower. Body lines and contours have been refined, the shape of the radiator revised, the margin of the radiator shell diminished and thermo-

statically operated shutters added to the front. The result is a car of unusual beauty, fast lines and obvious comfort. The body bears the stamp of Fisher craftsmanship.

Many mechanical advances have been embodied in the 1930 Buick. A steering wheel road-shock eliminating device is one of them and this feature, coupled with a fully adjustable worm and roller type steering assembly, makes the new car singularly easy to steer and handle at high speeds on the open road and in slow moving heavy traffic.

Semi-elliptic springs and double acting shock absorbers are used, together with four wheel internal expansion controlled Servo brakes, redesigned transmission and clutch, improved rubber motor mountings and a wider and sturdier chassis frame. A sloping non-glare windshield is another advancement incorporated in the new Buick.

Performance tests, conducted over a period of several months at the General Motors Proving Ground, have demonstrated that its speed, hill climbing ability and riding comfort set a new all-around precedent in the field of automobile travel.

## Bell Telephone Co.

Advertising Michigan

Attention is being directed to Michigan as a vacation land, in a series of advertisements of the Michigan Bell Telephone Company, published in 250 newspapers and magazines of the state, according to Roy E. Crowe, the company's manager in this area. The first advertisement of the series, carrying an illustration of Detroit's skyline, appears in today's issue of this paper.

A great part of Michigan's annual tourist business is derived from visitors from other states, hundreds of Michigan residents being inclined to spend their vacations elsewhere. The purpose of the telephone company's vacation series of advertisements is to acquaint Michigan people with the beauty spots of their own state, and to induce them to take advantage of the vacationing opportunities close to home. It is the belief of the officials of the Michigan Bell Company, Mr. Crowe says, that this state has recreational possibilities far beyond those of any other region readily accessible to Michigan residents with the average two weeks' holiday period.

The second advertisement of the series will be devoted to picturesque and historic Mackinac Island and vicinity, the mecca of thousands of visitors annually. Others of the six advertisements will feature other sections that abound in scenic interest and that add to Michigan's fame as a natural playground. A series of similar advertisements was sponsored by the company last year, and was the subject of much favorable comment. Over a period of about two years, the Michigan Bell Company has directed attention to more than forty of the principal cities of the state, in a series of "Know Michigan" window displays shown on Washington boulevard, Detroit, where the exhibits have been viewed by many thousands of people. Each display described the subject city, its natural advantages, industries, products and schools, churches and other institutions.

Manager Crowe states that, to accommodate the increasing numbers of tourists in Michigan, the telephone company has augmented its forces and has installed additional facilities at many points, part of a continuing program of expansion.

## Today's Reflections

Here's a tip to the Plymouth man who wants to get rich quick—invent a slot machine that will serve hot dogs.

Many a June bride would have changed her mind had she known it was a wife's duty to cook hot suppers in July.

Maybe the reason there are so many churches is that people have to have somewhere to worship when they get mad at their preacher.

Eating too much will make any man in Plymouth lazy. But it doesn't seem to have the same effect on a mosquito.

The fact that many fools have made a million dollars is poor consolation for the fool who hasn't.

Maybe the reason manufacturers get more from congress than farmers is because the manufacturers can agree on what they want.

It's a good idea for Plymouth boys to remember that you can't fly with the owl at night and keep up with the eagle in the daytime.

London never knew what a fog really was until Ambassador Dawes got his old jimmy-pipe to going.

## LOCAL NEWS

Mrs. S. E. Cranson is spending a few days this week with relatives in Saginaw.

Mrs. Amelia Stevens has returned to her home in Chicago, after a visit with Plymouth friends.

Dr. and Mrs. Freeman B. Hover and sons spent Sunday with Mrs. Hover's parents at Grand Lodge.

Mr. and Mrs. R. U. McIntosh are occupying the home of Mrs. Nellie Bennett on Main street.

Mr. and Mrs. Elmore Whipple have returned from spending a week with friends at Houghton Lake.

Mr. and Mrs. Lloyd True, Mrs. Mant True and Mrs. Emory Perry, all of Leslie, visited Mrs. Sarah Vealey, Sunday.

Mr. and Mrs. James Gallimore and family have returned home after motoring to the Thousand Islands, Ottawa and Quebec.

Mr. and Mrs. Dempster Brady of Long Island, were Monday visitors at the home of the latter's aunt, Mrs. Phoebe Patterson.

Mr. and Mrs. Clarence Patterson, son, Henry, and Mrs. Yorton of Detroit, were Saturday visitors at Mrs. Phoebe Patterson's.

Mr. and Mrs. Norman Miller, Mr. and Mrs. Ernest Vealey and Mrs. Mary Smith spent a delightful day Sunday, at the Irish Hills.

Mrs. Willis Ralph of Kalamazoo, and her sister, Mrs. Wm. Hubbard of Romulus, were Sunday callers at the home of Mrs. Sarah Vealey.

Miss Dorothy Dibble, Mrs. G. S. Curtis and Miss Mary Curtis were luncheon guests of Mrs. Paul Voorhies at Base Lake last Saturday.

Mr. and Mrs. Will Selmes of California, and Mr. and Mrs. Ernest Selmes of Pontiac, called on Mr. and Mrs. Len Vickery, Sunday.

Mr. and Mrs. William Wood and Mr. and Mrs. Edgar Bennett have returned from spending two weeks at Bigwin Inn, Lake of Bays, Ontario.

Mr. and Mrs. John Sprague of Detroit, visited their mother, Mrs. Len Vickery, last week. Mr. and Mrs. Sprague just returned from a trip to Virginia.

Miss Rose Hawthorne is home from Mackinac Island, where she was taken ill while attending the Business Women's convention. She is getting along nicely.

Mr. and Mrs. Kenneth Wilson and Miss Lillian Williams, of Plymouth, and Mrs. Wilson's sister of Detroit, are spending two weeks in Chattanooga, Tennessee.

Mr. and Mrs. Wm. J. Squires and daughters, Marion Jean and Grace Agnes, of Ann street, spent the weekend with Mrs. Squires' parents, Mr. and Mrs. George P. Hunter, in Detroit.

Dr. R. E. Cooper received a cablegram from Mrs. Cooper, who is making a tour of Europe, last Saturday afternoon, stating that she had made the trip from LaBouret Field in Paris, to Malmo, Sweden, by airplane, arriving safely at 11:00 a. m. that day, after being nine hours in the air. She reported the weather as being fine.

Mrs. James Housley and daughter, Betty Jane, and Mrs. Russell Dettling have just returned from an extended tour of the east. They drove to Niagara Falls, Albany, N. Y.; New York City; Atlantic City, Baltimore, Md., and Washington, D. C. They covered almost two thousand miles, Mrs. Dettling doing all the driving. During their three-day stay in New York City, Mrs. Housley visited prominent beauty shops getting new ideas in hair dressing, hair cutting and permanent waving. She also went through the Marinello factory and school.

## Electric Cooking Is COOL

IN summer, the heat of an ordinary oven makes the kitchen almost unbearable. Electric ovens are liberally insulated, and the increase in kitchen temperature when the oven is in use is hardly noticeable. The heat is kept inside where it is needed—one of the several reasons why electric cooking is efficient.

You can enjoy electric cooking in your kitchen now. Convenient time payments and a liberal allowance for your present cooking equipment make it unusually easy for you to own a modern electric range. Come in and inspect the many attractive models.

# You Can't Afford to Miss The Big Bargains at **WILLOUGHBY BROS.**

**NO DOUBTING  
THE VALUES!**

**RED ARROW SHOE SALE**

**NO GUESSING  
THE SAVINGS!**

## Opening Thursday, July 25th at 9 a. m.

**A Whale of a Sale on Real Shoes**  
Seeing is Believing Step in and See

**This Entire Shoe Stock <sup>AT</sup> Your Mercy**  
Open Your Eyes to These Unusual Savings

### WE FIT THE FEET!

**Our Success Has Been Built on Satisfaction**

FOR YEARS we have been in the business of FITTING shoes—NOT just SELLING them. And during this RED ARROW SALE we will be just as careful to fit your feet. The majority of people have trouble with their feet. This is due largely to the ill fitting cheap shoes so frequently sold. Our success has been built BY AVOIDING THIS. Every shoe sold by us MUST FIT and give foot satisfaction. That is why our business has been increasing from year to year. This sale presents a fine opportunity to get the finest in guaranteed shoes and a real fit at LOW—UNUSUALLY LOW PRICES.

### A REAL SHOE SALE!

**Years of Shoe Success**

WE ARE DETERMINED TO MAKE THIS SALE the greatest of all our sales. That is why we are selling some of our Walk-Overs as low as \$3.45. and even including our very best Main Spring Arch Support Walk-Overs for men and women at sale prices. We want you to come and visit this big sale and enjoy the savings. Remember you have unrestricted choice at sale prices because EVERY SHOE IN THE HOUSE is on sale. Don't miss it!

**Women's Pumps  
Ties and Straps**  
Values \$7 to \$9

**Women's Pumps  
Ties and Straps**  
Values \$5 to \$8

A MOST REMARKABLE CHOICE in this big lot of shoes. Right out on a rack where you can pick out just the very pair you want. Here you will find the very latest styles and the very best shoes. More than half of the lot are Walk-Overs. Sun Burned Beige, Honey Beige, and other colors are here in Ties, Straps and Pumps. In with this big lot are some of our best Gun Metal Kid Pumps, military heels with silver plated buckles that will not tarnish. Early buyers get first choice.

If these shoes are not bargains then our idea of a bargain needs revising. Not a lot of old styles but ALL the prevailing styles worn today are here. It is a fine opportunity and we predict that crowds will be on hand for first choice. The fact is, that many of these shoes are Walk-Overs, our very best shoes, but it's a big clean-up during this Red Arrow Sale, so out they go. Colors are here as well as blacks and a good choice in heels, too.

## Kinyon School Reunion

The annual reunion of the Kinyon School will be held on the school grounds Saturday afternoon, July 27. All come. Bring your lunch and one extra dish. All former pupils and teachers are cordially invited.

## Soviets May Use Ships to Quarter Children

Moscow.—A number of "floating homes" for homeless children are being planned as part of the effort to turn these vagrants into useful citizens.

It is proposed to use oil ships on the Black and Caspian seas and on the Russian river highways for this purpose.

One of the chief problems in dealing with the homeless youngsters has been that many of them run away from schools and colonies where they are placed. The ships, it is argued, will satisfy the roving disposition of such children.

## Yale Students Barred Use of Motorcycles

New Haven, Conn.—The roar of the untamed motorcycle which normally reverberates from one end of New Haven to the other during the "student season," soon will be heard no more. The motorcycle which had done so much to make the native New Havener alert and quick to jump, will be almost extinct as the date when Yale convenes in September. Effective September 24, operation of motorcycles in or about New Haven by students is forbidden. Forbidden to drive automobiles, hundreds of students had operated motorcycles.

## Former Soldier Acquires Religion, Returns \$20.43

Washington.—The United States government is richer by \$20.43 because a former buck private saw the error of his ways in the light of recently acquired religion.

A letter to the War department related a war-time incident in which the soldier pilfered several pairs of army shoes.

"The light I now have proves to me that this department must be paid," said the letter enclosing a money order.

## Ushurt in Wreck

Kenosha, Wis.—Adolph Spetzer drove on to the tracks near here just as a train came along. There was a crash; his car was hurled 150 feet, the train was stopped and the crew hurried back to give first aid if needed. They met Adolph on the way. He was uninjured and was waiting. "Where's my car?"

## Kiss in Court to Prove Innocence of Embrace

Paris.—Saturnin Fabre will be asked to kiss Mme. France-Elys in court before his wife, her husband, three learned judges and a roomful of onlookers.

He must kiss her as he kissed her once before, knowing that at the last smack the court will decide whether or not his osculatory exhibit is an outrage against public decency.

Fabre is an actor and the last time his lips touched those of Mme. France-Elys, which happened to be during the love scene in a frothy farce, a cry of indignation rent the theater. It came neither from Mme. Fabre, nor the actress' husband but M. Tallet, architect, who was a disinterested spectator.

## Plant Thrives in Bottle Without Air or Water

Boston.—Can a plant grow without air? This question arose when Capt. Ed Forbes of the schooner Gossoon brought to port a bottle, apparently air-tight, in which a plant, believed of the gulf weed variety, was growing. The bottle, found floating in the La Have fishing grounds, was tightly corked, but the plant seemed to be thriving despite a lack of air and moisture.

## Baseball Team Puts This Town on Map

Imbler, Ore.—This little eastern Oregon town, not listed on some maps, and identified in the postal guide as "Postoffice No. 50,550," has a high school baseball team that holds a record of two no hit no run games this season, as well as the title of being one of the best high school teams in the state.

In the middle of the last no hit no run affair with Joseph High, which Imbler won, 15 to 0, the local coach took Marion Pugh out of the pitcher's box and placed Lyle Leadbetter in. Pugh had held the opponents hitless and his successor continued the remarkable twirling.

Records show that Imbler has performed similar feats in previous years.

## COMMISSIONER'S NOTICE

159568  
In the Matter of the Estate of LYNN E. BRONSON, deceased.  
We, the undersigned, having been appointed by the Probate Court for the County of Wayne, State of Michigan, Commissioners to receive and adjust all claims and demands of all persons against said deceased, do hereby give notice that we will meet at Corbett's Store in the Village of Plymouth, in said County, on Wednesday the 7th day of August, A. D. 1929, and on Monday the 7th day of October, A. D. 1929, at 2 o'clock P. M. of each of said days, for the purpose of examining and adjusting all claims and demands against the estate of said deceased, and for the purpose of distributing the assets of said estate to the creditors to whom their claims to us for said estate are due.  
Witness our hand and seal at the City of Detroit, Michigan, this 25th day of July, 1929.  
ERNEST W. PASSAGE,  
ALBERT GAYDE,  
Commissioners.

## CURACAO GETS TASTE OF OLD PIRATE DAYS

### Dutch Island Raided by Band From Mainland

Washington.—"In becoming the scene of a surprise attack by a band of looters, Curacao, small Dutch island of the Caribbean, forsook her slow existence as one of the quietest and most peaceful towns of the West Indies, and flashed back to the rollicking, roaring, bloody days of the Sixteenth and Seventeenth centuries, when this 'Spanish Main' was a free-booter's paradise," says a bulletin from the Washington headquarters of the National Geographic Society.

The chief city of the island Willemstad (also called Curacao), a town of nearly 20,000 inhabitants, was attacked during the night of June 8, by a band of 500 men from the South American mainland; the forts and police headquarters were seized; a supply of arms and ammunition was stolen; an American ship was commandeered; and the adventurers set sail for Venezuela with Curacao's governor and its chief of police as hostages.

"As astounding as this exploit appears to the Twentieth century observer," continues the bulletin, "it is only a repetition with slight alterations, of experiences from the island's past. Curacao has a fine harbor, one of the finest in the West Indies. This fact was recognized from the day that a Spanish explorer, Ojeda, a friend of Columbus, discovered the island in 1499; and at intervals the great naval powers have tried to claim the harbor. Settled by Spanish.

"It was given by the Spanish emperor to the governor of Venezuela in 1522 and some time afterward a Spanish settlement was established on it. The Dutch captured it in 1634 and it served a decade later as political training ground for Peter Stuyvesant, who afterward was made governor of New Amsterdam, predecessor of New York city.

"Curacao suffered attacks in 1673 and 50 years later, both times from the French. On the second occasion the French were driven out by the British, who remained in possession of the island for two years. After the Dutch regained control, Curacao experienced other attacks from English warships, and the island was under British control from 1805 to 1815.

"Since the latter date the Dutch have been undisputed owners of the barren little isle; but there was at least a threat from an entirely different quarter in 1903 when German men of war put into Curacao during their famous debt-collection demonstration against Venezuela. It was rumored that Germany dreamed of making the harbor a base for control of the West Indies.

"In spite of a population more than half made up of negroes and mulattoes, and with considerable numbers of Jews, Spaniards and South Americans, Curacao (or Willemstad, if one chooses) is intensely Dutch in appearance. Dutch cleanliness has been successfully transplanted to this tropical site, and the main streets, gutters, sidewalks, and walls are spick and span. Only in some of the narrow alleys of the negro quarter is a lack of cleanliness to be noted.

"Curacao is approximately 40 miles long by three to seven miles wide, and lies 41 miles off the coast of Venezuela. The island is quite dry and produces little. Practically all food is imported, and even drinking water is brought from the mainland for those who can afford it. Others drink rain water caught from the roofs and stored in cisterns.

Valuable as Trading Station.

"The island's chief value is as a trading station, a value to which both its location and its harbor contribute. Lying just off the northern coast of South America, and controlled by a country famous for its peaceful and efficient political and commercial methods, it makes an ideal distributing and transfer point between its potentially wealthy, but sometimes turbulent neighbors on the one hand, and Europe and North America on the other. Willemstad harbor is shaped like a banjo, with a narrow neck for an entrance and a large circular basin for anchorage and wharf locations. The town is built on both sides of the narrow entrance channel and along the flanks of the basin. A pontoon bridge crosses the channel and is swung aside to permit the passage of ships. A sidewalk on the town's population is furnished by the tolls charged on this bridge. 'Persons wearing shoes' pay 45 of one cent, 'persons without shoes,' 25 of one cent, for each passage.

"The well-to-do Dutch of Curacao make the gesture of maintaining country places on the barren stretches outside the city, but few plants other than cacti and aloes can be coaxed into growing throughout most of the island. The several ostrich ranches fit better into the picture.

"The famous liqueur, caracao, is still distilled in small quantities on the island from the small bitter oranges grown locally, but the industry in the main has been taken over by Amsterdam.

"Petroleum is the greatest single factor in Curacao's present-day activity, and one of the largest refineries in the world is maintained on the island. The crude petroleum is brought over in tank barges from the rich Venezuelan field around Lake Maracaibo. The numerous refined products are shipped from Curacao to various parts of the world."

## "Emperor Moths"

There are several large green caterpillars which, when full grown, spin silken cocoons in which to pass the winter, transform to the moth state and finally emerge with all their splendor. These moths are known as Emperor Moths on account of their large size.

### SICK TEN YEARS; KONJOLA BRINGS SPEEDY RELIEF

"I AM JUST BEGINNING TO ENJOY LIFE AGAIN," SAYS LADY MADE WELL AND HAPPY BY NEW MEDICINE.

MRS. L. PLUMPTON

"For more than ten years I was sick with stomach, liver and kidney troubles, and in all that time I found absolutely no relief," said Mrs. L. Plumpton, 1111 Forest Avenue, Ann Arbor, Michigan. "My food did not digest. My liver was very inactive. Weak kidneys got me up many times at night, and my entire system was run down."

"What a fortunate thing it was that I heard of Konjola. My search for ten years has been rewarded, and I am beginning to enjoy life again. My appetite is fine and digestion perfect. I feel just wonderful and sleep the night through. I shall never cease to marvel at what Konjola did in my desperate case."

Konjola is sold in Plymouth at Community drug store and by all the best druggists in all towns throughout this entire section.

### TEXAS CITY HAS HOT DOG PHILOSOPHER FOR MAYOR

Official is Fat, Jolly Man, Interested in Making People of City Happy.

Dallas, Texas.—Hot dog philosophy in Dallas, Texas, elected J. Waddy Tate mayor of Dallas recently over a candidate who is a prominent banker. Known as the hot dog philosopher, Tate was chosen by a vote of the common people. He made the race as an independent candidate. His total expenditures amounted to \$218 during the month's campaign, while his opponents spent \$150,000.

The high point of Tate's campaign was a hot dog party for 10,000 citizens. All who attended wore blue shirts—a labor symbol. This was the largest political rally ever held in Dallas. Tate's hot dog philosophy is based on a series of platform planks, one of which would permit erection of hot dog stands on the shores of a municipal fishing resort. His opponent would have restricted the resort against such buildings.

"I would rather see a happy group of poor picnickers buying nickel hot dogs after a day's recreation than have them pay a dollar for chicken sandwiches," Tate said. Other reforms he proposes include three eight-hour shifts on all street improvements where construction disrupts traffic. Promises of increased salaries for trolley operators and paid vacations for city labor were dubbed foolish by Tate's opponents. Their reference to them as hot dog philosophy was taken up by Tate and turned to his advantage.

The hot dog mayor took office recently at an inaugural ball and public installation, the first events of this kind ever held by a city official in Dallas. The dance was held for a local charity and a dime admission was charged. Tate explained he wanted the fee small so his poor folk friends could attend.

A resident of Dallas for thirty-one years, Tate is a born Texan. A spell-binder himself, he refuses to listen to buncombe artists. He convinced the public that donkeys in the parks for the children were more important than theoretical tax issues.

In 1897 Tate became general agent for the Chicago Great Western railroad for the Southwest territory, with headquarters in Dallas. This was the pioneer line to attempt to get Texas business. Tate remained with the company until 1928, when he was offered the vice presidency of the line. He refused because it meant leaving Dallas.

Tate is a fat, jolly man, interested in making Dallas folks happy. He was reared in Houston, Texas, served as a printer while a young man, and still holds a card as an honorary member in Typographical union No. 57.

### Michigan Man Sticks

Close to Home 56 Years

Cadillac, Mich.—David Whaley, city truck driver, claims a record in remaining close to his birthplace in the fifty-six years of his life.

Whaley never has been more than five miles from home. He is one of the eleven children of Thomas Whaley, who settled on a farm one and a half miles from Cadillac sixty years ago. He has never been out of Westford county and not far from the city limits of Cadillac.

In sixty years there have been only three deaths in the Whaley family. A son, William, died ten years ago at the age of 84½. The mother died last January when ninety-eight years old. The father was eighty-one when he died several years ago.

The rest of the family, with sixty-eight descendants, live on farms near here or in the city, with the exception of one girl, who moved to a suburb of Boston thirty years ago.

### Three-Year-Old Crosses

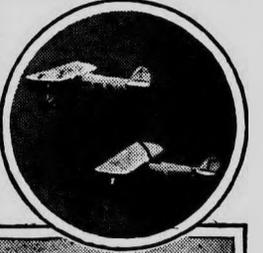

Atlantic by Himself

Gothenburg.—Among the youngest globe trotters in the world is Karl-Henrik Osterman, the three-year-old son of a Swedish-American couple, who has just completed a trip all by himself from New York to Gothenburg on board the motor ship Kungsholm. Far from having a lonely crossing, the lad became immensely popular with the passengers and enjoyed every minute of the journey. The children's nurse of the Kungsholm acted as his "governess."

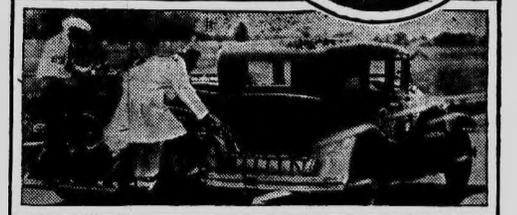

## NEW WORLD'S NON-STOP RECORD ESTABLISHED BY ROOSEVELT 8

(Run made under official observation. Record subject to final confirmation)

MARMON-BUILT STOCK CAR RUNS 440 HOURS WITHOUT STOP; RE-FUELED ON FLY

A Marmon-built Roosevelt 8 recently completed one of the most remarkable demonstrations of stamina and dependability in automobile history by running 440 hours, 30 minutes (over 18

COMPARISON OF RE-FUELING ON THE GROUND AND IN THE AIR—Lower illustration shows "mother" car supplying gas to Roosevelt on the run under observation of A.A.A. officials.

days) without a single stop of engine or car. Best previous record, 162 hours.

The record-breaking Roosevelt was a stock car in every detail, fully equipped. The run was made, not on smooth pavement, but over the rough brick track of the Indianapolis Speedway, under full A.A.A. supervision.

5-Pass. Sedan, \$985, factory. Group equipment extra.

## DETROIT INDUSTRIES PREPARE FOR RECORD AUTUMN ACTIVITY

### AROUND ABOUT US

A seventy-year-old barn on the William Suggitt farm near Denton, was destroyed by fire last Saturday. The barn was a landmark in that community.

Residents of Linden subscribed \$20,000 in capital for the opening of the new Linden Bank, making it a strictly home-owned institution. The new bank will probably be open by August first.

According to estimates made by the various boards of education in the city of Dearborn, the population of the city is now 52,239. This information was based on figures as June 1, 1929 and is the total from the various school census reports.

Three hundred boys from Genesee county were guests of the Detroit Baseball Club Tuesday, where they witnessed the game between the Tigers and New York Yankees at Navin Field. The trip was sponsored by the Genesee county Y. M. C. A.

Wayne County road commission has purchased the property lying between the paving on Northville Rd., and the Pere Marquette tracks from the Globe Furniture Company property to the Seven Mile Rd. This tract will be used as a park.

Harry German, Sr., is pitching exhibition ball games about the state for home teams. He has played at Flat Rock and River Rouge, and has Clinton, Wyandotte, Jackson and other cities on his list. Apparently he must be in good pitching condition, as he is winning his share of games.

Dearborn is to get an autoconster, a new sport device similar in some respects to a roller coaster, each person seeking the thrill has the pleasure of piloting his own auto over the hills and rills of the apparatus. The mechanism is to be erected on Wyoming between Michigan and Ford avenues at a cost of \$12,000.

The annual home coming that is scheduled to take place in Wayne on Friday and Saturday, August 9 and 10, will surpass all other entertainments of that nature that have ever been held in Wayne. The line-up of entertainment promises that. The entertainment committee for the Wayne Home Coming celebration have booked through Henry H. Luaders of the United Booking Association, Detroit, a very marvelous stage presentation revue, which will appear on a platform two days during the home coming. This revue has been carefully selected and the performers are of the very best having played in the leading theaters throughout the United States.

### UNKISSED HUBBIES IN DIVORCE COURT

Experiment in New Style Matrimony a Failure.

Los Angeles, Calif.—Flaming youth's latest innovation, the "kissless," platonic marriage, has been tried in Los Angeles.

And did it work? Well, perhaps the two young men selected for the experiment were not esthetic enough. They appeared in local courts and asked to be released from their college girl wives and their new style of matrimony. Both were granted annulments on the grounds that they had been defrauded.

The two girls, who had attempted to revolutionize marriage and substitute an ideal platonic relationship sans all caresses, did not appear in court to witness the failure of their experiment.

"It was a great little plan, but that was all," said A. A. Anderson, one of the young husbands.

When he appeared in Judge Leonard Wilson's court he told how he had lived with his wife for two years and had never received a kiss or a caress.

"She told me that she loved me, but she just would not kiss me," he explained. "Kisses," she said, "were repulsive to her."

Almost simultaneously Richard V. Watson, a young banker, was relating a similar story in the court of Judge Elliott Craig.

"I met her at a University of Southern California sorority dance," Watson said. "She was the prettiest girl there. She seemed to care for me. We were married in two days."

"Then I discovered her strange ideas about marriage. She refused to kiss me. Kissing was degrading to women; it typifies the subjection of the female to the male, she said. I lived with her for half a year and could not change her viewpoint."

Antiseptic Pictures  
When my small daughter comes to me with a scratch or cut I get the mercurochrome bottle and paint on the wound a little man, a dog or anything that my daughter suggests, as my meager artistic abilities will allow. Never for a moment does she hesitate to let me apply the antiseptic, because it is associated in her mind with funny little pictures.—Exchange.

Next Ice Age  
It is said that the next ice age is but 25,000 years away. Geologically considered, that is only about a week.

### NOW TAKING BREATHING SPELL FOLLOWING THE GREATEST SIX MONTHS IN HISTORY OF CITY.

BY C. C. MCGILL  
Secretary, Public Affairs Bureau,  
Detroit Board of Commerce.

Does it having just experienced the greatest six months of industrial activity, production and employment in its entire history, is now taking a short summer vacation in preparation for a continuation of record activity in the fall. With the Chrysler corporation granting two weeks' vacation to all employees and some of the other automobile plants changing models, it is only natural that the employment and passengers carried by the Detroit Street railway should exhibit a marked decline during the month of July. This is only a temporary lull on the part of the automobile manufacturers in preparation for record fall activity.

With the price of wheat rising to an unexpected level, which should result in increased purchasing power of the farmer, automobile manufacturers may be forced to revise their fall production schedules upward to the benefit of Detroit, making the outlook for the future very promising.

### Building Slightly Off.

Building still continues somewhat below normal in Detroit as in all other large cities of the United States. Some building companies with increased sales efforts and closer profit margins have not experienced any appreciable decline in activity.

The brass goods industry may be characterized as somewhat spotty at the present time. Companies dependent entirely on the automotive industry are quiet, while those manufacturing miscellaneous lines are experiencing unusual activity even for this time of year.

Other groups of industries which play an important part in the life of this city all report an unusually good first half year, with bright prospects in view for the next few months.

The cigar and tobacco industry of the city has had a record first half year; reports prospects of continued increased activity during the next few months.

The paint and varnish industry reports unusual activity for this period of the summer, the outlook very favorable for the immediate future.

### Drug Industry Gains.

One of the most substantial industries of the city, drugs and pharmaceuticals, has experienced a very substantial increase in business over last year and expects this trend to continue up until the first of September, which is as far into the future as their vision extends.

Stoves and electrical goods, which are unusually good at this time of year, are more than satisfied with their present favorable situation and bright future prospects. Detroit Free Press.

### Coon Cat Adapts Baby

Foxes on Master's Farm

Hillbrook, Mass.—The credit for one of the strangest "adoptions" on record belongs to "Betty," an intelligent coon cat, and her master, Lester Wilson of this town, owner of a silver fox ranch, who has persuaded "Betty" to nurse three little silver black foxes besides one of her own children.

This strange exhibition of mother love pleases Wilson, who may be indebted to "Betty" in \$500 or more, the value of the trio of "reynards" if they survive.

The cat loves the little black fellows as though they were her own, and by sharing the family milk supply with them, has tided them over to the point where there is good reason to hope they will survive.

"One morning a month ago I visited the pen and discovered the trio of new-born pups," Wilson related. "The next morning it appeared that the mother of the pups could not nurse them. I was at my wit's end to know how to solve the problem. Then I recalled that my pet cat had had a litter of kittens the previous day."

"Although I believed there was only one chance in a hundred that the cat could be persuaded to nurse the foxes, I resolved to try out the experiment. I took all except one of the kittens away from the cat. I took one of the little fellows and cuddled him beside the cat. The first move was made by 'Betty.' She sniffed the strange baby, then she kissed him, and the battle was won."

### Dune Leaves Town It Buried 400 Years Ago

Kueslin, Germany.—After having been buried 400 years under a giant wandering dune, the fishing village Lonzke on the Baltic shore is being given up by the sand mountains. Interesting finds, including coins from before the Sixteenth century, are being made in the first buildings which have reappeared. Summer guests at seaside resorts are flocking to Lonzke to view the spectacle.

The giant dune, the wandering of which centuries of effort have been unable to retard, engulfed the village around the year 1540. Since then it has slowly traveled on and is now on the opposite side of the little settlement.

Do you buy insurance on the strength of friendship—by the "glad hand" method?

Do you buy insurance this way?

There is no reason why your insurance agent shouldn't be your friend—and a mighty good friend—but such friendship should be fostered by sound business relations, and not traded upon as the sole excuse of getting your insurance.

The qualified agent has a definite tangible commodity to sell in the form of service. It consists of his technical knowledge and experience applied to the problem of keeping your business protected against loss—at lowest cost, consistent with sound indemnity. It is upon this basis that he gets and holds clients.

The hand-shaking "insurance man" is passing.

## BUILT BY BUICK BODY BY FISHER A GUARANTEE OF EXTRA VALUE

"Built by Buick"—only the Marquette in the moderate-price field can offer that priceless recommendation. This remarkable new six provides in every feature the unstinted goodness that has forever established Buick in the public mind as a master builder. Extra quality is everywhere—to provide extraordinary brilliance in performance, unflinching dependability in service, and unlimited satisfaction in ownership.

On its staunch and sturdy chassis the Marquette carries closed Bodies by Fisher—the latest expression of the artistry and craftsmanship of the world's greatest body builder. Smart, low-slung lines—the last word in modern good taste. Interior and exterior finishes of pleasantly blending colors. Tailoring and appointments of exceptional quality and completeness. And such value features as: a remarkable new non-glass windshield, to be found on no other automobile; adjustable driver's seat; and beautiful new rubberized mohair upholstery, waterproof, dustproof and wearproof—shown for the first time on Marquette.

The great resources and unparalleled facilities of Buick and Fisher have combined to provide a greater measure of extra value than any car of comparable price offers.

At the first opportunity see and drive the Marquette. Check every feature, make every test.

The Marquette is easy to own. Talk to your dealer about it. You will be surprised at how economically you can buy a Marquette on the liberal G. M. A. C. terms.

ROOSEVELT EIGHT flashing past stands on its famous Indianapolis two and one-half mile brick track during its record-breaking run. The car ran 440 hours (over 18 days) continuously by taking on gas, oil and water from a "mother" car on the fly.

**INTERESTING FACTS ON FUTURE OF AVIATION**

By R. U. McINTOSH

No doubt you have read in the papers about the hundred passenger Dornier flying boat. The pilots and navigators walk about in this large airplane with the same comfort and convenience as a large sea-going vessel. They can control this large boat by the use of the engines. This is accomplished by throttling down the right or left side, it depends upon which direction they want to turn. They may also throttle or turn off completely several of the motors if they have on board a small number of passengers. You no doubt, noticed the tremendous power that the ship is equipped with, and also how quickly it took off the water (in 28 seconds). This is a powerful asset when they desire to climb over storms or huck severe head winds.

The Dornier factory in Friedrichshafen, Germany, is a well established flying boat company. They have spent millions of dollars in experimental work, and the rest of the world may profit by their mistakes. We use in the construction of the Mack-Craft Amphibian many features that are incorporated in the Dornier Super-Wal.

Have you not read in the papers and remember cartoons years ago, showing imaginary flying means of transportation. They elaborated on the multi-motor airplane and showed passengers walking about freely through wing and through the boat, but these cartoons were but a few years ago, and today we have these large multi-super flying boats. They do not startle us, because we were informed of their coming existence. We seem to make light of the remarkable age in which we are living. We have so much to learn from Europe about aviation, however, we are learning very fast and this country, no doubt, will build the largest airplane in the world.

We now have under construction the largest zeppelin, being built by the Goodyear Rubber Co. They claim it will be twice the size of the Los Angeles. This should convince you that an airplane company has a promising future. The Mack-Craft Amphibian Corporation will no doubt have the opportunity and will see the time when the hundred passenger ship will be common and we hope to build them in our own plant. The principles of flying and engineering are the same in the hundred passenger ship as they are in a five or six passenger flying boat. Just as quickly as the public will patronize air transportation, so will the airplane manufacturer build larger ships to accommodate them. The future of aviation depends upon the air mindedness of this country. The statistics show a

surprising increase per month in air passenger transportation. The small airplane will find its market, but it will be the amphibian when you think that we may hop from here to New Orleans in one day. New York in a forenoon, Chicago in a couple of hours, and the west coast tomorrow morning.

We are using the airplane to conquer these distances. Opportunity means nothing to a man with empty pockets. There are many who would like to join into an aviation proposition, but have not the means. This is an unfortunate condition, but there is no excuse for the man who can avail himself of an opportunity to invest in some form of aviation because today is the day and not tomorrow. The industry is young and that is the time to participate. The larger and more successful an organization becomes, the less earning possibilities it offers in a short time.

The Mack-Craft Amphibian Corporation plant will be ready for occupancy about August 15th, in which time we will assemble the wing which is now almost completed. The hull will be immediately started, and a night and day shift will be put to work in order to get the ship out the latter part of September. When the Mack-Craft Amphibian Corporation puts its first ship in the air, the public will not have the same participation opportunity that they have now. Does it not seem reasonable that the man who finances a proposition in its early stages should not have more of the profits, if it is successful?

Now that the Transcontinental Air-Transport Company is making daily flights across the continent, you and I will not concern ourselves with the successful number of times they have made this 3,500 mile journey, and the many thousands of passengers that it will carry, but we will be horrified if one of their ships should hurt one or two of their passengers. Some of us will still maintain that air transportation is not safe. I read in a Sunday paper in some back page, and noticed a photograph of a train wreck, showing the large steel cars piled up on each other. I had to read very carefully to learn how many passengers were killed. The papers referred to the accident as happening several days ago.

If the T. A. T. should have a bad landing and break somebody's arm, it would be in every paper in the United States. The reason for this is, first, sensational news; second, because the public is watching, and more or less expecting something to happen, but this kind of news will soon subside just as the many other forms of transportation has.

**LOCAL NEWS**

Misses Phyllis and Evelyn Stewart are visiting relatives at Imlay City, this week.

Miss Virginia Giles spent a few days last week at her aunt's summer home on Bruin Lake.

H. Burton is visiting friends and relatives at Lake Placed and Saranac Lake, New York.

Mrs. Hartley Sofer and daughters of Fowlerville, called on Mr. and Mrs. E. L. Larned, last Tuesday.

Misses Doris Whipple and Hazel Williams spent the week-end with friends at Grayling, Michigan.

Mr. and Mrs. H. P. Lesotte took breakfast last Sunday, at Point-au-Peaux, with a party of friends.

Mr. and Mrs. Fred Pennow and daughters, Mary and Dorothy, have returned from a motor trip to Niagara Falls.

James Mackey, an engineer of the Mack-Craft Amphibian Corporation, spent the week-end with his parents in Detroit.

A card from Chief of Police George Springer, who, with Mrs. Springer and their son and family, is enjoying a trip to Washington, D. C., says they arrived safely and are enjoying the sights of that wonder city.

Mrs. Clifford Tait gave a linen shower for Miss Wilma Jess Briggs, bride-to-be, on July 19th, at the home of Mrs. Glenn Jewell. There were five tables of bridge, and the decorations were pink and blue. Guests from Ann Arbor and Plymouth were present.

Mrs. Ray Nichols and daughter of Saginaw, are visiting at the home of Mrs. Edward Ebert.

Miss Marian Hentzel of Flint, has returned to her home after spending a week with Miss Ramona Segnitz.

Miss Ranghrud Moe of Bend, Oregon, is staying with her parents, Mr. and Mrs. Martin Moe, for the summer.

Mr. and Mrs. J. W. Henderson left Monday morning, for Traverse City, where they will be guests of the former's brother this week.

Mr. and Mrs. R. S. Wood and Mrs. Nettie Townsend spent Sunday with Mr. and Mrs. Harry Scott of Detroit, who have just returned from a motor trip through the east. While in New York, they called on Mr. and Mrs. Harry McClumpha at Tribe's Hill.

Mr. and Mrs. E. L. Larned of Ann Arbor, and Mrs. Glenn Northrop and three children of Plymouth, spent last week at Mio, on the Au Sable River. They also went to Targo Springs near Five Channel Dam on the Au Sable. There are 216 steps to go down to get to the springs.

The Ladies of the Maccabees will hold their annual picnic at Walled Lake, Wednesday, July 31st. Plenty of cars have been provided for all, and a good time is promised. All wishing to attend are notified to meet at either Kellogg Park or Liberty Park, at ten o'clock of that morning, each bringing dishes and sandwiches for your own family, and one extra dish of food to serve the rest.

German Services, 1st. Sunday in the month at 7:30 p. m., 3rd. Sunday in the month at 2:30 p. m.

### Christian Science Notes

"Life" was the subject of the Lesson-Sermon in all Christian Science churches on Sunday, July 21.  
Among the citations which comprised the lesson-sermon was the following from the Bible: "I said, O my God, take me not away in the midst of my days: thy years are throughout all generations" (Ps. 102:24).  
The lesson-sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "When being is understood, Life will be recognized as neither material nor finite, but as infinite.—as God, universal good; and the belief that life, or mind, was ever in a finite form, or good in evil, will be destroyed" (p. 76).  
The lesson theme for next Sunday, July 28—"Truth."

### CATHOLIC NOTES

Sunday is children's communion Sunday. Let all the children be present at the altar. Remember, there is no vacation with God and our obligations toward Him.

The west side enjoys a two-fold celebration next Sunday, as the corner stone of the Duns Scotus College will be laid at 4:30 p. m., and the beautiful summer chapel St. Williams, Walled Lake, will be blessed at 3:00 p. m., the Rt. Rev. J. Plagens assisting at both. Rev. J. Schuler is in charge of Walled Lake, and reports the resorters are more than pleased with his efforts, and the work put forth. The catholic boys' band of Detroit that recently played for President Hoover at the White House, will participate in the celebration. This chapel, with a seating capacity of 450, was made possible through the generosity of the resorters.

Nethem baseball team defeated the strong Burger Creamery team from Detroit, 8 to 7. Next Sunday, Nethem vs. Burns' Aviation, at Wright Inn on the Plymouth road. This is the first game away from our grounds. All invited to follow the boys down to the ball park. Plymouth road between Beech, and Telegraph roads.  
Sunday is the last Sunday of July—do not forget your M. C. envelop.

### PRESBYTERIAN NOTES.

The Mission Study Class will meet Tuesday evening, July 30, with Miss Edna Slocum, at the home of Mrs. Lloyd Williams.

### EPISCOPAL NOTES

This is our last opportunity, until September 1, to join together in worship in our own church. There will be no services during the month of August. Let all make a special effort to be in their places on Sunday morning. There is a vacant seat for YOU.

We trust that all, both young and old, will return with renewed enthusiasm after the brief period of vacation. Holy Communion will be celebrated on Sunday, September 1, at 10:00 a. m. Sunday-school will re-open on Sunday, September 8, at 11:30.

## ROCKET TRIP TO MOON IS FEASIBLE

May Be Successfully Achieved, Scientists Say.

Paris—A rocket to the moon no longer is a fantasy and one may be fired from the earth before another 12 months have rolled around, according to members of the Societe Astronomique de France.  
German, American, Austrian and French scientists have been collaborating with such effectiveness that a voyage by rocket to the moon, to Mars and to Venus at last is considered theoretically practical. But the astronomers have not yet reached the point where they consider the advisability of inserting a passenger into the rocket—even if they found such a willing person.

The entire question of interplanetary navigation, which has been the preoccupation of central European scientists for many years, reached a climax at a meeting of the Societe Astronomique, when the Rep-Hirsch prize of 5,000 francs was awarded to Prof. Herman Oberth for his researches in this field.

Professor Oberth, who is a German and only thirty-five years old, has developed what are considered entirely feasible methods of escaping terrestrial attraction or gravity. The problem up to the present has been how to escape this attraction and yet not make the experiment prohibitive by excess load of fuel.  
Professor Oberth has solved this problem by constructing a double-tube rocket, emitting hydrogen and other gases at a speed of 2,500 miles a second. This speed of emission of those gases and the effect of the gases upon the surrounding atmosphere are calculated to neutralize the pull of gravity and permit the rocket to get clear of the earth.

In view of the importance of this contribution, Andre Hirsch and Robert Esnault-Perterie, themselves pioneers in interplanetary navigation, and donors of the prize, increased the award to 10,000 francs.  
Other papers, submitted by Russians, Austrians and many Germans, contributed much light to the problem. One paper went so far as to discuss the method of landing on a planet.

## 41 Americans Acquire British Citizenship

London.—The United States was one of the four nations which contributed the largest number of citizens to those naturalized as subjects of the king of England during the year 1928. The other three major contributors were Russia, Poland and Italy, Russia providing the greatest number of new British citizens and the United States the fewest of the four leaders.  
Altogether 1,398 certificates of naturalization were granted during the year to persons who had taken the oath of allegiance to Great Britain. Men accounted for 1,115 of the total and women for 278. There were 524 Russians, 118 Poles, 66 Italians, and 41 Americans in the list.  
Austria and Germany were on the tail end of the list, each supplying one new citizen to the British list.  
Nineteen persons had their certificates revoked. They were all men. Ten were Germans, five Russians and one each from Austria-Hungary, Greece, Italy, and Rumania.

## Transfuse Blood From Dead to Living Person

Cluj, Rumania.—Transfusion of blood from a dead person to one on the point of death was accomplished here recently—for the first time, it is thought.  
The doctors at a local hospital joined the arm of a girl, Rosa Jancu, at the moment she had died of injuries suffered in an auto-obile accident, to the arm of a man, George Morar, who had stabbed himself in the breast and lost most of his blood. Morar, who was regarded as dying, is now expected to recover.

## Athletes Seldom Turn Criminals, Jurist Says

Cincinnati, Ohio.—Athletes seldom are arraigned in criminal courts, according to Judge Edward Hurley, prominent jurist here.  
Said Judge Hurley: "I've noticed this fact in the number of persons brought before me. The answer seems to be that participation in clean athletics builds self-reliance and character. A sound body usually begets a sound mind."

## River Forms Border

The Rio Grande is 1,900 miles in length. It rises in the southwest part of Colorado and flows south, forming a border between the United States and Mexico. This water flows into the Gulf of Mexico.

## Danotas Solid Silver

The phrase "Pure gold" on old silver spoons is an old marking, meaning solid silver—that is, silver that has not been plated. Silver thus marked was usually not so carefully refined as sterling silver is.

# Methodist Episcopal Church

Dr. F. A. Lendrum, Pastor

10:00 A. M.—Wesley H. Maurer, Instructor in Journalism at U. of M. will preach.

11:30 a. m.—Church school.

No evening service.
