

## GRAND OPENING AT DE-HO-CO

On page 10 of this issue you will find full details regarding the opening of the baseball season at De-Ho-Co. And what an opening it promises to be. First of all, there will be a band concert starting at 2:00 p. m., and includes the parade and flag raising. The Ex-Service Men's Club of Plymouth will march and raise the flag.

Attractive prizes are to be given away free with a wardrobe trunk featuring the Bendix Brake baseball club of South Bend, Indiana, promises real competition for the De-Ho-Co club. They have a team composed of all ex-leaguers, and are considered the best semi-pro team in Indiana. Guzenski, who plays third base, is from the semi-pro team of Chicago. Brady, second baseman, was considered a real prospect when he was with Notre Dame. Allison is the real hand-man of the Bendix team, and his record in the Three-Eye league brands him as a dangerous hitter. Rush, pitcher and manager was formerly with the St. Louis Browns. With these players and others in the line-up, one can see why they are such a formidable team.

The De-Ho-Co team won several exhibition games and are anxiously awaiting opening day. Most of the veterans are back, and Manager Doniston has also picked up several promising rookies. Gerardin, a pitcher, had a try-out with Detroit two years ago, and looks like a welcome addition. Destefano is again hopping around at short and has lost none of his pep.

The boys have all been hitting the ball lately, and promise much trouble for opposing pitchers. The band concert starts promptly at two o'clock, and the game at three. All seats will sell at fifty cents, and advance sale indicates a capacity crowd.

The probable line-up for Sunday will be: De-Ho-Co—Destefano, ss.; Doniston, 1b.; German, c.; Jaska, 3b.; Martin, 2b.; Anderson, c. f.; Smith, 1. f.; Lazor, r. f.; Howland, p. Bendix Brake—Napier, c. f.; Sappes, 2b.; Kelly, 1. f.; White, ss.; Clouse, 3b.; Brady, r. f.; Martin, cf.; Rush, p.; Guzenski, 2b.

## Ladies' Auxiliary of Plymouth Veterans Club

On November 11, 1918, the world echoed with the magic words "The war is ended." Countless millions of human beings cried their joy and offered from overflowing hearts their gratitude to heaven, that once more a war was ended. The conflict did end as other conflicts of ours ended, but for a great many the end was a beginning. We still have veterans of the Civil War, old now and nearing the end of the long, long trail.

Shall we, who are younger comrades, forget that for nearly all of the few that are left, the traces of the hardships and rigors of "63" remain? Veterans of '98 are approaching their allotted three score years and ten. Many of them are feeling now the effects of malarial swamps and steaming jungles, fought through and over in Cuba and the Islands.

Shall this generation forget that the Spanish American War did not end for them when Weyler and Aguinaldo capitulated? A gray November day twelve years ago, ended the great war. But did it? Is it ended for those fine, strong lads who came out broken in body and in mind? Is it ended for the kiddies left fatherless or destitute by their fathers' devotion and patriotism?

We, who are comrades unscarred in body and unblemished in mind, and we, mothers, wives and sisters of veterans, know it is not ended for those comrades and the kiddies. We know, and through us the great heart of our citizenry must know and alleviate the suffering and helplessness. Our share from Plymouth can be but small, but however small, it must be attended to.

The Children's Bilet, a legion project at Otter Lake, and the V. F. W. Children's Home at Eaton Rapids, will receive part of the funds raised by the Ex-Service Men's Club of Plymouth and the Ladies' Auxiliary of the club. The Ladies' Auxiliary is now busy preparing for the sale of poppies on poppy day, a sale that provides funds to carry on the work of the club.

The Ladies' Auxiliary is ably officered, and is a valuable arm of the veterans' club. The present officers are: Mrs. Grace Martin, president; Mrs. Mildred Eckles, vice-president; Mrs. Hilda Barnes, secretary; and Mrs. Mary Sackett, treasurer. Any officer or member will be glad to welcome any veteran's wife, sister or mother to the Auxiliary's fellowship.

## Extension Work

The last meeting of the North Canton Nutrition Class was held Tuesday, April 15th, at the home of Mrs. Sam Spicer, with eight members and four visitors present. A pot-luck dinner was served at noon, at which the leaders served two delicious and economical desserts. The extension work will be completed for the year, Achievement Day, to be held at Wayne, May 14th.

## ATTENTION CHAMBER OF COMMERCE MEMBERS

Attractive brass signs are available for distribution to all members of the Plymouth Chamber of Commerce.

These signs bear the following information:

Member  
**CHAMBER OF COMMERCE**  
Plymouth, Michigan  
Notice to Solicitors

We as members of the Plymouth Chamber of Commerce, have entered into a mutual agreement not to subscribe to any fund that has failed to merit the endorsement of the Chamber of Commerce.

Please call at the Chamber of Commerce office for your membership sign.

## 36 Cases of Beer Found In Auto

A Chevrolet sedan loaded with 36 cases of beer was found parked on West Pennington avenue Sunday night, by night officer Fred Stanible. The driver of the car was not in evidence, and it is thought that he had been obliged to leave the car because of engine trouble.

## MAY DAY WILL BE CHILD HEALTH DAY

The keynote for May Day, 1930 is "Parent Cooperation in Community Child Health and Protection." This is the day we should pause to take stock of the health facilities in the community. The general health program of our community is most effective when parents understand and cooperate with it.

If your community is rural, do you know the means it takes to (1) Ensure safe water supplies; (2) Establish sanitary conditions; (3) Avoid

(Continued on Page 6, Column 4)

## Plymouth Will Play C. F. Smith Team

Sunday, April 27th, Plymouth will open the season by crossing bats with the C. F. Smith team of Detroit, at Burroughs field at 3:00 p. m. The fans will remember the close game the teams had last year. This year C. F. Smith's have strengthened their team with a collection of players from the south, and are much stronger than last season.

Canton No. 17, J. O. O. F. Lodge, will give a drill and flag raising ceremony preceding the game. Last Sunday Plymouth defeated Hazelton A. C., 8 to 2. The game was close until the seventh inning when the team started lurching hits and garnered six runs which proved the deciding lining of the game. The team as a whole looked good, considering the weather and that it was their first game of the season.

Manager "Ossie" Ostrander seemed well pleased, and promises a great ball team for Plymouth in the near future.

## Held Regular Meeting Tuesday

The Inness and Professional Women's Club of Plymouth held their regular annual meeting Tuesday evening at the home of Mrs. Grace Martin in Palmer Acres. A delicious dinner was served by the hostesses of the evening, Grace Martin and Alida Estep, assisted by the finance committee. The tables were very prettily decorated. The election of officers resulted as follows: President, Irma Eckles; vice-president, Phoebe Patterson; recording secretary, Katherine Kahl; corresponding secretary, Esther Woolsey; treasurer, Josephine Freyman. The club voted to send the retiring president, Miss Alice Sanford, to the state convention in Flint, in May. After the close of the business meeting, those present attended the Penniman Allen Theatre and witnessed the picture, "Lumoux."

## State Championship Debate Friday Night

The thirteenth annual state championship debate will be held in Hill Auditorium at Ann Arbor, Friday evening, April 25, at 7:45 o'clock. Last year over four thousand people attended, and even more are expected this year. Jackson Boys' Glee Club and band will furnish music.

The competing teams are Detroit Northwestern, which will have the affirmative side of the jury question, and Clawson, which will have the negative. The Detroit Northwestern team was coached by Mrs. Ruth E. Huston-Whipple, whose debating teams have reached the state finals at Ann Arbor, four out of the nine years that they were eligible to do so. The members of each team will be presented with handsome gold watches by the Detroit Free Press.

## Pythian Sisters Held Meeting

Pythian Sister Temple No. 84 held a very interesting meeting on the evening of April 22nd. A class of candidates were initiated into the order. Union Staff of Detroit, put on the work session by officers from various Detroit Temples. Each office was filled by an M. E. C. About thirty members were present from Detroit, including Grand Junior Sadie Price. Fifteen Pythian Sisters came from Northville to attend the meeting. After initiation, the regular order of business was taken care of, following which a delicious lunch was served by the Plymouth Sisters. Plymouth Temple expects to initiate another class in the near future.

## DRIVE WITH WINDOW OPEN

More than one-half of the 216 grade crossing accidents which occurred in Michigan, Ohio, Indiana and Illinois between October 1st, 1929 and April 15th, 1930, were caused by the motor car driver's self-imposed inability to hear approaching trains. To be more explicit, the drivers thus injured or slain were riding in closed cars whose shut windows prevented them from hearing outside noises.

These somewhat startling facts emanate from a carefully conducted analysis just completed by James F. Land, Jr., head of the Public Safety Division of the Republic Automobile Insurance Company.

The analysis shows that of the 216 grade crossing accidents studied, 114, or more than one-half, resulted from inability to hear, by reason of closed windows. "Causes for the remaining 102 accidents," Land said, "were classified as follows: 'Twenty-two occurred to drivers who were under the influence of intoxicants; 'Nineteen occurred to drivers under 21 years of age, seventeen of whom were boys; 'Fifteen occurred to drivers who were speeding, either in an effort to beat the train to the crossing or without regard to highway hazards; 'Twelve occurred to drivers who, for one reason or another, ignored grade crossing warning signals; 'Causes for the remaining 34 grade crossing mishaps could not be determined, but negligence or carelessness on the part of the driver is believed to have contributed in some way or another to these crashes.'"

## BETTER TRANSPORTATION TO AND FROM DETROIT

The Republic study included careful examination of municipal, county and state records of the accidents, newspaper stories concerning them, and, in some instances, the stories of crashing witnesses.

"Findings of our study," Land observed, "serve only to emphasize the fact that the American motorist still is a most fool-hardy and careless individual."

## Large Attendance At P. T. A. Meeting

There was a large attendance at the P. T. A. entertainment given by the children from the kindergarten and 1-B and 1-A grades of the Central School, held in the high school auditorium on Wednesday evening, April 16. The kindergarten band, dressed in blue and maize caps and capes, made a great hit with the audience as did the Doll Play given by the A-kindergartners, and the songs by both the A and B-kindergartners. The flag drill and salute given by the 1-B grade and led by John Richwine, who took the part of Uncle Sam, was also well received. The little leader took great pains to keep his little friends in straight lines.

The Garden Play given by the 1-A grade was much enjoyed, with Joanna McGraw and Betty Sheppele walking around the garden consisting of the children dressed as flowers while the sunshine and rain fairies, birds and butterflies, all in costume, visited this garden.

The children in their group songs sang very sweetly and reflect much credit on Miss Gladys Schrader, their music teacher.

A short business meeting was held after the program at which time the retiring president, Mrs. Bruce Woodbury, thanked all those who had so ably assisted her during the past year, and which the new president, Mrs. Winn Hubbell, was welcomed with much enthusiasm. She gave a short address and named the following as chairman of committees for the coming year:

Meal—Mrs. Wm. Towle  
Program—Mrs. John Olsater  
Social—Mrs. Maxwell Moon  
Press—Mrs. Charles Root  
Mrs. C. H. Buzzard in a few well chosen words commended Mrs. Woodbury for the splendid work she had done during the past year and presented her with a beautiful pot of yellow tulips, and asked for a rising vote of thanks from those present, which was given.

## Annual Meeting of Woman's Club To Be Held Friday

Several matters of importance will come before the members of the Woman's Club of Plymouth, at the annual meeting to be held at the Methodist church, Friday, April 25.

Following the luncheon at 1:00 o'clock, there will be election of officers, reports of officers and committees and discussion of the program for next year. There will be a reception held for new members who came into the club during the past club year.

## Screening Sacramento From Attack

During the army air maneuvers on the Pacific coast a single pursuit plane spread a dense smoke screen over Sacramento in less than one minute.

## Wayne 4-H Club Prizes Awarded

With games and songs and music, the 4-H clubs of 43 Wayne county schools celebrated "Achievement Day" at the Dearborn High School, Saturday.

This is an annual event for the 225 girls and the 250 boys of the rural schools of the county.

In various rooms of the big school building were displayed specimens of the handicraft turned out during the school year by pupils of ages ranging from 10 to 15 years.

There are 24,000 of these club boys and girls throughout the state.

Prof. Robert J. Baldwin, director of extension work in Michigan came from the Michigan State College at East Lansing, to address the Wayne contingent.

The 4-H clubs are competitive organizations under the direction of their teachers with general supervision by Miss Margaret Eckhardt, county club agent.

The youngsters make articles of clothing, household use, devise fancy posters, advertising hot lunch activities and train for the health contest which produces winners in each county who compete in state contests and then enter the contests in which the national health champions are chosen each year.

There were 75 girls in the dress-making contest this year, the largest number that has yet participated. They paraded the stage in their creations, Mary Metcalf of the Hough school carrying off first prize. She is 13 years old. Her costume was a wool crepe of blue, trimmed with cream colored silk.

The healthiest girl in Wayne County, picked by the judges, is Jeanette Adams of the Stark school, and the healthiest boy is Charles O'Brien of the Edgewood school.

In the making of clothing, the contestants were divided into pupils' yearly classes.

Of the girls in the first year of training in this work, Dorothy Hearn Newburg school, took first prize; Irene Schraeder, Cady school, won in the second year contingent; Mary Metcalf of the Hough school, in the third year class; Merna VanTassel of the Stark school in the fourth, and Hildegarde Simmons of the Cherry Hill school, in the fifth.

County champions among the boys, for handicraft work, were: John Roginski, Newburg school, first year work; Louis Bakos, Sheldon school, second year; Max Swedgies, Bartlett school, third year; Winslow Mail, Detroit school, in fourth year class. The Hough school won the award for the best cooked and best served lunch.

The Detroit All City Junior Band furnished the music.

## Model for the Samuel Gompers Memorial

This is the model of the prime winning design for the memorial to Samuel Gompers which will be erected in Washington. It is the work of Alexander Zeitlin, sculptor, and Robert C. Lafferty, architect.

## CITIZENS PETITION COMMISSION FOR ATTRACTIVE ROAD SIGNS; REQUEST STREETS BE FLUSHED

### Local Kiwanians Invade Wayne's Club Thursday

DR. HOVER GIVES FINE PROGRAM.

Yesterday noon about twenty-five members of the local Kiwanis Club motored to Wayne to put on their club's program. It was one of the Inter-Club days that the Plymouth Kiwanis club gives from time to time. Headed by Past-President Dr. Frederick B. Hoover as chairman of the inter-club program committee and assisted by a quartet of musicians, namely Miss Marguerite Wood, pianist, Maynard Larkins, violinist, and Joe Ribar, accordion, Wayne voiced their sentiments as having received their best program from the invading Plymouth Kiwanians.

### BETTER TRANSPORTATION TO AND FROM DETROIT

A real effort is being made to arouse sufficient interest to force action in connection with this problem which means so much to the growth and future of our community. The leading realtors and landowners with sub-developments already in existence and with land to be developed between Plymouth and the Detroit city limits, have been approached both by letters and personal talks with the idea that before going to the bus company officials everyone interested should present a united front with definite proposals to submit for consideration, instead of having individuals representing various groups each blundering ahead with nothing more tangible to sell than a statement that "the present service is unsatisfactory, and something ought to be done about it."

The response has been slow. The Chamber of Commerce transportation committee reports that it is difficult to arouse real interest to the point where constructive suggestions would be made from which could be developed a definite proposal or proposals to be submitted to the bus company. Possibly this is due to the fact that warm weather, when it is pleasant to drive one's own car, is almost at hand whereas if snow and ice were a few weeks ahead instead of a few weeks behind, people would be quick to respond to any suggestion for better service.

But another winter when it is disagreeable, often unsafe, and always expensive to drive privately owned cars, will be with us again, and now is the time to plan ahead instead of allowing the first cold snap to find us unprepared.

Another factor which enters into the picture to a certain extent is the trackless trolley development out Plymouth road. Secretary Moore has learned from authoritative sources that these trolleys are scheduled to be in operation not later than July 4th. It is not known at the present time whether or not there might be a possibility of extending this form of service beyond the terminus which has been announced will be River Rouge Park.

The people of Plymouth have the assurance of their chamber of commerce that the effort to improve transportation between Plymouth and Detroit will not be spasmodic in character—taken up and dropped merely because obstacles present themselves—but that this effort will continue until every angle to the problem has been studied, until every necessary contact and investigation has been made, and until everyone interested and possessing influence has been consulted.

### Former Resident Dies

Mrs. Frank Passage, aged 68 years, passed away at her home in Detroit, Tuesday, April 22nd. Mrs. Passage was a former resident of Plymouth. Besides her husband she leaves three sons, Lee H., Frank C. and Irving C. She also leaves one sister, Mary Haynes, and two brothers, James Baxter and Wm. Baxter.

Funeral services were held from the residence, 13212 Cherrylawn Ave., Thursday at 2:00 o'clock. Interment was made in Riverside cemetery, Plymouth.

### Dearborn Takes Meet From Locals

By taking ten firsts and seven seconds, the Dearborn tracksters handed the Plymouth team a 79 to 46 defeat in a dual meet held last Saturday.

They also took eight third places while Plymouth captured only four firsts and seven seconds. Of the ten firsts gained by the Dearborn team, Hansen took four. These were in the pole vault, high jump, javelin and the discus.

### Stunt Night At Local School To Be Held May 2

The following is a summary of the events: In the mile, Straub of Plymouth trailed Hayes of Dearborn by a good length to come in second. The 440-yard dash was won by Fisher of Plymouth, who traveled the distance in the fast time of 53.5 seconds. Horton and Wagnerschied tied for first place in the hundred, while Humphries of the orange and black came in third. Humphries won the 65-yard hurdles, while Cline, Plymouth's entry, came in third. In the 200-yard dash, Hight of Dearborn, barely nosed out Horton. In the 800-yard dash, Towle came in third for Plymouth, while McClellan won for Dearborn. In the shot-put, Bannerman, as was expected, won with a heave of 44 feet 10 inches. Hansen went over the bar at ten feet to win the pole vault. Lyke of Plymouth took second. He also won the high jump at 5 feet 5 inches. Lyke took second in the javelin, while Hansen heaved it 140 feet to take first. Haglethorne stepped over the 120-yard hurdles in 16.2 seconds to win from Cline, only a shade behind him. Hansen threw the discus 107 feet 4 1/2 inches, while the best Bannerman had was good enough for third. Humphries took the broad jump from Hall with a foot and some inches to spare. The relay team of Plymouth took the final event from Dearborn.

### Tennis Fans—Attention

There can be no question in anyone's mind who has witnessed the crowd of players waiting to get on the school tennis courts on Adams street, that the present facilities cannot begin to take care of the number of tennis fans in Plymouth. In addition to the crowd of youthful enthusiasts to be found there every day, there are quite a few older players who have given up going to these courts because of the inevitable delay and no definite assurance of playing.

Two chamber of commerce committees are being formed, a senior sports committee with Austin Whipple as chairman, and a junior sports committee with Elton Knapp as chairman.

### Local Kiwanians Invade Wayne's Club Thursday

Secretary Bert D. Moore of the Chamber of Commerce and A. E. Blunk of the better business committee of the local organization appeared before the village commission last Monday evening and presented a petition signed by about all the business men and women, requesting that the main business streets of the village be flushed during the summer season, and that suitable road signs be erected on main roads radiating from the village.

The petition to flush the streets was passed without a dissenting vote. The petition relative to the road signs was laid upon the table until the next meeting, with the understanding that President George Robinson and Manager Koenig would confer with a Chamber of Commerce committee during the interval as to the size of signs, wording, location and costs. The committee from the Chamber of Commerce is composed of A. E. Blunk, C. G. Shear and Robert Willoughby.

In the petition the signers also pledged their cooperation to the commission in keeping cars belonging to them from being parked upon the main business streets. Ample free parking space is now available in the rear of Blunk Bros. store and on property owned by Walter Bronson in the rear of the Mail Office.

The petitioners read as follows: We, the undersigned merchants and business men and women of Plymouth, do hereby petition the Village Commission to create suitable and attractive signs bearing the name, location, directions and information, and community advertising if deemed advisable, at a location or locations designated by said Village Commission.

We, the undersigned merchants and business men and women of Plymouth, do hereby petition the Village Commission to create suitable and attractive signs bearing the name, location, directions and information, and community advertising if deemed advisable, at a location or locations designated by said Village Commission.

We, the undersigned merchants and business men and women of Plymouth, do hereby petition the Village Commission to create suitable and attractive signs bearing the name, location, directions and information, and community advertising if deemed advisable, at a location or locations designated by said Village Commission.

We, the undersigned merchants and business men and women of Plymouth, do hereby petition the Village Commission to create suitable and attractive signs bearing the name, location, directions and information, and community advertising if deemed advisable, at a location or locations designated by said Village Commission.

## THE SPRING SMOKE

That smell of burning things in spring is good. Sometimes an old rubber gets into the fire but on the whole the smoky haze from burning grass is one of the sensations of life. It means that winter is gone. We have smoked the old fellow with his frosty whiskers out and we are ready to welcome spring.

The only thing to look out for is that the fires do not spread. It is easy for burning grass to ignite a house. It is common for a little fire to burn down forests and threaten towns. That happens every spring. Be careful.

## PROTECT YOURSELF

An official of the American Automobile Association says that one reason why we have more auto accidents than we should is that too many drivers from our smaller towns and rural communities do not use hand signals when driving. Accustomed to driving where traffic is not very heavy they lose sight of the value of hand signals, and when they get into heavy traffic they neglect this important means of protecting both themselves and the other fellow. There may be a good deal in this. It at least is worthy of the consideration of every Plymouth motorist. If you use hand signals faithfully here at home you are sure to use them when you get away from home, and whether traffic is heavy or light there is no excuse for not using them. It is the only way the other drivers have of knowing what you are going to do. It safeguards your own life and property as much as it does the other fellow. Why not use them all the time, regardless of where you are

## IT IS NOT SO ESSENTIAL

We place too much stress upon money. The best things in life are not those things which cost the most.

In the matter of public health, money may be essential to treat disease, but not so necessary to prevent it. The essentials to good health are exercise, fresh air, sleep and plain food. Exercise is free to those who have energy enough to seek it. Fresh air abounds—except in a few of the larger cities where the summer heat oppresses. Plain food costs money, but not as much as many foods of the expensive sort. More people should eat more of that which costs less. And sleep is cheap too. Most people burn the candle from both ends and complain of being tired.

In happiness there is no need for expense. Those whose pleasures are based upon too strong a financial basis or demand, are living falsely. Happiness must be found in one's own attitude. Then the common things of life become sources of entertainment and pleasure.

Money, to some extent, is essential. Too many stress its importance too strongly.—Grand Rapids (Minn.) Herald-Review.

## OUR KIND OF FUN

We may not have as many attractions as the big city boasts in the way of shows and night clubs, but thanks to a kindly fate what entertainment we do have is clean. And that the day of clean fun and amusement is far from being past is evident on all sides.

The radio brings to Plymouth homes such clean and entertaining broadcasts as "Amos 'n' Andy" and it is identically the same as radios in city homes record. We get the famous Paul Whiteman orchestra and the magnificent music provided by Atwater Kent; the same thrilling playlets that make Collier's famous on the air—and all at the same instant the big city gets them. In the matter of movies, those responsible for their showing here are not offering them wholly for the money they can get out of them, regardless of what effect they might have on our boys and girls. They must be clean, and with a limited population to cater to and hundreds of films to select from it is possible to see that only clean ones are displayed.

Good, clean amusement has just as many friends today as before the "jazz age" brought out commercialized filth and suggestiveness. In the big city the amusement promoters, putting the dollar ahead of everything else, give the public what they want the public to have—and make them like it. Here the public gets what it demands. And we are glad that it demands clean fun because so long as it does we can rest assured that the community is going to remain clean.

## MORE MONEY PER ACRE

Figures recently given out show that Minnesota hens laid eggs last year worth twice the grand total of the state's wheat crop.

There may be more back of this statement than the average Plymouth citizen can see at first glance. It may be the beginning of a method that will eventually change our entire farming system. No question but that land owners are now, more than ever, trying to get all they can out of an acre of ground. Raising chickens and marketing them along with the eggs, running a dairy and marketing milk and cream and butter, doesn't mean any easier work than producing corn, wheat, cotton or fruit. But the land investment is smaller and, as Minnesota figures will show, the profit on an acre of ground is greater.

Eventually agriculture may adjust itself to the point where every rural worker is a specialist in some particular line. Instead of sticking to the old crops he may raise a commodity on a few acres that will, in the long run, net him far more money for the same amount of labor. In that way, too, grain, cotton and fruit growing, as well as the raising of live stock would no longer be over-crowded fields. Those who did elect to continue in those lines would find it more profitable and not so apt to be jeopardized by over-production. It's something to think about, and something that may come to pass in this country far more speedily than we now imagine.

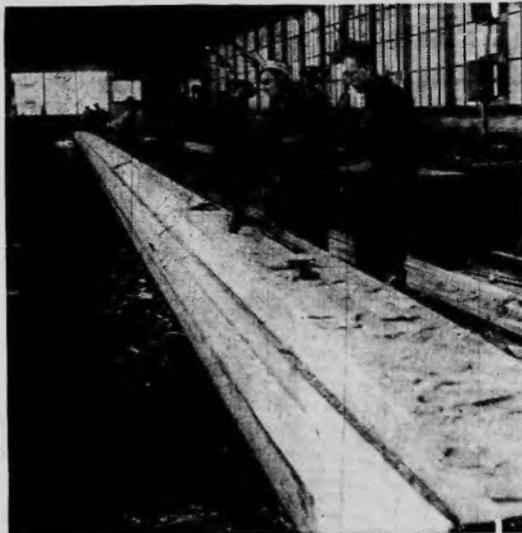

## TILTING COFFEE PRICES

Now that we're going to have to pay a little more for our sugar as the result of an increased tariff, passed primarily to protect the American industry, the chances are that the cup of coffee that goes with it will also soon be coming at a slightly higher price. Brazil furnishes the U. S. sixty percent of all the coffee consumed here, and we drink one-half of all that's consumed each year. Brazilian coffee magnates joined hands a few weeks ago with other coffee-producing countries with a view to tilting the price. But coffee drinkers around Plymouth need not accept this statement with a frown. Like the increase in sugar prices, the coffee raise will be so widespread as to be hardly noticeable. It will mean increased millions to the sugar and coffee producers, of course. But the spread will be so great that in reality it will amount to but a few cents more each year from the individual consumer. So there really will be no cause for complaint, so long as it stops there and the producers do not accept it as an invitation to "gouge."

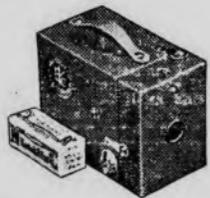

## ANOTHER SECRET OUT

We've always argued that experimenting with new crops is worth the time and money spent on it. Here comes a newspaper dispatch to prove it. The article says Joe Gingrich of Washington county, Iowa, planted 8½ acres in mint last season and his profit was \$150 on each acre. Mint is planted like any other row crop in the spring, and cultivated the first season. It spreads by root growth and after the first year covers the ground. One planting is good for from five to seven years. Gingrich mows his crop twice a season, and with a steam engine, coil and tank of cold water for condensing the steam and oil vapor, he extracts the mint oil. This he sells. He dries the residue and says his horses devour it readily. Even sheep will not eat the growing plants in the field. Chalk up another victory for the fellow who is always looking for new ways to make old Mother Earth return him a profit.

## Mast for America's Cup Defender

Workmen at Nevins shipyard, City Island, N. Y., making the mast for the yacht Enterprise, which probably will defend the America's cup this year. The mast is 168 feet long and is made of many pieces of the finest spruce glued together. The tang fittings are of monel metal.

This Handsome Camera and a Roll of Kodak Film  
**FREE!**

...TO ANY CHILD WHO REACHES THE AGE OF TWELVE THIS YEAR

No Red Tape, No Delay,  
Nothing to Buy—But  
Act Promptly Before  
Our Supply Is Exhausted

TO COMMEMORATE the Fiftieth Anniversary of Kodak, we have been authorized by the Eastman Kodak Company to give absolutely without obligation a limited number of splendid new cameras to boys and girls whose twelfth birthdays fall in 1930.

There are no strings tied to the offer. Our cameras will be given away as long as they last during the month of May. There will be no delay. Any child who can qualify and who is accompanied by a parent or guardian will receive his or her camera—

with a fresh roll of Kodak Film—at once. If there is a youngster in your family who has reached or will attain the age of twelve this year, see that he or she calls at our store during May for the free Eastman camera and roll of Kodak Film. Our supply of these gift cameras is limited, and may last but a very short time; therefore it is advisable to act promptly to avoid disappointment.

We can obtain no more cameras once our present stock has been exhausted.

MIDGET OF ROAD IS MADE COLLAPSIBLE

A woman rider starting out in a portable collapsible cycle car with a three-speed gear and a front brake, a recent innovation in London, the popularity of which is increased by the fact that it is taxless.

CITY DRAINAGE SYSTEM IMPORTANT TO HEALTH

FEW CITIZENS REALIZE VALUE OF GOOD, SUBSTANTIAL SEWER NETWORK.

While the more recently built public sewers in Detroit have lately come in for a great deal of comment, and that not very favorable, it is interesting to note that the brick sewers built in the older sections of the city, some as long as 80 years ago, are still functioning perfectly and have been free from troubles since the time of their installation. This is no mean record. One of the important things in the life of the residents of cities, and their suburbs, is the matter of proper sewerage facilities, not only from the stand-

point of comfort and convenience, but from the standpoint of sanitation and health, which is paramount to all other considerations.

Details Are Vague. To the average citizen, the details of a proper sewerage system are vague and more or less unthought of, particularly when that system is serving its purpose well and is functioning properly. What it is built of and how it is built, and how long it has operated, is of no concern to the householder, usually, unless some trouble develops and he becomes personally inconvenienced, or the matter is in some way brought to his attention, such as the payment of taxes,

Painted Floors Help Beautify the Home

Too often floors are considered simply as a resting place for furnishings rather than as a part of the decorative scheme. They can add much to the gaiety and charm of any room. For bedrooms, sun parlors or the informal breakfast room painted floors are particularly good. Picture the charm of a bedroom with a floor of soft green, blending with dainty green furniture and mottled walls with a touch of the same shade, or a sun parlor in yellow. Even the kitchen may well have a gaily painted floor.

In which sewer construction assessment is included.

Brick sewers in Detroit, according to the Detroit Brick Manufacturers' association, have a very interesting history covering a period of at least 80 years when, according to city records, the first sewers were built, and the growth of Detroit began to place it in the city class.

These records show that in 1847 the first sewers were built, of brick, to serve a small area, within what is now the half mile circle from the Detroit river. This was the beginning, in a small way, of a carefully constructed system which grew rapidly, and was gradually extended to meet the growth and needs of the increasing population.

Installed in 1847. The records show that each year, from 1847, new main brick sewers, under the principal streets, such as Woodward avenue in 1847, Michigan avenue in 1848, Grand river avenue in 1849, Randolph street in 1852, Congress street in 1853 and Shelby street in 1856, were installed, beginning with those of three-foot size and increasing in size 4, 5 and 6 feet, as needs demanded, while small lateral brick sewers feeding into the main sewers were being built under the alleyways of the commercial downtown section.

Fourth street sewers of brick were commenced in 1848, Brush street about the same time, with extension in 1852; Michigan avenue extension as far west as Sixth street in 1850, while brick sewers in Cass avenue were commenced in 1860, running as far north as Grand River avenue. In 1872-3 brick sewers were being installed as far west as Fourteenth street, as far east as Chene street and as far north as Canfield avenue. Succeeding years, the records show, provided for many extensions to these sewers to what was, in the '70s and '80s the outskirts, but which are now practically in the downtown section, and which are now taking care of a demand far exceeding the contractors' greatest dreams—and the city's expectations.

Sewers Hold Up Well. The interesting thing about these sewers, is that most of them were built in rings of only one thickness of brick or about 3 1/2 inches thick and that they are all functioning today, in as good condition, apparently, as when they were built, 50, 60, 70 and 80 years ago.

"Detroit's brick sewers have given considerable satisfaction and have more than met the demands for which they were installed. Wherever they have been used there has been uniform service given," says the association. "Trick, a unit of burned clay, is particularly adaptable to sewer use, on account of its not being subject to the deterioration of acids and its resistance to chemicals and other deprecatory agents."

France has 5,000 miles of navigable rivers joined by 3,000 miles of canals.

THE MOTOR QUIZ

(How Many Can You Answer?) Q. What period saw the greatest improvements in agricultural machinery? A. During the past 50 years. Q. Do old spark plugs reduce horse power of motors? A. Yes. Manufacturers advise changing spark plugs at 10,000 miles. Q. How much is New York state's road appropriation for 1930? A. It calls for \$32,000,000, one of the largest in its history. Q. How do roads affect tires and tubes? A. Estimates show that where \$1.00 is spent for this item on high type roads the cost is \$2.22 on intermediate type roads, and \$2.90 on low type roads.

Combined Screens and Curtains Camping Help

For those who occasionally sleep in their cars on week-end camping trips, beach parties, etc., the combined screens and curtains shown in the drawing will be found a great convenience. The screen frames are

Combined Screens and Curtains for Car Windows Are Found Convenient by Campers.

made of light wood to fit the windows and the curtains may be of the spring-roller type, or simply pieces of suitable cloth fastened to the screen frames by means of hooks. The curtains are useful as sunshades.—Popular Mechanics Magazine.

Weather Given as One Reason for Tire Wear

The prime causes of the tread wear are high speed, temperature and weather, starting and stopping, and improper inflation. Speeds can be reduced, tire pressure can be kept at the proper mark, and quick starts and stops can be reduced, it was pointed out. The weather, naturally, cannot be controlled, and the tire owner who lives in a hot, dry climate must expect to get less mileage than the motorist who lives in a locality where cool and wet weather prevails.

AUTOMOBILE FACTS

A rim will cut through the best rubber if the tire is too soft. Maintain the proper pressure and you won't be troubled with rim cuts.

America has an automobile for every seven persons and only one bathtub for every twenty. Which shows our preference for outdoor sports.

"A Texas goat makes a specialty of eating motor tires." We have several unusually tender tires around the garage which are of no further use to us.

It has been predicted that the price of tires is going up. That means that the destruction of tires through underinflation will be more expensive than ever. And you can't maintain the right inflation unless you check your tires with a gauge regularly.

Sophistication in the Spinach

Some thoughtful soul has designed away to add to the general attractiveness and palatability of our old friend and vitamin-splendid spinach! He places two of three sections of grapefruit atop each serving of spinach, lending to the lowly vegetable an agreeable tart taste and a note of style not usually found in our healthful friend. By using the ready-to-serve grapefruit, the sections may simply be lifted from the can at serving time, with no fuss or bother.

AROUND ABOUT US

Michigan ranks third in the United States in the use of fur production. Plans for a combination volley ball, tennis courts and skating rink for Dearborn were presented to the council last Tuesday night, by the department of public works and improvement.

Edward J. Gleason, who died at Ovid recently, had an unusual record as a rural mail carrier. Up to March 16th last when he celebrated his 27th anniversary in Uncle Sam's mail service, he had traveled 237,300 miles, riding horses, bicycles, motorcycles and the automobile to cover his route at different periods. He served eight years beyond the period of retirement at age 63.—Brighton Argus.

It is rumored that Highland township may have a new school building sufficient in size and equipment to care for a twelve grade school.

Forty-one thousand, six hundred and forty-two tons of coal are used annually to heat and light the University of Michigan.

Thieves entered Earl Grubb's hen house in South Lyon last Tuesday night, taking 180 chickens. Entrance was gained by prying the lock and fasteners of the door.

The Washtenaw Tribune which has been published semi-weekly, is now a tri-weekly, being published on Mondays, Wednesdays and Fridays.

The senior class of South Lyon left last Saturday, for their annual trip to Washington, D. C.

William B. Shaw, director of alumni relations of the University of Michigan, in an address over WWJ last Saturday, told of the plans of the first Alumni University to be held for her 70,000 alumni and former students during the week following commencement in June.

Plans calling for the expenditure of \$12,000,000 for the expansion of Eloise Infirmary during the next five years, is proposed by the Wayne County Board of Supervisors and Superintendents of the poor.

Following the Easter services on Sunday, work was begun at midnight of tearing down the St. Aloysius church in Detroit, which has stood for a period of sixty years. It will be rebuilt.

Paving on another section of Outer Drive will begin on or shortly after April 18. Trees, shrubbery and flowers will be planted and boulevard lights placed at the side to correspond with the sections of the Outer Drive already completed.

There were 36,816 marriages performed in Michigan during 1929 as compared with 37,300 in 1928, according to the returns received by the department of commerce.

Plans are being made for addition and improvements to three Redford schools which will cost nearly one million dollars.

Increases of salaries of teachers of Dearborn School District No. 1 amounting to \$7,630, were adopted last Monday night at a second session of a special meeting of trustees of that district. This increase will affect 114 teachers.

Students at the U. of M. will be asked to contribute \$3,000 toward the annual summer camp for boys, which is sponsored by the University. The remainder of the \$8,000 required will be furnished by faculty members. More than 2500 poor boys, mostly from Detroit's slums, have been given the benefit of this camp.

The income of the University of Michigan during the past year totalled over nine million dollars.

Many wires collapsed and 100 telephone poles were down between South Lyon and Plymouth and Howell after the ice storm last week Tuesday night.

According to an announcement made last Wednesday by Edsel B. Ford, president of the Ford Motor Co., all designs of Ford tri-motor planes were reduced from \$2,000 to \$5,000.

UNUSUAL SMOOTHNESS and handling ease in this Eight with SUPERIOR PERFORMANCE Oakland's V-eight engine has an extremely short, rigid crankcase which supports the bearings in accurate alignment. The crankshaft too is very short and sturdy, and has no torsional vibration period within the speed range of the engine. This means that no matter how fast you drive, the New Oakland Eight runs smoothly and quietly. Its smoothness is increased by a complete down-draft fuel system—new type cylinder heads assuring uniform combustion—and steel spring and rubber engine mountings. You will also find this car exceptionally easy to handle. And its delightful comfort is assured by long springs, Lovejoy Hydraulic Shock Absorbers and spacious Fisher bodies. But you should actually drive this newest General Motors eight—the car with superior performance. For only at the wheel can you learn how many important advantages it now enables you to enjoy in an eight of very moderate price. The New OAKLAND Smith Motor Sales 1382 S. Main St. Phone 498A

### Penniman Allen Theatre Plymouth, Michigan MOTION PICTURE PROGRAMS

#### "THE LOST ZEPPELIN"

The peril of Commander Byrd and his party in the South Polar regions is strikingly illustrated in "The Lost Zeppelin." Tiffany's great all-talking special, filled with thrills, and adventure and romance, which will be shown at the Penniman Allen Theatre, Friday and Saturday, April 25 and 26. Conway Tearle, Virginia Valli and Ricardo Cortez are featured in this production.

"The Lost Zeppelin" deals with a huge dirigible which sets to the antarctic regions and is wrecked in a blizzard. All of those in the party but two perish. The picture shows the appearance of "Little America," as Byrd has named the antarctic continent, and of the grim battle with the elements there. Through the amazing adventures runs a powerful love story in which the wife of the Zeppelin commander figures. She believes she is in love with her husband's aide on the exploration trip. The husband learns of this and, when an aeroplane comes to the rescue, but is able to carry away only one passenger, he insists that his aide make the trip back to civilization. The ending of the story is a decided surprise.

#### "HELL HARBOR"

That gay lusty madcap of a Mexican girl, Lupe Velez, will come to the Penniman Allen Theatre, Sunday, Monday and Tuesday, April 27, 28 and 29, where she will appear with Tom Hersholt and John Holland in "Hell Harbor," the United Artists-Inspiration conception of what it is like for a young girl to match her wits with a mercenary father and an avaricious trader.

The story brings one back to those glamorous days when pirates really had cutlasses and black-eyes. It winds its way thrillingly through a

series of murders and scrimmages and concludes as all stories conclude—with the vivacious Lupe fast in the arms of her man and the moon shining down upon them. But there is really substance to the tale. It recounts the hardness of a father to his daughter and of his attempt to marry her to his own monetary advantage; and of her refusal to bow to his selfish will.

Acted to the hilt by the cast which includes, besides Miss Velez, Jean Hersholt and John Holland, also Gibson Gowland, Harry Allen, Al St. John, Paul Burns and George Book-Asta. "Hell Harbor" also has the distinction of having been made completely outside studio walls, most of the scenes having been shot in a romantic setting outside Tampa, Fla. Pictures of scenes aboard a merchantman at night have been etched with artistic understanding.

#### "DANCE HALL"

If ever Margaret Seddon had a "hard road to travel" during her long, eventful career she gives no evidence of it now except in her sweet, sympathetic understanding of human nature.

In "Dance Hall," Radio Pictures' all-talking, singing, dancing drama of youth, coming to the Penniman Allen Theatre, Wednesday and Thursday, April 30 and May 1, Mrs. Seddon gives an excellent portrayal of a mother whose son loves a little dance hall "hostess" and who solicits his mother's aid in winning her affections.

Arthur Lake plays the son; Olive Borden the "hostess."

Mrs. Seddon has become famous for her interpretations of "mother" roles on the screen and has taken a maternal interest in stars of such magnitude as John Gilbert in "The Sign" and Marion Davies in "Quality Street." She is a native of Washington, D. C., where her family has lived for gener-

#### Novel Camping Trailer Made Quite Convenient

A novel camping trailer has been produced in England which is hailed with delight by lovers of the outdoors.

Handy for Campers.

The trailer, compact, when closed, is attached to the rear of the automobile. When opened, as shown above, it contains plenty of head-room for preparation of food, and for sleeping.

ations, and has had wide stage experience.

Recently she was seen on the West Coast in "An American Tragedy," and prior to that was under contract at various times to David Belasco, the Shuberts, and Wm. A. Brady.

Supporting Miss Borden are Joseph Cawthorn, Ralph Emerson, Lee Moran, Tom O'Brien, and Helen Kaiser. Mel Brown directed.

#### Wayne Road News

Mr. and Mrs. Alfred Burger are the proud parents of a new son. Their many friends wish them much happiness.

Miss Phyllis Mecklenburg had a very enjoyable motor trip to California and return. She had many tales to tell which were well worth hearing.

Little Virginia Greubner, who has been ill a good part of the winter, has the sympathy of many friends.

Emil Lovie has the sympathy of his many friends in his illness. All wish him a speedy recovery.

Mr. and Mrs. Ralph Carr and daughter, Barbara, with Miss Helen Carr and Miss Thomas called on Mr. and Mrs. Robert Schmittling, Thursday evening.

Howard Mecklenburg has suffered a relapse of the mumps.

Robert McKee is getting along nicely with his new home.

Mrs. Robert Schmittling spent Tuesday in Detroit.

Mr. and Mrs. George Mott were visitors at the home of their daughter and husband, Mr. and Mrs. William Koch, on Wayne road, Sunday.

#### Salesmanship

A youth recently mounted the net-work of Brooklyn bridge with the evident object of ending it all.

"Come back," called a big-hearted sailor, "you have everything to live for."

"I ain't," retorted the youth, climbing still higher.

"Aw, come on down and we'll talk it over. Life ain't so worse."

A little more coaxing, and the intending suicide relented. For fifteen minutes life was discussed in all its chameleonic aspects. Then they arose—and both jumped off.—Army and Navy Journal.

Display advertising pays—Use lots of it.

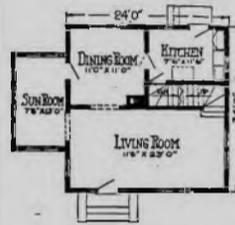

#### Modified Dutch Colonial Home in Shingles Is an Attractive Design

By W. A. RADFORD

Mr. William A. Radford will answer questions and give advice FREE OF COST on all subjects pertaining to practical home building, for the readers of this paper. On account of his wide experience as editor, author and manufacturer, he is, without doubt, the highest authority on all these subjects. Address all inquiries to William A. Radford, No. 407 South Dearborn Street, Chicago, Ill., and only inclose two-cent stamp for reply.

One reason for the popularity of the Dutch colonial type of architecture is that it gives an attractive exterior with very little, if any, waste of inside space. The roof lines are broken by dormers which extend the length of the building on both front and back.

First Floor Plan.

Second Floor Plan.

so that the house appears small but is in reality a two-story home.

While the shingled home shown in the accompanying illustration has the appearance of a Dutch colonial, it will be noted by the floor plan that it is slightly different. In the true Dutch colonial the living room usually runs at one end through the depth of the house; the entrance door is in the center and the dining room and kitchen

on the opposite side. In this design the standard colonial floor plan has been changed so that the entrance door is at one end and leads directly into the living room which extends the length of the house rather than the depth.

The floor plan which accompanies the exterior view of the house shows

the arrangement of the five rooms the house contains and the size of each one. It will be noted that the living room is 23 feet long and 11 feet 6 inches wide. At one corner runs a cased opening to the dining room, 11 feet square, and to the right of it is the kitchen, 7 feet 6 inches by 11 feet 6 inches. A fine feature of this home is a sun room, which is 13 feet by 7 feet 6 inches wide. Almost continuous windows make it a light, airy sitting room. It is connected with the living room by a cased opening, and there is a doorway into it from the dining room.

The stairs lead to a central hall on the second floor off of which opens two bedrooms. The one at the front is unusually large and the other is of convenient size.

#### HOME MODERNIZATION BIG EMPLOYMENT AID

OWNERS URGED TO MAKE IMPROVEMENTS NOW TO RELIEVE SITUATION.

By L. E. West

If you have a fence to rebuild, a garage or house to be repainted, a sidewalk to be built, new screens to be made, a roof to be repaired, a lawn to be regraded or resodded, home alterations to make, now is the time to get them done in order to give more men something to do. That in brief is the plea now being made by city officials to the people of Detroit as a measure to relieve unemployment.

This home modernization and rehabilitation idea is growing into a huge business. The man who spends \$20 or \$100 on the betterment of his property may be inclined to feel that the sum is rather insignificant when compared to the \$90,000,000,000 representing our national income, yet those most thoroughly informed tell us that the alteration and repair business will normally grow into an annual expenditure of more than \$1,500,000,000 within the next year or two. President Hoover has estimated that if all the modernization jobs that need to be done in America were completed within one year the task would involve the expenditure of the truly staggering sum of \$20,000,000,000.

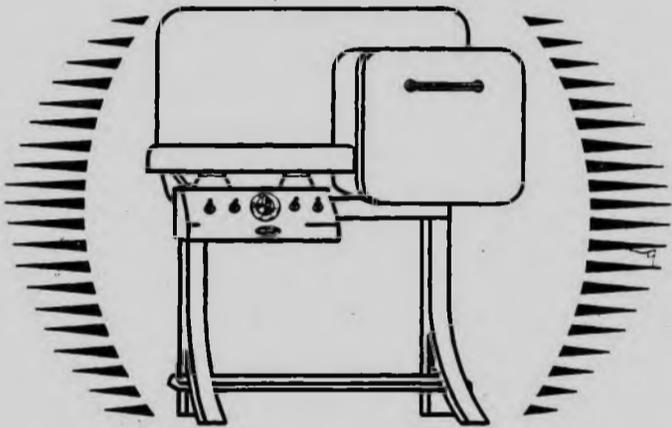

Modernization Studied. Some studies have already been made of home modernization work. In Minneapolis, for instance, an analysis of 65 jobs which included all sorts of repair and modernization work showed an average cost of \$1,182. F. W. Dodge corporation estimates \$1,000 as the average cost per repair project

where modernization on a thorough going scale is attempted. Referring again to the Minneapolis analysis the findings were that 21 modernization projects were complete jobs averaging a total cost of \$2,413; 17 other jobs specified extensions, new rooms, porches, etc., at an average cost of \$725; 19 others involving new plumbing, wiring or heating systems averaged \$424 per job; while 11 averaged \$332 per project, which included redecorating, re-roofing, etc. Estimates also show that approximately one-half of the total cost of rehabilitation work in homes goes to labor.

Aside from the increased comfort and the enhanced pride of possession arising from the modernized home, there is the highly important factor of increased value or stabilized value. Mortgage companies are more apt to feel favorably disposed toward lending money on homes kept up to the moment, or to renew mortgages on more favorable terms where such mortgages already exist. Builders and realtors admit that some mistakes have been made in the past in the merchandising of homes on a speculative basis, encouraging the buyer or owner to place upon his purchase a false or fictitious value.

As one of these men recently stated: "A home was never meant to be sold as a thing of speculation. Contrarily, a home is a thing of utility, subject to depreciation as is any other structure." Home modernization tends to ward off depreciation and in hundreds of cases has actually added value to the property. One case cited shows that an old home, conservatively valued at \$2,600, was brought up to date with an expenditure of some \$2,300, and was later conservatively valued by a mortgage company at \$6,000, or a net increase in value of \$1,100, and this increased value can

# "A Thing of Beauty"

REFLECTING the trend toward beauty in the kitchen, ELECTROCHEF sets a new standard for electric ranges. Designed on modern lines, it makes an attractive piece of kitchen furniture. You will be proud to show it to your friends. ELECTROCHEF is finished completely in gleaming white porcelain, and all metal parts are of mirror-like Chromeplate. Every unnecessary detail has been eliminated, and the result is a structural simplicity that not only gives an attractively distinctive appearance but also greatly facilitates cleaning. Its smooth surfaces and rounded corners make scrubbing and polishing unnecessary—wiping with a damp cloth instantly restores the original luster. Its remarkable cleanliness—as easily cleaned as a china dish—is a never ending joy to women.

Focused radiant heat—a prime feature of ELECTROCHEF—brings unbelievably fast cooking, amazingly clean cooking, with heat as clean as sunlight. You can broil a 1½-inch steak perfectly in 12 minutes; the oven comes up to 400 degrees in less than 6 minutes. No longer need you say, "Electric cooking is ideal but we cannot afford it". Cooking with ELECTROCHEF costs about one dollar per month per person—frequently less, seldom more. Ordinary care in the control of heat may greatly lower this cost. ELECTROCHEF is being introduced at this extraordinary price

because of The Detroit Edison Company's desire to encourage electric cooking in the homes of its customers. It is only possible because of long planning by engineers and the use of mass production methods. See this remarkable range today.

be, and frequently is, used as a basis for reconstruction finance.

**Staffs Maintained.** Many builders specializing in residential construction throughout the country have maintained their staffs and done a most unusual business during the recent slump in residence construction by aggressively going after this modernization work. Anyone spending an hour or two driving through Detroit's residential districts could observe millions of dollars of modernization and rehabilitation work that should be done and will be done when some constructive thought and concrete work is applied to the project. Here is a vast market waiting to be developed—a market that can be measured in terms of billions of dollars.

#### Candied Peel

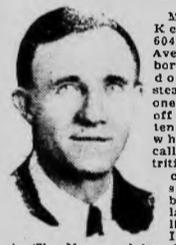

Rind, water, sugar. Cut the rind into long strips, cover with cold water and bring slowly to boiling point. Drain. Measure the rind, add an equal amount of sugar and just enough boiling water to cover, simmer until the rind is tender and clear. Cool, drain from the syrup and roll in granulated sugar. Spread them out to dry for several hours and roll again in granulated sugar if at all sticky. Grapefruit peel should soak in cold water several hours before being cooked.

#### Fabric Shoes for Summer

Fabric shoes, with accent on linen, are expected to be the outstanding models for summer.

Approximately 600,000,000 goatskins are produced annually in India.

## CHEVROLET EMPLOYEE Gets Results Quick With Mul-So-Lax

Mr. Galen Keene, of 6044 Hartwell Avenue, Dearborn, says: I doctored steadily for one year and off and on for ten years for what I was called a gastritis and ulcerated stomach, but got no lasting relief. Finally I saw an ad in The News and bought a bottle of Mul-So-Lax. After taking it a few weeks I feel fine, am free from gastritis, eat what I like and no after effects. I am a dye setter at the Chevrolet Motor Company and it is no easy job. I am very much pleased with the relief Mul-So-Lax has brought me. I am glad to recommend it to anyone.

Large bottle Mul-So-Lax, \$1.25 at leading drug Co.

Every concrete block we sell is carefully selected for perfection in every detail. We endeavor to serve the builder in every way. We manufacture only the best.

Hough School Notes

A number of the pupils of Hough school attended Achievement Day at Dearborn last Saturday. There were nine all together that went. Mary Mettetal won over seventy-five girls in the style show for Wayne County. We also won first prize on our hot lunch posters and project. Robert Mettetal won second place in the third year handicraft. There were ten girls in the county who scored perfect papers in Music Memory contest. These ten included two of our girls, Edith and Mary Mettetal.

Mary Mettetal received first prize for third year sewing for Wayne County. We have a new pupil now. His name is Dewey Mack. He is in the fourth grade.

Miss Jameson was here and gave us our test. Tuesday. We hope we improved our score during the year. Barbara Hix, reporter.

The United States imported \$82,600,000 worth of wool and wool manufactures during 1929.

Vital statistics were kept and state medical examinations held in China in 1140 B.C.

ROSEDALE GARDENS EPHEMERALS

J. W. WALKER

The Camp Fire Girls, assisted by the Boy Scouts will, weather and all permitting, tomorrow make their annual collection of old newspapers, so don't forget our girls. If you expect to go out to Plymouth or to "R" grocery or someplace, it would be a good idea to set the bunch out to tell one of the girls or boys and they will make a special trip in the evening or at some other time.

Mr. and Mrs. W. Kenly and Mr. and Mrs. D. Wood had their infants at the baptismal font at our church, Easter Sunday.

Last Saturday some blaukey blanky went by about two p. m. on a motorcycle practicing for the circus or something, as he was standing on the seat with his arms folded on the chest never mindful of the cold winds from the west and the traffic passing him. He was on his way west, and should he have fallen or swerved from his path a few inches he surely would have "gone west" in a hurry. We thought of calling the state police or a doctor or nurse or someone from the Elsie Hospital, but he was out of sight, but not of mind for a long time after passing.

Easter Sunday morning broke bright, clear and fairly warm, and we had the largest crowd ever at our church. All available seats were occupied, and many had to be brought up from the banquet hall to accommodate later comers. Orchestra and the First Baptist choir and our own rendered the "Gaul's Holy City," with all the good things that a dramatic or musical editor or columnist could possibly say about it. The Baptist church in Plymouth had their services or rather a duplication of our services by the same folks in the evening, but the weather man did not treat them as nicely as we were treated, which we think is very mean. Not only for the charisters, but for the female of the species who wished to wear their new Easter bonnets and shoes, etc. However, we are glad of it all, and very thankful for the wonderful music and singing, and the worst that we can wish them is that we demand that these same charisters and musicians get together oftener, and at our respective churches at the same time. We all thank you.

Local Clean-Up week was interrupted very violently by the heavy rains, and the land company's shovelers turned their blades to suspicious mounding which is that for three days and nights the debris gathered so much of the surface water that for five minutes of every fifteen all our pumps were going, the excessive flow was thrown in a wall ten feet in the air. At one time the county drains on the north side of the Plymouth highway, U. S. 12, were so choked that several manholes east of the McKinney corners gushed forth like a geyser in Yellowstone Park. Of course in giving credit where credit is due, we must say that we had "nary a basement damp" for alone wet, that is with rain or drainage water. From pictures in the newspapers of places round and about we viewed some folks being carried away from their homes in boats. The nearest approach to that were some of the youngsters trying out the boats from the shelf where they had lain from last Xmas, and that was only on some of our numerous lakes. These lakes, too, are fast disappearing owing to the nature of the frost free soil and the heavy winds. Let our weather man give us some nice warm sunny days now so our Mosses, Al. Ari, Walt and Adolph may get busy on the shrubbery and trees and finish the clean-up week which is drawing on toward a week.

Some dandelions are in season in sheltered spots, we know what some folks do with some, but what we all can do with so many is a problem for the prolightenmenters.

The Richard Hancherts have moved in their new home on lower Berwick Ave., and the Shoemith's in their big bungalow on middle Ingram Ave., numbered 2823 and 10014 respectively. Many folks are missing the late pill-roller, but never mind, old dear, perhaps you have heard the good news through the underground radio that we will soon have another; perhaps better details next week.

Director Steele of Bodary Orchestra fame, wishes to announce with pleasure on all sides, that the "regular" Saturday evening's elite tyme dancers will continue to hold forth in the local "Water Tower" Dance Hall. If the summer ever comes, and if the evenings are not too warm, they will continue throughout the summer. This Saturday evening dancing has become a regular institution, just like looking for the families or the latest news in Sunday paper, which come along a half hour or so before dance time. So if you have nothing else to do, and like dancing or like dance music or like to watch the folks do their stuff, just come around at any time after eight Saturday evenings.

Small boys, up to the age of three score and ten, have been busy about the gardens lately, thus proving that civilized academics keep in their hearts an unregenerate spot, wherein, if you put your ear against it, you could hear the pleasant sound of chirping birds, bustling bulls, the leafing of shrubbery and the odor of flowers and green grass mixed with white clover, and some good, round, round things when his own dog is just a perfect "angel" (?). In other words, your ear would be up against a garden complex which appears to be a part of the make-up of all the kindly, peaceful Gardenites that you know or don't know.

The chairman pro-tem for or of the Association Against The Red Cans announces that poll of votes appears to be in its favor of the entire repeal of the act permitting them to be placed about avenues. And, now that that has been decided in favor of annihilation of said red cans, certain people folks have already ordered the removal of their particular can. We look for a certain four cylinder fletcher to collect them most any afternoon now.

The Roy T. Mitchells have leased their home at 3810 Blackburn Ave. to Mr. and Mrs. F. T. Kingsley. The Kingsleys are welcomed to the community and to our church. They expect to "move in" about the far famed May Day.

Mr. and Mrs. Ed. Sullivan have moved down Ohio way, as far as Toledo. Their stay is indefinite, and we all will miss them as well as the children.

Mr. and Mrs. Peter Kingsley visited their home last Tuesday afternoon, and found that it was still here, and on the same corner as when they left. They expect to resume housekeeping "in time to fix up the garden."

For those folks who left prescriptions with Jordan and all those who wish to know, his new store is at Montclair avenue and East Warren way out ten thousand six hundred and some odd East Detroit. We wish him better luck there, and hope that from now on all his troubles will be little ones.

The P. T. A. meeting of the eleventh instant, came off with its usual flare of cooking and coffee. It was voted that we should hold a pot-luck supper at our church on Whensdee the 7th of May, between six-thirty post meridian. The children are to have a graduated set of parallel bars immediately if not sooner. A petition will soon be circulated for the assignment of an instructor in music for Wayne County at large and Roseville included. Master Howard Walbridge rendered three selections on the piano-forte very nicely, undoubtedly inheriting his musical ways from his mother. Miss Ethel Belden's class is expected to have a May Day party, pole and all, so we all have been invited to look out for this pleasing event. Miss Wynne was chairman and gave a little talk on her experiences as a community social worker, and Mrs. Reed, our visiting nurse, gave us a nice little talk on her work, explaining the merit badges for everything that they are given for, and informed us that Rose-dale school and children probably would rank very high in all percentages within the scope of the shelter department. (We knew this all the time, but liked to hear it told by an outsider.) The party broke up about pastafteen, and we all went home with a copy of the Michigan Parent-Teacher, Vol. 9, No. 4, which contains some very interesting articles, including the president's message, which Miss Rowe had read for us during a lull in the meeting. Those who did not receive their copy of the M. P. T. may obtain same at the sales office.

Sunday afternoon some "poor little city boys" came out with their mothers and daddies and used the boys' flying field for to fly their kites. This is the first that the field has been used this season, as the Rose-dale boys just fly around and old place as is evident from numerous kites on the Edison lines and trees. Then they learn to go over by the field, which has been set aside for that purpose only, and save the kite for another day.

The land company's shovelers are busy amid the shrubbery beds removing their winter coats of straw, manure, etc., and all the shrubs are beginning to show life in leaves as the spirit of the times moves them, and for the sake of those who have asked about the beds, they contain the following: Syringa Vulgaris Alpa, Crataegus Coccinea, Cydonia Japonica, Forsythia Intermedia Spectabilis, Matus Floribunda, Philadelphia Virginia, the following Rosa: Paul's Scarlet, Park Climber (at gates), Hugon's, Silver Moon, Sprea, Anthony Waterer (pink), Ninebark (bronze), Van Hout t (golden), Virburum Tomentosum, Weigela Rathke. Which all means just what we have and what you will see when they blossom forth in all their glory. Now to go on with the story, the men have shown completed the back lot and be- hind/garage clean-up, and any further deposits made there will stay there for awhile, so do not make any. And, another thing, "Keep off the Grass" is also in order. So please tell all that you may see parking on the grass strips to please do not do so again.

Keep the furnace flues burning, summer has not yet arrived, it was only a radiogram sample, as many a Gar-

ENVOY TO NICARAGUA

Matthew Elting Hanna, who was named by President Hoover to be American minister to Nicaragua, succeeding Charles Eberhart. He is a native of Ohio and was at one time first secretary and charge d'affaires of the American embassy in Mexico.

denite will attest, when he got busy chopping some wood for to light the coals to burn the fire to heat the bungalow or the up and down, having found the fireplace inadequate for the occasion of near freezing temperatures Monday and Tuesday evenings and days.

Bill Davis' men are doing "some job" of masonry work on the McDowell home, and did you wink twice at the brick colors the same as we?

Miss Lucien Williams, Brookline, Mass., high school teacher, won the National Association of Real Estate Boards' \$250 prize for the definition of "What is a Home," with the following: "Home is a domestic sanctuary, wrought out of desire, built into memory, where kindred hands unite the family in sharing labors, leisure, joy and sorrows." But the booby prize of a bunch of violetes went to the Gardenite who submitted hers as this: "Home are the consumption of brain thrums of devotees of Morpheus universally uniform of type amid endless diversity of plan, and with complex multiplicity of detail." Sorta naturally groping of room spaces wandering about a central theme, or kitchen, as it were—parlor, bed rooms, bath, and don't forget the kitchen, which however placed never ceases, even nominally, to be evident. We do not like to say who the author of this tale and prize is, but it is not one of the Realtors' wives, possibly it might be some wife of an artist, that is a culinary artsy fisher or some sort of mechanic.

Agricultural Notes

Scald milk containers daily. Manure for alfalfa land should not contain much straw and should be applied before growth starts. When it is impossible to move brooder house, provide a sun porch on south side of brooder house to keep chicks off the ground.

The place in the rotation that gives the best returns for manure is either on clover sod before corn or on the land after it is plowed for corn. Sweet clover plowed under often increases corn yields 20 to 30 bushels per acre over the previous crop when no sweet clover was plowed under.

The cheapest and most certain method of improving crop yields is by the use of clovers and manure. Some farms will not grow clover without liming. Inoculate your sweet clover at the time you sow it. Freezing does not seem to hurt it. The inoculation will pay for itself many times over in nitrogen gathered per acre.

Where alfalfa is grown on medium to thin soils 150 pounds of superphosphate per acre will usually result in higher yields. Co-operative tests with farmers have shown an increase of about 900 pounds of alfalfa per acre by this treatment.

Do not depend upon corn seed treatments to give outstanding yield increases. Several years of carefully conducted experiments have shown that no corn seed treatment has increased the yield over carefully selected, good germinating seed.

Our idea of paradise would be to live in a world where it took as long to declare war as it takes in this world to declare peace.

Lace or Chiffon Frocks With Jacket or Bolero

With every dress a jacket or bolero is fashion's ultimatum—and frocks of filmy lace or wispy, flowery chiffon are no exception to this rule. The beauty of the matching bolero or jacket is that the wearableness of the gown multiplies in that the afternoon ensemble with the jacket removed becomes a sleeveless evening mode.

Best Plymouth!

Announcement Dry Cleaning

I wish to announce that I have taken over the agency for the Greene's Cleaners and am prepared to give prompt and careful attention to any work of this kind. Our prices are the very lowest, consistent with good work.

Rug and Carpet Cleaning

Dad Plymouth says that the boy who saves his money may be poor day be old and bent but that he'll never be old and broke.

Dad Plymouth explains that the reason our forefathers were better behaved than we are was because they didn't have as many laws to break.

A Nevada man paid \$5 for an old auto and found \$3.90 under the front seat, so he really paid only \$1.10 more than it was worth.

Reading that a German has invented false teeth made out of steel, Dad Plymouth says they ought to come in handy for the fellow who has bitten off more than he can chew.

Tuition fees represented 24.6 per cent of the total receipts of American colleges in 1927-1928.

No Plymouth woman is old until she reaches the age where it doesn't upset her to discover she has forgotten her powder rag.

It has about gotten so in Plymouth homes that daughter is as good at skying at a dish towel as her father ever was.

Dr. Harvey Wiley declares the auto is the poorest of all exercises. Wonder if he ever had a flat tire?

If a corn doctor should write a book we suppose it would consist of nothing but footnotes.

We suppose that about 20 years from now the present younger generation will be terribly shocked by what a younger generation is doing.

One trouble about buying a parachute is that if it doesn't work you haven't much chance of taking it back and exchanging it for another one.

### LOCAL NEWS

Mrs. Anthony Fieger is very ill at her home on Canton Center road.

Mrs. Nettie Dibble returned home last Sunday from her winter's stay in Florida.

Miss Zeta Lawore of Muskegon, Mich., was a guest of Miss Virginia Giles last week-end.

Mrs. William Arsoot and Edward, and Miss Gertrude Fiegl are visiting relatives in Rogers City.

Mrs. James T. Sullivan of Muskegon is visiting her son and wife, Mr. and Mrs. C. T. Sullivan.

John S. Dayton, who underwent an operation last week at the University hospital, Ann Arbor, is recovering nicely.

Betty Jane Housley is spending her spring vacation with Miss Florence Smith and Mrs. Mabel Murdoch near Cherry Hill.

Miss Luella Kees, Gladys Schrader and Eunice Fenner, teachers at the local school, left last Friday night for Washington, D. C.

Mr. and Mrs. Marcellus D. Clement are receiving congratulations on the arrival of a son, Robert D., last Tuesday morning, April 22.

All the Plymouth U. of M. students returned to their studies last Monday morning at the University city, after enjoying a week's vacation at their parental homes.

Mrs. Annie Henderson, who was taken to the St. Joseph hospital, Ann Arbor, Tuesday, was operated on Wednesday, for cataract of the eye. She is getting along nicely.

A small chimney blaze in the home of Luther Passage, east of the village on Ann Arbor Trail, called out the fire department Tuesday forenoon about 10:30 o'clock. Very little damage was done.

Mrs. Claudia Housley of the Housley Beauty Shop, is in Chicago this week attending the Mid-West Trade Show sponsored by the Chicago Hairdressers' Association. She will be home the latter part of this week.

Misses Velma Peiz and Virginia Furber, who are in training at Harper hospital, and Miss Ruth Jenoske of Detroit, visited the former's parents, Mr. and Mrs. William Peiz, Thursday evening and Friday.

Mrs. Charles O. Ball was called to Chicago, Friday, by the death of her cousin, Clarence Kitzman, who died at the Veterans' hospital in Maywood. Burial was held at the family home in Calmar, Michigan, on Monday.

Mr. and Mrs. Forrest Smith have arrived home from Phoenix, Arizona, where Mrs. Smith was confined by illness in a hospital in that city. Her many friends will be pleased to know that she is greatly improved in health.

The Plymouth Artificial Ice Co. has taken the agency for the Kelvinator electric refrigerator, and for the present have one of them on display at W. T. Pettinelli's and Gayle Bros. stores. Watch the Mail for further announcement.

Little Velma Evans entertained six friends on her fourth birthday, last Tuesday afternoon, from 2:30 to 4:30. The little ones enjoyed playing games after which a nice lunch was served by Velma's mother. Velma received many nice gifts. On departing, all wished her many more happy birthdays.

**Kindly Deed Remembered**  
Forty years ago V. King, Cedar Rapids, Iowa, lent me a sobbing boy 20 cents so he could see a show. King received news of a teen's death recently and with it a check for \$2.57. It was the entire estate of the boy he had befriended.

There are 67,200 professors and instructors at universities, colleges and professional schools in the United States.

A Hungarian inventor's device warns of a flat tire by lighting a red lamp on the dash.

**NOTICE OF PUBLIC HEARING**  
Notice is hereby given that a public hearing will be held in the Commission Chamber at the Village Hall, Monday, May 5, 1930 at 7:00 p. m., to hear suggestions and objections to the following proposed public improvements, to wit:

1. Lateral storm sewer in Farmer St. from Adams St. to Karmada St., and extending up Karmada St. from Farmer St. to Junction Ave.
2. Sanitary sewer in Blunk Ave. from Junction Ave. northward to the P. M. Ry. right-of-way, and in the alley lying east of Blunk Ave. from Junction Ave. to the P. M. Ry.

The cost of the above improvements, if installed, will be paid one-third by the village at large and two-thirds to be assessed against the areas particularly benefited by the proposed installations.

The following lots and parcels of land are deemed to receive a special benefit from the installation of the proposed improvements, and thus to be properly assessable for the cost thereof, to wit:

1. Farmer-Karmada Storm Sewer: Lots 1 to 30 inclusive, Mary K. Hillmer Addition and lots 1 to 3 inclusive, Thomas Subdivision.
2. Blunk-Ann Sanitary Sewer: All lots and parcels of land upon both sides of Blunk Ave. and upon the west side of Ann Ave. from Junction Ave. to the P. M. Ry. right-of-way.

All persons interested in the above proposed improvements will be given an opportunity to be heard relative thereto.

A. J. KOENIG, Village Manager.

**PROBATE NOTICE**  
No. 154954  
STATE OF MICHIGAN, County of Wayne, ss.  
At a session of the Probate Court for said County of Wayne, held at the Probate Court Room in the City of Detroit, on the nineteenth day of April in the year one thousand nine hundred thirty.

Present, Lewis R. Palmer, Judge of Probate.  
In the Matter of the Estate of AUGUSTA MARY MIEHLBECK, deceased.  
On reading and filing the petition, duly verified, of David H. Keel, executor under the last will and testament of said deceased, praying that he be licensed to sell certain real estate of and decedent for the purpose of paying the debts and expenses of said estate.

It is Ordered, That the nineteenth day of May, next at ten o'clock in the forenoon, at said Court Room be appointed for hearing said petition, and that all persons interested in said estate appear before said Court at said time and place to show cause why a decree should be granted to said executor to sell real estate as prayed for in said petition. And it is further ordered, That a copy of this order be published in some newspaper published in said County of Wayne, in the Plymouth Mail, a newspaper printed and circulated in said County, on the day of this order.

DAVID H. KEEL, Executor.  
(A true and correct copy of the foregoing order is on file in said Court Room.)

### May Day Will Be Child Health Day

(Continued from page One)

diseases spread by flies. (4) Maintain sanitation and provide inspection of tourist camps.

Make this a May Day survey. B. Smallpox and Diphtheria.—If your community is rural or urban, it has means of protection against communicable diseases. (1) What can be done to get 100% vaccination against smallpox? What is being done? (2) Children, from the age of six months, can be protected against diphtheria. Can immunization by toxin-antitoxin be procured from your local physicians and health centers?

(3) Have you had your own children immunized? (4) Do you urge your neighbors to have their children immunized? (5) Some communities do not have any deaths from diphtheria. If parents unite to cooperate with private physicians and state and community health workers, all the children can be protected against diphtheria. On May Day set this as your goal for the next year.

C. Milk.—Clean and safe milk for you and your children can be insured by pasteurization and by the passage and enforcement of proper ordinances or laws. A number of communities have united on May Day to secure the safeguarding of the milk supply.

Parents and Recreation.—Facilities for recreation of the proper amount, of the right kind and in the right place are essential to a well-rounded child health program.

(1) Proper play space at home, both within doors and without, is necessary. Make a May Day rally.

(2) Proper playground space under proper direction is necessary for group games. A survey of recreation facilities, made by parents is an excellent May Day contribution. Follow the survey up by plans to provide the right kind of additional space if this is needed.

(3) Dramatic and musical clubs for the adolescents can be fostered by parents on May Day, 1930.

Parents and the Schools.—Children's health, both of body and spirit, is affected by their life at school. The greater the cooperation between parents and the school, the better it will be for the children.

(1) Make a resolve to get acquainted with your children's teachers on or before May Day.

(2) Familiarize yourselves with the school's program, especially the health program.

(3) Plan to respect and practice at home the health principles taught by the schools.

(4) Make yourselves home-aids to supplement the school's safety education (protection against accidents).

(5) Become informed about the school system of your community—who are members of the school board, who is the superintendent of schools.

### Municipal Notes

BY THE MANAGER

Attention of interested citizens is called to the notice of public hearing in another column of this issue, covering the proposed installation of a storm sewer in Farmer St. from Adams St. to Karmada St. and in Karmada St. from Farmer St. to Junction Ave. and of a sanitary sewer in Blunk and Ann Ave. north of Junction Ave.

Persons desiring to dump rubbish, etc., may do so any day of the week at the east end of Burroughs Ave. in this section.

### D. A. R. Notes

The Sarah Ann Cochrane Chapter, Daughters of the American Revolution will meet at the home of Mrs. H. Daerr, Harvey St., at 2:30 o'clock Monday afternoon, April 28. Reports given by Mrs. D. T. Randall and Mrs. Nettie Dibble, who have just returned from Washington.

### WHITBECK'S CORNERS

Mr. and Mrs. Williams of Ann Arbor were week-end guests of Mr. and Mrs. Otto Roe of this place.

Mrs. Hamilton and daughter-in-law, Mrs. Grant Hamilton of Detroit, also her daughter and husband, Mr. and Mrs. Fred May of Boulder, Colorado, were guests of the former's sister, Mrs. Parrish of Robinson Sub., last Wednesday.

Linwood Dethloff celebrated his fifth birthday last Tuesday, when he entertained several little girls and boys. He received some very nice gifts from his little friends.

Phyllis Roe is confined to the house with chicken-pox.

Mrs. LaGron is on the sick list this week.

Donald Schille does not improve as fast as his many friends would wish. He is again in bed.

Mrs. Agnes Parrish spent Easter Sunday at the home of her daughter and family, Mr. and Mrs. Otto Kaiser, on Golden road.

Linwood Dethloff spent Saturday and Sunday with his grandparents, Mr. and Mrs. Henry Klatt of Perrinville.

Mr. and Mrs. Gerald Hix and two daughters were calling on Mr. and Mrs. Otto Roe, Saturday.

Mr. and Mrs. George Smith of Sheldon, spent Friday afternoon at the home of their sister, Mrs. Parrish.

What has become of the old-fashioned Plymouth man who kept his neck-seam pipe covered with a chain-link jacket so it would "color"?

Our idea of a saint is a man who can be continued for any office by the United States senate.

If feminine feet ever have anything to say about it we'll bet the shoe stores will be selling larger sizes than they are now.

Never whip your little boy for lying. He may grow up to be a successful seed catalogue writer.

If it is true that nobody loves a fat man then how does it come that Babe Ruth draws down a salary of \$80,000 a year?

And then, too, in the spring a Plymouth boy's fancy lightly turns to thoughts of dodging work.

### Rosedale Gardens

Mrs. Joseph Schroeder

Mrs. A. C. Burton, Junior Past Matron, presided at the public installation of officers at the Flindler Tent in Detroit, April 17. Mrs. Burton was presented with a beautiful jewel and many other gifts and flowers including a beautiful electric coffee set. Miss Evelyn Porteous, daughter of Mr. and Mrs. R. Porteous of Blackburn Ave., gave several very good 70-cent sales at the installation.

Perry Gray of Berwick Ave. is now employed by the Hilsen Creamery Co. in this section.

Mr. and Mrs. Hanchett are now in their new home on Berwick Ave. The Bi-Weekly Bridge Club met at the home of Mrs. S. James. The honors went to Mrs. S. James, first; Mrs. J. Schroeder, second; Mrs. Wm. Flanagan, consolation, and Mrs. C. Price, fourth.

Mrs. Wambler of York Ave., entertained members of the Detroit Symphony board at a luncheon last Friday, April 18, at her home.

Mrs. A. B. Gray of Berwick Ave., attended the Women Writers' Club of Detroit, last Tuesday, in which she is a life member.

Mr. and Mrs. W. Palmer of Blackburn Ave., entertained the Monthly Bridge Club, Monday evening. The honors of the event went to J. Schroeder, first; S. James, second; Mrs. J. Schroeder, consolation, and C. Price, fourth.

We are having a Wayne County Health Program at Rosedale school next Wednesday, May 7. There will be a May party for the children. At 6:30, a pot-luck dinner will be served at the school. All parents are invited to come. After the supper a business meeting of the P. T. A. will take place. There will be several good speakers of the evening.

Mr. and Mrs. W. H. Holton of Berwick Ave., entertained Mr. and Mrs. W. Garke of Detroit, Sunday, April 20.

Now that Henry Ford has announced he is in the market for an old windmill we suppose a lot of people will send them the name of their congressman.

Two of the hardest things in the world for a man to put by are money and temptation.

Many requests are being received as to where dumping is being permitted within the village. Rubbish of all kinds can now be dumped at the foot of Burroughs St., east of South Main St., as indicated by signs on the property. Garbage and auto bodies not permitted however.

A. J. KOENIG, Village Manager.

NEWBURG

The Epworth League held a sunrise service at the church Easter morning. The church was well filled for the services, Sunday. Three babies were christened, and nine children became members on probation.

hospital Saturday, and is steadily improving from her operation. Mr. and Mrs. Charles Carney and family of Sandusky, Ohio, spent Easter with his brother, Ira Carney and family.

An Interesting Letter From West Palm Beach, Fla.

West Palm Beach, April 15, 1930 Editor Plymouth Mail: Wonder how many people know there are 30,000 lakes in the state of Florida, and with one exception, Okechee is the largest lake wholly within the United States.

Advice on Selecting Plumbing Fixtures

Are you planning to build this spring? Here are a few points about the selection of your plumbing fixtures that may be of interest to you. Of course you will want color in your bathroom. The modern bathroom is distinguished from its old-fashioned predecessor as much by the quietness and efficiency of its fixtures as by color.

Chas. Strassen, Pastor.  
Regular services at the Village Hall at 10:30, John 20: 19-31. "Is It Still Easter With You?"  
Sunday school at 11:30.  
You are always invited and welcome.

### METHODIST NOTES

"I have chosen you, and ordained you, that ye should go and bring forth fruit,"—John 15:16.  
The world will become interested in the Church when Christians at large demonstrate Christianity. The pulpit seeks to interpret the voice of God in order that the few may know how to live the life of God. When the elder Beecher was asked why his ministry at Park Street, Boston, was so successful, he replied: "I preach on Sunday, but 450 men and women go out every day in the week to translate into life and service the message which I have sought to lodge in their hearts." Let us, pulpit and pew together, think of ourselves as a Fifth Gospel. More people will read our daily lives than will read the life of Jesus from the printed page. Christians are the only Bible most men read.

We had a delightful day Easter, with record crowds at each service. Why not make next Sunday a record day also? Numbers inspire both Pulpit and Pew, and the week goes better for having honored God on Sunday, by attendance at His House of worship. We will be welcome, morning worship at 10 a. m., Bible School at 11:30, and evening service at 7:15.  
We are again enjoying the fellowship supper on Wednesday night. Cooperative supper at 6:30, followed by the praise service at 7:15, by Himes. Bring the whole family and join the happy crowd of Wednesday "Nights!"

### PRESBYTERIAN NOTES.

The young people will be in charge of the evening service next Sunday. Herman Morgan will lead. Jack Monteth will be at the piano, and a company of young folk will assist in the service. The meeting will be at 7:30 p. m. o'clock.  
The Mission Study Class will meet at the church Tuesday, April 29th. There will be cooperative supper at 6:30 p. m., which will be followed by the business meeting and a program including a review of a book by Mrs. Herold Hamill.  
I. W. Hummel and Rev. Walter Nichol attended the meeting of the Presbytery of Detroit at Ferndale on Monday of this week.

### BAPTIST NOTES

The young people of the Baptist church are to enter into another endurance contest starting Sunday evening, May 4. This time the contest will be waged with the young people of the Farmington Baptist church. This should prove to be a very spirited affair since the Unions of both churches are very evenly matched in size and activity.  
Next Sunday morning, Holy Communion will be administered. At the evening service the pastor will begin another series of sermons. The subject of this series will center around the theme "Can We Know Jesus is the Christ?" The series just closed on "The Appearances of Christ After the Resurrection," were well attended and a great deal of interest was manifested in them. We endeavor to have an attractive and edifying service. Why not come and bring your friends to church Sunday evening?

It is to be wished that the performance of Gull's "Holy City" on Easter Day by the combined choir of the First Baptist church and of the Rose Dale Gardens Presbyterian church may begin a series of presentations of serious musical works in Plymouth. The finish and balance of the voices, the vigor and freshness of the score were a delight and surprise to numerous audiences at both morning and evening services.

Mr. Huron of Rosedale, has a colorful, robust, baritone voice, with the technique to express the possibilities of his noble solo, "The New Heaven and the New Earth." In the declamatory style, dramatic, this number with its sonorous harmony and the stately antiphonal chorus passages, "Holy, Holy, Holy," calls for all the resources of soloist and chorus alike.  
Miss Ford's solo, "These Are They Whom I Love of Great Tribulation," follows immediately in the score, a complete contrast in tonality and style. Its caressing, limpidly clear melodic line demands utmost simplicity and sincerity, with beauty of tone. Miss Ford's voice was most happily fitted to the text. No small share of the praise of this exquisite number is due to the masterly piano accompaniment of Miss Row, who in this number displayed the sympathy and virtuosity. Voice and instrument blended to perfection.  
The trio for women's voices, "At Eventide," is written in sixteenth century style, far more difficult than its graceful performance would indicate. Mrs. Compton, Mrs. Woodworth and Mrs. Allenbaugh earned warm appreciation for a crisp, clean performance, bringing out the fugal passages with fine effect.  
The chorus of thirty some voices acquitted itself splendidly through an exciting score, which is usually performed by an ensemble three times as large. Attack, pitch and responsiveness left nothing to be desired. The final chorus, "Great and Marvelous Are thy Works," aroused the enthusiasm of the hearers; the long conclusion of the first part, "Thy That Sore in Tears," presented nearly every style of chorus singing, with two fugues and a capella passage, and a highly dramatic close.  
The ten-piece orchestra contributed much to the sonority and breadth of the performance. Their concerted numbers included Haydn's VI Surprise Symphony, Parker's Urbs Syon, and brilliantly orchestrated arrangements of the hymns, "Vollins—Doris Hamill, Joseph Ellis, Allison Kunkel, Kenneth Greer. Mrs. Postell, clarinet—Mr. Moe—trumpet—Lester—Ely—Eoe and Mr. Boomhauer. The director, A. E. Baker, has outlined a performance for music week in May, and invites the assistance of Plymouth music lovers to contribute their talent to its success. Further notice of rehearsals will appear in this paper.

### WANTS NORRIS' SEAT

Aaron C. Read, eighty-five, one of the picturesque characters of the West who is a candidate for the United States senate from Nebraska. He is running in opposition to Senator George W. Norris for the Republican nomination. Although the aged farmer-barrister has never tasted intoxicating liquor in his life, he is nevertheless running on "a sopping wet platform."

### EPISCOPAL NOTES

Last Sunday set a record for the number of persons making their Easter communions in St. John's church. It is a fine thing to see so many thus doing one of their church duties. Another of these duties is regular Sunday attendance. We all enjoyed the services last Sunday. Wouldn't it be fine if there could be such a good body of worshippers every Sunday? There can be, if each one will do his part!

A simple little Easter pageant-service will be given by the children of the church school on Sunday evening at 7:30 o'clock. This will be particularly of interest to the children; parents are urged to bring them.  
A dance will be given by the Men's Club, next Thursday, May 1. It is said to be one chance to wear your old clothes and still be in style. Look for the "ad" in this paper.  
Remember, every Sunday is a little Easter! Go to church again next Sunday.

### Attractive Nook for Breakfast Described

In this age of continual rush, especially at the breakfast hour, a small corner attractively arranged will do more to start the day right for the overworked business man who often eats his first meal of the day in the solitary state. What is more depressing than a big dining room with himself as the sole occupant?  
In the breakfast nook, built along Spanish lines, there is a small alcove off the sun porch. It has lovely beams—in fact, a continuation of the ones in the dining room and hall. The spaces between are a greenish yellow plaster. Across one end there is a built-in seat stained green and upholstered in yellow fabricoid.  
There is a narrow railway-type table in brown stained wood and a chair to match. You see, provisions are made for the rest of the family to join father, but the head of the house often prefers solitude.  
A casement window about fills the end of the alcove. It has quaint inside shutters, also stained green. Between them there is a box-pleated valance of the yellow fabricoid. The window panes are leaded triangles. In summer time a vine drapes itself around them. Several Italian pottery flower holders are on the walls and also a small electric clock, which stands on a corner cupboard painted a bright yellow.  
The floor of the ideal nook is made of multi-colored tiles, six-sided ones that are colorful. On the sun porch there is a wee fountain that trickles merrily, and at night it has an illuminative feature that the guests enjoy, especially when the other lights are turned off.  
Breakfast china for the home is so reasonably priced that frequent changes may be made as an enticing lure to the man who has little appetite. Physicians and nurses are realizing what a good influence on the body and mind that pleasing atmosphere has. These authorities on health tell housewives to make their home gay, teach the children to be happy and be gay themselves.

### Doors of Beauty for the Smaller Houses

Small homes, even those costing \$10,000 and under, may be enriched with doors of a beauty formerly restricted to the mansion. These doors have the slender ribbon grain of the most expensive hardwoods. They are offered in totally new designs, including prize styles created by architects in a recent nation-wide competition.  
Built of selected Philippine hardwood beautifully matched, they come complete, ready to finish. Because of a special method of construction they are guaranteed not to shrink or warp. Cost compares favorably with that of common domestic hardwoods. They are made in single and multi-panel models and in flush models plain or in modern motif.  
Square or round heads, with or without lights, styles and rails are built up on cores of stress neutralizing blocks, welded to rigid edge braces and faced with flawless layers of wood. An absolutely waterproof cement is used in construction. The claim is made that once properly hung one of these doors never needs to be refitted or planed down.

### 2 Glasses Water, Not Too Cold, Help Constipation

One glass water is not enough—take 2 glasses a half hour before breakfast. You get quicker and better results by adding a little simple glycerin, saline, etc., (known as Adierka) to one glass.  
Unlike other remedies, Adierka acts on BOTH upper and lower bowel and removes old poisons you never thought were in your system. Adierka stops GAS and sour stomach in 10 minutes! Relieves constipation in 2 hours! Beyer Pharmacy and Dodge Drug Co.

### AN OVEN-COOKED VEGETABLE MEAL

By May and June we get to the place where we are anxious to have a change from our so-called winter vegetables, and the new green peas, fresh string beans and young asparagus make an especial appeal. We all agree that we cannot afford not to serve fresh vegetables in our homes. Neither can we afford to lose the valuable vitamins and minerals which vegetables contain, by cooking them in a large quantity of water. Therefore, we turn to an oven cooking which preserves food value, flavor, and at the same time eliminates the usual necessary watching of gas flames in an attempt to economize on fuel.

#### MENU

Browned Potatoes Green Beans  
Spinach Hollandaise Sauce  
Rhubarb Tarts

**Browned Potatoes**  
Temperature, 425 degrees  
Time, 1 hour

5 cups potatoes, sliced  
1 1/2 teaspoons salt  
Dash pepper  
2 tablespoons chopped green pepper  
6 tablespoons butter  
Put a layer of the thinly sliced potatoes in the bottom of a well buttered baking dish. Add part of the salt, pepper, chopped pepper and butter. Continue in this way until all of the ingredients are used. Cover and bake at 425 degrees for one hour. At the end of 30 minutes remove the cover so that the potatoes will brown on top.

**Green Beans**  
Temperature 425 degrees  
Time, 1 hour

1 1/2 pounds beans  
2 teaspoons salt  
1 cup boiling water  
String and cut the beans into one-inch pieces. Put in a baking dish. Add the salt and water. Cover and put in the oven with the potatoes. Bake at 425 degrees for one hour.

**Pastry**  
1 cup flour  
1/2 teaspoon salt  
1-3 cup fat  
3 tablespoons ice water.

**Spinach**  
Temperature, 425 degrees  
Time, 30 minutes  
1 1/2 pounds spinach  
1 1/2 teaspoons salt  
Cut the stems and roots from the spinach. Wash until all of the sand is removed. Drain well and put in a baking dish. Add the salt and cover. Place in the oven a half hour after the potatoes and beans have been put in. Bake at 425 degrees for 30 minutes. Just before the meal is to be removed from the oven make the Hollandaise Sauce.

**Hollandaise Sauce**

1 1/2 cups butter  
2 egg yolks  
1 tablespoon lemon juice  
1/2 teaspoon salt  
Dash pepper  
1/2 cup boiling water  
Melt half of the butter in the top of a double boiler. Then add the egg yolks, stirring constantly, with the lemon juice, salt and pepper. Stir until thick. Add the remaining butter and stir until melted and thick. Slowly add the boiling water, stirring all of the time until it is again thick. Do not let the water in the bottom part of the double boiler boil. Serve on the spinach and also on the beans if desired.

**Rhubarb Tarts**  
Temperature, 425 degrees  
Time, 35 minutes

**Filling**  
2 cups rhubarb  
1/4 cup sugar  
3 tablespoons flour  
1 egg  
Sift the flour and salt together. Cut in the fat and add the water. Roll this mixture out and line five tart pans with it. Slice the rhubarb in 1/4 inch pieces. Add the sugar, flour and slightly beaten egg. Mix thoroughly and put into the pastry lined tart tins. Put strips of pastry over the top of each tart in criss cross fashion. Press the edges together. These tarts may be put in the oven 25 minutes after the potatoes and beans, or they may be put in with them and removed at the end of 35 minutes.

Call Miss Taylor, Home Service Director, if you would like additional recipes.

### AUTOMOBILE NOTES

Negligence will shorten the life of the best tire.

Eighty-five per cent of the rubber output of the United States goes into our automobiles.

Famous last words: "There seem to be two lights ahead. I'll just steer between them."

American motorists, it is estimated, used 14,000,000,000 gallons of gasoline in 1929—a lake five miles wide and four miles deep.

A "celluloid sandwich." That's the new shatterproof glass that appears destined for general adoption by the automobile industry.

### With American Ease

The preparation of French dressing is a simple job, to say the least, but the mixing takes time, if the finished product is to be evenly blended. A small piece of ice added to the ingredients will hasten the mixing by several minutes.

NEWS? Mail or phone it to No. 6.

### Ill 20 Years; Then Konjola Brought Health

### LADY ALMOST HELPLESS WITH RHEUMATISM—NEW AND DIFFERENT MEDICINE SOLVES PROBLEM.

MRS. ALMA VALLEAU

"Konjola is the medicine that brought relief to me after I had suffered for twenty years with rheumatism," said Mrs. Alma Valleau, 19262 Gainsborough road, Rosedale Park, Detroit. "For three years I was almost helpless, and by limbs, feet and ankles were so badly swollen that it was almost impossible for me to move about. I had no appetite. I was badly run down and I was just about a nervous wreck. I had despaired that there was a medicine to help me, but there was—Konjola. I had taken only four bottles of this medicine when I found myself feeling like a different woman. The swelling in my limbs had gone down; my appetite improved, and I felt better in every way. I certainly can and do recommend this wonderful medicine." Konjola, the new and different medicine, is of 32 ingredients, 22 of them are the juices of roots and herbs. Even one bottle may give remarkable results, but a treatment of from six to eight bottles is recommended. Konjola is sold in Plymouth at the Community Pharmacy drug store, and by all the best druggists in all towns throughout this entire section.

### THE CORN BORER RESERVE FORCE!

High School boys of today realize that they will become the farmers of tomorrow. This picture shows boys from Michigan Smith-Hughes agricultural schools disposing of corn stubble last spring on a stubborn piece of ground. In some localities, help was hard to get. Boys from the agricultural high schools in many cases solved this labor problem.

### Community Building

#### Appearance Adds Much to Value of Property

I do not think, says a real estate expert, writing in the Washington Star, there is an owner of any kind of goods who will get the same angle on maintenance as do some property owners. A storekeeper maintains his place of business in the most attractive fashion and presents his stock in such a way as to interest buyers. The property owner in many cases appears to feel that it is not necessary to keep a property modern or maintain it in good condition to either sell or rent it. There are innumerable cases that could be cited wherein an expenditure of a few dollars on a property has added a thousand dollars to its selling price or greatly increased the return from its rental. Persons buying or renting real estate are influenced just as much by the condition of the stock or property which they have in mind as are the buyers of any other commodity. Proper maintenance of real estate is a factor in the sale or rental of it that cannot be disregarded by the owner except at a financial loss to himself. There is no better time to give active interest to this subject than now. Spring is a forerunner of blossom and bloom, and it can be made just such a season for the property owner who will adequately maintain his real estate, because from such action on his part a profitable buyer or a desirable tenant may blossom and bloom as the result. Dad Plymouth declares that nothing but love can distinguish between plumpness and fatness in a woman.

### This and that

Expect no miracles—trust your common sense. A sensible person is anyone who agrees with us. No one ever forgets anything he really wants to remember. Digging in a garden often improves one's philosophy more than the reading of books. If you don't claim too much intelligence, people will give you credit for more than you have. After she's finished, a father is as helpless in handling his daughter as in managing her mother. Good things don't last long—that is why it's wise to take a generous helping of fresh green peas the first time they're passed. Sometimes it's difficult to make a satisfactory imposing answer to your wife's question, "Well, what did you do at the office today?" How critical we are of faults in others; how tolerant we are of our own follies! No wife thinks her husband is really working unless he has on a pair of overalls. We seem to have a "week" for everything in this country except a week for using horse-sense. According to Dad Plymouth you are past middle-age if a half-inch crack in the bottom of a window will provide you with enough fresh air. "The only drawback I find about telling your wife of your aches," says Dad Plymouth "is she can always describe worse ones than she has." Several states are planning to assess their own income taxes and a lot of us are wondering where they are going to find any incomes.

## PLYMOUTH AUTO SUPPLY

South Main St. Phone 95

IN planting a rock garden with bulbous plants, it is desirable to use only hardy or perennial bulbs which will establish themselves and flower season after season with little care.

The polyantha roses require little pruning.

Start weeding early this year so as to get them down while they are still young and immature. Every weed that is allowed to grow up and seed means more next year.

People are getting over their timidity over the imposing term landscape architecture, and realize that it simply means good sense and artistic taste in planting flowers, trees, vines and grass, arranging pools and other outdoor garden features according to recognized principles of design.

If flowering shrubs seem to need pruning, if only to shape them, do it after flowering. Prune off only the wood that has just flowered.

Plant trees, shrubs and roses at this time. Make the hole large enough to spread the roots carefully and mulch after planting.

There is no finer screen than that made up of living plants. Living walls of green provide color, texture, flower and berry, all of which are real and not painted on. Living walls do not need repainting. They change with the light, with the day and with the season, creating a never-ending series of pictures always a joy to behold.

Though the weather is still cold, clean out the bird houses so that they may be ready for occupancy when the birds arrive. Put up more bird houses if you can. These need not be expensive.

Climbing roses should have all the branches, except last summer's growth, cut off at the ground. Hybrid perennials and hybrids teas should be cut back from one-third to two-thirds, depending upon the vigor of the plant.

### Featured Radio Programs for Friday and Saturday

**Friday, April 25**  
"Pocahontas" will be dramatized by Bradford Browne in the weekly "Nit Wit Hour," on WGHP, at 8 p. m.

With William J. Stannard directing, the United States Army Band will be heard in a half-hour concert over WGHP, at 8:30. The program will emanate from the Army War College, Washington.

Lewis James, Raleigh Rovers' tenor, will be soloist during the Raleigh Revue at 10 o'clock, over WWJ. He will sing the "Neapolitan Love Song," from Victor Herbert's operetta hit of a few seasons ago, "Princess Pat." The Revue will be in Two Acts and Sixteen Scenes, with Sir Walter himself as master of ceremonies.

A selection from the comic opera, "La Gran Via," the work of two Spanish composers, Jacquin Valverde and Federico Chueca, opens the all Spanish program which a string ensemble, under direction of Ludwig Lurler, will broadcast during WJR's Slumber Music period, at 11:15 o'clock.

Little known facts concerning the rigors and privations of the Pilgrims' first winter at Plymouth will be described by Dean Gleason L. Archer, of Suffolk Law School, Boston, in his talk on early American history to be broadcast over WWJ, Friday at 11:45 a. m. Dean Archer, an authority on New England history, will tell about the suspense under which the colonists labored, continually on guard against the Indians, watched but yet unable to come to grips with the dangers threatening them. The speaker will tell how two colonists were lost for two days in the woods, how John Carver and William Bradford nearly lost their lives in a fire at Plymouth; how Gov. Bradford's wife drowned by falling off the deck of the Mayflower, and how the Pilgrims treated dying sailors abandoned by their fellows when pestilence struck them.

**Saturday, April 26**  
The French Trio, Lydia Savitzkaya, harpist-director; Elfreda Bos, violin, and Sallie Possel, flute, with Kenyon Condon, baritone, will present a concert of the works of Saint-Saens over WGHP at 5 p. m.

The Del Monte Program presents John Boles in a radio version of his latest singing picture, "Captain of the Guard," (suggested by "La Marseillaise"), over WWJ at 8:30 o'clock.

Walter Damrosch brings to the air the Scherzo from Beethoven's favorite composition, his Third (Eroica), Symphony, during the General Electric Hour over WWJ, at 9 o'clock.

A selection of popular numbers will be played by the Lady Bugs, a vocal and piano duo, during the Broadway Lights program over WJR at 9 o'clock. Muriel Pollock and Vee Lawnhurst are the Lady Bugs.

When "Hank Simmons' Show Boat Mayhelle" comes to town at 9 p. m., Saturday, the four-act comedy drama, "A Captain in Petticoats," from the

pen of Harry Jackson, will be enacted and broadcast over WGHP.

A plot involving Pa's vanity over his radio debut complicates the family life of The Jameses, whose experiences will be portrayed over WWJ Saturday evening at 7:15 o'clock. Pa Jones, who sang over WWJ, eagerly awaits the public's approval. It comes in the form of a single fan letter which he triumphantly displays to all. The comments surprise him. The town gossips begin commenting on the frequent appearances together of Algernon, the English cousin, and Clara Simpson. Pa decides that something should be done about it.

The Thirty-sixth annual University of Pennsylvania Relay Carnival at Franklin Field, Philadelphia, Pa., today and Saturday will be broadcast for the first time over the Columbia System and over WGHP.

Ted Husing will begin his world-picture Friday at 3 p. m. At 2:30 p. m., Saturday the broadcast will continue two hours.

The Relay Carnival, representing more than 25 colleges, is considered this country's outstanding annual track and field event.

Jesse Crawford, organist, will do a series of programs over the Columbia System, and through station WGHP, as a result of arrangements just completed. He will appear first May 7 at 8 p. m. His regular series begins Monday, May 12, and will continue thereafter from 10:30 to 11 p. m. every Monday.

Boys will supplant the entire staff of Station WPHN, Philadelphia, as a part of the program of Boy Week, May 3-10. They will be in charge for one hour and will present an original program.

**Improvement Seen For Tire Industry**  
The position of the tire and rubber industry, according to this week's United Business Service report, has been considerably strengthened by the plan of important rubber producers to restrict rubber tapping during May. The far eastern planters have acquiesced to the proposal, and have appointed a committee to further the project by enlisting the aid of native planters.

While there will probably not be whole-hearted agreement among producing interests, it is reasonable to assume that some improvement will result, with supplies of crude rubber sufficient for all industrial needs. Domestic stocks, furthermore, should be reduced because of smaller Malayan imports and increased consumption.

Tire manufacturers have been favored by the extremely low prices for crude rubber, which have prevailed thus far this year, and with moderately higher prices a future prospect, inventory losses, such as were sustained last year, will be avoided.

The tire industry is operating on more active schedules than at any time since last August, and it is felt that a record retail demand will be experienced during the coming sixty days. This should bring an expansion in earnings that will show favorable comparisons with a year ago.

**Novel Bag**  
A bench bag made of linen and shaped like a fish is a late novelty. It is carried by a ring.

**How to Coax Slow Seeds**  
An enthusiastic gardener gives a good method for hastening the germination of hard-shelled seeds which ordinarily require many months to break through the shell. She discovered that by rubbing seed of this nature gently between two sheets of fine sandpaper, scarifying it, as sweet clover seed is treated, then soaking it in warm water it will germinate as quickly as any other seed.

There are 3,567,180 letters in the Bible.

**Smashing Proof**  
... of greatest value

All motordom saw the amazing results of Challenger week. The New Essex Challenger set outstanding marks in every locality.

It climbed hills seldom attempted by any car. It set new marks for acceleration. It established economy results never before associated with such performance.

These feats were established—not by just a few handpicked specially tuned cars—but 5,000 Essex Challengers in all parts of the country, many of them owner-driven. Results speak for what every New Essex Challenger can do.

We continue our invitation, Ride—Ride—Ride! Know yourself what this brilliant New Essex Challenger can do. Then no lesser car can satisfy.

Mr. and Mrs. Warren Packard and children were dinner guests of Mr. and Mrs. Albert Genrich, in Nowlong, Wednesday evening of last week.

Mr. and Mrs. Vernon Converse and two children of Franklin, spent Easter day at the home of Mr. and Mrs. E. E. Scholz of West Ann Arbor street.

Mr. and Mrs. D. C. Thomas and little daughter, Kathryn Jane, of Detroit, were Sunday guests of Mr. and Mrs. George Miller, at East Plymouth.

Goodwin B. Cromble, general builder has been awarded the contract for an English home for Frederick McKinney, to be erected in Lovewell Woods, Northville.

Mr. and Mrs. H. S. Ayers returned last Wednesday from Santa Monica, California, making the trip a distance of 2650 miles over the Santa Fe Trail, in seven days. They report the roads in good condition.

Miss Dorothea Lombard, who is attending the University of Michigan, spent spring vacation last week with her parents, Mr. and Mrs. Lombard of West Ann Arbor street.

Born, to Mr. and Mrs. B. C. Havershaw, of Detroit, a son, Douglas Clare, Saturday, April 12. Mrs. Havershaw will be remembered as Miss Ruby Williams, formerly of this place.

Mrs. H. A. Spicer, who has been sick for several weeks, was very much cheered and pleased, Easter Day, by a beautiful plant, which her grandson, Lyman Judson, of Iowa City, wired her.

Mrs. C. B. Marble entertained ten guests at a birthday party in her honor last Thursday. A delicious buffet luncheon was served and cards were played. She was the recipient of many lovely gifts.

Miss Edith Scott, who was taken to the Highland Park general hospital Saturday night, underwent a serious operation Monday evening. Her condition is still serious, though she is slightly improved at this writing.

In a letter writing contest recently conducted by the Lewis Tea Room Institute of Washington, D. C., the first prize, a check for \$50.00 was awarded to Mrs. Nancy Birch-Richard, who for the past year has successfully operated the Garden Tea Room at 1257 South Main St.

Richard Virgo entertained seven little friends last Saturday in celebration of his fifth birthday. The table was prettily decorated with daffodils and yellow lilies and baskets of Easter eggs were placed at each plate. Games were played and Richard received many little gifts.

Mr. and Mrs. Harmon Kingsley and son Gerald of Wayne, Mr. and Mrs. E. C. Smith and son Gordon, of Dearborn and Mr. and Mrs. Frank Losee and infant son Frank, Jr., of Saginaw, were six o'clock dinner guests at the home of their parents, Mr. and Mrs. Chas. Millard Easter Day.

Mr. and Mrs. Jacob Streng entertained fourteen relatives and friends Monday evening, honoring the birthday of the former's brother, William Streng. Out of town guests were Mrs. Christine Streng and Mrs. Mary Saddock of Detroit, Mrs. Barbara Kensler, of Toledo, and Mrs. E. W. Block of Muncie, Indiana.

Another coast to coast hook-up by Judge Rutherford, president of the International Bible Students Association, will be on the air from Oakland, Calif., over two chains to this country and distant lands, Sunday, April 27, 10:00 a. m. The regular Watch Tower chain will be included. WOV, Fort Wayne, and WHK, Cleveland, for this part. Tune in. Topic, "World Distress, Cause, Remedy."

Phyllis Samson entertained eleven of her little girl friends at an Easter party at the home of her aunt, Mrs. B. E. Giles, last Saturday afternoon.

The Ladies' Auxiliary of the Ex-Service Men's Club of Plymouth, are going to meet at the home of Mrs. Sven Eklund, 443 Adams St., Plymouth, on Wednesday, April 30, at 2:00 p. m., for the purpose of making buddy bouquets for the annual campaign conducted by the war veterans of the United States, for the relief of disabled veterans and their dependents.

ALL THE LUTECIUM

Dr. William F. Meggers of Washington holding a tube containing a hundredth of an ounce of lutecium, the total supply in this country and probably in the world. By means of an electric spark which was used to throw off the three outer electrons, Dr. Meggers discovered the atomic structure of the rare element.

CHERRY HILL

The Parent-Teacher meeting was held at the schoolhouse Monday evening.

The children of the school are enjoying some new playground equipment also some grading, which was much needed, was done by the patrons of the school.

Miss Thera Combelleck, of Owosso, spent Easter with her aunt and uncle, Mr. and Mrs. A. Dunstan.

Mr. and Mrs. Elwood McQuail spent Easter with their parents, Mr. and Mrs. Wesley Elliott.

Miss Eileen Mason and Russel Price enjoyed Easter with the former's parents, Mr. and Mrs. Nelson Mason.

The children of Mr. and Mrs. Wm. West returned to their parental home for Easter.

Mr. and Mrs. Victor May and family have moved to Ypsilanti.

Mrs. Wesley Elliott is on the sick list, here friends wish her a speedy recovery.

Romey Merriell is in Beyer hospital suffering from injuries which he received when he was caught under the wreckage of a large tool shed, which was blown down, on the farm of Knud Jorgensen, during a severe storm which swept this place Thursday.

Easter Exercises

We were glad to note the large increase in the Sunday School attendance. A short program followed the Sunday School hour, given by the children.

The church furnished the following program:

Hymn No. 156—Congregation.

Prayer, concluding with Our Lord's Prayer.

Anthem—"Christ The Lord Is Risen"—Choir.

Psalter, Easter Lesson—Congregation.

Gloria.

"The Joy of His Awakening"—Male Quartette: James Burrell, Edmund Shurt, Ambrose Dunstan and A. Griffin.

Announcements and Gift Offering.

Offertory, "In The Garden,"—Everett Burrell.

Solo: "Calvary"—A. Griffin.

Easter Message.

Prayer.

Anthem—"Christ Our Passover"—Choir.

Benediction.

More than fifty persons have signed the daily bible readers pledges, and are reading the Bible day by day.

The Parish League of Young People will meet at Sheldon Friday evening.

Using Pastry Bag

Moisten the pastry bag with cold water before adding cake or frosting mixture and the bag will be more easily cleaned and there will be less waste of the product.

HUGE MAGNET PICKS UP HARMFUL NAILS

Here's the magnet that picks up the nails that cause flat tires. It will be operated over every square foot of the acres of parking space surrounding the famous Rose Bowl in Pasadena. W. E. Gouzar, superintendent of the famous bowl, is standing alongside.

LOUIS MEYER TO HAVE SWIFT CAR

Machine Will Have Rear-Wheel Drive and Be Driven by Spur Gear.

There has been a good deal of gossip concerning the car Louis Meyer will drive in the 1930 Indianapolis 500-mile race, but the actual facts were not disclosed until a few days ago when Alden Sampson, head of the Sampson-Meyer-Brett racing combination came into Indianapolis to arrange for quarters where the car will be built.

The car will be named the Sampson Special. Its 16-cylinder motor will be made up of two banks of eight cylinders. The car, a rear-wheel drive, will be driven by a spur gear off the rear end of a separate crankshaft for each of the banks. The cylinders will be of 2 5/16 bore by 3-inch stroke and the motor will have displacement of 201 cubic inches.

Conforms to Specifications. Otherwise the car will conform to all the specifications of the Indianapolis Motor Speedway corporation for the 1930 race, which will start this year at 10 o'clock a. m. on May 30, as usual.

"The three of us worked for weeks on the design and the motor blocks have already been made and machine work on them is about finished," Sampson said. "Riley Brett is coming on from the coast and from then on we will go at top speed to finish the car."

Asked who would be the riding mechanic with Meyer, Sampson said he did not know. There will be a thousand requests pour into the workshop without doubt, but Sampson intimated that he considered the mechanic's seat highly important and that he might ride with Louis in the first race for two-man cars since 1922 on the greatest automobile race course in the world.

Sampson is the most picturesque figure in racing in America. He was an automobile dealer in Ohio two years ago when he met Louis Meyer. They both were men of few words, of about the same height and general build. Louis was a mechanic for Frank Elloit. Two weeks before the 1928 race Louis wired his friend in Ohio that he had a good buy in a race car if Allen had the money. Allen had it and came to Indianapolis, where the car was bought. So well did Louis justify the investment that he won first place that year. The same year Sampson bought a car from the Frank Loekhart estate and Meyer drove it into second place in the 1929 race.

Work of Trio Divided. The work of this winning trio is well divided. Sampson watches the money end. Louis Meyer does the driving, and does it so well that he won the A. A. A. driving championship in 1928 and 1929; Brett who has worked on more winners than any other racing car specialist, has the responsibility of seeing that the car is always in tip-top shape mechanically. This rare combination has made a trio to conjure with where seconds mean thousands of dollars.

The public will be much interested to see how the 16-cylinder car—the first one of its kind for track in America—will perform. With its background it can almost be written for a place well up at the finish.

NEW BIG LEAGUER

Trick Twirler Gordon (Cy) Williams, of the Temple university pitching staff, whom another season is expected to see in the uniform of one of the major league nines. Cy finishes his college career in June and is said to be on the calling list of the St. Louis Cardinals, Pittsburgh, Cincinnati, Brooklyn and the Athletics.

Grades of Silk

Silk is graded for thickness of thread, the size being measured in deniers. The French denier weighs one-twentieth part of a gramme. The basis for raw and thrown silk adopted by the permanent committee of the Paris International congress of 1900 was a fixed length and a variable weight, the standard of length being 450 meters and the weight the denier. Thus a hule of silk of 13 to 15 deniers means that a thread is required of which 450 meters, measured off, will weigh between 13 and 15 deniers. Silk is reeled as fine as 9 to 10 deniers and as coarse as 28 to 30 deniers; for some purposes even 38 to 40 deniers.

Exhaust Clears Fog in Front of an Automobile

Hot air sprayed out in front of an automobile by an attachment on the exhaust of the car has been found effective in clearing away London's time-honored fog, the American Automobile association reports.

The rising current of heated air created by the device, a recent invention, literally lifts the fog about ten feet in front of the front wheels and does it quickly enough to permit a forward speed of about fifteen miles an hour in the densest fog.

The fog lifter can be attached to any car's exhaust and is much simpler than the average windshield wiper. It has been tried out in London and is being adopted by motorists there.

Station Says Hens Lay in Cycles or Clutches

Do you know how your hens lay? At the West Virginia experiment station the poultrymen studied the time factor of laying hens. They found that hens laid in cycles or clutches. The rate of laying is directly in proportion to the number of eggs laid in a clutch.

When a bird lays for several days in succession the first egg of the cycle or clutch generally is laid relatively early in the forenoon. The remainder of the eggs are laid later and later on succeeding days, the last egg of the cycle being laid relatively late in the afternoon. Then the bird ceases to lay for one or more days, and when a new cycle is started, again the first egg is laid early in the forenoon, and so on.

The length of the interval between the laying of successive eggs is fairly uniform for any particular bird. The data examined apparently justify the following conclusions: The longer the cycle, the shorter are the intervals between the laying of successive eggs.

The interval between the laying of the last two eggs in a cycle is usually greater than any other interval in the cycle. The intervals between the laying of eggs at or about the middle of the cycles are shorter than the intervals at either extremity.

As the birds become older the intervals between the laying of successive eggs become longer. The shorter average intervals between the laying of successive eggs are usually associated with the more prolific layers.
