

## SHRINE OF ALL AMERICA-HOME OF ABRAHAM LINCOLN

### Nation Has Just Observed The Birthday Of Great Emancipator.

Modern universities cover many acres of land, boast towering structures valued at millions and employ a small army of instructors.

Yet, in the crude little one-room log hut at Salem, Ill., now preserved as one of America's shrines to the memory of Abraham Lincoln, we may look upon the now world-famous "little white home" of a century ago, Earle W. Gayes writes, in the Philadelphia Ledger.

Here in this Illinois cabin was born that mastery of English that later thrilled a nation into action and contributed nobly to our literature.

The Henry Onstott cabin is well preserved, and nearby at hand is the famous Rutledge cabin wherein resided the family with whom young Lincoln boarded for five years, between 1832 and 1837, and where he became the lover of beautiful Ann Rutledge.

Then, at the left of the hill, we may see the old McNamers store, a "leading mercantile establishment" back in 1833. The right room was used by the firm of Berry and Lincoln, grocers and general merchants, and here Abe told some of those famous yarns.

Although these structures in "Old Salem," rebuilt to become New Salem, may appear as barnlike buildings, all are in a good state of preservation. They rise from historic ground. These "clearings" were continually the scene of Indian warfare, and many a modern structure soon fell before the terrible onslaughts these cabins withstood.

The Rutledge log cabin, for example, was superior to the average American home of the pioneer settlements of the Middle West of a century ago. Besides providing a comfortable habitation for the large family, it became a popular center and inn to those who followed the wilderness trail who entertained many famous trail-blazers, whose names are now inscribed in bold letters in the story of the "winning of the West." Under Lincoln's youthful humor, with Ann's maidenly calmness and sweetness, it was the community center of many an evening of pioneer entertainment.

Nearly a century later, when lovers of Lincoln discovered the abandoned community going to ruin, though no attention had been given to the old structures for half a century, save by passing tramps, who sought shelter under the leaky roofs, the cabins were found in a fair state of preservation.

So much so that the committee found it possible to rebuild the structure, a shrine to the memory of Lincoln, and Salem. Decayed logs have been replaced, the roof patched, the grass cut in the front yard, so that present and future generations may look upon the scene as young Lincoln saw it.

Beside the Rutledge cabin there is the Onstott cabin, where Lincoln lived in Henry Onstott's cooper shop by day and saved plentiful heaps of shavings to burn in the fireplace at night. Serving both as a place of industry and a home, and substantially constructed, this cabin was found in a good state, even the crude stone chimney and fireplace standing.

The location of "New Old Salem" to which a multitude of modern tourists now bend their way each year, is at a point where the Sangamon river, winding its way from the southeast, turns sharply westward in its course, and striking a high bluff, turns abruptly north. The high bluff extends north and south for about a third of a mile, with a ledge extending westward from a center, giving the impression of the letter "T." On either side of the bluff is a small brook that empties into the Sangamon. On this location John Cameron and James Rutledge in 1828 and 1829 had R. S. Harrison lay out the town of New Salem, Cameron from Georgia and Rutledge from South Carolina were millwrights. They threw a dam across the Sangamon and settlers soon began to arrive from Kentucky, Georgia and the Carolinas. During February, 1830, when Lincoln was twenty-one, his father, Thomas; his stepmother, and the family of Dennis Hanks settled on the north fork of the Sangamon, some ten miles southwest of Decatur, Ill.

Lincoln's arrival in New Salem was about August, 1831, and he boarded at the Rutledge inn. During the years before he went to Springfield he worked as grocer's clerk and in the Onstott cooper shop, where he studied at night by the light of the fireplace, and at various odd jobs of a surveyor. It was here that Lincoln gained his reputation for wrestling, or "rambling," as he would have called it then. Wrestling matches were to the young men of the West what football, baseball and other sports are to the youth of today. The clerk in that country store became the undoubted champion in that part of Illinois.

It was from New Salem that Lincoln enlisted in the Black Hawk war and came back something of a hero. Then, after a little electioneering for the only elective office which he ever failed to win, he settled down to store-keeping with "an idle fellow named Berry" and soon obtained the undisputed control of the trade of the village.

About the time he left New Salem for Springfield the town of Petersburg was planned and the entire village of New Salem—residents, homes and stores—was moved to Petersburg, and New Salem again was back at "rambling ground." The town had gone, but the Lincoln associations remained.

In recent years the "Old Salem" league has been formed at Petersburg for rebuilding and re-erecting Old Salem, which will be known as "New Old Salem." Some of the original log buildings, which had

## WELL KNOWN PLYMOUTH COUPLE CELEBRATE GOLDEN WEDDING

MR. AND MRS. E. O. PLACE

With a large number of relatives and close friends present, Mr. and Mrs. Edwin O. Place, for 42 years residents of Plymouth, celebrated their golden wedding anniversary at the Mayflower hotel on Thursday evening, February 5.

The event was an especially happy one because of the fact that so many of the immediate family, twenty were present. Seven children, twenty-seven grandchildren and two great grandchildren were among those present to witness the golden wedding ceremony that was performed by Rev. Walter Stedak of the Presbyterian church.

Following the re-marriage of the aged couple, Mrs. Shuart sang a number of selections. The brief program of entertainment preceded an elaborate wedding dinner. Mr. and Mrs. Place were the recipients of a number of gold pieces as well as other beautiful wedding presents.

They were married in Ionia February

3, 1881 where Mr. Place was in the lumber business for two years. Selling his business in Ionia, the family moved to Potosky where he was in the contracting and lumber loading business. Many of the vast cargoes of lumber that were shipped out of the harbor at Potosky in the old days were loaded under his direction. Both Mr. and Mrs. Place are in excellent health and enjoyed fully the ceremonies in their honor. Mr. Place is 74 years of age and Mrs. Place is 70.

Following are the names of the children: Mrs. Harvey Proctor, Salem; Mrs. George Maynard, Williamston; Mrs. Frank Westfall, Plymouth; Mrs. Owen Schrader, Plymouth; Grover Place, Ann Arbor; Mrs. Charles Wilson, Detroit; Mrs. Myrtle Chilton, Detroit.

During their long career in Plymouth Mr. and Mrs. Place have been respected members of the community and active in both church and social affairs.

## MIMMACK WRITES FROM SUNNY SOUTH

R. O. Mimmack who left the glories of a Michigan winter to spend a few weeks along the bathing beaches of Florida and to absorb a bit of real sunshine of the southland, is galling-vanting all over that state according to letters received here from him.

He is at present at Miami, where he expects to spend the rest of his vacation and having become located for at least a period of a week or two, it is absolutely essential that he round out the happiness of his vacation that he have the Plymouth Mail sent directly to him at that place.

"I was over to Clearmont, Florida the other Sunday and had dinner with T. G. Richardson of Northville who has taken over the hotel at that place," writes Mr. Mimmack. He had remodeled the hotel and put hot and cold water in each room. The day we were there he had a band concert in the afternoon at the hotel. He surely is a happy hotel manager. There were in Henry Onstott's cooper shop by day and saved plentiful heaps of shavings to burn in the fireplace at night. Serving both as a place of industry and a home, and substantially constructed, this cabin was found in a good state, even the crude stone chimney and fireplace standing.

## Show and Party

The men's club of St. John's Episcopal church are sponsoring two events in the near future that should interest a large number of friends of the church.

On Tuesday evening, February 24th, at the high school, they will present an old fashioned drama of the southland, "A Wild Flower of the Hills." This is a three act play with the action all taking place in the garden of an old southern home. The presentation will be entirely home talent, Lyle Alexander assisting the club in the direction of the play. Between acts the high school orchestra and girls' double quartet will play and sing.

The second entertainment will be on Monday evening, March 9th, and will take the form of a golf party. This will be given in J. L. Johnson's indoor course at the Mayflower Hotel. It is hoped that a large crowd will patronize this event and enjoy the game and the refreshments which will be served. You can play eighteen or more holes there that night without wearing the soles off your shoes, and, of course, St. John's church will benefit from your patronage.

been moved from New Salem to Petersburg, have been returned to New Old Salem and again placed on the original sites. The first building restored was the Onstott cooper shop. Other log homes and stores have been rebuilt upon the old locations and the buildings are in every respect to duplicate the originals of Lincoln's day. Old-timers who have visited the scene and who recall the region from stories related by fathers and grandfathers when New Salem was a thriving center, testify to the fidelity of the reconstruction.

As the visitor passes along "Main Street," markers are seen telling to whom the homes and stores belonged. The association has also built of native stones a memorial building that houses many articles that belonged to Lincoln and his immediate associates—the piano that was used at the wedding of Lincoln and Mary Todd, the side saddle used by Ann Rutledge, Lincoln's surveying instruments and numerous manuscripts.

Thus it is that New Old Salem has become a second Mount Vernon. It lacks the grandeur of Washington's dwelling, but it is a shrine of logs, perpetuating the simplicity and the poverty of the Lincoln. To many it makes an appeal far greater than any other, since it exemplifies the old American teaching that the poor and the lowly may rise to honor.

## SUPT. SMITH GIVES FACTS ABOUT CHANGE

### Clears Up Some of Points That Are Misunderstood In City Issue.

Because of the fact that there has been some discussion pertaining to the plan to change the village of Plymouth into that of a city form of government in which the school district affairs have been more or less involved, the Plymouth Mail has requested Supt. George Smith to provide the readers of this paper with accurate information on the subject. Some of the readers of the Mail have asked if the change would in any way involve the district. To this Supt. Smith says:

"In reply to your request for information relative to the position of the school in the relation of a possible change from village to city government would say,

"1. Plymouth School District No. 1, (fr.) is a corporation independent of and not related to Plymouth Township, Village of Plymouth, and Township of Northville only in the fact that the territory upon which taxes are assessed are in some instances co-extensive and the same. As far as control is concerned, Plymouth District No. 1, (fr.) bears no relation to Plymouth Township, Village of Plymouth or Northville Township but is controlled by the people living within the boundaries of Plymouth District No. 1, (fr.) which includes the Village of Plymouth, a part of Plymouth Township and a part of Northville Township.

"2. The amount which is to be raised for school purposes is determined by the Board of Education and voters in Plymouth District No. 1, (fr.) and transmitted to the Township Clerk who notifies the Supervisor of Plymouth and Northville Townships the amount of money to be spread on their tax roll on property in District No. 1, (fr.) to be collected by their Treasurer and turned over to the Treasurer of Plymouth District No. 1, (fr.) in the assessing and collecting of school taxes but have nothing at all to say as to the amount of tax or how it is to be collected in a case where matters prescribed by law.

"In case a change should be made in the government of the Village of Plymouth it would make absolutely no difference whatever to Plymouth District No. 1, (fr.) because in such case the monies to be assessed in Plymouth District No. 1, (fr.) would be sent in a notice to the clerk of the part in which the school house is located (City Clerk and he, in turn, would apportion the amount according to their respective valuations to be raised by the City of Plymouth, Plymouth Township, and Northville Township and the Treasurers in the respective areas would collect and turn over the assessed school tax to the Treasurer of Plymouth District No. 1, (fr.) (The above statement has been confirmed by the Attorney General's Department through the State Department of Public Instruction.)

"The question of whether Plymouth should remain a village or become a city has absolutely nothing to do with Plymouth District No. 1, (fr.) as a school district and I believe, in fairness, should not be drawn into any controversy whatever which might develop between the Village and Township because, as I stated in the beginning, that the School District is a corporation organized by law and that the only relation existing between the other corporations, Township and Village, are simply that in some cases the same property is assessed for both school and other taxes.

Respectfully,  
George A. Smith."

## Angove Speaks To Kiwanians

At the regular noonday luncheon last Tuesday, Principal Claude Dykeman introduced Mr. Percy Angove, Assistant Superintendent in charge of Education at the Wayne County Training school, who spoke on "Education of the Child."

Mr. Angove apparently has spent a large share of his life working among children and being an unusually capable speaker and very enthusiastic in his work, he held the undivided attention of his audience for the entire time which could be allotted to him and many who heard him regretted that the time was so short.

The speaker appeared to be particularly interested in the backward, subnormal and under privileged child and very emphatically recommended Defunctive Education in our Public schools as opposed to the old Abstrac method of teaching. In other words, he objected to the practice of "teaching back the bright, wide awake, active pupil and the teachers spending a large portion of their time with the less active pupils or dropping the slower working pupil from the class. It is his idea that each class of pupil should receive work especially adapted to his ability. The "personal touch" is as applicable in school life as in business. Mr. Angove also stressed the fact that Home Environment has a great deal to do with the child's success in school and after life.

The Club was entertained during the luncheon hour by Joe Ribar and Russell Kluft with several amusing musical numbers. These two boys are a full orchestra in themselves, playing two harmonicas, the piano and accordion simultaneously.

James Sessions, the genial White Star manager, was introduced into membership in the Club by Dr. Luther Peck in one of his usual flowery and witty speeches.

## Appeal for Friendship

We are not enemies but friends. We must not be enemies. Though passion may have strained, it must not break our bonds of affection. The mystic chords of memory, stretching from every battlefield and patriot's grave to every living heart and healthstone all over this broad land, will yet swell the chorus of the Union when again touched, as surely they will be, by the better angels of our natures.—From Lincoln's inaugural address, March 4, 1861.

## DAISY AIR RIFLE PLANT RUNNING ON FULL TIME WITH LARGE FORCE

### Local Youth To Graduate From Military School

The many friends of Terence R. J. Hickey, 358 Liberty Street, will be pleased to know that he is now finishing his work at the United States Military Academy.

Orders published last week by Major General Wm. R. Smith, Supt. of the school, designated Thursday, June 11th as graduation day and all academic work will be completed about the end of May. On graduation day commissions as Second Lieutenants of the regular army will be presented to the class.

Mr. Hickey is a graduate of Plymouth high school and is well known in Plymouth. He was appointed to West Point by Rep. Earl C. McCheney.

## MUCH INTEREST BRINGS HEAVY VOTE TO POLLS

### INTEREST AND WEATHER BRING MANY VOTERS TO POLLS—ROBINSON LEADS FIELD.

The primary election held in the village last Monday, for the selection of candidates for the office of Village Commissioner, brought out what probably constitutes a record vote for recent years, a total of 847 ballots having been cast. The exceptionally fine weather prevailing, together with the manifest interest in the candidates under consideration, combined to bring out the heavy vote.

Following are tabulated the results of the election:

Geo. H. Robinson	443
Floyd A. Kehr	369
Paul J. Wiedman	367
Frank K. Learned	345
Carl G. Shear	343
John W. Henderson	315
Henry Hondorp	289

The first six names in the above list will appear upon the ballot at the regular election to be held March 15th, from which list three will be chosen by the voters to serve as Village Commissioners for the ensuing two year term.

The vote polled, which includes 661 from Precinct 1, and 186 from Precinct 2, constituted about 67 per cent of the total registration to date.

## Schrader Builds Store Location

Fred D. Schrader announced the early part of this week that he was constructing a small store in his building to occupy the space that was formerly vacant between his building and that of the First National Bank. The space has been rented to Mrs. Floyd Hillman who intends to open a most modern ladies' dress shop.

A new front is being built and walls and flooring are being placed this week. New fixtures and an entirely new and unique display will be installed within the near future.

Mrs. Hillman stated that the opening date was as yet indefinite but that a later announcement would be made. She plans on stocking a small line of lingerie and infants' wear, besides a complete line of dresses.

The library will be closed on Monday, February 23rd, in observance of Washington's birthday.

## Merchants Notice

There will be a meeting for all merchants interested in dollar day at the Hotel Mayflower, Monday, February 16, at 2:30 p. m.

Your presence will be necessary if you are interested in co-operating in this event.

## BOY SCOUTS CELEBRATING ANNIVERSARY

### Plymouth Highly Interested In Work of This Great Organization

Plymouth, one of the first Boy Scout communities in this part of the state and a place that has never lost sight of the importance of the Boy Scout movement, is greatly interested in the celebration of the 23rd anniversary of the Boy Scout movement of America. It was a good turn done by an unknown boy in England that resulted in the establishment of the Scouts. This entire week has been given over to the celebration in all parts of the world and it does not close until 12 o'clock Saturday night.

On February 8th, 1910 the late William D. Boyce, a Chicago publisher and the founder of the movement, by incorporating Boy Scouts of America in Washington, D. C., which formally launched the Scout Movement on American soil.

Scouting was first established here early in 1910 by a small group of interested men, two of whom are still living, namely, Judge J. Hubert and Gustave D. Pope. Others are today active on the Executive Board, namely, Dr. C. B. Lundy and Fred M. Hutzel. A. Douglas Jamieson, at present a member of the Executive Board, was the first Scoutmaster of Troop 4 which organized over 20 years ago.

Charles Gladney, then Superintendent of Schools, was one of this organized group and much credit is due him for the splendid co-operation which Scouting receives today from the Board of Education. U. S. Senator James Couzens was one of the most faithful board members during this early period.

No boys work program would be complete without the advice of V. M. C. representatives, so "scouting" formed its first troop at the main "Y" building, Plym. "Y" Secretary is still an active member of Scouting's Executive Board.

Milton A. McCrea, well-known journalist and publisher who died last August, was the Detroit Council's first President. Eugene Foster, of the office of the Council's first Secretary.

The first Scout headquarters was in a small club room in the "Y" and Dr. Jas. H. Sowerly (born in China, son of an American Missionary) was Detroit's first Scout Executive. The supply department (now called the Trading Post) consisted of a cigar box which was kept in the Executive Office. Dr. Lundy well remembers Scout Atherton, the first Tenderfoot to achieve the rank of Second Class. Lundy was the first and only examiner for many months.

The story of the establishment of Scouting in America reads like a romance but is a fact well authenticated. In the autumn of 1908 Mr. Boyce came to Detroit about to return to America. The British Boy Scouts Association had been established a year or more before. The Chicago publisher, caught in the grip of a dense, heavy fog, the sort that casts the pall of night over a London midday, was seeking a difficult address in the old city. A boy approached and asked, "May I be of service to you, Mr. Boyce?" told him where he wanted to go and the boy, shouting, said, "Come with me, Sir," and led him to his destination.

Mr. Boyce reached in his pocket and offered the boy a shilling. The boy replied, "No, sir I am a Scout. Scouts do not accept tips for courtesies." Mr. Boyce, in surprise, murmured, "What do you mean?"

The boy then repeated and then added, "Don't you know about the Scouts?"

"No," replied the Chicago publisher, "tell me about them." The boy did so and offered to take Mr. Boyce to the Scout headquarters. The lad waited while the errand was completed and then took Mr. Boyce to the office of Sir Robert Baden-Powell, the hero of Marston, and now Lord Baden Powell of Gilwell, Chief Scout of the World.

At the office of "B. P." as the great leader is affectionately known to millions of boys all over the world, Mr. Boyce was told all about the new movement. He gathered every bit of available information and returned with it to the United States.

The idea grew with him. He consulted friends and on February 8th of the following year took the steps, as noted above, to inaugurate the movement in this country.

In the twenty-one years since then, more than 5,000,000 men and boys have taken up the torch, been a part of the Scout Movement. Their regard for the unknown Scout who led Mr. Boyce through the London fog was expressed four years ago in the presentation of a bronze Buffalo to British Boy Scouts, which now stands at the British Scout training school at Gilwell, England, bearing this simple but impressive inscription: "To the Unknown Scout Whose open a jewelry store in the next few weeks. Mr. Avey comes to Plymouth after having been in the jewelry business both in California and Detroit and after an investigation of some months decided that Plymouth was the most progressive town in this locality and that he would like to locate here.

The store has been completely re-decorated and fixtures are now being installed. Mr. Avey stated that he would carry a complete line of jewelry and that they would have in connection with the store an excellent repair department.

Today, America is blessed with over 1,000,000 active Scouts and Leaders, due to the performance 21 years ago of one English Scout's good turn.

### PLYMOUTH TO HAVE NEW JEWELRY STORE

The store formerly occupied by Jesse Hake has been rented to Edwin Avey of Detroit who will open a jewelry store in the next few weeks. Mr. Avey comes to Plymouth after having been in the jewelry business both in California and Detroit and after an investigation of some months decided that Plymouth was the most progressive town in this locality and that he would like to locate here.

The store has been completely re-decorated and fixtures are now being installed. Mr. Avey stated that he would carry a complete line of jewelry and that they would have in connection with the store an excellent repair department.

It was a hard fought game, and marks the eleventh straight league game won by the local team.

Tonight, weather permitting, there will be another game here with either Wyandotte or Roseville.

### RICH AND POOR INCREASE

The statement is frequently made today that while we have the three classes of people—the rich, the middle class and the poor, that the upper and the lower classes are increasing while the middle class is becoming gradually smaller.

As evidence that this statement is true, is the statistical report of the income tax list for 1927 and 1928 which shows that in 1927 there were 290 persons in the United States whose incomes were over \$1,000,000 annually, while in 1928, it went to 511, which was nearly twice the number of the year before.

Michigan registered 25 of this number, one of which reported an income of over \$5,000,000.

While the upheaval of the stock market of a year ago undoubtedly reduced the number of millionaires somewhat, it still left the number above 400, which is a decided gain over 1927, and means only a temporary halt, when those who have more and the number will continue to climb until it is probable by 1935 there will be a thousand persons in the United States with incomes of over \$1,000,000.

That the number of the poor is increasing in the United States is admitted in the face of the estimate of 3,500,000 unemployed the 1st of December last. Some of these have since obtained employment, but it is certain that the number of people in the United States, that are just getting along, is twice the number there were in this country five years ago.

The reason for this is too little work and too low wages. The disposition of the man of wealth is to protect himself by insuring his annual income of fabulous proportions, even though it may mean shutting down a plant for whole or even part time.

However, there is a new spirit that is being evidenced on the part of some of our big industrialists today, which needs to be encouraged in every way possible, and that is the effort that is being made to stabilize industry so as to give workmen a guarantee of at least 11 months of work annually.

No one will seriously envy the wealthy their riches, if they do but indicate their interest in the workmen who are making their riches possible. To that end public sentiment should direct its thought.—Pat O'Brien in The Iron River Reporter.

### THE BRIGHTER SIDE

If 1930 lost money for us, whether it was "our own fault" or the fault of "conditions"—it will do no good to fret about it or carry a grudge against the world on account of it. That it was a hard year, most of us know by bitter personal experience, but that the coming year is certain to be brighter, by contrast with the darkness of 1930, we are also certain. For bad times are like boom times, in one respect—they cannot last forever.

Railroads, automobile factories, and shops are taking on large crews during the past few days. The surplus of manufactured things is used up, if one may judge from government reports that drift to our desk from week to week. Money markets are easy for those who have sound business to promote. Everything is favorable to a sane and reasonable upturn in all legitimate lines.

Architects and finance companies say that building operations will be up to normal with the coming of construction weather. Farm experts assert that 1931 holds a golden promise as a result of the inevitable weeding out of surplus stock due to conditions of the past year. Retail merchants are noting a modest picking up of business in the past "after-holiday" season.

Boom times are like an illness and the resultant fever must run its course to the certain depression that follows every boom.

This has come to pass and the fever has run its course. Now, a bit of nursing along during the convalescent period, and we shall see healthy times once more.

Everything points to a good year in 1931. And that is why the opening words of this editorial should bring us cheer.—Lemont (Ill.) Optimist-News.

### INDUSTRY AT HOME

The growing tendency of industrial communities to progress by growth from within rather than by increase from without is attested by the Department of Manufacture of the Chamber of Commerce of the United States which is making a study of the subject.

Manufacturers are discovering that desirable results can be more easily obtained by working together than by working singly. New England, facing the competition of newer sections, appears to have taken the lead in this practice. It is developing it under the formidable title of manufacturers' cooperative research. Common problems—labor supply, employment, transportation, materials—are thrashed out by industries working together. By taking counsel together employees of one industry during a slack season may be transferred to another industry in full blast. In some cases one industry has loaned its skilled employes for a certain length of time to other industries temporarily in need of them. In others standard practices are agreed upon.

All of this works not only to the advantage of the industries but also to the advantage of the community itself.

### SEES LITTLE HOPE

The editor of the Redford Record is not at all hopeful about lower taxes for the present or for sometime to come according to a recent editorial in his publication. The Mail does not agree with him entirely. We believe that taxes will be lower and that a deter-

mined effort is being made by the present state administration to cut the cost of operating the state government. We believe that all public officials are doing the same thing. Of course the present legislative session is still young and there is much time between now and adjournment. However, there is every reason to believe that the legislature is making a serious effort to reduce the tax burden and we are inclined to think the next state tax will be considerably less.

The pessimistic views of the Redford editor follow: "In twenty years, Michigan's taxes have jumped 750 per cent, or from \$41,608,240 in 1910 to \$353,828,691 in 1930.

"It sounds like the growth of one of the Standard Oil subsidiaries. Too bad it isn't, for such a growth would mark income producing activity, while that of taxes is on the red side of the ledger—expenses!

"With commodity prices back around 1910 levels it would seem wholly in line with the thought of the day to slice off, not twelve or fifteen million, as Governor Brucker proposes, but \$120,000,000 or \$150,000,000 from state operation costs. Of course, it could be done, but it won't.

"Taxes are going to stay high because the people as a group do not have sand enough, or determination enough or persistence enough to get representative instead of bureaucratic government. We have had bureaucratic government since Liberty-bond orgy days of Woodrow Wilson. The war time pace has continued its stifling grip, setting an example which the voters haven't, as yet, shown sense enough to kick out.

"Of the increase, the burden in taxes has remained on general property which pays three-fourths of the whole.

"In Michigan we have come to the point where land taxes have become confiscatory. What the state is going to do with all the land that shortly will revert to it because of unpaid taxes is a conundrum which we do not think the present generation of bureaucratic office holders will solve."

### OH, THE LITTLE THINGS

A Chicago haberdasher's business dropped off 40% in one month. He was frantic. So frantic that he asked four or five of his best customers what was wrong with him.

They all told him nothing was wrong with him, but that if he couldn't do something to keep his door from sticking when they tried to open it, they too would deal somewhere else.

Then there was the hotel, with perfect appointments and service, that kept on making its guests unhappy. The answer to the difficulty popped out during a convention when a committee of hard-boiled delegates braced the management to stop the city hall clock during the convention—the bong of that clock every quarter-hour, half-hour and hour shook every bed in the hotel.

Little things are easy to discover—all we need is the curiosity to ask a few customers.—Double Dollars.

### WHAT OTHER EDITORS ARE THINKING ABOUT

#### An Unfortunate Entry

Politics usually is a messy thing, chiefly because citizens do not take sufficient interest in their problems of government, or in the proper administration of various offices, once candidates get into seats of authority. It is particularly unfortunate, for this laxity permits evils to creep in.

One of the messy things about politics is the election law which will permit a man having a name similar to a present incumbent to oppose him in the primaries. Usually voters are not sufficiently discriminatory to know, at the polls, which is the new aspirant or which is the incumbent, if their names are identical.

We now have a member of the school board who rose to office suddenly when two men named Mumford ran for school board inspector, one of them being an efficient member of the board. Their vote was split and Williams slipped into office!

Now we have John H. Webster, former president of the board of education, an able leader in educational matters, a man who, time and again, has proved his grasp of and capable interest in the proper development of Detroit's school system, about to be faced in election primaries by a negro, named James A. Webster.

This negro, James A. Webster, is class conscious and wants to represent his race on the board. He quit school after the eighth grade. What he should seek, no doubt, is a janitorship at one of the lower east side schools, where he can probably fit his abilities to the job and still serve his race.

But an election law which would permit their names to go on the ballot without designating the present board member is silly, if not vicious.—Redford Record.

#### Death's Highway

Just what can be done about it, we don't know, but we do know that U.S. 16 from Portland to Grand Rapids is the most dangerous road in the state, if you count up the serious accidents and deaths that occur on it. Most of them are caused by speeding and prove that a long stretch of country road, with no towns to check up on drivers, creates these conditions. We are sure to have the same condition on

M-21 when it is opened up for through traffic.—Hiram Johnson in Saranac Advertiser.

#### Take Latin Out

Prof. George E. Carrothers, of the University of Michigan School of Education and director of the Division of the University Inspection of High Schools advocates the omission of all foreign languages from the course of study in the smaller high schools and the substitution of health and vocational studies better suited to the needs of the pupils. Professor Carrothers says:

"The tradition that some foreign language must be offered is hard to overcome, nevertheless in small communities where it is required for graduation it may actually serve as a deterrent to study who might enter high school if they could substitute some other subject of more value in their every day lives. It would be a worth while experiment if smaller schools which can afford to give only a single language would drop this, mathematics and ancient history for ten years and substitute courses in community health, community civics, child care, cooking and chemistry of food, animal husbandry, soil analysis and other courses aimed at personal and community needs.

"The courses would not need to be soft and easy. Rightly organized and taught by trained teachers with interest and conviction they would give as good discipline as Latin or solid geometry, would be ever so much more challenging to the learner."

However, there is not much prospect of a change along the lines suggested so long as the University and most of the colleges require foreign languages as a part of their administration requirements.—Milford Times.

#### Income Tax

The Republican-News is not the only one who is not sure on all points concerning the state income tax proposal. Thus, our contemporary, the Charlotte Republican-Tribune, says:

"Upon one point, however, this paper has always felt the justification to be adamant. On the ground that voting a state income tax would only place in the hands of the legislature additional funds for further expenditure, not to say extravagance, the Republican-News opposes an income tax unless accompanied with an iron-clad guarantee that its proceeds shall only be used to reduce state property taxes. And this guarantee can only be given by a fixed percentage limit beyond which the sum total of all state taxation shall not pass.

In discussions with others, this paper has clung tenaciously to that contention. And so far it has been unable either to elicit demonstration that shows our fears to be groundless, or to bring forth a more efficacious plan to prevent the misuse of the tax. And, at that, we are not sure that even our proposal might not be dogged.

At this time, for impetuous reduction of expenses, it is not amiss to reiterate another contention heretofore advanced by the Republican-News: A legislator—state, county, or municipal—who votes for an appropriation that just now can be possibly done without, is a public enemy.—St. Ignace Republican-News.

The laborer is worthy of his hire, and so is a service industry. To put the lines on a par with other competing transportation agencies, to treat them fairly in matters of legislation and taxation, to adjust rates to conditions—that is the only part of wisdom. Railroad entrenchment is a blow to progress and a detriment to every community.

**"THE CRIMINAL CODE"**  
Very few people realize with what rapidity and accuracy the prisoners in all State penitentiaries flash important news to their fellow convicts. They have a method which enables them immediately to communicate information over the entire prison in the space of a few moments.  
This system consists of "tapping" with a metallic object against the wall of the cell or the framework of cots. Practical employment of the method is seen to particular advantage in Columbia Pictures' epic of prison life, "The Criminal Code," showing at the Penniman Allen theatre Sunday and Monday, February 15 and 16.  
In this picture a new and despised warden comes into power. Everyone in the prison knows of his presence within fifteen minutes of his arrival, even those in the enclosed basement dungeons.  
"The Criminal Code" is replete with romance and thrills. It is a poignant love story—the seeming hopeless love of a youthful convict for the warden's daughter. Two riots, a jail break and many other startling scenes are featured. Walter Huston is starred. He is supported by a brilliant cast which includes Constance Cummings, Phillips Holmes, Boris Karloff, Arthur Hoyt, Mary Moran and many others.  
Howard Hawks has done a notable job with the direction of "The Criminal Code." His is one of the great directorial triumphs of the year—the picture is a great romance, appealing and eminently worthwhile.

**"FOLLOW THE LEADER"**  
For the first time since the advent of the talking moving pictures, Ed Wynn, one of the greatest comedians of recent years, will be heard, as well as seen, on the screen. "The Perfect Fool," who thrilled and amused Broadway last season in "Simple Simon," will be seen at the Penniman Allen theatre Wednesday and Thursday, February 18 and 19 when "Follow The Leader," with Ginger Rogers and Stanley Smith, will feature the bill.  
"Follow the Leader" is a ripping farce comedy, in which Wynn himself won fame on Broadway when it ran to capacity houses for weeks under the title of "Ambitious Man." In this story of gangdom, Wynn, with his floppy hat and oversized shoes, is seen as the cheery chef of gangdom's favorite restaurant. Inadvertently, he becomes a hero in the eyes of the gang, and is forced to sustain his reputation.  
Ginger Rogers, favorite of the gangsters, is ambitious for a stage career. Wynn, urged on by his supporters, has to induce a theatrical manager to give her a chance. He accomplishes this mission by kidnapping the star of the show, and forcing Ginger to act under study. A succession of rapid-fire comedy moments ensues, with Wynn always blundering into the right situations at the wrong times.  
Miss Rogers and Stanley Smith, the romantics who won universal renown with their parts in "Queen of Hearts," are delightful in this roaring comedy, interjecting their romantic story into the fact farce action. Lou Holtz, punnulent stage comedian, is also a featured member of the cast.  
"Follow the Leader" is good fun for young and old. There is scarcely a serious moment in it, and every gangster in the picture is a good-fellow, more intent on doing good than in doing bad. "Follow the Leader" will set the pace for comedy this season, and Plymouth is one of the first communities to get in on it.

**"NO LIMIT"**  
The same kind of role which first brought him to the attention of the movie-going public in "Close Harmony" is again essayed by Harry Green, brisk talking dialect comedian in "No Limit." Clara Bow's latest talkie which will appear at the Penniman Allen theatre Friday and Saturday, February 20 and 21.  
In "Close Harmony," the first Nancy Carroll-Charles Rogers talkie, Green was the theatre manager who was always fumbling with his spectacles. In "No Limit" he is a theatre manager again—this time as the boss of the big celluloid "cathedral" where Clara is employed as a gaily-uniformed usherette.  
As a poor but ambitious young New York girl Clara faithfully obeys all the commands to which usherettes are subjected—"right face," "forward march," "halt," and so on.  
Thus, in line of duty, she finds a cigarette case in the theatre and quite efficiently returns it to its owner, Norman Foster, handsome man-about-town. His suave manners appeal, and she falls in love with him. Their love grows as they meet in the gay night resorts

A large number from here attended the Parish Brotherhood meeting at Sheldon Friday evening.  
Lenora Hank has been confined to her home with tonsillitis.  
Mrs. Martin Healt and children of Whitaker spent Tuesday with her daughter, Mrs. Wm. Hank.  
A miscellaneous show was held in the Cherry Hill church house Wednesday evening in honor of Mr. and Mrs. Wm. Hank. About one hundred relatives and friends were present. They were the recipients of many beautiful and useful gifts. They are now at home to their friends on Ridge road.  
Mr. and Mrs. Knudt Jorzeusen and family were Sunday dinner guests in Detroit.  
Mr. and Mrs. Frank Hank and daughter, Mrs. Sallie were Sunday dinner guests of Mrs. Jennie Hank.  
Mr. Bernard Healt of Ypsilanti called on Mr. and Mrs. Wm. Hank Sunday.  
Mr. and Mrs. Gordon Gill and son Donald were over night guests with friends at Lansing, and attended Farmers' Week on Wednesday.  
Mr. and Mrs. Walter Wilkie and daughters, Vera and Phyllis spent Sunday in Detroit.  
Mr. and Mrs. John Losey were called to Toledo Saturday by the death of an uncle.  
The Brotherhood of Cherry Hill will give a Father and Son banquet on February 20, in the church house.

of the big city, but Cupid's boat is nearly wrecked when Clara discovers that Foster is a big-time crook. However, it all comes out smoothly at the finish, with the aid of the sympathetic Green.  
Others in the supporting cast are Stuart Erwin and Dixie Lee, Erwin, who was last seen in Maurice Chevalier's "Playboy of Paris" and who was a decided comedy hit in "Along Came Youth" and "Dangerous Nan McGrew," is seen as a vacuum-brained sailor boy in "No Limit." He is in love with Clara, but admits to her that he never hopes to have her love him.

**Farmers Tax M.S.C. Capacity At Meeting**

Facilities to care for the Farmers' Week visitors at Michigan State College have been severely taxed in past years but they failed completely this year when the crowd which increased gradually through the week completely filled the largest building on the Campus and thousands were turned away from the Thursday night program.  
Indications that Demonstration Hall would be too small for the evening audience caused the erection of temporary bleachers in the afternoon and preparations to seat 10,000 people were made. Visitors already in the Hall for the afternoon program sent one of their party out to bring in a lunch while the rest held seats for the party.  
These exponents of preparedness and the thousands who came early filled the Hall to capacity by six o'clock. Those who arrived at seven o'clock, the time scheduled for the commencement of the program, found the doors closed and the building so jammed with

people that there was no possibility of admitting any more.  
While College officials were happy to find that the people of the state showed such intense interest in the week's events, they sincerely regretted the necessity of disappointing thousands and plans are already under way to have duplicate programs if necessary to care for future crowds.

Don't forget the fuel collection. Patricia Ann, the infant daughter of Mr. and Mrs. Edward Plachta, was baptized last Sunday afternoon.

PRESBYTERIAN NOTES.
The Woman's Auxiliary held their regular monthly meeting on Wednesday of this week. The program was interesting. A group of women presented a play "Jamey," representing life in the southern mountains.

Miss Edna Allen's class is having a most encouraging attendance. There are other young women who would find this class both interesting and helpful. The class meets weekly at the regular Sunday-school hour, 11:30 a. m. Sundays.

The Junior Department of the Sunday-school is inviting the parents to meet with the boys and girls at the church on Monday evening, February 16, at 8:00 p. m. o'clock. There will be a pot-luck supper with plenty of happy social intercourse.

The Ready Service class will meet on Tuesday of next week at the home of Mrs. Charles O. Ball, 232 Blunk avenue. There will be cooperative dinner at noon followed by a program and social meeting.

The Busy Beavers class, with Mrs. Reek as leader, met at the home of Mrs. Willard Geer, Blunk avenue, on Monday evening last. The girls report a very jolly time and some worthy plans thought out.

Mrs. Kaiser's class held their meeting at the church Wednesday, when a goodly number assembled for their supper and social hour.

Women Say It's Wonderful
Poor complexion and old looking skins lack protection. Preserve your skin with the new wonderful Face Powder MELLO-GLO used by so many beautiful women.

Correct High Blood Pressure, Dizziness, Diabetes Without Diet.
Avoid paralysis and stomach troubles in advanced years. Do it with San Yak Pills for the kidneys.

Dr. L. P. Bailey of Michigan says of San Yak: "It will do all you claim. It is fine medicine for the blood and has cured rheumatism of long standing. When one treats to kidneys with San Yak he is renewing the whole body. One can always depend on San Yak." Other physicians of Michigan say San Yak is the best medication of any disease.

## SCIENCE TURNS TOWARD STEAM

The general science class has turned its mind toward steam in the shape of steam engines.

George Curtiss has cleverly made an inexpensive steam engine, making the boiler out of an empty coffee can, with a tin top of another can and a number of odd tubes, washers and pipe fittings ingeniously arranged so that a simple model of a steam engine is the result.

Last Wednesday this steam engine was first tried out successfully in the chemistry room and a second time in the general science room, the test being conducted by Mr. Bentley, general science teacher, who had a short time ago, explained to his class the principle on which steam engines work and had asked the class to make models of them and bring them to school so that they might be exhibited before the rest of the pupils. George Curtiss was the first to build one and upon bringing it to school was immediately probed with questions as to how it ran, whether it was hard to make and if he was going to run it there in the school, all of which he answered by letting Mr. Bentley run it for the benefit of all who cared to watch. Naturally it created some excitement and quite a throng filled the science room.

## ART SKETCHES TRUE TO LIFE

Many of the best sketches made by the high school art classes in their recent work of life modeling have been put up on display on the bulletin board in Mrs. Bower's room. Some are very good indeed and the likeness of the models even though they are drawn without facial features can be recognized.

Some of the pencil sketched figures are slumped over in a comfortable position on stool or chair. The attitude of one even without the features, betrays that foraging, blank, glazed look which is so irritating to practical folks. Of course that characteristic pose that is seen so often in this day of long hair, making sure that the pins are not falling out, could not be forgotten. Still other sketches illustrate a girl strutting down the ball and a boy in the conscious attitude that clings to the possessor of a new or becoming dress.

## CIVICS CLASSES STUDY ALIENS

Make the children understand the immigration problem and perhaps there will not be such a problem in the future, is the plan being carried out in Mr. Cobb's civics classes. The students have been studying the customs, habits and ideals. Especially have they been searching for information concerning the customs and problems that may trouble foreigners on their arrival in this country and hinder them from becoming good citizens. With this knowledge of the handicaps the aliens must overcome, the present day civics students may some day contribute to bringing more good citizens from the melting pot.

## TORCH CLUB REPRESENTED AT CONFERENCE

Last Friday, fifth hour, the Torch club had its induction of new officers. The new president put forth the program for this semester. According to the program submitted it looks like a banner semester for the Torch club. Saturday, Mr. Cobb, the Torch club advisor; Donald Bronson, president; Robert Champe, vice president; William Park, treasurer; and Arthur Kepka, chairman of the program committee, attended the officers training conference held in Detroit. While at the conference Mr. Cobb led the discussion on the topic, "Ideal Program for Torch club chapters."

## SECONDS WIN AFTER TWO OVERTIME PERIODS, 17-15

After playing the regulation four quarters the seconds were obliged to go into overtime periods to decide the game. One field goal spelled the margin of victory for the Blue and White. Like the first team game it was a low-scoring event.

The regular lineup did not start the game but went in in the third period. In the absence of the regular referees Randall and Ferguson, two boys from the regular squad of last semester, took the whistles.

## ROCKS WIN DOUBLE HEADER FROM DAY SCHOOL

In the first team game baskets seemed very scarce and the final score was only 13 to 10 with the home team on the long end of the score. This win made it two in a row over the Day school in this series of non-conference games.

## DEBATES HELD IN AMERICAN HISTORY

Because the members of Miss Fiegl's American history classes are studying the Civil War, the question of whether or not the South was justified in seceding from the Union, was the subject they debated last Wednesday. In the first hour class those upholding Northern views won, while those who favored the South won in the eighth hour class. The Southern people believed the slaves to be their own personal property, and cherished the right of revolution against a government which they regarded as simply a compact between states, while on the other hand, the people of the North looked upon slavery as a moral wrong and declared it unconstitutional for states to secede from a government made by the people of each state.

## SKETCH MERITS HONOR POINTS

A pen and ink sketching, made by Ellen Malye, a pupil of Mrs. Atkinson's room in Central school, appeared in the Sunday issue of the Detroit News last week. For this picture, which she drew at home under no supervision whatsoever, she received eight honor points, which are of great importance because the person gaining the largest number of honor points by the last of March, will receive a prize of fifteen dollars. Ellen has won honor points before on other sketches but

## THRIFT BANNER CHANGES HANDS

There has been a great deal of competition between the various groups since the introduction of the school banking system. Because Miss Fiegl's group gained the highest percentage of contributions this week, the thrift banner now hangs in her room. Miss Berg's group rated second with 53 per cent, while Miss Fiegl's room had 58 per cent.

## PLAY DAY WITH NORTHEVILLE GIRLS

This is the final reminder of Play Day, a form of socialized competition for our high school girls, which is to be held here in the Plymouth High School auditorium next Wednesday, February 18. There will be games played between each class of each school from the seventh grade through the twelfth. It is our aim to do our best against our neighboring school's teams, but more than winning, we want to display good sportsmanship and to be good hostesses to the girls from Northville. With the cooperation of every girl who is on a team and with that of the ladies and mothers of Plymouth whom we urge to attend, we know that Play Day can be made a success, and we look to you to help make it so. The program follows:

4:15-4:45—7th grade New-cum game  
4:45-5:15—8th grade New-cum game  
5:15-5:45—9th grade basketball game  
5:45-6:15—10th grade basketball game

6:15-7:00—Social hour. Lunch will be served by the Woman's Club of Plymouth to the players. Music will be furnished by the Girls' Double Quartette, Jean Strong and Maurine Dunn will sing one or two numbers, and there may be a violin solo. There will also be group singing.

7:00-7:30—Eleventh grade basketball game  
7:30-8:00—Twelfth grade basketball game

an Open letter to Buick owners

February 7, 1931

Dear Buick Owner:

Because of its importance, we decided to inform you now that the present line of 1931 Buick Straight Eights will not be replaced by new models this summer.

Buick, as you know, has introduced its new cars on August 1st, year after year. But inasmuch as these new Straight Eight models have met with such spontaneous approval by thousands everywhere, Buick has decided to continue manufacturing the present Eights throughout the summer and coming fall.

This is mighty good news to thousands of Buick owners because they will buy new Buicks now with the knowledge that there will be no model change next summer.

They will find in these new Buicks a degree of performance that is certain to give them a genuine thrill. All have the safe, silent-shift Synchro-Mesh transmission. All have Valve-in-Head Straight Eight engines. And all have the famous insulated Bodies by Fisher.

So well has the 1931 line been received that, out of every 100 eights sold in Buick's price class, 56 are Buicks.

May we suggest that you drive the Eight as Buick Builds It? Your Buick dealer will be glad to have you take the wheel and learn at first hand how much Buick Straight Eight performance adds to the joy of motoring.

Very truly yours,  
BUICK MOTOR COMPANY, FLINT, MICH.

## NEWS FROM STARKWEATHER

Mrs. Wilkie's kindergarten class has made a grocery store in one corner of their room. They have all of their fruit made from clay and other groceries in boxes. They also are selling suckers. They are starting a post office project for Valentine's Day. They have ten new children in their class. Miss Stader gave ribbon badges to the children having ten or more stars on their reading and spelling charts last semester. The badges are very pretty with three small ribbons fastened together with a small rosette. The following are the names of those receiving the badges: Jimmy Arigan, Leslie Jean Ebert, Jean Engleson, Robert Sessions, Junior Blair, Jean Compton, Charles Crumm, Helen Joy Jones, Margaret McLaren, Ivan Packard, Roger Vanderveen, Betty May Wilkie, Phyllis Williams and Doris Olsen. The children made valentines for Robert Marshall who is in the hospital. They also made little drums to decorate their room. The children are learning a little mother song called "Good Bye to Mother."

The 3-A and 4-B children have planted a garden in a sponge and on blotting paper. They expect to harvest their crop of radishes and wheat before June. The 3-A class is glad to read from geography readers because they seem to be doing almost the same work as the 4-B.

Miss Hunt's children are learning the poem, "The Flag Goes By." The 4-A class has a rating of five on their progress chart, while the 5-B class has a rating of three.

Jewell Starkweather went to Orchestra Hall for February music memory. The 5-A children have been making health clocks. The 6-A children are studying out of the seventh grade Silent Reader and are also studying nouns, pronouns and verbs. The 5-B class is dramatizing "The Two Girls" in language study. The 6-B class is dramatizing "The Twelve Months."

"Taking Castor Oil"  
Castor oil is the first bit of medicine I remember of taking. Indeed, it has qualities I will never forget—that greasy, slippery, nauseating, unbearable mixture. The rest of the family usually got quite a kick out of my "castor oil day."

I would rather have gone through this critical moment alone. But its symptoms advertised it. I willingly ran errands, set the table and even washed dishes without a second invitation. All this was for mother, who issued the "sealed letter" and saw that the sentence was carried out, but I could not bribe my judge in any way. The preparations for me to drink this "fatal hemlock" were also quite conspicuous. I placed in a row a teaspoonful of castor oil, a glass of water and a cookie. These were lined up for speed and accuracy. When I got up courage enough to get the oil about two inches from my mouth, somebody in my audience would break out with a "Don't be a fraidy-cat" or "Don't be such a baby." That made me angry. I had to have a settled

conscience before going through such a trial, so I carried on a rather animated conversation with the speaker of these remarks. After this I had to start again getting up courage to take my medicine. When it once did go down, I can assure you the water and cookie immediately followed. If they didn't the oil went in reverse and the process had to be repeated. Mother sometimes fixed the castor oil with sugar and orange juice, but that wasn't very acceptable because it made two swallows of mixture instead of one. We even got some labeled "tasteless" but it was just as bad, for the taste alone didn't bother me—it was the slippery, oily greasiness. —By Beulah Wagenschutz.

## CENTRAL SCHOOL P. T. A. MEETS

The regular meeting of the Central Grade school P. T. A. was held Monday evening, February 9th in the high school auditorium.

A very fine program was given by the boys and girls in Miss Mitchell's A First grade and Mrs. Albin's B Second grade as follows:

GRADE 1A  
Dramatization of story — Epaminondas and His Auntie.  
Doll Carnival — by ten little girls.  
Finale — Three Little Kittens — Song.  
Singing Game — Valentine Song — Entire Room.

## GRADE 2B

"Little February"  
Song — "My Valentine"  
"Ten Little Letters"  
Song — "The Cherry Tree"  
Singing Game — "Thorn Rosa".  
The music was under the direction of Mrs. Baughn, assisted by Mrs. Albin at the piano. A short business meeting followed.

## CERTIFICATE OF PROGRESS AWARDED

GREGG TRANSCRIPTION TEST—EIGHTY WORDS A MINUTE.

Viola Luttermoser, having written for five minutes at eighty words a minute, and having transcribed the notes neatly and accurately on the typewriter, is awarded this certificate of progress.  
The test, for which this certificate was awarded, was given by Mr. Day to the advanced shorthand class, but Viola Luttermoser was the only one who successfully passed it. She will receive a pin and a subscription to the Gregg shorthand magazine.

## A THEME IN ENGLISH 11-A

"Have You A Bugaboo?"  
If you have a bugaboo, it is probably listed here. Man comes into this world without his consent and leaves it against his will. During his stay on this earth, his time is spent in one continuous round of contraries and misunderstandings. In his infancy he is an angel; in his boyhood he is a devil; in his manhood he is everything from a lizard up. If he is a poor man, he is a poor manager and has no sense; if he is rich, he is dishonest but considered smart. If he is in politics, he is a grafter and a

crook; if he is out of politics, you can't trace him, as he is an undesirable citizen.

If he goes to church, he is a hypocrite; if he stays away from church, he is a sinner. If he donates to charity, he does it for show; if he does not, he is stingy and a tightwad. When he first comes into this world everybody wants to kiss him; before he leaves it everybody wants to kick him. If he dies young, there was a great future before him; if he lives to a ripe old age, he is in the way and only living to save funeral expenses.

It does not take a student in psychology to realize the futility of trying to please everyone, but there are some things that would win our unanimous disapproval.

My pet bugaboo is an unruly temper—not mine, but that of any one else who has one. An unruly temper can be forgiven in a person until he reaches the grand old age of twelve, except in times of great mental stress or in the presence of a perpetual antagonist. To lose one's temper at any other time shows either poor breeding or that the person in question is a moron. It is my contention that any one who has casualities should accept those of other people as such. I do not believe in "turning the other cheek" because it offers too many blissful opportunities for the class of morons mentioned above and, also, it is sometimes necessary to defend one's honor. Neither do I believe in "counting to ten." Utilize that time! Consider whether or not you are justified in a tart comeback. Defend your decision, but do not strike the first blow. Above all, do not lose your temper. —By Clifton Sockow (submitted as a theme in English.)

## MR. SMITH TALKS TO TRAVEL CLUB

Mr. Smith was the speaker at the Travel Club meeting last Thursday, February 5. He told us mostly about Ellis Island, which he had the opportunity of visiting some time ago. Ellis Island, as you know, is the location of the government immigration headquarters where all people coming into America must be admitted by the officials. From 1907 to 1914, about a million people each year came into this country, principally from southern Europe. Of these, many had been fairly well satisfied with working conditions over there, but they read the advertisements printed by boat companies which very highly praised United States and made them feel as though it were almost in paradise. These people are exiled at Ellis Island to see that they are physically and mentally fit and to see that they are not paupers. A certain amount of money must be in their possession when they reach America.

After they have been thoroughly examined and have satisfied the officials, their foreign money is all changed into our own United States money before they board trains to New York or whatever their destination in the New World might be. They must be able to read some in their own language from the Bible. It very rarely happens that these people can not pass their entrance examination, because the best companies are held responsible for any people they bring over

## LOCAL NEWS

Mrs. I. N. Inala visited her parents in Mt. Clemens a few days this week. Gerald Simmons spent several days last week as the guest of Claude May of Plalawell, Michigan.

Mr. and Mrs. Kenneth Stevens and new baby, Merlin, called on Mrs. Stevens' parents, Mr. and Mrs. Fred Tobey, Sunday.

Mrs. Wm. D. McCullough, who has been ill for the past three weeks, was taken to St. Joseph's hospital in Ann Arbor, Tuesday.

Mrs. Claude Simmons and Gerald spent Tuesday with Mr. and Mrs. J. C. Phillips of Superior.

Mrs. Velma Petz, who is attending Farrand Training School at Harper hospital, Detroit, was elected first vice-president and historian of the Harper Hospital Young Women's Christian Association, of which all students are members.

Mrs. Alma E. Wolfson and Mrs. I. B. Chestnut of Berea College, Berea, Ky., formerly of Plymouth, were week-end guests of Mr. and Mrs. Roy W. Hood of Detroit, and Mr. and Mrs. Albert Kuster of Plymouth.

Upon the first sight of these immigrants, one is impressed by their utter cheerlessness. Some of them are tired, some crying, some hungry. Only occasionally, when someone sees a person in the galleries whom he knows, does a smile cross his face. The women wore the bright colored clothes of their native lands, beautiful, but to us rather queer-looking dresses. Mr. Smith then told about some of the places he visited in eastern United States that he has seen.

On the way to New York, he passed through the Green Mountains in Vermont, which are so-called because of the abundant vegetation growing on their slopes. He also went through the White Mountains of New Hampshire in which is located the "Great Stone Face," made famous by Hawthorne. He discussed the battlefield of Valley Forge, famous "since the days of the Revolutionary War, and Gettysburg, where the soldiers of the North and those of the South fought and died. Here, on three sides of the city, war waged during the '60's, and only one person in the city was killed. These soldiers drank from a common well, Spangler's Spring, for there was no other source for drinking water around at the close of the second day of fighting. It is remarkable that no man had poisoned that spring, for it would have been an easy task to perform, but this all shows how humanely honest these enemy soldiers were.

The Travel Club thanks Mr. Smith for his interesting talk which was greatly enjoyed by everyone present.

Mr. and Mrs. Edward Bagot and Mr. and Mrs. John Higgins visited Bagot's uncle, Joe Bagot and wife, his mother and aunt, Monday, at Mt. Clemens.

The Stark school celebrates their seventh anniversary of Founder's Day on Tuesday, February 24, at 7:15 o'clock. There will be a regular P. T. A. meeting followed by a short program. Mr. Miller, Supt. of School, will be speaker for the occasion.

The Plymouth Home Economics Group will meet at the home of Mrs. Wm. Arcott, 307 Blunk avenue, Monday at 1:30 o'clock. The lesson, "Making Sandwiches and preparing lunches," promises to be very interesting. All members please be present.

The Ready Service Class of the Presbyterian Sunday-school will hold its regular monthly meeting at the home of Mrs. Charles Ball on Blunk avenue, Tuesday, February 17. Pot-luck dinner at noon.

The Busy Beavers Sunday-school class of the Presbyterian church, of which Mrs. Harry Reck and Mrs. Myron Hughes are in charge, met Monday evening at the home of Robert Chappell on Blunk avenue. Seventeen girls were in attendance and all enjoyed the business meeting and the social time afterwards.

A complete surprise was given Mrs. A. E. Patterson last week Wednesday evening, when Mrs. C. H. Ranch and Miss Gladys Schrader entertained three tables of bridge in honor of her birthday anniversary at the home of Mrs. Ranch on Church street. A delicious luncheon was served which included a wonderful birthday cake. The following ladies were present: Miss Mary Connor, Miss Almada Wheeler, Mrs. Harry Shattuck, Mrs. Charles Garrett, Mrs. Nellie Bennett, Mrs. Calvin Whipple, Mrs. Jennie Park, Mrs. Luella Hoyt, Mrs. Lucy Baird, Mrs. John Henderson and Miss Anna Baker.

# The new Ford is an economical car to own and drive

Low first cost, low cost of operation and up-keep, and low yearly depreciation mean a distinct saving to every purchaser

THE NEW FORD is a splendid car to own and drive because of its attractive lines and colors, safety, comfort, speed, reliability and long life.

There are, in addition, three other features of importance to every far-seeing automobile owner... low first cost, low cost of operation and up-keep, and low yearly depreciation.

During the life of the car, the day-by-day economy of owning a Ford will amount to considerably more than the saving on the first cost. You save when you buy the Ford and you save every mile you drive.

The reasons for this economy are simplicity of design, high quality of materials and care in manufacturing and assembling. Many vital parts are made to limits of one one-thousandth of an inch. Some to three ten-thousandths of an inch. Throughout, the new Ford is an outstanding example of fine craftsmanship in automobile engineering.

The more you see of the new Ford—the more you talk to Ford owners and experienced mechanics—the more certain you become of this fact... It brings you everything you want or need in a motor car at an unusually low price.

LOW PRICES OF FORD CARS

\$430 to \$630

**Do you know?**

WE have found instances of people carrying too much insurance as well as insufficient protection. It is not universally known that insurance agents will summarize insurance policies and compare them with property values, reporting whether the coverage provided is right. By this means some people save money; others avoid a severe financial loss from fire.

This agency will gladly inspect your policies and report the result to you.

By J. W. WALKER  
 P. T. A. B. P.  
 Founders Day, the seventeenth instant, was celebrated by our local unit with appropriate reading by the meeting in charge of the article in the Vol. 10, No. 3, Michigan Parent-Teacher, and the birthday cake, baked by Mrs. Erle Burton, local president, contained, or rather held, thirty-four candles. The teachers lit the candles. Johnnie Walker blew them all out with one breath, and everyone present received a piece.  
 Mrs. Joseph Shader, neighbor from Grandale Gardens, and her three charming daughters, lent their talents and musical talent to the evening. With their mother at pianoforte, Miss Margaret (12), played the mandolin banjo, and Misses Marie (13) and Mildred (10) played tenor banjo. We know Mrs. Shader must be proud of her girls, as we certainly enjoyed their excellent playing of so many different pieces.  
 Study Club  
 A number of the ladies are thinking seriously of taking up the arts and literature of some other things as a "Study Clubbe". Mrs. Burton is working hard to get them together, and will no doubt, prove very successful.  
 Who Should Go To College  
 was the subject of Dr. C. A. Fisher's (T. of M.) talk at the regular meeting of P. T. A. Dr. Fisher spoke at length on the Intelligence Quotient which we often hear too much about, and the so called "Dumb-bell" student, who, Dr. F. explained often turns out to be very brilliant and successful in the business world. He also urged parents to send our youth to some one of many smaller universities if it were not possible for him to enter any of the "big five".  
 Dr. F. stated that between 1, 0, 0 and statistics of all sorts, that we are never too old to learn, "that even after the age of forty many are successfully studying" and there is no reason why any one with a desire for knowledge of a subject should deny self an account of age. Many well known colleges are having extension mail courses that are very good, and from reports, many hundred thousand grown ups are availing themselves of these opportunities.  
 Then there was also discussed the problem of the youth who spent only one or two years in college and turned to commercial life. Many of these have become captains of industry, said Dr. Fisher. He then told us of several instances of boys sort of specializing on figures, etc., who apparently could not study other subjects. These boys became masters in their chosen fields, so the so called "dumb-bell" did not always mean the same all thru life.  
 Visitors  
 Mrs. Margaret Harsha, of Charlevoix, Mich., is visiting the Paul Harsha's at their home on Arden avenue. The Harsha boys are entertaining their grandma in great style.  
 Hikers  
 are also in season. Messrs and Mesdames Harold Church and Ed Keldell have been enjoying cross country hikes in the old fashioned way.  
 We have also directed a number of hikers from afar, and riders too, who wish to visit the big city in search of Ford plant and other industries in search of employment. This number has been more than a few a day, especially after the announcement, last month, of so many men going to work in the auto city.  
 Dancing Dolls  
 have been working hard at practicing

of time, right at home, and everything.  
 4th and 5th Grades  
 Miss Peck's Room  
 We have been making valentines. We made many kinds. We enjoy making them.  
 We have been reading stories about Lincoln and Washington. We learned many new and interesting things about them. We are making Lincoln's Boyhood Home in the sand table.  
 Miss Jameson visited our room Tuesday. We received many stars this month.  
 Our library books are here. We are all very eager to read them.

**BARTLETT SCHOOL NOTES**  
 Miss Reid visited our school Friday, Feb. 6. She tested us in posture and weighed and measured us. She made an interesting speech on rest and food. Our health project for this month is "Sleep".  
 The Citizenship club is giving a party at Wilkie's, February 13. The ladies will each bring a Valentine, half of which will be auctioned to a gentleman. By matching halves partners for cards and supper will be found. We are doing this to raise money for the Citizenship club.  
 Ruth Reich has been seriously ill from a fall which she took at the home of her grandmother. She fell off a porch about six feet high.  
 Monday, Feb. 16th, will date the beginning of an experiment at Bartlett school. The first four grades and the kindergarten will attend school in the morning, 8:30 to 12:30. Grades five to eight will attend school from 12:30 to 4:00. This is an attempt to partly solve our crowded school conditions.  
 At our next P. T. A. meeting, we will expect a lovely discussion among the parents as to the advantages and disadvantages of our plan.  
 —Dorothy Hobbins.

**THE RAILROAD YEAR**  
 During the first nine months of 1930 the western railroads reduced their expenditures for maintenance

75 million dollars, as compared with the same period in 1929. Only by the most rigid economy were many of the lines able to earn enough to pay their fixed charges.  
 During the first ten months of the year class 1 railroads in this country received a return of but 3.51 per cent on their investment, as contrasted with 5.19 per cent in 1929. Revenue decreased about \$344,000,000. It is said, on good authority, that the credit of many lines will be seriously impaired in the near future unless conditions change. The result, if that occurs, will be a transportation crisis.  
 The railroads have been asked to aid in offsetting unemployment, and they have promised to do their best. They are always being called upon to reduce rates to help agriculture or other industries, and frequently do so. The lines are ordered to build unprofitable extensions of their systems to serve semi-barren and isolated areas which need or want transportation. But it is seldom demanded that the lines be given a fair profit for the invaluable service they render.

**"Let It Snow"**  
 For the first time this winter enough snow has fallen to make it appear that the feet of snow plows maintained by the county may be needed. Previous to this last snowfall the winter has been "open" to a greater degree than any other winter for many years. Weather forecasters for the most part, failed to predict any such climatic conditions.  
 The snow that would have been necessary—more than five feet—to equal the rainfall that Tuscola county had in 1929 did not come during the last week in the old year. Several residents actually expected that much snow to fall so we have been told, and we may yet witness enough severe storms to make up for the drought suffered last summer.  
 While this open winter has been good for motorists, the type of farm-

ing carried on in this section will suffer somewhat from the continual freezing and thawing. No snow covering over fall crops and perennial clovers will have its effect on the stand next spring. Thus, not all people can be entirely satisfied with any type of winter.  
 We love the beauty of the snow. We have that same feeling that Whitier must have had when he composed "Snowbound," whenever a rich blanket of snow covers the landscape. We live in Michigan, we expect snow and cold weather, we have equipment to keep our roads open to traffic—let it come.—Tuscola County Pioneer-Times.

**DO YOU KNOW TRUE HAPPINESS?**

NOT until you stop paying the landlord dividend checks—not until you have peace of mind and do not need to worry about the next moving day—not until you have an equity in your own little home—not until your wife and children have that cherished possession—a home of their own—will you know the meaning of true happiness.

**Build the Home You Can Afford Now**

The building of your home should not be advanced to some future date. Folks don't live forever and many of those that wait until they have accumulated all the money—never have the satisfaction of having their own home. You can have that cherished of all life's possessions—your own home—now.

**A Bonded Home Costs No More**

Every load of CERTIFIED MATERIAL that goes into building your home is guaranteed by a \$1,000 bond, backed by a forty-four million dollar surety corporation, that all materials are exactly as specified. This is your buying safeguard. The Certificate of Quality we issue on each completed home is tangible evidence of good material that none can dispute—a mighty valuable guarantee that you never desire to sell or make a loan. You pay no premium for this added protection.

OPEN A MODERN JEWELRY STORE WITH A COMPLETE AND EFFICIENT REPAIR DEPARTMENT AT 842 PENNIMAN AVENUE

Watch the next issue of the Mail for opening announcement.

Mrs. Ira Bentley is ill in Harper hospital, Detroit.

Mrs. Benjamin Schuck of Detroit, is visiting Mrs. E. J. Dreyour at her home on Blunk avenue.

Mr. and Mrs. Gus Gates and son, Elwood, were guests of Detroit relatives, Sunday.

W. J. Werve of Werry's Creamery, attended the milk dealers' state convention at Jackson, Thursday.

Mr. and Mrs. Frank Gadey of Detroit, called on Mr. and Mrs. Lawrence Zielasko, Wednesday evening.

Mr. and Mrs. A. J. Burr of Penniman avenue, were guests Tuesday evening of Gus Gates and family.

Mrs. Luella A. Hoyt of Main street was hostess to several friends from Ann Arbor, at a six-o'clock dinner at the Hotel Mayflower, Monday evening.

Mr. and Mrs. Joseph Zielasko, Jr. of Newburg, spent Tuesday evening at the home of Mr. and Mrs. Lawrence Zielasko.

Mr. and Mrs. Alfred Bakewell and family of Plymouth road were Sunday dinner guests of Mrs. Bakewell's mother, Mrs. Sophia Ashton, at her home on Ann street.

Miss Elizabeth Burrows entertained twelve couples from Detroit at her home on Penniman avenue, Saturday evening. Ping-pong, cards and dancing were the diversions of the evening.

Last Wednesday evening, after the contest between the Odd Fellows and Redmen, held at Bever's hall, Mrs. Roy Wheeler and daughter, Thelma, entertained the members to a surprise lunch in honor of Mr. Wheeler's birthday.

Pythian Sisters are giving a pedro party at their Temple, Jewel-Blanch hall, Tuesday afternoon, February 17, at 2:30 o'clock. The public is invited.

The many friends of Mr. and Mrs. H. A. Felch of Oxford, Michigan, will be pleased to know that they are the proud parents of a ninepound baby boy. The mother will be remembered as Ha Roe, daughter of Ernie Roe of Plymouth. Both mother and baby are doing nicely.

The boys of Boy Scout troops Nos. 1, 11 and 111, the 4-M club and the high school band were guests of the Detroit Shrine at the Shrine Circus last week Wednesday. The boys are very grateful to the men who afforded them the transportation. The band played several selections and were highly complimented.

Mr. and Mrs. W. J. Stewart entertained February 6th, Mr. and Mrs. W. O. Stewart and Mrs. M. S. Lee of Detroit, at a six o'clock dinner, it being Mr. Stewart's 37th birthday. He received several very nice presents, and a host of thoughtful cards for which he is very thankful. The daughter could not get home on account of illness. Several of the neighbors called in the afternoon to offer congratulations.

Over two hundred ladies attended the bridge-breakfast given by the Civic Pride Association of Greater Detroit, which was held in the Hotel Statler, Detroit, Wednesday noon. Those from Plymouth, who were present were Mrs. C. T. Sullivan, Mrs. C. E. Walbridge, Mrs. Frank Hall, Mrs. Harold Brisbois, Mrs. Charles O. Ball, Mrs. Robert Shaw and Mrs. Arlo A. Emery.

One of the delightful affairs of the week was the Valentine-bridge party given by Mrs. Arlo A. Emery, Tuesday afternoon, at her home on Mill street. The decorations and refreshments were in keeping with St. Valentine's day, favors being red roses. Those who enjoyed Mrs. Emery's hospitality were Mrs. Frank Hall, Mrs. Paul Wiedman, Mrs. John Miller, Mrs. Berg Moore, Mrs. Roger Vaughn, Mrs. Frank Allison, Mrs. Charles O. Ball, Mrs. Wm. Jennings, Mrs. Earl Mastick, Mrs. Harold Brisbois, Mrs. Arthur White and Mrs. Roy Crowe.

The Valentine card party given by the entertainment committee of Plymouth Rock Lodge, will be held in the Masonic Temple this evening. The auditorium has been attractively decorated and in view of the large number of special prizes offered it is expected that the party will be well attended. Members of Plymouth Rock Lodge, O. E. S., and their friends are urged to be present by 8:30 when the events will begin.

Many Plymouth residents will be interested to know that Verita Van de Car, granddaughter of George Van de Car, formerly of this place and now residing in Glendale, California, has been given special recognition for her ability as an accordion player. The youngster, though only in the third grade, has made remarkable progress with her musical instrument, and is fast becoming a favorite in and around Glendale.

The following group in Miss Anna L. Young's class gave a charming studio recital, Friday evening, Feb. 6th, before parents and guests. Miss Flora Gerst should receive special mention, having given the last-half of the program in which she showed splendid musical ability and faithful work. Others who took part were: Helen Jane Springer, Shirley Mason, Margaret Virginia Leslie, Marilyn Holton, June Frederick and June Nash.

Falling on a slippery sidewalk in front of her home, Miss Mabel Spicer of 386 Ann Arbor street, broke her ankle last Monday night. After X-rays revealed that both bones in her right leg were broken Tuesday morning, she was taken to Providence hospital in Detroit, where she will remain until the latter part of the week for observation and treatment. Although the injury is a serious one, her physician stated that she was doing nicely.

Mr. and Mrs. LeRoy Jewell entertained Mr. and Mrs. Otto Reimer and children; Mr. and Mrs. Merle Horbacher and children, Mr. and Mrs. B. W. Blunk and daughter and Mr. and Mrs. F. L. Becker at dinner Sunday, in honor of Mrs. Jewell's sister, Mrs. Otto Reimer, whose birthday occurred on that day. Mrs. Reimer was the recipient of several lovely remembrances of the occasion.

The basketball games between the Presbyterian girls' team and the Keego Harbor team, and the Plymouth Aces and the Keego Harbor men's team, which were held at Keego Harbor, Monday night, resulted in a victory for both Plymouth teams, the girls' score being 15-12 in their favor, and the men's, 28-25. A number of Plymouth people accompanied the teams.

Mrs. Harry Brown and Mrs. L. Brocklehurst will entertain the Ladies' Auxiliary of the Ex-Service Men's Club at a silver tea, Thursday, February 19, at the home of Mrs. Brown, 636 Maple Ave. Members may invite guests, so plan to attend.

Supervisor C. H. Rathburn was host Tuesday evening at a banquet given twenty-five supervisors of Wayne Co. at the Hotel Mayflower. These meetings are held in the different townships each month for the purpose of cooperating with each other regarding poor relief measures, taxation, drafting bills to be sent to Legislature and other important business in the county. The village president, George H. Robinson, was the guest of Supervisor Rathburn, and in his usual genial manner, welcomed the supervisors to Plymouth. Attorney Guernsey of Detroit, gave an interesting talk on the question of appointing a county treasurer.
