

## ARGUMENTS FOR AND AGAINST CITY FORM OF GOVERNMENT - ELECTION NEXT MONDAY

### MUMBY TELLS OF OPPOSITION

Gives Reasons Why City Plan Should Not Be Approved

Editor Plymouth Mail:— Since becoming a candidate for the Village Commission, I have been intensely interested in the matter of changing our village into a city. I have made a careful study of the manner in which the township affairs have been carried on, and I herewith present a statement of their expenses, taxes, etc. in connection with the township.

The 1930 and 1931 taxes raised of which the village had to pay 73 per cent of \$11,096:

General Fund	\$6000.00
Poor Fund	\$1200.00
Nurse	\$1000.00
Highway Improvement	\$5500.00
Total	\$12,000.00

Expenditures beside corporation during 1930 and 1931:

Nurse	\$1200.00
Library	\$1000.00
Highway Improvement	\$2100.00
Poor	\$4900.00
Cost of Operating	\$1750.00
Total	\$10,700.00

1931-1932:

General Fund	\$6000.00
Poor Fund	\$5000.00
Highway Fund	\$4300.00
Library Fund	\$2000.00
Nurse	\$1200.00
Total	\$18,500.00

The village had to pay 73 per cent of this amount or \$13,505.00.

Expenditures to date inside the corporation:

Poor Fund	\$7,630.15
Library	\$2000.00
Nurse	\$1200.00
Highway	\$1500.00
Total	\$13,330.15

The township board has been able to carry on this work without borrowing money, due to careful saving in all funds.

### TAX REDUCTION IS THE OBJECT

Village Officials Tell Why They Recommend The Change To City

To The Voters of Plymouth:— On the eve of the general Village election, at which time you are asked to vote upon a question of great importance, we wish to briefly review the more important phases of this question.

As early as the year 1929 the officers of the Village of Plymouth began to study the advantages of becoming a city and as time went on and more information was obtained, the feeling by those familiar with the true facts increased in favor of the city form of government. In January 1931 the desire for the change to the city form became so great that petitions were circulated asking that the proposition be submitted to the voters. These petitions were not filed early enough so that the matter could be placed before the voters at the election last year, therefore it was necessary to submit the proposition at the coming election.

During the present year your commissioners have practiced every possible economy and have given the taxpayers a 25 per cent reduction in taxes, a lower valuation and a reduced rate. The tax rate this year is the lowest since 1922 and it is our plan to continue to operate at minimum cost so that taxpayers in Plymouth will be as easy as possible. We realized that the former rate of taxation could not continue and sought out means for lower taxes and have been able to live up to our expectations.

In looking for ways of further reducing the tax burden on local property we made a special study of the city form of government. In fact at the suggestion of the Citizens' Committee of the local Chamber of Commerce, we employed an outside organization which has no interest in the local situation to investigate the matter after we were convinced that a substantial saving could be made by making the change. The outside organization has reported that the benefits to local property owners will be even greater than we had anticipated. With all the facts at hand, all of which have been published in The Mail, we believe that the proposed change will save the taxpayers an average of \$15.00 per family the next year. The convenience to the public in having only one government with which to deal, and the fact that you will have five men to represent you in your county government instead of one, alone is enough benefit to warrant your approval of this plan. Besides this advantage, you will not have to pay any Township taxes, which has amounted to approximately \$12,000.00 each year for the past several years. The added functions of the city will in no case approach the saving made by eliminating the Township office.

We have tried to obtain arguments against the change in a city and have been unsuccessful in even obtaining a speaker to take the opposite side. The only arguments which seem to be prevalent are that more offices will be created and corruption will enter into the government. These statements are ridiculous as there are no limitations placed on Villages as to the number of offices to be created and there is no reason why unscrupulous officers or employees will be elected or employed under a city government any more than under a village government. The same people who are elected as village officers and have the same control over these officers as under a Village government. A reference was made in last week's Mail to the government in Lincoln Park and Melvindale, which are examples of poor administration of this form of government. The fact that government can be run either form as in Lincoln Park or in a city with Melvindale is a village. (Continued on Page 7)

### OTHER MAYORS WILL BENEFIT

Mass Meeting Held To Discuss City Plan—Nearby Cities Satisfied

Officials of the neighboring municipalities of South Lyon and Saline heartily recommended the city form of government to Plymouth voters at the second mass meeting to discuss this subject at the auditorium of the high school Tuesday night.

Most interesting were the remarks of Mayor Walter Marshall of South Lyon, who admitted that he was opposed to becoming a city when the subject was up for a vote in South Lyon and that he fought the change as hard as he could, but that since the change has been made he has found that all the claims made for the city form of government were correct and that he now not only favors the city plan but would recommend it to any village in the state.

Mayor Marshall declared that now he was glad he was beaten in the election on the question of incorporating as a city but at the time he felt very antagonistic about the matter, especially against Clarence V. Smazek, expert in governmental organization with the Michigan Municipal League, who was brought into the village by those favoring the plan to present its advantages. "That," Mr. Marshall said in conclusion, "the city form of government has done all that he said it would and more too. I am glad that he came and darned glad that he beat me, and I am sure that a village as large as Plymouth could get far more benefit out of the change to a city than we did, because South Lyon is a relatively small place."

E. M. Calkins, justice of the peace and leading merchant of South Lyon, covered the question especially from the standpoint of the business man, stating that while the change to a city was under way in the community there was some antagonism to the village form of government, but since the change has been completed the friendly feeling between the two municipalities is better than ever before because they no longer quarrel about who is to hold the township offices or how the jointly raised township funds are to be spent. Mr. Calkins especially commented on the matter of election taxes which had been eliminated in the community, by wiping out the spring village and township canopies and elections placed the city election at the same time as the state and county elections in fall. This change, he said, has materially reduced the political cost of the community and it alone is worth the trouble of changing to a city.

Mayor Mark Sagen of Saline, who was accompanied by City Treasurer Frank Canburn, told the audience that in addition to saving from \$2.25 to \$3 per \$1000 valuation per year in township taxes in each of the four townships in which the village was formerly located, Saline was able to cut its municipal tax rate 8 per cent in its first year as a city and would be able to make another and larger cut next year. He stated that in setting up their city charter they were able to eliminate five officials formerly on the village staff and more effectively use those remaining. He illustrated how this was accomplished pointing out that the council was reduced from seven, including the village president, to five, including the mayor; that the position of city superintendent had eliminated one part of the police officer and a caretaker, and saved time and expense in the operation of the cemetery. "Where formerly we paid the treasury all the fees on the collection of village taxes," he continued, "these fees now go into the city treasury, but for city taxes, but for state county and school taxes as well." And this year the tax collection fees will come within \$50 of paying the salaries of the clerk, treasurer and assessor, and numerous other fees have been going into the city treasury, as well, that formerly went into the village.

Mayor Sagen also commented upon the trouble that was saved citizens by not having to register with two clerks in order to be able to vote at all elections. He related a specific case where a citizen had registered with the township clerk and insisted upon voting at the village election to the point of making trouble in the community about the matter. "In addition to that," he said, "because of our location in four townships, voters in our village in three of those townships had to travel from three to eight miles to vote at any general election. All of these registration and election difficulties have been eliminated since we became a city." (Continued on Page 7)

### COMMITTEE IN REVIEW OF PLAN

Citizens Selected Year Ago Make Thorough Report On Question

REPORT OF CITIZENS INVESTIGATING COMMITTEE ON PROPOSED CHANGE TO CITY FORM OF GOVERNMENT.

Early in the spring of 1931, shortly after the proposal to change the village of Plymouth to a City was first made, it was decided to appoint a citizens' investigating committee to study the proposed change and report the facts to residents of the Village. The committee was organized under the direction of the local Chamber of Commerce with the definite understanding that it would function as an independent, unbiased, non-political fact-finding agency. In organizing the committee an effort was made to make the committee representative of the entire community.

At meetings held early in 1931, the committee called in the Township Supervisor and the former Village Manager who submitted figures for the year 1929 which indicated that the village would save approximately \$100,000.00 a year in township taxes by becoming a City, but the committee felt that the information should cover a period of years, so that its report would be based on an average and not on any year which might be an exception. At a meeting on June 18th, therefore, it was decided to write to the Supervisor, asking him for this information for a period of years, and that action was subsequently taken by the chairman.

The chairman also saw the Supervisor and discussed the subject with him, but no report was rendered because the Supervisor could not spare the time necessary to put this information in usable form.

Early in January, 1932, the Village Commission informed the chairman of the committee that the question would have to go on the Spring election ballot, and that if the committee still intended to make a report, it would have to be made in the near future. The Chairman suggested that, inasmuch as no member of the committee had either the time or the experience to undertake the work of securing this information, that the Village Commission secure the services of the Michigan Municipal League to make a study of the situation for the committee, because that organization was fully equipped by experience to do the work and would be free from local political influences. The suggested action was taken by the Village Commission and the report subsequently published in the Plymouth Mail.

In March, 1932, the committee held a meeting at the Village Commissioners' offices at which time the report, sources of material and other pertinent facts were studied, and the committee finds the following to be the facts in this situation, as presented by a representative of the Michigan Municipal League: (Continued on Page 7)

## REBEKAHS HAVE BIG RALLY HERE

Over 300 Present As Well As Officials Of State Organization

The Northwest Wayne Co. District meeting of Rebekah Lodge No. 423, which was held in Plymouth March 6th, was a real letter day for Plymouth Rebekah Lodge No. 182. About 300 attended these meetings both afternoon and evening.

The Hall was beautifully decorated under the intricate efforts of Mrs. Blanche Collins, and Mrs. Christina Houseman, and their helpers.

Much credit is due to Mrs. Marie Hartung for the splendid manner in which she conducted these sessions, and to Mrs. Mildred Collins for the lovely address of welcome.

The social and domestic officers were delightfully introduced and seated by Mrs. Ella Knapp.

We are indeed proud of Mrs. Minnie Ray, who marched to the center of the floor, faced this large crowd, and gave the invitation to her better perfect and won for her a certificate of merit.

The program work was exemplified by Plymouth Rebekah Lodge No. 182 under the direction of Captain Harry Hunter, who remarked, "I surely am proud of my team tonight." Lydia Todd keeping such good time with her splendid music.

Marie Hunter in a few well chosen remarks presented the President of the Assembly and the President of the District with a beautiful scarf from Plymouth Rebekah Lodge.

The kitchen and dining room were in the capable hands of Mrs. Marie Wheeler and Anna Taskman, who surely did themselves credit.

Each Rebekah who had worked so hard to make this meeting a success departed for home at a late hour, declaring it was surely the end of a perfect day.

### Sudden Death Of Mrs. M. J. Smith is Surprise To Friends

The community was shocked and surprised to learn of the sudden death of Mrs. M. J. Smith, who died on Sunday, March 6, 1932, at the home of her daughter, Mrs. M. J. Smith, (Mary Barbara Miller) of Ukiah, California, where she and Mr. Smith have made their home for the past three years with their youngest son, Frank. Mrs. Smith was born May 17, 1863 at the Miller household on Rock Road, the only daughter of Esther and Benjamin Miller. She spent her girlhood days there until her marriage on April 22, 1885, to M. J. Smith. Two sons were born to them, Paul and Frank who survive to mourn the loss of a kind and loving mother.

Mrs. Smith was an affectionate, gentle, loving disposition, a true friend and a helpful neighbor. She was a life long resident of this community having lived on their farm west of Plymouth until 1927 when she and her husband went to California where they have lived since that time in happy contentment as they were both very fond of that country.

Besides her loving husband and sons there are left to grieve her, two brothers, Frank, Harry and Norman Miller, many nieces and nephews and other relatives and a wide circle of loving friends.

Funeral services and interment held at Ukiah, California, on Wed. March 9.

## TO CELEBRATE ANNIVERSARY

### Plymouth Masons Will Observe 80th Birthday Tonight At Banquet

Members of the Masonic lodge of Plymouth have completed plans for the celebration tonight of the 80th birthday anniversary of the organization. For such an important event in the history of Plymouth, Rock Lodge, Warship Master Jack Taylor, the other officers and members, have worked out a most interesting program.

Master Taylor will preside at the banquet and among the speakers will be former police commissioner Thomas Wilcox of Detroit and C. P. Donald, Treasurer of the Michigan State Police, and Past Grand Master Homer D. Newton of Pontiac.

The banquet will begin at 6:30 o'clock in the Masonic temple dining room. Arrangements have been made for a large attendance.

The Masonic lodge of Plymouth has a most interesting history. In looking into the records of Plymouth Rock Lodge No. 47 of Free and Accepted Masons we find that Northville Lodge was chartered in 1852 and about five years afterward removed to Plymouth where it remained until 1864, when it was again removed to Northville. It was again changed from 47 to 188 and Plymouth retained the charter and Northville took the rest of the Masonic property. The present name "Plymouth Rock No. 47" was then adopted to designate the local lodge," says Master Taylor.

In 1875, the L. O. O. F. being an incorporated body, secured a 30 year lease of the third story of a building erected and occupied by Henry Frank on Main street, paying \$500. The Masonic lodge leased a half interest from them for the same period assuming one-half of the expense.

The lodge continued to hold meetings in this building but was in a dormant condition until 1888, scarcely any work having been done for the ten years. During this ensuing two years over 30 new members were added, and in 1890 the lodge room was enlarged, remodeled, new furniture procured, including an outlay of \$400.

On April 18th, 1893 a disastrous fire consumed nearly all the building, everything belonging to the fraternity, not even the records, being saved. An insurance of \$200 on the building and \$300 on records was received by this lodge.

And these discouraging scenes, Masonry in Plymouth was not demoralized, but immediately procured a new building from Geo. E. Dowling to occupy a room until new quarters could be built. The Knights of Pythias generously donated the use of their commodious hall and an association was formed known as the Plymouth Masonic Building Association. This was incorporated and the purchase of \$10 each were soon taken to the amount of \$2000 for the purpose of erecting a new building, two stories in height, having two rooms on the first floor for rental and the second floor for lodge purposes, at an estimated cost of \$5000.

The officers of this Association for the first year were W. H. Hines, President; E. C. Leach, Treas.; J. M. Collier, Secretary; T. F. Quack, Cashier; A. L. Doble, L. J. Spring and P. R. Whitehead, Directors. It was dedicated in 1898.

As the lodge grew it found that the temple hall was not large enough and during the ensuing years steps were taken to wards erecting a new temple.

The plan grew so rapidly that in 1925 the present beautiful temple was dedicated in the presence of one of the biggest crowds that ever attended a similar function in Plymouth.

Members of the building committee had charge of the erection of the beautiful new temple were Robert O. Minnick, president of the building committee; George A. Smith, treasurer; D. F. Murray, vice president; Henry Hendrop, C. H. Hanch, Karl W. Hiltner, John H. Patterson, Herman Mack and William Wood, secretary.

It is an interesting fact to know that Mr. Newton who will be one of the speakers tonight was present at the dedication in 1925 as one of the officers of the grand lodge.

### Bishop Page Here Sunday, Confirms a Class for St. John's

The Right Rev. Herman Page, D. D., Bishop of the Diocese of Michigan, administered the rite of Confirmation to a class of nine candidates at St. John's Episcopal church Sunday evening.

In his address Bishop Page used as his text "and they were enriched in all things by Him," which he illustrated by telling of the wonderful experiences of his old friend, the Bishop of the McKenzie River Diocese.

Twenty five years ago when the City of St. Ignace, the district, the Indians and Eskimos were unable to live together peacefully. The Eskimos were likewise so untrustworthy that their word could never be accepted as the truth. Besides this if they could not have their which they desired, they killed for it. The old were put to death because they were unable to keep up in the marches and hunts. And most striking of all these conditions in this Arctic Diocese was the birth of children on the frozen ice floes and the infantile of the girl babies.

Today in these same places the two races live in complete harmony and agreement. Hudson Bay factors now allow the traders to appreciate the value of their own furs and likewise help themselves to their necessary supplies. Hospitals, schools to be sure, are being established and the old babies are now protected as much as the boys. The natural death of the old is mourned as honestly as we mourn for our own departed.

All this, Bishop Page proved, was brought about by the introduction of the philosophy of Jesus Christ, which is in reality to live our lives as purely and in the best way possible for everybody.

Those confirmed are as follows: Jane Nash, Donna Anderson, Elton Tickle, Jack Birchall, George Stanzel, Gerald Harding, Howard Gladman, Darwin Gladman, Richard Binnis.

### Woman's Club Will Meet on March 18

The Women's club will meet on Friday, March 18 at 2:15 p. m. in the City Hall Room of the Hotel Warship.

The speaker for the afternoon will be Hal P. Wilson, a well known lawyer of Detroit. Mr. Wilson's subject for discussion will be "Comparing the older generation with the New."

One of the interesting features of the afternoon will be a style show. There will also be several musical numbers.

The committee in charge consists of Mrs. M. V. Hughes, chair; Mrs. Frank Park, Miss Nettie Bellham, Mrs. Geo. Burr, Mrs. Fred Thomas, Mrs. Wm. Pettigill, Mrs. Albert Schroder, Mrs. Allen Horton.

At the meeting held March 4, the club celebrated its 26th anniversary in a very delightful manner.

Mrs. R. E. Cooper gave a very interesting history of the club. Mrs. Ross Shaw played two piano solos and Miss Margaret Bennett accompanied by Miss Penney sang a group of songs.

The High School Dramatic club under the direction of Miss Ford presented four scenes portraying the life of Washington.

The program was followed by luncheon and a social hour.

Blake Fisher and daughter, Dorothy went to Theford, Ontario, Friday where they attended the funeral of William Bamford, an uncle of Mr. Fisher.

### PLYMOUTH GIRL ON LAW PROGRAM

Nine women students, members of Gold Point, the suburban women's club, Michigan State Normal College, participated in a preliminary law program held in Starkweather Hall, at Ypsilanti last Tuesday evening. They were Dora Gallimore, Plymouth chair; Bernice Schaeffer, Utica; Doris Jackson, Elmira; Elaine Burroughs, Richmond; Elizabeth Lang, Whitacker; Ione Randels, Hillsdale; Louise Socha, Cheboygan and Dorothy Deau, Detroit. Mrs. Fannie Cheever Burton, social assistant to the dean of women, led the discussion.

### Methodist Men Hear Vooories

LARGE CROWD ENJOYS FINE PROGRAM AT PARISH BANQUET LAST FRIDAY

Attorney General Paul W. Voorhies was the principal speaker at the Methodist Men's supper last Friday evening in the banquet room of the Methodist church. About 175 members of the Methodist parish were in attendance to hear Attorney General Voorhies talk and to enjoy the musical selections offered by the Redford Exchange Club quartette.

Briefly discussing some of the problems of state today Mr. Voorhies stated that governmental expenses were rapidly rising, additional taxes were being levied, and that the cost of government to the citizen was rapidly increasing. He stated that the cost of government to the citizen was rapidly increasing. He stated that the cost of government to the citizen was rapidly increasing.

### Baptist Church Is Planning Special

Sunday evening, Feb. 7, Wirtick, Detroit, district representative of the Moody Bible Institute of Chicago will show motion pictures of the work of that institution. A large number of the pictures were here some years ago and all present enjoyed the showing of the pictures, and were very much impressed by the work done by the Moody Bible Institute.

D. L. Moody, the great Evangelist and also founder of the Moody Bible Institute was in demand for services all over the world. In his time now in the Moody Bible Institute one can find students from every nook and corner of the world.

This large institution is supported entirely by the gifts of God's people and the small charge made its students. Wherever their motion pictures are shown interest is stimulated in, and new friends are made for the Bible school.

It is our policy, according to Scripture, to never make a charge for any of our Church events or services, therefore, we hope you will share this interesting service with us, this Sunday evening, at 7:30 p. m.

In the morning the Sunday school will hold a Mid-Winter Rally. Our Bible School has had the largest attendance in its history during the past few months.

We would like every schooler who has attended our Bible School to present next Sunday. All records will be broken at our Mid-Winter Rally this Sunday at 11:15 if YOU come!

### Why Not?

Why not start a campaign against throwing paper and our streets? There is a lot of money spent every week by our merchants for hand bills that do no one any good and make our town a dumping ground. People won't pick them up and as a result they blow off the porches and into the streets, making an eye sore. Go down on the corner by the big bank any day the wind blows and see what a fine mess these bills make. If merchants want to do something that will help them and the unemployed, why not hire men who are not employed to go around and pick up these bills? That would give us money to buy something with and it would make the town look better. From an unemployed and a resident of Plymouth.

### Funeral of George Lee to be held Sun.

George Lee, 88 years of age, a life long resident of Plymouth, died Wednesday night in Highland Park hospital where he was taken two weeks ago as the result of influenza, which he had contracted in his home. Pneumonia developed a few days ago and doctors stated Monday that his condition had become critical.

Mr. Lee was the son of one of the earliest settlers in this part of Michigan. His father purchased the Lee homestead in 1831 and until that time to the present it has been in the possession of the family.

Three children survive. Mrs. Florence Furman a daughter with whom Mr. Lee made his home, George Lee, Jr., and Wirt, two sons who reside in Detroit and several nieces and nephews.

The body has been brought to the Schroder funeral home and Saturday will be in state at the Masonic temple. The funeral will be held from the Masonic temple Sunday afternoon at 3 o'clock. Rev. Walter Nichol officiating.

Members of the Masonic lodge will conduct the services. Mr. Lee joined the lodge 64 years ago and for over 50 years was one of its active members. He was probably one of the best known of the older residents of this locality, having the respect of the entire community.

### Three Act Comedy To Be Repeated on Tuesday, March 29

Owing to the many requests, the three act comedy "Cooks for a Month" will be repeated March 29, in the High School Auditorium under the auspices of the women's auxiliary of the Presbyterian church, Plymouth. A brief synopsis follows:

Place, college town—Time, late spring.

The promotion of Mr. Choffin comes as the result of the opening in Ypsilanti by Mr. Galin of a big market to serve that community. Mr. Galin, who operates two markets in Plymouth, will find it necessary to give a considerable portion of his time to the development of his new business in Ypsilanti. Harry Brown, also a well known resident of Plymouth, has been made assistant to Mr. Choffin in the downtown Plymouth Purty Market. Mr. Galin's many Plymouth friends wish him the same success in his new venture that he has enjoyed in Plymouth.

### YOU MIGHT TRY THIS

Local people who have more or less worry over their income tax report might try this formula, recently suggested by a Nebraska man. He lists as dependents one wife, a sedan car, three goldfish and two children. He then multiplies his grandfather's age by six and seven-eighths, subtracting his telephone number. Next he adds the size of his hat and subtracts the number of his auto license tag. After these preliminaries the rest is easy. Deducting \$1,000 for keeping his wife for a whole year, he divides the remainder by the number of lodges he belongs to, multiplied by the number of windows in the house, divided by the size of his shirt. This gives his gross income which, after dividing by his chest measurement, and subtracting his blood-pressure, gives the net amount he feels he owes the government.

### THIS HABIT OF FRETTING

The vice of fretting seems to be everywhere. It is becoming so common that we accept it as a matter of habit. We steel ourselves to endure it, rather than set ourselves to cure it. Fretting is nothing but a common fault. Too many persons always seem to be searching for the discords of life. They sound a jangling note in any gathering, no matter how harmonious the purpose of that gathering may be. They fret about this, that, and the other, well aware that their fretting will not remedy matters. They seem to think they were born into the world to be professional fault-finders, to do community worrying. This is an imperfect world at best. And we human beings who inhabit it are among the most imperfect things in it. But we remedy neither condition by worrying and fretting about it. We only make them worse. A few smiles and glad words will do everybody concerned more good than an ocean of complaints.

### WOMEN AND CRIME

In a score of cases may on trial throughout the country women are the accused. In more than a hundred other cases, they are the victims. According to police records of missing persons, 1,200 women can not be found, and according to police dockets 8,000 women stand accused of various crimes and misdemeanors. These facts are engaging the attention of criminologists. It is not enough to say that the increase in the number of women who commit crimes, or are victims of crimes, is the result of the present economic conditions or the result of general moral decadence. The root of the matter goes deeper. It runs down through the larger degree of liberty into the homes of the land. It supplies evidence of the decadence of the home—indeed, is an indictment of the home. For the fact that the average age of all women charged with crimes is 22 years leaves no other conclusion than that women criminals are products of decadent homes and immoral surroundings.

### LIFE IN THE COUNTRY

Considerable discussion is heard these days as to the means that may be adopted to keep folks on the farm. The situation has become serious, for many experienced farmers are moving to the cities, either for the purpose of earning what they consider easier money, or to use their savings in giving their children and themselves the advantage of city life. Whatever the cause, the situation remains, and it constitutes a problem that may well engage the attention of national and state authorities. The fear is expressed that the production of food may become reduced to such an extent that scarcity will not only greatly increase prices, but threaten the welfare of the people. While the reasoning is purely academic and subject to the views of each individual it is probably true that the persons who make occasional trips from the rural districts to the larger towns enjoy these visits and the things they see much more than those who see them every day. It is a case where familiarity sometimes breeds contempt. In the matter of better school facilities in the towns, there is in most cases no place for argument, although some progress has been made in a number of states to bring about a centralization of teaching that gives country pupils some of the advantages of the city in a course of study. There is nothing to justify undue pressure to keep men and women and boys and girls on the farms. Rural life should be so attractive in itself that enough persons will make choice of the country life to insure the crops of grain and quantities of other foodstuffs needed to maintain all the people at a reasonable cost.

### GETTING NEW BUSINESS

The progressive business firm finds that it needs to be constantly making new friends and creating a new circle of customers. If it just depends on satisfying those who have previously bought goods, it is likely to see its trade diminishing. Population changes more rapidly now than formerly, and if a firm has a certain list of customers this year, it can expect, as a result of all the changes that naturally occur, that a considerable proportion of those customers will not be on the list in a year or two. Also people are changeable in their habits, and unless a very energetic effort is made to hold old customers by advertising, a lot of them will go elsewhere, attracted by the various inducements that are offered them. People are not much inclined, as they were often formerly, just to trade at one place or a few places right along year after year. They are quick to get the idea if some firm seems to be hustling a little harder than its competitors to please the people, and no feeling of habit or sentiment of loyalty is apt to hold them, if they think they can do better by going elsewhere for something they want. By an active campaign of advertising, a firm can keep making new business friends, to make up for those who drift elsewhere. It does not take elaborate persuasion to win such new customers in these times. People are ready to go to any place of business where the spirit of enterprise and hustle seems to prevail. A concern that makes it a regular practice to advertise, even if it does not take any great amount of space, will have a constant stream of inquirers entering its doors, who will more than make up for old customers who go elsewhere.

### WEATHERVANES FOR VILLAGES

A hundred years ago 75 percent of the population of the United States lived on farms and 25 percent in the cities; today the situation is almost exactly reversed. There are many sound economic reasons to believe that the centralization of

#### REFUSES TO TAKE ADVICE

The National Educational Association in recent radio talks has insisted that there be no curtailment of public school activities nor reductions of teachers' salaries. All this has not influenced the Farmington school board which announced that it will eliminate for the coming year the departments of music, art, kindergarten and health. By so doing it expects to save \$4,725 in salaries besides an additional sum for equipment and supplies in those departments. — George S. Rowe in The Milford Times.

#### EATON RAPIDS WITHOUT A THEATRE

What would you think if you awoke some morning and learned that Eaton Rapids was without a local theatre or movie house? Has it ever occurred to you that this very thing might happen unless the people of this community stand back of the local playhouse better than they have during the last few months? Imagine a small city like Eaton Rapids without a movie show. They say "we never miss the water until the well runs dry," and that is very true, not only in regard to the water but the theatre also.

Eaton Rapids has a very good theatre. Possibly a few changes might be made. Changes have been made during the last few weeks, and other changes will be made as Mr. Lewis learns what is needed. His desire is to please his patrons, but unless we let him know what is wrong, and what we would like to see changed, he has no way of knowing except from casual remarks now and then.

Mr. Lewis is making every effort to give the people what they want. He caters to the ten cent business, and also the better class of picture. In many instances he runs the "big hits" ahead of Lansing and other cities. Altogether his productions are equal to the average movie house and he gives his patrons value received every night in the week. Your support is needed, and needed very much. Why not make it a practice to attend the local theatre at least one night a week, even if it is ten cent night? This would mean a business kept going, more money circulating on Main street, and eventually more money right in your own pocket. — Robert Gifford in The Eaton Rapids Journal.

#### THE REASON

In the Public affairs of any government unit, it is beneficial to have a certain amount of contention between opposing forces. This brings out the best in public enterprise, keeps the citizen interested and making more likely the entrenchment of any one group that may become selfish in its objectives. Study the troubles of any of your municipalities as these troubles are being experienced today; you will find in the majority of cases that some group banded together to control public affairs to the benefit and advantage of the few as against the many. — Joseph Sturgeon in The Delta Reporter.

## Coming Attractions At Penniman-Allen

"SHANGHAI EXPRESS"  
Seven well known character actors and actresses supplement the work of Mariene Dietrich and Olive Brook in Josef von Sternberg's latest production, "Shanghai Express," which is the Penniman-Allen theatre's feature picture for Sunday and Monday, March 13 and 14.

These artists are Anna May Wong, Warner Oland, Lawrence Grant, Gustav von Seyffertitz, Emil Chautard, Eugene Pallette, and Louise Dresser Hale.

Miss Dietrich's characterization in "Shanghai Express" is that of Shanghai Lily, an adventuress, notorious throughout the Orient. Brook plays the part of a British officer, one of her legion of admirers.

Miss Wong, has the role of a Chinese courtesan; Oland as a Chinese war lord; Grant, a European detective; Seyffertitz, a German adventurer; Chautard, an officer (rushed from the French army); Pallette a gambler and bookmaker; and Miss Hale represents a boarding house keeper in Shanghai.

"THE SECRET WITNESS"  
A policeman listening in on a busy wire at the ground floor switchboard of an apartment house, rushes up to the penthouse, from the terraces of which a girl has just leaped to her death, and finds the man he has just heard laughing over the phone! He has been shot, but there is no one to be found in the apartment except the victim's pet dog.

This is the thrilling start of "The Secret Witness," the Columbia picture based on Samuel Spewack's novel, "Murder in the Gilded Cage," and showing at the Penniman-Allen Theatre Wednesday and Thursday, March 16 and 17. Leo Merkel, William Collier, Jr. and Zasu Pitts head the cast, which includes Purcell Fitzgerald, Paul Hens, June Clyde, Eddie Frank, Rita Taylor, Bill Harbo and others.

"CONSOLATION MARRIAGE"  
A happy choice of deft counsel and sophisticated, subtly directed and acted, make for an exceptionally entertaining film at the Penniman-Allen Theatre, Wednesday, Thursday, March 16 and 17 when RKO-Radio Pictures' "Consolation Marriage" will be shown.

Based on a modernized and hitherto unexploited phase of the marriage problem, the picture expounds the unusual thesis that love is a matter of habit and environment and that it can come to any young couple, anytime.

Briefly, the film tells the amusing story of two young persons, disappointed in love, who contract a loveless marriage for the sole purpose of forgetting their romantic past.

"Consolation Marriage" features Irene Dunne, Pat O'Brien, John Halliday, Lester Vail, Matt Moore and Myrna Loy.

"X MARKS THE SPOT"  
A thrilling newspaper drama, Tiffany Productions' "X Marks the Spot," showing at the Penniman-Allen Theatre, Friday and Saturday, March 18 and 19, ranks as an excellent piece of picture craftsmanship in every detail.

As entertainment it holds the audience from the opening until its close. The story has a speed and pace which sweep the observer with it. There are drama, thrills, comedy, mystery and action—every essential of absorbing screen entertainment.

Headed by Lew Kelly, the cast is a notable and capable one. In the foreground role is Wallace Ford, star juvenile borrowed from Metro Goldwyn for the role of "Ted Lloyd," a newspaper columnist. Although a newcomer with but two pictures to his credit, Ford delivers a performance that stamps him as a real screen find.

Sally Blane, Fred Kohler and Mary Nolan have the principal supporting roles.

Precinct No. 1, Farmington and Seven Mile Road, votes cast at the School House were 347.

Precinct No. 2, Rosedale Gardens-Sides Office, 32121 Plymouth Road, votes cast were 237.

Defeated candidates for nomination were and number votes received were:

William Loukas, for Treasurer, 92.  
Eugene Adams, for Justice of the Peace, 203.

Chas. H. Canfield, for Constable, 92.  
John E. Gallagher, for Constable, 92.

As nominations in Livonia Township are tantamount to election, the primaries were of more than usual interest to those candidates who are opposed by the now defeated ones and friends on both sides, and so all were really "hotly" fought.

It was a fifty-fifty guess as to who was who until the ballots were finally tabulated.

Ephemerals, therefore, extends to each candidate nominated a hearty "congratulation" word bonus and hopes that their tenure of office will be a very real pleasure.

As Livonia has always shown bright as a shining example of honesty in the conduct of its official political circles, acts without the scope of honesty and fairness never being tolerated.

**MORE PROTECTION ALONG BEACHES**  
Additional protection to the hundreds of thousands of persons who use Michigan's state park bathing beaches will be given during the coming season through a law adopted by the legislature last year regulating the operation of motor boats.

It is now a misdemeanor for any person to operate a motor boat in a reckless manner or at a speed that will endanger the life or property of any person in or on the water. He must have due regard for the presence of other boats, bathers, and persons engaged in fishing.

It is expected that the operation of the new law will have considerable effect in preventing motor boats from approaching too closely to bathing beaches and to anchored row boats.

1. That taxpayers of the Village will save a net average of \$9,156.00 in township taxes by incorporation

as a City, based upon the experience of the past five years, provided the services of the Wayne County Library Commission is continued as at the present after the change is made. That the gross average annual savings for this period would be \$12,659.00 per year, and the average annual net saving is arrived at by subtracting the additional amounts which the village would have to pay in other taxes because of elimination of township taxes for poor relief, county hospitalization, library rental, and public nurse, these sums totaling \$3,503.00. The report published in the Plymouth Mail of Friday, February 12, covers this information in detail.

2. That taxpayers of the Village will be saved a net average of \$5,872.00 per year based upon the experience of the same five year period if Plymouth as a City would be required to support its own library without aid from the County. The above should not be construed to mean that Plymouth will lose its Wayne County Library branch, because the County Library Commission favors continuation of the branch due to the fact that it is centrally located and serves not only Plymouth proper but Plymouth Township, Livonia Township, Canton Township, and parts of Nankin and Northville Townships and residents in this entire area pay County taxes. This question, however, will not be definitely settled until after the meeting of the Ways and Means Committee of the Wayne County Board of Supervisors in April in the judgment of the Citizens Investigating Committee it seems reasonable to assume that the Ways and Means Committee will adopt the recommendations of the Library Commission. In the opinion of the local committee the only action which might result in the loss of our library might be a decision by the Wayne County Library Commission to discontinue service to all Wayne County branch libraries as an economy measure, and if this action should ever be necessary, it would make little or no difference whether Plymouth was being governed under a Village or City charter. In order to provide for any contingency, however, the committee believes that the community should know what the probable cost of maintaining its own library would be, and an allowance of \$100 per capita per year, for that purpose has been made in arriving at the above net average saving of \$5,872.00. The allowance of \$100 per capita per year is arrived at by the American Library Association who state that it is the maximum amount that should be spent by any community for library purposes.

3. That as a city Plymouth will have to take over five additional governmental functions which it does not have as a Village, including poor relief, conduct of State County elections, assessment and collection of State, County, and school taxes, operation of a Justice Court, and registration of Chattel Mortgages. Of these functions, the committee find that the last four can be so worked in with functions now carried on by the Village, or are supported by fees in such a manner that they not only will not add to the cost of the government under the City plan, but will actually yield a net revenue of approximately \$900.00 per year which is included in the net savings listed above. That the village will receive from the township at least \$12,894.00 in the division of the assets of the township upon becoming a city, as provided by State law, and that other items, particularly delinquent township taxes, may considerably increase this sum.

4. That as long as Plymouth is a village it is in danger of being sold for the support of roads, highway lighting, water systems, sewers, and similar municipal improvements that may be made in the township while paying for all of these municipal functions for itself through its village taxes, and that other villages in the Detroit Metropolitan Area have already been subjected to this unfair practice which Plymouth so far has had the good fortune to escape, except for road taxes spent in the township.

5. That poor relief under present

conditions could be administered by the City more economically than by the township because the aid given could be utilized in doing useful work for the city. Judging from the manner in which other cities handle the administration of poor relief, Plymouth could do this additional work without adding to its present staff of officials, by placing the work under the direction of the manager, who would be assisted by the police department in the details of this function.

6. That at least four lesser benefits will result from the change to a City including securing four representatives on the Wayne County Board of Supervisors, who, incidentally, would be paid by the County, elimination of the nuisance for citizens of dealing with two local governments in registering and voting, assessing of property and collection of taxes; better control in operating the municipal economy; and the possibility of annexing territory with less difficulty.

7. That rumors being circulated that a change to a city form of government would result in many additional functions being created, calling for many new officials, are not based upon careful thought, because the good citizenship of Plymouth will not be changed by becoming a city, and should and will control the city government as it has and does the village government. We find that a city has no more power to issue bonds, increase taxes, or create new positions than has a village government, so that these rumors have no foundation whatever in fact.

Motion Pictures Of Geo. Washington To Be Shown Tuesday

Next Tuesday, March 15, Plymouth is to have a splendid opportunity to see the motion picture on the life of George Washington. This official Washington film was prepared by Eastman Teaching Films, Incorporated, for the United States. George Washington Bicentennial Commission. The film consists of 4 reels each one lasting 15 minutes. The titles are: "Conquering the Wilderness," "Winning Independence," and "Building the Nation." This film was purchased for a cost of \$20,000 and Plymouth is very fortunate to have a showing of it so early in the year. Tuesday, March 15, there will be four showings of the film in Plymouth High School Auditorium. The first showing is at 10:00 a. m. for the grades, 1:30, 4:30 and 7:30 for the public. The Plymouth High School orchestra will also play at the evening program. The picture and a portion are furnished by the committee on the Washington film, which is being presented under the auspices of the Plymouth Bicentennial committee of which George A. Smith is chairman.

Many of the scenes of the film are being taken at the places where the original events actually occurred in Washington's life. Mount Vernon for the first time in its existence has been opened to the motion picture camera. Other scenes are being made at Kenmore, the home of Washington's sister-in-law, and at the early house occupied by its mother, Mrs. Mary Ball Washington during the Revolution. Still other scenes will be filmed at Independence Hall in Philadelphia.

George Washington are playing the characters. The part of Washington's mother played by Fanny Washington, of Fredericksburg, Virginia. Her costume is a dress actually worn in the presence of George Washington. Present day Virginians take the part of Virginia backwoodsmen, and Indians in the picture were recruited from those on the Pamunkey Reservation in Virginia. The Washington Bicentennial film promises the citizens of Plymouth an hour of patriotic entertainment Monday evening, March 15, at 7:30 in the High School Auditorium. If you have often visited the Washington shrine, the film will refresh your memory. If you have not done so, the film will take you there at once.

IN APPRECIATION

This bank could not have attained its present size with thousands of satisfied depositors unless it had always shown in its policy and in its practice its appreciation of the loyalty and the support of the people who have entrusted their money to its care.

After the trying times through which our nation has recently passed we think it is fitting to take this occasion to publicly acknowledge and express our appreciation of the loyalty and the support that almost without exception our depositors have accorded this Plymouth United Savings Bank.

Your interests and ours are identical. Any rules we adopt, any charges we make are for our mutual benefit. For after all, continued success and safety depend upon operating your bank in a conservative and business-like manner.

You will continue to find here all that safety and all that service which you are entitled to expect from the bank in which you deposit your funds.

The Junior choir will sing at the evening service. Easter is the climax of the year in the building of life. The world never needed Easter more than this year. We should put aside all other engagements for these next two weeks and be at the church every night from seven-thirty to eight-thirty. If we do this with deep purpose and prayer our own lives will be immeasurably strengthened, and we shall be able to help other lives.

"Man" was the subject of the Lesson-Sermon in all Christian Science churches throughout the world Sunday, March 6.  
Among the Bible citations was this passage (Col. 3:1): "If ye be risen with Christ, seek those things which are above, where Christ sitteth on the right hand of God."  
Correlative passages read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, included the following: "591:1: 'Human capacity is slow to discern and to grasp God's creation and the divine power and presence which go with it, demonstrating its spiritual origin. Mortals can never know the infinite, until they throw off the old man and reach the spiritual image and likeness.'"

## ORATORS AND DECLAMERS ELIMINATED

A good show of spring is the oratory and declamation eliminations, which are an early event of the season. Although the debate season has just been closed, orations and declamations have received much attention in the past month. Five people entered in the field of oratory and 48 in declamation. Of the five orators, three were selected to compete for school champion, they are Dorothy Wallace Zephera Blunk and James Starbuck. Six contestants participated in declamation, and from these, three chosen were Amalia Zielesko, Oscar Larnemoser, and Jack McAllister.

In general assembly Wednesday these six people will deliver their speeches again, and from this group the orator and one declaimer will be chosen to represent Plymouth in the sub-district contest which is scheduled for April. The judges who will choose the 2 representatives will be Miss Allen, Mr.

# WASHINGTON CONTESTANTS BEGIN WORK

The pupils in the eighth and twelfth grades who are writing in the Washington contest being sponsored by the Sarah Anne Cochran Chapter of the D. A. R. this year are beginning to hunt for every article and book that is to be found in Plymouth on our First President. All contestants must have a B average in history for the first semester and must maintain that average during the second. About fifty students are entering, and there should be some really good papers turned out. There are three subjects on which to write, namely "Washington the Statesman," "Washington in War," and "Washington at Home."

The essays submitted by eighth graders must be from five hundred to one thousand words in length, while the twelfth grade papers are to be between twelve hundred and two thousand words long. All papers will be typed and will be identified by number, not name. The bibliography is due April 1, the completed outline May 1, and the essay May 15, and so there must be a lot of reading done in the next few weeks. The judges will not be D. A. R. members or teachers. The prizes follow: For twelfth grades, first prize is five dollars; second prize is two dollars; for eighth grades, first prize is three dollars, second prize is two dollars.

There are quite a few very good-looking scrap-books in Miss Fiebig's room that were turned in by the American history students on current topics. Some of the students are using the scrap-book, some a notebook, some a combination of the two, and some are using cards. The cover designs on some of the scrap-books are very interesting.

## CENTRAL GRADE SCHOOL NOTES

In the senior kindergarten under Mrs. Carpenter, Charles Burden, Richard Daniels, Doris Hockingberry, Irene Neisigal, George Rathman and Robert Schuppel have been neither tardy nor absent during the month of February. Joe Brisobis, Arlene Drows, Herbert Stuart and William Siefloff can now count to fifty. Of those present during the month of February, sixty-four percent of them were without tardies. In the junior kindergarten, Stanford Besse, George Brown and Margaret Ann Brown have been neither absent nor tardy during the month of February. Robert Hingley was enrolled last week making a total of eleven in this group. The Thirt Honor Banner for banking was won in both groups, March first.

Group one in Mrs. Root's room have finished the chart and are now reading in the new large Elson Primer which has interesting stories and many attractive pictures. This room now has two periods a day for writing, one in the morning at the blackboard and the other in the afternoon at the desks, when they are learning to hold their pencils, sit up straight and do the writing drill correctly. They hope to learn to write so well that some day they may receive a silver star pin as a reward. The room gave happy birthday greetings to Kathleen Reidsman, Tommy Chaffee and Joe (Crandall) recently, all of whom are six years old. Jean gave a party at her home on her birthday and invited all the little girls in the room. They reported a fine time. The pupils are learning a poem about "The March Wind" and are having stories told about "Spring." The nurse measured and weighed the children and everyone has grown taller since last September and many have added weight. Sixty-seven percent of the children have now had coats this semester. Mrs. Clifford Reidsman visited the room on Friday, February twenty-sixth.

Both the first and second years in Miss Mitchell's room are learning the poem "Little Dutch Shoes" in language class. The story "Tins in Holland" was told and they also enjoyed the poem "A Leaf from the Bible." In handicraft, they made little yellow ducks with green coats, black tie and a white collar. These were used for a border, on the other border, they have E or eggs of all colors and white bunnies. Six people out of nine in the second H class received one hundred per cent in spelling. Mrs. Holsted visited Mrs. Alban's room one day last week. The children have made bunnies carrying baskets, bunnies and the egg carriage and bunny in the egg shell. These pupils are reading the "Punch Twins" by Perkins. The second H class started their own set-oid readers last week. They are working on their penmanship drills for the Palmer Method pins.

The pupils in Mrs. Wilcox's room made kites for the "No Cold" chart in language they are reading Holland in arithmetic they have been doing drills in subtraction and addition.  
The pupils in Miss Wetherad's room have been the study of Holland. They are making windmills for the black board border and

crulps for the windows.  
Miss Hol's pupils are also studying Holland in language and are writing stories about the country. The fifth grade arithmetic class have started the study of fractions. In Mrs. Holliday's room, Barbara Olsvaker received the highest score on the spelling test. The five A's are writing a play about the story "The Two Gifts." They are working on their drills to be sent to the Palmer Company for their handwriting awards.  
In Miss Farmer's room Dorothy O'Leary got the highest score in the sixth grade spelling test and Glenn Kaiser got the highest score in the fifth grade. The sixth graders have finished their booklets on Washington. Billy McAllister's spelling team is two points ahead of the other team.  
Last week the pupils in Mrs. A. Kinsola's room had a contest in reading between the boys and girls.

## ART NOTES

Fantastic heads of all kinds are springing into existence in Mrs. Brewer's art classes, now, and if we ever saw anyone walking down a street we would surely find our lives.  
The designs are truly very pretty. The students use the paper stretch it to prevent wrinkling, waste it on the desk, and draw around the designs, cutting off the next parts as they work.

STATE CHANGED NAMES OF MANY LAKES DURING PAST FEW MONTHS—SEVERAL TO BEAR NAMES OF PROMINENT CITIZENS

"Isle Royale" and not "Isle Roy" is the correct spelling of the island recently adopted by Congress as a national park and the correct spelling of the river on which the greatest falls in the middle west is located is "Tahquamenon."

The spelling of these names have been officially adopted by the state and federal governments through action taken by the Michigan Committee on Geographic Names and the National Board of Geographic Names.

The spelling of "Isle Royale" restores the French spelling and is in line with local usage. In the future all official maps and publications will contain the official spelling.

The names of only 14 lakes and streams have been changed by the Michigan Committee since it was appointed by Governor Fred W. Green in 1925. The Committee is composed of Dr. George N. Fuller of the Michigan Historical Commission; J. R. Schoenman, chief of the Division of the Land Economic

Survey and R. A. Smith, state Geologist of the Department of Conservation.

Changes in the names of lakes and streams or other geographical features are recommended to the National Board of Geographic Names by the State Committee only after adequate reasons for change have been presented to and approved by the county board of supervisors.

In Alcona County "Mud Lake" has been officially changed to "Jewell Lake," honoring Jewell Power, who lives on an island of the lake.

Sticker Lake in Alger County has been changed to Lake Nawakwa, an Indian name meaning "in the midst of the forest."

"Lion Lake" is the name for the body of water in Union City formerly known as "Mud Lake." Pontiac Lake in Crawford County is now officially "Lake Marquette" in honor of Marguerite Hanson, wife of Ramsus Hanson who donated the township in which the lake is located to the state for a military reservation, forest preserve and game preserve.

Smudge Lake in Mason County is now officially "Hamilton Lake." The lake has been locally known for 40 years under the now official designation.

In Ingham County, "Blue Lake" has been changed to "Lake Lansing."

Four lakes in Iron County have received new names. "Lost Lake" has become "Gibson Lake" in honor of the man who discovered iron at Anson, Lake 27 has become "Robinson Lake" and "Long Lake" has been changed to "Stucky Lake." There are two Long Lakes in the vicinity, one in Michigan and one in Wisconsin.

The names of four lakes in Ogemaw County have been changed by the state and federal agencies. The lake formerly known as "Ogemaw" or "Farm Lake" is now "Tobacco Lake" which is an Indian name meaning "smoked." "Crooked Lake No. 1" is now "Manuka Lake" from an Indian word meaning "friend." "Crooked Lake No. 2" has been changed to "Wapigo Lake," an Indian word meaning "white birch." "Silver Lake" in Ogemaw County is now officially "Dorffman Lake" from an Indian word meaning "lake of silver water."

Mud Lake in Van Buren County has been changed officially to "Moriah Lake." The word "Moriah" is "a hill in Jerusalem, the site of Solomon's Temple."

Wheeler Creek in Wexford County has been changed to "Mitchell Creek," honoring William W. Mitchell, one of the founders of the city of Cadillac. The name was changed to avoid confusion.

The late Dr. J. A. Merzban, ichthyologist of the Department of Conservation, drowned during the fall of 1925 in the water of Grand Lake in Presque Isle County while he was carrying on fish investigations. He has been honored through a change in name of the bay in which his death occurred. The bay, formerly known as "Sandy Bay," has been changed to "Merzban Bay."

Names of geographical features are changed only after the approval of the local board of supervisors, the State Committee and the National Board of Geographic Names. Persons desiring to change the name of a lake, stream or other geographical feature may petition the county board of supervisors, giving their reasons. If the board approves the petition, then the county clerk submits to the state committee a certified copy of the board's action on form furnished by the state committee. If this committee gives approval the request is then forwarded to Washington for final action.

RADIO INTERFERENCE

by H. W. Wilson

Every buzz, hiss and hum in a radio is usually blamed on one of two causes: "static" or "interference." Fair enough, no stickler for simplicity could demand a more simple disposition of a difficult problem. No classification of trouble could be more nearly all-embracing. Somebody told me to the first radio fan and that great lot of "trouble" which characterizes all receiving set owners has fostered it in record and tradition until it is the most widely quoted axiom in all this so-called science. It is magnificent in its broad generality and like so many other beautiful but broad generalities, IT ISN'T TRUE!

Thousands of "harmful" interferences have made a study of the important subject of interference during the past few years. Fair-sighted gentlemen in laboratories long ago took time off from the problem of radiating heat from rheostats, motorizing cabinets and keeping condenser plates from scraping, and turned their attention to noise—domestic and imported. They realized that no other circumstance or combination of circumstances could effect the future of radio so vitally.

It was discovered that old man static had been blamed for many a disastrous attempt at reception which as a matter of fact he was nowhere in the picture.

Crackles, hums, moans, roars and spatter can usually be sought near your home but there is a brand of interference such as one spoiled broadcasting station interfering with another. Nothing can cure this sort of dynamic activity on the part of the federal radio authority, so I will not go into that now.

The most bothersome noise is that of some household appliance in the neighborhood which usually can be eliminated very easily and if the owner of such an appliance knew the disturbance he was causing he probably would be only too glad to have it taken care of.

The Detroit Edison Co. is endeavoring to cooperate with its utility power lines etc., but in some localities it is almost impossible to quiet everything. If such is the case much of the noise can be eliminated by putting your aerial above the noise level and running a shielded lead-in wire to your set. This wire can be purchased all ready to use and is similar to the BX cable used by electricians, only much smaller.

Heating pads, vacuum cleaners, electric irons, fans, heaters, electric stoves, and motors of all kinds may give plenty of trouble.

Outside of natural static and station interference it is quite possible to quiet your set. If I can help you to eliminate the noise caused by any appliance that you may have, I'll be glad to advise you just how to do it if you will drop a line to me in care of the Plymouth Mail.

To go into detail on just how to eliminate all the noises on all the appliances that cause interferences would have to write a book as large as a dictionary, so it will be much better to take your individual problem and solve it for you. Many of the others may have the same trouble and I'm sure anyone will appreciate advice on how they can get the noise out of their receiver.

Of course there are many things that may be wrong with the receiver and before looking for interference

Want To Raise Pheasants? Then Just Write Department of Conservation and Request That Supply of Eggs Be Sent You During the Spring

Applications from individuals and organizations for ring neck pheasant eggs are now being received by the Game Division of the Department of Conservation. These applications will be filled as soon as the eggs are available at the State Game Farm at Mason.

All orders for eggs will be filled in the order in which the applications are received at the Lansing office of the Department.

Last year the Division was unable to supply all of the "free eggs" applied for and those desirous of obtaining eggs are requested to send in their applications as soon as possible. Applications must be made on forms furnished by the Department. Under a policy adopted by the Conservation Commission last year eggs are now furnished in areas in the northern part of the southern peninsula on the recommendation of district supervisors and where pheasants have persisted from previous plantings or where the officers believe that further trials should be made.

For purposes of handling pheasants, one should be sure that the noise is not in the set. Any competent service man will tell you whether it is or not, and will be glad to help you locate your trouble.

If your radio is noisy and you have been told that it is interference and that you will just have to put up with it, don't be discouraged, because any manufactured noise can be hushed so that it will not interfere with your reception.

THE IMPORTANCE OF LIGHTNING ARRESTERS

A great many radios are being used today without lightning arresters on them, and this is one point that should never be overlooked.

Engineers have found that the average aerial is not a lightning hazard, but there are static discharges large enough to damage the first radio frequency coil in your set and in some cases cause a fire, while no arrester is used. Some of the insurance companies will not pay claims on fires caused by lightning under these conditions. If an arrester is employed these heavy static discharges will pass from your aerial direct to the ground without passing through the receiver.

Lightning arresters are very reasonably priced and as it is a simple matter to install them, care should be taken that there is one on your set.

ant eggs applications, the lower peninsula has been divided into two districts—the northern and southern. The boundary between these two areas is a line drawn on the south border of the following counties: Muskegon, Newaygo, Mecosta, Isabella, Midland and Bay as far east as the Saginaw River.

Persons in the "southern" district may send their applications for eggs directly to the Lansing office and without having to pass through the district officers.

Each application for eggs to go into the "northern district" must be approved by the district supervisor before it will be considered at Lansing. District supervisors will approve applications only when they have assured themselves that the areas where the eggs are to be used, and where the young birds are to be released, have good and weather conditions distinctly favorable for pheasants, and that there is a local settlement such as will insure that the birds get a good chance to increase.

Applicants in the "northern district" who receive eggs will be expected to assist the local conservation officer in determining the success of all releases and their effect on local hunting.

Results of experiments made with pheasants in the vicinity of Muskegon and other places in the northern half of the lower peninsula show that while the birds will not thrive in wild land districts or in the deep snow areas, there are some localities north of the "sub-snow zone" in which birds will live, and plantings in some instances have continued to furnish some hunting each fall. A few birds have persisted even as far north as Charlevoix, but only in the better farming sections and at lower levels where snow is seldom more than a foot deep.

SEND 12 TO UNIVERSITY

For years Mr. and Mrs. Conrad, his Ranch of Kansas City, Mo., have had at least one of their children in the University of Michigan, and the end is not in sight yet. Twelve of their 14 sons and daughters have attended college. The thirteenth will be ready to enter next year, and a year or so later the youngest plans to matriculate.

Election Notice

FOR Submission of Question OF INCORPORATING AS A HOME RULE CITY

To the qualified Electors of the Village of Plymouth: Notice is hereby given that at the General Election to be held on March 14th, 1932, at the several polling places in the Village of Plymouth, the question of incorporating the Village of Plymouth as a Home Rule City will be voted upon.

The above proposition is submitted pursuant to the statutes of the State of Michigan in such cases made and provided and the resolution adopted by the Village Commission on January 18, 1932, a copy of which is printed below.

WHEREAS, on January 5, 1931, petitions asking for the submission to the electors of the Village of Plymouth, the question of incorporating as a Home Rule City, were filed with the Village Commission, and

WHEREAS, said petitions were certified to the Village Commission by the Village Clerk as sufficient, and

WHEREAS, it is mandatory on the part of this Commission to submit said proposition to the electors at the next general election occurring after the lapse of time as required by state law, and

WHEREAS, the general election occurring on March 14, 1932 is the first general election to be held after the filing of such petitions and the necessary lapse of time, and

WHEREAS, it appears that said petitions conform in all respects to the provisions of the laws governing the incorporation of Home Rule Cities, therefore be it

RESOLVED, that the question of incorporating the Village of Plymouth as a Home Rule City be submitted to the electors of the Village of Plymouth at the general election to be held on March 14, 1932.

mitted to the electors of the Village of Plymouth at the general election to be held on March 14, 1932 and that the Clerk prepare the necessary ballots and notices for the submission of such proposition.

The polls will be open on March 14, 1932 for the general election from 7:00 o'clock in the forenoon until 8:00 o'clock in the afternoon, Eastern Standard Time, at which time the proposition of incorporating the Village of Plymouth as a Home Rule City will be submitted.

Registration of qualified electors will be received at the office of the Village Clerk on or before March 5, 1932.

L. P. COOKINGHAM, Village Clerk.

CARE OF FOOD

THE American housewife would be surprised to learn that she is, as a rule, less careful about the care of food once it has been delivered to her kitchen door than are her cousins in Europe. Undoubtedly food in markets and provision stores is better cared for and cleaner than food in European stores, and even in cool weather most American housewives keep their food in some sort of refrigerator.

It is not enough, however, to see that food is properly kept up to the time that it reaches your house, or to know that perishable food products are kept in the refrigerator. One difficulty in most American houses is that there is no specially designated store room for food.

The ideal store room should be placed conveniently to the kitchen. It should be cool, dry, well ventilated and light, with floors and walls as well as shelves that may be washed. A good-sized closet with a window is all that is needed. Molds and bacteria thrive best in still air, and for this reason there should be good circulation of air in the store closet, but it should not be exposed to unnecessary dust.

It seems a pity that so few American houses are built with properly designed store closets for food, because with a cool store closet it is possible to take advantage of the fact that many foods can be bought in large quantities more cheaply than in small.

**Mumby Tells Of Opposition**

(Continued from Page 1)

The cost of our welfare this year is \$8,400 in the township at large. Due to the payment of back taxes and to the fact that operating expenses have not been increased, the township board up to date has been able to meet this excessive demand.

The library is our next problem. In the year 1930 and 1931, the inventory showed the cost to be \$132,450.00, and the estimated inventory for 1931 and 1932 is \$11,840.00, of which at present, the township is paying \$2000 a year.

The following letter was received from the Wayne County Library: "Early date of December 15, 1931, the Wayne County Library Board recommended to the Board of Supervisors of Wayne Co. that the resolution which rules that county library service should be withdrawn from cities, be rescinded. It was also recommended that if the board felt some limitation must be applied to apply only to cities over ten thousand population."

A copy of this letter was sent to Mr. Gerststadt and one is also available at the Wayne Library.

"We have been given to understand at the County Building that this matter is not likely to come before the Wayne and Means Committee before April, 1932, when the organization of the County Board of Supervisors will be completed. Because of the many changes in the personnel of the Board of Supervisors and its Ways and Means committee, we would hesitate to give any opinion as to whether the recommendation of the library board will be accepted or not."

There has been much discussion regarding the Highway Improvement Tax. The Wayne County Good Roads are taking over our roads, so this year, the township will not have to raise that tax, which means a saving of \$4300 or \$5.50 per \$1000 valuation.

I find in checking over other villages, that they have been located in a whole township, and their Highway Improvement tax has been very large. By going into cities, these villages have saved a great deal of money in this Highway Improvement tax alone. We do not have this same condition here, as we are only one-half a township.

I cannot see, with our library an uncertainty, with no Highway Improvement tax this coming year, with the welfare problem, 90 per cent of which is in our village, how we could save any money by changing into a city.

It has always been proven that it always costs a great deal of money to change from one form of government to another, and it seems to me that this is a very poor time to take a chance on something we know nothing about.

I have also been informed that the Village of Wayne will not vote on the question of becoming a city until something definite is done about the library.

I have also received definite information, that in case the village becomes a city, the city limits will have to be re-surveyed. This will take eighteen months, at an approximate cost of ten dollars or more per day. A low estimate of this expense would be \$4500.
