## ALLISON TELLS OF NEW PRICES

### Chevrolet and Plymouth Cut Prices Following Ford Announcement

A general reduction in prices of all models of Chevrolet automobiles... effective immediately has been announced by Ernest Allison local distributor of Chevrolet products. The reductions range up to \$55.

Announcements of the reduction in prices of all models came from the offices of W. S. Knudsen, president of the Chevrolet Motor Car Company.

The new prices include slashes in the 14 models now being manufactured by Chevrolet. The coach was reduced \$50, bringing the F. O. B. price of that model to \$465.

The Chevrolet Six will continue to be built exclusively by the company for an indefinite period.

The announcement should serve according to the Chevrolet announcement, to arouse renewed interest in motor cars, and the cumulative effect of development now under way in the industry should be a major factor in stimulating the automobile industry which admittedly is the key to America's business recovery.

Setting new standards of quality for cars in the lowest price field and described by its maker—Walter P. Chrysler—as the "biggest package for the money ever offered in the automobile industry," the new and finer 1932 Plymouth is on display here today at the show-rooms of Earl Mastick, local Dodge dealer who sells and services the Plymouth car.

Nine body styles on the longer 112-inch wheelbase with overall lengths of 174 inches—fourteen and a half feet—with exclusive features never before found in cars in the lowest price range.

With a 65-horse-power engine mounted in floating power engine mountings, the new Plymouth is vibrationless and, like its predecessor, the first Floating Power Plymouth of which more than 100,000 are now in daily use throughout the country, it has the smoothness of an eight with the economy of a four.

Floating Power, of course, is the outstanding feature of this remarkable new offering in automobiles—but Floating Power is but one of many features that make this car outstanding not only in its price class but among motor cars in general.

As a result of its increased wheelbase and the use of the new double right X-type frame, the new Plymouth is not only longer and lower—but has a distinctive appearance achieved only by the incorporation of these features for the first time in car selling for less than \$600.00.

The new 1932 Plymouth has free wheeling and an automatic clutch—built-in as two units and mechanically synchronized by the greatest engineering group in the automotive industry to produce what unblashed automobile authorities have described as the last word in effortless driving.

## DEMOCRATS TO HOLD A RALLY

What is expected to be the largest rally in the history of Wayne County Democrats, will be held at New Boston, Saturday, April 9th, at 8:00 p. m. under the auspices of the 18th District Congressional Democratic Club.

A turn out of several hundred is expected, to listen to the various county, state and national candidates offer their arguments for election.

Several prominent Democratic leaders will be present as speakers. All in sympathy with the Democratic campaign are cordially invited to take the evening off from other activities and attend.

## WAR PICTURES TO BE SHOWN THE LEGION

Members of the American Legion will at their regular meeting on April 15 have the opportunity of seeing some of the most interesting war pictures taken during the great European conflict by the war department, officials having obtained from the department... The pictures show some of the biggest battles of the entire war, pictures that have not before been displayed to the public in this part of the country. An extra large attendance is expected.

## FLAMES BURN CORNER FROM ROOF OF THE OLD PLYMOUTH HOTEL

Sparks from the chimney on the south side of the old Plymouth Hotel building Tuesday night ignited the corner of the roof and caused considerable trouble before they were able to completely extinguish the blaze.

## Well Known Couple Wedded in Indiana

Tuesday morning, April 5, 1932, Mr. and Mrs. Fred Bredin, accompanied by Mrs. Lena M. Losee and Wm. E. Bredin drove to Angola, Ind., where the two latter were quietly married. The ceremony was performed by the Rev. John Humphreys, minister of the First Congregational Church, while in Angola, they called on the mother of Dr. Paul W. Burtz of this place.

## School Will Honor Detroit Exhibit

Commencing Wednesday noon, April 6th, and continuing until the next Wednesday night, the 13th, there will be on the fourth floor of J. L. Hasbun's building in Detroit some of the most comprehensive exhibit showing many phases of the activities of the Training School. Wherever this exhibit has been shown it has attracted a great deal of interest.

## CAR TURNS OVER DRIVER KILLED

Clement L. V. Tucker, 35, 1537 1/2 Ohio avenue, Detroit, an architect, died at St. Joseph Mercy hospital in Ann Arbor, Tuesday afternoon following a crash. Five minutes after he had been admitted for treatment of injuries sustained in an automobile accident on the Plymouth road at Dixboro at the intersection of Ford road.

### Rosedale Gardens Is Host To Boy Scouts of This District

Boy Scout Court of Honor for the Plymouth district was held at the Catholic Community Auditorium, Rosedale Gardens, Thursday evening, March 31. After selections by the Plymouth High School Band, directed by Mr. Evans, the Court of Honor was called to order by Mr. Smith, chairman of the Plymouth District Court of the parents and friends present gave Rosedale Gardens the Parent banner to be retained until the next District Scout meeting. The awards to the Scouts for their achievements since the last Court of Honor were announced and presentations made by the following people: Messrs. Hillmer and Jewell of Plymouth, Mr. Snell of Rosedale Gardens, Mr. and Mrs. Trill and Mr. Loomis of Wayne County Training School, Mr. William Hodson, District Commissioner, Mr. Church, Field Executive for Wayne County Council, Sidney Stunt and Allen Strong, of Plymouth. At the conclusion of the presentation of awards, Father Conway, Priest in charge of the Rosedale Gardens Church, gave a very pleasing and appropriate address to the Scouts and their friends. Those receiving awards were as follows:

First Class: Frank Sanders, N-2; John Gibson, N-2; H. Woltz, N-2; M. Haeze, N-3; Robert Egge, P-1; Kenneth Keller, P-1; Robert Sackow, P-1; Donald Schille, P-1; Derward Jewell, P-1; Jack Bivh-eil, P-1; Ferdinand Freund, P-2; Frank Schroeder, RG-1.

## CANTON UPSET BIG SURPRISE

### Democrats Capture Township—No Contest in Plymouth

Canton township voters gave Michigan its biggest surprise Monday when they upset the Republican rule of fourteen years and elected a complete Democratic slate to run the affairs of the township for the ensuing year. It became known some weeks ago that Canton Democrats were out to put up a good fight to win the election. They advertised and they saw to it that their side of the house got out to vote, with the result that Canton township is the only one in Wayne county with a complete list of democratic officials.

### Miss Athalie Hough Becomes Bride of Dr. Francis M. Archibald Tuesday Noon At a Beautiful Home Wedding

One of the prettiest of early spring weddings was that of Miss Athalie Hough, charming daughter of Mr. and Mrs. Edward C. Hough and Dr. Francis Magraw Archibald, son of Mr. and Mrs. William Laird Archibald of Wolfville, Nova Scotia, which was solemnized at high noon on Tuesday, April fifth at the Hough residence on Ann Arbor Road. The marriage vows were spoken before the fireplace, which was banked with palms, ferns and Easter lilies, while on either side tall bronze candelabra held lighted cathedral tapers. The bride was given in marriage by her father with Rev. F. C. Lafave officiating in the presence of the immediate family.

## STATE PAYROLL IS UNDER FIRE

### Legislative Members Out To Force Reductions Of Big Salaries

Lansing, Mich., April 6.—Declaring that Governor Brucker's economy program as submitted to the legislature is but scratching the surface, members of the legislature are preparing for an assault upon the state payroll that may return salaries of state officials and high-ranks to the same place they were ten or twelve years ago. The department heads who are now drawing \$8,000, \$7,000, \$5,000 and even higher amounts are in danger of having these sums cut almost in half.

It became known early in the present week that Representative Vern Brown of Mason has for weeks past been making a study of the payrolls of the various departments. He is now having his information prepared for dissemination among members of the legislature.

### TAXING WEALTH

When it comes to the problem of taxing wealth congress should give serious consideration to this question. There should be a distinction made between those who have earned wealth and those who enjoy great wealth but did not create that wealth.

### NOT DISAPPOINTED

The public is not disappointed in Mr. Ford's new automobile. It has met the approval that every one hoped it would. His price range is so low that the car is within the reach of any one who should have an automobile. Mr. Ford has always produced a substantial and long-lived machine and in these times this is an exceedingly important factor. People are not in a position to purchase new automobiles as frequently as in the past and it is essential that the low-priced car of today be worth the money paid for it. From what information that can be gained it is evident that Mr. Ford has given the public an automobile that is worth every dollar he is asking for it, possibly more. The fact that Mr. Ford has met the expectations of the public is gratifying indeed. It is an inspiration to every line of business.

### GOOD OLD DAYS

The old-time livery stable and corner saloon have given way to the ornate garage and filling station; the movie show has replaced the town hall; we go in an hour now a distance it formerly took a day to travel. One can go from coast to coast in a single day in the air. He can telephone from a ship at sea to any one of the 18,000,000 telephones in the United States. He can listen on his radio to speakers thousands of miles away. In a short time he'll be able to see them, too. Our homes are heated by scientific and healthful methods. We have our own cooling systems. Oil and gas and electricity have taken the place of coal. We have the news of the world on our door-steps, morning and evening, thanks to the stride of modern newspapering. Our lives are full of events. We go places and see things. Our horizons have broadened. Back-breaking drudgery has been eliminated in every avenue of activity. Household appliances, electrically operated, have come to lessen the work of the housewife. We have more time for play, and the golf links is an adjunct of every village and hamlet as well as the larger cities. We have improved our highways and have made our cities sanitary and attractive. But, why go on? Truth is the so-called "good old days" are only a figment of the imagination. The days we are living now are the best the world has ever seen up to now. And "we haven't seen nothing yet." — News-Telegraph, Atlantic, Iowa.

### DANGEROUS FIELDS FOR ADVERTISING

Advertising is ordered from the screen in 600 theatres controlled by one film company.

This comes further acknowledgement that there are places and methods of advertising that are not countenanced by the masses of the people.

The successful advertiser does not thrust his advertising on people who do not want it. Patrons of theatres do not pay their admissions to be bored. They pay to be entertained. Recentment does not offer a fertile field for the seed of an advertising message. Advertisements thrust upon the patrons of theatres have done the advertisers more damage than their messages did good.

Hundreds of millions of dollars are spent annually for advertising. It should be apparent by now that advertising has become a science.

Advertising directors of big concerns are paid huge sums because they are able to tell their employers how to advertise.

Look about and see how advertising that is scientifically directed is handled! In almost every instance it is designed to stay away from situations that breed resentment. The big advertiser will not accept a billboard location that mars scenic beauty. The wise advertiser will not use dodgers thrown on lawns; he knows the housewife resents the litter thus created and is frequently angry because some one walked on her lawn or through her flower garden to make the delivery. The advertiser who operates his business scientifically will not pay for newspaper or magazine circulation that is not paid for by the reader; he knows that something that is not worth paying for is not worth reading.

Even radio advertising has felt the pressure of the situation. The important advertisers strive to do everything to please the listener.

Newspapers and magazines hold their own against all other mediums for the simple reason that the readers buy those publications and they buy them to read advertisements. Enterprise, Riverside, California.

### THE GOVERNMENT AS A BUSINESS WRECKER

From the matter of drifting aimlessly into the stream of business the Government now seems to be driving full steam ahead and taking the short cuts to ports, that indicates this nation is diverging from the solid foundations on which it was established—a strong central government that guaranteed "equal rights for all and special privileges for none." A Government that recognized the authority of individual states in their domains and conceded to the citizenship the rights and privileges and protection of individual initiative, a Government that was free from business entanglements, and above all from competition with legitimate business enterprises.

For more than a quarter of a century this Government of ours has been actively engaged in competition with the great printing industries. "Not for profit" you are told by the advocates of the government envelope printing monopoly, and this is true, for the Government handles this business at a financial loss. But what about its insidious invasion of this field of private endeavor denying the printers a fair profit, and in fact placing them in the light of making exorbitant charges? Having to pay taxes, transportation charges and decent wages it stands to reason the printers cannot meet the prices of the government, and, to the casual observer at least, they must bear the stigma of "profiteers."

And who is it that profits by this unfair competition of the Government? Not the individual citizens. That fact is too apparent to need the showing of proof. It is the big business interests to whom these envelopes are provided by the millions, and at an actual loss to the Government, if all costs would be correctly charged. And the average citizen makes up that loss in additional taxes. Is this a proper governmental function? Is this not rank discrimination against one of the biggest industries in the Nation? But this is not the only exception. The Government control

### SUNLIGHT

The morning sun smiles down upon  
 Our little home, at peep of dawn,  
 In radiance fair and bright,  
 And paints the house with golden cheer,  
 As dusky shadows disappear  
 Before its beaming light!

And oh, I hope while I am there,  
 I, too, may do my humble share  
 To make our home a place  
 Where song and laughter sweetly blend!  
 While I am there I hope to lend  
 Some little touch of grace.

and regulation of our great railroad systems have virtually put them on the rocks. The attempt to regulate the markets of our grain and cotton growers has resulted in chaos and practically ruined those citizens who had their personal investments in these trades. And similar instances might be cited in other industries and personal endeavors. In fact the Government through a system of group agitation and demands has assumed a paternalistic attitude that has shattered public confidence and is rapidly wrecking individual initiative.

How much longer will American citizens who glory in the advancement and progress their country has made due to the driving force and initiative and business acumen of individual citizens, stand for this Governmental policy that is destroying personal endeavor and creating a socialistic order?—R. J. Hall, Reporter and Herald, Loveland, Colo.

#### Get It Done

It isn't the job we intended to do,  
 Or the labor we've just begun,  
 That puts us right on the balance  
 sheet.

It's the work we have really done.

Our credit is built upon things we do,  
 Our debt on things we shirk,  
 The man who totals the biggest  
 pile,  
 Is the man who completes his work.

Good intentions do not pay our bills,  
 It is easy enough to plan,  
 To wish, is the play of an office  
 boy.

To do is the work of a man.

#### But Slavery Lingers

Would you were living now, old  
 Honest Abe,  
 To enter on the mission you  
 began;  
 You freed the bonded black, the  
 unborn babe,  
 But slavery lingers still to  
 torture man.

Ever you were martyred in an hour  
 of need,  
 You warned of great monopolies  
 afar,  
 Of fetters forged by corporate gold  
 and greed,  
 More dangerous, you said than  
 civil war.

You drove slave drivers from the  
 brakes of care,  
 And cotton fields, but now, dread  
 aftermath.

The money changers desecrate  
 your fame,  
 With hane to whip them out in  
 righteous wrath.

If you were here you would eman-  
 cipate  
 Your party from all special  
 privilege,  
 And, striking at new shackles,  
 liberate

Your land from economic  
 penance.

#### Today

Save for its sweet memories or  
 poignant regrets, yesterday is be-  
 yond recall. Tomorrow, with its suc-  
 cesses and failures, is but a vague  
 promise, as far beyond human

grasp as its ghostly sister. Yesterday, you are to have nothing to do with these far-away nothings. Today is your day. All the preceding days have been spent in preparation for it. Today lays at your feet the accumulated treasures of a lifetime. This is the day to live, to journey and to do.

#### A Prayer

Almighty God, may we be thankful today for a nation at peace, for a nation that seeks in every wise to promote international cooperation and brotherhood. We thank Thee, our Father, for the sweep of its ideas and for the challenge of its ideals, and for a republic whose glory is not in titles nor ranks. Today we take courage and inspiration from the great sons of our historic past, and especially for the great commoner who sprang from the loins of the common soil. As long as we remain a people our poor boys will look down the lanes of the years and dream the old dreams, feel the old thrill, and be stung by his might. O more and more bring together all sections of our country. Be Thou Emmanuel to all who are toiling and struggling, to all who are tempted and distressed by trial. O be near all who are suffering from the pangs of hunger or are harassed by poverty; but be very, very near all who are sick with famine of soul. Bring all creeds into a common circle; may they lean charitably and sympathetically upon one another; and, merciful Father, breathe into the hearts of all men the spirit of humanity. Through Jesus Christ our Lord.

#### Just Little Things

Only a little wayside flower  
 Beside the dusty road,  
 But it cheered the man who  
 paused to rest  
 As he staggered 'neath his load.  
 'Twas only a modest dandelion  
 With head of golden hue,  
 But it shone, from out the cloud of  
 dust,  
 Upheld toward the blue.

A tiny bird sang a lifting tune  
 On a sill high above the noise  
 Of the traffic, which rushed in the  
 street below,  
 And the sound of his cheerful  
 voice  
 Relieved the drab and lonely life.  
 Spent in pain on the bed within;  
 Erased for a moment the dreary  
 thoughts;  
 Placed a smile on the face so  
 thin.

The cheerful whistle of a crippled  
 lad,  
 As he sold his papers each day,  
 Lent a little gladness to those who  
 passed  
 And made the moment more gay.  
 For young and old, careworn by  
 toil  
 And the struggle to carry their  
 share

Of the burdens, each had in the  
 game of life,  
 Ofttimes filled with pain and  
 care.

#### FACE THE CRISIS

We don't need to camp at Valley Forge to face and meet adversity. We are facing emergencies and fighting battles now that try men's souls just as much as when "The Crisis" was written. We need the same fundamentals of courage and ardor of character that inspired Washington and his men at Valley Forge and Yorktown. Why H. "Crisis" in The Russell Hoop.

#### FARMERS WHO PROFIT

Despite depression and hard times there are some farmers in the United States who will make money in 1932.

They will not gamble on a one-crop system, which places all their eggs in one basket. They will not rely upon the fluctuating price of this staple crop. Rather will they see that they raise as much food as possible for themselves and their dependents and sufficient feed to carry their animals through the twelve months that follow harvest time.

It is a mathematical certainty that the less a farmer has to buy the better is his chance to lay a surplus when he sells what he raises. This applies particularly to the necessities of life, the food and fuel that sustain strength for the workers on the farm. R. G. Jeff writes in The Lowell Ledger.

#### A NEW TRICK

Even the hitch hikers are learning Napoleonic strategy. They look for college stickers all over the highways in order to attract the sympathy of passing motorists. Mr. Lels Hays in The Wayne Dispatch.

#### ASKING WHY

Comment is made in state papers that Gov. Brucker, if press reports are to be credited, has either neglected or refused to call in Alex. A. Grosbeck to consult about what's best to do in this tax reform matter. He has called Fred Green, Albert Sleeper and Chase S. Osborn, all ex-governors and men who can give him fine advice and who probably have done so. Alex. Grosbeck could give our governor very good counsel and we hope that when the facts are all known, that Gov. Brucker hasn't deliberately cast aside this source of good advice. Thomas Conlin in Crystal Falls Diamond Drill.

### Oppose Plan to Close Receiving Hospital Branch At Redford

Displeased because of free medical service which has been dispensed at the Redford Branch of Receiving Hospital, the Wayne County Medical Association has started a drive to close the hospital. Their position is that the hospital should be closed rather than that their private practices shall be diminished.

While the outward attack is made on the basis of comparative expense as between the Redford Branch and the downtown Receiving Hospital, those who know the facts in the case are aware that the real motive behind the Wayne County Medical Association's move is one of professional jealousy.

After a representative delegation from the Redford district appeared before the Common Council and the Budget Bureau two weeks ago, the Council allowed them for maintaining the Redford Branch, chiefly on humanitarian grounds, without asking for the Redford group to present their views. A week later the medical groups sought an audience to knock out the appropriation. They were told that joint hearing would be needed, so that all sides might be heard. So a further parley this Thursday afternoon before the Common Council was tentatively arranged.

Plumes quoted by the Wayne County Medical Association to show a much higher per capita cost at Redford as against downtown Receiving Hospital are known to be false and misleading. This phase of the matter was to be corrected at this afternoon's hearing.

Local doctors who are on the staff of Redford Receiving Hospital disclose there has been a certain amount of free medical help extended to persons who could afford to pay doctors' bills. But these local physicians do not ask that the hospital here be closed; they ask that the free service be eliminated, a position that has found support in all quarters which has studied the matter.

The Redford Branch of Receiving Hospital serves an area of more than 300,000 population, and is the only hospital in a radius of more than ten miles available for treating emergency cases. — Redford Record.

The flower's bright hues, the lifting tines,  
 The whistles of cheeriness,  
 Relieve, for a moment, care and pain:  
 Some life they seem to bless;  
 Seem to bring a small ray of sunshine  
 And cheer along the way.  
 Someone, who is trying to reach a goal,  
 As we pass them by each day.  
 —Edith Veser.

STARKWEATHER NEWS

The kindergarten children are enjoying stories from a Mother Goose book that Marvin Wilson brought to school.

The first-A read a story entitled 'The White Easter Rabbit'. Thirty children sent in writing papers and all thirty will receive Palmer Method Writing pins.

Betty Kaiser and Denver Stanley have returned to school after being ill for some time. Thirty-four pupils sent in writing drills and received gold stars.

The fifth and six grades under the direction of Miss Hunt, and Miss Farrand will give the program for P. T. A. on April 15.

It is the People who come early to avoid the crowd that make the crowd.

The sins of the fathers are also visited on the children in the form of taxes.

The greatest waste of time is the time spent impressing others with your importance.

SPRING BRINGS NEW SPORTS

With the approaching warm weather spring sports have made their debut and are now running at top speed. Ambitious tracksters are loosening up those stiff winter muscles...

The last week of vacation was not one for those engaged in spring sports. Each day the athletic field in the rear of the school was in possession of baseball and track squads...

The indoor track work was confined to exercises, rope skipping, and work on the mats. A spectator might have seen a good wrestling match had he watched the workouts.

PING PONG NEARS FINAL MATCHES CLUB VISITS TRAINING SCHOOL

Although ping pong was delayed for a week, it has resumed with lively vigor. Several players are showing unusual ability and ping pong courts are being made in several of the boys' homes...

IDIOSYNCRASIES OF A JUNIOR

It seems highly improbable that all of these escapades could be attributed to one person, even though that one be a member of the fair sex, but it is more astounding to realize that they all occurred within two months...

As to the number of mornings she sets to the garage and discovers she has forgotten her keys, less than three times a week would be a small estimation.

ROCKS OPEN SEASON AGAINST FARMINGTON

The first baseball game of the season occurs tonight, here, with the Plymouth nine pitched against their arch rivals, Farmington. Farmington is noted for its strong baseball teams and they have defeated the Rocks for the past two years.

"AD. LIB."

This certainly is a break, getting back from a vacation (they call it that) and having to bust into this infernal thing again.

This so-called (apologies Mr. Evans) vacation is a lot of hokey. It's nice to get away from the old haunts, but as far as resting or recuperating, well—am I laughing?

The talk of the town! Our apologies, Pres. Mimmack, the city. Don Bronson, the erstwhile ping-pong player, has challenged Kenneth Cool to a nine pong game on a two-by-four.

ANNOUNCEMENT!

These are times when people demand value—and they want value at the lowest possible figure. All lines of business and industry are giving greater values than ever before. High quality, low prices.

With that thought in mind, I make the announcement that this office, in the future, will be conducted in the same manner, namely, high quality... low prices. The same high quality of workmanship and modern methods that have pleased hundreds of patients during the past three years will be continued.

Trying times and high fees have prevented many from giving proper attention to their teeth. Such neglect is injurious to health.

Drop in and consult me about your dental needs.

Plant Flower Gardens This Year of Type That Prevald In Washington's Time Is Suggestion of Celebration Commission

This is the time of year to think about planting flower gardens. Every back yard, every strip of fertile soil is a potential flower garden and may be made to bloom in honor of the Father of His Country in this Bicentennial year.

amateur gardeners will plant Colonial flowers, annuals and perennials, which were familiar in the time of George Washington and which will bloom each year as a permanent memorial to his memory.

The United States George Washington Bicentennial Commission has secured from the Department of Agriculture a list of flowers which were familiar in Colonial Days which will be particularly adaptable to this kind of celebration.

For bright sunshine with plenty of fertility and moisture: Over 4 feet high, castor-bean, cosmos, sunflower, sorghum, feterita, nolo, and Indian corn; over 3 feet, Joseph's coat, lavender-blossom, feather cockscomb, orange sunflower, prince-feather, spiderflower, and summer-express; 20 inches, cornflower, larkspur, scabiosa, scarlet sage, strawflower, and zinnia; 24 inches, balsam, calliopsis, China-aster, summer chrysanthemum, cockscomb, cornflower, four-oclock, gaillardia, Aztec marigold, platycodon, poppy, sulphurea, snapdragon, and snow-on-the-mountain; 18 inches, Jabs-tears, mignonette, and stock; 12 inches, calendula, California-poppy, calliopsis, candytuft, French marigold, penum, Drummond phlox, pink, and Iceland poppy; under 12 inches, ageratum, cockscomb, lobelia, portulaca, sweet alyssum, and verbena.

Of easiest culture under ordinary garden conditions: Over 4 feet, sunflower; about 3 feet, Joseph's coat, lavender-blossom, heliopsis, and prince-feather; about 30 inches,

cornflower, strawflower, and zinnia; about 24 inches, calliopsis, summer chrysanthemum, cone-flower, gaillardia, marigold, poppy, and snow-on-the-mountain; about 18 inches, mignonette; about 12 inches, Cape-marigold, calendula, California poppy, balsam, candytuft, penum, Drummond phlox, pink, dwarf nasturtium, portulaca, and sweet alyssum.

On light fertile soil: Gaillardia, marigold, Drummond phlox, and portulaca.

On light soil, not too rich: Cockscomb and feather cockscomb.

On poor soil: Lavender-blossom, prince-feather, Joseph's coat, Cape-marigold, godetia, dwarf nasturtium, portulaca, grass-pink, sweet alyssum, garden balsam, and calliopsis.

On land near the seacoast: Plants from the three foregoing lists, depending on the fertility of the soil, together with the castor-bean sunflower, heliopsis, spiderflower, cornflower, strawflower, zinnia, calliopsis, snow-on-the-mountain, four-oclock stock, calendula, California-poppy, penum, and sweet alyssum.

In partial shade: Basketflower, sweet-sultan, clarkia, platycodon, godetia, Drummond phlox, pansy, sweet alyssum, lupine, and forget-me-not.

Especially responding to rich soil: Castor-bean, scarlet sage, balsam, and China-aster.

To cut for everlasting: Rose everlasting, feathered cockscomb, globe-amaranth, and strawflower.

Not adapted to the south: except for late and early spring: Salpiglossis, pansy and forget-me-not.

Plants that can be started to advantage in hotbeds and coldframes for early flowering, whether they are to be used for bedding purposes or for cut flowers: Ageratum, China-aster, calliopsis, castor-bean, calendula, cosmos, cockscomb, chrysanthemum, godetia, lobelia, marigold, penum, grass-pink, scarlet sage, spiderflower, and verbena.

Some plants that may be sown in beds in the open ground and later transplanted to their permanent location are ageratum, calendula, calliopsis, China-aster, clarkia, cockscomb, godetia, gaillardia, gaillardia, godetia, lobelia, mignonette, jenny, pink, snapdragon, spiderflower, stock, and zinnia. Most of these may be sown earlier in a hotbed or coldframe and thus be made to bloom earlier.

A recommendation for a general cut in all county salaries will be made at the next meeting of the Board of Supervisors April 12, through which a savings of \$300,000 annually can be effected, William Gutman, chairman of the Board of County Auditors, has announced.

Get Up Nights?

Make This 25c Test

Use this easy bladder physic to drive out impurities and excess acids which cause irritation that results in leg pains, backache, burning and getting up nights. BUCKETS, the bladder physic, containing lichen, juniper oil, etc., works on the bladder pleasantly and effectively as castor oil on the bowels. Get a 25c box (5 grain size) from your druggist. After four days, if not relieved of getting up nights go back and get your money. You are bound to feel better after this cleansing and you get your regular sleep. Locally at Beyer Pharmacy, C. U. THE KING DEMANDS TRIBUTE The King is great! The King is strong! The King, good sir, may do no wrong!

Old King Eagle chuckled. "My fisherman is fishing for me but he doesn't know it!" said he.

"Tribute! Give Me Tribute!" Cried Old King Eagle Fiercely. subjects. Can you guess who it is? It's Plunger, the Fish Hawk.

"Tribute! Give me tribute!" cried Old King Eagle fiercely. "I won't!" It's my fish, for I caught it!" screamed Plunger.

"Tribute! Tribute!" demanded Old King Eagle more fiercely than before. Still Plunger clung to the fish for which he had waited so long and patiently.

"I won't!" he screamed again, and this time there was an answering scream. It was Mrs. Plunger.

Wayne County League of Women Voters Hold Annual Convention

The annual meeting of the Wayne County League of Women Voters was held at the Book-Cadillac Hotel, Wednesday.

Luncheon followed the business meeting called at 10:30 a. m. The afternoon was devoted to advance program announcements and plans for the 10th National Convention (Third Biennial) National League of Women Voters to be held in Detroit, April 25 to May with headquarters at the Book-Cadillac Hotel.

The following unsolicited recommendations of the League were read by Mrs. D. A. Bentley, president of the Wayne County League. The League of Women Voters is regarded by all students of contemporary politics, as one of the most encouraging and healthy signs of the time.

Herbert Adams Gibbons. "The League of Women Voters is a highly intelligent and promising effort to make good the quality of suffrage in the United States. While political power rests with the voters, the government finally rests for success upon enlightenment by public discussion. Candid and helpful partisan discussion can only be looked for by people who are trained between elections to discuss public matters. This the League accomplishes so that, in effect, it is a League for political preparedness and is making a genuine contribution."

Newton D. Baker. "Of all the organizations of a public character in the United States today, I know of none which seems to me to have a larger field or to be rendering more useful service than the League of Women Voters."

John W. Davis. The Plymouth League was represented by Mrs. Frank Millard, Mrs. Mary Hillmer and Mrs. Charles G. Ball.

The April meeting of the Plymouth League will be held at the home of the president, Mrs. Chas. Ball, next Monday, April 11th. A cooperative luncheon at 12:30 will precede the meeting. Mrs. Paul Hark of Grosse Ile will speak on "Living Costs."

Newlyweds To Make Their Home in Detroit

A very quiet wedding was solemnized by Rev. John Meredith at the Martha Holmes Church in Detroit, when Don E. Hagball, formerly of Plymouth and Robert E. Lowe of Detroit, said their wedding vows at 1:00 o'clock, Tuesday afternoon.

Shortly after the ceremony a reception was given them at their home in Detroit. Thirty guests from Northville, Plymouth and Detroit were there to extend to them their congratulations. After a buffet luncheon was served, all the wedding guests left wishing them a happy and prosperous wedded life. Mr. and Mrs. Lowe were also recipients of beautiful and useful gifts.

Mrs. Lowe is a beauty operator and has a position in Detroit and Mr. Lowe is an electrical engineer and also is in business in the same city.

The Plymouth friends also wish Mr. and Mrs. Lowe many happy years of wedded life.

Coming Attractions At Penman-Allen

"THE LOST SQUADRON" Vibrant with entertainment that quickens the pulse, delights the senses, and stimulates the appetite. RKO Radio Pictures' "Thrilling epic of the air, 'The Lost Squadron' will be shown at the Penman-Allen Theatre Sunday and Monday, April 10 and 11.

A bang-up cast of blueblood players support Richard Dix, the star. They are: Mary Astor, Erich von Stroheim, Joel McCrea, Robert Taylor, Hugh Herbert, Dorothy Armstrong and Arnold Grey.

The vigorous, red-blooded characters of the Dick Grace original are etched in the sharp relief against a blue background of breath-taking sky scenes, tragedy, romance and glamorous Hollywood boulevards and gay places and behind the scenes in the mammoth sound stages.

"DEVIL'S LOTTERY"

Hailed as one of the really big productions of the year, "Devil's Lottery," with Elissa Landi in the leading role, opens at the Penman-Allen Theatre Wednesday and Thursday, April 13 and 14.

A tremendous cast of screen favorites, including Victor McLaglen, Alexander Kirkland, Paul Cavanagh, Eeryl Mercer, Barbara Weeks, Halliwell-Hobbes and Herbert Mundin will be seen.

The picture portrays Miss Landi as a former member of the royal family who through her association with various men, has become a social outcast. She is among the winners of the Calcutta Sweepstakes, decided by the running of the English Derby, and with the other winners, is invited to spend the week-end at the country home of Lord Fitzfield, owner of the winning horse and a newspaper proprietor.

"THE FIGHTING MARSHAL"

All those in favor of rip-roaring action—shooting, riding and fighting with death and split, go to the Penman-Allen Theatre on Wednesday and Thursday, April 13 and

Telling the Pilot of the Weather

EVERY minute of every hour, day and night, pilots of United Air Lines coast (most passenger-mail-express planes can listen) for talk to one or more of 25 United radio-telephone ground stations, or they can talk to pilots of other planes in flight. Weather reports are the chief topics of conversation between planes and ground stations. This photograph shows the mechanism in a United Air Lines' ground station with the operator talking to the pilot of a plane 125 miles away and getting his message to the pilot a.k.a. back from the plane. The large clock on the wall governs the sequence on which pilots, with their watches synchronized to this clock, phone in and report their position, and it tells the operator when he shall broadcast to the particular planes he is following. There are sufficient sentences on this clock, which is found in all radio stations, to govern radio reports to 24 planes.

It, when "The Fighting Marshal," will be seen. A converger poses as a sheriff to rob what rightfully belongs to him so that he can prove his innocence to the world. He falls in love and abandons his illegal route to justice, only to find that Fate has destined that justice should triumph.

Tracy Dorothy Gulliver makes an appealing heroine. Mary Carr, Matthew Betz and Pat O'Malley are others who contribute capable and interesting performances.

"HIGH SPEED"

Auto racing provides the plot for "High Speed," new Frank Jones vehicle showing at the Penman-Allen Theatre, Friday and Saturday, April 15 and 16.

The colorful locale of a famous national speedway with its cheering crowds, flashing helmets, speeding cars, high-powered betting and tense excitement serves as the background for a half-minute speed story. Death-defying exploits are featured in a story in which men's reputations are the spoils of a race-track victory and brawn battles with the cunning brain of a gambling ring that "fixes" races and sacrifices lives to gain its nefarious ends.

Besides Loretta Savers, who plays opposite the popular outdoor star, the cast includes: Martin Faust, Pat O'Malley, Ward Bond in a comedy role; Wallace MacDonald, William Walling and Ed Le Saint.

OFFICIALS ARE RE-APPOINTED AND CONFIRMED

At the meeting of the Village Commission held on Monday night all former appointees of the President and Manager were approved by the Commission.

As no action of the Village Commission can be binding upon the City Commission to be elected in the fall of voting on the revised charter, the appointments were made for the period from April 4th until the new city commission is elected.

Strong Brucker, Paper Declares Governor's Message Is Not Sincere And Contains Only Words of Appeal For Votes in Next Election

It is interesting to note the various views of editors about the state pertaining to the special message of Governor Brucker to the state legislature. The following taken from the Ingham County News, always a strong Brucker paper, is not just as laudatory as one might expect:

The message of the governor to the special session is disappointing. It lacks the ring of sincerity which a more courageous governor would have given it. It smacks of the compromise which has marked its preparation. For weeks the governor or his sought, not advice and counsel, but information as to what would be acceptable. Not wisdom as to what Michigan needs, but rather information was sought as to what might be passed without censure to the ambitions of the administration. The governor has actively dodged every controversial issue. He has sidestepped every question where a line of votes is at stake. His whole program as outlined in the message, would it adopted in its entirety accomplish nothing of permanent value.

Let the message be sketched rapidly and a relief of the mind is given first place in the message. The present muddled conditions of indigent relief and public health administration in Michigan is entirely passed by. The fact that millions are now being wasted under an obsolete, inadequate, inefficient, irresponsible, expensive, unhygienic, wasteful and entirely incompetent system of welfare aid is ignored. Instead it is suggested that more bonds be issued as a debt against property values, the proceeds to be wasted by the same organization which has already brought local taxation into the verge of bankruptcy. The failure of the governor's program in this respect is further shown in his admission that such bonds are not marketable, but will be absorbed by the sinking funds of the state, thus showing onto solvent citizens the insolvency of the distressed portions.

The governor wishes the mortgaged property owners well but confesses there is no constitutional moratorium in prospect for them. His only proposed aid to the tax delinquent is extended time for redemption. There is no prospect that any relief from old taxes only to be swamped with new?

Banks have suffered from too much bureaucratic overloading from Lansing. The governor proposes still more. He does propose to liberalize some of the present restrictions but no fundamental improvement to avoid the pitfalls of the past are even suggested. One phase of the banking and public official perplexity is covered in Governor Brucker's recommendation that once a bank has been designated by the appropriate body as depositary for public funds, the treasurer and the municipality is thereafter removed from liability. Nothing is suggested regarding any responsibility whatever on the part of the public official. Still further state domination is found in the suggestion that all bank receivers be under control of the state banking commissioner. Such a plan removes jurisdiction from the courts into the direct realm of the politician.

Another significant paragraph in the gubernatorial message has to do with the real estate bonds so freely peddled about Michigan under guise of approval by the state securities commission. Ignoring the plain and freely acknowledged failure of the commission to act wisely in the past, the governor suggests not one change in the present law other than one to permit the setting up of an entirely new body to which the bondholder can go in distress. In other words, the governor leaves the same body in power to pass upon worthless securities but is so lenient enough to provide a second board to which the distressed investors may go for sympathy after they discover they have been swindled.

Coming now to the point of attack against the state expense, the governor has evidently discovered no useless board or commissions in his study of state affairs. "Fifteen per cent" appears to be the "open sesame" by which His Excellency expects to open the treasure chest of tax relief. He recommends 15% off on salaries; 15% off on supplies; 15% off on hiccabaes and gadgets. But 15% on a salary which is already three times too high is not enough. It will not satisfy the people of Michigan, governor, and can best be told that plainly right now. The courageous governor would have come right out in the open and would have urged as high as 50% slashes at some salaries, the entire elimination of certain other functions, the drastic reduction of others to mere skeletons of their present form.

The governor holds out the alluring hope that \$4,000,000 will be cut from the state budget. What's \$4,000,000? A farmer in an Ingham township who this year paid \$282.90 on a \$10,000 piece of farm property would be relieved by just about 1.5% and next year would pay exactly \$3.14 less. Instead of drawing a check for \$282.90 next January this much relieved farmer would be forced to dig for only \$279.76. Some relief!

Not a word is said about curbing the authority of state educational authorities to force upon local school districts, buildings, equipment and schools they cannot afford. The governor does speak in generalities of the inequities of the present system and waxes aloft the forlorn hope that sometime an income tax may be brought to our relief. But he is not willing to stand or fall on the issue and suggests

that it be put off until after the primaries. So far as highway legislation is concerned, the governor has discovered nothing new. He has accepted almost to the last detail the so-called Wadsworth plan of diverting the entire weight tax back to the counties to replace the present property tax levy for local and county roads. He makes absolutely no suggestion as to tightening the reins against the extravagance which has marked past expenditures with the county road boards and the state highway department of Michigan.

The NEWS predicts that but little of real merit will be accomplished by the legislature unless Governor Brucker lays aside his present white banner and grabs up an axe. Unless the governor does "change front and bring forth a program much more drastic than his message then relief will have to come, if it comes, in spite of the governor and not because of him.

SOON TO FINISH REDFORD WORK

The last group of buildings in Redford not yet affected by the sliding have at last come under the appraising eye of the working crew. All the buildings which now stand as the last bulwark of the old Redford are to have their noses, heads and parts of their shoulders whacked off.

First among these is the building occupied by Harry Stahl, Redford's oldest haberdashery store, who is closing out his stock, preparatory to enlarging his quarters after the working crew goes through. He will have the store now occupied by the Redford Cafe as well as his own, thus giving himself a 40 foot front for the new clothing store. Men and boys which he will open Monday his present stock is being given to the mercy of the bargain hunters.

The drug store that occupies the old Northern block to the east of Stahl's building also will get an airing as the remodeling goes on. And the Hyman block the "last lot" on the "widening tree" will be the next to get its ears slapped back. It is the intention of the Wayne County Road Commission to pave the small stretch from Fisher past the remodeling buildings of the south side of Grand River, this spring.

This will complete the reconstruction of the community's main street, Grand River area.

Income Tax System Has Become Racket Declares W. R. Hearst

The following article written by William Randolph Hearst has created so much comment that the Mail believes its reader-faithfully will be interested in its publication in this paper. Please carry on sustained crusade, daily and Sunday against the present bolshevist system of income taxation.

The income tax system has become the greatest racket in the United States and the government the biggest racketeer. The system is in itself unjust, inequitable and un-American. It paralyzes enterprise and penalizes honesty.

The rich evade the tax, the poor escape it and practically the whole burden of oppressive taxation is borne by the wretched middle classes. The most valuable element in the whole community, the element who earn their incomes, are overwhelmed by an excessive tax, which is in all essentials confiscatory.

The whole system is surrounded with sinister secrecy in order that the public may not know the extent of its injustice, dishonesty and discrimination. The tax system has made bullies out of government agents and a blackmailer out of the government itself. Crime is compromised for cash and false accusations are made in order to be compromised by payment of blood money.

Means for the wealthy to evade the tax are specially provided through tax exempt securities and other devices, avenues which the less rich and influential are made to pay double taxation through unjust fines and penalties which a skilled corporation lawyer could avoid.

The tax is the most serious imaginable in times of depression, because a citizen must pay when he has no money for money he spent when he had it to spend. A majority of those who pay the tax these days have to borrow money to pay it and the burden of this heaviest confiscatory tax has done more than any other agency or influence to aggravate and intensify the financial catastrophe.

Only to the extent that it can squeeze blood from stone and extort money by adding to the depression of an already depressed community. Does anybody benefit? Yes, indeed—a standing army of snipers, gougers, collectors, extorters, tax lawyers and dodgers, ex-government officials with a pull and incumbent officials with open minds. To support these gentry in ease and affluence is what the tax is for. You fellow citizens are exploited, your business prostrated, your country plundered to encourage excessive governmental extravagance to support an unnecessary and "dangerous bureaucracy" and to make a hellacious despotism out of free democracy.

There are two great historic failures and political evils which this country can indubitably engrave on the blackest pages of its record. One is the wholly ineffective and un-American policy of prohibition and the other is the inequitable, tyrannical, bolshevistic policy of confiscatory income taxation.

Both are IGNORABLE experiments, resulting in nothing but damage, demoralization and disaster. When the Democratic party has the strictly to be democratic, when it has the patriotism to be American, it will substitute excise taxation and sales taxation for un-democratic, un-American, discriminatory income taxation with its crooked evasion and equally crooked enforcement.

TO ORGANIZE BUS COMPANY

Organization of a new Motorbus Company to take over the operation of suburban lines in the western part of the county has been announced. It is to be known as the Dearborn Coach Company with a capitalization of \$100,000. It will operate the former Detroit Motorbus Company lines operating from the Detroit City Hall to Dearborn, Dearborn township, Inkster, Elyse, Wayne, Plymouth, Northville and Melvindale.

The new concern has purchased 22 buses of the Detroit Motorbus Co. and has leased the Fordson garage of the latter company for a lengthy period.

No change in personnel is contemplated by the new company but has been announced. Present schedules, unless otherwise announced, will be maintained if it was stated.

25 YEARS AGO Interesting bits of news Taken from Plymouth Mail

Born to Mr. and Mrs. Frank Hake Thursday, a girl. Mrs. J. H. McLaren was in Pontiac visiting this week. The council, Tuesday evening voted to borrow \$1,000 to pay current expenses. Evered Jolliffe and Frank Spleet were home from Ann Arbor over the week-end.

F. R. Park has sold his residence on Main street to Mrs. F. Markham Bridge, possession to be given next September. Louis Hillmer is moving into the Starkweather house and Louis Fisher will occupy the house vacated by Mr. Hillmer.

The fifteen year old son of Fred Rosedale while "sizzling wood" Wednesday tore his left hand on the saw and will lose his middle finger.

W. J. Burrows caught his leg tangled between a belt and revolving pulley Wednesday afternoon at the Jersey factory, bruising it in a painful manner.

The annual spring faklor is in town selling clocks on the installment plan. Look out for him. Congressman Townsend was in town this week. We venture that he is going to give the postoffice appointment to Mark Ladd.

At a meeting of the village council Tuesday evening a proposition was carried that hereafter the village will furnish free of charge electric current for all porch lights. The porch lights will greatly add in lighting the streets, especially in the summer time when the trees shade the walks. It's a good thing and benefits the public.

HOUSE BURNS ON WHITMORE ROAD

The South Lyon fire department was called to Whitmore Lake last week Thursday afternoon when the residence owned by Owen Stoffe, opposite the school building, burned to the ground. Nothing in the building was saved. Loss was more than \$5,000, partially covered by insurance. Brighton fire department also responded to the alarm.

Rosedale Gardens

Welcome to the community this week is the Harold Thuy family at 11405 Blackburn avenue. Gone To the city is Dr. E. T. Camwell and family with little James "Browster" prominent among children. Song Cantata in two parts, namely, "The Man of Nazareth," by Rogers, and "Gallia," by Gounod, presented by the Grand River Avenue Baptist Church Chorus-choir, at R Garden Presbyterian Church last Friday evening brought many folks out for these wonderful pieces, so delightfully sung, even tho' it was a stormy eve night.

Achievement Day

for the Wayne County 4-H clubs, on Saturday at Dearborn, brought forth the County Champions, and naturally Rosedale Kiddies were very much in evidence, all entrants receiving favorable mention, and two of them becoming County champions, and are delegated to go to East Lansing for State Competition in July. R own "Champions" were Miss Lona Belle Robbe, sewing dress, the two year class; Master Charles Hanchett, first year class, articles submitted being a tabernacle, salt box and knife and fork tray. Frank Davis almost won out, but his sister, Alice, got her picture in the paper Detroit News with three other sewing circle girls, two from Newburg way. So, handi-craft and sewing at home is not becoming a "lost art" insofar as R school is concerned.

Money expended by our P. T. A. for the sewing machine and tools and supplies for the boys has not been invested in vain.

Song Birds

are nearly all home, with robins, at day break and twilight, calling each other and many others out for the early worms. Sparrows and tree-larks are brightening up with color, so Spring is really here.

We also hear Fred Schmidt and other pre-Rosedale farmers are settling on the new cabbage plans the coming week and also present Gardenite miniature farmers are at work "squeaking up" in order for Mayor Murphy to copy from very shortly.

STOP WORK ON NEW OIL WELL

Drilling of Oakland County's first oil well, several miles southeast of Milford has been temporarily abandoned because of lack of funds. The drill was sunk 2,030 feet and experts estimated when the work was started that it would be necessary to go 4,000 to 5,000 feet. With improvement in business conditions drilling is expected to be resumed. The well was financed principally by members of a syndicate drawn from Pontiac and Birmingham.

OFFICIAL PROCEEDINGS OF THE VILLAGE COMMISSION

Plymouth, Michigan March 21, 1932 A regular meeting of the Village Commission held in the Commission Chamber of the Village Hall on Monday evening March 21, 1932 at 7:00 p. m. Present: President Mimmack, Commissioners Henderson, Hoyer, Learned and Robinson. Absent: None. The minutes of the regular meeting of March 7th and of the special meeting of March 15th were approved as read. The matter of remodeling the Dentling Garage at 906 S. Main St. was discussed by the Village Commission. It was moved by Comm. Learned seconded by Comm. Robinson that the Manager be authorized to issue a building permit for remodeling the above mentioned garage in accordance with the plan outlined to the Commission on this date. Carried. A petition signed by thirty-three persons asking that Officer Charles Thuman be placed in his former position as night watchman for the north part of the Village was read by the Clerk. It was moved by Comm. Hoyer and seconded by Comm. Robinson that the petition be received and placed on file. Carried. The Manager recommended the purchase of a power addressograph machine for the use of the Treasurer's office and the water department. It was moved by Comm. Robinson that this Commission authorize the purchase of a power addressograph fully equipped at a price of \$250.00. Carried. It was moved by Comm. Robinson that the milk ordinance be laid on the table until the next meeting. Ayes: Commissioners Henderson, Robinson and President Mimmack. Carried. It was moved by Comm. Learned and seconded by Comm. Hoyer that the previous motion relative to tabling the proposed milk ordinance until the next meeting be reconsidered. Ayes: Commissioners Hoyer, Robinson, Learned and President Mimmack. Carried. It was moved by Comm. Hoyer, Robinson, Learned and President Mimmack. Carried. It was moved by Comm. Hoyer and seconded by Comm. Learned that the motion adopted at this meeting relative to laying the milk ordinance on the table until the next regular meeting of the Commission be rescinded. Ayes: Commissioners Hoyer, Learned, Robinson and President Mimmack. Ayes: None. Commissioner Henderson not voting. Carried. It was moved by Comm. Hoyer seconded by Comm. Robinson that the Milk Ordinance be given the third reading. Carried. The Clerk read the following Ordinance: AN ORDINANCE to Regulate, License and Control the Sale of Milk and Cream to be Produced and Sold in the Village of Plymouth, Michigan. SECTION 1. That for the purpose of this Ordinance: (a) Raw milk or cream is milk or cream in its natural state. (b) Pasteurized milk or cream is milk or cream which has been heated to a temperature of approximately 145 degrees Fahrenheit, and never less than 142 degrees Fahrenheit, and then promptly cooled to a temperature of 50 degrees Fahrenheit or lower. (c) Certified milk or cream is milk or cream produced in accordance with the regulations provided in Act 248 of the Public Acts of 1911 of the State of Michigan, and any amendment thereto. (d) "Grade A milk shall be defined as milk or cream produced on a farm licensed by the Village of Plymouth and produced in accordance with the provisions of section 7 of Act 189 of the Public Acts for 1929 of the State of Michigan, and Amendments thereto, and in accordance with any regulations made by the Commission, Board of Health, or Health Officer of the Village of Plymouth in an effect at the time of production. (e) The words "milk" and "cream" when used unmodified in this Ordinance shall be deemed to include milk and cream in their raw and pasteurized state. (f) A "milk plant" shall be deemed to be any place where milk or cream is collected from two or more sources for the purpose of preparing it for distribution, delivery or sale. (g) A "farm" shall be deemed to be any place where milk or cream is produced for direct delivery, sale or consumption within the Village of Plymouth without first being delivered to a "milk plant." (h) The word "person" shall mean and include any individual, partnership or corporation, society or association. SECTION 2. No person shall engage in the production, delivery, distribution, or sale of milk or cream for consumption within the Village of Plymouth without first obtaining a license therefore as provided herein, except that persons engaged in the production of milk or cream for, or the delivery of milk or cream to, a licensed plant shall not be required to secure a license under this Ordinance. SECTION 3. Every person engaged in the production, handling, storage or distribution of milk or

cream for sale or distribution in the Village of Plymouth, before a license is issued under this ordinance, shall furnish to the Village Clerk, a certificate of health signed by a licensed medical physician for each person employed by him in the production, handling, storage or distribution of said milk or cream. Such certificates of health shall indicate whether or not the person examined is free from all infectious, communicable or venereal disease. The Inspector or Health Officer may require any person engaged in the production, handling, storage or distribution of milk or cream to be re-examined at any time and to furnish a certificate of such examination, provided however that such re-examination as may be ordered, may be made by the Health Officer without cost to the person examined. (a) Any person knowingly affected with any infectious, communicable or venereal disease who shall engage in the production, handling, storage, or distribution of milk or cream in the Village of Plymouth, or any person engaged in such work who shall not have obtained a health certificate as aforesaid, or any person knowingly employing persons affected with such disease or a person without a health certificate, as aforesaid, shall be deemed guilty of a violation of this ordinance. SECTION 4. Farms producing raw milk or cream for delivery, sale or consumption within the Village of Plymouth shall be inspected by the Inspector and all of their sources of supply shall be inspected by the Inspector and shall meet and comply with all the rules, regulations and requirements of this Ordinance before being approved for license under this Ordinance, and said Inspector shall furnish to the applicant for license a certificate showing that such farm, milk plant and sources of supply have been approved by him. (a) The Village Clerk shall issue a license as herein provided, to any person presenting the following certificate from the few heretofore provided, which license, when issued under this Ordinance, shall not be transferable. (b) Every person making application for license under this Ordinance shall make application upon forms furnished by the Clerk of said Village and at the time of making such application shall deliver to the clerk of said Village a list of all sources of supply together with the address of the same, and if licensed, shall notify said clerk of any addition to the source of supply three days prior to making such change. The applicant shall furnish such other information as may be required by the Village Clerk. SECTION 5. Before any license shall be issued under the provisions of this Ordinance, a fee shall be collected therefor according to the following schedule: (a) For maintaining a milk plant the sum of Five (\$5.00) dollars together with an inspection fee of one (\$1.00) dollar per milk plant for each mile that said milk plant is distant from the Village of Plymouth. SECTION 6. Every license issued hereunder shall expire June 1st, following date of issue unless sooner revoked. Licenses issued after December 1st shall be issued at one-half the regular fee. SECTION 7. No person shall deliver or bring into the Village of Plymouth for sale or delivery: (a) Milk or cream to which water or foreign substance has been added. (b) Milk or cream transported or delivered at a temperature above 60 degrees Fahrenheit. (c) Cream containing less than eighteen (18%) per cent butter fat or whipping cream containing less than thirty (30%) per cent butter fat. (d) Milk or cream produced from diseased cows or from cows during the period of fifteen (15) days preceding or five (5) days subsequent to parturition or for such time thereafter as the milk is abnormal. (e) Milk containing less than three and one half (3 1/2%) per cent of milk labelled "Jersey Milk" containing less than four and one half (4 1/2%) per cent of butter fat or less than nine (9%) per cent solids not fat. (f) Milk or cream which has been produced, stored, handled or distributed in an unclean or unsanitary manner, or has been ordered excluded from the Village of Plymouth by the Health Officer or Inspector, or which has been excluded from sale by any authorized state, county or municipal inspector of dairy products. (g) Milk or cream placed in containers which have not been properly washed and sterilized with hot water or steam of a temperature above 212 degrees Fahrenheit. (h) Milk or cream the bacteria count of which exceeds 500 per cubic centimeter as shown by the standard method of milk analysis published by the American Public Health Association of Official Agricultural Chemists. (i) Milk which has had the cream line increased by artificial means. (j) Milk or cream which has been pasteurized more than once. (k) Skim milk, sour milk, cream, or buttermilk unless properly labeled as such. SECTION 8. All raw milk or cream, other than Certified or Grade A milk or cream, delivered in the Village of Plymouth must be produced on a farm licensed under this Ordinance. All milk produced on farms not licensed under this Ordinance shall be certified or Grade A milk or cream, shall be pasteurized at a milk plant licensed under this Ordinance before delivery or sale to the consumer. SECTION 9. No person shall sell, offer for sale, deliver or distribute both raw and pasteurized milk or cream. SECTION 10. Every milk plant in which milk or cream is pasteurized, licensed under this Ordinance shall be equipped with pasteurizing devices which shall include automatic recording thermometers in accurate operating order and shall provide facilities for the prompt cooling of milk or cream after pasteurization to 50 degrees Fahrenheit or lower, and for holding such milk or cream at that temperature or lower until delivery to the consumer. Such plants shall be equipped with automatic bottle filling and capping machinery. SECTION 11. Every farm licensed under this Ordinance shall be equipped with a bottle capping machine. SECTION 12. The caps of all bottles or containers in which milk or cream is delivered to consumers in the Village of Plymouth shall be plainly marked to indicate the name of the person or firm supplying the product and the type source of milk or cream contained therein as defined by this Ordinance. SECTION 13. Milk or cream shall not be sold or offered for sale except in closed bottles or cans. Bottles and cans must be filled only at the milk plant, dairy or other place approved by the Inspector or his representative. SECTION 14. Milk or cream served in all public places shall be served in the original bottle only as delivered from the milk plant or dairy and shall be washed with clean water before serving. SECTION 15. The Milk Inspector, Health Officer, or their authorized representatives, when properly identified, shall have the power and authority, for the purpose of inspection under the provisions thereof, to enter upon any premises where milk or cream is produced or prepared for sale and distribution to consumers residing within the Village of Plymouth, whether such premises are situated within or without the corporate limits of the Village of Plymouth, at any reasonable hour. SECTION 16. Any producer or distributor of milk or cream shall, upon request, furnish free of charge, a sample of milk or cream, not to exceed one quart, to any official designated by the Village Commission to collect samples for testing. SECTION 17. The Inspector or Health Officer may revoke for cause any license issued under this Ordinance provided that the holder of such license shall first be given an opportunity for a hearing before the Board of Health, which for the purpose of this Ordinance, shall consist of the President, Health Officer and Village Manager. SECTION 18. Bottles left at any place where there exists a contagious disease shall not be collected until after disinfection under the direction of the health officer. SECTION 19. The Village Manager shall purchase such equipment as may be necessary for the testing of milk, cream or other dairy products. SECTION 20. The Village Commission shall appoint a milk inspector who shall receive such compensation as may be fixed by the Village Commission. He shall perform such duties and shall have such authority as may be prescribed by the health officer and the Board of Health. SECTION 21. The act, omission or failure of such individual, corporation, partnership, society or association as well as that of such officer, agent or other person. SECTION 22. The Board of Health may make such rules and regulations as are necessary for carrying into effect the provisions of this Ordinance, and when made shall be deemed and considered a part of this Ordinance, provided that any rules or regulations become hereunder shall, before becoming effective, receive the same publicity as is required in the enactment of Village Ordinances. SECTION 23. Should any of the sections or provisions of this Ordinance be declared unconstitutional or invalid, such declaration shall not effect any of the other sections or provisions of the Ordinance. SECTION 24. Any person violating the provisions of this Ordinance, or the rules and regulations of the Village Inspector or Health Officer, shall, upon conviction, be punishable by a fine of not more than \$100.00 or by imprisonment of not more than ninety days in the House of Correction. SECTION 25. All Ordinances or parts of Ordinances in conflict herewith are hereby repealed. SECTION 26. This Ordinance shall take effect June 1, 1932. Made and passed by the Commission of the Village of Plymouth, Michigan, this twenty-first day of March A. D. 1932. Robert O. Mimmack, President. L. P. Cookingham, Clerk. It was moved by Comm. Must Have License To Sell Minnows The first indication of the approach of another fishing season, May 1, is being felt at the Department of Conservation office where a rush for minnow licenses is now under way. While only 81 minnow licenses have been sold since January 1, it is expected that between two and three hundred more will be issued by the time the trout streams and the "pike" and "trout" lakes are opened for fishing May 1. Last year the Department issued 480 licenses to commercial minnow dealers. The licenses are sold at a cost of \$10 each. These licenses are now required of all persons taking minnows for commercial purposes, and the waters in which they may take minnows are listed on the licenses. No license is required to resell minnows if they have been purchased from some person holding a license or if they have been shipped into Michigan from some other state provided proof is furnished of their origin. No license is required to take minnows for personal use although minnows may not be taken or transported away from a trout stream where the use of seine, dipnets and traps are forbidden. Michigan's general fish laws define minnows as being "chubs, shiners, suckers, dace, stonefish, mudlers and mud-minnows. They may be taken, under license with seines not to exceed thirty feet in length and eight feet in width in the designated inland lakes and streams and in seines not to exceed eight feet in length and eight feet in width in the Great Lakes and connecting waters. Dip nets not exceeding three feet square with one side or walls and minnow traps not exceeding twenty-four inches in length and hook and line may also be used. Mail Liners For Results

Four Telephone Employees Awarded 1931 Vail Medal

Michigan Bell Telephone Company employees honored for action in emergencies that resulted in saving lives. 1—Everett K. Monroe, cable splicer, Pontiac; 2—Mrs. Celia S. Schroeder, night operator, Roseville; 3—Chas. G. Enos, cable splicer, Detroit; 4—Fred Collins, lineman, Detroit.

VAIL MEDAL GIVEN FOUR IN MICHIGAN

UNUSUAL ACTS OF SERVICE BY TELEPHONE EMPLOYEES TOLD IN CITATIONS

Theodore N. Vail medals in bronze will be awarded four employees of the Michigan Bell Telephone Company—three men and a woman—for outstanding acts of service in moments of extreme emergency during 1931. It is announced by Burch Foraker, president of the Company and chairman of the Michigan Committee of Vail Medal Awards. They are Everett K. Monroe, Pontiac cable splicer; Mrs. Celia S. Schroeder, Roseville night operator; and Fred Collins, lineman, and Charles G. Enos, cable splicer, both of Detroit. Each was instrumental in saving a life, and is cited for exercising unusual initiative and prompt action. Two of the men, Monroe and Enos, restored consciousness to persons in danger of death from drowning, by application of methods learned in Telephone Company First Aid classes. Collins rescued a woman from a burning building, and Mrs. Schroeder was instrumental in saving a man from asphyxiation.

Awards of the medal in bronze, silver and gold are made under a fund created twelve years ago in memory of Theodore N. Vail whose life work was devoted to the development of universal telephone service and who inculcated into the Bell System many of its high ideals of service. The silver and gold medals are national awards. Since the establishment of the fund, 52 bronze medals have been awarded Michigan people, 48 to employees of the Michigan Bell Company and four to employees of connecting telephone companies. Two silver medals have been awarded Michigan people, both connecting company employees.

Everett K. Monroe is cited for his part in saving the life of a woman, while bathing in Cass lake, near Pontiac, July 2. Seeing the woman in distress and hearing her cries for help, he rushed to her assistance, carried her to shore and applied artificial respiration. Twice it was necessary to resort to the treatment for long intervals before normal breathing was restored.

New Scheme on Foot To Get Money. Alma Paper Tells of Plan

On Easter morning there appeared on the porches in the city, copies of what is called "The Weekly Record." The announcement says that it is published by the Record Publishing Company, Adrian, Mich., P. O. Box 145. It further says: "This paper is published and distributed with the intention of serving the public with general news of the church world. It has no denominational affiliation and makes no editorial comment."

A copy of this sheet appeared in several other towns including Mt. Pleasant at the same time, the only difference in the make-up of the paper for the different towns being that local advertising was sold from each town to the extent of three pages.

On careful investigation by the Michigan Press Association, to Record Publishing Company can be traced in Adrian and P. O. Box 145 is the box number of a man by the name of J. H. Johnson, who is making very apparent efforts to get what they can out of it, because there is nothing in the sheet that would indicate that it has any religious value whatever, hence the sheet is published for the purpose of making money, rather than promoting the cause of religion and morals. One of the editors in the Bible related in John 2:16 when Jesus went up to Jerusalem and found in the temple those that sold oxen and sheep and doves, and the changers of money sitting; and when he had made a scourge of small cords, he drove them all out of the temple, and the tables, and the oxen, and the sheep, and the oxen, and poured out the changers' money, and overthrew the tables; and said unto them that sold doves, "Take these things hence, make not my Father's house a house of merchandise."

In every one of the towns in which this publication has appeared, the local newspapers had cooperated with the churches and religious institutions to the last degree, giving them all church notices without charge, and unlimited amounts of free publicity on all worthy projects as well.

The Alma Record has always cooperated with the churches to the fullest extent, giving columns of free publicity in the interest of religious activities, and we have been glad to do it.

Every dollar that is paid to a fly-by-night concern goes out of town and remains out. Never has there been a time when there were so many phony concerns trying to get the public as at the present time by using a religious or charitable cloak to cover up the real motive of filching the public for the purpose of feathering their own nests.

The citizens of Alma should think this thing through because every dollar paid to this kind of an outfit goes outside of the city and cannot possibly benefit Alma in any way. It takes away from legitimate business the support which will benefit the community, keep Alma labor employed and pay taxes for the support of Alma institutions. Alma Record.

If it wasn't for wealth, there would be very little gold.

"Dorothy saw how my new range changed my kitchen... She could hardly wait to get one of her own!" ... IT'S AN ELECTROCHEF "Dorothy's not usually enthusiastic about things—but she couldn't help admiring my new Electrochef electric range. She declared it made my kitchen look like new—and it does! Everyone who's seen it comments on its striking appearance and unusual design. But the range is more than simply attractive. Its spotless-white porcelain and sparkling chromeplate make it so much easier to have a really clean stove. Every corner inside and out is rounded, and there are no cracks or crevices to collect dirt. Besides 'making over' my kitchen my Electrochef brings absolute cooking cleanliness. Imagine a stove that supplies only PURE HEAT from a glowing wire! No smoke or soot to blacken my utensils and soil kitchen walls and curtains. No wonder Dorothy is installing an Electrochef in HER kitchen." SUGGESTED PAYMENT PLAN \$10 FIRST PAYMENT Installed, ready to cook. Balance small monthly payments. # MANY VILLAGES TALK CITY PLAN

Over 60 villages in Michigan are just now giving consideration to changing from the village form of government to the city form. The following dispatch taken from a recent issue of the Detroit News will be of interest to Plymouth because of the fact that this community recently voted to change from the village to the city form of government:

The village form of government is losing its popularity in the North Woodward district, because of high taxes.

With Berkeley having approved the change to a city charter, which now is being drawn and will be effective soon, Huntington Woods today was circulating petitions for an election to join the city group. Oak Park will place city charter petitions in circulation before the week is over.

The city charter movement was inspired by need for economy. It would relieve residents of paying township taxes. They now pay village and township taxes, for which city taxes would be substituted.

Should the Huntington Woods and Oak Park movements succeed, Clawson and Hazel Park would be called upon to carry the township burden. Hazel Park is not incorporated, but has contributed little toward township taxes in the last two years.

There is a lot of interference in this world by people who have nothing to do.

# ATTENDS COUNTY ROUND TABLE

On Wednesday, April 6th, the Wayne County Round Table was held at Dearborn Inn. In the morning visitors went around Greenfield Village, and at 1 p. m. had lunch at the Inn.

At the general meeting in the afternoon, George B. Carlin spoke on "The Old Trails" and Mrs. Margaret S. Sauger discussed "Why Adult Education?"

Miss Jessie E. Tompkins was chairman of the Round Table for public librarians. At this meeting Miss Margaret Mann's topic was "Changing Standards for Librarianship" and Mrs. Nancy B. Thomas talked on regional grouping of libraries and cooperation between them.

At the Round Table for School Librarians, Miss Faye I. Beebe presided, and the discussion was led by Miss Letha McQuillan.

Mrs. Ada S. Murray, Mrs. Helen and Mrs. Alice Pheasant attended from Plymouth.

**Dearborn**  
Dearborn Township elected a straight Republican ticket. William T. Kronberg was re-elected over Edwin W. Daly, 406 to 245. Other winners were: Clerk, William Querfeld; treasurer, Benjamin Landsberg; highway commissioner, Charles Hough; highway overseer, Alexander Orsette; Justice, Henry Devers; Justice, Gordon Baxter;

But if the newspapers should print nothing but cheerful news we should have a surplus of wood pulp to add to our troubles.

Justice, John L. Mokersky; board of review, William Wallace; constables, Henry F. Schultz, Elmer A. Rechin, Albert Blossingham, James Bixler.
