Harold Daggett Is New Service Head

Harold Daggett who for over a dozen years has been repairing radios...

He will be assisted by Claude Rucker who has specialized for years in servicing electric refrigerators and appliances...

Mr. and Mrs. Edwin Campbell expect to spend the week-end with Mr. and Mrs. Arthur Waters in Detroit.

Bible School To Open On Monday

Rev. Lova Sutherland of the Baptist church this week announced the opening of a non-sectarian vacation Bible school for children of all ages...

The instructors will be four young men from Dr. Savage's First Baptist church of Pontiac.

Rev. Sutherland has requested that it be made clear that children of all churches are welcome.

In addition to Bible study there will be music, handicraft and a play period during the middle of the forenoon.

The school will continue from June 24 to July 3.

Military Honors For Dr. Rowoldt

Full military honors were accorded Dr. LaVern Rowoldt whose funeral was held Monday afternoon from the Schrader Bros. funeral parlors.

Dr. Rowoldt was born in Tecumseh, Michigan, October 10, 1888.

He became a member of the 25th United States Cavalry and was with General John Pershing during his invasion of Mexico.

Upon his discharge from the regular army he attended the Penn State University but when the World War broke out, he re-enlisted for military services.

He was a member of the Masonic lodge and the American Legion post of Plymouth.

Surviving are his wife, Mrs. Gertrude Rowoldt, a son Leonard, his father and mother of Monticello, Minn.

Many Present At D. A. R. Meeting

The Sarah Ann Cochran Chapter, D.A.R. held its June meeting Monday, June 17 in the pleasant home of Carmen Root.

Mrs. Root as always the charming and gracious hostess. Thirty-nine were present to partake of the delicious cooperative luncheon which was served at noon.

A social hour closed the delightful afternoon, the society adjourning until next September.

Encouragement For Graduates Given By Pastor

Rev. Sutherland Says The Future Holds Much For Them

Faith in the youth of today and faith in the future that lies before them was the predominating theme of the baccalaureate address delivered by the Rev. Lova Sutherland, pastor of the First Baptist church Sunday evening.

He visited all of the various departments, saw the boys and girls learning to do many of the finer trades, went over the farms and noticed how the boys carried on the farm work.

Mr. Lin stated that his country is beginning to give special attention to many of the problems that have been so successfully handled in this country.

Two weeks ago the city commission authorized the city manager to endeavor to work out a plan whereby the delinquent taxes can be paid at the city treasurer's office.

Last week City Manager Cookingham discussed the matter with the county treasurer and submitted a plan to him which was felt would be legal and practical.

The extension will provide the connecting link along the entire Rouge valley between Plymouth and Northville and the Detroit end of the park system.

The recommendation is made because of the fact that the increased park facilities added within the past year or so are already taxed to the limit.

Chairman Edward N. Hines of the road commission has forwarded to the Plymouth Mail a copy of the letter that the road commission sent to the auditors asking the right to extend the parkway system during the ensuing year.

Four years ago an appropriation was made by the Board of Supervisors with which to acquire the land for the first section of Rouge parkway, extending from Northville along the valley of the Middle Branch of the Rouge River.

The city of Plymouth is the first municipality in Wayne county to adopt such a plan and it is believed that the plan will meet with much favorable comment and approval by the taxpayers.

An attempt will be made to notify all persons having delinquent taxes both for the years 1933 and 1934 and for the year 1932 and prior years.

The first installment is due on or before August 31st without interest, penalties or collection fees. The 1933 and 1934 delinquent taxes can be paid at the city treasurer's office.

The 1935 city tax statements will be in the mail on or before July 1st.

Son of Chinese President Is A Visitor at the Training School

James Lin, son of the President of the Republic of China who is in America studying American institutions and American methods of handling public problems, spent an entire day recently with Dr. Robert H. Haskell at the Wayne County Training school securing much data as possible about the school and its method of caring for backward children.

He visited all of the various departments, saw the boys and girls learning to do many of the finer trades, went over the farms and noticed how the boys carried on the farm work.

Plymouth Family Among Alaskan Colonists Who Face Desolate Future-Ask Investigation

Senators Told Of Break Down Of Welfare Scheme

Ransom Prices Charged For Necessities Says Mrs. Rotz

Possibility of a senate investigation into the apparent complete failure and collapse of the government's welfare colonization scheme in Alaska in which a Plymouth family, Mr. and Mrs. Fred Rotz and their two children are victims along with more than two hundred other families from Michigan, Wisconsin and Minnesota, appears certain as the result of protests made to United States Senators from these states by representatives of the colonists.

In connection with this news from Washington, Mrs. Fred Rotz, who has been enthusiastic and hopeful of the success of the venture, this week sent a letter to newspapers in which she pictures the deplorable conditions the welfare agencies have led these families into.

Before leaving Plymouth for Alaska the Rotz family told The Plymouth Mail that the welfare agents had advised them that there would be 12 acres of cleared land ready for each family, in addition to a completed house, a team of horses, a cow, chickens, farm tools, feed for the live stock as well as food for the families until they could produce their own living necessities.

They were told that there would be schools for the children and medical care for those who might need it.

There will be seed for the crops we will plant just as soon as we get there, too, said Mrs. Rotz, who has been enthusiastic about the welfare scheme.

The complaint filed with Senator Couzens of Michigan and other senators from Wisconsin and Minnesota says:

"Six weeks passed, nothing done. No houses, wells, roads, inadequate machinery and tools. Government food undelivered, commissary prices exorbitant, educational facilities for season doubtful. Apparently men sent to pick political plums. Irwin and Washington officials o.k.; hands tied. Colonists co-operating. Request immediate investigation. Letting down. Copies sent Roosevelt and Hopkins. Show this telegram to LaFollette of Wisconsin and Schall of Minnesota."

Mrs. Rotz in her letter says in part:

"Everyone has a terrible cold, due to the change in climate and the cold, damp weather." Mrs. Rotz said. "We have had a few sunny days, but nights and mornings are chilly."

The form breaking out in different camps, Mrs. Rotz has six children down with the measles (Continued on page six)

Gallimore New Board President

James Gallimore, for the past five years a member of the Plymouth district board of education, has been elected the new president of the board.

Mr. Gallimore, who is superintendent of the Plymouth plant of the Ford Motor company, has long been interested in the Plymouth public schools and his election as president of the board comes in recognition of his splendid services to the district.

Clude Buzzard was re-elected as secretary and Herald Hamill retains his old place as treasurer of the board.

Hartland Choir Here Sunday Eve

The Hartland Area choir under the direction of Miss Nellie Beatrice Huger, formerly a Plymouth girl will sing at the Methodist church in Plymouth Sunday evening at 7:30 o'clock.

The evening service will be in the form of a hymn sing. The choir will sing several of the same hymns and anthems that were sung over a coast to coast broadcast from the Detroit Music Festival on June 1.

The choir of Hartland Area have a membership of nearly 100. All members are from open country churches near the Little Town of Hartland.

Mrs. Huger came to Hartland Area four years ago to organize a choir with a Ministry of Music Program centered in the Hartland Music Hall. The plan included the music in the schools, churches and communities of the rural areas around Hartland Center.

The choir is a voluntary society of the church are sponsoring the evening program. All are most cordially invited.

Farmers Union Plans Big Salem Meeting

The Farmers Union of Washtenaw county is planning on a big county wide Wednesday night, June 26 at the Salem Federated church when all local members of the Union in Washtenaw county are planning to be present to organize a county unit.

Chester Graham of Grant and Walter Nelson of Detroit will be the chief speakers. Others are expected to be on the program. Everyone is welcomed to attend this meeting.

To Prepare For Street Paving

The city commission at its meeting Monday night authorized the manager to prepare the necessary proceedings to cover the construction of the underground work required on Plymouth road between Mill street and the easterly city limits.

W. C. T. U. "Baptist Day" At Park Saturday

Saturday is surely going to be "Baptist" day at the Plymouth-Riverside park. Scheduled for tomorrow are six picnics of different Baptist churches in and around Detroit.

The registration shows that the Grand River Baptist church plans to bring some 650 members to the park.

The Fernside Baptist church expects 200 to be present at the picnic it plans for Saturday.

The Coronado Baptist church will have about 100 at its picnic.

The Baptists Young People's Union of Detroit is planning for about 100 to be at the park Saturday.

The First Baptist church of Dearborn has registered for 100 picnickers and the North-western Baptist church at Detroit expects to bring some 150 out to its picnic.

Annual Alumni Banquet Tonight

The high school auditorium will tonight be the scene of the 55th annual Alumni banquet. Indications are according to Floyd Eke about 100 of the ticket committee that a good crowd will be on hand because of the large advance ticket sale.

An excellent program has been arranged and will be opened by the welcoming of the guests by Gilbert Brown. The response will be given by Katherine Schultz. Presentation of the graduating class will be made by Darold Cline. Music will be furnished by Hanna Strassen and Edwin Campbell. The address of the evening will be given by the Rev. J. Howard Nicholls and immediately after the program the alumni association will hold a brief business session.

The Ladies' Auxiliary of the Re-Servicemen's club will meet with Mrs. Harry Kuzak at her cottage at Base Lake Wednesday, June 26th. All members are requested to meet at the Goldstein store at 9:30.

Pity Poor Fido If Tax Isn't Paid

All 1935 dog licenses should be obtained at the City Clerk's office on or before July 1st, otherwise a penalty of 50 cents will be charged on each license.

The 1934 licenses were approximately 100 per cent collected, even though some owners did not secure their licenses until almost the end of the period. The penalty provision of the ordinance did not apply in 1934, but becomes effective July 1st, therefore no penalties were charged on the licenses which were obtained late in 1934.

The Police department will start a canvass of dog owners immediately after July 1st in order that all dogs will be promptly licensed, and it will not be necessary to drag the dog licensing along for the entire year as was the case in 1934.

During the months of July and August it will be necessary, according to the ordinance, for all dogs to be confined on their owners' premises or held on a leash. It is planned to enforce this provision of the ordinance during these two months say city officials.

Mr. and Mrs. William T. Pettigill and Mr. and Mrs. J. T. Chapman were Sunday night guests of Mr. and Mrs. Fred Lyke at Northville.

Wayne Vets Are Legion Guests

The members of Myron H. Beals Post No. 32, American Legion acted as hosts to the members of Wayne Post at Commander Melvin Guthrie's farm home on Thursday, June 13th.

Seventy-five hungry and thirsty men were on hand early in the morning to enjoy a steak breakfast over the open oven and all the trimmings that go with such a dish.

When this eating business had gone to the stage where none could proceed further and only grunts and groans, Commander Knott of Wayne and Guthrie of Plymouth chose soft ball teams from each Post and the grand old American game began with the commanders in the pitching box for their respective sides.

This red hot contest continued until dark with enough heavy hitting and brilliant fielding to keep the rosters on their toes continuously.

Under the light of a full moon the score keeper added up the runs and announced that Plymouth had won the game. It was an evening of good fellowship and pleasure to all present and we who attended will be looking for the next time to play under the same conditions. Such things make better friends and Legionaires.

GOOD LUCK AND GOD SPEED

Nearly one hundred bright and energetic young men and women graduated from the Plymouth high school this week. When they were presented with diplomas, it was an outstanding reward for work well done. Their parents and the taxpayers have done their part to give the young people the right kind of a start in life. From now on their future is to a very great extent in their own hands. We wish for them the greatest of success and happiness—but success and happiness can only come through diligent, hard and honest endeavor. They have already indicated that they have the ability to work and apply themselves and that they have the degree of honesty that is so essential these days. Each student has the best of wishes from an admiring community. May the future hold all that is good and beneficial for each high school graduate who has stepped forward into an entirely new environment, is the wish of the entire community.

CROOKS CONTROL

The statement made by Judge John S. McDonald, chairman of the Michigan Liquor Control commission, the other day that the liquor business is crooked and always will be and that the state liquor stores cannot hope to compete with the bootlegger, is not the kind of news one likes to read. But the Judge told the truth about a condition that prevails in Michigan. Further he declared that the average beer garden is a moral menace and that those that are allowed to continue in business should be controlled by municipal ordinance. In other words the liquor control commission chairman says that the state cannot successfully control the liquor business.

Thousands of good people throughout the country voted for prohibition repeal, believing that a "controlled" liquor business would be far better than the bootlegging and blind pig operations that flourished under prohibition. They were led in to this belief by public officials who said that prohibition could not be enforced, but that the legalized liquor business could be controlled and its evils to a very great extent eliminated. No less a person than President Franklin D. Roosevelt said this.

Now comes along the highest liquor official in Michigan with the admission that even the legalized business cannot be controlled and that the crooks are operating with almost a free hand.

OF LITTLE BENEFIT

Grover C. Dillman, director of the State Welfare Department, has just mailed out to the newspapers of the state, an analysis of the so-called old age pension law passed by the last session of the state legislature. His statement is being used in full so that those who have been led to believe that the state has enacted legislation that will be of real benefit to the aged may have their ideas set aright. There is little excuse for the enactment of such a bill as was passed. Practically only those who will administer the funds, that is the office holders, will gain anything by its enactment.

Mr. Dillman's statement follows:
 "The Law just passed by the Legislature and signed by Governor Fitzgerald to give relief to the aged residents of Michigan who are in need, is somewhat different from the Old Age Pension Law passed two years ago.

"The resources of many of the aged which represented savings for their care during old age, have been depleted due to the present financial depression which has also affected the employment of the aged so that many who heretofore have been able to maintain themselves by their own labor are now compelled to ask for public aid. So-called "Pension Laws" are not truly pensions as the word is generally considered, but are rather Old Age Assistance Laws to assist those who, due to age, are no longer able to care for themselves. This new Act, therefore, is called an Old Age Assistance Law. Relief under this Act is not given as something to which a person is entitled merely because of age, but is a form of public aid to be paid from the General Fund of the State in order that those who are eligible may continue to live in their present surroundings rather than to be placed in public institutions.

"This Act does not become effective until July 1, 1935, which date, new assistance certificates will be issued as promptly as possible to those who qualify. Many persons, misunderstanding the intention of the previous Old Age Pension Law, have filed applications although they are not entitled to relief. All applications must be investigated, which of course, takes time, and therefore, all who are eligible cannot expect to receive aid immediately. Those who have filed applications under the previous law need not re-apply unless requested to do so by the Old Age Assistance Bureau. Applicants are requested not to write regarding their applications, as the handling of this additional correspondence merely slows up the process of issuing any assistance grants.

"Those eligible for assistance under this Act must meet with the following requirements:

1. Must have attained the age of seventy years or upward: (after January first 1940, this age limit will be reduced to sixty-five years).
2. Must be a citizen of the United States;
3. Must be a resident of the State of Michigan for ten years immediately preceding date of application.

"In addition to these qualifications, the applicant must, above all, be in need and have no child or other person responsible under the laws of the State who is able to support him.

"Any person having an income of \$30 per month, or real estate which together with that of husband or wife is valued at \$3,500; or whose personal property is valued at \$1,000 or more, is ineligible for assistance under this Act.

"The maximum amount which can be allowed is \$30 per month. This does not mean that a person who is eligible is entitled to, or will, receive \$30 per month, as the amount of relief which is given will depend upon the individual and the conditions found in each case.

"Arrangements will be made to assist applicants in making out the necessary application blank, and it is not necessary that they employ an attorney or any other person to assist them in receiving this aid.

The Director of the State Welfare Department is in charge of the administration of this Law; applications for assistance should be filed with the County Welfare Agent of the county in which the applicant lives. At the present time approximately 5,000 people are receiving assistance under the Pension Law. It is estimated that 20,000 are eligible to receive aid under the new Old Age Assistance Law.

MISLEADING INFORMATION

Congressman Prentice Brown of St. Ignace, according to newspaper dispatches from Washington, stated before the Board of Review of the Public Works Administration, that there are many people who now refuse to use the state operated ferries between Mackinaw City and St. Ignace "because of wind conditions making the trip a rocky one." We challenge the honesty of any such statement. Congressman Brown lives in the vicinity of the state owned ferry and he knows that what he told the Board of Review in Washington is NOT true. The congressman knows that the only reason the ferries are not operated in the winter time is because of ice conditions. He knows that when the state owned ferries are not in operation that there is a powerful railroad ferry operating that the public can use.

He knows that there has never been the loss of a life or a mishap of any kind during the many years that the state has operated the ferry across the straits.

He knows too that the ferries are not operated late in the fall and early spring because of lack of travel across the straits. He knows that the severest of storms sweep that part of the state in November—and each year in November the state highway department places the ferries back in operation for the accommodation of deer hunters who desire to go to the Upper Peninsula to hunt—and never once has there ever been an accident during these November storms.

The Congressman also knows that it would be the height of folly to squander money for such a purpose. The only interest that exists in this wild scheme is that which has been created by those who hope to profit directly from it, either through jobs, contracts or personal gain in some other way. Even the people of Northern Michigan regard the scheme as a crazy one. These are the facts that Congressman Brown should give the Board.

Rambling Around With Michigan Editors

JUST ABOUT RIGHT

If the American people have so far lost their intelligence, initiative, courage and ambition that they cannot longer follow in the footsteps of their self-reliant forefathers, then we can look for national control from college professors, politicians, professional job-seekers and the rest of the special interest crowd which always attach themselves to the party in power.—Schuyler Marshall in The Clinton County Republican-News.

PUT BACK ON THE RIGHT TRACK

All of this noise and fury about how the Supreme Court's decision on the NIRA has "set the country back" to such and such a date is entirely foreign to the matters at issue. To say that the decision turned the Nation back to the "horse and buggy era" falls short, for the simple reason that the decision went much further back than that. It went right back to the Constitution.—William Klamser in The Dearborn Press.

SAYING A GOOD WORD

The Michigan Bell Telephone company is deserving of praise in carrying out its present newspaper advertising campaign designed to sell Michigan's recreational advantages to Michigan people. The campaign directly benefits every Michigan business man in anyway connected with the resort and tourist industry and that means just about all of us.—Vernon J. Brown in The Ingham County News.

SAFE, ANYWAY.

President Roosevelt says the Supreme Court's decision on the NRA places us back in the "horse and buggy days." He used a very fortunate simile, for if our memory serves us right there were a lot less people killed and maimed by riding in a buggy behind old Dobbin than there are these days riding in high powered autos or in airplanes. In other words the horse and buggy days were safer, and we are all safer now because of the high Court's decision.—William Berkey in The Cassopolis Vigilant.

CRAZY IDEAS

What's the name of the legislator whose bid for eternal fame says in his fathering a bill—recently made a law here in fair Michigan—requiring that school houses be painted, red, white and blue? Can you imagine any more useless legislation than that? What next, what next?—James Haskins in The Howard City Record.

GLORIFYING THE BATTLEFIELD

For generations we in this and other so-called Christian nations have viewed with horror the attitude of the Turk, the Arab, and other war-loving people, because they consider death on the battlefield as the Open Sesame to Heaven. From earliest impressionable youth, we are taught that such terrible people are the epitome of all that is barbaric and uncivilized.

From the perspective of real civilization, it is right and fitting that we should be so taught.

However, since ours and other so-called civilized nations have from time to time engaged in wars; since we have not yet recovered from the terrible human and economic catastrophes that resulted from the World War—since our school grounds and public parks are resting places for monuments and gun carriages, can we be far removed from the barbarism and lack of civility that characterize the Moslem nations?

No, we so-called "civilized" countries may continue to feel sorry and sad about the Turk and the Arab, but we should not forget that we, too, have periodic tendencies to glorify death on the battlefield.—George Averill in The Birmingham Eclectic.

Tremendous Trifles

By ELMO SCOTT WATSON STARS AND STRIPES FOREVER IN NAPLES, ITALY, in 1896, John Philip Sousa read a three-day-old copy of the Paris edition of the New York Herald. In it was a brief dispatch saying that David Blakely, manager of Sousa's famous band, had dropped dead. Hastily changing his plans, Sousa took the first ship to America. As he paced the deck of the S. S. Teutonic, saddened by the news of Blakely's death, an uncanny thing happened. Sousa became aware of the rhythmic beat of a playing band—just an imaginary band that was making music in his mind. Throughout the voyage across the Atlantic, that invisible band kept on playing, playing, and it always played the same tune! He tried to think of other things but the theme of the melody echoed and re-echoed in the back of his brain. Psychologists today might claim that this was "compensation" . . . the reaction of a creative mind after a severe shock. But whatever the reason for it, Sousa made no attempt to set the tune on paper while he was aboard the steamer. When he reached New York and found that mystical band still playing on and on, he could resist it no longer. He sat down and in a few minutes had recorded the all-too-familiar measures of that composition. "The March King" himself has testified that not a note of that tune has been changed from that day to this. It was the "Stars and Stripes Forever," most beloved of all Sousa's compositions.

WEST PLYMOUTH

Betsy Ross was in St. Joseph hospital, Ann Arbor, Monday and Tuesday of this week for a tonsil and adenoid operation. Mr. and Mrs. Harry Grandson of Stanford, Mich with their two children, Donnie, and Edna were guests of Mrs. Grandson's parents, Mr. and Mrs. Wm. Spangler on Ridge Road for two days this week. Mrs. Brown, from Toledo, Mrs. Spangler's mother was also a guest. Mrs. H. C. Root, Mrs. Frank Truesdell, and Mrs. Carl Lewis attended the Class Day exercises in Dearborn last week. Miss Iva Lewis, a niece of Mrs. Truesdell, and Mrs. Lewis, was not only honored by being the Salutatorian for her class, but was accorded the further honor of being selected as the outstanding pupil in leadership, social and otherwise, of the class, and her name was placed on the loving cup. H. C. Root accompanied by his father-in-law Frank Truesdell made a business trip for the Swisher Company to Muskegon, Monday and Tuesday. Miss Elizabeth Wilson of Ann

Arbor is spending the week with her grandparents Mr. and Mrs. George Richwine. Mr. and Mrs. Max VanEtta with their two children of Detroit spent Sunday at the home of the latter's sister, Mrs. Orin Rigley.

A couple of hand springs and a jig quickly dispelled doubts of officials that Charles P. Daskam, 84, was too old to work on the Grand Coulee Dam site, a PWA project in the state of Washington. Daskam was assigned a job. The courts in Wayne County are three in type. There is the Common Pleas courts, which are commonly called the "poor man's courts." Here are tried small cases where the sum involved is not large. The Probate courts specialize in the probate of wills and estates and like cases. They also have charge of juvenile questions and supervise most of the social problems of the county inhabitants. The Circuit courts handle criminal and civil cases where the amount involved is large. They also act as a court of appeals to the Common Pleas court.

On and Off The Record

The gentleman had a high forehead covered in collegiate fashion with the latest snap brim. He approached me in the second floor corridor of the county building, and he had a condescending manner. "Where's the court," he asked. "What court do you mean? There are probate, common pleas, and circuit courts in this building," I replied. "He was sorry, but he didn't know that, and would I know which it would be if it concerned a will case. I explained that it would be one of the probate courts, and asked if he knew the judge's name. He couldn't remember types of courts, but even sillier that there should be more than one judge. I sent him to the assignment clerk's office on the third floor, where I told him, he might find what judge was handling his case. It was sometime afterwards before I could convince myself that he hadn't been kidding me. Here was an apparently well-educated man who thought and acted as if he knew all there was to

know in the world, and yet he was entirely ignorant of our court system. Later I learned from one of the guards that numerous people questioned him daily with the same query, and that this was not an exceptional case.

Smith, assistant prosecutor, Harold E. Stoll, Register of Deeds, started to solicit all registration of chattel mortgage in the county. The new law recently signed by the Governor makes this mandatory after September 21st, but to save double filing fees, Stoll has issued a request through legal channels to begin immediately. In the past, chattels were filed with the city clerk. If anyone wanted to make sure there wasn't a mortgage on a piece of property or a car, he had to check in eleven different places in the county. This new law asks that all city clerks turn these chattels over to the county Register of Deeds on September 21st, so that there will be but one place to check. Sweetman Smith has ruled that under the old law it was option-

These courts form one of the most important clogs in our civilized world. They imprint the most definite line between the days of the cave man and the modern era. They supervise law and order. They set up and guard a regular code of morals, ethics, and law which prevent society from killing itself, and prevent it from falling away into a loose unorganized life. Realizing the importance of the courts we can congratulate ourselves on buying a lot for our money when we spend nine cents of each tax dollar toward its support. Nine cents of all our tax dollars combined mean an annual cost of over a million dollars.

A case has just been filed in Probate Court, in which the plaintiff wishes to remove his brother as administrator of the family estate. He complains that his brother is a drunkard, is vicious of temperament, and has squandered funds from the estate, and has been guilty of actually stealing money on several counts. Regardless of whether this statement is true or not, we are immediately struck with the thought of uncivilization which still exists. This is the story of Cain and Abel over again. A personification of brotherly love. Our courts are necessary to keep this type in line and prevent savage instincts from bursting forth. After a ruling by Sweetman

al whether they be filed with the Register or the Clerk, and has said that Stoll would be wise to start immediate steps to have everyone file with him now. This will save time and trouble when the new law takes effect. In the past many cars were financed twice without either finance parties knowing that they had given out a mortgage on a car that was already mortgaged. Some sales companies, that used the floor plan, would go to a finance company and get enough money to buy a group of automobiles and would immediately ask another company to finance them. The car would then be mortgaged for twice the car's worth. This will be stopped under the new act.

4 DIFFERENT SIZES IN... "DUTCH OVEN SUSAN" The Electric Cook Here is DUTCH OVEN SUSAN in half-a-dozen different sizes . . . one to fit your needs exactly. The 6-quart size will roast a 10-pound ham, a 6-pound chicken, or a large leg of lamb. The 12-quart size will easily accommodate a 15½-pound turkey. And if you wish something with a smaller capacity, "Small Sister" Susan is the answer. Small Sister Susan is an electric casserole, and in 2, 3, or 4-quart amounts, will prepare all casserole dishes such as waterless pot roast, Boston baked beans, fried chicken, baked potatoes, etc., to melting perfection. Dutch Oven Susan is easy to use. You simply plug it into any convenience outlet, and it will do every cooking operation possible on a small stove. It will roast all cuts of meat; it will fry eggs, steaks, chops, etc.; it will bake cakes, pies, cookies, biscuits and muffins; and it will hold half-a-dozen pint jars when canning by the cold pack, hot water bath method. Yet it uses only about as much electricity per hour as an electric toaster, and it is so compact that it can be tucked away in a corner almost anywhere. Dutch Oven Susan cooks a complete meal for a family of six—two vegetables, a roast, potatoes and gravy—and it permits you to go out for the afternoon while the meal is cooking. See this modern appliance on display at all Detroit Edison offices, Department Stores, and Electrical Dealers.

THE SALUTARY and VALEDICTORY ADDRESSES OF GRADUATING CLASS

The Salutary The Salutary address delivered by Miss Miriam Brown of the Plymouth high school graduating class at the commencement exercises on Thursday evening follows in full:

"LABOR IS LIFE" Classmates, friends: In representing my class tonight I wish to greet you with a most sincere welcome at our commencement exercises. Your presence here to witness one of the most important events of our lives is proof of your interest in us and our activities. We deeply appreciate this kind recognition.

Thomas Carlyle, the noted philosopher, said, "Labor is life." That is the basis of my present thought. For which I ask your most careful consideration. Our departure from this institution at this time does not signify that we have terminated our work but rather that we are about to invade new fields of labor, fields which will provide for material necessities as well as help promote some widely recognized enterprises. A life of ease and enjoyment can not bring us the gratification and complacency that we can hope to find in the activity of labor. It is a well known fact that any labor which supplies man's wants is honest, and therefore honorable.

Now, let us consider some of the numerous achievements of labor: Labor plows the fields to produce the food which we eat. It is responsible for the construction of the huge sky-scrapers and expansive bridges we have today. Everywhere we look we discover products which labor fabricates. Labor mines so that we may have fuel and metal for daily employ. It explores distant places to acquaint us with the world in which we live. Labor makes possible transportation via land, sea and air to supply us with the comforts and requirements of life. It erects mammoth dams to convey electricity, not only for use in large factories but for conveniences in our homes. Labor promotes the melliorism of the world through science and invention. Likewise, in the home labor plays an important part to make them the comfortable and attractive places that they are. As Samuel Smiles, the Scotch writer, so appropriately expressed it, "It is not Luck, but Labor that makes men. Luck is ever waiting for something to turn up; Labor, with keen eye and strong will, always turns up

something. Luck lies in bed and wishes the postman would bring him news of a legacy: Labor turns out at six, and with busy pen and ringing hammer lays the foundation of a competence. Luck waits; Labor works. Luck relies on chance; Labor on character. Luck slips downward to self-indulgence; Labor strives upward, and aspires to independence."

How truly this was exemplified in the life of the prominent historian, William H. Prescott. You recall how one day during his junior year as he was leaving the college dining room he was struck by a piece of hard bread which destroyed the sight of one eye. Upon his return to school sometime later, he determined to overcome this handicap by hard work and perseverance. Very soon his other eye became inflamed, thus compelling him to remain in a dark room for weeks at a time and eventually give up his chosen profession of law. He was twenty-five years old, then, with practically no knowledge of modern languages, yet he chose as his life's work—history. Through habit and training of his memory and his unflinching effort he finally dictated "The Conquest of Mexico," "The Conquest of Peru," "The History of Ferdinand and Isabella," and several other reference books which are used in our schools today.

Hence, you see, it is through labor that we develop the characteristics most essential to success: accuracy, perseverance, courage, determination, patience, alertness, and skill. Though each of these qualities may seem in itself insignificant, let me again quote Samuel Smiles: "Neglect of small things is the rock on which the great majority of the human race have split. Human life consists of a succession of small events, each of which is comparatively unimportant and yet the happiness and success of every man depend upon the manner in which these small events are dealt with."

And now, classmates, in parting, may I leave you with this thought of assurance and personal responsibility so aptly stated in Edwin Markham's poem, "The Day and the Work."

"To each man is given a day and the work for the day. And once, and no more, he is given to travel this way. And woe if he flies from the task, whatever the odds; For the task is appointed to him on the scroll of the gods.

There is waiting a work where only your hands can avail; And so if you falter, a chord in the music will fail. We may laugh to the sky, we may lie for an hour in the sun; But we dare not hence till the labor appointed is done.

To each man is given a marble to carve for the wall. A stone that is needed to heighten the beauty of all. And only his soul has the magic to give it a grace. And only his hands have the cunning to put it in place.

Yes, the task that is given each man no other can do. So your work is awaiting; it has waited through ages for you. And now you appear; and the Hushed Ones are turning their Gaze

To see what you do with your chance in the chamber days.

The Valedictory To Miss Doris Fishlock, member of the Plymouth high school graduating class, went the honor of making the Valedictory address. It follows in full:

Vale dico, or in other words, farewell, is the thought uppermost in our minds as we, the Class of '35 stand at the entrance of a new life. Because we have assembled here this Commencement night for the last time as a high school group, we wish to thank sincerely the sponsors of our education and to assure them that we will continue in our educational pursuits. We deeply appreciate the fact that the Board of Education has made it possible for us to enjoy the advantages of the larger schools. We owe a great deal of gratitude to the faculty who have been so patient with us. Moreover, to our parents we are indebted because they have helped us with the little things that were too much trouble for any one else. It was largely through the work of these three groups that the foundation for our first steps was made. To prove ourselves worthy of those cares and efforts now becomes our objective.

We are beginning to realize that we are not to be judged by

what we have done, but what we shall do in the future. The fact that we have finished high school does not permit us to drift, but rather, it should awaken us to the problems that await our solution. The recent discarding of the NRA makes necessary a new set of business ethics. Serious thought and fair play in the voting booths would help to eliminate bribery and corruptness in government. Not only are we faced with economic and political responsibilities, but the very state which grants us our diplomas tonight has its social problems. For instance, 2000 boy and girl vagrants, who once called Michigan their home, are now roaming across the continent. If we are to utilize our education, we shall work to solve these problems.

Not only to society but to ourselves we have an obligation. For each must decide which line of endeavor he is to follow. Each must struggle with the forces working against him and reach out for a goal even though the reach might exceed the grasp. We may be compared to a nest of young robins. For twelve years we have been diligently fed, cared for, encouraged, and yes, even chirped to. But it is now time to try our wings—to fly or to fall—to leave the protecting care of our guardians. If our preparation has made us strong, we shall flutter to the ground. For: "To every man there openeth

many ways: A way and ways and a Way. The high soul climbs the high way. And the low soul gropes the low, And in between on the misty flats The rest drift to and fro. But to every man there openeth many ways.

A high way and a low; And every man divideth the way His soul shall go."

Some of us may drift between success and failure doing nothing very good and nothing particularly bad. But regardless of the way we choose, be it the high, the middle, or the low—the teacher, the musician, the social worker, the doctor, the lawyer, or the factory worker we shall encounter obstacles. Those of us who strive to climb the high way will strengthen our characters, for it is the buffeting of the winds encountered there that molds us into leaders. President Roosevelt counteracted his physical deficiency by cultivating a magnetic personality and a keen mind. Beethoven utilized his deafness to concentrate on the production of some of the most beautiful songs the world has ever heard. Edison, Jane Adams, Steinmetz are other famous benefactors who refused to be dominated by the winds of fate. Like them, we must "Welcome each rebuff" for each sting urges us not to falter but to carry on. And so it is evident that we will need emotional stability and the ability to evaluate

as well as academic accomplishment if we are to use defeat as a stepping stone to victory. Graduation! We are leaving the old for the new. We are now ready to go through the arch where through gleams that untraveled and inexperienced world. That arch never closes. Instead, the farther we advance the wider it grows until our perceptions have expanded in proportion to our advancement.

However, we are confident that this period of preparation and development has enabled us to take this step courageously, and unafraid. As graduates, we accept the challenge of the future as did those brave mariners of the great Ulysses, who, united in thought and purpose, faced the beginning of a new voyage with: "That which we are, we are; One equal temper of heroic hearts

Made weak by time and fate but strong in will To strive, to seek, to find, but not to yield."

And so the Class of 1935 bids you farewell. In departing however we wish to remind you that our motto shall ever be—"To strive, to seek, to find, but not to yield."

Dust Off the Fish Pole, Dig the Angle Worms, Fishing Season Opens Tuesday

Several Hundred Isaac Walton Fans Waiting Anxiously For Sunrise Tuesday Morning.

When the sun breaks over the eastern horizon early Tuesday morning, Plymouth fishermen to the number of several hundred will be found along the lakes and rivers of this part of the state trying their luck for scrappy black bass, blue gills and pike.

The annual fishing season in Michigan for all kinds of fish opens Tuesday, June 25. But there is one thing you should not forget—and that is your fishing license. And another thing you should not do—take any of the blue gills out of Phoenix or Newburg lakes that are not of legal size. Already several have been arrested and taken before the justice of the peace in Northville for catching undersized blue gills as well as taking them out of season. The fishing license must be procured by everyone who fishes. It costs but 50 cents and the additional license which you can secure to permit your wife to fish, costs nothing.

Since the first of the year approximately 500 persons have been taken into custody by conservation officers and justice courts assessed fines and costs that amounted to many times more than the cost of a 50-cent residential fishing license. Failure to purchase a license might easily spoil a fishing trip.

Opening of bass, sunfish and bluegill fishing season Tuesday means that more than 5,000 inland lakes of the state will be accessible again to the anglers instead of the 300 designated pike and trout lakes to which they have been restricted since May 1 for their spring lake fishing.

Every species of fresh-water fish in the inland waters—except grayling and sturgeon which are

protected the year around—may legally be taken. These include brook brown and rainbow trout, landlocked salmon, great northern grass pike or pickerel, wall-eyed pike, yellow perch, rock, calico and strawberry bass, crappies, muskellunge and non-game species in addition to black bass, warmouth, bass, bluegills, sunfish and white bass on which the ban goes up next Tuesday.

The open seasons on the species of which become legal game for the angles Tuesday are as follows:

Black bass, large and small-mouth, June 25 to Dec. 31.
Bluegills, June 25 to April 30.
Sunfish, June 25 to April 30.
Warmouth Bass, June 25 to April 30.

Except for the recent act of the legislature placing white bass on the list of fish which may be taken the year-around in designated pike lakes, there are no changes in the general fishing regulations. Size and creel limits remain the same as last year.

The minimum-size limit on large and small-mouth black bass is 10 inches, on bluegills and sunfish, six inches, but there is no size limit on warmouth bass. No more than five large or small-mouth black bass can be taken in one day and no more than 25 each of bluegills, sunfish and warmouth bass or 25 of a combination of these species may be caught legally in one day.

A resident fishing license costing 50 cents is required of all Michigan fishermen over 18 years of age, but a man and wife, who are residents of the state may fish under one license, the license identification for the wife being issued without additional charge.

The non-resident annual fishing license fee is \$2 and required of all non-residents over 18 years of age for fishing in the inland waters. The wife of a non-resident fisherman may obtain a similar license for 50 cents.

In addition to the annual non-resident license there is available to non-residents at reduced charge a special 10-day license at a fee of \$1, the wife being able to obtain a similar license for 50 cents. The special 10-day license is distributed especially for accommodation of transient fishermen who visit Michigan from other states.

SALEM FEDERATED CHURCH

June 23, 10:30 o'clock "A Dangerous Conference" will be the subject of a heart-searching message.

Bible school, 11:45 a.m. Curtis Hamilton, superintendent. "Christian Missions," Acts 1: 6-9. Acts 13: 1-12 Memory verse: "Go ye into all the world and preach the gospel to every creature." Mark 16: 15.

Mid-week prayer meeting is held at 7:30 o'clock every Wednesday evening in the church parlor.

Does your baby have curly hair? Are his eyes bright blue or very dark brown? Perhaps he is remarkable in many ways, so enter him in the baby show to be held in the Federated church at the all-day celebration to be held in Salem on the Fourth of July. The baby show will begin at 2 o'clock and there will be doctors and nurses in charge. Ask Mrs. Myrland Lyke or Mrs. Cyril Spike for details. All babies under three years of age are eligible and the entry fee is twenty-five cents.

If David Shackelford, teacher in a rural school near Hutchinson, Kan., should call out "Jones" at the beginning of the day, a majority of his pupils would answer "here," of the 17 children in the school, 12 are named Jones. They are from four different Jones families.

Beauty—Under the Stars

RUTH DENNEN, winner of the Chicago Tribune vocal contest a short while ago, is one of the promising young stars appearing in Opera Under The Stars productions this summer at Navin Field, Detroit. She is to be seen in the current production of "Rose Marie," starring Myrtle Schaaf of the Metropolitan Opera and Bartlett Simmonds. Starting Saturday, June 22, she will appear in "My Maryland." Each of the musical shows is presented nightly for a week.

The colorful romance of "Rose Marie," being presented this current week by "Opera Under the Stars" at Navin Field, will be followed by that great American operetta "My Maryland," which will open its week's engagement next Saturday, June 22. Romberg is responsible for the lovely melodies and stirring songs that have made this production one of the most popular "My Maryland" ranks along with "Blossom Time" and "Student Prince" as Romberg's greatest creations.

Helen Ford and Leonard Ceely, who played the romantic leads in "The Student Prince" will again be seen together in this story of Civil War days. The story is based on the incident of Barbara Freitchie who waved the Union flag in the faces of the Confederate troops who marched through her town in Maryland. Miss Ford will be seen in the role of Barbara Freitchie, while Mr. Ceely will play the part of Jack Negley, Nancy Welford, a newcomer and star of both the English and American stage, will play the role of Sue Royce. Laura Royce will be played by Mary Rix, who has appeared in this part in both New York and Boston productions. Other favorites in the cast include Bartlett Simmonds, Hope Emerson, Robert Betts, Joseph Lertora, Jack Good, Ruth Dennen and Betty Davis.

The music in "My Maryland" is composed by many critics to be the best of Romberg's work. The score which approaches the stature of grand opera contains numerous themes from old American songs among which are "Dixie," "Maryland," "My Maryland" and "The Battle Hymn of the Republic." Possibly the better known of the songs are "Your Land and My Land," "Silver Moon," "The Mocking Bird" and "Something Old, Something New."

One of the most thrilling scenes ever offered on the musical stage is in "My Maryland" when the huge male chorus, representing a company of Yankee troops, swing across the stage on their way to battle, singing "Your Land and My Land" a song which has stirred thousands to patriotic fervor.

The union troops have been quartered upon the little town of Frederick, Maryland, where the men in blue are shunned by the women whose sons and fathers, brothers, husbands and lovers are at the front with troops which wear the Gray. Motherless Barbara Freitchie is the sweetest of Frederick's Belles, but has lost her heart to the Union officer, Captain Trumbull. She has been ostracized by her girlish companions. Her stern father scorns the Yankee officer when Captain Trumbull manfully asks for Barbara's hand. They plan to elope to the Hagerstown manse to be married next morning.

But before the lovers can meet at the manse, Captain Trumbull is called to lead his troops in an effort to halt the Confederate advance through Hagerstown. Barbara arrives for the wedding and finds the Union forces retreating. Two renegade Yankees, who have deserted Captain Trumbull's company, partly in hope of loot, partly because he disciplines them severely when they were captured looting, appear at the manse to serve as snipers, seeking to kill Trumbull as he rides through the town. Barbara's woman's wit comes to play and she seeks to get them intoxicated. But in the end she is compelled

Business Good Out In Far West

Attorney John Crandall of Plymouth and Attorney Fred Cochran of Northville have just returned from Boise, Idaho, where they have been on legal business for the past two weeks.

Mr. Crandall states that in that section of the Rocky Mountain country they have not known what the depression has meant. "They have paid no attention to it for these crazy new deal ideas and they have gone right along working and tending to business. As a result business has been and is good there. They said they hadn't even felt the depression," said Mr. Crandall.

Strawberry Crop To Be Record One

If it ever stops raining, this part of Michigan will enjoy the largest strawberry crop in many years say those who have saved their patches.

Weather conditions have been ideal for the berry crop. No late frosts nipped the blossoms and there has been a great sufficiency of rain—in fact just a bit too much.

But growers say that if the sun will shine for a while now there will be an abundance of berries.

Plymouth grown berries that have already reached the local

stores are far better than any of the shipped-in varieties even though there has been almost too much rain for good berries. The next ten days will see the crop at its height in this locality.

Senators Told Of Break Down Of Welfare Scheme

(Continued from page one)

and so are the two children of Mrs. Davis (apparently Mrs. Rotz refers to Mrs. Harold Davis of Lansing).

All through the night you can hear children and adults coughing. There are several bad cases of bronchitis.

"There is only one doctor and one nurse to work among 2,000 of us. The doctor says other medical people did not come because of the low pay. He came here originally to work in CCC camps.

"There are no medical supplies in the commissary. Therefore, families are unable to help themselves.

Mrs. Rotz told of a feud within the colony between Michigan and Wisconsin settlers on one side and families from Minnesota on the other.

"Due to poor management, the Minnesota people get supplies and materials sent here for Michigan and Wisconsin families," she continued. "We hear rumors of changes to be made in management.

"We cannot get lard. Instead, we are able to purchase only a vegetable substitute. Meat is kept in a very unsanitary condition in one big box. All meat and fish are piled into this box with a piece of ice. There is no ventilation and one kind of meat or fish taints another.

"The man in charge of food supplies, however, is being recalled and we expect improved conditions."

Regarding the commissary, Mrs. Rotz said in her letter:

"Complaints and proof have been shown that where one person was charged \$1.50 for a dishpan, others were given the same article for \$1. The same applies to canned goods. So there is a row.

"There is a great kick about wages. Colonists receive 50 cents an hour, regardless of occupation. Workers like carpenters and machinists brought here to help out get \$1.25 and \$1.50 an hour.

"The colonists are not paid in cash, but must trade it out or apply it on our \$3,200 debt for 40 acres and farm equipment. We had been told we would not start paying this debt for three years.

"Lack of funds for many of the necessary things of life works a hardship, particularly among the expectant mothers. The latter have asked permission to return to Anchorage, where there is a government hospital. Their husbands will be required to work out the bill.

"Several agitators go around making things look worse than they are. There are Communists even here. Most of the men in charge are working their heads off to straighten things out. The trouble has been mismanagement.

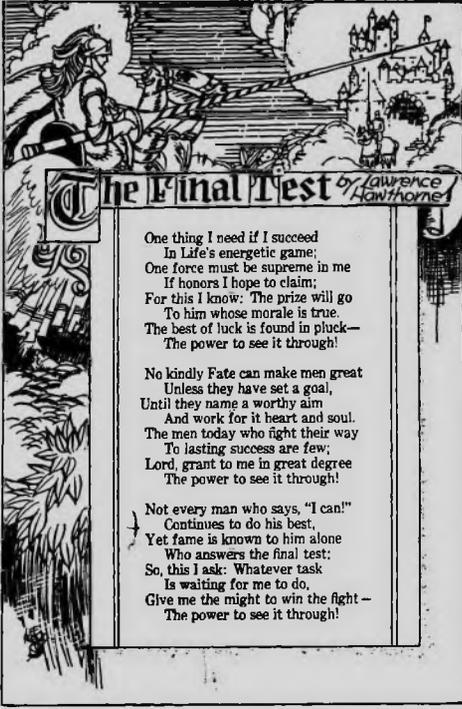

"Cows and horses and farm machinery are fine. We will receive these supplies when the homes are built.

"It's a bigger undertaking than originally thought and, due to some conditions, it may cost precious lives and heartbreak. We believe the government is trying to do everything possible, but there have been so many blunders.

"The buildings are better than we expected but most of the work remains for the future as there is no cleared land as we had supposed. Also the families have not been helped with their groceries until they become self-sustaining. Everything is charged up.

"These are not my personal opinions. I have described conditions as they exist.

"Pray for us, dear folks at home. We need the mighty hand of God in this undertaking, and the united prayer of people everywhere."

One thing I need if I succeed
In Life's energetic game;
One force must be supreme in me
If honors I hope to claim;
For this I know: The prize will go
To him whose morale is true.
The best of luck is found in pluck—
The power to see it through!

No kindly Fate can make men great
Unless they have set a goal,
Until they name a worthy aim
And work for it heart and soul.
The men today who fight their way
To lasting success are few;
Lord, grant to me in great degree
The power to see it through!

Not every man who says, "I can!"
Continues to do his best,
Yet fame is known to him alone
Who answers the final test:
So, this I ask: Whatever task
Is waiting for me to do,
Give me the might to win the fight—
The power to see it through!

Plan Extension Of Rouge Park To Detroit Limits

(Continued from page one)

outh, to the Village of Newburg southeast of Plymouth.

Since that time the funds made available by the Board of Supervisors have been supplemented by Federal funds through CWA and FERA to an extent which has permitted a fairly complete development of this section of parkway. Today the citizens of Wayne County are evidencing their approval of and the need for the improvement by the rapid increase in their use of this facility.

With three artificial lakes, a winding river, four comfort stations, playground facilities, tennis courts, baseball diamonds, wading facilities, camp stoves, tables, benches, and other appropriate features and its beautiful, wooded areas, the parkway is already attracting considerable crowds on week-ends and holidays throughout the summer. Skating and winter sports have drawn unexpectedly large crowds to enjoy the outdoor recreations available in the parkway in the cold weather.

It has always been our feeling that provisions should be made in our budget from time to time for the extension of the parkway, but, because of conditions which prevailed since the initial appropriation four years ago, we have not recommended any other appropriations for that purpose during that period.

However, at this time we wish to call your attention to certain facts which make it advisable that an appropriation be included in the coming budget for the extension of this parkway from its present terminus at Newburg Road following the Middle Branch of the Rouge River or easterly and southerly to Ford Road at the City Limits of Dearborn and to follow the main branch of the Rouge River from Ford Road northerly one mile to connect with River Rouge park of the City of Detroit.

This proposed extension includes approximately nine miles along the Middle Branch of the Rouge River and one mile along the main branch of the Rouge River. Among the facts prompting this recommendation are the following:

1. The present developed section is rapidly being found by the people, and its popularity bids fair to tax its facilities long before additional areas can be developed.

2. No further time should be lost in acquiring the right-of-way for its extension, not only because the cost of the land will undoubtedly be lower now than at any time we can foresee in the future, but also because we are convinced that as soon as the extension is assured dedications will be made, without cost, of certain tracts of land to be included in the extension.

ture, but also because we are convinced that as soon as the extension is assured dedications will be made, without cost, of certain tracts of land to be included in the extension.

3. The important thing at this time is to secure the land before our present improvement builds up values against us—the actual development can proceed at a pace commensurate with the needs and the funds available.

4. As compared with other metropolitan districts, Wayne County and its 11 cities are lacking in park areas. The land for parks, for which experience indicates a present and future need, should be acquired at the earliest opportunity to avoid later excessive or even prohibitive costs.

At the present time the Board of County Park Trustees, through gifts and purchases, (approximately half having been given without cost to the County) has acquired 1,082 acres of park and parkway in the following locations:

Elizabeth Park at Trenton, 162 acres; Huron River Park near New Boston, 16; Phoenix Park at Plymouth 4; Cass Park near Northville, 16; Victory Park at Belleville, 3; Plymouth-Riverside Park at Plymouth, 58; Lola Valley Park near Brightmoor, 58; Rouge Parkway, 775.

All of these parks are being used at a rapidly increasing rate, and some of them are taxed to the utmost by holiday crowds.

In addition the City of Detroit and other cities of the County have park areas totaling about 3,700 acres, which includes Belle Isle and Rouge Park.

Thus, the total area now available in Wayne County for park purposes is about 4,800 acres, which is about one acre to 400 people. It is generally estimated and conceded that metropolitan districts will ultimately need and should provide about one acre of park land for each 100 persons. In many other similar districts, including Cook County, Illinois, (Chicago) and the metropolitan district of Cleveland, the acreage of park land available does approximate one acre to each 100 persons.

The extension of the Rouge Parkway, which is here proposed, will add approximately 900 acres to the park lands of Wayne County and will in general include all of the low lying land along the river and extend up to the top of the slope. Such land is of no great value for any other than park purposes, but, if it be not acquired for that purpose, the acres involved will gradually degenerate into unsightly dumps for all manner of refuse.

Mrs. Emerson Ruttan and little daughter, Barbara spent last week visiting her mother, Mrs. Robert Needham, at Corunna, Ontario. Mr. Ruttan spent Sunday with them and they returned home with him.

Charles Gray and daughter, Dona, of Detroit were guests of his brother, Ivan Gray and family Tuesday and attended the "Class Day" exercises of the Plymouth high school. His niece, Florence Gray is a member of the class.

Among those who received the degree of Bachelor of Arts at Olivet College's seventy-fifth commencement Sunday, June 16, was Charles O. Ball, Jr., who graduated from the Plymouth high school in the class of 1931. Charles was captain of the Olivet golf team this year, which won second place in the Michigan inter-collegiate association contests, each member of the team receiving a silver medal. The Olivet College Echo made these comments on Charles' playing: "Chuck has one characteristic that rates him as a good golfer. He is consistent, and consistently good, once he reaches his peak he clings to it with bulldog tenacity, varying little from par." Charles was always active in basketball and tennis, the College Athletic association awarding him a handsome blanket for his participation in these sports.

Nowicki Tells How To Have Sewer Covered

(Continued from page one)

thereof shall be punished by a fine of not to exceed fifty dollars or by imprisonment in the county jail not to exceed ninety days, or by both such fine and imprisonment in the discretion of the court, and the office of such commissioner shall be deemed vacant and the commissioner convicted shall be incapable of again holding the office of County Drain Commissioner: Provided, however, The commissioner may secure signatures to a petition for any drain within the county by simple written consent of the filer of a petition in accordance with the Michigan Drain Laws, this office then will be in a position to act on the petition and you may rest assured that the residents of the City of Plymouth will receive every co-operation.

I might also call your attention to the possibility of submitting such a project as the proposed Tonquish Creek enclosure in a number of different ways. Under present PWA regulations it is my understanding that it is possible to receive a grant from the Federal Government equal to 45 per cent of the cost of material and labor involved. The balance of the cost, or 55 per cent of the cost of material and labor plus indirect overhead would have to be secured by an approved type of security, which under the old PWA regulations usually was understood to be a faith and credit bond.

The project also might be considered as one eligible for consideration by the FERA. It is my opinion that such an application could be submitted directly by this office, without running contrary to the provision of Act 313 restraining a Drain Commissioner from directly promoting a project. The difficulty in submitting the above project, as one eligible under the present FERA set-up, is the cost of the material which it is not possible to include in the application under the present FERA regulations.

FERA projects under way by this office at the present time involve an expenditure of funds for labor only and it is only this type of project that the FERA Commission has been considering favorably. Should it be possible to work out a plan whereby the material required would be furnished by the City of Plymouth as a contribution towards an FERA project, there is another factor that must be considered, and that is excessive cost of labor under such a plan. It has been my experience with FERA projects that labor will possibly run twice as much as it would under an ordinary contract job, where an efficient organization undertakes the work with a trained personnel and proper equipment.

Taking this factor into consideration, there possibly is nothing to be gained by attempting to set up the proposed Tonquish Creek enclosure as a FERA project; because under such a plan the material would have to be furnished by some agency outside of the FERA Commission, while under the PWA plan, the project if successfully set up and favorably approved by the PWA authorities, 55 per cent of the cost would have to be met by the district over a long period of time and this would probably very nearly equal the material contribution under the FERA plan.

Reports originating in Washington during the past few weeks seem to indicate that there is a strong possibility of another program similar to the last CWA program being sponsored by the Federal Government. Should that be the case it would then be possible for this office to have all of the information required by whatever Federal agency is going to handle such a program compiled and an application submitted for the closing up of Tonquish Creek. It is impossible, however, at this time to make any definite plans or even offer suggestions, because information is not available in Washington as to how localities like Wayne county, which have either reached their bonding limits or in some cases exceeded them, are going to be considered when PWA funds appropriated by the present Congress are going to be provided.

When definite plans are eventually formulated by the Federal authorities pertaining to the disbursement of PWA funds to such localities like Wayne county, you may rest assured that this office will do everything possible to have the above project submitted if a financial program can be worked out acceptable to both the City of Plymouth and the County of Wayne and also meet the legal requirements then in existence. The foregoing comments and suggestions are made by this office in a spirit of friendly cooperation and I trust that the information may prove helpful to you in discussing the project with the individuals interested.

Very truly yours,
Leo J. Nowicki,
Wayne Co. Drain Comm.

Mrs. George VanDeCar and daughter of Burbank, Mrs. Ella McBride of Los Angeles, Mr. and Mrs. Theodore Karcher, and Mr. and Mrs. George Swanson of Pasadena, Mrs. Frank and Miss Helen Bailey of Oakland, she returned home by way of Oregon, Washington, and the Canadian Rockies.

Through what a girl thought would be a good "joke." The Mail last week was led into the publication of an item that was inaccurate and untrue. The item stated that the approaching marriage of Miss Betty Johnston had been announced by her parents. When the article was brought to the office, there was nothing about it to indicate that it might be in error. The fact that this is the first time in years that misleading information had been given directly to the paper led to its publication without questions being asked. There is a severe penalty for giving information of this kind, but the girl who prepared the item did not realize the seriousness of what she was doing until too late. She now greatly regrets what she did.

Society

On Tuesday evening the teachers of the Starkweather school honored Miss Dorothy Cavanaugh with a dinner and shower at the home of Miss Margaret Stukeley in Maplecroft subdivision. Various games were planned for the enjoyment of the guests. Miss Cavanaugh was presented with a gift of silver. Those present besides the guest of honor were Mrs. Nellie Bird, Miss Jewel Sparling, Miss Mildred Loper, Miss Helen Farrand, Miss Hazel Parmelee, Miss Lillian Bonstele, and Miss Florence Stader.

Seven girl friends of Jean Blunk were invited to join her in celebrating her twelfth birthday Monday after school and remained as supper guests. Games were played and prizes awarded and everyone had a merry time. The guests included Ardith Rowland, Mary Jane Olsaver, Marion Coward, Dorothy Ebersole, Betty Jane Brown, Annabelle Lawson and Beverly Smith.

Mr. and Mrs. Charles Stonebraker celebrated their twenty-fifth wedding anniversary, Sunday June 16, by entertaining about forty relatives at Riverside Park. Guests were present from Toledo, Flint, Detroit, Pontiac, Milford, Commerce, Wayne, and Plymouth.

Mr. and Mrs. Edwin Fox, daughter, Frances, and two sons, Leonard and Hubert, of Grand Rapids were dinner guests Sunday evening of Dr. and Mrs. A. E. Patterson remaining over night and on Monday morning attended the graduating exercises of the University of Michigan when Lucille Fox another daughter received her AB degree.

Mr. and Mrs. Arbra Mason, Mr. and Mrs. Robert Leckron, Miss Evelyn Starkweather and Edward Ryan of Detroit attended the Commencement exercises of the Plymouth high school Thursday evening. They were guests, before and after the exercises of Karl Starkweather and family, their daughter, Beulah, being a member of the graduating class.

Park Team Ties For First Place

Plymouth Park's ball team Sunday won two games from the Trojans and are now tied for first place.

Ed Sinta gained his first shut out for Plymouth Park when he let the Trojans down with seven hits to win by the score of two to nothing.

A base on balls, one hit and two errors in the fifth inning gave the local boys their two runs, which won the ball game. P. Schomberger came through with a double in this inning which scored Tonkovich from third base with the first run of the game, then Gates scored Schomberger when the second basemen errored on his chance to retire Gates.

Urbanak was the leading hitter for the local boys in this game when he got one hit out of three trips to the plate.

Manager Ray Levandowski pitched the second game and won by the score of twelve to six. This victory placed Plymouth Park in a three way tie for first place in the Southern Michigan League being with the Detroit Nomads and Wyandotte.

K. Gates was the hitting star in this game when he gathered in three timely hits out of five trips to the plate.

The infield played air tight ball in both games.

Next Sunday at 1:15 the Ace of Clubs will try to knock the local boys out of first place so come out and see a good ball game.

Manager Ray Levandowski will not be with his team next Sunday as he left last Tuesday for Winnipeg, Canada, where he will spend a week with his brother Clarence Levandowski who is playing ball for the Superior club in the Northern League.

Tonkovich and Hubert will run the local boys winning streak to four straight next Sunday.

Ann Arbor Team An Easy Victim

The Plymouth Schradler-Hagerty's swamped the Ann Arbor Blazing Arrows last Sunday under a 14-hit attack and won an easy 9-2 victory at Island Park, Ann Arbor.

Harold Pankow and George Bowers on the mound for Plymouth did not have to extend themselves, holding the Ann Arbor club four hits.

Pitchers Zahn, Raymond and Edds did not fair so well for Ann Arbor. Zahn was driven from the box in the fifth, Raymond in the seventh and Edds finished.

Beryl Smith collected a triple for the locals as did Carl Hames of Ann Arbor.

Plymouth executed some very good fielding, only committing one misplay.

Saturday, June 22nd, the Knights of Dearborn will oppose the Blazing Arrows at Island Park, Plymouth-Riverside Park. The game will start at 1 o'clock.

On Sunday June 2nd, the Roseville Firemen will move in for a single game starting at 3:30 o'clock.

Dear Mr. Wynne:
I am going to the seashore next summer for my vacation. I have been advised to go to Atlantic City, but was told to be sure to never go in the ocean after a big meal. That sounds ridiculous to me, so I seek your knowledge on the subject. Why should I not go into the ocean after a hearty meal? Sincerely,
C. WEED.

Answer: The reason you were told never to go in the ocean after a hearty meal is simply because you will never find one there.

That the umbrella was described in the early dictionaries as "a portable pent-house to carry in a person's hand to screen them from violent rain or heat." In the Middle ages it was considered a mark of rank and honor much used in ceremonial processions. First used in the United States in Baltimore in 1772.

DANNY SHAKES MORE THAN EVER

DANNY MEADOW MOUSE was trapped. He was trapped, but not caught, which sounds rather mixed and isn't at all. You see he was trapped because Billy Mink was waiting for him just outside the only doorway to that hollow log in which he was hiding. But he wasn't caught, because that doorway was too small for Billy Mink to get through and Billy couldn't reach him despite all his efforts.

"You'll have to come out some time and I'm going to stay right here."

"You'll Have to Come Out Some Time and I'm Going to Stay Right Here and Wait for You," Declared Billy Mink.

here and wait for you," declared Billy Mink. "You may just as well come out now as to keep me waiting, because you are going to be caught anyway and I am going to catch you."

Danny didn't say a word. He held his tongue, which was the wisest thing he could do. It usually is wise to hold one's tongue. But I suspect that it was fear more than wisdom which caused Danny to hold his tongue. You see, poor Danny was shaking all over with fear. He

SALEM CONGREGATIONAL CHURCH

Lucia M. Stroh, Minister Service next Sunday, 10:30 a. m. The pastor will preach, Sunday school following 11:45 a. m. Last Sunday Rev. Baerenwald addressed the Sunday school and told interesting accounts of certain negro tribes in the jungle of South America, their customs, religious rites, etc. He will speak this coming Wednesday evening. Nearly fifty members of Tonquish Lodge No. 32 and Rebecca Lodge No. 182 of Plymouth attended the service last Sunday in a body. The memorial service was most impressive. The choir sang "In The Upper Garden," "The Vacant Chair," and "Mizpah," most beautifully. Mr. Wheeler read very appropriate passages of the Scripture, the secretary Archie Collins read the names of four members of Tonquish lodge, who were called higher in this past year and another brother placed a flower for each in the wreath as a memorial. Rev. Baerenwald read the Scriptures and offered prayer. The pastor, then brought a stirring message on "The True Value and Meaning of Life." Everyone was greatly impressed by this beautiful service.

Saturday, June 29th our ladies will hold their monthly bake sale in the Kayser-Bartlett store in Plymouth at 10 a. m.

This coming Saturday, June 22, our Sunday school will have their picnic at Island Lake Park. Come early, bring sandwiches, dishes, and an extra dish, cake or pie for a potluck dinner.

Mrs. George Foreman was hostess to over thirty guests at her home, Thursday of last week, following the monthly ladies Auxiliary Society meeting and second quarterly Missionary meeting was a splendid potluck supper which was served and a good time was enjoyed by all present.

The Story of the Bible Told in Pictures

Moses Found by Pharaoh's Daughter.—When Moses was born his mother hid him three months, evading Pharaoh's command that the Hebrew male babies were to be cast into the river. "And when she could no longer hide him, she took for him an ark of bulrushes, and put the child therein; and she laid it by the river's brink. And his sister stood afar off, to wit what would be done to him. And the daughter of Pharaoh came down to wash herself at the river; and when she saw the ark among the flags, she sent one of her maidens to fetch it. And when she had opened it, she saw the child; and, behold, the babe wept. And she had compassion on him, and said, This is one of the Hebrews' children. Then saith his sister to Pharaoh's daughter, Shall I go and call thee a nurse of the Hebrew women, that she may nurse the child for thee? And Pharaoh's daughter said unto her, Go. And the maid went and called the child's mother. And the woman took the child, and nursed it. And the child grew, and she brought him unto Pharaoh's daughter, and he became her son. And she called his name Moses; and she said, Because I drew him out of the water."—Ex. 2: 3-10. From Merian's story of the Bible in pictures.

Edgar Hoenecke, Pastor Services every Sunday at 10:30 "Be ye DOERS of the Word, and not HEARERS only, deceiving your own selves." James 1:22. What avails your vaunted Christianity, if you never come or seldom come to hear the Word? "Blessed are they," says Jesus, "that HEAR THE WORD OF GOD AND KEEP IT." The services last but a short 45 minutes during the summer, certainly the best 45 minutes you can possibly spend all week, without which the entire remaining 10.035 minutes of the week are wasted and have lost their meaning. We still preach the Old Gospel—Come, Hear and Live!

CALVARY BAPTIST

Richard W. Neale, Pastor There is a hearty welcome awaiting you if you wish to fellowship with us. The pastor has returned from Cleveland and will preach at both services Sunday, at 10 a. m. and 7:30 p. m. Bible school at 11:15. Meet at the church with an open door. The mid-week prayer and praise service meets Wednesday evening at 7:30. Mr. Neale will continue in the study of Ephesians, that marvelous revelation of the Holy Spirit concerning God's plan for the Church.

BEBE CHAPEL

Jas. A. Davis, Pastor Sunday school, 10 a. m. Evening service, 7:45 p. m. A welcome extended to all who attend these services.

People often think that because things are little they don't matter. They will take a little tiny thing that does not belong to them, or tell a little tiny untruth, because they think that none will ever find out, just because they are such little things. This is a great mistake, and Jesus Christ Himself told people about it when He was on earth. He said, "He that is faithful also is much," "that which is least" means the very smallest thing of all.

The fact is that no sin is ever content with remaining small, but it always grows. "If we con-

HERE ARE 6 things we want you to prove for yourself ON A TRIAL ELECTRIC RANGE

- BETTER FLAVOR.** Electric cooking seals in delicious natural flavor in foods. Meats and vegetables cook to melting tenderness in their own juices.
- HEALTHFULNESS.** Half-a-cup of water is ample to cook vegetables. Precious minerals and important food values are retained, instead of being lost in steam or poured down the sink with excess water.
- CLEANLINESS.** Electric heat is as clean as sunlight. There is no smoke or soot to blacken utensils or soil kitchen walls and curtains.
- CONVENIENCE.** Snap the switch and start to cook. No matches, no flame—only pure heat from a glowing wire.
- ACCURATE OVEN CONTROL.** Exact oven heat control means better and more uniform baking results. Light, fine-grained cakes and flaky pastries are easy to obtain, time after time.
- MODERN COOKING.** Only an electric range is a modern range. Other stoves use exactly the same cooking methods in vogue 50 years ago.

We will install an electric range in your kitchen without initial charge, so that you may give it a thorough trial. During this trial period you simply pay for the service as registered by your meter, plus a monthly charge of \$1 for the range. If you decide to keep the range, your monthly payments will be applied toward the purchase price. If you decide that you do not want it, the range will be removed at our expense. Send in your application for a trial range today!

A study of one thousand families using an electric range showed a cooking cost of **LESS THAN 1¢ PER POUND**

Treasure at your door -in Michigan

Do you like canoeing, sailing, boat-ing? Then you can make your choice among Michigan's five thousand lakes—whether you prefer one like a mill-pond in which you may paddle along a pine-fringed bank, or one in which your sail or motor will give you the freedom of a sparkling inland sea.

Would you whip a crystal stream for trout? In Michigan you may choose among many sites, following rippling shallows and probing limpid pools where you thrill to that sudden tugging at your line.

Would you tour by motor? The high-ways of Michigan are among the finest in the world—roads of romance that lead through shaded valleys, over hills from which unfolds a view of distant water, or picturesque sand dunes, or the forest where the deer and beaver live.

Would you spend your time playing golf? In every part of Michigan there is a course that awaits your coming.

Spend your own vacation in Michi-gan. Call its unsurpassed facilities to the attention of your out-of-State friends. By doing so, you will assist them toward a happier holiday. In addition, you will help to promote the popularity and prosperity of your native State.

It is for the purpose of doing our share in this promotion that this series of advertisements is being published by the Michigan Bell Telephone Com-pany, a Michigan organization that prospers only as the citizens of Michigan prosper.
