

On and Off The Record

Judge Jos. A. Gillis attended the V. F. W. convention at New Orleans last week and intends celebrating the National Convention of the American Legion at St. Louis on his way home. The Judge travels by automobile with a home-like trailer hitched to the back of his car which he considers a rare asset to all vacationing.

All chattel mortgages in Wayne County will be transferred from the 11 city clerks to the Register of Deeds' office by the end of this week. They total 1,651,950 and are given into the custody of Harold E. Stoll, Register, in accordance with the new state law enacted during the last session of the legislature.

In the future when one wants to investigate an automobile or other like piece of personal property and find what mortgages or liens are against it, he will have but one place to investigate in place of the 11 city clerk offices as he has done in the past.

The 11 cities in Wayne County affected by this law are Detroit, Hamtramck, Wyandotte, Lincoln Park, Highland Park, River Rouge, Melvindale, Grosse Pointe, Dearborn, Plymouth and Garden City.

When Auditor Ed Williams recently ordered a survey of mental cases and their cost in Wayne county he began an investigation

that saves the taxpayer \$150.00 a day. The maintenance and operating cost of the Eloise Mental Hospital is \$0.8065 cents per capita exclusive of capital costs, such as building upkeep, etc.

Following are figures showing the amazing increase in county indigent mental cases. Date, 1920-21, total, 872; state cases, 621; county cases, 257. 1934-35, total, 3,026; state cases, 2,427; county cases, 599.

The total population of Eloise infirmary exclusive of mental cases was 685 in 1920, and has since grown to approximately 5,000 or nearly 10 times.

W. E. Davey and Bud Struthers, who made the survey for Williams credit the astounding increase to many factors. Increase in county

population and a radical change in manner of life are the two outstanding reasons.

"It is apparent fact that mental cases increase in a highly industrial community much faster than in a more or less rural district," Williams said. "Wayne County in the past 15 years has changed from a rural center into a rapid moving manufacturing center impelling the people to live faster under more trying conditions. Many are unable to adjust themselves physically or mentally to this new environment. The depression, of course, has discouraged, and they are thrown on the aged many otherwise normal people. In many instances this upsets their mental capacities," Williams said.

The State of Michigan has been lax in providing adequate space for such cases. For this reason Wayne County has had added burdens which should be cared for by state institutions.

John C. Cowan, County Auditor, is a staunch believer in the Constitution and has asked the employees of the Auditor's staff to sign an allegiance to both the state and national Constitutions.

"Regardless of party affiliation I think we should uphold this great instrument given by our forefathers as a guiding hand in governmental affairs," he said.

Vacation days are about over. Gone are the summer days which willed our good intentions to work and even made loafing a job a bit too strenuous to do in satisfying manner.

Court rooms, which have been on a half day schedule, are now crowded from 9:00 in the morning until 4:30 in the afternoon, and the jury men and women who have not been called for these past few months are back on the job bringing with them their ever changing looks of wisdom. There is no one just like a juror who is listening to a case in which he has the power to convict or free. He takes on a new importance in life, finds a new expression with which to greet people, and adopts an air of importance which is always very secretive and sometimes alarming.

In the jury room you can find a good cross section of human nature. There is juror number eight who weeps sentiment and fails to hold back her tears. Number two is vindictive, and thinks all people who are accused are necessarily guilty. Number four thinks the defendant looks like that awful neighbor back home and he must be guilty. Number nine knows very well that the good looking lawyer wouldn't have taken the case had the man been guilty and she is willing to accept the decision of a man with such apparent intelligence. Number six works nights, hasn't listened to testimony and will vote with the majority. Typical of every jury, these and other characters make up a board of judges who, the law of averages, says give any man a fair trial and a just verdict.

Registration For Jobless Continues

Because of the length of time required to register each applicant for the F. W. A. projects soon to

start, many men and women who called at the city hall were left unregistered last Thursday and Friday. These are requested to report at the lobby of the city hall today to submit their applications.

Sixty nine men and women registered last week. This registration is open to every unemployed person who is not on relief.

Citizens of Tomorrow

It is an obligation of good citizenship to pay taxes: it is an obligation of government to spend this tax money wisely. In common with many thousands of other citizens, Michigan Bell Telephone Company recognizes its obligation to pay a share in the support of the functions of government.

The Federal, State and other taxes paid this year by Michigan Bell averaged \$7.28 for each telephone in use. In total this amounts to more than \$3,225,000, of which \$2,737,955.25 is in the form of payments to the State of Michigan. It is particularly pleasing to us that these State taxes go into the primary school fund for the purpose of educating our citizens of tomorrow.

The primary school fund helps support the State's elementary, grammar and high schools. It erects and maintains the buildings, buys supplies, helps pay the salaries of our 32,000 teachers. Into it go the State taxes paid by many of the utilities of Michigan, and of these Michigan Bell Telephone Company pays the large individual tax. From 1921 to the present year the total taxes paid by us into the primary school fund amounted to \$32,643,350.99.

Like all other citizens who have a genuine pride in the progress of Michigan, we appreciate the value and profound importance of an adequate school system.

And to the telephone users of our State it must be a great satisfaction to know that indirectly they make an important contribution to a school system entrusted with the education and character-molding of 960,000 boys and girls—Michigan's school children today, her citizens of tomorrow.

Church News

ST. PETER'S EV. LUTHERAN CHURCH
 Holy Communion will be celebrated Sunday, the 22nd, at 10:30 a.m. All eligible communicants ought to make it a point to partake on this day, since it is to be a day of consecration for our work of Missions. Announcements are to be made with the pastor during the current week.
 Annual Mission Festival on Sunday, September 29th, at 10:30 a.m. and 2:30 p.m. The local pastor will preach in the morning, while Missionary Arthur Wacker will deliver a discourse on Home Missions from the missionary's viewpoint in the afternoon. Dinner, potluck, will be served at 12:30.
 A feature of the Mission Festival will again be the Formal presentation of Quotas by the officers of the various societies of the congregation. Our goal is \$300 this year, just about one-half of our annual quota for Missions. The offering last year amounted to \$322.69 so we are confident that, with a little extra effort, we shall again reach this sum. To encourage us at this time let us recall the Saviour's words: "Whoever ye have done to the least of these, my brethren, that have

ye done unto Me."
 Adult Confirmation Classes will begin on Wednesday, October 2nd, at 7:30 p.m.
 Junior Confirmation Classes will begin Saturday, September 21st, at 10:00 a.m. According to the custom of the congregation, children ought to attend these classes for TWO years; thus also those who will be confirmed in 1937 ought to be enrolled this fall.
 Mr. and Mrs. William Kreeger and family have applied for membership with our congregation.

CALVARY BAPTIST CHURCH
 Richard W. Neale, Pastor
 If you are looking for a friendly Bible Church, where Christ is preached, visit Calvary this Sunday. Our services are at 10:00 a.m. and 7:30 p.m. with Sunday school at 11:15. There are classes for all ages, from three years old and up. A new Primary class was started last Sunday. Miss Eythol Hallwill acting as teacher. Special plans for a program interesting to you have been made for Rally day.
 We may welcome a guest preacher to our pulpit Sunday, but if not, our pastor will continue

the studies in the book of Acts, and the Gospel of Luke. The morning topic is "One Argument with a Happy Ending." The evening message is "What God's Word Says About How To Make Sure of Heaven." Is it not wonderful to know that Christ will save all who will receive Him.
 Some think only the degraded need salvation. God says, "all have sinned"—even the cultured and outwardly refined. But to all with a heart to heed Jesus says, "Him that cometh to me I will in no wise cast out." John 6:37.
 The church meets for prayer each Wednesday at 7:30 p.m. Our young people welcome all young readers of the Mail to their service each Friday night at 7:30.
 Meet with a happy, singing crowd. Come to Calvary.

FIRST CHURCH OF CHRIST SCIENTIST

 Wednesday evening testimony service, 8:00.

"Matter" will be the subject of the Lesson-Sermon in all Christian Science Churches throughout the world on Sunday, September 22.
 Among the Bible citations is this passage (Ps. 1:1): "Blessed is the man that walketh not in the counsel of the ungodly, nor standeth in the way of sinners, nor sitteth in the seat of the scornful."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 119): "God is natural good, and is represented only by the idea of goodness; while evil should be regarded as unnatural, because it is opposed to the nature of Spirit, God."

The Story of the Bible Told in Pictures

Jonah and the Whale.—Commanded by the Lord to prophesy against Nineveh, Jonah attempted to escape from this commission by flight to Tarshish. He went to Joppa and found a ship going to Tarshish. A furious storm arose and the sailors after their attempts to lighten the ship proved vain, questioned Jonah. "And he said unto them, I am a Hebrew; and I fear the Lord, the God of heaven, which hath made the sea and dry land. Then were the men exceedingly afraid, and said unto him, What shall we do unto thee, that the sea may be calm unto us? And he said unto them, take me up, and cast me forth into the sea; so shall the sea be calm unto thee; for I know that for my sake this great tempest is upon you."—Jonah 1: 1-12. "So they took up Jonah, and cast him forth into the sea; and the sea ceased from her raging. Now the Lord had prepared a great fish to swallow up Jonah. And Jonah was in the belly of the fish three days and three nights."—Jonah 1: 13-17. Jonah then prayed earnestly to the Lord. "And the Lord spake unto the fish, and it vomited out Jonah upon the dry land."—Jonah 2: 10. This illustration is from Merian's story of the Bible in pictures, engraved in 1625.

 Tuesday, Sept. 24th the Jackson Association will meet in Ann Arbor in the first Congregational church. There will be three sessions, 9:30 a.m., 2 p.m. and 7:30 p.m. The morning session is especially profitable. This is for all Congregational and Christian churches.

Next Thursday, Sept. 26th all the ladies of the church are invited to the home of Mrs. Jas. Robertson near Oxford, where she will entertain at a cooperative dinner. Come and bring your friends. All are cordially invited.

FIRST BAPTIST CHURCH
 Loyla Sutherland, Minister
 The pastor speaks at ten o'clock on the subject "The Hated of the World." This is no unimportant

theme for it touches the lives of thousands of believers. Though we may not face the thumb-screw nor the stake, still believers discover painfully that the offense of cross has not ceased. Many daily quiver under the gibe of a neighbor and a fellow workman. We are doomed to discover that the world does not love the church any better than in the days of Smithfield, when men were burned for loving God.
 6:15—Bible school.
 6:15—Special meeting of the B.Y.P.U. There will be a social time for fifteen minutes and refreshments will be served. Our speaker will be Miss Jewel Sparling, Principal of the Starkweather school.
 7:30—The pastor with the delegates who have been in attendance at the Association meeting will bring echoes of this gathering. Come and hear something of the plans of our church for the coming days. What about the Baptists anyway?
 We shall resume next week our studies in the Book of Revelation. Come with your Bibles and study with us this marvelous Book. Wednesday evening at 7:30.

METHODIST NOTES
 10:00 a.m. Morning worship
 11:30 a.m. Sunday school.
 The Pastor is now giving a series of talks to Juniors and Intermediates on the Bible. These talks are illustrated by maps and charts and beginning with the book of Genesis will go through the Bible, giving the complete story in condensed form. All who wish to attend, including the ninth grade are especially invited to attend these talks at the ten o'clock hour.

SALEM FEDERATED CHURCH
 On September 22, at 10:30 o'clock our pastor will speak on a text that is seldom used, but one that proclaims a truth filled with inspiration for believers.
 Mrs. Minnie Davis will be hostess for the regular meeting of the Aid at her home on the Forrest Roberts farm, on Thursday afternoon, September 26.

Plans are under way for a harvest festival to be held in the church basement on Thursday evening, October 3.
 Make a special effort to be present on Rally Day, October 6.

FIRST PRESBYTERIAN CHURCH
 Walter Nichol, Pastor.
 10 a.m. Worship, 11:30 a.m. Sunday school.
 "Rally" is the watchword for this month. And a marked increase in attendance is already evident. Promotion Day in the Sunday school will be September 29th and Rally Day will be October 6.
 The sacrament of the Lord's Supper will be observed on Sunday, October 13th.

The Ready Service Class held a well attended meeting at the manse on Tuesday of this week. After cooperative dinner there was a brief devotional and business meeting. Then the afternoon was devoted to sewing for the approaching bazaar.
 The Mission Study class will meet on Tuesday evening September 24th at the home of Mrs. Perry D. Campbell, Cannon Center Road. The committee in charge of this meeting will serve supper at 6:30 p.m. for which a charge will be made. An interesting program will follow.

Line Store Takes Active Interest In Its Employees

Provide Lake Cottage, Group Life Insurance For Workers

The Line Stores organization which began business in Howell, Livingston County more than 25 years ago has grown from one store to six stores. The majority of this growth occurred during the years of the depression through careful business management and fair merchandising policies. The stores now employ between 70 and 80 persons as regular time managers and clerks and has an annual payroll in excess of \$35,000.
 Constant effort is exercised to make the work of all employees enjoyable. In the past, monthly get-togethers of all clerks has provided mutual sympathetic understanding, social recreation, and educational addresses, as men of both local and state reputations were frequently on the programs.
 A modern furnished cottage and boat at Lake Chemung was provided this year for use of clerks and managers of all the stores. Each clerk was privileged to have free use of the cottage for a week to spend alone or entertaining friends. Allotment of time and rules and regulations for the use of the cottage are controlled by a committee of clerks and managers. Among other interesting rules is found this one: "No alcoholic liquors are to be brought on to premises by either employe or their friends."
 This pleasant lake cottage with good swimming and fishing facilities having, affords an opportunity for quiet recreation and rest, and the continual use of the cottage has proved its popularity. It is reported that clerks from the outer stores such as Plymouth used the cottage as much as those working in Livingston County. It is planned to make the cottage available to the Line's employees yearly and to add more improvements as interest grows.

More recently a group life insurance policy has been initiated which is supported both by the stores and the employees effected. The store pays a part of the policy of even the beginning clerks and as the clerks extend their length of service the store pays an ever increasing amount of the insurance until finally the clerk is freed entirely from the premium burden. The management of the Line Stores has the interest of the employees at heart and are always on the outlook for methods of advancing their welfare and interests.

Pankow Pitches Winning Game
 Harold Pankow, Plymouth side-wheeler turned in one of his best pitching performances of the year last Sunday as he held the Hazel Park Firemen to seven hits and the Schrader Haggerty's won, 6 to 4.
 The game was played at Plymouth-River Park being the first time the team has played at home since August 18th. The local club will travel to Fowlerville Sunday, September 22nd where they will meet Fowlerville in the final of a three game series.

YOU CAN PREPARE THIS DELICIOUS MEATLESS DINNER IN 40 Minutes

on a TRIAL ELECTRIC RANGE

South. Made with yellow corn meal, it actually has greater health value than the staple white bread served with everyday menus. This balanced dinner, baked to perfection in the "flavor-conserving" heat of an electric oven, has a sealed-in goodness and health value that is possible only with electric cooking. Wouldn't you like to prepare it in your own kitchen on a Trial Electric Range?

We will install an electric range in your kitchen without initial charge, so that you may give it a thorough trial. During this trial period you simply pay for the service as registered by your meter, plus a monthly charge of \$1 for the range. If you decide to keep the range, your monthly payments will be applied toward the purchase price. If you decide that you do not want it, the range will be removed at our expense. Send in your application for a trial range today!

HERE is a tempting meatless dinner that can be prepared in an electric oven in 40 minutes, all at the same time. It consists of corn bread, macaroni and cheese, and a delicious vegetable dish including escalloped tomatoes, string beans, hard-cooked eggs, chopped green peppers and onions, milk and seasoning, and bread crumbs. Electrically baked corn bread, appetizingly hot and golden, has all the deliciousness of the famous "corn sticks" of New Orleans and the sunny

SATISFACTORY WORK

That is what The Plymouth Mail has always endeavored to accomplish in its job printing department.

We believe that we have accomplished this aim by the constant repeat orders we receive not only from old customers but new ones as well.

ANOTHER PROOF

Of this accomplishment has recently come when some of the wholesale houses that The Plymouth Mail buys its paper from requested samples of printed matter produced by The Mail on paper purchased from them.

TO SHOW AS SAMPLES

They wanted to use these printed pieces to show what good printing could be done on the paper The Mail purchased from them.

We feel that it is a rather high compliment to our printing department to have printed matter produced in our office used as samples by wholesale paper houses.

This work was produced in the regular routine of business and was given the same attention that every job receives. We did not know at the time it was being produced that any one would ask for it to be used as samples.

Every printing job, no matter how big or small, is given careful attention—and no place, not even Detroit, can produce work more satisfactorily, quicker or more economically than can The Plymouth Mail.

Start Paving Of Plymouth Road

With all underground work completed, the paving of Plymouth Road was started early this week. Concrete was poured Tuesday, and the north one-half of the pavement will probably be finished by the early part of next week. At no time will the road be closed completely so traffic can drive through during the entire period of widening.

When completed Plymouth road will be forty feet wider, with curbs on each side as far as the cemetery. It will make considerable improvement in the entrance to the city of Plymouth.

During the paving operations intersections will be put in at Holbrook avenue and the entrance to Riverside cemetery from the edge of the roadway to the cemetery gates will also be paved.

PLYMOUTH GRANGE JOINS IN NATION-WIDE BOOSTER NITE

Monday evening, September 30th, has been set aside as Booster night by the National Grange. It is planned that all Granges in the country will hold open meetings on that night. It is hoped that many will attend such meetings that they may learn some of the things for which the Grange as a National organization stands.

The local Grange will join in this great movement and a special program is being planned for the occasion. All interested are invited to be at the Grange hall on Union street at 8 p.m., September 30th.

Out Of Quarantine, Life Prisoners Given Tasks

Florence and Loretta Jackson and Jean Miller, who just one month ago held the front pages of daily newspapers as they were brought to trial for the murder of Howard Carter Dickinson, were released Monday from quarantine and assigned to general tasks in the House of Correction.

"Should any of the girls show herself especially adaptable in any line of work, she will be permanently assigned to that division," said Mrs. Campbell, superintendent of the women's division. "As it is, none of the girls will spend any allotted time in one department. They will be transferred from time to time."

The three girls are sentenced to life at the House of Correction for participating in the murder of Dickinson.

OLD JOHN DONT GET UP NIGHTS He Made This 25c Test

Old John says, "I had to get up 5 or 6 times every night. This bladder irregularity was accompanied with scanty flow, burning and backache. I flushed out excess acids with little green tablets containing buchu leaves, juniper oil, etc., called BUKETS. They work on the bladder similar to castor oil on the bowels. After four days if not pleased any druggist will refund your 25c. I sleep good now." Beyer Pharmacy, Plymouth, C. R. Horton, Northville, Michigan.

Crop Conditions Are Best In Years

Michigan agriculture is in a favored position this season, according to the September 1 report of the Federal-State Crop Reporting Service released today by Verne H. Church, U. S. Senior Agricultural Statistician, and James F. Thomson, Commissioner of Agriculture. Michigan leads all states north of the Mason-Dixie line with a combined indicated yield per acre figure for major crops more than 19 per cent above the 10-year average. This represents an increase of about 4.5 points in prospective crop yields since August 1. Corn, dry field beans, potatoes, buckwheat and hay crops all showed some improvement during the past month while oats, barley, and all of the major tree fruits registered slight declines. The principal hazard faced by Michigan growers on September 1 was the possibility of

early frosts which would cause material damage to corn, beans, buckwheat, and potatoes as much of the acreage of these crops was planted late. On the basis of September 1 condition reports this year, Michigan's 1935 field bean crop is indicated at 4,267,000 bags of 100 pounds each which figure compares with a 5-year average crop of 3,244,000 bags. Weather conditions during August were generally ideal for the setting of pods but much of the acreage will need several weeks more of favorable weather to mature a crop. Very few fields had been pulled at the time the September 1 reports were filled out. The United States dry edible bean crop is indicated at 13,303,000 bags against 10,369,000 harvested in 1934 and a 5-year average crop of 11,688,000 bags. The September 1 report is 328,000 bags less than the August 1 forecast, decreases in New York, Idaho, Colorado, and New Mexico being largely offset by improved prospects in Michigan. Of the increase of 2,934,000 bags in the 1935 indicated total United States crop compared with that

for 1934, more than one-half or 1,578,000 bags occurs in the 4 pinto bean-producing states. Michigan potato growers report some improvement in the yield outlook for this crop. For the State as a whole, the September 1 indicated production of 29,480,000 bushels is about 14 per cent less than the large harvest of 30,304,000 bushels in 1934 but about 22 per cent more than the 5-year average crop 1928-32. Dry weather and high temperatures during August damaged the crop in the Eastern Surplus Late States but weather conditions were favorable in most of the other Late States except Nebraska. The September 1 indication is for a total United States production 1 per cent less than that forecast on August 1, 3 per cent less than that crop harvested last year, but about 3 per cent more than the 5-year average production. For the 18 surplus states the indicated production at the time of the September 1 report was 25,813,000 bushels against 27,474,000 bushels harvested last year, and a 5-year average of 25,873,000 bushels. Although handicapped by a late start, Michigan's 1935 corn acreage made rapid gains during July and early August and most fields have eared well. Unless this crop is damaged by early frosts or a wet fall, the Michigan production, indicated at 49,700,000 bushels, promises to be the best since 1925. The thing has progressed slowly because of unfavorable weather conditions and there has been considerable field damage to small grains since harvest. Returns per acre for oats and barley are proving to be smaller than indicated a month ago although still slightly above the 10-year average. The September 1 forecast is for a Michigan oat crop of 41,056,000 bushels and a barley production of 794,000 bushels. In 1934, when the State's production of these grains was markedly below average because of the spring drought, Michigan farmers harvested an oat crop of 28,717,000 bushels and a barley crop of 3,384,000 bushels. The indicated production of the principal Michigan tree fruits is somewhat smaller than reported on August 1, principally the result of widespread damage from fungous diseases. September 1 indications on these crops are as follows: the 1934 harvested figures being given in parentheses: apples, total crop, 9,443,000 bushels (\$6,464,000); apples, commercial crop, 5,680,000 bushels (\$4,224,000); peaches, 1,919,000 bushels (\$17,000); pears, 653,000 bushels (\$745,000); plums, 256,000 bushels (\$244,000); grapes, 62,700 tons (\$1,100).

THREE PATENTED CONSTRUCTION FEATURES MADE THE NEW FIRESTONE GROUND GRIP TIRE POSSIBLE

THE new Firestone Ground Grip Tire is the greatest traction tire ever built. It has 54% more tread rubber to give your car, truck, tractor and farm implements the greatest traction ever known.

Gum-Dipping, the Firestone patented process which soaks every cord in liquid rubber, makes it possible for this tire to stand the terrific strains and stresses of the extra pulling power. Firestone Tires are the only tires built that are Gum-Dipped.

The tread is built of extra tough rubber and designed with deep grooves between scientifically placed cross bars, giving super-traction and long wear. Firestone Ground Grip Tires are self-cleaning. (Chains are not needed.) The bars of the rubber are so placed that they will not bump on paved roads, giving you easier riding and longer wear.

READ WHAT FARMERS SAY ABOUT THEIR SAVINGS WITH FIRESTONE GRIP TIRES

TEXAS—Mr. C. W. Wardlow, McKinney, Texas, writes: "Approximately 28% saving in fuel, and 38% more acres worked each day, and am able to go through any kind of 'tough going' due to your new tread design on the Ground Grip Tires."

OHIO—Mr. G. I. Henning of West Salem, Ohio, writes: "Want you to know the effectiveness of your pneumatic tire on our binder—it saves time, we cut grain faster, it is easy on the man riding on the binder and now we never have to stop to tighten up bolts."

SOUTH DAKOTA—Chris S. Anderson, Badger, S. D. says: "I like Firestone Tires because the tractor runs easier, uses less fuel, travels faster and hauls larger loads."

NEBRASKA—Dr. C. E. Larsen of Tilden, Nebraska, writes: "I purchased a set of your new Ground Grip Tires about two months ago for my coupe . . . I have not been able to stick this car in mud since they were put on and they have already saved me three sets of chains and I would not be without them if they cost double what you charge."

IOWA—M. H. Elsbury of Sutherland, Iowa, writes: "With Firestone Tires on my McCormick Deering Tractor and Separator I have taken in over \$100 from farmers I could not reach with other wheels."

See your nearest Firestone Auto Supply and Service Store or Firestone Tire Dealer and let him show you how the new line of Ground Grip Tires will save you time and money on your farm. Remember, there is also a complete line of Firestone Auto Supplies for your automobile needs.

Appeal For Aid To Hurricane Victims In Fla.

Desolation, Suffering, Is Told In Letter To Rev. Neale

A huge box of clothing, dishes and other needs is at present on its way to the stricken coast of Florida, just south of Miami. Contents of the box which will do so much to aid the helpless hurricane victims of the Keys coast are the contributions donated by the congregation of the Calvary Baptist church, friends and Plymouth merchants. It is sent in response to a plea by Mrs. Alice Neale Foster of Coconut Grove, Florida, sister of the Rev. Richard Neale of the Calvary Baptist church here. Though herself not directly in the stricken area, Mrs. Foster sent an appeal

for aid to these homeless persons, whom the hurricane has left destitute.

Rev. and Mrs. Neale received the letter Saturday morning. It was read to the congregation during services last Sunday and by Sunday evening contributions in the way of clothing and other necessities were pouring in.

The letter reveals many tragedies of the hurricane: "We, in Coconut Grove did not get the storm, only a bad gale, but it simply wiped out everything from Key Largo down to Long Key. Everything on the south end of Large and on Plantation Key and both Upper and Lower Matecumbe was demolished. Not a thing was left standing, and hundreds and hundreds of those poor people were drowned, including three camps of veterans who were working on the new bridge across the seven-mile gap between Matecumbe and Long Key. They were drowned like rats in traps. And of the section of the Keys where it struck, only forty-nine that we can be sure of, were saved. These were the civilians and a few vet-terans who were there. They were terribly battered and wounded. You would not have known your best friend.

"When the rescue party from here reached Plantation Key the next day practically everyone had been killed and not a thing left standing. And it was morning, twenty-four hours after the storm, before they could get a coast guard boat down there and get across. There wasn't a sign of life anywhere. Hundreds of bodies were floating around, caught in the debris. Whole families were swept away. One girl and her husband held their children up over their heads all night long through the hurricane with the water washing up over their chins all the time. They were miraculously saved.

"There was a great deal of heroic work done, especially the first two or three days.

"I have been trying desperately to get a few things together for these stricken unfortunates, and if you could possibly send any clothes or anything at all, it would be very gratefully received and the need is very great. At first it was medical supplies and doctors and nurses that were needed worst, but now most of the cases have received at least some kind of treatment, and it is clothes that they need and anything to use to start out trying to live again. The storm stripped off even the clothes they had on their backs.

The letter gave many more details, telling that had warnings been issued in time, those on the Key coast could have driven to safety.

Rev. and Mrs. Neale are already starting a second box to follow the first to these devastated regions.

THE ISLAND OF A BUTCHER PRODUCED THE MOST CITIZENS OF THE UNITED STATES

Darkened Lights To Again Glow

"Bright lights of Plymouth" won't be just a phrase, but soon an actuality, for city manager Perry Cookingham is submitting before the city commission a number of petitions from Plymouth residents who ask the return of street lights.

In 1932 and 1933 many lights were turned down to save taxpayers money. With this economy act, the \$13,000 annual light cost was cut down to \$6,000. Now, with the return of better times, Plymouth residents are asking for their lights.

As no appropriations were made in this year's budget for lights, the city commission does not believe all the requests can be granted, but will try to replace as many as possible.

Govt. Control Of Arms Is School Debate Issue

High School Debaters Being Groomed For October Meet

Under the direction of J. Latture, debate instructor at Plymouth high school debaters of the school are being tutored on the resolution: "Resolved, that the several nations should make government monopolies of the manufacture and sale of all combat instruments of war."

According to Mr. Latture, the first debate will be held about the third week of October. Six schools are in the league here, and the school winning over the six will compete in the State Championship Debate at Ann Arbor on May 1, 1936. Plymouth debaters will meet teams from Dearborn, Ypsilanti, Wayne, River Rouge and Ecorse high schools and the school with the highest percentage of victories in the preliminaries will be awarded the University of Michigan Wall Plaque Trophy presented by the Detroit Free Press.

Each debater participating in an elimination debate receives a bronze lapel button or pin which is a replica of the Wall Plaque Trophy. Each of the six debaters participating in the final debate will be presented with a gold watch by the Free Press and both schools will receive a large bronze trophy cup presented by the University of Michigan Extension Division.

Garden City Wins Week-End Games

The Garden City Ball Club defeated the Merchants of both Inkster and Wayne over the last week-end. On Saturday afternoon the Inkster Merchants suffered a 9 to 1 defeat while on Sunday afternoon the Wayne Merchants lost a close decision by a score of 5 to 4. Last spring Garden City picked up a pitcher in Inkster's own back yard, and has since won nine straight games and has yet to suffer defeat. On Saturday afternoon Hill defeated his own home team and did not allow them a run until the ninth inning when an error paved the way for the run. He allowed but two hits and three walks.

Walter Scott pitched the game against the Wayne Merchants and held them scoreless until the 8th inning. Koester pitched for Wayne and after a shaky start which was due entirely to bad support, he tightened up and allowed but one run up to the ninth inning when Wayne tied the score at four runs. A walk and two errors gave Garden City the winning run.

Next Saturday Garden City will play the Oakwood Y.M.C.C. at Garden City. On Sunday afternoon Bennett Brothers of Dearborn will be the attraction. Bennett Bros. won the championship of the Dearborn Recreation League this year, and although they were unsuccessful in the Class A. Tournament at Cleveland this year, they still have a good team. Garden City lost a four to three decision earlier in the year, but will be ready to change the tune.

Car Turns Over; Four Are Hurt

A car that suddenly became uncontrollable and without warning turned over completely on the highway is responsible for the injuries of Mr. and Mrs. Joseph Delore of Schoolcraft road near Phoenix lake, their hired man and James Black of Northville. All are suffering internal injuries. Battery acid ran into Mr. Delore's eyes and mouth, and James Black suffered a broken collar and shoulder bone.

The party were driving to a fishing trip Monday morning, their destination being a lake about 150 miles north. Just six miles beyond Flint about two hours after they had left home the car began acting queerly, and suddenly toppled. The injured were rushed to Shirley hospital in Flint, where Mrs. Delore is still confined.

Mr. and Mrs. Delore are the parents of Mrs. John Nelson of Northville and the grandparents of Mrs. John Wahn of Plymouth.

Finish Second In S. Mich. League

The Trojans of Detroit defeated the local Plymouth Park nine by the score of 9 to 8 last Sunday thereby ending the Southern Michigan League season. The local nine finished in second place one and a half games out of first place.

Clarence Levandowski had a good day when he scored four runs, knocked in two more with a home run and stole six bases. In the first inning he stole second, third, and home.

W. Basset started on the mound for Plymouth Park and was relieved by Pisarek in the seventh.

Next Sunday at 3 p.m. at the local Riverside Park the Southern Michigan League playoffs will start for Plymouth Park. The playoffs will be on the two game knock out plan and the team to oppose Plymouth will be either East Detroit or Wyandotte as they are tied for third place.

Reproduce Old Plymouth Photo

In 1866, Plymouth's South Main street was photographed, town band, general stores, horses and buggies and all. There are many old residents who cherish one of these photographs among their treasures.

This week a reproduction of that photo, accurately painted in every detail, was hung in the lobby of the city hall. The painting, made by Edward McCandlish, is in oil. A magnifying glass was used by the painter as he studied every detail on the picture and faithfully reproduced it in this large painting.

The faces of the town band players can easily be recognized, and not a single feature has escaped the artist's eye—from the hitching posts to the little boy who peered around the corner of the building as South Main street was being snapped in those historic days.

D.P.W. Gets New Truck Replacing 1926 Model

Riverside cemetery is to have a "new" car, at least never than the present car they are trying to do their work with. Their present automobile is of so ancient a vintage that no one can seem to accurately judge just which year's model it is.

The "new" car is a 1926 model that the D. P. W. department is using at the present time. It was voted at Monday night's commission meeting at the city hall that a new truck with a 157 inch stake body is to be bought replacing the 1926 car that the Department of Public Works has been using for their work. This latter is being turned over to the cemetery.

Michigan Wood Products Looks To Busy Season

Approximately 40 men will be employed at the Michigan Wood Products company by the middle of October, according to D. E. Merrifield, vice president of this new factory in Northville.

Dinettes are the chief product of this factory, and according to Mr. Merrifield, the sales of these dining room sets have held up remarkably well during the summer months.

Why Waste \$1 In Every \$5 of Your Fuel Money

.... for "PUNK" WATER HEATING

Are you enduring the waste, work and nuisance of furnace coil water heating? ... because you think it's cheap? Your furnace coil is a fuel eater. Experts find it costs up a shovelful of fuel in every five—\$1 in every \$5. Can you afford to spend 20% of your fuel bill this way—when there's a better way? End this waste—and rusty water, limed and leaky coils, uncertain hot water.
