

Taxpayer Becomes Michigan's Forgotten Citizen No. 1

Apparently His Trials and Problems Are His Own Affairs — Officials Seem To Feel He Has Barrels of Money For Taxes

(By ELTON R. EATON)

(Note—When the writer was a candidate for the state legislature in the last campaign, the association was made that he would report frequently to the voters upon state affairs and legislative problems. An effort will be made each week to keep the people advised through this column as to the major state problems and the issues before the legislature in which you and every other citizen in Michigan have a direct interest.)

Lansing, Michigan—There is one big group of citizens in Michigan that has no lobby in Lansing. There is no one stalking about the corridors of the capitol or anywhere else to help them in their fight. This group consists entirely of the taxpayers of the state. Seemingly, almost overnight, the taxpayer has become Michigan's forgotten man. A few years back there were some sincere as well as a whole lot of perfunctory efforts made to do something to relieve the tax burden of the taxpayer. But, no more is that so. Almost every piece of legislation that is proposed or that has been suggested calls for increased expenditures and expenses. Where the money will come from to pay the tax burden even if a small fraction of some of the proposals already made should be enacted, no one can tell. True, there are some legitimate and additional expenses that must be met, but new jobs, higher salaries, more expensive automobiles for state employes, bigger expense accounts, all are going to add hundreds of thousands of dollars to the tax burden that the taxpayer must pay. Yes, the taxpayer of Michigan has become the No. 1 forgotten man of Michigan.

There seems to be little interest these days in Lansing, except jobs, good fat political jobs for those who believe they are entitled to some of the spoils of public office, spoils that go with such a sweeping political victory as was won by the Democrats last fall. From early morning until late at night, job seekers can be found loitering about the state capitol building. Only a small fraction of them will get jobs, because there are not enough jobs for every one who wants to get on the public payroll. Yes, there are hundreds and hundreds of jobs to be filled and when some of the new legislation asked by the Governor is passed, there will be more hundreds of jobs for the job seekers. But even then, only a small fraction of the applicants can be cared for. The state payroll right now is the highest it has ever been. And it is going to go higher, much higher.

The present week is a blank in so far as the state legislature is concerned. Adjournment was taken last Friday so that Governor Murphy and the other Democratic officials might go to Washington to be present at the inauguration on Wednesday of President Roosevelt in his second term. Nothing was paramount to the Washington trip. Only a few members of the house and senate went on the trip. Sessions will be resumed Monday evening when it is expected that there will be another flood of bills for the members to consider.

Two different efforts have been made by the members of the house to bring about a pay raise for themselves. They are seeking some way whereby they can secure payment of \$10 per day expenses, plus their regular pay for a period not exceeding five months. The state constitution says that the salary of any member of the legislature shall be only \$3 per day. Representative Eaton of this district voted against the proposal both times it was up for consideration. It is now in committee and it is stated that there are prospects of another effort being made to revive the question. The feeling on the part of a few representatives, including the writer, is that every one knew what the state paid for these positions before they ran for the places and if they were not satisfied with the salaries paid by the state, there was nothing to compel them to run for the office. They became candidates because they wanted the position and the writer feels that members of the house should be satisfied with the pay fixed by the state constitution. A legislative position in the past has been regarded as a place offering opportunities for real public service and not a place for gleaming spoils from the public. Recent political upheavals have brought about an entirely new type of public office holders, who are not yet steeped with the spirit that characterized public service in the years gone by. Some day many of them will experience the thrill and the pleasure and the satisfaction that comes with having accomplished something of worth-while for all of the people of the state—and when once they have done so, the reward will seem much more worth-while to them than a salary ten times as great as it is now.

Methodists Plan Unusual Series

Something entirely new in public worship will be brought to the Methodist church Sunday night by John Hlyton Blunk Brothers store. These ten services will be entirely visual and dramatic. They will be entirely different from anything ever attempted before in Plymouth. Material for them will be brought from the headquarters of the Presbyterian Church at New York City and also some from Philadelphia. Unusual dramatic and lighting effects will be used. Mr. Blunk has already conducted a similar series in one of the Toledo churches, and reports the church was filled for every service. The series will conclude on Easter Sunday night, March 28, at 7:30.

The Methodists Men's club are bringing the Chevrolet Glee Club of 40 voices to the Methodist church Tuesday night at eight o'clock. The public is invited and the program is free.

Making Repairs On Ice Plant

Repairs and redecorations are going on this week at the Plymouth Artificial Ice company's plant across from the Hotel Mayflower building on Ann Arbor Trail. Extensive repairs are being done and J. J. McLaren, manager, said it would be painted. The inside is being painted light green, but no color for the outside of the building has yet been decided on. Mr. McLaren said.

Will Lay Church Cornerstone Early In Spring

Presbyterians Plan Ceremonies In Connection With Event

Although construction of the new \$45,000 Presbyterian church will reach a point this week-end where the corner stone would ordinarily be laid, that ceremony, according to the Rev. Walter Nichol, pastor of the church, will be postponed until spring. "We don't know exactly when it will be," Rev. Nichol said, "but this weather is too uncertain. We could do it this week, but it will not take place until April or May." A colorful ceremony is planned for the laying of the corner stone. The church was recently altered to make the building smaller and reduce the cost of construction from \$50,000 to \$45,000. Thomas Moss, architect, said under the present arrangement, he explained, the auditorium of the church will be 38 feet by 80 feet, and the Sunday school section 30 feet by 100 feet. The walls will be brick with stone trimmings, he said. Construction of the church is "about a six months job," in the opinion of the architect. The weather is good, he added, the building should be completed in five months more.

Icy Highways Slow Down Traffic

A week of as delightful winter weather, without snow, as this part of the state has experienced, was followed Wednesday by the severest sleet storm in years. Early morning traffic Wednesday was forced to crawl along the highways, so glaring was the coating of ice that covered the paving. Gravel highways were practically impassable and bus service was ended for a part of the day. There were several automobile accidents, but none that caused serious damage.

Death Claims A Great Church Leader

BISHOP MICHAEL J. GALLAGHER

News received in Plymouth early Thursday morning of the unexpected death of Bishop Michael J. Gallagher of this diocese of the catholic church since 1918 proved a great surprise to his church members and admirers in this locality. While it had been known that the bishop had not been in good health lately, no one regarded his illness as serious. He died in Providence hospital, where he was taken a few hours before death. Bishop Gallagher had frequently been to Plymouth and this vicinity, his latest visit being to Villa St. Felix a year ago to formally dedicate this beautiful structure. His passing will prove a great loss to the church he so ably represented over a long period of years.

D.A.R. Chapter Celebrates Tenth Birthday

Patriotic Organization Can Do Much To Help Country Says Speaker

At tables attractively centered with snapdragons and ferns, the members of the Sarah Ann Cochran chapter, Daughters of the American Revolution gathered with their guests Monday afternoon in the Crystal dining room of the Hotel Mayflower to celebrate their tenth birthday. In the absence of the chaplain, Mrs. Donald P. Yerkes of Northville, Mrs. Levi Eaton of Northville pronounced the grace, and members and guests repeated the salute to the flag.

After the delicious luncheon, Mrs. Sidney D. Strong, the Regent, rose and expressed the chapter's welcome to the guests present, and introduced Mrs. M. J. Bennett, vice Regent and program chairman. Mrs. Bennett then presented the following program: Miss Barbara Horton, accompanied by Mrs. J. J. Conner, sang three delightful numbers: "Thy Beaming Eyes" by Edward McDowell, "Tomorrow" by Richard Strauss and "Ballymore Ballad", a traditional Irish air. Mrs. George D. Schermerhorn, the state Regent, who has had the state Regent's office, was ill and unable to appear. In her place Mrs. Bennett introduced Miss Ara Charbonneau, who is the director of the Family Protective association of Wyandotte. Miss Charbonneau was secured through the courtesy of the Detroit Community Fund. Her address covered "The Field of Social Welfare Work". Keenly interested in her work she spoke most earnestly to her absorbed listeners on the needs of social planning. "All societies," she said, "should be interested in social welfare. All are brothers and sisters under the skin. The Social Security act is one step in solving the problems of society, its economic problem, but that is not enough. Little groups, such as the various D. A. R. chapters, and other organizations must study the problems that arise in its particular community, and attempt solutions. The needs are most vital. There is the old type of charity that gave without question, and the new type that seeks to know why aid is necessary. It is corrective, so that next week, or next month, the individual may be so helped that further aid is unnecessary. Planning and relief work is administered to cure." She recited two very interesting case histories: Of Peter the crippled boy, a broken and morose, the victim of a broken home, finally restored happily to his father; of the French family where eleven children born in twelve years had

Stores To Close Early For President's Birthday Ball To Be Held In Masonic Temple And Mayflower Jan. 30

Business Men Anxious To Assist In Charity Work

Committees Complete Arrangements For Big Social Events

So that Plymouth business men and their clerks may be able to take part in the two President's Birthday balls to be held in this city next Saturday evening, January 30, arrangements have been made for practically all stores to be closed at 8 o'clock. The closing does not include the drug stores and possibly some of the barber shops.

Chairman Arno Thompson and Leonard T. Murphy, who have been looking after a considerable portion of the detail work in connection with the two big events, are highly pleased with the progress they are making in final arrangements as well as in the interest displayed in the balls. "Unless we are greatly disappointed, I believe we will have the biggest crowds at the two dances that have ever attended similar events in Plymouth," stated Mr. Thompson yesterday. "The ticket sale has been remarkably good and we find also that many who live in Northville and other nearby communities are planning to come to the dances. One will be at the Hotel Mayflower and the other at the Masonic temple. People can go to either dance they may choose. We find that this arrangement is also pleasing to many," he added.

Chairman Thompson has appointed a committee composed of Dr. B. E. Champe, David Galin and Russell Daane to provide a brief program of entertainment for each one of the balls. The committee members will have something that will be pleasing and new.

Chief Safford Of Northville Dies

William H. Safford, chief of police of Northville for the past 12 years and one of the best known residents in this part of Wayne county, died Tuesday evening in the University of Michigan hospital following an illness of but a few days. He was found when he was taken to the hospital. The day previous he had been in Plymouth in connection with the recovery of an automobile he had been successful in locating.

Born in Detroit 67 years ago, he came to Northville with his parents when a youngster and except for one year in the post-office department in Washington and ten years with the Pennsylvania State Fish Commission as one of its superintendents, he had spent his entire life in the vicinity of Northville. After completing school he had been employed at the fish hatchery in Northville for two or three years. Taking the civil service examination, for promotion in connection with this line of work, he passed it and for a time was assigned to postal work in Washington, but later went to Pennsylvania.

Always a great lover of his home town of Northville, he resigned his job in Pennsylvania so that he might return to be among his old neighbors and friends. Then it was that he first took up police work, later being appointed state oil inspector and upon the election of George Walters as sheriff, he was appointed deputy for Wayne county. When Mr. Walters went out of office, Mr. Safford was made chief of police of his home town, a position he has held since. Mrs. Safford, and two daughters, Mrs. Margaret Moore and Mrs. Kathryn Lowry, survive. Mrs. Safford had been married 46 years.

Northville had no more enthusiastic booster and supporter than was Chief Safford. His home town loyalty had for years characterized his every activity. Northville seemingly was his first and most paramount interest—a citizenship quality that is of priceless value to any community. The funeral will be held from the Schrader Bros. Funeral home in Northville Friday afternoon at 2 o'clock, burial taking place in Rural Hill cemetery.

Did You Know That

Sybil's Beauty shop at Northville has guaranteed permanents at \$2, \$3.50 and \$5.00. Open every evening—with or without appointment. Corner of Main and Center street. Phone Northville 340. The Laugh-a-Lot club will meet Saturday evening, with Mr. and Mrs. Roy Sallow for its cooperative dinner and evening of cards.

Crippled Youngster Learning to Dance

Last year 10-year-old Shirley Pekny, of Brooklyn, went to the Roosevelt Birthday Ball in braces which she wore on a leg semi-paralyzed as the result of infantile paralysis. This year Shirley, after an operation made possible by funds raised through the Roosevelt Birthday Celebrations for aid of infantile paralysis sufferers, is essaying her first dance steps with the assistance of Arthur Murray, noted New York ballroom dance expert. Mr. Murray has originated a new waltz, the Washington, which is being introduced at the New York celebration in honor of President.

GREEN GRAPE FRUIT AND DIRTY PRUNES—PASSING THE BUCK

The editor of The Plymouth Mail last Saturday noon received through the postoffice the following letter: "Wayne County Welfare Relief Commission, Out-County Unit, 2697 Michigan avenue, Inkster, Michigan, Stuart W. Grant administrator. These commodities are provided through the Federal government over and above what the local relief units provide, and in planning the budget for these families, the local relief commission does not take into consideration the surplus commodities that may be provided. "This office made inquiry before Christmas, in the city of Plymouth, and was informed that all families on relief there would receive Christmas baskets through local charitable organizations. "Very truly yours, "Wayne County Welfare Relief Commission, "Stuart W. Grant, "Administrator Out-County Unit."

There was a foot-note advising that copies of the letter had been sent to E. Elliott (city manager of Plymouth), Mayor Blunk, Mrs. Whipple, George Robinson and Arthur Blunk (Mrs. Whipple, Robinson and Blunk are members of the city commission.) Copies of the letters were received by these officials the day previous to the receipt of the letter by The Plymouth Mail.

The printed information at the top of the letter-head says, "Wayne County Welfare Relief Commission, Out-County Unit, 2697 Michigan avenue, Inkster, Michigan, Stuart W. Grant administrator. Commissioners, James Fitzgerald, George Engel, William F. Van Moll, William C. Markley, secretary, G. R. Harris, county administrator, Benjamin J. Tobin, deputy administrator. Arthur J. Aldrich, chief accountant."

The article to which Mr. Grant refers, revealed to the public the almost unbelievable fact that the "county welfare organization" had sent a Christmas basket that consisted of a half dozen partly ripened grape fruit and two pounds of dirty prunes to an aged family on welfare in Plymouth.

The Plymouth Mail said then that every person who had anything to do with such miserable treatment of aged and dependent people should be kicked out of office.

The Plymouth Mail now says that in view of Mr. Grant's letter he must know something about who is responsible for such a contemptible thing and that Mr. Grant should reveal to the public at once the names of ALL persons who were in any way involved with it, so they can immediately be relieved from any connection with welfare work.

The Plymouth Mail said in its first article that there would be "denials and back-passing." This prediction has come true, much quicker than anticipated.

The statement made in Administrator Grant's letter that "The Wayne County Welfare Relief Commission has no part in knowing what commodities are provided people on the welfare or how much by the Works Progress Administration," is a most astounding admission as to the inefficient methods and duplications in handling welfare in Wayne county.

"These commodities are provided through the Federal government over and above what the local relief units provide, and in planning the budget for families, the local relief commission DOES NOT take into consideration the surplus commodities that may be provided," says Grant in his letter. Another admission as to the slipshod methods and the frightful waste of taxpayers' money in connection with welfare work.

Since the publication of the first article in The Mail pertaining to such shameful treatment of unfortunate residents in this locality, (Continued on Page Six)

A. went on record for universal fingerprinting unanimously. Several present were fingerprinted.

Want To Run For Office? Better File Petitions

February 1st Last Date If You Want To Run For City Commission

A little more than a week remains for prospective candidates for city commissioners to file nominating petitions. February 1 is the deadline for the filing of petitions. City Manager Clarence H. Elliott said this week. No petitions have yet been submitted, he said. Each petition, under the charter, is required to have at least 25 names.

The terms of three city commissioners—Edward Wilson, George Robinson and Arthur Blunk—expire this spring, and it is not known whether or not they will be candidates for reelection. Because of illness it is understood that Mr. Wilson will not seek reelection. While petitions have not yet been taken out for any of the commissioners, it was stated yesterday that friends of Commissioner Robinson would place petitions for his nomination in circulation before the end of the month. Commissioner Blunk has left for a brief vacation in Florida without making known his desires to any one associated with the city, it is stated.

It is known that friends of Judge Ford Brooks and Walter Harms have been urging them to file petitions unless other candidates appear soon. Present prospects are that Commissioner Robinson, Ford Brooks and Walter Harms will be the three candidates. If only these three file, then it is necessary of a primary election, there are only three places on the ticket to be filled. Neither Judge Brooks nor Mr. Harms has given consent to the use of their names, but reports are that petitions will be filed with the next few days for them as well as Mr. Robinson.

Also to be nominated is a municipal judge and a constable. Neither of the incumbents of those posts, Judge John S. Dayton and George Springer, have yet signified their intentions to run again. The city primary, unless a change is made to make it coincide with the state primary election March 8 will be held March 1.

City Manager Clarence H. Elliott will this week-end, seek an opinion from City Attorney Arlo Emery as to whether or not Plymouth may combine its local primary with the state primaries March 8.

Under Plymouth's charter, the city primary election will be held the fourth Monday before the spring election. The election year falls on the first Monday in April, this year April 5. Thus, under the charter, the city primary would have to come March 15.

By the state primary is scheduled for March 8 this year, although usually the date for the Plymouth nominating election coincides with the one for the state. The only extra local post to be filed at the primaries is that of county auditor candidates. A state post being nominated in convention.

Mr. Elliott hopes to avoid the cost of a special primary election, he said, by postponing the Plymouth primary a week and holding it in connection with and the same day as the state primary, March 8.

The city commission Monday night granted him permission to seek an opinion from the corporation counsel, Mr. Emery, who is out of town, is expected to return today or tomorrow, Mr. Elliott said.

Friends of Clare Maben, manager of the Mayflower hotel, are pleased to know that he is making an excellent recovery from his recent severe illness. He will probably be able to resume his duties at the hotel within the next ten days or two weeks.

First Building Will Be Of Tremendous Size

Work Started Early Monday Morning Leveling The Site

When excavation was started Monday morning for the first unit of the Burroughs Adding Machine company's plant on Plymouth road, just east of Haggerty highway, it was for a building that, upon completion, will be longer than the distance between The Plymouth Mail and the Mayflower hotel.

While 600 feet in the field where the plant is to be erected does not look like such a big space as one whizzes by in an automobile, if the plant were erected in the downtown portion of Plymouth the space covered would be almost two city blocks long.

It is 360 feet from the Mayflower corner to the Conner hardware store. It is barely 225 feet from the Conner store to The Plymouth Mail office, a distance of 585 feet between the hotel and The Mail office. The new Burroughs plant is to be 600 feet long. These comparative distances make it possible to easily visualize the tremendous size of the new building.

In addition to the preparation of the site for immediate building operations, a big steam shovel has been excavating for the water line that will flow from the sewage disposal plant to be erected by the company just north of the Shore greenhouses. These greenhouses, without making known his desires to any one associated with the city, it is stated.

Plymouth has already begun to feel the benefits that are to come to the community through such a tremendous expansion. Several families of Burroughs employes have started moving into the city and others have been here looking for homes. Some visitors from the Burroughs plant to the office of The Plymouth Mail have stated that they intend to start the erection of new homes in the early spring so that when they do come out here to work, they can move directly into their own homes.

There has been no industrial development in recent years that has created the favorable comment in Plymouth as to the state in last week's issue of The Mail stating that work on the Burroughs plant was to start immediately.

Woman's Club Holds Guest Day

Friday was guest day for the Woman's club of Plymouth and proved to be one, if not the most interesting meeting for some time. Mrs. J. R. Wiltner was chairman of the program and, in a very pleasing manner, introduced the speaker, Rev. Kirk B. O'Ferrall, of Detroit, who gave a clear, concise comparison of what England and Germany are today and what they were five years ago. Mr. O'Ferrall has spent ten weeks of each of the past five years there and told most interesting facts about the way they live, the feeling they have toward other nations and at last spoke of Ogrammergau, where the passion play is given every ten years. A group of Irish songs was sung by Barbara Horton, accompanied by Hanna Strasen. Miss Strasen also played two lovely instrumental numbers. Tea and coffee were served to the guests and members from an attractively set table with Mrs. Walter Nichol and Mrs. P. Ray Norton pouring. The next meeting of the club is to be on February 5, when Charles Shain will speak on "International Affairs."

Townsend Club Re-Elects Officers

The Townsend club, No. 1, of Plymouth held its election of officers, Monday evening, in the Grange hall, with the same officers being voted in for another six months. George E. Gullen of Detroit, gave a very instructive and interesting talk about life and what the Townsend plan can do for all. The next meeting will be held on February 1.

Manager Maben Continues To Improve

Friends of Clare Maben, manager of the Mayflower hotel, are pleased to know that he is making an excellent recovery from his recent severe illness. He will probably be able to resume his duties at the hotel within the next ten days or two weeks.

GIVE EVERY ASSISTANCE.

It was a real pleasure for The Plymouth Mail to present to its big family of readers last week the first general view of the new Burroughs Adding Machine company's plant that is to be erected in Plymouth this spring. This is but the first unit that the company plans to build in this place. Construction work is to start immediately, and while there is not much unemployment in Plymouth or vicinity, the building program that will continue through the spring and summer will give work to many men in this locality as it is understood the contractors do not plan to bring all of their workers from the city of Detroit.

Not only will the construction provide employment, but when the plant is completed there will be something like 150 men brought from Detroit to Plymouth to work in the plant. Many of these employes will move to Plymouth at once as it is known they have been here seeking homes. Others will come later. Burroughs workers, because of the nature of their employment, are all high type citizens, the kind that Plymouth is indeed, pleased to welcome here as permanent citizens.

They represent exactly the same kind of citizens we have here now, clean, progressive, home builders and home owners. Plymouth has long prided itself on its high standard of citizenship and the new industry will add several hundreds more people of exactly the same desirable type we have here now.

But we have something to do as well. The city government, every business organization within the city, in fact, every resident should put forth every effort to make the Burroughs company and the employes of the unit to be operated here, feel as though they are more than welcome to our midst. Every possible courtesy and aid should be extended. The company and the workers are asking nothing from the city or the township. A great, successful and high type industry is being set right down in our community without the slightest effort on our part to get it.

In return, we should sit up nights trying to think of ways and of things we can do to aid and assist the company in its building operations and in its efforts to become established in our city. If there is the slightest inkling from any representative of the Burroughs company as to anything this city can do to help, we should jump at the chance to perform the task in a most willing way.

Plymouth, today a city of a little more than 5,000 population, is bound to be a city of almost double that size in another five years. Let us prepare for this development NOW—and let us demonstrate to our new industry and its workers that this is the friendliest little city in all Michigan. If we do so, we just cannot help but profit from it.

THE NORTH SIDE.

It is pleasing to note that the business men of the north side have perfected an organization among themselves with an idea of promoting and building up that side of the city. That portion of Plymouth, long called the North Side, has been, since the early days of settlement, an active, progressive and a fine part of the community. The "downtown" section of the city was, in the long ago, called "Plymouth Corners", the north and south old trail road and the Territorial road, crossing in the "downtown" section.

The Plymouth Mail is pleased to note the North Side movement for several reasons. Some three or four years ago this newspaper pointed out that some day, and a day not so far in the future, that side of the city will be one of the most desirable in the whole community. This condition has been made possible by the wonderful park development, the creation of artificial lakes, parkway drives that lead directly into the business streets, landscaped hillsides and a general public development that has been nothing less than amazing because of its rapid creation.

The Mail urged in the years ago that the North Siders get together and work out some plan whereby that entire portion of the city could be "tied-in" with the park development, making both the north side and the east side have the appearance of actually being a part of the park system. Yes, there is much that can be done and we congratulate the north siders upon their first step in the right direction. Good is bound to come from it.

PROGRESSING.

It is real pleasure to read that the state conservation department is making progress towards the park and highway development along the Tahquamenon river so that the beautiful river and falls can be visited by the hundreds of thousands of people who have never had the opportunity of seeing the largest falls west of Niagara. According to information just released by the department, the state land authorities here have been notified that the national forest service is preparing for the first formal exchange of lands under the arrangement by which Michigan ultimately will acquire ownership of the upper and lower falls of Tahquamenon river and several miles of river frontage.

Officials of the national forest service have announced that they will submit a proposal listing the acreages and values of state land which happen to be in the national forest areas in Michigan and will be acceptable to them in exchange for the Tahquamenon property.

The Tahquamenon falls and several miles of river frontage were purchased by the National Forest Reservation commission several months ago for the purpose of exchanging the property for Michigan-owned lands in the national forests of the state.

Authorities intend to make the falls accessible to the public in a development project that will not impair their beauty and wilderness attractions.

You'll Understand Some Day

Oh, little men, whom God has given me
To cherish and to nurture through the years
Of childhood, how it hurts my heart to see
Your faces clouded with unbidden tears,
Or in your trustful eyes the flash of fears
That suddenly disturb your spirits gay,
And drive the smiles of happiness away!

by O. LAWRENCE HAWTHORNE

At times it grieves me most because I know
Your tears are prompted by an act of mine,
Some effort on my part to help you grow
In harmony with Nature's great design.
I wish that every moment joy could shine
Upon your busy little world of play,
And life could be an endless holiday.

I wish that everything you want to do
Could be accomplished in the way you planned;
But oh, so many tears must come to you
Before your baby minds will understand
The laws that rule our actions, and demand
A penalty for every word or deed
That violates what Wisdom has decreed.

And so, dear little men, I hope some day—
Perhaps I shall have crossed the Great Divide—
I hope that then your manly spirits may
More readily believe your father tried
To be your friendly comrade and your guide.
Oh, maybe you will thank me for these tears
When you recall them in the after years!

RAMBLING with Editors AROUND of Michigan

THE TRAILER TOPIC

The house trailer is daily making news for the number of owners and the number of uses is greatly increasing. Many companies have found the trailer an excellent means to display wares which were bulky and very difficult to carry and show to advantage in the past.

But the greatest interest is their use as homes, homes which can go anywhere, park anywhere, free of taxes and rent. Registration fees for trailers are not large. Eight states requiring \$5.00, and the fee elsewhere averages about \$10.00. In twenty-eight states there is no personal property tax on trailers, or much supervision of equipment. It hardly seems possible that this happy state can last but while it does many families are taking advantage of the nomadic life which it offers.

No one can predict the future of trailer homes, but they continue to improve in construction and conveniences, and indications are that there will be a substantially greater market for these houses on wheels this coming year.—Theo. A. Thompson in The Williamston Enterprise.

THE POWER TO TAX.

The new legislature is in session. If we have any advice to offer it would be to remember that "the power to tax is the power to destroy."—William Berkey in The Cassopolis Vigilant.

PRAY FOR DELIVERANCE FROM ANOTHER.

The worst thing about '36 was its deluge of political bull.—Joe Haas in The Holly Herald.

WHAT SHALL WE DO?

If there is one crime that is lower, more despicable, or more heinous than another, it is this snatching of a youth from any family for ransom! Murder is a mere accident in comparison. Now we have another kidnapping in the West. What shall we do about it?—Frank Bryce in The Grand Ledge Independent.

YES, WHAT?

We pray for and talk peace, but what are we really doing to prevent war. We may think ourselves free from European entanglements, but if the expected happens over there who can prophesy continued peace and safety for America.—J. E. McMullen in The Linden Leader.

AN IDEA WORTH THINKING ABOUT.

Now let's go American, and first let us take down and destroy and never again countenance those WPA and work relief signs the federal agencies have posted up on the highways, around public buildings, and everywhere a federal project is being carried on. Let's do not further insult and humiliate those workers who because of misfortune, reverses and ill luck, have been obliged to appear to federal agencies for a means to live and let live, by advertising them to the world that they are public charges. Let us dignify that work as a real job and not as a sap or a prop to enable the workers to weather the storm.—Al Weber in The Cheboygan Observer.

Taxpayer Forgotten

(Continued from Page One)

If a joint resolution introduced by Representative E. R. Eaton is passed by the legislature and approved by the voters in the 1938 election, the 1268 townships in Michigan will elect township officers every two years instead of every year. While it is difficult to estimate the savings to the taxpayers of the various townships, it is believed that it will save somewhere between \$200,000 to \$275,000 per election. While some township elections probably cost no more than \$70 or \$80 there are a vast number of townships in Michigan where the costs of an election run into the thousands of dollars. No one has ever been able to figure out why the constitution should require townships to elect officers every year. All county and state officers are elected for two or more years. From some inquiry made previous to the introduction of this resolution, its author was advised that the reduction of the number of township elections would be most acceptable to most township officials as well as the taxpayers of the 1268 townships in the state.

Speaker Schroder did not forget that he is a Democrat, that the majority of members of the house are Democrats and to the Democrats should go all the things to which the victors are entitled, when he made up his committee appointments. Only one Republican was given an important chairmanship. But the speaker did nothing different than the Republicans have done in past years. However, the speaker did give Representative Eaton of the fifth Wayne district, membership on five important committees. These committees are apportionment, general taxation, metropolitan affairs, Michigan State college and social aid and welfare.

There has been a suggestion that the appointment of Draper Allen of Birmingham as head of the sales tax administration, one of the best plums in the gift of the Governor, was made as a sort of indirect slap to Father Coughlin of Royal Oak. Voters of this locality will recall that Mr. Allen was the Democratic candidate for congress in this district against George Dondero last fall. The contest was an exceedingly close one. Seibert, Maynard of Oakland county was Father Coughlin's Third party candidate in the contest. Some of the Democrats claim that if Maynard had not been in the race that Allen might have defeated Dondero. Because of Father Coughlin's hostility to Governor Murphy, the selection of Mr. Allen, who was opposed by Father Coughlin, does not indicate that any effort is being made to pour oil on the rough political waters in these parts.

A Kalamazoo representative would keep Wayne county from having more than 25 members in the house, no matter how great became its population. Kalamazoo county is the last place in the world that should seek to keep Wayne from having its just representation in the state legislature. That place is a growing city and while the representative who introduced the proposal comes from the country district he is in a position to know the Wayne county problem of representation. No longer can it be said that the outstate districts provide any "higher" type representation than does the city of Detroit. At one time it might have been true that there was a difference favorable to the out-state, but not so any longer. However, with the out-state section in control of the reapportionment committee, there isn't much chance for any bill to be passed providing for increased representation from the cities of Detroit, Pontiac and Flint.

Dates Selected For The Northville County Fair

Event To Take Place August 25 to 28— Plan To Make It Best

At a meeting of the Northville-Wayne County Fair board held Tuesday night in the village hall at Northville, the dates for the 1937 fair were fixed for August 25, 26, 27 and 28, two weeks before the opening of the state fair in Detroit. For the past eight or ten years it has been the practice of the Northville Association to select this date for the fair. It is being held in a date of greatest convenience for residents in this part of the state who enjoy attending the fair.

President Elmer Smith reviewed with members the general program for this year. While it has been the practice in past years to provide for the opening day with the routine fair features, with a stage show at night, the fair board is considering for this year something entirely different. In fact, they plan to make the opening night program this year one of the outstanding events of the entire week.

All the members of the board feel that the 1937 fair should be the biggest one of recent years. They have started booking attractions in addition to making arrangements for a much larger display of fruits and vegetables, as well as a possible display of automobile tours.

Sup't George Smith of the Plymouth schools, will be in charge of the educational exhibit this year. It has been the practice of the fair association to alternate the responsibility between the school superintendents of Plymouth and Northville each year.

Every effort will be made to make this the best fair ever held by the association, says President Smith.

Old Letter Tells Of Civil War

War days!

The fate of the Union hung in the balance and Abraham Lincoln's words were still being answered on that November 9, 1862, when Mrs. Susan Breed of South Haven, Michigan, wrote to her brother, William Lyndon, 167 South Harvey street, Plymouth.

and Mrs. Breed's faded, ragged letter, which Mr. Lyndon brought to The Mail office this week tells of the Civil War, of the enlistment of her son, Willie, in the 19th Michigan Infantry regiment and of the shortage of food, high prices and hard times.

Calico, Mrs. Breed wrote that late fall day in '62, sells for "25 cents per yard, best cotton cloth 31 cents, common brown sugar from 12 to 15 cents, tea from 10 shillings to two dollars, flour, seven of hers one barrel, calsene a colloquial spelling of kerosene oil, 75 cents, salt three dollars per barrel. Pork is clear down. So you see it costs something to live here."

Woman Murderess In Quarantine

Capt. Denniston Says He Has Not Decided About Her Work

Thirty-one year old Betty Baker, convicted Ann Arbor murderer of her son-in-law, Clarence Schneider, this week started a period of quarantine in the Detroit House of Correction, to which Judge George W. Sample of Ann Arbor sentenced her for life.

"Betty is entering into the spirit splendidly," Mrs. Katherine Campbell, chief of the women's division of the prison said. She added she did not yet know what type of work Mrs. Baker will do in her confinement, but that it will be determined after the prisoner has gone through the medical, psychiatric and social service departments during her quarantine.

Capt. Edward Denniston, superintendent of the House of Correction, has said that Mrs. Baker's quarantine, during which she is practically isolated from other prisoners, will last a month.

Mrs. Baker's sensational trial for the murder of her lover, best friend of her policeman-husband, Albert K., ended with her sentence last Tuesday. The all-man jury, deliberating the pleas of Washtenaw County Prosecutor Albert J. Rapp, that Mrs. Baker murdered Schneider out of jealousy and of Defense Attorney Frank B. De Vine that the killing was accidental, was out two hours.

Mrs. Baker but once showed signs of visible emotion during her trial of a week and a half, and then only slightly. "It's fear rather than pluck," she told reporters in Ann Arbor. Almost gaily she went to the House of Correction, saying "good-bye for a long, long time. Prison is my career now." She maintains her innocence.

Plymouth Amateur Shuffle-Board Runs Rings Around Expert

Fred Easton, a well known resident in the vicinity of Plymouth who, with Mrs. Easton, is spending the winter in St. Petersburg, Florida, has just captured first honors in the Sunshine Pleasure club's Homecoming Shuffle Board tournament held in that place. Playing with Charles Montfort, the two took first and third games in the series.

The winners in the best two out of three contests were awarded trophies for their victory.

Dayton Bunn, of Northville, a regular winter visitor, with Mrs. Bunn, to St. Petersburg, who has been a steady contender for "honors" on the shuffle-board according to "grape-vine" clicks from Florida, has never "licked" in one of the contests. Plymouth boosters down south are getting a lot of satisfaction out of the fact that Mr. Easton, who has never claimed to be much of a cracker-jack when it comes to being a shuffle-board player, should walk away with first honors, especially when an old time expert like Dayton Bunn of Northville has never been able to get to first base in the contests.

St. Petersburg's shuffle board, regarded as one of the largest and best in the entire southland, is the mecca of thousands of winter visitors in the southland and to win a contest among the big number of expert players is an outstanding event.

With the early construction of fine highways the first aims were speed and safety. Beauty was not even considered in most places. Now beauty too, is to have its turn without in any way interfering with the first two aims. The movement is likely to gain momentum rapidly as travelers from billboard-infested regions through the beautified areas and become acutely conscious of the difference.

Chevrolet Workers Mass To Protest Against Enforced Idleness Caused By Strikers

More than 9,000 men, virtually the entire personnel of the Chevrolet Gear and Axle Division of General Motors Corporation, staged a demonstration last week against the strikes which have shut down General Motors plants and thrown out of work nearly 135,000 workers. The demonstration shown above occurred at the main plant of the Division's four units in Detroit. The employees assembled after this demonstration to receive their pay checks, their last pay until the resumption of operations. The employees' committee

voiced to publicize their opposition to the strike through personal telegrams to Governor Frank Murphy of Michigan and to President Roosevelt. The mass demonstration of protest was held under banners carrying these legends: "We don't want a strike," "We want our jobs back," "We object to minority rule," and "No labor dictators for us." In order to alleviate distress, the Corporation proposes to resume operations on a reduced basis in plants not shut down as a result of these strikes.

Scouts Plan For Future Rallies

The Scoutmasters of the Plymouth district met last Monday evening at Wayne County Training school. An interesting discussion was carried on as to the rally which took place last week and many suggestions for future rallies were considered. Plans were also considered for the coming district events.

The Court of Honor which was scheduled for February 11, has been postponed and is set for Thursday, February 18. Let's earn plenty of advancements, boys.

The Scouts of P-2 invite all of the fathers and sons to attend the banquet to take place Thursday, February 11.

This district is honored and may justly be proud of the fact that C. K. Loomis, Sr. is now actively connected with Scouting here. Mr. Loomis was for some time a Field Scout executive and has been in Scout work nearly as long as there have been Boy Scouts. He is now employed at Wayne County Training school and will have general supervision of Scouting there.

Calling all Scouts! Calling all Cubbers! Will you be at the third annual conference and dinner at the Temple auditorium, Detroit, Saturday, January 23.

The Cub Pack welcomes the following new Cubs and trusts that they will soon become Bob Cats: Sanford Burr, Russell Downing, Richard Wall, Paul Miller, Junior Russell, Melvin Wickstrom, Jack Olsvater, and James Svejcar.

The Cubs decided to start a new hobby and that would follow it, the hobby of saving.

W.C.T.U. To Meet January 28th

Plymouth Woman's Christian Temperance Union will hold its monthly meeting, Thursday, January 28 with Mrs. Clara Todd, 207 West Ann Arbor Trail. Members are urged to be present and guests will be made welcome.

GREEN GRAPE FRUIT AND DIRTY PRUNES—PASSING THE BUCK

It has come to the attention of this newspaper that many other families were provided with four, five or six partly ripened grape fruit and dirty prunes through the welfare, and this is repeated because the grape fruit and the prunes were delivered in county trucks that are used to transport welfare supplies.

In the past two or three days The Mail has also learned that a representative of the Wayne County Welfare Relief Commission has for more than a year been hounding an aged man and woman who own their home in this city, to sign a trust deed of their property to the state of Michigan in return for the welfare aid they have been receiving. The Mail happens to know that probably never again in the life time of either of these aged people will they ever be able to do another day's work. Declining years make it impossible for them to labor again. Through the fact that they live in a home they call their own, they have a feeling of security that only home ownership can provide—and the public "payroll patriots" have even threatened to force these old people to go without food and fuel if they did not sign the agreement. And this is called welfare work under the new order of things!

Both the Wayne County Relief Administration and the Works Progress Administration are directly and indirectly responsible for what has happened—The Relief Administration because IT DOES NOT KNOW what food is going to the needy, and the WPA for its part in sending half ripened grape fruit and dirty prunes, filled with straw and other refuse, to the hungry, if Grant's letter is correct.

The Mail repeats its original demand—that EVERY person who had anything to do with the delivery of these THINGS to the needy should be KICKED OUT OF OFFICE.

Why an effort was made to have it appear that the city of Plymouth had anything to do with the distribution of green grape fruit and dirty prunes at Christmas time to people on the welfare, The Mail does not know or care. But let it be said emphatically that the CITY of Plymouth had nothing to do with such a miserable thing. If Plymouth city officials were handling welfare you can make up your mind nothing like that could ever happen here.

The taxpayers of the CITY OF PLYMOUTH during the year of 1936 paid into the county welfare organization a total of \$3,961.00. This money is supposed to be used by the county welfare for the care of people in Plymouth who are unable to support themselves because of age, sickness and unemployment. Maybe the time has come for Plymouth to take back the care of its own unfortunate rather than permitting such a bungling job as that revealed during the Christmas holiday period.

The Plymouth Mail repeats its first demand, that EVERY PERSON, whether associated with the Wayne County Relief Administration or the WPA who had anything to do with padding green grape fruit and dirty prunes as "Christmas goodies" to needy people, should be KICKED OUT of their jobs at once. The letter from the Wayne County Welfare Relief Administration to The Mail provides additional reason not only for a good house cleaning, but an immediate ending of the farce that is taking place under both WPA and Relief Administration. The situation is about as disgraceful an affair as has ever developed in the conduct of public care of aged, helpless and dependent people—and apparently there is no one to blame but the HIGHER-UP and high paid officials directly in charge of these tremendously important cases—and every welfare case is an important one. Let The Mail say most emphatically there was nothing misleading or unfair in the article—someone is to blame and someone should be punished for it.

manslaughter in connection with the operation of a car; and to those who leave the scene of an accident without making their identity known; in cases involving personal injury, or serious property damage, and to persons who have been convicted of operating an automobile in a reckless manner."

And now a Roosevelt is going to marry a DuPont. There's nothing like having an economic royalist to fall back on when the abundant life begins to sag.

Drilling For Oil Near Salem

Northville School Teachers Given Bonus

It was indicated this week that "conditions appear favorable" for the finding of oil on the Rudolph Kehrl farm on the Seven Mile road, in Salem township, three miles west of Northville.

Drilling by J. C. Arthur, contractor for a Detroit oil company, began December 21. Men are drilling the site 24 hours a day in three shifts, according to Ben Walker, driller in charge. Mr. Walker said he did not know how far drilling will have to proceed before a "paying stratum" is reached. "Seriousness conditions in this section are not known well, he explained, although in central Michigan oil has been found at from 3,000 to 3,500 feet. At places outside Detroit and in southern Michigan, however, it has been obtained at considerable less depth. The Kehrl property, where the drilling is taking place is at present being farmed by Mr. and Mrs. Orville Dudley. Six miles south and west of the Kehrl farm, on the Marston Lee property, drillers are also at work, probing the land for a group of oil and gas seekers composed of Robert Arnold of Ithaca and Adelbert Myers, Emanuel Haab and Stanley Loveland of Ann Arbor.

The Northville high school was informed last week that it had been placed on the University of Michigan's two year accredited list. The teaching staff is back to 25 teachers after a fall from 30 to 21. R. H. Amerman, superintendent of public instruction, said Prof. D. C. Curtis, of the Michigan school of education, who inspected the school, said the most serious need for the school was more teachers; although he complimented it in other respects. The teachers were given bonuses totaling \$270 by the board of education, according to Dr. E. B. Cavell, president. "To show we appreciate their good work and loyalty,"

DODGE DRUG CO.

"Where Quality Counts"

principal of the Northville high school, entered this week on his new duties as president of the Northville Exchange club, after being elected last Wednesday. Other officers are Harold Bloom, first vice president; Fred E. Van Atta, postmaster, second vice president; and Charles A. Dolph, secretary and treasurer.

The Northville postoffice has reported a record sale of stamps for 1936, a gain of 10 per cent over 1935. Postmaster Fred E. Van Atta set the figure at \$18,175.93.

The Penniman-Allen theatre of Northville started last Sunday the showing of motion pictures on the Sabbath. New additions to the theatre, to make pictures and sound more clear, are expected to attract patrons, managers said.

Three applications have already been turned in for the job of caretaker of the Northville village hall, which was vacated last week Wednesday by the death of Reinhold P. Kiiken, 52 years of age. Mr. Kiiken, who had been ill for four months, died of complications from an operation, December 14, in Harper's hospital, Detroit. Members of the fire department, of which Mr. Kiiken was chief engineer, were pall bearers at the funeral Saturday. Burial was made in Detroit's Grand Lawn cemetery. The applicants for his job are John Hanna, Fred Hicks, fire chief, and Orrin C. Casterline.

Births exactly totalled deaths in Northville during 1936. The office of the village clerk announced that 56 births were recorded and 56 deaths. Several prominent citizens died away from the village, however, and are not recorded in the death list.

Northville, last week, mourned the passing of Miss Eva Boyce, 85-year-old member of a pioneer family, who died of pneumonia January 9 in Eloise hospital. Burial was made January 12 in the Oakland cemetery.

Gay dancing couples filled the Northville high school gymnasium last Friday night for the annual Hunters' Ball, staged for charity purposes by the Kings' Daughters.

Funeral services were held in Milford Saturday for 32-year-old Robert McCall, who was killed at 12:30 a.m., January 14, when the car in which he was riding crashed head-on with a truck driven by John Chism of Detroit, on Grand River avenue, one mile west of Novi. Walter Dillon, 34 years old, and Henry Durham, 50 also in the car, were injured and badly shaken up. Fred Marvin Ladd, of Milford, 29-year-old driver, is being held for investigation by state police. Ladd's car going east, hit the truck, the driver of which was uninjured, when he attempted to pass another automobile.

John A. Boyce was reelected president of the Depositors State bank in Northville last week. Edward H. Lapham and E. S. Beard were renamed vice-presidents.

Mr. Mettetal is participating in the eight weeks course in practical floriculture, one of the nine studies offered in specialized winter work at the college. Other courses include those in general agriculture, home economics, soil course management, dairy manufacturing, dairy production, forestry and wild life conservation, agricultural engineering and poultry.

Chief Smith Likes School Work

Finds Much of Interest in Washington He Writes To Officials

Chief of Police Vaughn B. Smith, studying in the Federal Bureau of Investigation National School of Police at Washington, writes Acting Chief Charles Thumme that he "is getting along nicely" and acquiring much helpful information that he can reach members of the Plymouth force.

City Manager Clarence H. Elliott also is in receipt of a letter from Chief Smith, as well as one from J. Edgar Hoover, head of the bureau and director of the bureau of investigation, telling of the arrival of the Plymouth representative.

Chief Smith is the only police officer from Michigan among the 37 at the school, who come from nearly every state in the union. This, in the opinion of Mr. Elliott, who some time ago requested that Mr. Hoover invite Plymouth's police chief, is a distinct honor to this community and its law enforcing agency.

At present, Chief Smith writes to Mr. Thumme, he and his fellow students are shooting in an air-conditioned, sound-deadened rifle range. The equipment, he says, "is wonderful."

The chief is well located, his letter explains, on the Maryland side of the Potomac river, about six miles from the capital. He will be there until April, Capt. Elliott says, acting as chief during his absence.

The Federal Bureau of Investigation, Mr. Hoover wrote Mr. Elliott, will keep the Plymouth city hall informed as to the progress Chief Smith makes in the police academy.

The bureau director's letter to Mr. Elliott follows, in part: "The course of training, as you are well aware, will continue for a period of twelve weeks. We shall do our best to make Chief Smith's attendance at this school a profitable one, not only for himself, but for your department, as we hope to enable him to return for the purpose of aiding in the instruction of the other members of your organization upon his completion of this course of training in Washington."

"I assure you that it was my very great pleasure to be able to extend the invitation to your organization to send a representative to attend this session (the fourth annual) of the FBI National Police Academy."

"With assurances of my best wishes and highest regards, I am, since your yours, John Edgar Hoover, Director"

Farmers Invited To Hear About Soil Conservation Monday

Educational meetings for the 1937 Soil Conservation program are to be held as follows: Monday, January 25 at 7:30—Plymouth high school, Plymouth. Tuesday, January 26 at 7:30—Belleville high school, Belleville. Wednesday, January 27 at 7:30—Flat Rock high school, Flat Rock.

All farmers of Wayne county are requested to attend at least one of these meetings as there are several changes from the 1936 program. They will be given an opportunity to know how they can benefit to the best advantage from the program in time to plan their 1937 farm crops.

Life after all is just a big bundle of little things.

Hewer Visits Big Lowell Poultry Farm

Charles Hewer has returned from Lowell, Michigan where he has been at the Foreman Poultry farm for a few days looking over their big poultry plant. Mr. Hewer has been appointed Plymouth representative for these nationally known producers of white Lechorns and barred Rock chicks. He says he expects a big business this year.

Charles Greenlaw Buys Barber Shop

Announcement has been made of the purchase by Charles Greenlaw, Jr., of the William Tagge barber shop in the Fisher building next to the old headquarters of the Salvation Army on Penniman street, directly across from the downtown park.

He has been busy remodeling the place and has already painted and papered it up so that the shop has a first class appearance. Mr. Greenlaw is an old time barber and during the past few months has been employed in a barber shop in Northville, which has operated a beauty shoppe in connection with it. He will provide first class barber service for ladies and children as well as men.

Continues New Used Car Sale Plan

So successful were the results from the advertisement announcing the new plan for the sale of used cars by the Ford sales and service following its publication in last week's issue of The Plymouth Mail, that Paul Wiedman and his associates have decided to continue the offer.

The plan is an especially good one and beneficial to the buyer of a used car and because of its popularity with the buyer, Mr. Wiedman announces its continuance.

All F and G Fords of \$100.00 or more in value will be sold with new Ford batteries during the sales offer and for a 90 day period after the purchase, the Ford garage will pay 50 percent of any service or repairs done at their garage. The complete and authentic details of this new purchase plan are given in an ad. appearing elsewhere in this issue of The Plymouth Mail.

The nervous energy wasted in envying a competitor would prove powerfully helpful if diverted entirely to use in building one's own business.

Rocks Take Second In T. V. A. A. League

With Plymouth beating Dearborn and River Rouge beating Wayne the Rocks came out of a three-way tie to hold second place in the T. V. A. A. alone. It was a good game to watch, the Plymouth plays were being nicely, the reserves did a fine job and called the plays close on both teams. This is probably the reason there were so many fouls. Under the expert captaincy of Robert Egge, who was on the floor practically all of the time, the team played better and smoother ball than at any time the writer has seen them.

The game started fast. Egloff got the ball on the tip-off, passed to Moe and Plymouth had two points. No sooner was this executed than Egloff shot one in from the same position. Plymouth was slowed down for awhile by three fouls made by Egloff, and Innis. Then after Egloff had made a basket from the key, six more fouls were called, five in succession. Plymouth had three fouls and made two points; Dearborn had three fouls and made three points. The crowd got a laugh from one foul. A little fellow named Dapprich of Dearborn came tearing down the floor and bumped into Trinka; he rebounded and lit flat on his back and the foul was called on him for charging. Trinka made it. During the rest of the half Plymouth made twelve points and Dearborn five. When the half ended the Dearborn team had 12 points and Gordon (Cotton) Moe had 14 of Plymouth's 28.

Trinka opened the second half by sinking his charity toss after being fouled by Dapprich. Hain and Dapprich made field goals to bring the Rock lead down four points but Innis put it up again with a field goal and free throw. Davis and Stacy made their free throws for the Dearborn quintet, as did Moe for the Rocks. Tennant and Martin exchanged field goals to end the third quarter 19-35. With this large a lead the Rocks group had little to worry about but they kept the score rolling higher as time wore on. Egge well illustrated this fact as he rolled in two field goals. Krumm and Stacy exchanged field goals as did Stacy and Innis to end the game with the Rock team the winners by the score 45-23.

COMMITTEES PLAN SENIOR DANCE FOR NEXT MONTH

At a meeting of the senior executive board last Friday, committees were chosen to plan the senior dance to be held February 19. Those who will work with the advisers in making arrangements are: Madolyn Weller, Barbara Hubbell, Dorothy Hearn, Virginia Cline, and Pat McKinnon, publicity; Manan Tuck, Georgina Schultz, and Robert Hudson, orchestra; Norma Jean Roe, Jean Dunham, and Erma Bridge, tickets; Phyllis Stewart, Helen Weake, Barbara Nigg, and Jeannette Brown, chaperons and invitations; Pollyanna Wright, Harriet Ingall, and Irene Granger, refreshments; Russell Marraw, John Moore, David Hale, and L. J. Owens, floor; and Tom Brock, Robert Egge and Jack Birchall, cleanup.

CLASS NOTES

Miss Gray's 8A girls visited the first grade story period Friday afternoon. This was to aid them in their work on ways to care for younger children in the unit of child development. Another group of 8A girls had luncheon at the Mayflower hotel on Wednesday in connection with their meal planning and table service. The 8B girls are completing their cotton dresses and for the rest of the semester will take up the care of girls rooms. The 7A foods class is working on the kitchen unit, taking into consideration the selection, arrangement, and care of kitchen equipment and furnishings.

ROCKS TROUNCE NORTHVILLE 35-27

(Omitted from last week's issue)

The Plymouth quintet scored another victory Tuesday, January 19, when they encountered their closest rivals from Northville on the Orange and Black's floor. Their game usually has a number of exciting points in it because of the rivalry of the towns, but this game seemed to outdo the others as the Rocks whipped their rivals into submission. The scoring attack was led by Egge with a total of five field goals and four free shots. The Rocks' five led the Northville lads throughout the game but in the fourth quarter the Rocks lead was cut down to two points for a while the crowd anticipated a turn in affairs.

STARKWEATHER NOTES

Miss Sparling's students are reviewing their subjects by answering questions written on the board. They have been taking achievement tests and have completed all but one. The girls' handicraft class is decorating cloth with black printing and stencil designs. Mrs. Clyde Fisher was the first visitor of the new year last Wednesday.

Miss Farrand's pupils are reviewing their geography book. Duane Ostlund has moved to Detroit. Calvin Schepper of Farmington entered Teams one and two are tied in the Long Ball tournament.

Miss Brock's 4A geography students are studying China. Both classes (4A's and 5B's) are reviewing geography and arithmetic as much as they find time to. The Holland mural is ready to be painted, both pupils and teacher are very proud of the fact that all of the work is being done by students. Frona Tennant is absent because of illness. The boys' spelling team, led by Marvin Wilson, defeated the girls' team, under the guidance of Rosemary Hertz.

Miss Rathburn has divided her oral reading class into three groups; the section that has the most stars at the end of the week plans a reading program for the whole room. Stars are awarded to the group that does the best reading and pays the closest attention. The oral language class is carrying out an "Inquiring Reporter" program. One member of the class asks someone a factual question such as "What do you intend to do when you grow up?" The questioned answers to the best of his ability, being careful to use correct grammar. The boys' woodcraft class is building birdhouses to enter in the Detroit News contest.

The kindergarten A's are enjoying their seat work pads which supplement their readers. David Jolliffe has been ill for several weeks.

Street Scene in Sitka, Alaska
Alaska was purchased from Russia in 1867 by Secretary William H. Seward for the price of \$7,000,000. This money has more than been repaid by its fisheries, great wealth in fur, and gold. Alaska was organized as a territory in 1898 with Sitka as its capital.

Careful consideration of the ceremonial requirements by our experienced representatives assures a service that is eminently satisfactory.

Ypsilanti Bows To Rock Debaters

At the beginning of the same Plymouth more than held its own but at the end of the half Northville was only one point behind. The beginning of the second half was exciting for both sides, but soon Northville began to get the better of Plymouth. The ball was in Plymouth territory most of the time. Boclens of Northville seemed to be the star of the game for whenever he got the ball he made a basket. The game ended with Northville going strong and the score 26 to 18 in their favor.

MESDAMES OLSAVER AND MOON TEACH GIRL SCOUTS BRIDGE

At their regular meeting the Girl Scouts of Troop 1 had a general discussion of activities planned for the rest of the winter. Belva Barnes was appointed to get permission for the Girl Scouts to use the Boy Scout Cabin for an overnight hike. The skating party and sleighride have been changed to a roller skating party and a hayride because of the lack of snow.

G. R.'S ELECT McLEOD PRESIDENT

The members of the senior Girl Reserves spent their meeting last Thursday in electing officers for the second semester. Ireta McLeod, president this semester, was reelected to hold that office for the rest of the year. Others chosen are Barbara Hubbell, vice president; Margaret Bentley, secretary; and Phyllis Stewart, treasurer. Margaret Bentley, as secretary, and Patricia Cassidy, program chairman, were chosen to attend the Girl Reserves mid-winter conference at Lansing during the week-end of February 5, 6, and 7. Other chairmen of committees are Dorothy Hearn, social; Jeannette Schwartz, service; Jean Dunham, ways and means; Irene Ciesielski, publicity; and Madolyn Weller, music.

VARSITY CLUB TO PUSH PUBLICITY

The main problem being discussed in Varsity club now is how to raise more money, in order to carry out their numerous plans. The club is also discussing plans for advertising to get more people to come to the home basketball games, since last week's turnout was not very good. A committee consisting of Hudson, Egge, Gilles, Sackett, Delaurier and Wilkie with Sackett as chairman, was chosen to push the publicity work. President Trombley is trying to get concessions at another basketball game; the club did fairly well with the pop corn last week.

LIFE

I'm tired of living life's endless pace.
Tired of greeting each new face.
Tired of seeing and going afar.

Tired of life's mocking every man:
Tired of seeing lives crushed out.
Tired of crossing roads of doubt.
Tired of saving and striving alone.
When all you've got is a beggar's song;

Tired of friends, heartless, untrue.
Like you a while, then turn 'gainst you.
Life's going on, and a song you sing.
Then all of a sudden you haven't a think.

—Ida Wefsenmoe

The poem is a philosophical poem written by Ida Wefsenmoe who is a member of English 10B class. Whether or not this bit of creation is the result of class work in lyric poetry the instructor, Miss Waldorf could not say.

Valued most when needed most

TELEPHONE SERVICE has become so efficient, so easily used, that it draws no particular attention to itself. But its value is sharply emphasized whenever a home is threatened by one of the three great domestic emergencies:

Call the police! No home is safe from the lawless prowler, intent on theft or violence. But the telephone is his enemy; its mere presence in the house creates an added risk for him. The prowler knows this. He knows how quickly it can spread the alarm, flash out the call that brings the police swiftly to the scene.

I smell smoke! After a fire breaks out, time is priceless. Every moment's delay increases the damage and danger. There is always a point beyond which control is impossible, and destruction complete. But almost any fire can be extinguished with trifling loss—if taken in time.

Get the doctor! Amid the panic caused by sudden illness or injury, one thought leaps to mind. The man needed now, above all others, is the doctor. The interval before he comes is one of anxious waiting—a dread period which the telephone can shorten. One call secures prompt advice on first-aid, and hastens the welcome arrival of the doctor.

In emergencies, even seconds are important. And the more important they become, the greater the value of the telephone in protecting property, relieving anxiety and saving human lives.

D. A. R. Chapter Celebrates

(Continued from page one)

wrecked the mother's mentality, and where potatoes and more potatoes and cheap bolonja had been the only diet; of the efforts of her self and her aides to induce this family to adopt American ways of eating and living. The effort were discouraging, but slowly successful. She held her audience in rapt attention.

Miss Ford's high school group then presented "The Lost Princess", a Chinese play, in the true Chinese fashion. They delighted their audience with the quaint manners of the oriental.

Mrs. Strod introduced the honored guests, the Regents, Mrs. Louis J. Flint, of the Louisa St. Clair chapter, Detroit; Mrs. Basil L. Connelly, Ft. Ponchartrian, Detroit; Mrs. Assa Stutzman, Col. Joshua Howard, Dearborn; Mrs. W. C. Hudson, Ezra Parker chapter, Royal Oak; the state officers: Mrs. Osmund D. Heavenrich, state recording secretary; Mrs. Hessel W. Tenhave, state registrar; Mrs. G. Hopkin, state chairman of finance; Mrs. Dwight Randall, state chairman of the student loan. All responded with words of congratulation. There were also present, Mrs. Gregory, vice Regent in Detroit; Joshua Howard; Mrs. Jesse McNeil, vice Regent; Ezra Parker and Mrs. Vent of Ezra Parker.

The meeting was one of the largest in attendance held by the Kiwanis club in some time. President James Gallimore expressing his appreciation of such a good attendance.

There are more good wire-haired fox terriers on the streets of Berlin than almost any other city. They outnumber the dachshunds 5 to 1.

With fascism and communism engaged in making snoots at each other in Europe, it is the hope of the rest of the world that these twin monsters may scare themselves to death.

Miss Phyllis Rotnour, daughter of Mr. and Mrs. Ezra Rotnour of Plymouth, who has become one of the outstanding figures in Michigan, was strongly featured in both The Detroit News and Times Sunday in connection with the forthcoming skating carnival to be held in the Olympia in Detroit, on January 30 and 31. The News carried a four column picture of Miss Rotnour with a group of other outstanding Detroit skaters and The Times featured her in connection with another group of fancy ice skaters in Detroit, on January 30 and 31.
