THE WELFARE PROBLEM

There is no question before the public today of more vital interest and concern to every person than the welfare. Political manipulation of business, hateful retaliations and other reasons far beyond the control of the little fellows in business and the workers, who are the actual sufferers, have brought us to a condition far more serious than it was just after the national election when President Roosevelt defeated Herbert Hoover.

Now there are thousands and thousands of good people who are destitute, who at that time had something.

So the welfare problem and its administration has become our most serious question.

On one side of the fence are the professional welfare politicians who have but one object in view and that object is to get and keep public jobs for themselves.

On the other side are people who believe in honest administration of welfare, without paying into the pockets of the welfare administrators a goodly portion of these welfare funds and who believe that public assistance should go to those in need.

Dr. Stanley D. Insley of Detroit was a member of the Welfare Relief and Study Commission that two years ago gave careful thought to proper welfare administration. Of all the members of that body he presented by far the best solution of the whole problem, but political welfare job holders predominated and his purposes were defeated.

There is so much interest and discussion of the welfare question right now that a letter he sent to the commission nearly two years ago is probably more timely now than it was then, for everything he said at that time is just as timely today.

His letter tells what the welfare organization should be. In part it follows:

"I wish to re-affirm my belief in the need for an improved integration of the various State and local relief and welfare functions. On the other hand, a mere accumulation of scattered governmental relief cogs into one central machine shop, does not necessarily create an improved integration.

"I also wish to again express my belief in the desirable ends sought by the various social security enactments.

"Permit me to register a doubt however as to the possible use of relief subsidies towards the promotion of a self-perpetuating bureaucracy.

"The proposed State welfare commission, (a tax-spending body), seems too far removed from electoral influences to be safe (in the long run) for a tax-paying democracy. Any administration could not change the complexion of the commission within its two year tenure of office. Once appointed, such a board might, if it wished, markedly influence an election through its power of distributing public funds, and in its proposed set-up, is hardly responsible to any other governmental authority or single subsequent election.

"The suggested size of the proposed State commission is too small to permit of adequate and specialized citizen representation, upon all of the various welfare activities which it is intended to embrace. The end result might be a commission which would serve only as "window dressing" to an entrenched department.

MyRadio

By James Hays

Speak to me, Darling, oh, speak!
The store guaranteed you to talk.
How meekly and weakly you squeak,
How loudly you whistle and squawk!
The baby's learning to walk
And he can say "Mamma" and "Pop!"
You're older than he but you balk—
You whisper and gargle and stop.

Speak to me, radio, speak!
I'll even allow you to sing;
The market review for the week,
A prize-fight—just any old thing,
Jazz music would tickle me pink
A bedtime story will do.
Oh please, Super-het, don't you think
You could say just a sentence or two?

Far into the night I implored
That radio stubborn and still.
It acted as if it were bored
With all of my coaxing until
I gave up and started for bed
And then it remarked with a cough,
"Hooeee—hoo! It's one fifty-five
This is station Grk Grk signing off."

resentation, upon all of the various welfare activities which it is intended to embrace. The end result might be a commission which would serve only as "window dressing" to an entrenched department.

"The proposed local picture is also distorted. I am not so sure, for example, but that there will be an actual invasion of judicial and quasi-judicial functions by relief administration edicts.

"There is no proposed improvement in the field of medical relief—one of the most costly and perplexing of the relief situations. The intake policies have not been clarified nor simplified. It is my opinion that millions of dollars can be saved the taxpayers of the State if an adjudicated standard of relief were adhered to. This money saved could be more adequately used for those more honorably entitled to such relief.

"The proposed method of financing the various relief and welfare activities is just as inadequate as might be those methods entirely dependent upon a fund-matching basis."

The above letter briefly tells some of the faults of the proposed welfare set-up that welfare politicians are working so diligently to have made a permanent law. It also tells why the present welfare administration is being so miserably handled.

TAXES, TAXES, TAXES, ETC.

Harry Lang of Evansville, Indiana, who owns a solvent corporation that manufactures lubricants and that controls a floor-wax firm and four gasoline stations, in a New York Sun story offers to give away his business—to anyone who will pay him in salary for five years what he now pays in taxes. His total tax bill in 1938 will be \$30,000, equal to 20 per cent of his gross and more than his total capitalization. Included are: the encumbrance tax, the Indiana State gross income tax, social-security tax, personal-property tax, gasoline tax, net income tax, corporation tax, capital-stock tax, truck-wheel tax, and chain-store tax. Lang says he has written President Roosevelt, giving him the first chance, because he figures he is working for the government anyway.—News-Week.

HOUSING FOLLOWS PAYROLLS

A lot of misinformation has gone out regarding the request of the railroads for a modest increase in rates—an increase that seems absolutely necessary if this industry and the savings of investors are to be saved from ruin.

For example, the statement has been made that "if freight rates are increased on building materials, the new government drive for low-cost housing is dead before it starts," because one-third of the cost of brick and tile consists of transportation charges.

According to Interstate Commerce Commission figures,

the average wholesale value at destination of building tile and brick is \$14.58 per ton, of which the freight rate averages \$2.66 per ton—18.3 per cent, not 33-1/3 per cent. In a brick veneer house costing \$10,000, there are approximately 70 tons of brick. If the proposed railroad freight increase is allowed, the increase in cost of brick in such a house would be about \$28.

As a matter of fact, housing presents a remarkably good example of how little the requested 15 per cent freight rate increase would mean to the consumer. For most people, a home is the largest single expenditure made in a family's life time. If the rate rise goes into effect, it would increase the cost of the average \$5,000 house in the United States about \$43, according to the Association of American Railroads. That sum would neither start nor stop building a home.

At the ICC hearing on the freight rate increase, the vice-president of the Associated General Contractors of America—an organization which is certainly vitally involved with building, and has offices in 104 U. S. cities—testified in support of the rails' request. Informed business men in all fields know that the cost of the rate increase would be completely insignificant compared to the adverse effects on the country caused by near bankruptcy and paralysis of development in our greatest single industry.

CRACK DOWN ON RELIEF CHISELERS.

If reports can be depended upon our welfare and pension aid is being shamefully abused either by those aided or by the investigators, or both. Many people are getting into that state of mind in which they believe they have a right to demand what they want. With some it is no longer a question whether they must ask for charity. They boldly ask for it because they think they are as much entitled to it as some other person they can mention who may or may not be entitled to public aid.

Numerous people are asking for old age pensions seemingly with the idea that all they have to do to qualify for it is to reach the age of 65 or 70 years instead of reaching a condition in which they can no longer support themselves.

In most cases it is no disgrace to be poor, but it should be considered a disgrace for people who have property and ample means to support themselves to ask the public to support them. It is an actual fact that some have asked public aid because some other person or family was getting it.

Calhoun county is cracking down on relief chiselers, and other counties may well do the same. Over in that county merchants are forbidden to give money instead of merchandise on relief orders. Also any person on direct relief shall be removed from relief rolls if such person is operating a motor vehicle, or procures a license to operate one, without special permission from the ERA.—H. J. Richardson in The Augusta Beacon.

NO CHANCE.

When one buys goods on the installment plan there is usually a repossession clause. In the case of the job holders who had to buy tickets to that \$25-a-plate Jackson day dinner in Detroit on the installment plan we wonder if the repossession clause covers the dinner or their job. Who knows?—William Berkey in The Cassopolis Vigilant.

GOVERNMENT CONTROL OF AGRICULTURE.

There are said to be 6,000,000 individual farming units in the United States. The new 1938 Agricultural Adjustment Act will, if successful, exercise control over most if not all of these farmers. So complex and involved is the plan that few farmers understand it. It is said that very few of the members of Congress understand it. However, it carried in the House 743 to 135, and in the Senate 56 to 31. No one seems to be able to accurately estimate what it will cost.

One thing is certain. Agriculture will come under government control more completely than in any of the foregoing attempts. In 1933 there were six separate and distinct efforts to straighten out the tangled and conflicting agricultural interests. These were:

Market trading; price fixing; imports; cooperatives; grading, and stockyard supervision.

The new act is much more extensive and reaches right into the individual farmer's acreage, production, market and price control. It embraces among other things, interest rates, land use, crop output, crop sales, crop damage, planting, price fixing, market trading, foreign trade, farm income, tenant aid and grazing. It is not strange that the 25,000-word bill is not easily understood by Congress—much less farmers themselves.

Through treasury subsidy payments to farmers it is planned to control his acreage and production of various crops. This new endeavor will require the use of an estimated 100,000 inspectors, farmers who are chosen by farmers themselves, for the jobs. The adoption

of the plan hinges upon two-thirds of the farmers voting to come under its provisions.

Briefly, if we understand it rightly, the plan is to cut the production of crops and to encourage more acres into soil conserving plantings. A certain set percentage of a crop is to be sold at a price supposed to be high enough to bring about the much talked of "parity". The balance of the farmer's crop is to be stored and not put on the market. If the farmer is found to be selling that part of the crop which he is supposed to store, provision is made for a 15-cents-a-bushel fine, or penalty which is to be assessed against him.

Into this new act has been injected a new provision for crop insurance, which the farmer might pay for by selling his surplus crop to the government at 15 cents below the market price.

As before stated, the whole plan is complex, involved and will require much explaining and much supervision and inspection. Its adoption depends upon two-thirds of the farmers voting to come under its provisions.

To those who have always looked upon farming as an "independent life" and the farmers as rugged individualists, it appears strange—very strange.—Schuyler Marshall in The Clinton County Republican-News.

5 REASONS

WHY YOU SHOULD HAVE TELEPHONE SERVICE:

- 1—CONVENIENCE** You can order groceries in bad weather and run countless errands by telephone, without leaving the house.
- 2—PROFIT** A telephone often is helpful in securing employment. And it helps save carfare and driving expense.
- 3—PLEASURE** With a telephone, you can enjoy frequent chats with friends, and they can reach you easily when parties and "get-togethers" are planned.
- 4—PROTECTION** In case of fire, sickness, burglary or other emergency, aid can be summoned instantly only by telephone.
- 5—PRESTIGE** A telephone of your own is both a social and business asset. And it eliminates the embarrassment of asking to use a neighbor's telephone.

Mr. and Mrs. Robertson of Laurel road were in an accident which has kept them in the hospital for several days. Mr. Robertson is still a long way from being well.

We are sorry to hear that Mrs. Solberg is still under the doctor's care at the hospital. We hope she will soon be home again so the children can all be back in school.

The parent-teacher organization is co-operating with the other P.T.A. organizations in gathering clothes that you cannot use as there are many children who need them badly; also clothing for the grown-ups are needed.

We were sorry to have a very accident happen to one of our young people when Irene McIntyre was hit by a car on Plymouth road. She had been riding a bicycle with her chum, Helen Henry who was not injured. We offer our sincere sympathy to her parents and family.

The regular P.T.A. meeting will be held March 11. Special entertainment and election of officers are the important factors. Plan to come. It is to your advantage.

"Substance" will be the subject of the lesson-sermon in all Christian Science churches throughout the world on Sunday, March 13. The Golden Text, from Philipians 4: 19, is: "My God shall supply all your need according to his riches in glory by Christ Jesus." Among the Bible citations is this passage (Hebrews 11: 1): "Now faith is the substance of things hoped for, the evidence of things not seen." Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 468): "Substance is that which is eternal and incapable of discord and decay. Spirit, the synonym of Mind, Soul, or God, is the only real substance."

CALVARY BAPTIST CHURCH, Holbrook and Harding streets. L. B. Stout, pastor, 615 North Mill street. Many Christians are anxious to "bury the hatchet"; but like the old Indian, are only contented when it is buried in the scalp of an Indian of another tribe. Isn't it possible for the real "born again" Christians of this section to, at least, unite our prayer forces that God in His grace would be pleased to visit us once more in revival blessing and power? Pastors or Christian workers, who are burdened about this, kindly get in touch with me by letter or personal call at the above address. Some good radio broadcasts: Rev. John B. Zuller, WJR, 7:30 every evening; Dr. J. Frank Norris, WJR, 8:00 a. m. Sunday; the Lutheran Hour, CKLW, 4:30 p.m. Sunday; Old Fashioned Revival Hour, CKLW, 10:30 p.m. Sunday. Come to church Sunday and prayer meeting Wednesday, 7:30 p.m.

THE GOOD EARTH... *Southeastern Michigan*

DETROIT Edison service to farms began more than thirty years ago, when lines were being built from Detroit to serve people in outlying towns who wanted our service. Farmers living along these lines were our first rural customers. By 1927, there were 1,338 miles of rural lines carrying service to upwards of 5,000 farm families.

To speed rural electrification, The Detroit Edison Company undertook in 1928 an intensive program to bring electric service within reach of practically every family in our rural area. The part of the line cost which farmers were asked to contribute was greatly reduced. Rates to farmers were the same

as to city residences. Men from our Farm Service Division, with the cooperation of County Agricultural Agents and Michigan State College, went out among farm families, demonstrated the uses of electric power on the farm and in the home, and helped farmers plan for the service.

Beginning in 1928 no charge was made for line extensions where there were 10 or more farms per mile. In 1933 this was reduced to 7 1/2 farms per mile. And since 1935 service has been extended without any contribution where farms average five to the mile.

All of this brought electric service to thousands of farmers. During 1928 The Detroit Edison Company built 572 miles of special farm line, and at that year's end we had a total of 1,710 miles of such line,

servicing 7,707 farm customers. In the next nine years, the Company built 4,359 miles of line and connected 17,788 farms.

At the close of 1937, 87.8 per cent of all farms in the old Detroit Edison territory were receiving electric service from our lines. This percentage is among the highest in the U.S.A. Macomb County, where more than 97 per cent of all farms have electric service available, is close to our ideal.

In the new area in the Thumb of Michigan which we began to serve in November, 1935, progress in the building of farm lines has been from the start even more rapid. The number of farms served by us in this newer territory has tripled in the two years since Detroit Edison began service in that area.

25 Years Ago

In Plymouth and Vicinity—Interesting News of Days Gone By Taken From The Plymouth Mail Files

The Workmen's caucus which was held in the village hall last Friday evening was attended by nearly 200 voters, and this is, without a doubt, the largest caucus ever held in Plymouth. The meeting was called to order by C. H. Rauch, chairman of the caucus committee, and on motion, Arthur Jones was elected chairman and Warren Lombard, secretary. Edith Gayde, Frank Tomcray, Ben Havershaw, and H. E. Newhouse were appointed tellers.

Adna Burnett surprised his friends a few days ago by announcing his marriage to Mrs. Mura Hubbard, which took place the 28th of December at her home in Chelsea, Mr. and Mrs. Burnett will reside in Chelsea for the present.

One of the most delightful affairs Plymouth has ever known was the Masque Ball given by Mrs. Kate Allen, last Friday evening, in Penniman hall. At 8:00 o'clock the guests began to assemble and were received by Mrs. Allen and her niece Mrs. Burgess, of Detroit, and ushered into a realm of fairyland. From the walls grotesque faces grimed down at the maskers as though appreciative of their merriment. These faces were electrically lighted and the effect was strangely weird. The decorating was done by a decorator from Breitmeyer's in Detroit, and was unlike anything ever seen in Plymouth. Concealed behind a bank of flowers and foliage, Finzel's orchestra of Detroit played merry music for the dancers. In this scene of revelry were found men and women from "ould" Ireland, stalwart braves and Indian maidens, colored beaux and dusky damsels, organ grinder and his monkey which, by the way, was immense in the true sense of the word, jolly clowns, and frolicsome school girls, a beautifully dressed Spanish lady, a tambourine girl, stately dames, a tambourine girl, a lady exquisitely attired in a costume made entirely of crepe paper and a wee Japanese girl. Here, too, were found some of the characters made so familiar by the ads: the "Cream of Wheat Man", the frisky little Gold Dust Twins, "Old Dutch Cleanser". After the grand march the prizes, silk folding umbrellas, were awarded to Mrs. George Shafer (a colored belle) and B. B. Bennett (a country boy) for the funniest costumes. Mr. Bennett was so overcome by the unexpected honor that he fell to the floor in a faint, but was soon revived. A wheelbarrow load of assorted stuff was then presented to "Farmer Robinson", to help him in his new venture. Much merriment was created when Harry dumped his family in and started to wheel them homeward. Delicious refreshments were then enjoyed after which the dancing continued until the wee, small hours. One hundred and thirty guests were present, those from out of town being Charles Buell, Maxwell Moon, of Ann Arbor, Miss Burgess of Northville, and Miss Helen Fite of Norfolk, Ohio.

A new lodge of the order of the Star of Bethlehem was organized at the home of Mrs. Elsie Bovee on the evening of March 5. The following officers were installed: Commander, Mrs. Abbie Felt; vice commander, William Felt; pianist, Miss Gladys Felt; scribe and accountant, Mrs. Emma Reiman; physician, Dr. Patterson; treasurer, Mrs. Lela Brown; chaplain, Mrs. Charles Curtis; sentinel, Miss Agnes E. Hix; worthy past commander, Mrs. Elsie Bovee. The new lodge has made "the Silver Star" its name.

Gayde & Fisher, Plymouth's new implement dealers, have secured the agency for some of the best known lines of goods, and with their well-known business

ability they are sure to meet with success.

Mr. and Mrs. E. T. Doerr of Detroit were guests at H. A. Spicer's last Tuesday.

Born, March 4, to Mr. and Mrs. Arthur Blunk, a girl.

Elsworth Packard of Medford, Oregon, is visiting friends here.

Mrs. August Schaufele and little daughter, Margaret, visited the former's daughter, Mrs. Alfred Gust at Wayne, last Sunday.

Mr. and Mrs. D. E. Van Hove and little son of Detroit, visited at Fred Burch's over Sunday. Mrs. Van Hove and son remained for the rest of the week.

Ira Wilson has sold his 40-acre farm one mile south of Livonia Center, formerly the old Sockow homestead to Chris. Mining.

Emma Ryder has returned home after a four weeks' stay in Chicago with her sons, and now that she is grandma twice we will have to excuse her from work at the aid, as no old ladies are allowed to work, but can sit and knit, visit and warm her feet.

Philip Dingeldey has been drawn on the jury and has begun making trips to Detroit.

Society

Several friends of Marian Beyer surprised her on Wednesday evening of last week, the occasion being her birthday. A dainty lunch was served later in the evening.

Mr. and Mrs. Ralph Lorenz will attend a dinner party Friday, in Detroit, in the home of Mr. and Mrs. Lloyd Halstead.

Plymouth Rocks Win District Championship

With all the cups won by the basketball team in the past two years the show case will have to be enlarged. But a good team is often beaten by overconfidence and this is what almost happened last Saturday. The Rocks, a first rate team, looked very much like a second or third rate team. With only one-half of the Moe, Egloff combination gaining points for the team they looked very bad. Moe who is usually good for 10 or more points fed the ball in instead of shooting, while Egloff was high score man with 14 points. Egloff made eight out of ten free shots making an average of 80 per cent.

The first quarter was quiet with the Rocks far in the lead at the end 1-10.

In the next quarter the Wayne Zebras made only six points but the Rocks made only four and it looked as if it would be a very dull and uninteresting game.

In the third quarter the Wayne lads gained two more points on the slipping Rocks.

The fourth quarter was more exciting than all the rest of the game. Wayne kept cutting down the lead of the Rocks and at three minutes to go they stepped ahead by one point. The Rocks fought frantically to gain possession of the ball but Wayne kept going and made one more basket lengthening her lead to three points. It looked pretty bad and the Plymouth boys were plainly disheartened. But the boys were not quitting. Martin broke through and scored a field goal. This put new hope and fire in the Plymouth lads and Egloff promptly made a field goal and a free shot. The game ended with the Rocks leading 27-23. Captain Moe received the gold cup which will be on display soon. The next step is the Regionals which the team won last year and have high hopes of winning again this year.

There are 55,000 amateur short-wave radio operators in the world, and about 40,000 of them are in America.

COMMITTEES FOR SOPHOMORE DANCE

The committees for the Sophomore dance to be held March 18, are: Publicity, June Garrison, chairman, Edward Mulry, Lillian Howes, Lynn Ball, and Marjorie Knowles. Chaperons: Jack Butz, chairman, June Gardner, Janice Elzerman, Eugene Baker, and Shirley Bakerwell. Orchestra: Bill Thomas, chairman. Refreshments: Marilyn McCumpha, chairman, Shirley Mault, Helen Lissill, Constance Mills, and Virginia Rock. Tickets: Ivan Packard, chairman, Bill Herter, James Butler, George Felton, and Harold Fischer. Floor: William Alua, chairman, James Kelley, Robert Daniels, Larry Newman, Wesley Hoffman, Bob Lawson, Keith Lawson, Ford Lounsbury, and Bob Marshall.

BASKETBALL RESERVES HAVE OUTSTANDING YEAR

The Reserves have had a very fine time this year, winning nine games out of a possible fourteen. This year Mr. Ingram took the position of coach and did a very good job with the team coming in third. It is likely that River Rouge will finish first, Ypsilanti second, and Plymouth third, but there is nothing definite as yet.

Robert Norman was high score man for the year with 83 points to his credit. Harold Leach came next with 58, and William Norman with 56. The boys that made 50% of their free shots are R. Norman, W. Norman, B. Rutherford, L. Westfall and B. Alua.

Last year the team won four out of fourteen games and while 388 points were scored against the locals, they made 209.

This year the local cagers scored 346 points while the opposing teams scored only 261, a difference of 85 points. Nice work, Reserves!

STARKWEATHER NOTES

Miss Lyon's kindergartners are learning weather songs and making pussy willows. The children have finished two dining-room chairs and a dining-room table for their playhouse.

Miss Stader's first A's and second B's have learned a safety song which they sing to the tune of "Yankee Doodle". The words were taken from the Loose Leaf lesson page of their Safety Education books. The number two class is enjoying a new book called "Pets and Playtime". The farm yard is in progress now. The children cut out, colored, and made standards for the farm animals by shredding green crepe paper. Charles Van Landingham brought a lovely barn from home for the class to use. Next week the pupils intend to paint a background for the farm yard.

The children made kites of free hand work and have pasted them on the blackboard for decorations.

Miss Ben's third graders furnished a program for the assembly last week. Joe Harmon and Edna Newton tap danced. Three boys—Charles Stewart, Owen Kreger, and George Madrox sang. Ten of the girls did a dance called "The Irish Lilt."

Miss Blatcher's fourth graders have made a wild animal project of Michigan. Some of the animals which they drew and colored are chipmunk, muskrat, skunk, rabbit, deer, porcupine, and beaver.

In spelling Marilyn Verahure's team is in the lead having won again last week. In geography Miss Bock's fourth and fifth graders have finished their study of Egypt by taking a trip through the museum at Ann Arbor. They also finished their Egyptian project and are now beginning a study of Spain, Italy, and Greece.

The arithmetic captains in Miss Farrand's room are Jean Gould and Jack Vershure. Richard Dempsey has enrolled from Keego Harbor.

On the McCall spelling test Franklin Garrison had the highest score in the five A and Lloyd Johanson in the five B. The geography classes had lantern slides on the Pacific and Middle Atlantic states last week. The pupils have had special work this month in language and art dealing with Lincoln and Washington.

William Bauman won the last spell down.

PLAN FOR ASSEMBLIES FOUND GOOD

The Student Council is to be commended on the fine plan introduced when the Detroit Civic Orchestra visited the high school on March 1. Students were informed that attendance was not compulsory, and those who wanted to hear the orchestra and could afford it were charged a nickel. The others were required to stay in their home-rooms during the assembly period.

This plan has many distinct advantages over the one in which all students attend and those who can pay. In the first place, the audience is more attentive and more appreciative of the program, since those who are present merely because they have to be eliminated. Those who have no interest in the sort of entertainment being presented, and those who would rather use the period for study, are also excluded. This solves, to a certain degree, the overcrowding of the auditorium during assemblies. The Student Council receives just as many five-cent pieces as formerly, for all who go to the assembly must produce the cash. Most members of the Council have long lists of persons who owe money at present.

The only drawback under this system falls upon the teachers who must stay in the home-rooms with the students. This can be simplified if one teacher takes care of two or more home-rooms. It will be a boon to all if this plan is followed in assemblies to come.

GOINGS ON AROUND P. H. S.

Evelyn Bower and Carol Campbell attended the Ford Sunday Evening hour and heard Giovanni Martinelli.

Shirley Mason, Evelyn Bower, Bob Kenyon, Wilbur Chapman, Lois Schauffele, Margaret Erdelyi, Betty Smith, Chuck Epps, Ellen Nystrom, Rockwell Smith, Jane Taylor, Marilyn Holton, Lona Belle Rhode, Douglas Kaimback, and Wesley Hoffman attended a dance at the Rosedale Garden club house Friday night.

Miss Barbara McMullen of East Lansing spent the week-end with Lucille Otto.

Vern Schmidt has moved to a farm near Clarkston.

Miss Tyler saw "You Can't Take it With You" Saturday night at the Cass theater.

Miss Wells, Miss Lickly, Miss Fiegel, Miss Lundin, and Miss Waldorf heard Thomas Mann lecture Wednesday night in Ann Arbor.

MORE MUSICAL ASSEMBLIES

Why can we not have more musical appreciation assemblies like the one given recently by the Detroit Civic Orchestra? There seems to be no place or time during classes or clubs, outside of the music department, for students to hear and learn to enjoy classical and semi-classical music. A cultural part of the educational system is being neglected when this aspect of our education is neglected. Several of us pupils wish for more music-appreciation assemblies; everyone enjoyed the last assembly more than most that have been offered.

In 1930 the tax on gasoline cost a motorist \$18.60 a year. In 1936 the average cost was \$31.00 a year. At the same rate of increase, the cost per year in 1950 will be approximately \$106.

CENTRAL GRADE SCHOOL NOTES

The kindergarten B's made a doll house of the blocks last week, and furnished it with the doll furniture. The afternoon group built a log cabin out of the blocks to signify Abraham Lincoln's birthplace. The pupils cut free hand pictures of hatchets of red paper; red, white, and blue book marks, and silhouettes of George Washington. They also made pictures of a hatchet with cherries.

The afternoon class has started a book entitled "Before We Read" which will prepare them for reading their pre-primers.

Miss Campbell's first graders are having a contest to cut down tardiness. If a pupil is not tardy for a whole week he or she gets a gold star. The children have started having milk at playtime every day. The persons who can count to twenty are Larry Detling, Keith Ebersole, Sally Kelg, Betty Dupree, Alden Koschnick, Joan Lightfoot, Allyn Ostland, Marjorie Soaps, Arlene Wesseling, Margaret White, and Kathleen Zimmerman. The tulip bud burst one night last week and a lovely pink blossom is now proudly displayed in Miss Campbell's room.

Margaret Davis has left school and will be missed by her classmates in Miss Weatherhead's second grade. The reading classes are now studying the Peter and Polly stories.

Miss Inge's second graders are learning to count by 5's, 10's, and 2's. This week the pupils have been cutting out snow flakes. They have made more safety posters and spelling booklets with flag covers.

Miss Jewell's third graders have finished their Abraham Lincoln booklets and will soon have their George Washington booklets finished.

In art the students are making health posters. Since the children are beginning a unit on China, they are now making Chinese pictures.

Miss Robinson's fourth graders have made Washington booklets. The class has organized a citizenship club—the officers are—president, Marian Kirkpatrick; vice president, Jim McClean; treasurer, Douglas Price; secretary, Rose Marie Ericsson. Rose Marie's team is ahead in the spelling contest.

Miss Widmeyer's fourth graders have been drawing free hand maps of Africa. Bob Chute's spelling team has won so far in the contest. Roy Fischer is absent on account of illness.

In volley-ball Harold Schultz's team is slightly in the lead. The fifth graders in Mr. Berridge's room have completed their George Washington booklets. The room has had several preliminary matches in preparation for the metropolitan spelling bee.

The 5 A's are studying fractions and reducing their terms. The sixth graders in Mrs. Holiday's room are making color wheels in art. Robert Scheppele and John McClain are the captains of the spelling teams. Robert's team is in the lead so far.

Some common practices of bootleggers in gas and oil are to put illegal gas and oil into containers bearing the label of an advertised brand; mix inferior oil with lubricating oil; represent, as first class, oil that has been drained from a crankcase, and fall to pay state and federal taxes.

FACULTY TAKES DEFEAT GRACEFULLY

"Flash" Jacobi led his Faculty Falcons with the aid of "Ace" Evans to a glorious defeat at the hands of the Senior quintet who ran wild around their opponents. Looking at the Faculty Falcons one could see diamonds in the rough. Although their showing was dimmed by the great play of the seniors, the Falcons have some possibilities in "Flash" Jacobi and "Ace" Evans who through their individual efforts collected ten points for the fading faculty.

There was a rumor among the spectators that certain stars on the Faculty quintet were a "wee bit" dirty in their antics on the court.

The stars of the senior team were Innis and VanLandingham who collected 31 points between them.

On several occasions "Flash" Jacobi dribbled around the whole Senior team. He proved to be very skillful at it.

At the beginning it looked as if it might be close. The seniors were far in the lead at the end with the final score at 49-10.

GUM CHEWING IN VERSE

Perhaps one of the reasons why teachers so strenuously object to their students' chewing gum is this little doggerel from the little red school house days:

A gum chewing lad
And a cud chewing cow
Are the very same

It seems. But there's a difference: Oh! yes, I have it now: It's the intelligent look On the face of the cow.

Laws On Feed Lead To Meeting

Representatives of large and small feed grinding, mixing and feed sales and distribution mills in Michigan are sufficiently concerned with new state laws affecting livestock and poultry feeds to have asked and to have been granted a program for a two day conference on the campus of Michigan State college, East Lansing, Wednesday and Thursday, March 16 and 17.

In announcing the first conference of this kind, R. W. Tenney, short course director, named those who would participate in the educational event.

After registration Wednesday morning, A. G. Lohman, Hamilton, president of the Michigan Feed Manufacturers' association, will outline the program. E. L. Anthony, dean of agriculture, is to welcome those who attend and other greetings are to be extended by John B. Strange, state commissioner of agriculture.

First of the specific recommendations of departments at the college will be offered Wednesday afternoon. P. J. Schable is to describe angles of poultry feeding, G. K. Davis in animal husbandry and K. F. Huffman in dairying.

Thursday morning the same topics of feeds will be discussed by other department members. For poultry the authority will be J. A. Davidson, animal husbandry will be discussed by G. A. Brown, dairy by A. C. Baltzer. In the afternoon the speaker will be Dr. William Geagley, chemist with the state department of agriculture, Lansing.

In addition to concerns which manufacture and distribute feedstuffs nationally or statewide, it is estimated that more than 500 elevators or mills in the state are equipped to grind and mix livestock and poultry feedstuffs locally.

ELECTION NOTICE

City of Plymouth, Michigan

Regular City Election

Notice is hereby given that the regular City Election will be held in the City of Plymouth on Monday, April 4, 1938 from 7:00 o'clock in the forenoon until 8:00 o'clock in the afternoon, Eastern Standard Time, for the purpose of electing two City Commissioners, also to determine if the following proposed amendment shall be made to the City Charter.

A proposed amendment making Section 8 of Chapter 4 of the Charter of the City of Plymouth read as follows:

"The Commission shall receive as compensation for their services a sum of three (\$3.00) dollars for each meeting of the Commission by them respectively attended during their term of office, but shall not exceed fifty-two meetings in any one year. This payment shall be made from the general fund in the City Treasury.

"Said officers shall receive no other compensation for services performed for and on behalf of said City during their term of office, provided that in no case shall such Commissioners receive compensation for any meetings not actually attended."

The election will be held in the following places in the City of Plymouth:

- Precinct No. 1—City Hall.
- Precinct No. 2—Starkweather School.
- Precinct No. 3—Central High School.
- Precinct No. 4—818 Penniman Avenue.

C. H. ELLIOTT,
City Clerk.

Your city is judged by its streets

CONCRETE rates 100%

From every standpoint, concrete is the ideal paving material. It saves taxpayers money by reducing original and upkeep costs... it is safe in any weather, drains quickly and increases visibility... it improves property values—lasts the longest.

Concrete pavements give a clean, spick and span appearance to the community. Concrete's pleasing gray color reflects light, makes it easier to see—reduces accidents, in every kind of weather.

Insist on concrete for safety, comfort and money-saving.
