

County Refuses City's Request For Doubling Pavement Width On Mill Street Construction

Cemetery Entrance Is Scheduled For Improvement

The Wayne County Road commission notified the city of Plymouth this week that it would not be possible at this time to increase the paving project on Mill street from a 20-foot width, to the 40-foot width. The city had suggested paving to a 40-foot width from Plymouth road to Ann Arbor Trail.

The county commission, however, said that it would improve the entrance to Riverside park as suggested by the city.

The letter from the road commission to the city follows:

"Answering your letter of August 3, transmitting a petition dated July 26, that Lilley road (Mill street in the city of Plymouth) be constructed 40 feet wide:

"After carefully reviewing our traffic records on this street it seems to us unnecessary at this time that the paving should be built to a 40-foot width. Further, our contract has been let and it would be somewhat difficult, if not impossible, to negotiate extras to the extent of 50 percent increase.

Further, our budget provision, approved by the board of supervisors last year for this improvement provided only \$42,000 and the contract price, plus cement and accessories, is \$41,545.50, thereby exhausting funds which have been appropriated for this improvement.

"We therefore beg to suggest that the city of Plymouth be content with the improvement which is now being made. In later years when traffic requirements warrant a 40-foot pavement, that the request be renewed at that time. Further, in regard to the entrance to the Riverside park, we have decided to improve the alignment of this entrance and make it more safe for vehicular traffic, in accordance with your petition but at this time no appropriation is available for paving said entrance."

Flower Show September 14

Mrs. Paul Wiedman, president of the Plymouth branch of the Woman's National Farm and Garden association and members are busy these days completing plans for their first flower show to be held in the Grange hall on Wednesday, September 14, afternoon and evening.

It is the hope of all members that it will be a success and in order to make it so, they ask the co-operation of all Plymouthites to plan to exhibit their best flowers. There are many beautiful gardens in Plymouth and everyone who has flowers is invited to bring them to the Grange hall for display.

There will be a candy booth which is sure to please many attending and tea will be served. A nominal entrance fee will be charged to cover expenses.

Vincent St. Louis Takes Bride

The marriage of Vincent St. Louis, son of Mr. and Mrs. Thomas St. Louis, of Plymouth, and Neva Forbing, daughter of Mr. and Mrs. William Forbing, of Port Hope, was performed at 9:00 a. m., Tuesday, August 30, by Father LeFevre, in Our Lady of Good Counsel church. Only the immediate families attended.

The bride wore a gown of blue and white satin with white accessories. She was attended by her sister, Vera Sasse, who also wore a gown of blue and white with white accessories. Gilbert St. Louis attended the bridegroom, his brother.

A reception was held in the home of the bridegroom's parents, on Holbrook avenue, following the wedding ceremony.

Mr. and Mrs. St. Louis left on a tour through northern Michigan and will make their home at 758 Holbrook avenue, Plymouth.

Fall Nursery School Opens September 19

After a busy summer with an average of 22 children enrolled at Hilltop Farm camp, plans are now being completed for a ten weeks fall term of nursery school, which will open September 19.

A meeting of all interested mothers and fathers will be held in the near future. The name of the speaker and the time of the meeting will be announced later.

Mr. and Mrs. Orr Passage will visit their cousin, Miss Margaret Carroll, in Detroit, over Labor Day.

CAPT. EDW. DENNISTON Candidate For Republican nomination For Sheriff

Friends of Captain Edward Denniston, candidate for Republican nomination for sheriff, and State Representative Elton R. Eaton, seeking re-election, will hold a rally at the Mayflower hotel at 7:30 p. m. Thursday, September 8.

The Plymouth committee in charge of arrangements for the rally for Plymouth's two candidates includes Dr. H. E. Champe, Fred Schrader, Harry Robinson, and Paul Wiedman. Committees in Northville and Wayne are also organizing delegations to attend the rally here. The meeting will be open to the public and anyone desiring to attend may do so.

High Gridders Open Training Sessions Here

More than 75 aspirants for the 1938 Plymouth high school football eleven greeted Coach Milt Jacobi at the opening training sessions Thursday.

The gridders faced two practice sessions daily for Thursday, Friday and Saturday and will start single workouts when school opens Tuesday. Calisthenics and other training activities occupied the boys on the opening day.

Coach Jacobi has eight regulars from the 1937 team around which to build what he believes will be a stronger outfit than that which won five, lost two and tied one game last fall. Captain Jack Ross, veteran quarterback, heads the list. Other regulars back include Doug Prugh and Keith Lollif, ends; Howard Olson and Bill Rutherford, guards; Neil Curtis, center; Butch Krumm, fullback; and Harold Leach, halfback.

The Rocks will need to develop new men for the tackle posts and for one of the halfback spots before they open the grid season by meeting Redford Union here on September 23. The Rocks have only two other home games after the opener, Van Dyke high on September 30, and Wayne high on October 21.

The other six games on the schedule, all away, include Rochester on October 7, Dearborn on October 28; Clawson on November 4, Ypsilanti Central on November 11 and Northville on November 18. Clawson and Van Dyke are newcomers on the schedule. Coach Jacobi is still trying to fill an open date, October 14.

The speaker will be the Rev. W. Schaller, of the Michigan Lutheran Seminary at Saginaw. The church will be decorated to carry out the theme of bountiful crops. The Lord's injunction to the Israelites was to "bear of the first of the fruit of the earth in a basket and take it to the place which the Lord shall choose. And the priest shall take the basket and set it down before the altar of the Lord. And thou shalt rejoice in every good thing which the Lord thy God hath given unto thee."

These instructions will be carried out in an impressive service in which two deacons, one carrying a decorated basket of fruit and the other a basket of vegetables, bring the harvest's first fruits of the congregation to the altar during the reading of Deuteronomy 26: 1-11 which enjoins this practice.

A committee is working with Rev. Edgar Hoenecke, pastor of the church, to contact farmers to collect the grain and vegetables for display purposes. The end of each pew will be tied with a miniature bundle of grain and the entire church will overflow with fruits of the harvest.

Former Resident Weds In Kentucky

Salesman Slain While Enroute To Plymouth

Officers Believe Robbery Is Motive In Mystery Murder

Apparently slain by a holdup man while enroute from Detroit to visit a friend in Plymouth, the body of Robert A. Mouch, 38 years old, a Detroit salesman, was found in his parked car on Eckles road, two miles east of here, Monday morning.

The body, with two bullet holes in the head, was found slumped over on the right side of the front seat. Mouch apparently had been murdered Saturday, officers believed. Robbery was the apparent motive because the pockets in the salesman's clothing were turned inside out. His brief case, in which he carried advertising and other sales supplies, had been rifled by a slayer who left blood stains on some of the papers.

The body was discovered by Ralph Roy, 21 years old, of 506 Wilcox road, Plymouth, a driver for Jewell's Cleaners.

"I was driving south on Eckles road about 8:00 a. m. Monday," Roy told officers, "to make a pickup from one of our customers. I saw the abandoned car parked on the east side of the road. Thinking that the car might be stuck in the mud, I slowed up to almost a stop. As I drove past the car I noticed a body in the right front seat. I drove on down the road and called Captain Charles Thumme at the Plymouth police department."

Michigan state police, Wayne county sheriff's officers and Plymouth police joined in the investigation. Mouch had been shot twice in the head. The first bullet went through the right cheek and the second entered the head behind the right ear. No weapon was found in or near the automobile.

Plymouth friends of Mouch said that he left Plymouth early Saturday morning and had planned to return here to go on a fishing trip Saturday afternoon. He failed to show up and no further word was heard until the discovery of his body on Monday morning.

A post mortem performed by Dr. E. Robert Kallman, Wayne county medical examiner, revealed no powder in the hands and backed up the theory of officers that the man was murdered. The examiner said that the tip of the little finger on the man's left hand had been shot away, indicating either that the struggle for possession of the weapon had been thrown up by his hands in self defense.

Sergeant William Eaton, of the state police, said that friends of Mouch in Detroit and they were with him until 12:15 p. m. Saturday and that the salesman, left, intending to go to Plymouth. Clothing he had planned to wear on the fishing trip was found in the back seat of the car.

Officers found few clues that were workable. Several persons reported seeing the car parked, halfway in the ditch, during the day Sunday, but none investigated. Another person told officers that he saw the car as early as 11 a. m. Saturday while still in the ditch. The commission pointed out that the salesman had dressed in clothing similar to that worn by Mouch, accompanied by a second man walk out of the woods and go

Dr. M. J. Blaess Speaks At Kiwanis

Dr. Marvin J. Blaess of Detroit, internationally known eye surgeon, delivered an instructive and interesting talk on the care of the eyes at the Kiwanis meeting Tuesday evening, August 29. He was brought here through the efforts of Dr. John McIntyre.

Moving pictures illustrating his talk were shown by Dr. Blaess, emphasizing the importance of periodic eye examinations by an optometrist or an oculist to prevent future serious eye strain and even possible blindness. He stressed the fact that much of the present day blindness might have been avoided by timely care. In this connection he praised the work which Kiwanis and other service clubs are now doing in helping to provide eye care for those who are unable to see.

Dr. Blaess is senior eye surgeon at the Evangelical Deaconess hospital in Detroit and has made more renowned the Barraquer technic of cataract removal.

License Plate Deadline Passes

Harold Finlan, manager of the Plymouth branch office of the secretary of state, reported only a small flurry of business this week prior to the passing of the deadline Wednesday night on the use of white half-year license plates.

Finlan said that there had been some increase in the sale of green plates but that the volume did not come up to expectations. The sale of the full-year plates was higher than usual last winter, however.

After midnight Wednesday every automobile had to have a green license on it. Local and state police have declared that they would enforce the license plate law immediately.

Registration Deadline Set For Saturday

New voters wishing to qualify for casting ballots in the September 13 primary election must register at the city hall before 8:00 p. m., Saturday, September 3.

City Manager Clarence H. Elliott said that he would keep his office open for registration until 8:00 p. m. Voters already registered but who wish to transfer their address from one precinct to another will have an extra six days inasmuch as they can make the change by applying at the city hall any time before 5:00 p. m., September 9.

Fifty new voters have already registered and a rush is expected Saturday to beat the deadline.

City Manager Elliott, this week, explained how the new secret primary balloting will take place. Election officials will hand each voter two ballots, one which include all Democratic candidates and the other the Republican candidates. The voter goes into the booth and will mark the candidates on the party ballot of his choice. After folding each ballot separately so the numbered corner on each is visible, the voter will hand both ballots to the election inspector and point out to him the one which is voted. The inspector will destroy the numbered corners and in the presence of the voter will place the voted ballot in the voted box and the other in the blank ballot box.

"Some people have been misinformed about the provisions of the new secret primary ballot law," City Manager Elliott commented. "The voter still can vote for only the candidates on one party ballot. No splitting of tickets will be permissible. Each voter must select the party of his choice and make his selections of candidates from the one party ticket."

Election officials will co-operate as much as possible to explain the new system to the voters. Elliott said that he will hold a meeting of all election officials at the city hall on the eve of the primary, 7:30 p. m. Monday, September 12, to explain thoroughly details of the system.

Voting will take place at four polling places. Voters living in precinct 1 will cast ballots at the city hall, Precinct 2 at Starkweather school; precinct 3 at high school; and precinct 4 at Giles Real Estate office on Penniman avenue.

Norman Atchinson Weds Merle Sass

The wedding of Norman Atchinson, son of Mr. and Mrs. Harry Atchinson, of Salem, and Merle Sass, daughter of Mr. and Mrs. Charles B. Allen, of Lansing, was solemnized at 2:00 p. m., Tuesday, August 23, at the Metropolitan Methodist church in Detroit. Dr. Charles B. Allen officiated in the presence of the immediate families.

The bride and bridegroom were attended by Vera Atchinson, of Detroit, and Kenneth Kahl, of Plymouth.

The couple will make their home in Detroit. Mr. and Mrs. Orson Atchinson, of this city, and Mr. and Mrs. Harry Atchinson, of Saginaw, were among those present at the wedding.

LARGE TOMATO GROWN IN STEVENS' GARDEN

A ripe tomato, weighing one and one-half pounds, was picked in the garden of Mr. and Mrs. J. H. Stevens, of 646 South Main street, this week. Friends enjoyed viewing the large specimen, which was four inches high, and many expressed the opinion that it was the largest they had ever seen.

Mrs. William Markham and two daughters, Billie and Sallie, of New Hudson, spent Thursday with Mrs. Markham's mother, Mrs. Arch Herrick on Bradner road. Mr. Markham joined them in the evening.

Police Chief Urges School Safety Drive

Asks Cooperation Of All Parents And Motorists

With the opening of school but a few days off, Police Chief Vaughan Smith this week urged drivers and parents of school children to co-operate to prevent accidents involving students.

"Many children will be going to school for the first time this fall," Smith pointed out. "I urge the parents to instruct these children carefully on where and how to cross streets safely. Older children, too, should be cautioned on safety methods. Drivers can co-operate by going slowly past the schools and past intersections which school children usually cross to go to and from school."

Chief Smith also urged parents to make certain that the automobile high school students drive to school have been checked thoroughly to be sure brakes, steering apparatus, tires and lights are in a safe condition.

"We must have 100 percent co-operation by all concerned to assure safety on our streets," Smith said. "I am sure everyone will want to help prevent accidents which might cause serious injuries."

Police Seeking To Curb Hazing

A return of hazing activities among Plymouth high school students, even before school opened, resulted in a warning from police that unless the practice is halted that action would be taken against those involved.

Captain Charles Thumme reported that numerous complaints have been made to the police department concerning sophomores, juniors and seniors who have been 'kidnaping' freshmen boys, taking them for long rides into the country and subjecting them to various other forms of hazing.

Police said that there had been little trouble of this nature reported for several years here.

Parents of boys in upper classes are urged to co-operate and halt the hazing activities before serious harm is caused to anyone. Parents of some of the boys subjected to the hazing told police that they would file criminal charges against those responsible if the hazing continues. School authorities promised to help end hazing when school opens Tuesday.

40 Attend Reunion Of Sheffield Family

Forty descendants of Henry and Cynthia Sheffield attended the twelfth annual reunion of the family at the home of Mrs. Myrtle Sheffield Murray, of 289 Ann Arbor Trail, last Sunday. Guests came from Detroit, Lansing, Ovid, Elsie, Salem and Boston, Massachusetts.

Kenneth Rich of Lapham's Corners was elected president of the group while Mrs. Carrie Roberts, of Salem, was named vice president. Miss Nellie Allen, of Ovid, was selected as secretary and treasurer. The 1939 reunion will be held in Lansing at the home of Mr. and Mrs. Ray Gibbs.

Reckless Driver Fined After Capture By Good Citizen

A reckless driver has discovered that it's rather expensive to ignore the well-intentioned warning of a good citizen. The lesson was given Friday. The classroom was Penniman avenue. The teacher was a citizen who asked that his name be withheld and the pupil was Raymond Pelkey, 25 years old, of 858 Irving street.

Noticing Pelkey driving a friend's truck at an estimated 35 miles an hour on Penniman avenue near South Main street, the citizen halted the truck driver and

THE PROGRAM IS RIGHT.

In the near future there is going to be a convention of the small business men of the nation down in an Eastern city. They have set up a program that they hope to have the national congress adopt.

If the program should be adopted by the federal government and carried out as it has been suggested, it would end immediately one of the greatest dangers this country faces—and that danger is the spread of Russian Communism.

Representatives of this deadly issue are slowly creeping into high places in both state and federal government circles. The revelations made during recent weeks before the Dies committee are nothing less than startling. Information that has seeped out pertaining to Communist activities in connection with Michigan's own state government is just as startling.

The time is here, right now, to step on the head of this viper and send those who are advocating it back to the country where it flourishes, before America is engulfed and swept to destruction.

The small business men of the nation might well make the Communist issue the number one paragraph of their platform, which follows:

1. Government meddling and experimenting in business to be stopped.
2. Equitable and just tax laws, for revenue producing only. Repeal at this session of Congress of undistributed-profits tax, and capital-gains tax.
3. Congress to cut loose from the President's apron strings, and be what the Constitution says it is—an independent legislative body.
4. Sufficient reduction in Federal expenditures to balance the budget.
5. Encroachment on free speech, press and radio stopped.

EFFICIENT SEEING

Devoted to Eye Welfare for Everyone

Visual Work with Children calls for a Different Philosophy

Few people realize that a completely different approach is needed in dealing with the visual problems of children than that used for adults. Children are not "grown-ups". Theirs is a problem of growth—of "maturation" as the educational psychologists call it. The body is still growing, the nervous systems are still developing, the width between the eyes is increasing and the arms are lengthening. All of these factors enter into seeing efficiency and none of them are present as problems to the fully grown person.

Now, if the child is handled as if he were an adult, it is obvious that something is wrong. With children, we use lenses and orthoptic training to ENCOURAGE AND STIMULATE the visual skills that ought to have developed, but for some reason have not. In the fully grown person, we RE-condition, but in children we CON-dition (without the "re"). Only those who have this conception of the special needs of children will be of positive (shall we say "preventive") help to the child. Putting lenses on children or giving orthoptic training is, as a rule, an AID TO DEVELOPMENT rather than an effort to break up some long-standing habit-pattern as we have to do with grown-ups. It is a following out of the proverb, "Train up a child in the way he should go; and when he is old he will not depart from it."

A budget plan of easy payments is available for those who desire to take advantage of it.

COOPERATION INSTEAD OF RETALIATION (A Contributed Editorial)

John W. Hanes, member of the SEC, recently said: "I believe that the time has come for business men to cease harping on the theme that the government is the enemy of business. And it shall be my everlasting endeavor to persuade government officials from uttering publicly or privately the thought that business is the enemy of government."

Business men certainly don't want to feel that government is their enemy. This breach between government and business has been largely created by politicians who, in recent years, have chastised the many for the shortcomings of the few, in business.

It is politicians who have passed legislation hamstringing and punishing business. It is politicians who have saddled business with a tax burden that makes operations next to profitless in many instances. It is politicians who have forced government into direct competition with business in certain fields, using to the full its advantages of tax-freedom, and unlimited public credit. It is politicians who have pilloried business men, and held them up to scorn and ridicule. It is politicians who have been undermining confidence in our American system of government and fomenting class hatred between labor and capital.

It is not business' duty to make "peace" with government. Government exists to serve business and the individual. Government is a means to an end, not an end in itself. Government lives financially off the fruits of business. Government's true purpose is to act as an umpire, not a player, in the commercial affairs of the people. Government should punish the guilty—and cooperate with the innocent. And that is exactly what the politicians have prevented government from doing. Government will find practically all business ready to work in amicable accord with it when the politicians pursue policies of cooperation instead of retaliation.

HITCH-HIKERS ARE DANGEROUS

"In these days it is only a super-sentimentalist or a super-idiot who blithely picks up a hitch-hiker, no matter how well the applicant works his thumb or how appealing is his face. It is the most dangerous thing that a motorist can do; furthermore, it is one of the greatest aids to crime. In at least 20% of hold-up and robbery cases, it has been found that escape was aided by the fact that some dumbhead saw a forlorn-looking person standing beside a road and wiggling a thumb."—Courtney Ryley Cooper in 'Here's to Crime.' p. 314."

RAMBLING with Editors AROUND of Michigan

THE BIGGEST ROOM.

The greatest employment boom in decades has taken place in recent years in the field of political jobs, and political jobs create no new commodities—but burdens on enterprise.—William Cansfield in The Livingston County Press.

THE G. O. P. CONTEST.

Admitting that both Former Governor Frank D. Fitzgerald and Judge Harry S. Toy are capable of doing a better job than is being done at the present in the state, two questions remain—Who will do the better job? Who has the best chances of winning at the November election? Leaving the former for future discussion and recognizing the willingness of many to vote in the September primaries for either one they think can win in November, let us discuss the latter question.

Mr. Fitzgerald has the following advantages: He has a record in office of keeping expenses within income. He has a skeleton organization in the old line party organization. He has a following among those for whom he has been able to do something during his many years in Lansing, including many very estimable men and organizations, as well as some not so reputable. He has the advantage of being well-known in every voting precinct in the state.

Any ex-Governor also enters a campaign under certain disadvantages. He comes as a defeated candidate, defeated by the same man whom he now opposes. He has a record in the office which he seeks, which he will be called upon to defend. He must be prepared to defend himself against many a broad-side fired at not only his own record but those of all appointive bodies serving under him, such as Securities Commission, Public Utilities Commissions and others (a Securities Commission investigation even now underway, is unquestionably for campaign fire). He must meet the argument that the slot machine and other illegal rackets flourished under his administration. He must be prepared to defend his associate with Frank McKay, who the opposition delights in calling the power behind the

throne. He would be an out-stater running against a Wayne county candidate. While comparatively young himself, he might be confronted with a rather indifferent attitude on the part of young Republicans, many of whom believe that he has never shown them the consideration which they have the right to expect.

Foremost among those advantages which Toy would enter a campaign with is the fact that he comes from Wayne county where something less than fifty percent of the state vote is concentrated. Wayne voters having a habit of favoring Wayne county candidates in any state election.

Toy's Wayne county organization will not be any hit-and-miss affair. When he was the only Republican candidate elected to office in Wayne county every precinct, every block was covered. He also has the endorsement of many clubs and women's organizations in the city. He would poll the heaviest colored vote of any candidate because he was the first to recognize the colored race when he was prosecutor.

Toy has no state executive record to uphold. He is carrying the banner for new blood in the Republican party and can disclaim any responsibility for their errors in the past. He has a very active front-line trench World War record. He has an outstanding record as a fighter in the county prosecutor's office where he did the impossible in breaking up and cleaning up organized gangdom in Detroit. He is favored by many young Republican leaders as the man who will put much needed new blood in the veins of the Republican party. He was the first to have the backbone to take a sound stand on the labor question.

The disadvantages under which Toy would enter a campaign are largely the anti-theses of Fitzgerald's advantages. He has no patronage following. He has no special concession following. He must start from scratch with no ready made potential state organization. He may be hampered by lack of funds with no individual apparently ready to back him to the limit financially. He has made enemies among some radical labor leaders and among all labor racketeers.

The Democratic strategy in the present campaign seems quite apparent. They are saving their big guns until after the primary. But their guns can only be effective if they have in the opposition party the candidate for whom the shells are loaded. Elimination of party contests for all except one state office, the elimination of local contests in many, many counties throughout the state, does not necessarily signify united opinion. It does make it possible under our present primary system however, for Democrats to "exist". Republicans not choosing their candidates, and they will not pick the man that will dampen a great part of their November ammunition.

Our analysis of the situation may not be entirely correct but if it is approximately so Judge Toy comes closer to being the logical candidate to giving us a change in administration than any other.—Griat County Herald.

A Canadian View

It (the New Deal) has been the most colossal spendthrift in history, and without result; it has wretched upon its platform promises of retrenchment; it is squandering the money of the people in partisan propaganda; it has elevated many a political accident to high office, including the Supreme Court; it has badgered and impeded business, big and small; it has held up to public ridicule and hate the producers of material wealth for party purposes; it has built up power by exploitation of the misery of thirteen millions of unemployed, and has accomplished nothing for the latter after five years of glib promise and expenditure of 20 billion; it has sapped the morale of the people by inculcating the idea that the government owes every one a living; it has adopted the policy of scarcity, paying farmers for that which they did not raise, and at the same time spent billions to increase productivity of the soil; it has murdered hundreds of thousands of pigs while human millions cried for sustenance; it has encouraged class hatred by abuse from high place; it has set capital against labor and labor against capital; it has tacitly sanctioned mob appropriation of property, and it has abridged personal freedom guaranteed by the constitution.

We are tired to death of pink communism and sick at heart that a great nation, leading the world in initiative and individualism, should have been brought perilously close to its knees by a Pied Piper of the air, fatuously fluting in ragtime. Its whole mistaken popularity has been based upon the sob appeal that a third of the nation is ill-fed, ill-clothed, and ill-housed and the collateral idea that the national sock is everlastingly stuffed full. No decent man, here or elsewhere, begrudges one penny paid out for the aid and sustenance of those really in want, but the New Deal has squandered billions in deliberate drunken-sailor prodigality and

concealment of facts and intent. We believe the richest country the world has known is headed for New Deal catastrophe if a halt be not called at once; that its people, and there are none finer, are being brought down to shameful misery by the most colossal stupidity that political insanity has yet devised for its own self-perpetuating ends. And we don't expect even Alberta.—Toronto Globe and Empire.

Have you a good **READING LAMP?**

A GOOD reading lamp is a necessity in the home, because the whole family spends so much time on tasks involving close visual application. Whether you use your eyes for reading a newspaper, writing, studying, sewing or other occupations, proper illumination is essential to avoid eyestrain and fatigue. An evening of reading or working under poor light may be more tiring physically than an equal amount of time spent at hard manual labor.

What constitutes a good reading lamp? The new I. E. S. reflector-type floor and table lamps are ideal for the purpose. These lamps have a diffusing bowl under the shade, which eliminates glare and assures soft, pleasant illumination. They are scientifically designed for easy, comfortable seeing, and provide adequate light for reading, writing, sewing, etc. Reflector-type Pin-It-Up lamps are also excellent. They may be pinned on the wall over a desk or table, or beside your favorite easy chair.

Perhaps you have a floor or table lamp of your own, one that is perfectly good but which was purchased some years ago and lacks the advantages of a reflector-bowl under the shade. In this case you may buy for very little money a clever new unit called an "I. E. S. adaptor," which transforms the old lamp into one utilizing the principle of a modern Better Light - Better Sight lamp. Detroit Edison Home Lighting Advisors will be glad to help you with any lighting problem you may have. Call your Detroit Edison office.

The Detroit Edison Company does not sell light adaptors or floor or table lamps. See them on display at department stores, lighting fixture stores or electrical dealers.

Completes Long Western Auto Trip

An automobile trip that covered 6,996 miles, just four miles short of 7,000, came to a pleasant end the other day for Mrs. Clara Todd of this city and Mrs. Clarice Nelson, of Battle Creek, Mrs. Anna Beckwick of the same city and Mrs. Olla Marshall of Coopersville. The four returned from the Pacific coast where they had attended the national convention of the Women's Christian Temperance Union.

Mrs. Todd drove every mile of the distance and at no time in going over plains or mountains did she have the slightest difficulty.

"Roads through the Rocky Mountains are so perfect that there is no need of fear any more. We drove to the west through Colorado and Salt Lake City. Upon our return we went up to Portland and Spokane and stopped in the Glacier national park in Montana on the way," stated Mrs. Todd. They also visited Yellowstone park.

Speaking of the convention, Mrs. Todd said it was one of the largest and most enthusiastic she had ever attended.

"The public will soon realize the importance of our task and the tremendously dangerous problem confronting our country," she declared.

The word "minnow" properly applies to the species of a family which includes fishes as large as a man and with scales as large as his hand.

"Man" will be the subject of the lesson-sermon in all Christian Science churches throughout the world on Sunday, September 4. The Golden Text, (Ps. 84: 4, 12), is "Blessed are they that dwell in thy house: they will be still praising thee. . . O Lord of hosts, blessed is the man that trusteth in thee." Among the Bible citations is this passage (Ps. 8: 4, 6): "What is man, that thou art mindful of him? and the son of man, that thou visitest him? Thou madest him to have dominion over the works of thy hands; thou hast put all things under his feet." Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 29): "Man as the offspring of God, as the idea of Spirit, is the immortal evidence that Spirit is harmonious and man eternal."

The church is under the leadership of J. M. McCullough. Everyone is welcome. Epworth league meets at 7:00 p.m. Carolyn Bowser is the leader of a discussion on the subject, "Deciding for Ourselves."

A Communication

To the editor:
In answer to the letter by Mr. Pursell I wish to state the following facts:

Nobody who understands the Townsend Plan correctly claims that it will abolish crime. We do say it will considerably reduce crime by producing jobs in private industry for all those under 60 and save four billions of dollars per year in taxes now required to maintain poor houses.

He agrees that buying power is the need of the hour but wants to know where the money is to come from? We are going to get the money from where it is, we cannot get it where it is not, that is why we are taxing the money when it turns over and further, that is one reason for the forced circulation of money feature in the Townsend Plan—and money is the lifeblood of business and commerce. It is easier to tax the dollar when it is circulating and turning over. I will now quote an authority to show where this money is coming from. Quote: "A. E. Goldenweiser, director of research and statistics of the Federal Reserve board, testified before the Ways and Means committee of Congress, May 2, 1932, long before the Townsend Plan was proposed: The total volume of transactions in this country in 1929 was about 1200 billions of dollars and it decreased by 1931 to about 600 billions. This is a decrease of 600 billions of dollars, largely due to decline in velocity."

In other words decline in speed of turnover of money in circulation. Now then we will take two percent of this 1200 billion under the Townsend Plan which gives us 24 billions of dollars and we need approximately 19 billions to finance the Townsend Plan at the maximum of \$200 per month allowed under the plan for seven and one-half million (out of the 10 million, 300 thousand, who are 60 and over) who according to statistics will actually qualify under the Townsend Plan because of aliens and persons receiving salaries of more than \$200 which they would not want to give up.

Again, according to the national statistics company, the total business transactions in the United States for 1937 was estimated at 900 billions of dollars. Two percent of this gives us 18 billion for 1937. President Calvin Coolidge once said a two and one-half percent sales tax on every transact-

ion if efficiently administered would produce sufficient revenue, to support our government, municipal, state and national.

We should not permit critics to frighten us into believing that two percent will not raise sufficient funds to support the Townsend Plan.

Remember this, the national government tax in 1934 on cigarettes alone was nearly 350 million, and in 1935 increased to 385 million. This is equal to 100 percent of the retail cost, and the cigarette business is increasing year by year and the cigarette manufacturers are making millions of dollars profit. So do not let anyone tell you the two percent transactions tax will ruin or injure business either. On the contrary, the tax of two percent will not only pay up to \$200 per month to all who qualify and want it (they do not have to take any more than they want under the plan) but it will increase business, put the unemployed to work, bring prosperity and create sufficient surplus to balance the national budget and retire the national debt.

Mr. Pursell bases his argument on the Townsend Plan as applied to national income while the Townsend Plan is based on national transactions which is something else and therein lies his mistake.

Clyde V. Fenner In Senatorial Race

Clyde V. Fenner, Republican candidate for state senator in the 18th district, contends that the primary issue in this election is the cost of government. He believes that state government cost can be reduced at least 25 percent and pledges that he will oppose any new tax or any increase in existing tax laws.

Last December Mr. Fenner started the development of a new home subdivision in northwest Detroit. Four hundred fifty lots were secured and the first unit of 100 homes are now under construction. He states that in spite of the depression there are thousands of working people with incomes of less than \$3000 a year who desire and can afford to build homes in the \$5000 class but the resisting element is the increasing tax consciousness of possible buyers.

Trifling people, the type that accumulate from \$500 to \$1000 in cash, are tax conscious. They have sacrificed many things in their effort to save and it is noticeable that this type of good citizen loses his enthusiasm for home ownership or any other investment when he reads newspaper articles of an increase of \$9,000,000 in state payrolls, of \$20,000,000 state deficit, of plans to increase that deficit, to be later liquidated by new taxes.

Every new \$5000 home employs directly and indirectly approximately 30 men and pays approximately \$3500 to labor. If the 25,000 new homes badly needed in Wayne county were under construction at this moment, they would absorb every idle workman in Wayne county and pay labor from \$5.00 to \$10.00 a day, instead of \$60.00 a month for "shovel leaning."

A renter must pay taxes but he is not tax conscious. He thinks only in terms of rent. The home owner gets the tax bill and realizes the terrific toll that inefficient and uneconomical government takes from his income.

If elected, Mr. Fenner promises to devote the major portion of his time and energy to consolidation of governmental offices, state and county. To oppose any new tax of any nature. He would be generous with state money only in the case of the public school system because the greater the state contribution to the schools, the less direct real property tax is levied by counties and municipalities against local real property. And, for the added reason that it is cheaper to develop good schools and employ competent well-paid teachers than it is to build prisons. Well trained, disciplined boys and girls who have been taught civic responsibility and whose characters have been developed in efficient schools are not apt to become law breakers. The recent cut of 34 percent in state public school aid is a real calamity to every child and parent in Michigan.

Hamilton Seeks Coroner Job

Dr. Birch J. Hamilton, of Detroit, a candidate for the Republican nomination for coroner, has practiced medicine and surgery in Detroit for the past 23 years. "Knowing that the office of coroner should receive the services of a man equipped with a thorough knowledge of legal and judicial as well as medical procedure," Dr. Hamilton said, "I feel that my dual training in law and medicine fully qualifies me for the office I seek."

Dr. Hamilton, a native of Ohio, graduated in law at the University of Washington and then graduated in medicine at the Loyola college of medicine and surgery at Chicago.

Dr. Hamilton proposes that new and scientific methods for investigation and research in crime detection be introduced into the coroner's office, and that full cooperation be given all law enforcing agencies of the city, county and state, through extreme care in securing all facts and clues when the coroner is called to the scene of a crime. He further advocates a courteous, conscientious policy towards all who have business with the coroner's office.

Today's conditions demand that economy be the first consideration in the operation of a public office and Dr. Hamilton proposes to administer the office of coroner as economically as possible, consistent with efficiency.

Dr. Hamilton is a member of the Masonic Lodge, Knights of Pythias, Phi Chi medical fraternity and other clubs and societies. He is endorsed by many local civic and republican organizations, prominent citizens and his thousands of friends who are doing all in their power to make sure he is elected to an office he so truly deserves.

Fitzgerald Rally Is Scheduled

A group of women's organizations has invited members of Plymouth groups to attend a Republican rally at the home of Mrs. Sydney Graham, of 24325 Graham road, Detroit, at 1:30 p.m. Wednesday, September 7. Mrs. Graham is president of the political science club.

Guest of honor at the rally will be Former Governor Frank D. Fitzgerald, who is seeking nomination on the Republican ballot in the September 13 primary. Candidates for county and legislative offices will also attend. The

committee reports that husbands are also invited.

Further information concerning the rally will be available from Mrs. Milton R. Laible, Plymouth 618-J.

A mass meeting is also scheduled at 8:00 p.m. September 6 at the Fitzgerald - for - Governor headquarters on Washington boulevard in Detroit. All campaign workers and interested persons are invited to attend. Fitzgerald will speak.

New Laundry Simplifies Wash Day

Arduous wash days become simple for the householder with this new Bendix home laundry, recently developed appliance which washes, rinses and damp-dries clothes ready for the line in a single series of automatic operations. Two electric dials govern the time of soaking, washing and rinsing—depending on the nature of the materials—and the only operator effort required after setting the dials is the adding of soap, as the house-wife in the photo demonstrates for a neighbor. The compact machine is extremely tidy, and its speed cuts wash day time in half.

Wilhelmene Rocker Weds H. C. Shirey

The home of Mr. and Mrs. Fred Rocker at 605 Ann Arbor road, Plymouth, was the scene of a beautiful wedding, Friday, August 26, when their daughter, Wilhelmene, was married to Harold C. Shirey, son of Mr. and Mrs. Fay Shirey, of Highland Park. The ceremony was performed at 8:00 p.m. by the Rev. Walter Nichol, pastor of the First Presbyterian church of Plymouth.

The wedding party took their places while Helen Farrant, of this city, played the Bridal Chorus from Lohengrin and sang "I Love You Truly" accompanied on the piano by Virginia Cool, also of Plymouth.

The bride was lovely in a wedding gown of white mullinon triple sheer. Her arm bouquet was composed of lillium formosum and gypsophila. Laura Kincaid, of this city, her only attendant, wore pink mullinon triple sheer and carried pink roses.

John J. Obendorf, of Highland Park, was the bridegroom's only attendant.

Mrs. Rocker chose a brown printed silk for her daughter's wedding while Mrs. Shirey wore a gown of navy blue lace.

Seventy-five relatives and friends of the young couple were present at the wedding and the reception which followed, coming from Bay City, Highland Park, Detroit, Marine City, Dearborn, New Hudson and Plymouth.

The couple left following the reception on a wedding trip through northern Michigan, the bride wearing brown and white sharkskin. They will reside in their new home on Morgan street, in Robinson subdivision.

Salesman Slain Near Plymouth

(Continued From Page One)
towards the car Saturday afternoon.
Plymouth friends said that Mouch had between \$15 and \$20 in his pocketbook when he left here Saturday morning. Mouch, whose divorced wife lives in Indiana, had been employed as a salesman for the Hobart Manufacturing company in Detroit since last February.
The last person known to have seen Mouch alive was Raymond Thomas, a fellow salesman of Mouch.
"Mouch drove me home," Thomas told officers, "and he said something about going fishing with a friend."
Mary Ann Tonkovich, of De-

troit, who was visiting the farm home of her grandfather, who lives a short distance from the place where the car was found, told officers that she saw the car at 4:00 p.m. Saturday and that it appeared empty. Her grandfather said that he noticed a car at 8:00 a.m. Sunday while he was on the way to church and that he saw it again later in the day while on his way to pasture.
"A man came out of the woods on the west side of Eckles road and met two other men who came into the road from the east side and they went to the car," Tonkovich said. "One of the men was wearing a white shirt and green trousers."
According to Sergeant Eaton that description matched the clothing worn by Mouch when his body was found.
The mystery continued to deepen as the investigation progressed. Despite numerous inquiries the tracing of Mouch's activities stopped after he left his friends in Detroit. Friends said that he was afraid of hitch-hikers and never gave people rides while driving his automobile. The possibility was advanced, however, that holdup men in another car forced Mouch to run his car into a ditch and then shot him.
Analysis of the position of the bullet wounds indicated that at least one of the two shots was fired by a person sitting or standing very close to the victim.
He is safe from danger who is on guard even when safe.—Publius Syrus.

Recreation Plans Listed For Fall

Plans are being completed for the fall and winter recreation program, sponsored by the Woman's club, which will be under the direction of Ruth Hadley.
This project was started in April of this year and included two youth dances a week in the recreation room of the city hall; games, pool and ping-pong two afternoons a week; story hours on Saturday morning; and when the program was enlarged for summer, two girls' clubs were formed; hikes were planned for both boys and girls, and other activities such as the Cranbrook trips for both adults and young people and the more recent community sing were planned. The community sing was put on entirely by the young people and attracted nearly 800 spectators which completed the summer program.
The fall plans will include the girls' clubs which are for girls from ten to 18 years. The first club, the Cardinal, is for girls ten to 13 years; the second, the Jays, is for girls 13 to 18 years.
The dances for young people proved so popular in the spring that it is planned to hold one each Friday and Saturday night from 8:00 to 11:00 o'clock. The first dance will be a costume party on Friday, September 9. Prizes will be given for the best costume and for the funniest costume. The music for all the dances will be provided by an electric victrola with only a small charge being made. Any young person in Plymouth may attend. Chaperones will be members of the Woman's Club and parents of the young people. During intermission, between dances, a short program will be presented.
A third part of the recreation program is the story hour held each Saturday morning in the city hall. These story hours are for children aged five to ten years and the program also includes games and songs. The time is divided into two periods for two age groups. Children from eight to ten years will meet at 9:00 o'clock and children from five to seven years meet at 10:00 o'clock. Many stay from 9:00 until 11:00 o'clock for both hours. Any child is welcome, and they will have a great time with other youngsters of their own age. On warm days the play period is spent in the park across from the school but when weather conditions do not permit, the children are entertained in the recreation room of the city hall. It is suggested that mothers bring their children which would enable them to shop during the time the children play.
Late in September, another trip will be made to the Christ church, Cranbrook, to hear the vesper services and the Carillon, which was the first in Michigan.

William H. Patterson, retired Army Colonel: "Anyone who isn't a pacifist after experiencing front line action, is either drunk or crazy."

The first closed season on game in America was declared in 1894 in Massachusetts in the form of a law which forbade the shooting of deer part of the year.

A tame buck deer may be much more dangerous than a wild one during the rutting season in the fall because it has lost its fear of man and is more apt to charge.

Maccabees To Meet Sept. 7th

The next regular meeting of the Maccabees will be held Wednesday evening, September 7, in their hall, Commander Ethel Emerson requesting that all officers be present to practice for initiation and all members will be assured of a cordial welcome. The president of the Guards desires a full attendance that same afternoon for practice at 5:30 as the team has been invited to exemplify its drill in the near future. A potluck supper will be served at 6:30, all members being invited to attend and remain for the business meeting in the evening. With Lady Bessie Sallow as general chairman, plans are to be completed at this time for a roll call banquet to take place September 21 starting the fall and winter activities of the order.
The members of the Junior Court are hereby notified that the Court will meet immediately after school, Wednesday, September 7 and the first and third Wednesday of each month thereafter. The services of Maxine Willard as instructor of dancing have been secured and the members of the Junior Court may all have this instruction without any extra cost. It is hoped that all Juniors will be present at each meeting to take advantage of this splendid opportunity that is being offered to them.
Arthur D. Jenks, New Hampshire member of the House, unseated: "That's all right, I will be back in November."

Let us watch, work, and pray that this sale lose not its saltiness, and that this light be not hid, but radiate and glow into noontide glory.—Mary Baker Eddy.

Homer Martin, leader, Automobile Workers Union: "There is no place in the labor movement for men who will not live up to their agreements."

Primary Election Notice

To the Qualified Electors of the City of Plymouth, Mich., County of Wayne

Notice is hereby given that an election will be held in the City of Plymouth, Michigan, on Tuesday, September 13, 1938 from 7:00 in the forenoon until 8:00 o'clock in the afternoon, Eastern Standard Time, for the purpose of nominating candidates for the offices of Governor, Lieutenant-Governor, Representative in Congress, State Senator, Representative in State Legislature, also for the following County offices: Two Judges of Probate, Sheriff, County Clerk, County Treasurer, Register of Deeds, Prosecuting Attorney, Drain Commissioner, Two Coroners and County Surveyor.

The many Plymouth friends of Elmer Jarvis, of Lansing, were shocked Tuesday evening when they learned of his sudden death in that city with a heart attack. Mr. Jarvis, who was a nephew of Mrs. Anson Hearn and brother-in-law of Mrs. William Albrecht and Mr. and Mrs. Paul Nash, had not been ill, apparently. He leaves one son, Harlan, Mrs. Jarvis having preceded him in death four years ago. The funeral was held in Lansing, several from here attended, among them being Mr. and Mrs. Anson Hearn and daughter, Aleta, Mr. and Mrs. William Albrecht, and Mr. and Mrs. John J. McLaren.

Upper Peninsula Most Beautiful In Early Fall

The early fall is the most beautiful time of the year in the Upper Peninsula. That is why its tourist business does not end until the hunting season starts. Right now between 200 to 300 people a day are making the trip down the Tahquamenon River, in upper Michigan, to the falls of the same name in Luce county, and daily schedules will continue through September.

A big stern-wheeler will go on the run in September, something new for the north country. This day-line boat will carry 800 passengers and have a large cafeteria.

The falls are now state park property and the primitive and beautiful surroundings are being carefully preserved. There are no roads into the area, the only approach being by boat down the winding river, through 25 miles of gorgeous forests and a variety of wild life and game. On the way the birthplace of Paul Bunyan, legendary lumberjack hero, and the spot where Hiawatha build his first birch bark canoe are pointed out to visitors.

Boy Scout

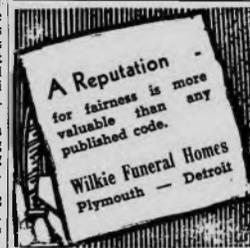

The Plymouth Scouts of troop three enjoyed a hike to Joslin lake, Sunday.

Leaving Plymouth by truck, they had an enjoyable trip, swimming being the means of entertainment at the lake. Ball was played; also a turtle and frog hunt were held. One turtle for one neckerchief slide was gotten and one frog was caught, not a very successful hunt. A good picnic lunch was enjoyed followed by more swimming. The boys are eagerly looking forward to the next hike in September. We wish to thank the Eckles Coal company for the use of the truck transportation.

"There are some states where the care of the sub-normal child is not so essential as in the more thickly populated states like Michigan. The nature of the work they do on the plains and in the mines out West does not require the type of training needed in this part of the country," he said. His brief review of the development of the special type of mental training he is engaged in proved most interesting to the Rotarians.

Another thing needed in this country is a little less "walking out" and a little more walking up to the captain's office to settle.

One statistician has found 112 hidden taxes in a pair of shoes. No wonder a new pair pinches so much.

Training Helps Boys And Girls

"Three out of every four of the boys and girls who leave the Training school make good," Dr. Robert Haskell told members of the Plymouth Rotary club last Friday.

"Not only are they able to create a place for themselves in the world, but they are able to care for others. The other group cannot be classed entirely as failures, but a certain percent does not average up as well as do the larger group," he said.

Dr. Haskell told of the rapidly growing need not only in Michigan but throughout the country of institutions such as the Wayne County Training school.

Schrader Nine Wins 5 In Row

The Schrader-Haggerty baseball nine annexed its fifth victory in a row Sunday by defeating Cass Benton, 5 to 3.

George Molina, pitcher for the winners, gave up five hits in the first inning but tightened up to limit Cass Benton to but one hit in the other eight innings. The Schrader-Haggerty cause was aided by two long home runs by Howdy Schryer and Eddie Zielasko.

The Schrader-Haggerty team will journey to Garden City Sunday to meet that team at 3:00 p.m. A good game is expected.

They also won two games at the Northville fair last week, beating Garden City and the Perfection Laundry.

Much of the recent success of the Schrader team is due to

heavy slugging, the team average now being .326.

The individual batting averages for league games follow:

Superko, .458; W. Bassett, .452; Molnar, .400; Schomberger, .363; Schryer, .338; Fields, .322; H. Williams, .292; Hovey, .285; Debozy, .280; Trimble, .275; J. Williams, .272; J. Horvath, .265; Zielasko, .195; S. Horvath, .142; L. Bassett, .111; Carney, .000.

Bowling Alleys To Open Soon

The Penniman-Allen bowling alleys will open on September 15, with indications for a big season.

The reception room has been remodeled, new safety returns were installed, and the building has been re-decorated. A meeting will be held at 7:30 p.m., Thursday, September 8, at which time the various leagues will elect officers and complete the schedules for tournament play.

Anyone wishing to bowl on one of the teams can do so by leaving his name with the manager of the alleys.

The management is also contemplating the inauguration of a mixed league for ladies and men. A league for high school boys and girls is also planned.

But It's True

Some 500,000 years ago the Hudson river found its mouth a hundred miles out of New York, in what is now the Atlantic ocean. The end of the river came suddenly, in the form of the most tremendous waterfall ever known, as far as geologists are able to determine.

Twenty-three years ago Miss Ahnett suffered a broken neck in an accident on the New York, New Haven & Hartford railroad. It was believed she would live only a short while, and the railroad company agreed to pay her \$700 a month until her death. She's still alive, but can move about only in a wheelchair. Recently the railroad petitioned a court to be relieved of this injury settlement.

Society News

Elmer Whipple, son of Mr. and Mrs. Austin Whipple celebrated his third birthday, Saturday, with a party, having several little friends join him in play after which a lunch was served to them in the garden. Those present were Robert and Margaret Jean Willoughby, Sally Prescott, of Dixon, Illinois; Charles Dykhouse, Tommy Caplin, Sally Truesdell, Bill Cowgill, Mary Olin, Billy Moon and Edson Whipple. Moving pictures shown by Billy Moon added greatly to the pleasure of the little guests.

NO CHANCE FOR ARGUMENT

WILL ROGERS ONCE SAID THAT THE OLD adage that a woman was as old as she looked and a man was as old as he felt was all boloney. He claimed that a woman was as old as she looked and a man wasn't old until he couldn't look. Now look here: We have always followed the idea that business generally came where it was invited and remains there as long as it is well treated. Time and experience has proven to us that this statement is true.

There will be no chance for argument this winter if you fill your coal bin now at low summer prices. Take our advice—you'll be glad you did when prices advance.

Dayton For Drain Commissioner

Joseph F. Dayton, who resides at 1007 Beaconsfield, with offices at 5449 12th street, has announced his candidacy for the office of drain commissioner on the Republican ticket. He was born at Nanticoke, Pennsylvania, 50 years ago.

He has lived in Detroit and Wayne county for 30 years. Mr. Dayton has been in the construction business for 30 years, and for 22 years has been the head of his own company. He is a World War veteran and has served six months in France. He enlisted in the 204th Squadron Signal Corps as a sergeant first class and was later transferred to the 500th Aero Squadron as a master signal engineer. Mr. Dayton has been active in Veterans' welfare work.

Mr. Dayton regards the office he seeks as non-political and declares that it should have a practical man in it. One experienced both in business and construction work, and one who can give the taxpayers a saving administration. Mr. Dayton is not a politician and is not in favor of the present new deal set-up. He promises the elimination of waste of the taxpayers' money and the duplication of work. If elected, his office will always be open to constructive suggestions and just criticism.

Mr. Dayton urges everyone to vote Republican and have a voice in your own government.

Mosier Was Law Clerk In Senate

DUANE MOSIER
Candidate For
Republican Nomination
For State Senator

Duane H. Mosier, well known Detroit lawyer, is one of the candidates for the Republican nomination for state senator from this district.

He is 48 years old, married, home owner, residing at 16196 Harlow avenue, Detroit, a resi-

dent of Michigan all his life, and a graduate of the law school of the University of Michigan in 1913.

He was appointed assistant attorney general in 1916 and served for five years under Hon. Alex J. Groesbeck, former governor. He practiced law in Lansing from 1921 to 1927, then moved to Detroit, where he has resided ever since.

During the sessions of 1923, 1924, 1927 and 1929 he was law clerk of the senate. During the five years as assistant attorney general and eight years as law clerk he had close contact with the legislature both as counsellor and in drafting of many bills. As law clerk of the senate he was also clerk of the judiciary committee and sat in the sessions of that committee during the eight years in that office. He is very familiar with legislative procedure and the processes of law making. He has practiced law for 24 years, the last 11 of which have been in Detroit.

His platform, in brief, follows: Legislation to reduce back-breaking load of taxes, economy in government; encourage business, and end labor strife.

McIntyre For State Senator

Charles H. McIntyre, candidate for state senator from the 18th district on the Republican ticket, is 42 years old, and resides at 14395 Archdale avenue, Detroit. He is married and has two children; born at Lapeer; educated in public schools at Lapeer; graduated from Detroit College of Law with degree of LL.B. in 1920; resided in Detroit 22 years; taxpayer in Detroit 17 years; admitted to practice in both state and federal courts, served 14 months overseas during World War in United States army.

He was a Republican nominee for state representative in 1936; preferred endorsement by Detroit Citizens league for state representative in 1936; director and past-president of Vortex club of Detroit, an active civic and business men's club. He is a member: Detroit Bar association, Michigan State bar, American Legion, Veterans of Foreign Wars, St. Andrew's society, and Civic Pride association.

As a candidate for state senator, he advocates:

A substantial reduction in the cost of government.

The use of sound business principles in the operation and maintenance of the various institutions and units of the state government so as to insure the greatest possible efficiency and economy and the elimination of waste. The state government should be operated and maintained not only on a pay-as-you-go basis, with a balanced budget, but as soon as conditions permit there should be some systematic plan adopted for the reduction of indebtedness and the reduction of taxes.

The reduction of expense of relief administration to a minimum so that those in need may receive the greatest possible benefit from the funds available for relief purposes.

Changes in the laws pertaining to pardons and paroles so as to prevent the release of dangerous criminals after having served only a small portion of their sentence.

The use of greater care in the drafting of laws passed by the legislature to make certain that they are not only constitutional but that they are so phrased that they can be understood without requiring the expense and delay of an interpretation by the Supreme Court.

Five hundred beavers are to be used in water conservation projects in southern Idaho. The beavers will be trapped in northern counties estimated to have a population of about 10,000 of these animals and will be transported to the southern part of the state.

Capizzi Out For Prosecutor

I. A. CAPIZZI
Candidate For
Republican Nomination
For Prosecuting Attorney

"Lax and biased prosecution has so crippled the law-enforcing agencies of Wayne county that even his superiors have been obliged to publicly rebuke the present prosecutor for his failure to proceed against flagrant violators of the law," I. A. Capizzi declared at a Republican rally of supporters for his candidacy for the office of prosecuting attorney of Wayne county.

"The hand-cuffs of privilege and preference must be stricken from the prosecutor's office," he asserted, "before punitive hand-cuffs can be snapped upon the greedy hands of those who flaunt the demand of law-abiding citizens for a return to the peace and safety of law and order."

As a former assistant prosecuting attorney under Judges James E. Chenot and Harry S. Toy and later as an assistant attorney general under Paul Voorhies and Mr. Toy, Capizzi's records of investigations and convictions includes many grand jury proceedings that uncovered fraud, graft and bribery which were costing the taxpayers hundreds of thousands of dollars.

Later, during two years as counsel, member and chairman of the public trust commission, charged with safeguarding many millions of dollars invested by Michigan citizens in real estate projects, he was instrumental in salvaging millions of dollars worth of property on defaulted real estate bonds.

Mr. Capizzi is a war veteran who saw overseas service. He is married and the father of a child. Campaign headquarters have been opened at 1512 Penobscot building, Cherry 0090.

Stanley Barker Gives His View

Stanley Barker, candidate for the Republican nomination for the state senate, has provided the following information about his career and platform:

"It is about time that our legislature and governor crack down on those members of the small loan business who have condemned the field to that of a racket."

"It is also time to start cutting taxes," he said. "I am a small taxpayer."

"The small loan business is both necessary and has a proper place in the community," he continued angrily, "and there are many legitimate small loan firms, but how is the average citizen to separate the wheat from the chaff unless the law does it for him? Not a week goes by but what some person walks into my office and tells how some finance agent grabbed his automobile and sold it just because the payment was a few days behind. The other day a man from Brightmoor came in whose pay day had been changed from the 19th to the 25th. The man did the nice thing of spending carfare to go to the company to tell them about it, but did they extend the date of his payment accordingly? NO. They told him to pay \$5.90 to have a \$27. monthly payment extended; they also told him to pay an additional 10 cents a day for each overdate; and then when he can't pay they take his car and sell it WITHOUT ANY COURT HEARING for less than

what it's worth. They don't stop there. After they've sold it, they GARNISHEE HIS PAY for the "DIFFERENCE," and thereby jeopardize his job.

That is not Christian, and my platform is based on the Golden Rule. "Do unto others as you would have them do unto you." Judges' hands are tied by the law. If you want this changed you must elect a senator from the 18th district who will fight for proper change."

Stanley Barker, now 30, has been practicing law nine years, has been chancery clerk to the circuit court commissioners of Wayne county also working with the circuit judges while holding that position; state inheritance tax representative under Governor Frank Fitzgerald and associate municipal judge of Ferndale until he resigned to take the state post.

His offices are located at 512 Hammond building. Mr. Barker is a member of Wayne Lodge No. 2, I.O.O.F. and of Corinthian Lodge F. & A.M. He was best known to citizens of this community when he was president of the Detroit and Michigan Interdenominational Young Peoples' council.

Two years ago Barker was rated first on his ticket by the Bar Association in the race for circuit court commissioner (short term); received 28,000 popular votes coming within a few hundred of nomination; and was rated first by the popular vote of that part of Wayne county which comprises the 18th district.

Capt. Denniston For Sheriff

Captain Edward Denniston, candidate for the Republican nomination for sheriff, needs no introduction to western Wayne county, where he has spent most of his time during the last 12 or 13 years. He was in charge of the Detroit House of Correction until he was retired this spring.

Previous to that time the Detroit House of Correction was located in Detroit, and he held the same position in that city for many years. His long and highly successful career as the head of an important county institution has given him a standing in the forthcoming campaign that cannot be equalled.

Capt. Denniston is not only well equipped for the place he seeks, but if he should be nominated and elected he will give to Wayne county an administration of an important county institution that will be outstanding. He will put an end to the petty rackets that have flourished so successfully in recent years.

Republicans in and about this part of Wayne county are hopeful that he will be nominated because of the fact his selection for a place on the Republican ticket will add considerably to its vote-getting strength.

Gordon Seeks Senate Place

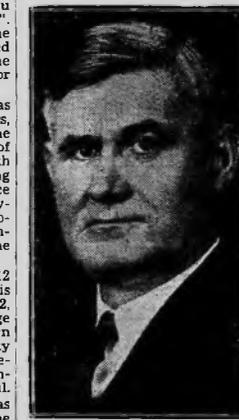

Archie E. Gordon, of Detroit, candidate for the Republican nomination for the state senate from this district, gives the following information pertaining to his record and qualifications:

"I was born in New York City April 18, 1894, and shortly moved to Hartford, Connecticut, where I received my education. After attending high school, my employment was varied, until in 1916, at the age of 22, I came to Detroit and have lived here since."

"Engaged in the manufacture and distribution of medical supplies for four years, then operating a collection agency for three years, my contacts opened a fertile field for selling. Thus, occupied as salesman for many years, my experiences led me to the threshold of politics in 1932. "Subsequently, my political affiliations resulted in my present position as an employee of the board of county auditors in the tract index department, where I have been well versed in the history of law conveying in Wayne county, and accordingly have developed a keen interest in government."

"My aims are state reapportionment in order to assure Wayne county a more equitable tax distribution; modification of small loan bill for the purpose of reducing present interest rates; revision of present land contract laws to extend the equity of redemption period to one year; elimination of tax on food, and the substitution thereof of an additional luxury tax; enactment of more stringent divorce laws; and legislation providing limited homestead tax exemption."

Boost Read For Lieut. Governor

HON. THOMAS READ
Candidate For
Republican Nomination for
Lieutenant Governor

Thomas Read, former lieutenant governor, has announced that he is again a candidate for this important office on the Republican ticket. Out of a field of a half dozen candidates, Republican leaders in Michigan are today predicting that the former Shelby official will be the winner.

His administration of the office during the time he held it was above reproach.

He is probably one of the best posted men among all the candidates for various political offices about state affairs.

Mr. Read is finding plenty of support not only throughout the state but in Detroit as well, where he was always regarded as especially friendly to Wayne county.

He has a large following which is working diligently in his behalf.

George H. Davis, president, U. S. Chamber of Commerce: "Business, whether big or little, cannot subscribe to the theory of burning up the ship to get rid of a few rats."

Wheat, corn, cotton and other crops are bringing good cheer to the people in many sections of the country where these products of the soil are their money. Country newspapers everywhere tell of the good luck of their communities because "crops look good". That's big business for the farmers.

Nominate Korte Register Of Deeds

Wayne county Republicans are fortunate in having as a candidate for register of deeds, Nelson L. Korte, one of Detroit's best posted men on details of the county register of deeds office.

He was born in Detroit 43 years ago and is a graduate of the school system of that city.

For over 17 years he has been transacting business in the county building and probably knows more about the functions of the various departments than do many of the officials in charge. He is married and is the father

of four children. He is president of the Grosse Pointe Lions club and a member of the Detroit Board of Commerce.

He is the high type of candidate that the present day trend of affairs demands the Republicans nominate and elect.

Much of the stone used in construction work in early Detroit was quarried on Stony island, lying in the Detroit river between Grosse Ile and the Canadian shore.

Today, the average middle class family has two plans for living: Installment and excitement. Lights, camera, action. Forty, fifty, sixty, and seventy miles an hour. Thrills and excitement—on time payments.—Gilbert P. Farrar, typographer.

Stanley Barker Gives His View

Stanley Barker, candidate for the Republican nomination for the state senate, has provided the following information about his career and platform:

"It is about time that our legislature and governor crack down on those members of the small loan business who have condemned the field to that of a racket."

"It is also time to start cutting taxes," he said. "I am a small taxpayer."

"The small loan business is both necessary and has a proper place in the community," he continued angrily, "and there are many legitimate small loan firms, but how is the average citizen to separate the wheat from the chaff unless the law does it for him? Not a week goes by but what some person walks into my office and tells how some finance agent grabbed his automobile and sold it just because the payment was a few days behind. The other day a man from Brightmoor came in whose pay day had been changed from the 19th to the 25th. The man did the nice thing of spending carfare to go to the company to tell them about it, but did they extend the date of his payment accordingly? NO. They told him to pay \$5.90 to have a \$27. monthly payment extended; they also told him to pay an additional 10 cents a day for each overdate; and then when he can't pay they take his car and sell it WITHOUT ANY COURT HEARING for less than

Why do things seem to whirl round and round when we are dizzy?

There is a small organ located in the back of the head which is responsible for our sense of balance. When this organ becomes diseased or disturbed it can no longer contribute balance to the brain and we are conscious of being dizzy. During the dizzy spell the eyes cannot respond to the command of the brain. One focuses on one object and the second on another at the same time, causing the brain to see two pictures. The result is the confusion which we call dizziness.
