That she signed a petition asking the Governor to appoint some more capable person never lived. Mrs. Moss had been active in the community to aid hospitals and institutions, and places of business are equally accessible from the two main streets, north and south from the city center.

It is improbable, according to Mr. Willett, that the school board will purchase the proposed school building on that site. The sewer improvements developing west of the river are available for the school site. In an effort to keep the public school system once again functioning as efficiently as possible, the school board has purchased the property for the proposed school building.

Serving the community for almost 20 years, Mrs. Moss has been a force in the community for the development of the Plymouth Rock lodge, served as the master of ceremonies for the Trendy Grounds is launched to remind citizens of the plight of hospitalized patients in both Europe and the Pacific. Under the capable direction of the school board, the school district from now until June 30, will provide the music for the Patriotic Blowout.

New Plumbing Tip — Serves Many Purposes

Fresh asparagus is one of the delights of spring. In the forcing house it is now being marketed by the bunch. This is rather expensive as the stalks are not as thick and meaty as those you can get in the average market. The fresh asparagus is a Across the stalks as quickly, but thoroughly through the vegetable stage of the refrigerator. When it’s time to cook the asparagus, trim one inch from the tough ends and then slip off the tough skin. But these bunches upright in a pot of boiling salted water and after they’ve been boiling for about 3 minutes, add to the tips. This method preserves all of the tender green and the tips either override in the end pieces, or are pared off after the tips have been added. If the first fresh asparagus are to be served gunning up hot, with butter and salt and pepper. As that as soon as possible, preferably in the refrigerator. If there’s a good supply in the refrigerator, change the method of serving. Try a different size or use the asparagus in a main dish.

Asparagus with Lemon Butter Sauce

Asparagus 4 to 6 tips of hot cooked asparagus are cut into each of the desired size. For each of the desired size. For each of these tips, blend 1 tablespoon of lemon juice gradually into 2 tablespoons of butter, well melted. Top with lemon butter sauce. Garnish with a blanched and chopped pecan. Enter the butter into 1 tablespoon of lemon juice gradually into 2 tablespoons of butter, well melted. Add a cup of rich milk. Season to taste and serve. This is a nice method to make for a first course, the economical entree. When taken straight from the refrigerator and served, this dish is easily prepared and served in a chow.

How should milk be curried?

At the store.

Sweat Lame Pairs and Pineapple on Busy Days

Serve Lame Pairs and Pineapple on busy days when there isn’t any time for elaborate desserts. Cut the asparagus in 4 inch pieces and cook on a grill until crisp-tender. Meanwhile, combine 2 tablespoons of melted butter with 2 tablespoons of flour. Add to this mixture 1 cup of medium cream sauce. Add to this mixture 1 cup of medium cream sauce. Cook until thick and smooth. Cut up the pineapple and serve with the sauce and asparagus.

Four layers of the feather cake, fully iced and whipped cream, a cherry and pineapple decoration add up to an年度 dessert time enjoyment.

Surprise Mother Sunday with an Easy to Make Banana Layer Cake

Mother’s Day dinners need not be elaborately planned to appeal to everyone. And that something special prepared by the family may be the same cake. This is the easiest recipe for a banana cake. The following measurement of the melted cream may be used. Instead of serving the whole cake, the cake is scooped with a portion of the melted cream. The remaining ingredients are then added with the bananas, nuts, salt and pepper to taste, 4 well beaten eggs. Pour into two round cake pans and bake in a moderate oven. (225 F.) for about 20 to 25 minutes. For a sweeter, flavored whipped cream and maraschino cherries are used to decorate the cake.

This Time The Anti-Trust Lawyers Won A Case Against A&P

As almost everyone now knows, the anti-trust lawyers in Washington have brought a civil suit to destroy A&P. They ask the courts to order the dissolution of this company.

They say that this suit is based on the fact that they won a suit against us at Danville, Illinois, in 1946. They did. In that case, Federal Judge Walter C. Lindley made a decision against A&P.

Immediately thereafter, in a letter explaining his decision, Judge Lindley wrote:

"I have not condemned the A&P system. I have not made a finding which could be the basis for a suit of dissolution."

So, now we have the anti-trust lawyers saying that their suit to dissolve A&P is based on Judge Lindley's decision; while Judge Lindley himself says his decision could not be the basis for a suit of dissolution.

In previous ads we told you about the cases against A&P which the anti-trust lawyers lost. We promised to tell you about this case they won. Here is the story of the Danville case.

What Judge Lindley Objected To

At Danville, the anti-trust lawyers made all of the charges which they are again making against A&P today. They were substantially the same charges they had made and dropped at Dallas, Texas, after four federal judges had objected to some of them as "inflammatory."

In his decision, Judge Lindley was critical of some of our activities. He threw some of the charges out of court. He did not make any decision on others.

He even took occasion to praise A&P for the efficient job of food distribution it had done.

"To buy, sell and distribute to a substantial portion of 130,000,000 people, one and three-quarter billion dollars worth of food annually at a profit of 1½ cents on each dollar, is an achievement one may well be proud of."

"No place in the world I take it are people so well fed as in the United States. Nowhere else, I suppose, do food distributors accomplish efficient distribution at so low a margin of profit. In contrast, we are told in other nations the problem is not one of an adequate diet but one of no diet at all."

But Judge Lindley did find us in violation of the Sherman Act. He based his ruling on the dual role played by our fresh fruit and vegetable buying subsidiary, the Atlantic Commission Company, whereby that organization acted both as buying agent for A&P and as selling agent for growers.

Judge Lindley said:

"If I assume for the purpose of disposition of this case that in general the policy of A&P was to operate within the law and attribute to defendants a desire to comply with the law, there still remains the conscious, knowing adoption by all defendants of a plan of action by the Atlantic Commission Company affecting every department of A&P and every retail store which cannot be squared with the intent and purpose of the act."

In his letter explaining the decision, Judge Lindley wrote: "I have condemned their practices through the Atlantic Commission Company."

Judge Lindley imposed fines totaling $175,000. When his decision was upheld by the Circuit Court of Appeals in Chicago, we paid the fines. This ended the case—but we did not stop there.

What We Did To Correct This

In the light of the decision, we immediately set about reviewing our activities to be sure that there could never again be any criticism of our operations.

First, the Atlantic Commission Company abandoned the dual role to which Judge Lindley objected and which he said was the basis of his decision against us.

We did this even though the Atlantic Commission Company had been licensed for many years by the United States Department of Agriculture to act as both a buyer and seller of fresh fruits and vegetables.

The Atlantic Commission Company now only buys for A&P. In other words, we stopped doing the thing which Judge Lindley said put us in violation of the Sherman Act.

We made additional changes in other methods of operation which Judge Lindley had questioned at Danville, even though he did not base his decision on them.

We did even more than this!

We went down to Washington and asked the anti-trust lawyers what else they thought we should do to conform to their new interpretation of the vague anti-trust laws.

"The only answer we ever got was that we should break up this company!"

Despite their claim that they were not opposed to our manufacturing operations, despite their claim that they were not opposed to our low prices,

"We must destroy many of the efficiencies that make these low prices possible."

In other words, they insisted upon the dissolution of A&P.

We were still trying to find out from the anti-trust lawyers what else they thought we should do to conform to the law when they filed the current suit to destroy A&P.

Why, Then, Do They Want To Put A&P Out Of Business?

Ever since this suit was filed, the anti-trust lawyers have been making damning statements that could seriously hurt our business if they were believed by the public.

They say that we were found guilty at Danville of all the charges they are making today.

"This is not true. Judge Lindley did not sustain all of the charges of the anti-trust lawyers."

They say this suit is designed to enforce the law.

"But A&P has clearly demonstrated its sincere desire to abide by the spirit, as well as the letter of the law."

They say they are seeking to "enjoin" A&P from engaging in certain "illegal" practices.

Actually, the whole purpose of this suit is not to "enjoin" us, but to put us out of business.

They say that this suit for dissolution is based on the decision handed down by Judge Lindley in Danville.

"But Judge Lindley has said of his decision: 'I have not made a finding which could be the basis for a suit of dissolution.'"

What, then, is the real reason why the antitrust lawyers want to destroy this company, which for 90 years has pioneered the methods of distribution which have given the American people more good food for their money?
