

## IT SHOULD BE GRANTED.

Wayne University is asking the Michigan State legislature to grant it an appropriation of \$3,000,000 for a medical science building. Wayne University is owned and controlled by the Detroit board of education—and the Detroit school district finds it somewhat difficult to give this fast growing University all of the help it needs. We hope that the legislature does not hesitate in granting this appropriation, even though it is not a state owned or controlled institution. It should be—why the Governor is not putting forth his efforts to have it become a state institution is more than we can understand. Wayne provides thousands of young men and women the advanced education they would be able to secure in no other way.

It is much more economical to attend Wayne than it is the great University at Ann Arbor. Then, too, students can find work much easier in Detroit than they can in Ann Arbor. It was revealed a few years ago that much over half of the student body of Wayne were working their way through the school by holding down part-time jobs when not doing class work.

Our great University of Michigan at Ann Arbor is without question probably the outstanding educational institution of the world. Michigan State up at East Lansing is another great institution. Coupled with these schools and Wayne University, plus the other state controlled educational institutions scattered throughout Michigan, this progressive state doubtless leads the nation in providing its young people with the educational requirements that are so essential to success in modern day life.

It seems hardly fair to us that the taxpayers of Detroit should be called upon to bear the entire burden of supporting Wayne University when many thousands of its students are from localities scattered throughout southern Michigan. We should take over this school, provide for the election of a board of regents and thereby assume a responsibility which rightly belongs with all of the people of Michigan.

## PLUGGING A BIG TAX LEAK.

Newspapers report that Representative Lew Christman of Ann Arbor is making a determined effort to patch up the cigarette tax law in Michigan so that cheaters will no longer be able to defraud the state.

It seems that large shipments of cigarettes upon which no tax has been paid are finding their way into Michigan. It is reported that big truck loads are crossing the state boundary with increasing frequency.

Mr. Christman, one of the alert members of the legislature, helped draft the original cigarette tax law, a law made necessary because the people of the state voted overwhelmingly in favor of a soldier bonus. As you know, the cigarette tax money is being used to pay off the soldier bonus bonds. When the bill was being drafted he gave the question of tax evasion his careful attention and thought at the time that proper safeguards had been written into the statute. But such is not the case.

Violations have become somewhat common and now Representative Christman is endeavoring to remedy a situation that enables some low-down cheaters to get away with a system whereby war veterans and honest Michigan taxpayers are being defrauded.

It seems the right of search and seizure is the big issue. We are not so sure but what this protection of so-called individual rights is being carried too far. Crooks, big, little and dirty are taking advantage of it—as one might learn by reading some of the testimony gathered by various United States senate investigations.

Suppose we do bend a little backwards in some of these matters? You are the ones being cheated, because the more these sneaking tax cheaters get away with, the more taxes you have to pay.

We hope Mr. Christman, is successful in his efforts to right a serious wrong. His purpose is one which will be of benefit to the entire state, providing the legislature will cooperate with him—and we believe that it will do just that.

## WORST THAN GRANT.

Westbrook Pegler, famed American newspaper columnist, recently declared that Harry Truman had proven the worst stick of a president since General Grant.

Why stop at Grant? Does any one know of any president in American history, with the possible exception of Franklin Roosevelt, who was half as bad as the Missouri politician who now fills the office of President?

Do you know of any president who has been more greedy in getting tax dollars diverted to his own pocketbook than has been Harry Truman? Oh yes, it is all done legally, but have you heard one word from Truman as to his willingness to assume his share of the tax burden with the rest of the people of this country? No, he hasn't offered to turn back into the U. S. treasury one cent of his tax-free income.

Mr. Truman wants congress to tax the people "until it hurts." His proposal will take nearly every penny a person can make in order to pay the tax he is demanding. The United States News and World Report comments that Mr. Truman, however, is among those to be hurt least in such a squeeze. Thus, his demand for a crackdown on taxpayers is starting to be a bit embarrassing. The reason is this: The President who asks the tax increases, the Vice President who helps put them through the Senate, the Speaker who guides them through the House and members of Congress who vote the increases do not share the burden equally with the common people.

All of these public servants enjoy big, tax-free expense accounts that they granted to themselves. Congress passed the bills and Mr. Truman signed them and made them law. The tax exemption applies to one third of the pay of the President. It covers one fourth of the pay of the Vice President and Speaker and one sixth of the pay of Congressmen.

The presidential expense account is \$50,000 a year. It is paid to Mr. Truman as income. The President does not have to account for what he does with the money and the whole \$50,000 is tax exempt. Congress voted the tax-free fund for the President two years ago, and raised his salary from \$75,000 to \$100,000 a year. In addition to the expense account and salary, totaling \$150,000, Mr. Truman has many advantages. He pays no rent. He has the use of a yacht, an airplane and a fleet of limousines.

The Vice President and Speaker each draw a salary of \$30,000 and are given \$10,000-a-year tax-free expense accounts. Members of Congress get \$12,500 in salary plus \$2,500 for expenses.

## AN INSULT TO THE TAXPAYERS.

All the money that the Reconstruction Finance Corporation has available to use found its origin in the pockets of the taxpayers. You and me and everyone else when we pay the federal government even one cent of tax money are doing our share to help support a government agency that was originally created to help PROGRESSIVE business.

Now what do we find? Your tax dollars and my tax dollars are loaned to a "king" of the punchboard racket to build one of the most beautiful hotels in the world, down on the Atlantic coast in Miami Beach, where gambling money, easy money, big money, racketeer money, filthy money, flows as freely as does the Chicago sewage into the river that carries the filth down to the Mississippi.

But do you suppose that you would ever be able to enjoy

## Appeal Again for Easter Seal Fund

The campaign for the Easter Seal drive continues with an Easter Seal sale on Saturday, March 17, on Plymouth's main street. The Rotary Club and Russell Daane's committee of the Rotary club are in charge of the sale.

Thirty-five school children will stand with canisters and Easter lilies from 9 a.m. to 7 p.m. The Rotary Club will provide lunches for the children.

It is only through the sale of Easter seals and Easter lilies that support is obtained for the crippled children and adults in Wayne County.

All those who have not mailed their donations in to the 18th annual Easter Seal drive are urged to do so by March 23, according to Mr. Russell Daane, Rotary chairman, for the Wayne County chapter of the Michigan Society for Crippled Children and Adults.

"We have by no means achieved our goal in our endeavor to bring help to handicapped children," said Mr. Daane.

"The financial support to help crippled children is one of the most nationwide movements, and it is daily making productive citizens of young people who might otherwise be life-long dependents. We need the strongest public support if we are going to do an adequate job."

Easter Seal funds are the most part utilized in the area in which they are raised. A total of 91.7 per cent remains in the community where they are raised, while only 8.3 per cent goes to the National Society for Crippled Children and Adults to finance its program of research, education and service on a national scale.

"We urge the residents of Plymouth to meet its tremendous responsibility to see that the handicapped have adequate care through giving to the Easter Seal campaign," said Mr. Daane.

## Over 300 Ladies Attend Rug Show

Over 300 ladies visited the recent exhibit put on by the Hooked Rug clubs of Plymouth. The visitors saw 40 hooked rugs made in the colonial style.

Twenty-five of the rugs were not complete, thus enabling the ladies to see the various stages in rug making. Mrs. Kenneth Packard demonstrated how the material is dyed and how rugs are hooked.

Mrs. Charles Brake and Mrs. Nellie Bird presented two rugs that they designed originally.

Plymouth ladies were so interested in the hooked rug exhibit that many orders and requests for patterns were taken.

## Mail, Wayne U. Initiate Journalism Workshop

A newspaper workshop project with Wayne University has been instituted by the Plymouth Mail. Arranged by Sprague Holden, chairman of the Wayne Journalism Department, William White, assistant professor of journalism, and Sterling Eaton, business manager of The Mail, the program will enable qualified senior students to spend one or two days a week as a staff member of the Mail.

The program is the first of its kind to be tried in Michigan by any of the three large institutions of learning or any newspaper, and it is hoped it may set a new standard in helping graduates have practical experience along with their academic work.

First journalism major to participate in the program is Frank H. Rathbun, 1941 Salem, Detroit, who is working with The Mail every Tuesday. Rathbun will gain experience in gathering news, writing stories, and headlines, and selling ads.

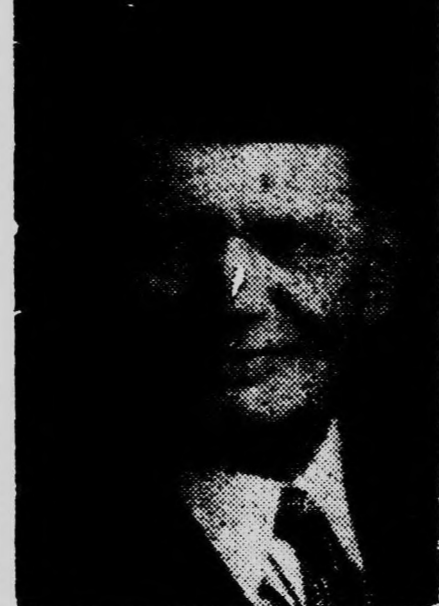

The program will enable the Mail to give greater coverage to local events and at the same time give students the benefit of practical experience on a newspaper.

From time to time Wayne students will be assigned to cover local stories. The Mail and the University trusts they will be given full cooperation by Plymouth officials and business men.

Wayne Journalism graduates of the last four years are staff members of Detroit area dailies and weeklies and more than a score of out-state newspapers and many publications in other states.

Besides Professor Holden, formerly an editorial writer for the Detroit Free Press, and assistant professor White, eleven Detroit area newspapermen comprise the Wayne Journalism teaching staff. Currently teaching spring semester courses are: Clyde Beck,

## Charter Revision Committee Discusses Proposed Changes

The nine-man charter revision committee elected by Plymouth voters last fall has been meeting one night a week since last November to discuss possible changes in the charter.

The question arose at an early meeting as to whether the committee was to rewrite or revise the charter, and whether they could change the form of government without an express vote of the people.

Don Sutherland, chairman of the committee, replied that the people had elected the committee to revise the charter as they saw fit.

"The general public," said Mr. Sutherland, "cannot be expected to study each phase of the problem. That is why this charter committee was chosen."

However, Mr. Sutherland expressed confidence that the fundamentals of the old charter are fundamentally sound.

The discussions, to date, have been tentative and no final decisions have been reached. One issue, however, which has been favorably discussed, is a proposal to increase the members of the City Commission from five to seven, and their term from two to four years.

This increase would eliminate the problem caused by one or two members being absent. With

## Commission Cuts Kresge Tax Bill

The City Commission reduced the tax assessment of the S. S. Kresge company from \$1,200 to \$900 Monday evening at a special meeting.

The Kresge company had appealed their tax bill to the Board of Review. The dime store company, who requested complete removal from the 1951 tax rolls, stated that they will appeal to the State Tax Commission and Supreme Court.

The City Assessor had valued the Kresge property at \$31,620 on January 1, 1951. The company contended that since their buildings were razed on January 8, they should not have received a tax bill at all.

The 1951 tax bill however, also includes country and school taxes. City Assessor Edward Potthoff pointed out, Kresge's new building, which will be completed sometime in July, would also not be taxed this year, he added.

City Attorney Harry N. Deyo recommended to the Commission that the tax assessment stand as it was originally assessed.

## Easter Holiday Begins For Plymouth Children

Plymouth school children will get a break next week, for Easter vacation begins on Monday, March 19, and will continue through Sunday, March 25. School will commence on Monday, March 26.

## Greets Local Pilgrims.....

Winners of the local pilgrim contest, sponsored by the Daughters of the American Revolution, are Erna Kienbaum, Plymouth's pilgrim, and Mary Harrison, Northville winner. The two girls were chosen by their fellow high school students and the faculty, and they will enter the State Pilgrim contest. Left to right are Erna Kienbaum, Mary Harrison, and Mrs. E. J. Cutler, Regent of the Sarah Ann Cochran Chapter of the DAR in Plymouth.

Plymouth's entry into the State Pilgrim contest will be Plymouth High school student Erna Kienbaum. In the contest, sponsored by the Daughters of the American Revolution, Erna was chosen by her fellow students and the faculty.

Good citizenship, character, scholarship, and ability to cooperate with others were the qualities Erna was judged by. Erna will receive a good citizenship pin.

She is the daughter of Mr. and Mrs. Kurt Kienbaum of Adams street.

Erna and Northville's Pilgrim, Mary Harrison, will be guests of the Sarah Ann Cochran Chapter of the DAR Monday, March 19, at 8 p.m. in the home of Mrs. Northville.

## Red Cross Fund Drive in Full Swing as Workers Canvass City's Homes

The Red Cross 1951 Drive for funds is now in full swing. Red Cross workers are now canvassing Plymouth homes for funds. Residents are requested to place the Red Cross sticker in their homes, which are given to them for donating, to prevent duplication of canvassing.

Covering the west side of town will be Mrs. Kenneth Corey, Mrs. John Ambrine, and Mrs. Russell Roe. Mrs. Elvin Hubbs is the chairman. The Phoenix subdivision area is under the leadership of Mrs. Walter Roberts.

The downtown business area is led by Wendell Lent, and Karl Sandberger will contact the churches. Chairman for the east side is Mrs. Wallace Laury and Mrs. John Sugen will guide the south side.

More names of Red Cross volunteers will be announced next week. Among the less publicized activities of the Red Cross is its veterans program. At Percy Jones Hospital, the Red Cross's Gray Ladies and Nurses' Aides are seen frequently about bringing comfort and cheer to the boys.

However, Red Cross workers point out, they need more funds to supply transportation and articles for the hospitalized veterans.

The veteran population which stands today at 19 million men is quickly increasing, and for that reason the Red Cross needs additional funds to support its program.

The Red Cross's veteran program today is a three-way service. First of all, in every community there is a chapter. Home Service to aid veterans with personal and family problems, and to assist the veterans in filing government benefits.

The Red Cross also gives service in the Veterans' Administration offices and helps to de-claim.

Thousands of trained chapter volunteers are present in veterans hospitals such as Percy Jones, to help the hospital staff carry out medical, recreational, and welfare programs.

Statistics show that last year a monthly average of 20,760 chapter volunteers gave a total of 1,559,300 hours of service in VA hospitals.

The strength of the Red Cross lies in its thousands of men and women who donate their services or money to help others. These volunteers serve in a multiple of capacities.

Although a listing of the nine organized groups that comprise Volunteer Services do not give the faintest idea of the legion of workers in the Red Cross, it will help to indicate the many fields of Red Cross aid.

The Volunteer Services are composed of the Arts and Skills, Cartoon, Entertainment, and Instruction, Gray Lady, Motor, Production and Supply, Social Welfare Aide, Staff Aide, and Volunteer Nurse's Aide.

More Red Cross Volunteers are needed, but if a citizen can not give any time, the volunteers require support from everyone to carry out their program.

## Discontinue Postal Notes After March 31

After March 31 the issuance of postal notes will be discontinued, announced Dr. George Timpona, Plymouth postmaster. This new order will inaugurate a new money order system which will go into effect July 1. At present the details of the new system have not been announced. Plymouth residents will still be able to obtain money orders.

## Gravel Co. Operation Threatens Contamination of Plymouth Water Farm

A law suit, the result of which may vitally affect Plymouth's million dollar water supply, will be tried March 20.

Plaintiff in the suit is the Northville Sand and Gravel company, owners of over forty acres of land adjoining the well fields, which supply Plymouth with water.

The object of the company's suit is to declare invalid a Northville zoning ordinance which prevents them from utilizing the land for gravel and sand operations. An injunction was granted to Northville township on the grounds that a township zoning ordinance forbids commercial use of the property.

The importance of the suit to Plymouth lies in the danger that the excavating, which necessarily accompanies gravel operations, might lower the surrounding water table to such an extent that the adjoining well fields would be made useless.

Another danger lies in the possibility of cutting off the water seepage, which is from the north and northwest to southeast. The company's land lies North and West of the well fields, and interference with the soil formation might well disturb or block the seepage.

In addition there is the ever present danger of pollution in the standing water of gravel pits.

The suit was begun in 1948 by the company. Plymouth city attorney Harry N. Deyo filed a petition to intervene, on the basis of the danger to the water supply.

Plymouth has a total investment of over a million dollars in their water system, including a \$255,000 bond issue in 1946. This money was used to construct a 16 inch line to carry water to Plymouth over a new route. In addition, \$31,000 of Water Department funds has been used for improvements on the system.

The well field, containing seven pumps, supplies almost a million gallons of water daily to over 2000 meters in Plymouth and vicinity. The efficiency of the system is shown by the fact that constant and even pressure is maintained throughout the city, even in hottest weather.

Should the company win its suit and carry out its excavations, and the water system be made ineffective the city would have to invest in a new system or tie in with Detroit's supply. Either would be an expensive operation.

Additional importance is attached to the problem by the needs of civil defense. In the event of an atomic raid on Detroit, a sufficient amount of food for the area would have to depend on outlying communities, such as Plymouth, for water.

The company, which claims there is no danger to the well field, purchased the property on a land contract in 1944. The land at one time belonged to the village of Plymouth, who sold it in 1907. Lying along the east side of Beck road and just south of seven Mile road, the area has been the source of Plymouth's water since 1891.

## Deer Hunters Are Sportsmen, Too

Plymouth deer hunters have more than once proved that they are not only good deer-hunters—but good sportsmen, too.

More evidence of the fact came to light a few days ago when it was learned that a number of Plymouth deer hunters have been providing funds to northern sportsmen groups that have assumed the responsibility of providing feed for northern deer that suffered greatly from Michigan's long and severe winter.

Recently Leonard Millies was advised that the Atlanta Sportsmen's League was trying to save hundreds of starving deer by providing additional feed.

It is in the Atlanta area where a group of local sportsmen do their deer hunting every fall. So Mr. Millies, Robert Todd, Francis Beal, Robert Burley, George Brutter and Harold Burley raised a sufficient sum to purchase a substantial amount of feed for the starving deer that doubtless has already been distributed through the forest area around Atlanta.

"We are very happy to be in our new home," said Miss Dunning, owner and manager, Plymouth Ladies are asked to watch for the grand opening and to stop in and see the many new things for Easter.

## Ladies Apparel Shop Moves to New Address

Dunning's Ladies Apparel shop has moved from its temporary quarters on Forest avenue across the street to 500 Forest.

The Dunning shop was located formerly at 354 S. Main, and the premises were vacated to make room for the S. S. Kresge dime store.

Don't Forget We Service After We Sell

by Carl Peterson

A midwest inventor claims that twin beds will soon be museum pieces. For folks who want the privacy of a single bed while sleeping in a double one he has built a mattress with a row of hard springs down the center. He also has an electric blanket with a cold strip down the center. That way people don't sprawl all over the bed. He also has a telephone that lulls you into slumberland and a singing pillow with earphones. This last providing you don't pick up commercials. Personally, we've found only one thing that ruins our sleep. That's getting up in the morning.

This week we filled our 10,000th prescription! That's quite a record for being in business only a little over two years... if you'll pardon us for tooting our own horn a bit. We do take pride in the confidence you have shown in having us prepare your doctor's orders... thanks for trusting us. We want to continue this trust and be of even further service. We now have three registered prescription pharmacists connected with our firm, two of whom are on duty at all times.

Bing Crosby, the old groaner, was just adopted by the Pute Indian tribe. Maybe the red men want to get a little rhythm into their war whoops. You can depend on the accuracy of our prescription service. It's our life-work to safeguard the health of your family. So be sure... bring us your prescription. We're trusted 500 times a month... at PETERSON DRUG, 840 W. Ann Arbor Trail, Phone 2080.

## Grocers Invited to Sales Meeting

Plymouth and Northville grocers will have an opportunity to brush up on how to increase produce sales, cut losses, and better serve their customers at a meeting to be held at George A. Smith Grade school, Plymouth, on Simpson street, Tuesday, 3:00 p.m., March 20, according to P. R. Riches, county agricultural agent.

Ray Higgins, extension specialist from the Michigan State college agriculture economics department, will present an informative demonstration in marketing and the following discussion period.

This topic will include tips on marketing competition, proper refrigeration of perishables, how to buy and keep quality, new ways to build displays, and how to trim and sell produce.

Higgins will also outline the various services available to grocers from the agricultural economics department at Michigan State college.

Riches, who believes retailers in the area will find Higgins' presentation interesting and helpful, and says this program is one they "won't want to miss."

## Goulds Install Storage For Furs

Plymouth ladies will now have another place to put their fur coats when they begin to shed them this Spring.

Lauren Gould, owner of Gould Cleaners, has just installed a fur storage room in his cleaning plant. The underground room is fire and bomb proof.

A solid 12 inch, cement, and steel reinforced wall will insure a moth-proof place for fur coats and it will be ready for miladies' coats within a month. The temperature in the fur storage room is held to a constant 35 or 40 degrees.

You don't have to stand over the stove and stir these puddings—they're ready to slide right out of the tin, milk puddings that taste like a cross between custard and gelatin. You can get them now in chocolate, butterscotch, strawberry, and vanilla. There's no corn starch in them; a vegetable gelatin keeps them jelled even at room heat, which means you can serve 'em right off the shelf. For a novel dessert: Heat one of the puddings and pour over ice cream or plain cake.

There is no terror in your threats; for I am armed so strong in honesty that they pass me by as the idle wind.

## Indoor Gardens Flourish Amid Plymouth's Defense Industries

A unique industry flourishes among the smokestacks on the outskirts of the great industrial metropolis of Detroit. In the vicinity of Plymouth are almost two dozen hothouse gardens, ranging in size from a few hundred square feet to over an acre.

With a total of over five acres under glass, the Plymouth area has more greenhouses than any section of Michigan, and for its size, perhaps more than any section of the nation.

In these indoor gardens, protected against inclement weather by the same glass which magnifies for them the heat of the sun, grow every conceivable type of plant.

At present concentrating on the Easter demand for flowers, the growers are planning to expand their operations by adding a variety of plants to their list.

The reputation of the business is shown by the following figures of Harold Fisher, whose greenhouse on Plymouth road, together with that of his uncle, Clarence

in Sheldon, is the only large scale supplier of tomatoes and radishes to Detroit markets.

Last year the two greenhouses supplied 19,000 baskets of tomatoes and 3,000 bushels of radishes to Detroit.

Most greenhouses have already set out cabbage, celery, and onion plants, many of which will be sold to gardeners later in the season, already half grown.

In addition to these plants they will furnish peppers, broccoli, tomatoes, strawberries and other fruits and vegetables much earlier than they can be grown in the ground.

Considerable competition has been experienced in recent years from southern growers, who, with refrigeration cars, can beat local growers for the market by several weeks with such produce as cabbage, onions, and celery.

Many local greenhouse men are considering such crops as early corn, melons, and tomatoes to avoid this competition. As most readers know, there is no comparison between hot house tomatoes and melons and those picked green and shipped thousands of miles in refrigeration cars.

Flowers form a large part of most growers' produce. Throughout the year a large demand for flowers offers greenhouses a steady business. Marriages, funerals, illness, and holidays all add to the steady demand.

Plymouth has long been known as a greenhouse area. Oldtimers in the business recall a saying that you could look behind any board in Plymouth and find a greenhouse.

While this is somewhat of an exaggeration, it is certainly true that the area supplies a considerable portion of the flowers of good cheer and the food of good eating to the surrounding area.

## Influenza on Decline in Wayne

"The high percentage of cases of influenza reported throughout the country have declined in the last few days. There are as yet no adequate vaccines available for protection against this disease which is often confused with the common cold; however, there is no cause for alarm over the present outbreak in our area," says Dr. Littlejohn, Director of the Wayne County Health Department.

Dr. Littlejohn stresses the need for immunization against those diseases which are preventable. He stated that vaccination is particularly important since three persons in communities within the jurisdiction of the health department have been reported to be potential sources of smallpox infection. These individuals have just returned from a smallpox epidemic area in England.

One death of a three-year-old girl from diphtheria has been reported in Detroit this month. This child had never been protected against the disease. Three other children in the family who had been immunized were safe and did not contract the disease.

Easy and quick methods of transportation, and shifts in population make it possible for such diseases to be readily spread from person to person not only in neighboring communities and cities, but also from one part of the world to another.

Dr. Littlejohn added that Civil Defense needs make protection against these preventable diseases vitally essential. He also stated that in addition to the above diseases for which reliable means of protection are available, control of communicable diseases in general is important in face of the numbers of cases of chickenpox, mumps, and scarlet fever that are now being reported in the country.

In San Diego, Duane P. Fraser succeeded in cashing a worthless check for \$20 at the Soft Touch Service Station.

Others are preeminently fish eaters, although they vary their diet with crayfish, frogs, shellfish, etc.

## Research for the Atomic Age Under Way at U. of Michigan

With more than \$3,500,000 in gifts, the University of Michigan is well over the half-way mark in its campaign for funds to carry on research in the atomic age. Dr. Alexander G. Ruthven, President, declared. Many research projects are under way and several have been completed and papers published.

The photograph shows Dr. William H. Beierwaltes of the University Hospital's internal medicine staff examining the amount of radioactive iodine taken up in a patient's thyroid gland by means of a Geiger counter. The lead "canon" placed at the patient's throat shields the small protruding Geiger tube from environmental radiation. The shielding method was developed at the University. The study of radioactive iodine uptake in tumors or cancerous thyroid is one of more than 16 important investigations now under way under the Michigan Memorial-Phoenix Project at the University.

A new plan to put the Phoenix Project to work for the State of Michigan has been announced by President Ruthven. Called the Institute of Regional Research, it will promote a broad and realistic approach to the problems of community development and of resource management and utilization. "It will be a focal point for all of the University's research and educational resources that can be brought to bear on its purposes," Dr. Ruthven said.

Support for the Institute will come from corporations, labor organizations, trade associations

Here's a **SAMPLE** Puzzle ALL WORKED OUT for YOU

IT'S EASY! First, to work out this puzzle we identified all objects pictured — RABBIT — FORK — TIRE. Then we wrote these words in the square near each object. This gave each letter a number. Next we transferred each letter to the similarly numbered squares in the big spaces. The shaded squares then contained the letters T-E-T-A. This is the scrambled last name of one of the famous Americans listed below the puzzle. Which one? T-A-F-T, of course! That's the simple game that when completed may bring YOU the gigantic \$15,000 CASH First Prize. Fun! An opportunity to be rich!

### Traditional Holy Week Services Begin Monday Noon at Theater

The Plymouth Ministerial Association will again sponsor a series of traditional Holy Week services this year.

Beginning Monday, March 19, at 12:10 p.m., the services will be held daily at the Plymouth Theater, 1210 N. Main St., opposite Kellogg Park, through the cooperation of the manager, Harry Lush.

Included in the services will be hymns, Scripture readings, prayers and a message by a visiting minister.

On Monday, the speaker will be the Rev. Charles W. Scott, of Detroit. The Rev. Mr. Scott is the Superintendent of the Michigan District of the Assemblies of God.

Tuesday the Rev. Walter Shapner, Pastor of the State Fair Church of God will speak. His message, based on Luke 19:41-46, is entitled, "If we only knew."

The visiting Minister Wednesday is Major Robert McMahon of the Salvation Army in Saginaw. Major McMahon will sermonize on "Would History Repeat Itself."

Monday, Tuesday the speaker will be the Rev. W. M. McGuire, D. D., the District Superintendent of the Church of the Nazarene. The Rev. Dr. McGuire will speak under the title, "Triumph of the Cross."

These services will begin at 12:10 p.m. and will conclude at 12:50 p.m. On Good Friday, March 22, the Ministerial Association will present meditations on the Seven Last Words of Christ in the traditional 12:30 p.m. Good Friday service at the same place.

#### The Churches of Christ Salute You Rom. 10:16

This is the first series of articles to be published by the Churches of Christ in the Plymouth area. It is a series of 12 articles, one for each day of the Holy Week. The articles are written by members of the Churches of Christ in the Plymouth area and are intended to help you understand the meaning of the Holy Week.

Many, viewing the condition of the world, crime, juvenile delinquency, national and international trouble have come to the conclusion that Christianity has failed since after 2000 years the world is no better. However, the world has always been very wicked. We read in Gen. 6, soon after the creation of the world that "the thoughts and imaginations of the peoples' hearts were evil continually, and it repented God that he had made man." God chose Israel to be his people and blessed them abundantly only to have them rebel against him time and time again by their idolatrous living. When Christ was born, Herod killed hundreds of innocent children in an effort to kill Christ. Later the Jewish leaders used every means at their disposal to kill Christ. Finally one of his own disciples betrayed him and the people who he had come to save despoiled used him and finally crucified him.

Because the world has become no better in the last twenty centuries people have concluded that Christianity has failed, but the world has not tried Christianity. If its principles were put into practice they would revolutionize the world. Nations talk of peace, yet suspicion, selfishness and greed are their controlling principles. War and financial troubles would end if Christianity was practiced. Billions, which could be spent in construction and helping the needy, are spent in weapons of destruction which breed hunger, want, misery and death to millions.

Domestic troubles would vanish if Christianity prevailed in the home. "Be ye angry and do not let the sun go down upon your wrath." Wives, submit yourselves unto your own husbands as unto the Lord. . . Husbands love your wives, even as Christ also loved the church. . . Children obey your parents in the Lord. . . Honor thy Father and Mother. . . And ye Fathers provoke not your children to wrath: but bring them up in the nurture and admonition of the Lord. (Eph. 4:26; 5:22-25; 6:1-4).

There could be no trouble in the Church if Christ and his principles were followed. "By this shall all men know that ye are my disciples, if ye have love one to another" (John 13:35). "Let each esteem others better than themselves" (Phil. 2:3).

If, in the community, everyone had the spirit of helpfulness rather than selfishness, jealousy and selfishness, there would be no trouble. Whoso hath this world's goods and seeth his brother have need and shutteth up his bowels of compassion from him, how dwelleth the love of God in him? (1 John 3:17).

Christ's death and resurrection made it possible for us to gain what man has lost through sin. We walk a lot about the world's condition, but what are we doing to better it.

According to legend, the town of White Pigeon, Michigan, was named after an Indian who ran 140 miles from Detroit to this village to warn its inhabitants of an impending attack by an enemy tribe.

In Philadelphia, investigating complaints that someone was screaming in the Shubert Theater at 4 a.m., cops found Night Watchman Hector Williams, 67, singing "My object all sublime" from Gilbert & Sullivan's Mikado to 1,900 empty seats.

## Need Urgent for Runners-on Squad

"Where's all the track stars of Plymouth High school?" is the cry heard around halls of PHS as only 15-19 boys have turned out for this spring sport.

According to Coach Moiso this is the worst turnout he has ever witnessed for a school of Plymouth's size, which is almost in the Class "A" bracket.

As it stands now, the squad will have to give several events to the opponents as there are not enough boys to compete in them.

Of these 15 boys, only four of them are returning lettermen. Out of the four, two are sick and may not be able to compete. Dick Crumb, a miler, is seriously sick with a collapsed lung and it is doubtful if he will be ready.

Dick Joachim, another letterman, may return this week. The other two lettermen, Charles Todd and Dick Reumski, will be the center of the squad.

A very urgent appeal from Moiso and the members of the squad for more boys should be considered by all boys of Plymouth High. Sixty out of 225 boys in the tenth, eleventh and twelfth grades there are more than 15 that are interested in a sport like track.

Another thing that should be considered is the fine record of last year's squad which took the River Rouge Meet, and the 6B league meet. It would look pretty bad if Plymouth couldn't even get up enough boys to enter a meet.

Think it over fellows and give the track team a chance. Who knows, maybe you are quite a runner.

## Utica Knocks Out Plymouth Rocks

The Plymouth High school basketball quintet bowed out of the picture last Friday night as they were defeated by a fast moving Utica team, winner of 20 straight games.

The Utica outfit took a fast 14 to 6 lead and then set up a tight defense that the local boys couldn't solve.

Gary Sockow kept Plymouth in the ball game with his two handed long shots. The quarter ended with Utica on top of a 14 to 9 count.

In the second quarter, the Utica boys again showed the fans their accurate shooting skill, by dropping in another 14 points to Plymouth's 8, for a 28 to 17 halftime lead.

Gary Sockow and Jerry Finnegan hit on a couple of long shots to pull the rocks within 6 points at one time in the third quarter, but Utica couldn't be stopped.

The Chiefs rolled up a total of 37 points with Pray and Schwartz each getting 18, while Sockow and Finnegan were tops for Plymouth, with 14 and 12 respectively.

Ten seniors, who played their last basketball game for Plymouth High are: Phil Jacobus, Howard Pernie, Don Gronowich, Jim Stevens, Alan Finney, Gary Sockow, Jerry Finnegan, Bud Young, Charlie Stark, and Wally Drurus.

Durus set a new school scoring record by scoring 243 points for a 12 point a game average.

Plymouth ended the season with 14 victories and 6 defeats. The Rocks outscored their opponents of the season with 543 points to 769.

A magistrate in Rutherford, N. J., decided that a filling-station operator was not guilty of assault for chasing a "customer" who bought no gas but wanted his battery tested, windshield wiped, and tires inflated.

The State of Michigan was the first to introduce roadside parks and picnic tables to America. More than 3,000 picnic sites and 60 roadside parks are located along the highways of the state.

## Recreation Dept. Classes

### TYPING

Tuesday night completed a series of six lessons for the adult typing class at the Plymouth High school. Another class will start on April 3 if enough people would like it. Please call Mrs. Donnelly at the Recreation office, 2075, to register.

### SHORTHAND

Tonight is the third meeting of the shorthand class at the High school taught by Miss Olson. On March 22, the class will not meet because of Spring Vacation. On March 29 the class will continue.

### WOMEN'S SWIMMING

The women of Plymouth are very fortunate in being able to swim in the luxurious pool at the Wayne County Training school. The class for May and June is almost full. Call the Recreation office immediately if you wish to register.

### WOMEN'S BOWLING

Come and enjoy an hour and a half of bowling at the Recreation Bowling Alley every Thursday from 1:30-3. Free instructions are given and everyone is welcome.

### WOMEN'S GOLF

We are organizing the women's beginners golf classes this year to accommodate as many women as possible. One class will be held each Thursday morning and one each Thursday evening beginning May 3 for six weeks. Mrs. Alex Miller, who has previously been an instructor in sports at the University of Michigan, will teach these classes at Hilltop Golf Course which is one mile west of Plymouth on Ann Arbor trail. Call Mrs. Donnelly, 2075, at the Recreation office.

### GIRLS CHORUS

All girls in the fifth and sixth grades who like to sing are invited to join this chorus. Central, Smith and Starkweather, as well as the Lutheran and Catholic schools are to be represented.

## Tait's Troupe Bankers, 57-48

Tait's Cleaners advanced to the finals in the play-offs for the Men's league, as they won two games last week, the first coming from First National by the score of 57-48. The Cleaners will meet First National for the final game.

Tait's returned to their regular style of play in the crucial contest with the Bankers, and swung into a 19-7 lead in the first quarter, and never relinquished this position to the losers.

In the second period, First National tried to get back in the ball game, as they scored 11 points to Tait's seven, but the Cleaners still held a comfortable 26-18 halftime lead.

The Bankers continued to roll along and out scored the victors 17-14 in the third period, to pull up within five points. The last quarter saw Tait's Cleaners snap back again to score 17 counters to First National's 13 to put the game on ice for them.

Don Huebler was the big gun for the Cleaners as he controlled the backboards most of the time, and he also collected 15 counters. Keith Ebersole and Charlie Ketterer each dumped in 13 points to help the cause.

Clair Ebersole was First National's main threat as he collected 14 points and also gave Huebler a rough time on the boards. Norman dumped in 12 points, followed by Bob Gow with 11 counters to lead the Bankers in their defeat.

## "F" League Title Goes to Ken & Ork

The "F" league came to close last Saturday with the Ken & Ork squad nosing out Davis & Lent 19-8, to win the "F" league championship. The victors were the top team in the regular schedule having won six games without defeat.

Ken & Ork jumped to a 5-2 lead in the first period, and held on to the lead the rest of the game. The halftime score was 11-5.

In the third quarter, Ken & Ork played very good defense, and held Davis & Lent scoreless, while increasing their lead by four more points.

The final period ended with Ken & Ork scoring four more points to the Losers three. Day paced the winners with six points, followed by Carter who collected five.

By winning this important game, the Ken & Ork squad qualified to play the Wayne-B squad on Wednesday of this week. The runner-ups, Davis & Lent, will also compete in this tournament, and will challenge the Ypsilanti A team.

## V.F.W. News

As part of the Americanism program, the auxiliary is sponsoring an Essay Contest open to all high school students.

The subject, "Freedom's Open Door," is one which offers a wide range of approaches and one which should be of interest to all Americans.

Further information about the contest will appear in the Plymouth Mail and entry blanks will be provided. The three local prizes are: first prize, \$10; second prize, \$5; and third prize, an inscribed bronze medal.

Post members are collecting old newspapers and magazines to raise money for uniforms. If you have any you would like to have picked up, call Joe Elliott at 1275.

There were 24 members present at the March 6 auxiliary meeting. Mrs. Ethel Gaspard, Dep't Chaplain, was a guest.

Officers for the new year were nominated and election will be held at the next meeting, March 20. Mrs. Joe Elliott and Marian Warner were in charge of refreshments served at the close of the business session.

The next hospital trip will be made Sunday, March 18. Those who are going are asked to meet at the Memorial Center promptly at 2:30 p.m.

Auxiliary members who can spend an evening sewing quilts for the veterans are asked to call after 6 p.m. or Ann Thompson at 1279-W. There is plenty of material on hand—all we need now are volunteers to help in cutting, basting, and stitching.

## Kite-Flying Can Prove Dangerous

Kite-flying days are here again—and a Lincoln Park boy's narrow escape from death is a reminder of the dangers of this fine sport.

The boy, in this case, was in no way at fault. He was running to the scene of a repair job on a 4,800-volt electric line that had been short-circuited and exposed by someone else's kite-string.

Before Detroit Edison crewmen or police guards could warn him, he brushed against a live wire that was in process of being disconnected.

Result—leg burns that required hospital treatment and shock that might have been fatal if a line crewman had not cut the wire almost at the moment of contact.

R. P. Douglas, head of the Detroit Edison Company's safety department, today suggested some rules for keeping the danger out of kite-flying, as follows:

1. Always fly kites in open fields—away from any overhead wire.
2. Do not use a metal kite-rame; use only wood, which is a non-conductor of electricity.
3. Do not use twine or cord that has any appearance of being metallic. This kind of cord can carry electricity to the head of the kite-flyer and cause painful injury or fatal shock.
4. Do not climb a pole or tree to get a snagged kite. The result may be electric shock or a fall.

"Kite-flying is a great sport for boys and girls everywhere," Douglas said, "and it can be kept safe if these simple rules are observed."

## Cleaners Defeat Northville Team

The Northville Merchants were dumped for the second time in the Men's play-offs Thursday, March 8, as Tait's defeated them 55-42 to avenge Tait's only defeat by the Merchants this season.

The main reason for the Cleaners' victory was the good defense that they used in the first three quarters, as they held the Merchants to 26 points. Tait's started out very fast and scored 20 points in the initial quarter, while holding Northville to ten counters.

The Cleaners' defense was even better in the second period, as the Merchants only scored six points. The victors dumped in 12 more points to hold a 32-16 halftime lead.

Tait's Cleaners continued to play good ball in the second half, as they again outscored the Merchants in the third period, 12-10.

In the final period, Tait's slowed down while the Merchants tried vainly to bounce back with the result of Tait's being outscored 16-9.

The winner of the championship game between Tait's and First National will go to the tournament games at Adrian college on March 29, 30 and 31.

The Plymouth team that is going to play the winner of the Hastings vs. Adrian game that will be played in the near future. This team will play on Thursday, March 29, at 7:30. The loser of the title game between the Cleaners and the Bankers will play in the ARA inter-city tourney at Broken Field House in Highland Park March 19, 20, and 22.

## "Can't beat Dodge for dependability!"

**NEW engineering advancements make traditional Dodge dependability GREATER VALUE THAN EVER**

**THE** Dodge reputation for dependability and long car life is a matter of record... a record of 37 years... a record no other car can match.

And with the many new advancements engineered into the great '51 Dodge, this famous dependability makes Dodge an even bigger value, an even bigger dollar buy.

For example, new Oriflow Shock Absorbers smooth out the bumpiest roads to give you a level, more comfortable ride... smoother the jolts... reduce wear on vital chassis parts.

**Cushions moving parts.** Dodge Gyro-Matic, lowest priced automatic transmission, along with Fluid Drive makes handling easier and smoother for you. But equally important, Dodge Fluid Drive cushions the power thrusts from engine to rear wheels. Starts and stops are soft and smooth. Your car and your tires last longer.

Yes, everything about this great new Dodge—the way it looks, rides and handles—tells you that here's a car built to deliver years and miles of dependable, low-cost service.

**5 minutes tells why.** Give us just five minutes. Let us show you how you could pay up to \$1,000 more and still not get all the extra room, handling ease and rugged dependability of this great new 1951 Dodge.

### With Our Boys in The Armed Forces

Brief items of interest about your sons or husbands in the services are welcomed in this column providing the information does not conflict with press security policies.

Pfc. Charles "Lefty" Wick, in North Korea reports that servicemen can only receive mail from their immediate family in a new army ruling.

Lefty's mother, Mrs. Wick, received a letter and a picture from Stars and Stripes, which showed Pfc. Wick on a tank crossing the ice on the Han River.

The nine-man UN Rubber patrol is shown as it returned in a patrol behind enemy lines with two prisoners. The patrol went behind enemy lines at the outskirts of Seoul to find a wounded GI.

Naval Cadet Fred W. Gunnesch, USN, son of F. W. Gunnesch, 45599 Ann Arbor, completed the Advanced Training phase as a student carrier pilot of the Naval Auxiliary Air Station, Corpus Christi, Texas, this week. He received orders to report to the

Naval Air Station, Pensacola, Fla., for Carrier Qualifications. There he will complete the final stage of his Naval Flight Training making actual landings aboard an aircraft carrier, be presented with Navy Wings and designated a Naval Aviator.

Donald J. Hayward, seaman recruit, USN, of 9610 Gold Arbor road, is undergoing recruit training at the world's largest Naval Training Center, Great Lakes, Illinois.

Pvt. James Bell left Sunday evening for Ft. Knox, Kentucky, to spend a week with his father, Mr. and Mrs. James Bell, in Miami, Fla. James had just completed his basic training at Ft. Hood, Texas.

Pvt. Robert MacInyre spent the past weekend with his parents on Nowyburg road just before leaving for Camp McCoy, Wisconsin, where he will undergo further training.

QMST Mike Klenschmidt, who is serving on the U.S.S. Montague in Korean waters, reports that the former Atlantic fleet attack cargo ship took time out from the war to contribute to

the Polio fund drive. The officers and men donated \$1,125.

During the Korean campaign, the U.S.S. Montague has engaged in three amphibious operations. Recently the U.S.S. Montague transported thousands of Korean refugees from Pusan, who attempted to flee from combat areas into more peaceful zones.

Mike, who was a former local shoe repairman before he went into the service, helped to transport the refugees which included native religious groups and a contingent of Catholic Sisters.

Miss Ann Donnelly, whose twin sister, Mary, is stationed with the United States Navy in Pearl Harbor, received a phone call on Friday wishing her a happy birthday. Ann states it took just 90 seconds for the call to come from Pearl Harbor to Plymouth.

Patrick J. Dowling, airman apprentice, USN, son of Mr. and Mrs. P. J. Dowling of 1316 Sheridan, Plymouth, recently began a 14-week course of instruction at the Aviation Ordnancemen school at the U.S. Naval Air Technical Training Center, Memphis, Tenn.

Dowling, who entered the Naval service July 17, 1950, received his recruit training at the U.S. Naval Training Center, Great Lakes, Ill.

Before entering the Navy, he graduated from Plymouth High school.

### Celebrate Telephone's 75th Year

This is an artist's conception of the scene that took place on the top floor of a Boston boarding house where Alexander Graham Bell and his assistant Thomas A. Watson conducted their experiments with the telephone. On the evening of March 10, 1876, Watson was in another part of the house with the experimental receiver. Bell was working on the transmitter in his lab. When Bell accidentally spilled a jar of battery acid, he called out to his assistant—oblivious for the moment of the transmitter—"Mr. Watson, come here; I want you!" Watson heard the words over his receiver and came rushing into the lab, exclaiming, "Mr. Bell, I heard every word you said—distinctly!" Thus, were the first seven words transmitted electrically over a pair of telephone wires.

### McCartney Wins Safety Award

Flagg McCartney of Flagg McCartney Service has received an honorary award in a national Memorial Safety Service Project for the careful attention he is giving to the safer driving needs of the customers whose cars and trucks he services.

John W. Anderson, president of the Anderson company, Gary, Indiana, who sponsors the project, says, "Mr. McCartney is to be congratulated for his contributions toward reducing the alarming growth of automobile accidents and deaths on our highways."

"National Safety Council research shows that in one out of five fatal automobile accidents the driver's vision was obscured. Wiper-streaked windshields due to dead wiper blades, weak and distorted wiper arms and lame wiper motors are often a contributing factor," continued Anderson.

"Our company, as the world's largest makers of replacement windshield wiper equipment, feels obligated to encourage automobile service men to be constantly alert to the complete 'bumper to bumper' safety needs of all of the vehicles they service. We have established 35,000 of these Memorial Awards, one Award for each of the 35,000 Americans killed by automobiles in 1950."

"Automotive service men in the Plymouth area are doing great work in this campaign to help reduce wreckage and fatalities. By this honorary award Mr. McCartney is particularly commended for his cooperation," concluded Anderson.

The fastest way to get action is to use Plymouth Mail classifieds.

### NOTICE to BIDDERS

Sealed proposals will be received by the City Clerk in his office in the City Hall, Plymouth, Michigan, up to 3:00 P.M., E.S.T., on March 23, 1951, for the following:

1. Construction of curb and gutter on Harding Street between Burroughs and Edison Avenues in the City of Plymouth in accordance with the City of Plymouth specifications for standard curb and gutter sections.
2. Construction of new sidewalk on Forest Avenue between Wing and Ann Arbor Trail where directed. Also general sidewalk repairs and roof removal on a city wide basis.
3. Asphaltic treatment with MCI of approximately 15 miles of unpaved streets in the City of Plymouth for an average width of 20 feet; material to be furnished and applied; all material to be in accordance with State Highway specifications for asphaltic concrete.

The plan, profile and specifications, under which the work is to be done, are on file and may be examined at the office of the City Engineer, Plymouth, Michigan, where copies may also be obtained.

A certified check or bid bond for a sum not less than 5% of the amount of the proposal will be required with each proposal. The right is reserved by the City to accept any proposal, to reject any proposal, and to waive irregularities in proposals.

No bid may be withdrawn after the date and time for receiving bids for a period of thirty days.

## Irene Ford Bride of Seaman Pillars

At a candlelight ceremony performed in the Calvary Baptist church Saturday evening, February 24, Miss Irene Ford, daughter of Mrs. Lewis Ford repeated her marriage vows to Metalsmith 2nd Class, Thomas Pillars.

The Reverend Lynn Stout officiated at the six-thirty o'clock rites. Mrs. Shirley Foster the soloist accompanied by Mrs. Harry Dahmer sang "Because" preceding the ceremony.

The bride was attired in a gown of white Ghantilly lace and carried a bouquet of white roses. She was given in marriage by her brother, Glenn Ford. A sister of the bride, Mrs. Nancy Totten, was Irene's Matron of honor. Her gown was of pale blue brocade and she carried a bouquet of pink carnations. Robert Totten served the bridegroom as best man.

For her daughter's wedding Mrs. Ford wore a dress of navy blue crepe. Following the ceremony, a reception was held at the Ford residence on Hamill street. The young couple are honeymooning in Northern Michigan after which Seaman Pillars will return to duty on the U.S.S. Coral Sea.

## Elwood Russell Weds Detroit Girl

The Calvin Presbyterian church in Detroit was the setting, on Saturday, March 3, for the marriage of Elizabeth L. Page of Ardmore avenue, Detroit, to Elwood Russell of South Harvey street, Plymouth.

The Reverend Roger McShane officiated at the seven-thirty rites before an altar adorned with bouquets of white glads. The soloist sang "Oh Promise Me" and "I Love You Truly" preceding the ceremony.

The bride, who was given in marriage by her brother, William Page, wore a gown of light blue taffeta with white eyelet trim. Her sister, Margery Page, as maid of honor, was gowned in pink taffeta. Hugo Russell assisted Elwood as best man.

Following the ceremony a reception was held for 50 guests coming from Ann Arbor, Detroit, and Plymouth. For her daughter's wedding, Mrs. Page wore a dress of aqua crepe and Mrs. Russell chose navy blue.

Following a honeymoon spent at Dearborn Inn the young couple are now making their home in Plymouth.

## Hints For Plymouth Homemakers

### Gay Touches Pop up Meat on St. Pat's Day

March 17th—it's a day all good Irishmen will remember. To pay respect to St. Pat at your dinner table, cleverly garnish the meat dish with symbols of the day.

Shamrocks are perhaps the first thought. Design them in cardboard and use this as a guide for cutting from biscuit dough. The shamrock is the topping for a tender St. Patrick's Day stew. Make them in miniature form to adorn individual casseroles.

If it's ham you're serving on this day, use green pepper slices to form the shamrocks, and arrange them over the surface of the ham.

Or if you like, puncheon strips may be used for this. If it's a meat loaf you're serving, make two loaves, then put them together before baking with a green pepper garnish between them.

With whipped potatoes in your party tub, form a lyre or shamrock or high hat on top of the lyre.

In Milwaukee, when Mrs. Helen Baker complained that her fur coat would not return her Silver-blonde to her, police arrested her for stealing the mink in the first place.

### Vary Dishes Of Potatoes

Many folks agree that meat and potatoes are an important combination in the family of foods.

With these two, homemakers have opportunity to create a host of tempting dishes because practically every meat cut lends itself to various ways of serving potatoes.

For instance, try creamed potatoes with ham. Heat the slices of ham over the potatoes in casseroles. Pork chops or steaks may fit into this plan.

Or combine shredded dried beef with creamed potatoes. Alternate the layers, then cook in a 350 F. oven for about 1½ hours.

For a bright touch, add a layer of green peas to the dried beef-potato dish.

Mashed potatoes have their many uses too. For a difference, serve mashed potatoes in tasty meat cups.

Make the cups by outlining tart pans with a ground meat mixture and slowly cooking them in the oven. A planked steak calls for mashed potatoes too.

Remember to return it to the broiler to give the potatoes a golden tinge. Likewise, a meat pie may be topped with whipped potatoes, then browned in the oven or broiler.

Use your pastry tube to make a clever design over the top of the meat pie.

### Orange and Semi-Sweet Chocolate Make Novel Flavor Combination

Newest of dessert treats combine the flavors of fresh orange and semi-sweet chocolate. A delightful way to enjoy this flavor harmony is in a home-made orange cake that can be iced with a delicious chocolate frosting made with semi-sweet chocolate morsels, or the cake can be topped with ice cream and sauced with chocolate. Also included is a simple Chocolate Duet recipe that makes either frosting or sauce, depending on the amount of milk added.

#### Orange Cake

3 cups sifted cake flour  
3 teaspoons baking powder  
½ teaspoon salt  
¾ cup shortening  
1 cup sugar

Sift flour with baking powder and salt. Cream shortening, add sugar gradually, blending together until light and fluffy. Add eggs one at a time, beating well after each addition. Stir in marmalade and orange rind. Add flour alternately with orange juice, mixing well, ending with flour. Turn batter into well greased pan (10"x15"x4"). Bake in a moderate oven (350° F.) 30 minutes. Cut cake into squares, top with slice of ice cream, and serve with chocolate sauce, or frost cake with chocolate frosting. If desired, top with whole or chopped nuts. YIELD: 24 squares.

#### Chocolate Duet (Frosting or Sauce)

1 package semi-sweet chocolate  
2 tablespoons butter or margarine  
1 cup sifted confectioners' sugar  
3 to 4 tablespoons hot milk, for frosting  
½ cup hot milk, for sauce  
1 teaspoon vanilla

In top of double boiler put semi-sweet chocolate and butter. Heat until melted and mix until smooth. Remove from heat. For frosting add milk and sugar alternately, adding enough milk to make a spreadable consistency. Stir in vanilla. For sauce, increase milk to ½ cup. YIELD: Frosting for top of 10x15 inch cake, or ½ cup chocolate sauce.

### Local News in Brief

Mr. and Mrs. George Barrett of Port Huron are visiting Plymouth relatives for a few days.

Mr. and Mrs. R. West, returned Sunday from their winter vacation in Englewood, Colo.

Mr. and Mrs. Richard Swanson of Wayne and Mr. and Mrs. Raymond A. Swanson and family of Plymouth were Sunday dinner guests of Mr. and Mrs. Dale Arnold of Burdette Avenue.

Mrs. Frank Rambo left last Saturday for Glen Ellyn, Illinois, where she will visit for a few days with her son, Stuart, and family.

Mr. Henry Sage, who formerly resided here, was a guest of old Plymouth acquaintances on Thursday of last week. Mr. Sage spent part of the winter in Detroit with his son, Carl, and the remainder in Duluth, Minnesota, with his other son, Harold and family.

Mrs. G. H. School was the Thursday evening guest of Mrs. Howard Bowring of Bradner Road.

Mrs. William Krause returned from her home in Chicago, Illinois on Tuesday after spending some time with Mrs. Krause's father, William Gayde of Holland Avenue.

Mrs. Martha Kaiser and her husband, Mr. Flint, are leaving on Sunday morning by train for a three weeks trip to California. They plan stops in Texas, Mexico, Grand Canyon, New Orleans, Louisiana, and the Carlsbad Caverns.

### Treat Family to Cream Puffs

Dessert cream puffs have inspired many a new dish.

In miniature form they are the basis for clever appetizers or in extra-large size filled with creamed meat they become a main course serving.

Cream puffs, contrary to popular belief, are simply made. The important point to remember is that they require thorough mixing.

Add the unbeaten eggs, one at a time, to the flour, lard and water mixture and stir vigorously.

For hors d'oeuvre tray puffs, drop half teaspoonfuls of the batter onto a greased cookie sheet.

When baked and cooled, cut with a sharp knife and fill with a tiny portion of creamed veal or a creamed ready-to-serve meat.

As for the main course, let this be the occasion to use cubes of meat left from a roast. For more color, add peas or cubed vegetables to the creamed mixture.

If serving creamed veal, add sliced almonds for a wonderful flavor combination.

Cream puffs filled with whipped cream or with a custard sauce are not the only dessert you can produce with these puffs.

Fill the big dessert puffs with vanilla ice cream, top with fudge or strawberry sauce.

And for still more of a change, form the batter in a rectangular shape to produce eclairs. Fill with custard sauce, then lightly frost with chocolate icing.

**Plymouth High School News****Juniors Succeed With Initial Paper Drive**

The first paper drive sponsored by the junior class on March 2 was a huge success.

At the home of Donna Renwick and under the direction of the junior's president, Shirley Pine, and their adviser, Harry Fountain, the students divided into eight teams, each team handling a different section of town.

The group who brought in the most paper would have to pay only half the regular amount of their class dues next year.

The juniors are indebted to Paul Wiedman, Daniel Mills, George Bakhaus, Herman Bakhaus, Adrian Wilhelm, Iva Kahrl, Jim Burger, William Moore, and Tony Curmi for the use of their trailers and trucks.

Also they appreciate the help of the McLaren company for weighing the trucks and everyone else who helped in any way. Next month the juniors will have another paper drive. Anyone who is interested in having paper removed, may contact any member of the junior class.

**Drills and Practice Start for Girl Cagers**

Basketball drilling and practice began last week for girls from the ninth through twelfth grades at Plymouth High.

Tournament play started the eighth of this month with over 96 girls trying out on different teams. More students are expected to join later on in the season.

There are approximately 8 teams at present with each squad composed of 9 to 12 members.

The basketball games are played every Tuesday and Thursday immediately after school. Following basketball, softball will begin in the second week of April.

**Eighth Graders Offer "Green Derby" Dance**

The Green Derby will be presented by the eighth grade on March 16, in honor of St. Patrick's Day. Mrs. Pauline Morgan will help the eighth graders stage the dance.

General chairman and entertainment chairman will be Kathleen Herriman; refreshment chairman, Nancy Travis; chapter chairman, Sally Morgan; decoration chairman, Sue Carson.

The class will present a floor show with Wayne Smith acting as Master of Ceremonies. The first act will feature an all-girl orchestra with Ann Morrow as chairman.

The second act will include acrobatics with Chuck McKenna, chairman.

The following acts are: all boys' ballet with chairman, Chuck Buell; piano recital by Jane Nulty, skit by Sara Wesley, song by Carol Stratton and a fashion show with Anita Mosher, chairman.

**Commercial Club Stage Minstrel Show**

Under the direction of Edgar Brown, the Commercial club sponsored a Minstrel Show, Wednesday, March 14.

The show consisted of a specialty act with Ellen Daoust singing a solo; Marcia Woodworth, tap dancing; the Sons of Plymouth singing songs; and a pantomime by Christine Zacharias and Pat Kerher.

Hilton Ponto's tumbling class did an act, with Arlen Ottensman, Les Fevenzi, Robert Goebel, Tom Rutherford, Jim Denany, John Zimmerly, George Lee, and David Beagle taking part.

As the show closed, there was an office skit where two girls, Donna Carr and Noreen Klein-smith, applied for office jobs. One of the girls had bad manners, while the other young lady's manners were excellent.

Other students in the skit were: Carol Oldenburg, customer; Joan Spellin, Miss Bloat; Anna Munster, floor manager; and Joan Skaggs, Miss Mary.

Students coming from Central Michigan college at Mount Pleasant demonstrated square dancing for Plymouth High students last Tuesday, March 6. The program was announced by Gloria Chaney, a member of the Hesco club.

1 1/2 cup diced green pepper  
2 tablespoons butter or margarine  
1 can condensed mushroom soup  
7/8 cup milk  
1 tablespoon grated onion  
2 cups well seasoned mashed yams

1/4 teaspoon pepper  
1 tablespoon sharp prepared mustard  
3 tablespoons flour  
1/4 cup cold water  
1 cup cubed cooked ham

Cook green pepper in butter or margarine about 3 minutes. Combine soup and milk; add onion, pepper and mustard. Blend flour and water; add to soup mixture; stir over low heat until thickened. Add green pepper and ham. Turn into casserole; top with fluffy ring of mashed yams. Bake in moderate oven, 350° F., 30 minutes or until heated through and lightly browned. Yield: 6 servings.

**Look what the Smart Money's buying**

Now that the 1951 offerings of the motor car industry have had a chance to start their stuff, we ask you—can there be any doubt which is the really smart buy?

If you want a "new look"—Buick has it. That sturdy push-bar forefront says "1951" to all who see it—and provides unsurpassed front-end protection to boot.

If you want power that you can live with through many moons to come—Buick has that too. Years of expert engineering have made Buick's thrill-packed Fireball engine just about as dependable as a power plant can be.

If you want features that combine present pleasure with long-time durability, consider this:

Buick's level-going ride stems from coil springs on all four wheels which are virtually break-proof and never need servicing.

Buick's Dynaflo Drive\* takes the strain of driving—and any need for frequent repairs and replacements, by the way, of engine and transmission—and lengthening life of tires.

If you want room and comfort and handling that make any trip a breeze—there's no simpler way to find them than to take over a '51 Buick SPECIAL, SUPER or ROADMASTER—relax and enjoy yourself!

And if you want all this at a minimum outlay of dollars—one look at Buick prices will settle this point.

So the smartest thing you can do is get in touch with your Buick dealer. How about doing that right now?

\*Standard on Dynaflo Drive; optional at extra cost on other Buick models.

**NO OTHER CAR PROVIDES ALL THIS:**

**DYNAFLO DRIVE**—saves strain on driver and car

**FIREBALL POWER**—high-compression, valve-in-head engine gets more good from every drop of fuel

**PUSH-BAR FOREFRONT**—combines smart style and unsurpassed protection

**WHITE-GLOW INSTRUMENTS**—greater clarity at night

**TORQUE-TUBE DRIVE**—steadies ride, improves driving control

**4-WHEEL COIL SPRINGING**—cushions ride, saves servicing costs

**DUAL VENTILATION**—outside air fed separately to right or left of front compartment

**SELF-ENERGIZING BRAKES**—hydraulic—multiplier pedal pressure five times at brake drum

**DREAMLINE STYLING**—tapered, car-length fenders, gleaming sweeps appear on most models

## Roger Babson Says --

### Babson Discusses Cattle and Dairy Farming

Babson Park, Florida, March 15. The changed international situation is already being felt in rural areas throughout the country. Farm land values which had been declining gradually for several months reversed their downward trend almost immediately after the Korean outbreak.

#### Outlook For Cattle

I have always maintained that land, and that includes good farm land, is an acceptable hedge against inflation or other types of crises. It may not be the very best hedge, but in the long run it should turn out to be a pretty good thing when cash is worth little and when other values dip accordingly. However, I do not generally recommend that my readers go out and buy a farm with the idea of growing produce or feeding cattle on hogs to sell commercially. Farming today is too specialized for any such hit or miss approach. What I advocate is that every city family who can afford it should own a sustenance farm, as insurance, capable of sheltering and supporting them in an emergency.

Readers who are now engaged in cattle raising, dairy farming and in producing large grain crops, often write asking me what I think of the prospects for the coming year in these fields. In my opinion, cattle prices generally will be well maintained

over the next six months. Heavy employment at high wages should result in a continued high demand for beef. I do not anticipate that such demand will be adversely affected, to any substantial extent, by the imposition of still higher individual income taxes in 1951.

#### Lower Profits Possible

While cattle prices should remain at relatively high levels, increased producing costs generally may further cut profit margins in 1951, thus immeasurably increasing the risk in stock cattle farming. Breeding herds that grow in numbers should maintain their value even in the face of such declines, provided you keep a sharp eye on local conditions, with a view to buying replacements and selling finished cattle at the most opportune time profitwise.

Those readers who now have farm land and wish to buy more or who, having had previous experience as owners of farm land, wish to make purchases in new locations are advised to act promptly. Good farm land will go higher. Admittedly, this is not the best time to buy it, but you should do much better now than you will be able to do by late summer. Thus, if you can find a good farm or farm land that is not over-priced, my advice would be to go ahead, provided that you can pay about 50 percent down and still have enough cash left for proper stocking and operating, as well as for emergencies. Productive land is a sound investment and good land should continue to have real value, no matter what price changes may come over the longer term.

#### Dairy Farming Discussed

Those readers now considering going into dairying should think twice and then stop and think again, even if they have had previous experience in this very uncertain field. Profit margins in different sections of the country and many an otherwise able man has lost his shirt by plunging enthusiastically into a dairy program without giving sufficient thought to the possible consequences. The principal problem in dairying, and it is essentially the same in New England, in the Mid-West or in the Rockies, is the cost of feeds. These feed costs usually represent more than half of the total cost of milk production and largely determine profits.

If you think you can control feed costs, through a well-balanced feed program, which includes careful management of your feed inventory, you can probably make money in dairying. But if you have grave doubts as to your ability to keep feed costs within bounds, steer clear of such an operation. Yet, I think farming generally will be profitable in 1951. Farm income will be up, at least through the first half and, perhaps, beyond. For the year, it should average some 15 percent above 1950.

## Approve Split of 17th District

The 17 Congressional District, one of the largest in the United States, may be cut into two.

The Senate has given preliminary approval to a bill last week which would divide the 17th District, which takes in the portion of Wayne County, northwest of Detroit, and Oakland County.

The Oakland portion would become the 18th Congressional District, Michigan could then send an 18th congressman to Washington according to the 1950 census. Representative George A. Dondero, Royal Oak Republican, is now the congressman of the 17th District.

Despite the probability that a Republican would be elected to represent the 18th District, said Senator Charles Blondy, Detroit Democrat, he is in favor of the proposal.

The shifting population of Detroit would cause the Wayne County district to vote the democratic ticket, he explained. Republican Senators George N. Higgins of Ferndale and Clarence Reid of Detroit are sponsoring the bill.

The 17th and the proposed 18th District would have greater populations than several of the up-state districts.

## Grange Gleanings

The Grange card party on Saturday evening, March 10, was a splendid success. Twenty-two tables were in play and everyone had a good time. Much credit is due to committee members Mr. and Mrs. Kenneth Lunn, Mr. and Mrs. Henry Ehrensberger and Mr. and Mrs. Charles Pienas.

The Grange will meet tonight as usual, with a speaker from Ann Arbor, also some musical numbers. There can not be a successful Grange unless the members attend the meetings and show an interest.

We are going to have a special meeting next Thursday evening, March 22, with a potluck at 6:30 p.m. At least two of the state deputies and our district deputy are coming to give a school of instruction which is much needed and will be very instructive and interesting. It is necessary that every officer and member be present.

Henry Ehrensberger has been at home a week ill with the flu. In Kingston, Ont., the White Standard ran an item in its classified section: "Refugee lady desires bachelor's small apartment."

In Memphis, Tenn., the director of Crump Stadium got a request from a football fan for tickets for himself and a good friend— "But put him in the north stands and put me in the south stands. He always gets pie-eyed along about the end of the first quarter and I don't want to have to bother with him."

*Newest new car of the year!*

The more you see of the entire field, the more you'll be convinced: *The NEWEST of all the new cars is the new 1951 PACKARD!*

Packard sets the new trend—not only with its new, award-winning beauty—but with every other major feature on which cars are compared...

Efficient power? Packard gives you the peak performance of America's highest-compression *eights*—plus: simplified design that "stays in tune."

Automatic drive? Packard—and only Packard—offers *Ultimate Drive*... with a combination of smoothness and efficiency no other drive can match!

Restful riding comfort? Packard, for 1951, has even improved on its own famed "Limousine Ride," to give you

a whole new concept of firm road-ability and gentle, silent smoothness.

So why not stop in, and see for yourself how it feels to *drive* the newest new car in the world? There's no better time than right now!
