# School Board Approves Pay Boost For Teachers

# Increases Range From \$200-\$400

After receiving \$100 across the board, cost of living pay hikes in each of the past two years, teachers in the Plymouth School system were given salary increases ranging from \$200 to \$400 by the Board of Education Monday night.

The pay boosts vary on the basis of educational training, service and additional credit hours. All but two levels are in a range from \$250 to the \$400 growth and continued improveceiling.

VOL. 25-NO. 10

The proposed salary improvement was reached by Supt. Russell Isbister after numerous meetings with the school board's finance committee and a salary committee from the Plymouth includes most teachers in the

The salary improvement amounts to \$62,840, and doesn't include the increments which total \$41,360 for the 1964-5 school year.

Isbister termed the negotiations as satisfactory at all times and praised the PEA committee, headed by John Howe and John Hoben, for its fine cooperation in dealing with the vexing salary problem.

"The upper adjustment in the salary schedule for the teachers is a timely one," said Isbister. "It is fair yet moderate in the light of what other districts have done or are doing this year for teachers. It will place the Plymouth Community Schools in a competitive position in its ability to attract and

retain competent teachers. "It will require additional revenue which for this next year must come from increased state aid, increased tax base, increased class sizes, economies in all areas of the budget and from the cash balance.

"I am happy to say that my relationship with the PEA committee during this last month while the negotiations were going on have been most friendly and co-operative. The PEA representatives approached this problem with a sense of justice and fair play. "The Board of Education also

recognized its responsibility in providing for the teachers an equitable salary schedule-one which encourages professional ment in teaching." Isbister stressed that the

Board is not thinking of a millage increase at this time.

"As has been stressed more than once by Board President Gerald Fischer, there are no Education Association which plans for increased miliage at this time unless something drastic happens," said Isbister.

However, he didn't eliminate the possibility of a request for additional operating millage next fall unless the state boosts its school aid considerably.

The revised salary schedule increases the pay of starting teacher from \$4,900 to \$5,150 and places a ceiling of \$8,000 ed any across the board in on a teacher with a Bachelor's creases, preferring a percentile degree after 11 years service. basis and also asked the Board | The latter contrasts to \$7.700

The Board of Supervisors recommended that Plymouth Township along with other can Association of University townships in Wayne County, begin to think seriously of providing its own police services.

The study committee learned that cost of such services ranges from \$115,000 in Nankin Township to \$336,-756 in Redford Township.

Each is much larger than Plymouth and each has a much larger budget to work with.

Nankin Township Supervisor William Faust reported that his government purchases the protection from the Sheriff's Road Patrol. It has 14 men under contract who work exclusively for the Township. Nankin purchased, completely equipped and marked four patrol cars. The total police budget for the fiscal year was nearly \$115,000.

Redford, which has a population of more than 75,000, maintains its own police department, consisting of 34 fulltime officers under civil service. It allots \$336,756 in the budget for the depart-

Capt. Davids reported his post handled 85 complaints and made 103 traffic arrests in the Township during 1963.

He reported in his letter that the equipment per uniform ofpletely outfits each man with the exception of socks and underclothes.

The outfits include three pairs of trousers, two uniform blouses, four uniform shirts, raincoat, overcoat, night stick, handcuffs,, badge, cap ornament, identification eard and two pairs of shoes. Each police car costs approximately \$1,850 and he estimated the cost of added car equipment at \$750.

LANSING-Sometimes an interesting bill washes age of one year receive the vac- through the floodgates of the State Legislature and manages to escape the notice of the newspapermen.

From our point of view House Bill 438, sponsored by Rep. Mrs. Marie Hager of Lansing, falls into that category in the current session. Innocently enough, the wording would permit

any school district to set up "day care programs" and to charge tuition or fees for such programs and to accept gifts as part of the financing.

The Bill passed the House by a lop-sided vote and almost without debate. It slipped by easily, I believe, because the legislators had other things on their minds and didn't really catch the significance of innocentthe Public Health Committee, sounding "day care programs." Put another way, this Bill will use the Trivalent form of would put the State, via the local school district, into the babysitting business.

Plymouth Township's police head of the committee appoint to hold a conference with City on a sugar cube, achieves the that these day centers teach any subjects. There is no There is nothing in the Bill which would require limit as to the age of the children involved, they could be infants or they could be of school age. There is no requirement, such as a teacher certificate, determining who shall supervise the day care program. And there is no restriction that such centers be opened only during the months when school is in session. They could operate throughout the summer and for 12 months a year.

No matter how it sounds in print, the aim is purely to provide day-time child tending services for those mothers who need or desire it.

Facts and Opinions solidly supports the idea, which probably is no surprise to those who read a column here several weeks ago wherein was discussed the "Status of American and Suburban Women." At that time it was reported that a special Federal Commission regarded at each under the supervision increased day care centers as a high priority item, if

### School Board OKs 15 New Teachers

Approving recommendations of Supt. Russell Isbister, the Plymouth School Board Monday officially sanctioned contracts for 15 new teachers and accepted the resignation of one.

Sue Hundley, first grade the past three years, resigned to accept a post with the Rochester, N.Y. system.

The appointments include two June graduates of MacMurray College in Illinois, marking the first time the school system has received applications from the college.

Three of the newcomers will join the senior high staff, including: Susan Holly, who will be graduated in June from Wellesley, as a French instructor; John Kontos, three years experience at Walled Lake, to teach English; and Joseph Lee, six years in the Detroit system, for Industrial

Robert Barbour, of the National Bank of Detroit, has enlisted the services of six tellers to collect the monies at each station.

In addition, the Plymouth Township Volunteer Fire Dewill have men available at each school to handle the parking.

Isbister selected the elementary schools for the clinics since all are within easy walking distance of most residents in the immediate area.

He stressed it isn't mandatory that individuals and families attend the clinic at the nearest school. Those participating may go to any one of the six buildings.

Students at the junior high senior high, parochial and Lutheran school may go to any one of the six centers.

There isn't anything difficult involved in taking the feedings. The sugar cubes contain two drops of the vaccine and the participants put the cubes in their mouths just as they would any other lump of sugar.

The sponsoring groups urge that parents accompany children to the stations so that each will be registered. The physicians point out that with the parents present, there is less likelihood of the youngsters going through the lines two or One funeral was handled at three times because they like sugar cubes.

which they are entitled under law.

Probably the most obvious and least controversial function of a day center is its taking custody of children from mothers who simply must work because of economic necessity. The slums of all metropolitan areas have thousands of tragic cases where the husband has abandoned an impoverished family which lives in squalor from the registered nurses and and on charity with almost no hope of change or improvelicensed practical nurses to pro- ment. In these cases the mother not only could be liberated to take a job but the youngsters would be spending some of their time in an enlightened environ-

(Continued from Page 1) women of the United States were to attain the status to

There are many, other than the poor, however, who view day care centers with a relish.

In many places there is stress being placed on attempting to make changes so that American females receive as much education as the males. Statistics show partment and the City of Plym- that only one out of three MA degrees and only one out outh Public Safety Department of nine Ph.D's are won by women in the U.S., though women numerically lead the statistics. Many women interrupt their education for marriage and immediately plunge into the managing of a family and raising of children, functions which traditionally put a permanent conclusion to milady's formal education. In modern times this has come to be regarded as undesirable. For one thing it tends to match husbands and wives who have different depths of interest and knowledge. Also the modern mother faces some 25 years or more of life after her children have grown and left the home and the absence of education makes those years more barren than they need be. In addition, the ranks of widowed and divorced women are multiplying tremendously and the solitary woman is at a relative disadvantage if her education has been cut short.

So for all of these reasons, and more - such as the young married couples on the nation's college campuses - an adequate day care program for children is desirable for all those who need or wish, formal schooling of one kind or another.

Day centers have their purpose for mothers who may be incapacitated, physically or mentally, or for those mothers who must devote almost full time to a single child who may be handicapped or retarded. There also is a huge group of working mothers who do so with the blessings of their husbands, and because an inner voice tells them they must, solely because they find the keeping of a home in today's modern scene not sufficiently satisfying; too menial; leaving too much spare time; utilizing too little of their total self. We have moved a long way from the period when

# To Women It May Concern

By MYRA COX \_

There is a man who roams our land to whom we had better start listening, or I agree with columnist May Craig that we shall soon be witnessing the decline and fall of the American Republic.

The very thing that President Kennedy's favorite at press conferences, Miss Craig, said are the things he is urging citizens all over the world to put aside. "Selfindulgence, immorality public and private, lack of principle." Miss Craig says, "One listens with dismay to the campaigning for the Presidency that is going on. Oh, for a crusader to call us back to dignity and strength and austerity—putting our money into the real things of life; public servants who are not Bobby Bakers."

Miss Craig says we must, every one of us, "FIRST clean out weakness and selfishness and immorality of all types. Then choose leaders who with strength and principle and intelligence lead us to where we can have self-respect and respect of others. She challenges us, would we elect a man if he campaigned on such a platform?"

And I challenge wives, mothers, teachers to read the words of a man from England who has put forth his time and talent to try to lead us back to the strong sure nation we once were, binding our wounds when necessary, correcting our mistakes and welcoming all mankind fearless and unafraid. Peter Howard heads the World program for Moral Re-Armament. Contrary to many organizations, there are no dues, no membership and impressive letter heads. People just give as they believe in the principles. Their international headquarters is Mackinac Island. One is welcome any time to visit there and learn first-hand of the urgings for "rearming morally" -professional films are made there with talented artists. books written, and many visitors from all over the world come and meet and learn. Rajmohan Gandhi, grandson

cated to peaceful co-existence, is one working with Moral Re-Armament. It is not a "Pollyanna" outfit either. I was arguing this point at dinner the other evening with a young (very) liberal. He said Moral Re-Armament was allright, but it was "too fuddy-duddy . . . not enough accomplished, not enough action - for instance on the colored issue" - it was his belief that ever since we brought Negroes to America against their will, they had been repressed W. I couldn't disgree with him more - and I believe Harcourt Road, Grosse Pointe, there will be bloodshed if his doctrine is put into practice. Equal treatment true, but not preferential. Why can't these extremists in both directions see our nation has always been great because our strength of the President, will address is based on our being a melting pot?

Peter Howard of MR-A says it so much better. He says, "The different races in America are her Ulrich, and Mrs. John Cody of strength and her glory. They are an asset no other nation Detroit; Mrs. John Hookey, Mrs. possesses." He says "laws cannot by themselves alter the David Hermann, Mrs. Richard character of a human heart.

'The Negro is neither worse nor better than his of Livonia; Mrs. Ed. Pepke of neighbor. The same is true of the white man. We all have our loftier side, and our more debased.

"The black man's chance is surely coming. Segregation yesterday. Confrontation today. Transformation to- Wayne; Mrs. George E. Greenmorrow."

Howard is spreading his message across our nation "My faith is in modern America. I believe America will arise with a character that convicts, captivates and changes nations. I believe those who have suffered most will show the greatest passion and compassion for longsuffering humanity."

If you have a growing family, and care about them, your home and community, you had better know how important you are as one person - speak up, set your be reached at VE. 5-4700 should own sights high - put away the hate-mongers, the birchers, the poison-pens. Organic fertilizers including the urea formaldehydes need soil temperatures of 60 degrees or better to break down. The chemical fertilizers only need water to make the food available to the grass plants.

Fertilizer applications should be made three times a year around April 1, May 30, and September 1

A good general rule is to apply the fertilizer when the

### On the lawn

WITH LARRY LAWRENCE

The other week, in this space, I mentioned the beautiful lawns in England that are so much admired by all visitors. Now there is one more point about them that I would like to bring up and that is the question of grass clippings.

In England you never see them left on the lawn. In fact, you can't buy a mower over there without a contrivance for catching the clippings. Here, many people leave them to decompose on the theory that they help the soil texture by putting back some of the material lost by mowing.

The fact of the matter is that, whereas the value of the clippings is negligible, there is a lot to be said against them. When they turn brown they can give a lawn an unpleasant burned-out look. Worse than that is their tendency to form a mat or what nurserymen call "thatch." Another thing: matted grass makes a good breeding ground for fungus diseases.

So don't think that sweeping up lawn clippings is a waste of time. Far from it. And if you can buy a grass catcher to attach to your mower, by all means do so. Some mowers have an ingenious catcher that is supported on its own feet so that the weight of the clippings is taken off your hands

### M.S.U. Band to Play At World's Fair

EAST LANSING - Michigan State University's 150-man marching band has accepted an invitation to perform at the New York World's Fair, band director Leonard Falcone has announced.

The MSU unit will perform May 18 at New York City during the Fair's Michigan Day. Falcone said. The invitation to MSU was issued by the state committee planning Michigan Day at the Fair.

Oldsmobile Division of General Motors Corp., will sponsor the band's trip.

### Tips on Proper Time to Prune

seems more frightening than be pruned to produce an even it really is. Most home gardeners, who raise their bushes and When you trim trees first retrees from "mere seedlings," have a tendency not to prune branches. It becomes dangerous often enough and far enough according to Michigan State trim large trees and a profes-University horticulturists.

First, why prune at all? (1) To remove broken, dead, diseased and insect damaged branches.

(2) To produce a more sturdy and dense plant

(3) To control the growth of the plant and produce the desired size and shape. (4) To improve flowering and

fruiting. Then, when should you

prune? From the point of view of necessity, you can prune at practically any time of the year. Boughs can be cut from evergreens for Christmas decorations. Early blooming spring shrubs like pussy willow and forsythia can be pruned early and "forced" into blossomed boughs in the warm basement,

Normally, plants which lose their leaves in the winter can be more easily pruned during the dormant season because it is easier to see the framework of the branches. As a general rule, shrubs and

bushes flowering on new growth during the current season (roses for example) grow better if pruned early in the spring. This induces the production of flowering wood.

Those that flower on last year's growth (like forsythia) should be pruned as soon as flowering is finished.

Maple and yellow wood trees bleed less when trimmed in the summer. It's easier to trim most shade trees in fall and winter months.

How far do you go when pruning?

When pruning hybrid tea and floribunda roses early in the spring, before growth begins, you cut back the black and dead canes, MSU horticulturists recommend. Old canes that look diseased and split are cut to the crown, Vigorous growing roses can be cut back more

Climbing roses should not be pruned until flowering has old stems that have produced flowers and cut back the new vigorous canes to where they are the size of a lead pencil.

Shrubs that are over-grown should be pruned by cutting back older, discolored canes to the ground level. Reshape the clump by pruning back the branches to side shoots.

Ground covers and vines can be pruned to suit the location. Vines need to be trimmed to keep them within bounds, away from windows or on a trellis.

### McHugh Manager at Westland

Appointment of Joseph F. Mc Hugh as Store Manager of Hudson's Westland Shopping Center has been announced by Joseph L. Hudson Jr., president, The J. L. Hudson Company.

McHugh, who has been assistant store manager at Hudson's Northland store since it was opened 10 years ago, has been employed by the company since May. 1935.

He will assume his new duties May 4 although the Westland store, presently under construction in Nankin Township, will not be completed until mid-1965.

"We are making McHugh's appointment now in order that he may work closely with all members of our management team, as well as the various contractors, in finalizing organizational and building details of the Westland store," said Hudson.

McHugh and his wife, the former Margaret Neydon, make their home at 32781 Eleven Mile Road, Farmington. They have three children, Mrs. Jack Walker, of Illinois; Patrick J. and Michael J., who is employed at Hudson's.

Westland Center, third regional shopping complex to be constructed by Shopping Centers, Inc., a subsidiary of The J. L. Hudson Company, was begun in July 1963. The center will be at Wayne, Warren and Cowan roads.

### Funk Tells Plans For Tax Sales

County Treasurer Louis H. Funk said Monday that his office has 11,879 parcels of land throughout the County listed to be offered at the Tax Sale beginning May 5, for non-payment of 1961 taxes.

The sale of all of the descriptions would yield a total of \$899,954.24, including all interest and penalty charges through April 30.

Funk also warned Wayne County taxpayers that all 1960 taxes sold at the May, 1963 sale must be redeemed by the end of April to safeguard title to the property.

At the present time, title to 1,839 parcels amounting to \$129,960.12 will go to the State of Michigan effective May 5 unless redeemed prior to that time.

The same deadline is in effect on an additional 2,218 descriptions totaling \$115,222.57 on which tax certificates were issued to professional tax title buyers at the May, 1963 Tax Sale. These buyers are entitled to the issuance of a tax deed upon presentation of their certificate to the Auditor General of the State of Michigan.

Funk urges all taxpayers in the County, owing 1960 and/or 1961 taxes, to pay immediately to protect their property.

members of the competing clubs, held in the lecture hall at 8 p.m.

The boys, all winners of their local contest, will be competing for the right to represent zone nine in the district contest at Lansing on May 22.

The winner of the district advances to the regional, and the regional winner to the finals. Both the regional and finals to be held in Denver in June.

The zone contest will be under the direction of Past Governor Edward Vogt of Battle Creek.

Judges are: Paul Weinbrenner, industrialist from Oak Park; Mrs. Howard Standley, teacher in Lincoln Park schools, and Douglas Hewitt, President of the Livonia Toastmasters Club, with William Hartman of Bentley High School as the timekeeper.

Boys in zone contest are: Barry Burton Shiek of the Redford Tri City Club; Michael Turnbull of the Northville Club: George Mager of the Northwest Detroit Club: and Richard Linderman of the Redford Club. Clubs in Livonia, Clarenceville and Dearborn are holding elmin-ation contests this week to determine their representatives. Governor E. L. "Bud" Abbott of the District will be in attendance to present the trophy to the winner.

### Changes Few in Pin Meet

With full squads, firing on the alleys at Merri-Bowl Lanes over the weekend, the standings in the second annual Observer Newspapers mixed doubles tournament took quite a licking although the top five teams held their places.

It was in the bottom five where previous leaders faded entirely out of the standings.

The duo of F. Modrzeywski and C. Modrzeywski climbed into fifth place with a 1291 count. E. Blazaitis and J. Blazaitis took eighth with 1274. H. Dudek and E. Dudek accounted for the third change when they fired 1266 good enough for ninth.

Meanwhile, Doris and Don Allen are riding comfortably in first place with their fat 1329 series, nine pins better than the second place total of E. Brooks and C. Brooks.

The meet has an estimated prize of \$2,500 for first place, \$1,500 for second and \$750 for third. The list is based on a total entry of 1,000 teams.

Firing continues on weekends for the next five weeks and bowlers are urged to file entries quickly in order to secure prime dates and times. Squads start at 11 a.m. on

each Saturday and Sunday and continue through 1 p.m. Dates remaining are: Saturday, April 18 and 25; May 2,

9. and 16: Sundays - April 19 and 26; May 3, 10 and 17.

A combination of poor hitting and fielding resulted in Clarenceville high school losing its season's baseball opener to Brighton, 8-5, last Thursday. The contest also marked the

debut of Clarenceville in Wayne-Oakland League play for the season. The North Livonians went down on strikes 13 times in

the games, but even then might have pulled out the game had they not committed 10 errors, most of which figured in runs for Brighton. Gary Gearhart hurled the first

five innings for Clarenceville and was tagged for five runs. Danny Freels finished up. Gearhart delivered a single

and double and knocked in two of the Clarenceville runs. Mike Nye, a freshman, dropped a pair of bunt singles and also accounted for one RBI.

PUTTING ONE WORD AFTER ANOTHER-

All the orchids in the world-or at least in these partsshould go forth in the direction of Manager-Coach Sid Abel and his Detroit Red Wings.

It truly was an electrifying performance the Wings staged as they came from behind to knock out the Chicago Black Hawks and gain this week's finals in the Stanley Cup playoffs. Brilliant as the Wings have been as a team, there are no

adequate adjectives which honestly can describe the play of the veteran Gordie Howe. He's been around now for 18 years as a member of the Wings. Just about the moment somebody suggests Howe might be getting a little tired and old, he shows 'em all that he's as

great - maybe greater - than ever. We'd have to nominate Howe as the No. 1 super-athlete of our time on the Detroit area sports scene.

LOOKING FOR a pleasant way to spend an evening? Wander over to the Detroit Race Course any night except Sunday and take in the harness racing program.

You're in for a treat and an interesting night, regardless of how deep you dig into your pocketbook and whether or not you have any winning tickets to cash at the mutuels' window.

The weather can't spoil the fun, either. They have special heaters in the huge stands to make sure that you are as warm while watching the races as you would be at nome. Oh, yes, you can also see in action the special closed-

circuit TV system that track officials have installed. It's really

Note where both Bentley and Thurston high schools again have landed regional high school track meets.

We spent several enjoyable moments the other day taking in the annual midwestern Physical Education and Recreation Association convention at the Sheraton Cadillac Hotel. Most of the athletic directors from the area were on deck.

So were the recreation officials. The various discussions and talks all boiled down to one point: "How can schoolmen and recreation workers improve the physical condition of the country's citizens?"

As you probably know, the nation's physical fitness is nothing about which any of us can brag. Something like 50 percent of the young men of our great United States are turned down for military duty, because of their physical conditions.

It's gratifying to know that there are many women and men among us who are giving so much of their time and life in the hopes of making us a sounder nation-from a health

What they talked about last weekend in Detroit now has been carried back to home fronts . . . like Plymouth, Livonia and Redford Township.

Some of our citizens certainly will benefit . . . provided they show an interest.

Like Father, like Son: Back in our collegiate days at Michigan State, we wrote about a shot putter by the name of Art Jenkins. Now, it's Bob Jenkins. Art's son, who heaves the shot over at Bentley high.

Pop Jenkins is Livonia's postmaster.

# THERE'S NO MAGICA ABOUT IT

It Just Seems That Way Because You Accomplish So Many Amazing Things With Observer Classified Ads

Just about everybody knows that Classified Ads are the place to find a home, buy a car, rent a room, have a lost article returned or get a better job . . . But sometimes folks forget that Classified Ads do something else that is mighty important too. THEY MAKE THINGS POSSIBLE! Things like a new bike; a week-end trip; drapes for the living room; a very special dress; a new golf bag; a growing savings account . . . Classified Ads mean better, easier living for you and your family because they bring you the extra cash that allows you to have more and do more. And these hard-working little ads are so easy to use. Here's all you do.

Go through your home. Look for every worthwhile thing your family doesn't use or need anymore and write it down. For example . . . the musical instrument nobody plays, the good outgrown clothing and toys you've packed away, sports equipment, outdoor furniture, yard and garden tools, portable record player, furniture, and much, much more. Then, when you have your list, just dial GA 2-0900 any time between 9 a.m. and 5:30 p.m. for an experienced Ad Writer. She'll help you word your ad to bring fastest results. That's all there is to it. The Cost? Surprisingly low. A 15-word ad is just \$1.75. Soon you're in touch with other folks who want what you offer and pay you cash for it.

Seem too good to be true? Well, like we said—there's no magic about it . . . It just seems that way because Observer Classified Ads accomplish so many things for you.

Isn't it time you put the amazing power of Classified Ads to work for you? It's an awfully good way to have smiles come faster — and wishes come true around your house.

### Livonia Churches Seek **Bonds for Aged Home**

Wisconsin Synod Lutheran con- Livonia. gregations in the state of Michigan, is currently conducting a drive for the sale of \$500,000 worth of First Mortgage, Bearer Paul's Lutheran Church, Farm-Bonds for the purpose of erecting a new Home for the Aged in South Lyons, Mich.

The home, which has been designed by Begrow & Brown, Architects of Bloomfield Hills, Mich., will house 76 residents. It is intended as a combination retirement-convalescent home made up of five wings connected by a central core which provides space for dining, relaxing, reading and recreation with craft project facilities. Garden and courts around the home provide walking and sitting area for residents.

Plans for the home have been let out for bids on March 17 and the contract is expected to be signed on or about April 7. A present proposal calls for ground-breaking on the 15th of April, the date of the association's annual meeting, with construction scheduled to begin shortly thereafter.

The bond issue is to finance construction of the home and the bonds will be sold in denominations of \$100, \$250, \$500, and \$1000. They will be offered to the members of association churches and other Lutheran congregations in the state, after which they will be available to the general public. The bonds will bear 5 per cent interest, payable on April and October 1st of each year (semiannually).

The bond sales office is located at 32900 Five Mile Rd., in Livonia. Mr. Alwin Burkhardt are twenty-five cents each. A of Saline, Mich., one-time treasurer of the Michigan District of Wisconsin Synod churches, is the General Chairman of the bond drive. ### Copy Machine Installed at Livonia Library

Instant photo-copies from book pages, magazines, newspapers, personal and business documents can now be made with the new Docustat selfservice photocopy machine recently installed in the Carl Sandburg Library. The head librarian, Skip Rosenthal, explained that the device is a fully automatic coin operated machine which offers students and the public an efficient and completely private method of copying data maintained for public reference in the library. In just thirty seconds the unit copies anything placed on its glass top. One or even two pages at a time can be copied from books simply by placing the book on the glass. Pages do not have to be removed from books or magazines.

Mr. Rosenthal also said that this is the only available machine that will copy the large size magazine pages used by Life and other magazines. It copies material up to 10 x 14 inches, reducing it to fit on a standard letter size copy. Copies quarter coin operates the machine. Since the machine is completely self-service, there is no demand on the library staff for time or care. All service outside firm.

The machine is installed in the Carl Sandburg Library, Saline is the co-chairman for this 30100 W. Seven Mile Road. The Livonia libraries are open as Mr. Frank Luedtke and Mr. E. follows: Monday through Thurs-W. Marion are the parish rep- day, 12-9; Friday and Saturday

### Gifted Child May Irritate His Elders

ANN ARBOR-Parents of a "gifted child" may find them- not pass by the county road or selves hankering after a more recognize the helpless exprespeaceful and uninterrupted sion of distress. existence, says Warren A. Ketcham, University of Michigan professor of education.

"The gifted child has some imposing characteristics, but they won't exactly make him an unmixed blessing," says Ketcham.

"He will frequently irritate adults. His curiosity will make it difficult to keep him within sight and hearing. His physical size and strength will enable him to get lost more quickly and effectively than other chil-

"He will ask questions about matters which are not thought to be suitable for the thoughts of little children. At an early age he will have real purpose about which he will be very persistent to the utter despair and consternation of his parents and others. He'll probably be labeled a problem child in the neighborhood." Ketcham lists typical characteristics which may lead parents to suspect their child of

being gifted: "Most gifted children accomplish almost everything sooner Y.W.C.A. at 25940 Grand River. and better than less able children of the same age. There are, of course, exceptions.

When compared with other children of the same age in a community the gifted child will be larger and stronger, will talk earlier and more, will be more curious about his surroundings, will be more apt to notice events and changes in the home, will need less rest, will be more independent of his parents.

"He will become interested in printed words and numbers earlier, and will be more apt to want to go to school before the legal age for entrance. A suspicion of giftedness would be based on the presence of most or all of the characteristics over a period of several years." However, Ketcham advises, "Before a parent takes a suspicion of his child's giftedness too seriously he needs to consider an important fact. The odds are against him. If the term means only a very select group of children whose intellectual ability is far above most

of their age mates, the odds are

still smaller, only about two in

100 children."

Coming to the rescue of Y.W.C.A. members is Charlie Dahlgleish, president of Charlie's Oldsmobile, who is supplying John Peace, his assistant sales manager, to head the crew of instructors for the course. Mr. Peace has worked in the automobile business on the wholesale and retail levels for the past 25 years.

"There is no reason that the average woman should not understand an automobile as well as the average man," states Mr. Peace. "She just has to be interested and exposed to the subject. This does not mean we will try to make automobile mechanics out of the ladies. Most men aren't mechanics either, for that matter."

The main object of the course will be to give a clearer understanding of what goes on under the hood of the iron monster. with tips on how to make the contrary thing come into line enough to get it to a garage.

Classes will be held at the Tuesday afternoons and Wednesday evenings starting the week of April 6. Registration is now open and classes will be limited.

Funny thing about used cars.

that car; you've got to act fast. Before somebody else does. We can't order another one from the factory for you if the one you want is sold.

Once you decide what you want, what you'll pay, and find

Fact is, we never know from day to day how many '61 Cadillacs, Model "A"s, '58 Chevvies or even used VWs we'll have for sale.

One week we're loaded with factory-clean convertibles. Next week, we may not have a single one traded in that's good enough to sell.

So if you're in the used car market, shop around. That's our list up there. Pick out what you want to see and come see it.

But don't put it off till tomorrow-or the day after.

Chances are, somebody else has his eye on it, too. And may act a little faster.

Somebody else may end up driving your car. GREENE MOTORS, INC.
