Mayor Houk Says: Solution to City's Problems Would Be Merger To Obtain Services

By Mayor James Houk

Having completed almost six years as a city commissioner and having been Mayor for almost two years, I look back upon the problems involved in the community of Plymouth as I have looked at the development of business in the past.

As a small business retailer in the metropolitan Detroit area during the past 25 years, I have seen many small firms go out of business or have to merge to exist, to pay the help and to carry on the services which they wish to give to their customers.

Mayor Houk

If we wish to have the kind of community we want and to have the services we want, it will become very necessary to look to merging of facilities, to merging of efforts to accomplish this. Just how it is to be brought about, how it is to be done is the great question facing us today.

Sooner or later, we, for our own existence and to retain the identity of the Plymouth community of which we are so proud, are going to be forced to do what the school districts have done in the past - a merger of areas to get better facilities. There seems to be no other way out.

Trucker Crushed By Crate

Pinned beneath two heavy steel crates which fell on him as he opened one side of his truck for unloading, Raymond Ford, 878 Arthur, Plymouth, was killed instantly in a freakish accident Tuesday afternoon at Plant 5 of the Saginaw Steering Gear plant in Saginaw.

State Police reports show Ford had just opened one side of his truck for unloading the crates and then turned to the other. While opening the second side a hi-lift tractor apparently started moving crates from the open end and accidentally pushed the crates off the other side into the truck driver.

Ford was a driver for the G. F. Alger Co. and is believed to have left Detroit in the morning with the load for delivery at Saginaw.

The body was rushed to St. Mary Hospital in Saginaw where Ford was declared dead on arrival by doctors. The investigation of the accident was conducted by Coroner Harold Cedberg of Saginaw and State Policemen from the Bridgeport Post.

Services were conducted Friday in the Schrader Funeral Home in charge of the Rev. Dr. Herbert Brubaker with burial in Riverside Cemetery.

Surviving are: his wife, Mrs. Berry Ford; his mother, Mrs. Dawn Ford of Plymouth; two daughters, Mrs. Carol Hopper of Plymouth and Suzanne at home; one brother, Glenn of Hamburg, Mich.; three sisters, Mrs. Leora Stephenson and Mrs. Nancy Totten of Plymouth and Mrs. Irene Pillars of Alford; and one grandchild.

Ford was a member of Plymouth Elks Lodge 1780.

Too often in the past, we have not looked at what is good for the community. We have looked at what is good for us who are in office, the little power structures we have built up, a little domain in which we rule. This is a false conception. We must look at what is good for the people in our community.

We must start looking to give them services, to give them things that they desire as a community and to maintain the identity which we want and desire. If this is not done, we will be taken over and more or less virtually swallowed up by bigger areas and end up with no identity whatsoever.

This is a serious situation we are facing, and the future of what happens to us in our community really is going to have to be solved very soon.

Here we are on the 100th

★ Please turn to page 6

Plastic Cans For Garbage Are Problem

Because of the frigid weather plastic garbage containers that have become so popular in the Plymouth Community are causing a problem instead of the garbage itself.

The plastic has a tendency to get brittle and snap into pieces. These broken receptacles then no longer hold the garbage and are picked up as trash.

The Department of Public Works has let it be known that these containers cannot be replaced because of damage and that it is entirely up to the homeowner to provide a suitable receptacle.

The City of Plymouth ordinance provides that garbage containers "shall be of reasonable, substantial construction". In view of this the plastic container is now being frowned upon.

Services were conducted Friday in the Schrader Funeral Home in charge of the Rev. Dr. Herbert Brubaker with burial in Riverside Cemetery.

Surviving are: his wife, Mrs. Berry Ford; his mother, Mrs. Dawn Ford of Plymouth; two daughters, Mrs. Carol Hopper of Plymouth and Suzanne at home; one brother, Glenn of Hamburg, Mich.; three sisters, Mrs. Leora Stephenson and Mrs. Nancy Totten of Plymouth and Mrs. Irene Pillars of Alford; and one grandchild.

Ford was a member of Plymouth Elks Lodge 1780.

Isbister Praises Collective Bargaining in Local Schools

**By Russell L. Isbister
Superintendent of Schools**

Orderly processes in the implementation of Act 379, Michigan Public Acts of 1966, to the local school district challenged the best efforts of the Board of Education, the Administrative Staff and the organized employee groups during the past year and makes 1966 stand out as a most significant year in our school history.

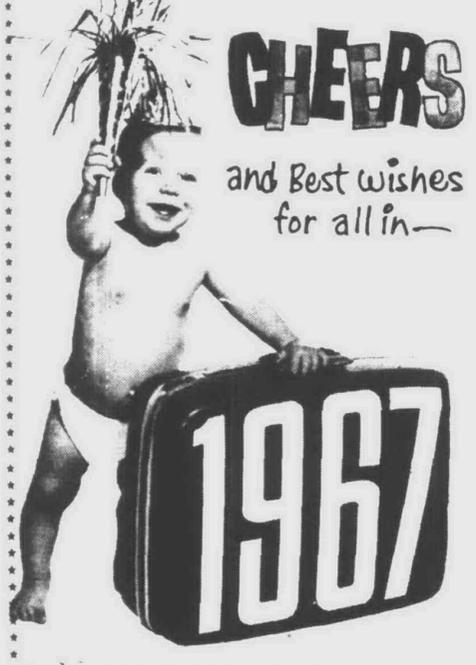

The law provides that public school employees have the right to organize and bargain collectively on matters pertaining to wages, hours and other conditions of employment. Local employee groups organized in accordance with the law and appointed negotiators to bargain at the bargaining table.

The Board of Education

appointed its negotiation teams and established guidelines for them to follow in negotiations with the organized employee groups. After long and deliberate sessions

Russell Isbister

Township Active During Past Year

**By John D. McEwen,
Supervisor**

As the year 1966 is now passing into history one can look back on the past 12 months with a sense of deep pride for they have been months of great activity and major achievements in Plymouth Township government.

As one looks back he sees great growth in the residential, commercial and industrial areas. And there is a sense of pride in knowing that the programming and forecasting of what would happen in 1966, in nearly all instances has been accomplished.

Our prediction of 600 new homes during 1966 fell short because of labor difficulties and the current money market. However, the estimated 475 building permits will show a considerable increase in construction valuation over that of last year due to the new commercial and industrial development.

As of December 1, 1966, the construction value of all permits totaled \$12,057,664.00 with an additional estimated valuation of \$2,500,000.00 expected during the month of December.

After a number of public hearings the Planning Commission adopted a Comprehensive Development Plan for the Township. It is now determined where we are going and how to plan to get there. It is the responsibility of the Township Board of Trustees and the Planning Commission to properly execute this program. They are cognizant of the fact that a plan, no matter how excellent, is only as good as its execution. I am confident that Plymouth Township shall be a convenient and attractive region in which to live.

As predicted, the upgrading of Sheldon Road along

with the installation of essential utilities, brought a new large diversified industry into our Township where in the construction of the Ford Motor Company, Heater and Air Conditioner Division plant is nearing completion. This plant is expected to open during the month of January 1967.

An additional 2.27 miles of water mains were added to the existing 45.13 miles during the current year at the estimated cost of \$100,000.00. Sanitary sewer service was increased 4.27 miles at the estimated cost of \$380,000.00. This brings Plymouth Township water mains up to the total of 47.40 miles and the sanitary sewers up to 43.23 miles.

Forecasting 1967 it is expected that five (5) new subdivisions will be developed consisting of 456 homesites. Four (4) multiple dwelling permits have been issued totaling 382 living units and should be constructed and

John McEwen

completed during the coming year.

Currently the Plymouth Township Board is considering its initial storm drain construction to promote the commercial and industrial areas where it is essentially needed. Also, the extension of the current water system is to be enlarged at a cost in the neighborhood of \$1,200,000.00. These programs shall be first on the agenda in 1967.

Many thanks to the Township Board, Planning Commission and other public officials who have cooperated so diligently during the past year and to the residents who have shown their confidence in their officials.

To all residents in the Plymouth area, may all the true happiness of the season be yours, and may it continue with you throughout the coming year.

Cordially,
John D. McEwen
Supervisor

State Lists Miles

LANSING - The Michigan State Highway Commission reports there are 113,000 miles of roads and streets in Michigan - nearly two miles for every square mile of land.

Fire Routs Eight Families From Apartments Here

Township To Add Mains

The Plymouth Township Board approved preliminary plans to spend about \$1.5 million on the extension of water and sewer lines at a special meeting Tuesday night.

A direct conflict with the City of Plymouth was avoided by not including in the plan lines to Plymouth Colony or along Sheldon Road between Ann Arbor Road and Joy.

The City currently has lines in these areas which the Township would like to purchase. Another meeting between the two governmental units on water main purchases will be held Jan. 6.

Official action was taken only on water extension because a proposal for sewer extension was not on the agenda. The board cut its water main proposal enough, however, to allow for a possible sewer program, which will be formally presented at the next meeting.

Township engineer Herald Hamill presented plans for the water program and outlined in somewhat less detail a possible sewer extension program.

The original water main program was expected to cost about \$1.2 million, but the trustees decided that a sewer-water combination would make areas more valuable than would just water.

Four items were then cut from the water program, leaving room for sewer extension. If Hamill's sewer program is adopted, the total sewer and water main cost will be about \$1.5 million.

Most of the lines will be main feeder lines around the Township and lines to fill gaps in the present system, eliminating dead ends and making complete circles of the lines.

Besides the Plymouth Colony and Sheldon Road lines, other projects eliminated from Hamill's list were a 12-in. main on N. Territorial Road from Beck Road to Ridge and a similar line on Ann Arbor Road from Beck to Ridge.

Extension of mains into Plymouth Hills subdivision was approved but only on the condition that the people in the area want the lines and are willing to help finance them.

Lines approved by the Board are the following:

- 1) Five-Mile Road. A 16-in. feeder line from the City of

HERE'S EVIDENCE OF DAMAGE: The fire that swept through the Pilgrim Apartments last Saturday did considerable damage despite the great work of the firemen. One of the walls is shown here with a monster hole close to the chimney.

Firemen Roundly Praised

Nothing but high praise for the Plymouth Fire Department was heard from members of the eight families who were driven out of their homes by fire on the day of Christmas Eve.

"The police and fire department are a credit to the community," said Miss Margaret Rager, who was one of the occupants of Pilgrim Apartments at 310 E. Liberty.

The fire, apparently caused by a faulty chimney for the incinerator, did extensive damage to the roof and rafters of the eastern 8-unit building at the location. The u-shaped building which burned and another similar building make up the Plymouth Apartments.

Mr. and Mrs. Elmer Woodard, managers of the apartments, also said the "fire department should get a pat on the back" for its quick arrival and care in protecting furniture and other items.

Salvage covers were placed over all furniture to help prevent water damage, according to George Schoeneman, fire chief. Some 17 men and all three trucks were at the fire. Four or five men from the township fire department helped.

Flames were seen only once, Mrs. Woodard said, from the fire which destroyed essentially all the attic. Fire never reached the apartments themselves, but water damage was substantial.

The Woodards hope to have the apartments ready for occupancy by Feb. 1. Repair work was scheduled to begin Wednesday.

Although fire walls are built between each of the apartments, no walls had been built to prevent the spread of fire in the attic. Such walls are now required in all new construction.

Still in critical condition Wednesday from gunshot wounds of the head was Roy Gottschalk, 13910 Gottschalk Road, Plymouth Township.

Now in an intensive care unit at Wayne County General Hospital, Gottschalk apparently made a pact with his wife, Martha Ann, which ended in what Sheriff's Department, and Patrolman Robert McQuain called a murder-attempted suicide.

He found Gottschalk seated in a chair in the basement, bleeding from a head wound.

Gottschalk was rushed to Wayne County General Hospital where he was not expected to survive, according to deputies.

Mrs. Gottschalk had lived in the Plymouth Community most of her life. She had been a member of the Wayne County Farm Bureau.

Gottschalk Still In Critical State

Final Plans Announced For I-275

Final plans have been announced for a section of the north-south Interstate highway 275 passing through Plymouth and Canton Townships.

The expressway will travel along the east side of the township, east of Haggerty Road, have a cloverleaf intersection at Ann Arbor Road and eventually connect with a proposed cloverleaf at Schoolcraft Road.

Final plans have been approved by the Department of State Highways only for the section from just south of Warren Rd. to just north of Ann Arbor Trail.

Fourteen property owners in Plymouth Township and seven property owners in Canton Township will be affected by the plans. Maps of the affected areas and lists of the amount of property which the state will be buying from each property owner are available at the Plymouth Township Hall.

Parcels of land affected in Plymouth Township are owned by: W. and M. Bunyea, M. Ayers Estate, M. Jewell, E. and C. Thompson, D. and V. Jewell, D. and S. Newman, C. and F. Sternberg, C. and F. Good, E. and M. Good, J. Schwartz and others, F. and M. Ross, E. Hill, W. and M. Laury, P. and A. Miller.

Parcels affected in Canton Township are owned by: Hough, Archibald & Jennings; E. Gerst; J. and A. Pushia; C & O Railroad; W. Bunyea; W. and M. Bunyea; R. & J. Williams.

Chamber Sees Big Growth For Plymouth Community

By Carl Pursell, President

In the age of tremendous growth, the "population explosion," and the "jet age," one looks at his community and wonders if it too is caught up in the whirlwind.

We think not. The Plymouth Community, defined in the non-legal sense, is maintaining its position, its "identity," and its stability with progress in some areas and restraint in others. In some areas, we have real progress. Burroughs Corporation, Ford, Michigan Bell, Gaylord Container and others are expanding to meet their needs. Individual businesses are moving to Plymouth. Old businesses are remodeling and adding new store fronts. Housing developments are steady.

In a free system, this type of individual progress is the

bulwark of our society. However, in our complex society, a community needs more than individual growth. We are dependent on each other for goods and services. Our community provides "vehicles" which can enhance our competitive position in the Metropolitan area. These vehicles are our local governments, our schools, our Chamber of Commerce, and our other organizations must provide a "climate" of positive leadership and a strong cooperative effort to keep our position strong.

The individual who is the newcomer, or the new business looks in these special areas to determine if this should be his home.

Our Community Leadership Conference held in Hillsdale last spring with 75 delegates, provided some clues as to our needs. The delegates felt that the major area of concern is the lack of cooperation in our

Mott Foundation Plans Workshop to Improve Baseball

All Coaches Are Invited

Plymouth High school baseball coaches, along with more than 200 others from all sections of the state have been invited to Flint on January 21 where the Mott Foundation is planning a noble experiment.

The experiment will be a state-wide Baseball Coaches' Clinic at Ballenger Field House and the purpose of the workshop, according to an announcement by Thomas R. Cole, consultant in athletics for the Flint Board of Education's Mott Program is "to improve coaching techniques as well as the quality of baseball played in Michigan".

If the clinic proves successful, it will become an annual event, Cole said.

Instructors will include four veteran baseball coaches and a Detroit Tiger outfielder star.

The clinic will be staged under the joint auspices of the Mott Program, Flint Community Junior College and the Industrial Mutual Association.

Deadline for registration is Jan. 14. Registration fee is \$3. Application should be addressed to the community services department at the college, 1401 E. Court, Flint.

Following a coffee warmup period and a display of baseball equipment, the baseball clinic will open at 9:45 a.m. Jan. 21 with welcoming remarks by Dr. Charles Donnelly, FCJC President, and William Blamer, director of athletics at the college.

A special feature of the all-day clinic will be a demonstration of hitting and playing the outfield by Jim Northrup, a Detroit Tiger outfielder for the last three years.

After four years in organized baseball, Northrup was voted "Rookie of the Year" in the International League in 1964 after posting a .312 batting average for Syracuse.

Cole will serve as moderator for a question and answer period that will conclude the clinic at 5:10 p.m.

HERE'S FORM THAT LEADS TO STARDOM— Even though he never played football in high school, Dale Livingston, former Plymouth High student, gained stardom at Western Michigan

Dale Livingston Puts Foot Back Into College Football

Every week of the football season as the college and professional quarterbacks fill the air with passes folks are prone to say, "They have taken the foot out of football".

Yet, you'd have a most difficult time trying to convince Dale Livingston, former Plymouth High student, that such is the case.

Dale, the 21-year-old Plymouth athlete who stands an even six feet tall and weighs 225 pounds, is a prize bit of bric-a-brac on the Western Michigan University football team — and all because he can put his foot into a football and kick it amazing distances.

The story of this young man who graduated from Plymouth High School in 1963 reads like a fairy tale.

Few would believe it now, but Dale never played football in high school and was a spectator at the college games during his freshman and sophomore years. In fact, he played trumpet in the band during his freshman year.

Then something unexpected happened and changed the entire course of his career.

While he never had played football in high school he had enjoyed the sport during his grade school days and was doing fine until he suffered a damaged knee while in the ninth grade and to all intents and purposes his football career was ended.

"During my sophomore year in college", Dale recalled with a smile, "they had the Punt, Pass and Kick competition at school and I entered — just for the fun of it".

How did he fare and how could that change the course of his career?

He hesitated for a moment. Then he slowly confided: "I won the distance punting with a punt of 67 yards."

"And I won the field goal competition" he went on, "with a goal of 45 yards and in the extra point contest kicked 30 out of 30."

Fine, but what did he do in passing?

"I didn't do so well", he explained, "I couldn't do better than second with a pass of 65 yards."

It was then, he went on, that football again beckoned to him. "After I won the kicking contest", he explained, "Art Jevett, inter-mural director, asked me if I could go out for football."

"When I assured him that I could he got me in touch with Bill Doolittle, then the assistant football coach, and I was invited to come out for practice that evening. That was how I got back into football."

How did he feel to be back in the rigorous sport again?

"Oh, I didn't get into games", he answered. "This was in the

University because of his kicking. He is shown at left kicking a field goal in the last few seconds of a game to beat Toledo and, at right, how he looks when out of uniform.

Dale Livingston Puts Foot Back Into College Football

spring. I spent the entire spring session practicing kicking, only to find when I reported in the fall that the team already had a kicker."

Dale hesitated awhile as he recalled the events that helped to unfold the unusual story.

"The kicker was Milt Walter, of Dowagiac", he pointed out, "but shortly after the season opened he was injured in practice."

"Then, I got my break. I went with the team to Bowling Green. Even though we lost, 21 to 17, I kicked a 25-yard field goal. It was the first I ever had tried in college."

"I guess the coach must have been impressed, for I played

all the remaining games.

"In one game — against Marshall — I kicked three field goals — one from 37 yards, another from 25 and a third from 47 yards. This last one — the 46-yarder — is the best I ever have kicked in college."

Thus far in his college career, and he has one more year to go, Dale has kicked 13 field goals and 24 extra points aside from doing all of the punting.

"What about body contact?" he was asked. "It has been said that you don't relish it."

"I get body contact", he shot back. "I am the first man down the field on kick-offs and get plenty of chances to make tackles. But, it is true, I am not in much rough stuff."

"I practice only a couple of times a week. The coach doesn't want to take chances of me getting injured. So, I am spared the rough stuff because kicking is considered most important."

That's why you'll never convince him that "They've taken the foot out of football."

Old Sport's Musings

By Artee

John McFall, Plymouth High's only swimming coach since the construction of the pool, will bow out at the end of the semester to take over the ownership of the Sundown Motel in Petoskey. That was the announcement several weeks ago and we have been waiting since for some group or groups to pay tribute to a man who has done so much for the local sports scene for so many years.

McFall took over the head football coaching post two years ago and had the situation so well in hand that it appears the Rocks will have a better than average team come another fall. The 1966 varsity won the season opener and the finale for a 2 and 5 record.

But only once was it completely outclassed and that was in the game against unbeaten Trenton which made a strong bid for the state championship by bowling over nine straight foes. We believe things will pick up for the Rocks come next season but another coach will have the benefit of McFall's efforts last fall.

Getting back to the point in hand — members of McFall's greatest PHS swim team and their parents became the first to honor the stocky coach at a special get-together just before Christmas.

It was arranged then because the former varsity swimmers were home for the holidays and because McFall planned to devote the time between Christmas and New Year's at his new Petoskey venture.

During his 13 years as swim coach, McFall turned out a number of standout teams but his best was that in 1961 which won the Michigan State High School championship.

Six members of that team received All-American recognition and several went on to become stars in collegiate competition. The All-Americans included: Dick Gretzinger, Phil Bender, Dick Michaels, Bill Herrick, Jim Izett and Nick Brandell. The first mentioned

has succeeded McFall as PHS coach and the latter is mentor at Belleville High.

More than 50 parents and former varsity swimmers were in the group that gathered to pay honor to McFall at the Hillside Inn.

Those in attendance included: Gretzinger, Gary Gould, Wynn Schrader, Bob Crosby, Ron Daley, Lee Benz, Phil Bender, Jim Izett, Kenneth Fischer, Mark Schultheiss, Warren Smith, Dick Michaels, Berry Corwin, Bill Rossow, Assistant Coach Tom Workman and Student Manager Jim Jensen.

Bill Britcher is in service and was unable to attend and the parents of Doug Cash, Tom Hoffman and Nick Herrick represented their sons.

An excellent time was enjoyed by all and big, tough McFall fought back tears before the affair ended. But John always was a sentimental guy who was a friend of all.

Plymouth High's student body and faculty will miss him when he cleans out his locker for the final time and takes off for Petoskey. We hope others get around to farewells before the McFalls leave. John deserves, and has earned, such tributes.

The resignation of Peter J. Miller, who resides on E. An Arbor Trail, from his longtime position as general manager of Jackson Raceway, removes one of the sport's leaders from the scene.

Pete, currently vice president and general manager of the new Louisville Downs track near Louisville, Ky., turned in his resignation to President Leon Slavin at the end of the past Jackson season which was the most successful in the track's 17 year history.

Pete has been with Jackson for 16 of the 17 years, taking the position there as general manager after leaving the post of secretary to the State Racing Commission.

Pete has been connected with various state commissions for more than 25 years, starting back years ago under the late John Hettche, as secretary of the State Boxing Commission. He went from there to the Racing Commission where he served under Louis Bredin, Fred Harris and a short time under James Inglis. Then he joined Jackson Raceway and also conducted an advertising business.

His resignation takes one of the state's pioneers out of harness racing in Michigan.

Rocks Face Rugged Foe In Bentley

After two successive losses to Suburban Six League foes at Allen Park and Belleville, Coach Dick Bearup's Plymouth High cagers will swing back into action Friday when they travel to Bentley.

From all indications, the Rocks face their third straight league loss since Bentley, under Coach George Fefles, has another of those powerhouse quintets that have dominated the Suburban Six for the past several years.

Fefles, the former University of Detroit star, has had unusual luck at Bentley in the past few years and is gunning for the championship he had to share with Trenton a year ago. Coach Bearup, a bit irked by the letdowns of his team in the Allen Park and Belleville contests, has been holding daily drills and believes he has corrected some of the faults.

He plans to go with the same starters, but believes there will be a marked difference in the play of the team.

"We realize we are the underdogs against Bentley," Bearup said, "But we know that we have the potentiality and this could be the game in which the team hits its peak. It certainly would be a big night for me if it does."

Schoolcraft Swimmers List 11 Meet Schedule

Four returning lettermen are among 18 candidates who answered Coach Gordon Young's first call for practice as the Schoolcraft College varsity swimming team began preparations for an 11-meet schedule starting Friday, Jan. 6.

The lettermen bolster an otherwise young squad comprised of 12 freshmen. The monogram winners are Doug Jaskierney, Plymouth, co-captain of the 1966 team that compiled a 6-5 record; Mike Ferrell, Detroit; Lawrence J. Fitzgerald, formerly of Garden City and now living in Whitmore Lake, and David Ebstein, Livonia.

Jaskierney, a jack-of-all-distances, swam in 100-, 200-, and 500-yard freestyle events last year as well as individual medley. Lawrence, another versatile swimmer, saw service in the butterfly, back stroke, and medley events.

Young is making his debut as Schoolcraft swimming coach this year. A counselor at Thurston High, the one-time Michigan State University football player was former football and wrestling coach at South Redford High, and heads the summer swim program for the South Redford school district.

Still lacking a pool of their own, the Blue and Gold swimmers will split their practice sessions between the 20-yard Northville State Hospital tank and the 25-yard pool at the Wayne County Training School. Home meets will be held at the Stevenson High pool.

Other than the four lettermen, Young's squad roster consists

HIGHLY HONORED: One of the highest honors that can come to any athlete was paid to Johannes "Joop" Doorn, of Schoolcraft College last week when he was named to the second team of the All-American College Soccer Squad. It was his play that enabled Schoolcraft to go through the season undefeated.

Now Is Time To Start Preserving Downtown

If coming events cast their shadows before them, the time has come to take a good, hard look at the downtown business area in the City of Plymouth and take the necessary steps to preserve it.

The latest shadow was cast a few days before Christmas when a business survey showed that the City of Plymouth was not keeping pace with the rest of the metropolitan area.

According to the figures, the Christmas business in Plymouth was just about on a par with that of 1965.

Meanwhile, business failed to reach expectations in the entire metropolitan area. The experts on such matters in the Greater Detroit Board of Commerce who had predicted an increase of 10 per cent over a year ago, had to settle for approximately a three per cent.

Even with these figures that were so disappointing in Detroit, Plymouth didn't hold its own. It couldn't show anything more than equalling the figures of a year ago.

Many reasons have been advanced. And they could all be logical. True, the weather was against good business. The premature snow in November, along with ice and sleet and then a second snow storm were anything but conducive to major business activity.

The other reason advanced—and possibly the most important—was the impact of the large shopping centers on business in the downtown area of Plymouth.

Such major centers as Westland, The Livonia Mall and Wonderland, are inviting for the simple reasons they provide parking and one-stop shopping, even though folks must drive extra miles to get to them.

A continuation of this trend could be most damaging to the Downtown Area. That's why the time

has come to take the steps so necessary to save the jewel in the center of the community.

Plymouth is fortunate in having a "downtown area" in an added asset. Kellogg Park is an added asset. Many cities are groping desperately to establish a "downtown area" and meeting with little success.

One need go no further than Livonia to see what the absence of a "downtown area" means. Our sprawling neighboring city has been attempting for a long time to establish a "downtown" at Five-Mile Road and Farmington Road.

The idea has not taken hold—as yet. There are many who doubt that it ever will be accomplished, because the city just "grew like Topsy" and the business has gone off in all directions.

The City of Warren, another sprawling, fast growing community, has earmarked thousands of dollars for the establishment of a "downtown." Despite the willingness to spend the money the Warren officials are meeting untold obstacles.

No such problem exists in the City of Plymouth. The "Downtown" area is here—complete with a park that could be made into a most wonderful center.

But something must be done to preserve it. It wouldn't be fair to make the business men, themselves, carry the entire burden. And it is true that a committee is working on some means of beautifying the area.

However, there is no time to waste.

The shadow has been cast by the failure of Christmas business to reach expectations.

Let's not have a decaying inner city.

Let's do something about it—NOW.

... Hit That Line ... !

City Manager Recalls Two Top Events of '66

By Richard Blodgett
City Manager

The year 1966 will be written into the history of the City of Plymouth as the year which saw several significant events take place that will shape the future of the entire area.

The two chief events were the approval of the sale of liquor by the glass to end the city's role as the only desert spot in the entire county and the City Commission's approval of joining with other governmental units in the Southeast Michigan Council of governments.

The big events started as early as March after the construction of the 2,000,000 gallon water reservoir made possible the removal of the two old water towers. From then, there wasn't a month went by that didn't see something of a major nature take form.

One of the most significant events came on March 6 when the various city officials participated in the now famed Hillsdale Conference week-end. This event was sponsored by the Plymouth Community Chamber of Commerce and, as a result better inter-governmental cooperation appears to be taking place. This cooperation has helped bring about mutual studies for such things as an incinerator authority and joint police protection. These studies also resulted in the creation of a new position—Youth Officer Investigator—in the Police Department.

Here is a partial list of the things that were accomplished during the year:

Harvey Street widening from Penniman to Ann Arbor Trail was authorized, but because the project involved rights-of-way acquisition, it was necessary that this project be carried forward into 1967.

Sutherland, S. Main to Harvey Street, and Hartsough, Roosevelt Avenue to Symar Subdivision, were reconstructed in the fall of 1966.

The City Commission closed out the Mill Street Urban Renewal Project, and voted against an urban renewal project for the southeast

25 Years Ago
Tire rationing will start on Jan. 5.

Mr. and Mrs. Roy Fisher and family joined her parents, Mr. and Mrs. Fred Kurtz in Petoskey for the Christmas holiday.

10 Years Ago
Phyllis Abbott married Louis Truesdell in Birmingham on Dec. 22.

Mr. and Mrs. William Kirpatrick and family, who had been house guests of her parents over the Christmas holiday, returned to their home in Evanston, Illinois last Sunday.

Since no nominating petitions were filed by Democrats or any Republicans other than the incumbents, they will remain in office for another two years.

quadrant of the Central Business District. Spurred on by the Chamber of Commerce, a Citizens' Central Business District Implementation Committee was formed to study means of improving the downtown. Plymouth's sidewalks were subjected to inspection and a program begun to replace and repair all defective walks in the city.

Richard Blodgett

With the creation of a new position of Housing Code Inspector, city housing code enforcement was undertaken on a systematic, area by area basis.

Because of a city ordinance restricting parking on city streets between 2:00 a.m. and 6:00 a.m., street cleaning and snow removing services are now performed on a more efficient basis.

The City of Plymouth and Plymouth Township entered into a reciprocal agreement for initial fire response by both departments to all school alarms in Plymouth and Plymouth Township.

The City Commission approved the selection of city owned land west of S. Harvey Street for a 60 unit Senior Citizens' Housing Project.

As a result of a favorable vote for liquor by the glass,

the city commission approved two liquor licenses.

Construction has started on a new 70' x 200' D.P.W. storage garage, which will enable the housing of all public works equipment under one roof.

Last but not least, the City Commission passed a resolution requesting membership and participation in the Southeast Michigan Council of Governments. This action will enable the City of Plymouth to work with other local governments in a six county area on problems of mutual concern.

What can we expect in 1967? The D.P.W. storage garage will be completed early in the year. City ordinances will be recodified and the zoning ordinance should be completed. We can also expect the city to adopt ordinances on taxi cabs and personnel.

We can look for S. Harvey Street to be widened and other central business district improvements to take place, such as beautification of the park, store front renovations, traffic circulation and better parking facilities.

In the spring of 1967, the city planning consultants will present plans for city-wide beautification.

We anticipate continual participation by citizens' groups on projects such as a Centennial Year program, the Central Business District Program and the Beautification program.

We can expect the Senior Citizens' home plans to be completed.

It is expected that the city will acquire additional park land and improve recreational facilities.

It is anticipated that there will be a major street improvement program adopted.

Further cooperation with the surrounding local units of government should also take place.

Systematic Planning Now Most Urgent Need of Area for 1967

By Harold E. Fischer,
Director, Plymouth Area Planning Commission

There is an old saying that the future belongs to those who plan for it and the importance of it is shown in the industrial development in the community during the year 1966.

This development has been most revealing and it is an indication of just what can be expected in the future—if we prepare for it.

We have plenty of room to expand but there must be systematic planning.

We must strive to keep a healthy balance of available land for industrial and commercial use. We must make readily available for this land the same sewer and water facilities that are now available on land zoned for housing.

When we allow the housing areas to develop and sit with industrial zoned land that can not be used immediately we create the costly imbalance that leads

The President Reports Schoolcraft Has A Great Year

By DR. ERIC BRADNER
Schoolcraft Community College President

This has been a great year for Schoolcraft College. It has seen the completion of its first full year of instruction when there were both freshmen and sophomores on the campus. It has seen a growth which exceeded all plans and has brought the efforts to secure full accreditation by the North Central Association. Eight specifics might be mentioned when Schoolcraft College is thought of during the year 1966.

1. Two new buildings were brought to completion. The large Technical Center, erected with the aid of federal funds and which provided for many new vocational and technical programs, was opened during the fall semester of 1966 as was the Waterman Campus Center, designed to accommodate the needs of faculty, staff, and students for years to come.

2. The second important action that took place on the campus during the year was the election of June 1966, when the Board of Trustees asked the people for an increase in the allowable millage from 1.1 mill to 1.77 mill. This election was successful, by a narrow margin.

As a result of this success, the Board of Trustees was able to complete the furnishing and equipping of both the Waterman Campus Center and the Technical Building and also to provide funds for the erection of two additional buildings. The funds also made it possible to add to the quality of instruction by providing higher salaries for faculty.

3. The main instructional building called the Forum was remodeled during the summer of 1966. The areas where electronics, manufacturing technology and drafting had been taught now provide additional music halls, art areas, and lecture halls.

At the same time the Board of Trustees added two biology laboratories. These changes enabled the College to greatly enlarge its offerings in the fields of the humanities, (art and music particularly) and to assume a place among the leading community colleges in the state.

4. During the spring of the year it became apparent that a large freshmen class would seek admission to the College. Each one of the resident applicants was admitted to the Col-

lege but those who were living outside the district were sorted out and only the better students were accepted. When the class actually came in early September, the total number of students approached 3,200. Of this number approximately 2,300 were full-time freshmen and sophomores.

5. With the added freshmen came an added number of faculty and staff. At the close of 1966 there were 91-1/2 full-time fully accredited faculty members on the staff. An additional 50 or more members serve the College as part-time instructors, mostly in the evening.

6. The College takes pride in the new programs it is offering. Under the guidance of Herman Breithaupt a program in professional culinary arts has been developed. This program is designed primarily to teach young men to become full-fledged chefs and to manage tea rooms from beginning to end. Another program of great worth

Dr. Eric Bradner

is found in our automotive shops of the College.

Those who have seen the new laboratory say that it is one of the best equipped in northwestern Wayne County. The graduates of the programs offered in this laboratory will be trained as mid-service management technicians in the field of automotive technology. Many other programs such as metallurgy, data processing, and architectural drafting, while not new, have been enlarged and are now offered in the new Technical Building.

7. It was inevitable that as new programs proved their success additional students would appear seeking admission to these programs. This means that new buildings must be built.

During the year the Board of Trustees has been considering the building of a Classroom Building and as the year ended, final working drawings for a building which would include 32 classrooms, faculty offices, and a little theater were approved for federal inspection.

This building will be built with the aid of a federal as well as a state grant and construction should begin early in the spring. A second building, for the instruction of physical education has been designed and the working drawings are being prepared.

8. Perhaps one of the most outstanding events of the year in the long run will prove to be the Schoolcraft College Foundation organized during the fall of the year by a group of public spirited citizens. It is the purpose of this Foundation to gather funds for the use of the College, funds both for student assistance and for capital expenditures. This Foundation expects to provide sufficient funds which, when matched with federal and state monies will enable a large auditorium music art and drama complex to be built on the College campus for the benefit of the entire northwestern portion of Wayne County. The College looks to this Foundation, as a means of realizing the highest aspirations of the district.

This has been a great year for Schoolcraft Community College. Its success has been based upon the terrific work done by its Board of Trustees, Administration, Faculty, and Students. This is only the end of the beginning. The true end is nowhere in sight.

Firemen Are Given Well Deserved Tribute

One of the most thankless jobs is that of a volunteer fireman.

Oftimes he risks life and limb in the course of fighting a fire or attempting to rescue someone caught in a burning building and gets nothing but criticism—even though he is working out of the goodness of his heart.

That is why it was so heartening to learn of the credit being given the fire fighters who handled the blaze last week at the Pilgrim Apartments where eight families were forced to vacate.

"Please give the firemen all the credit you can," Mrs. Elmer Woodward, manager of the apartment, remarked. "They did a great job in preventing the fire from spread-

ing and for the protection given to the tenants' property."

The same sentiment was expressed by those families who were struck with the misfortune during the holiday period. One after the other voiced their tribute to the firemen.

These expressions are so different than the usual remarks following a fire. More often than not you will hear complaints about what is called unnecessary damage done by water—or the length of time needed to get a blaze under control—or the damage done with pick axes to get at the blaze.

So, it really was refreshing at this holiday season to hear of the tributes being paid to the firemen. They deserve it.

Jackie Wins Battle But May Lose War

For the past few weeks the public prints have been filled with the news from the battle front where Mrs. Jacqueline Kennedy, wife of the late president, has been fighting the editors of Look magazine and the firm that has the publishing rights to the forthcoming book, "The Death of a President."

In her court struggle she claims that, despite the fact that she granted 10 hours of taped interviews to William Manchester, her self-appointed writer, many of the passages are too personal and that the writer took advantage of her highly emotional state when the interviews were granted.

Now, after pressing her case, both in the court room, behind closed doors in Madison Avenue offices and in the public prints, she has convinced the editors of Look to delete much of the controversial material.

She has won the battle—but chances are that she has lost the war.

No sooner had news of her "victory" become known than the public prints and her so-called "friends" began to level all sorts of criticism at her.

Ever since that eventful day in November of 1963 she has been admired in all parts of the globe. During the mourning period for her late husband she was looked upon as a person of high courage by the outstanding manner in which she conducted herself. Around the globe

she has been accepted, more or less, as a "Queen."

But now—since she has attempted to censor history—the tone of the writing has changed. And it is not to her benefit. One writer on a national syndicate pointed out the other day that Jackie was the heir to her husband's \$10,000,000 estate... that she receives a pension of \$837 per month as a president's widow... that she has franking privileges for the remainder of her life. She also pointed out that the government grants Jackie \$50,000 per year to maintain an office in New York and also maintains a corps of 10 secret service men to protect her and the children.

"What about the other widows?" the writer asks. "The widows of the young men who are being killed daily in Vietnam. They are given no healthy pensions, franking privileges or office expenses. They get very little—compared to Mrs. Kennedy."

Another writer has placed in the public prints the accusation that Jackie always was a "poor, little rich girl" who was "spoiled" since childhood. This writer inferred that she was the type that always wanted their own way or they wouldn't play."

This is just the start. The heavy coat of armor that has protected her in the public prints, has now been pierced.

She may find that she has won a battle—but has lost a war.

Kallman Brightens New Play

by Margaret Murawski

The latest British import to hit Detroit is "Half A Sixpence", a musical at the Fisher Theater until Jan. 23.

While it doesn't compare with "Oliver", it isn't the worst play ever sent from swinging England.

A slow start in the first act belabors the point of the Scroogish shop owner.

"Money to Burn", a musical number in which Dick Kallman knocks himself out, gets the act moving.

Kallman plays the lead, a shop clerk who goes from rags to riches to rags to riches etc. He is probably the best thing about the show.

He is onstage almost every minute. The part is perfect for creating a star. And Kallman is just the fellow who can live up to it. Or kill himself trying.

The big musical numbers, which he leads, are the most sit-up-and-take-notice parts of the play. Everybody that is in these numbers seems to be having lots of fun. And their enthusiasm is contagious.

The dancing and the action is every bit as important as the singing, which is perhaps part of the reason that there hasn't been a hit song from this play.

All of the cast are competent. Anne Wakefield, the female lead has an especially pretty voice. But nobody can match Kallman.

The story often bogs down, but there are moments of quiet humor. Young men troop off to their Fabian Socialist meetings - youth of every generation must protest, it seems. But now the thought of someone being a Fabian Socialist evokes nostalgia humor, rather than burning social criticism.

William Le Massena, another didn't-we-have-fun-in-the-good-old-days character, plays a melodramatic actor. I wouldn't have objected to a little less of that.

The settings show imagination. As the play takes place around the turn of the century, an art nouveau border frames the stage.

Appropriately moth eaten looking dummies grace the clothing shop. And Queen Victoria (hers must be the face on a sixpence) hovers over all.

If your hair isn't becoming to you . . . you should be coming to us.

A HOLIDAY SEASON PLEDGE:

Make it None for the Road!

Be sure of a Happy New Year

AUTOMOBILE CLUB OF MICHIGAN

Mrs. Richard Schryer

Miss Wall Weds Richard Schryer

Martha Elizabeth Wall became the bride of Richard Douglas Schryer in a Christmas wedding at the First Presbyterian Church of Plymouth. They exchanged vows at an evening ceremony on Dec. 23.

The bride is the daughter of Mr. and Mrs. Carl Wall of Beek Rd., and the bridegroom is the son of the Howard Schryers of Union St.

The former Miss Wall was escorted by her father to an altar banked with white poinsettias and red roses. She wore a classically styled gown of crystal white satin combined with re-embroidered alencon lace in a floral motif. The high set lace bodice was designed with petal scalloped decolletage.

A chignon circlet surrounded by alencon lace roses traced with seed pearls held her bouffant veil. She carried a bouquet of butterfly orchids, stephanotis, and ivy.

The bridesmaids presented a Christmas background in their formal length dresses of ruby velvet fashioned with bateau necklines and mid-length flared sleeves. Their headpieces were Dior bows with halo veils.

The matron of honor was the bride's sister, Mrs. Andrew Hasley of Milwaukee; the maid

of honor was another sister, Katie.

The two bridesmaids were the bridegroom's sister, Marilyn Schryer; and Mrs. William West of Kalmazoo, the former Nancy North of Plymouth.

The flower girl was Lynn Hasley, niece of the bride.

The attendants all carried bouquets of sweetheart roses, white bottom mums and holly. PFC David Schryer, the bridegroom's brother, served as best man. Ushers were the bride's brother, David; the bridegroom's brother, Howard; Dale Livingston and James Jensen.

For the ceremony the bride's mother chose a beige brocade dress fashioned with beaded bodice, and cloaked with matching coat. Mrs. Schryer wore green brocade with matching coat and accessories.

The reception was held at the Mayflower Meeting House.

The bridegroom is a senior at the University of Michigan, and is under contract with the Los Angeles Dodgers. His new wife is a senior at Eastern Michigan University and plans to teach.

After a honeymoon in Miami Beach they will make their home in Ann Arbor at the Northwood Apartments.

Speaking of

Women

Margaret Murawski-Women's Editor

Please remember the new deadline for the Women's Pages is Tuesday noon.

Mr. and Mrs. George P. Buers

Davis-Buers Vows Spoken

Kathleen Davis, daughter of the Frank Davises of Plymouth, was married to George Patton Buers at the Salem Federated Church on Nov. 25.

The bridegroom is the son of Mr. and Mrs. George Buers of Orange, Calif.

The church was decorated with white flowers accented with gold chrysanthemums for the evening ceremony.

The bride wore a floor length modified sheath decorated with re-embroidered alencon lace medallions and baby pearls. A detachable train was fastened at the waist.

Her shoulder length veil was attached to a crown of lace and crystal. The flowers she carried were white orchids and stephanotis.

Brocade material from Thailand was used in the bodices of the attendants' dresses. The bridegroom sent the material here when he was stationed in Vietnam.

The bodices were gold with tiny pastel colored flowers woven into the material. Each skirt was a different one of the flower shades.

The matron of honor was the bride's sister, Mrs. Dennis Gibson. Bridesmaids were Mrs. James Neigh, Mrs. James Davis, Becky Buers and Linda Davis, a junior bridesmaid.

The best man was John Malory. Ushers were James Neigh, and John and James Davis. Mark Davis was the junior groomsman.

Mrs. Davis chose a green and silver three-piece suit. Mrs. Buers wore a gold brocade suit.

After a reception in the church parlors, the new Mr. and Mrs. Buers left for their home in California.

The bride went to Plymouth High School and Grand Rapids School for Bible and Music. The bridegroom attended Mulnomah Bible School and is now at Mt. San Antonio College.

What's Your Resolution?

New Year's Day is a traditional time for making resolutions. This year's resolutions by different Plymouth women run the gamut from humor to serious plans.

Elizabeth Holmes, township treasurer - "I resolve not to make any resolutions. I know I probably won't change. If people put up with me last year, they can manage to put up with me this year."

Mrs. James Hothem - "I'm going to stop procrastinating. I plan to use my time wisely, instead of frittering it away."

Mrs. R. R. Barber - "I think it does you good to evaluate what you've done in the past year and change the things in your life which you want to change and can change."

Mrs. Thomas Lewis, president of Newcomers Club - "I

hope to keep Newcomers Club an important part of easing the transition for those who have just moved to Plymouth."

Mrs. Thomas Devereaux - "Good-by meat balls, farewell punch. I resolve to miss you not one bunch."

Mrs. Kenneth Hulsing, school board and Girl Scout council member - "I hope to do three things in 1967. Help to secure for the Plymouth Community schools, the best possible superintendent who will maintain and improve the quality of education we must have for our youngsters."

"Recruit able men and women that we need to provide a good Girl Scout program for all the girls in the Huron Valley Council."

"Make our new house a home."

New Year's Day, Roman's Partied, Southerners Ate

If you're tired after New Year's eve parties you have something in common with the early Romans.

The first of a new year has always been a time of celebration, according to Mrs. Samuel Werner of the Dunning-Hough library. The Roman calendar began the same time as ours, in January. Other cultures didn't agree with them. The Egyptian new year was almost at the opposite time of year, falling in mid-June.

New Year's Day is like many holidays in dating back to pagan times. The Christian Church took it over as a holy day in 487 A.D. In order to banish the pagan influence, it forbade all New Year's parties. Obviously, it wasn't successful in making the people follow this ban.

A custom of giving gifts to the ruler grew up in England about 1200. Queen Elizabeth I was able to build up quite a collection of bejeweled and embroidered gloves from this custom.

Another English custom was for husbands to give their wives money on the first of the year to buy all the pins needed during the coming year. This practice has died out, but the term "pin money" still refers to small amounts of spending money.

Traditions still surround the beginning of the year. Mrs. Werner recalls a Southern custom of eating black-eyed peas on New Year's Day. This is done to bring good luck throughout the coming year.

Conversely, southerners warn that you'd better have all your Christmas decorations down by New Year's Day, or the year will bring bad luck.

Another saying is that whatever you do New Year's Day, you will be doing throughout the coming year. So be sure to do whatever you like most on New Year's Day.

Sandwich Loaf Makes Good Party Meal

Mrs. Halevan uses up her mixing bowls making the filling for the sandwich loaf.

Mrs. Alfred Halevan has a recipe for a sandwich loaf that is good for bridge luncheons or as a midnight snack at a party.

Mrs. Halevan grew up around Detroit, and has lived in her home on Robinwood for the last four years. She has four children ranging in age from 12 down to 2 years.

Her hobby is oil painting, and several landscapes and still lifes decorate her house.

PARTY LOAF
1 loaf unsifted white bread
1/4 pound softened butter
9 ounce package cream cheese
Small jar stuffed olives

FILLINGS
Mix together

1-1/2 cups minced ham (canned or leftover)
1 tablespoon finely chopped pimiento

1 teaspoon minced onion
1/4 cup chopped celery
Add mayonnaise to moisten

Mix together
1-1/2 cups finely chopped chicken
1/4 cup minced celery

1/4 cup finely chopped walnuts
Add mayonnaise to moisten

Mix together
1/2 cup chopped sweet pickles
1/2 cup minced parsley
1/4 cup finely chopped celery
Add mayonnaise to moisten

Slice the bread lengthwise into five slices. Remove the crusts. Spread the slices with butter. Spread the bottom slice with the ham filling; the next slice with chicken filling; and the following slice with the pickle filling.

Mix the leftover filling together and spread on the next slice and top that with the last piece of bread.

To soften the cream cheese for easy spreading add a little milk to it. Stack the slices of bread on top of each other and frost the top and sides of the loaf with the cheese.

Refrigerate three to four hours.

Decorate the top and sides with sliced olives before serving.

Miss Lent

The Wendell Lents of Hart-sough St. announce the engagement of their daughter, Julie, to Dale G. Hall, son of the Gordon Halls of Auburn, New York.

The bride-to-be is a junior at Michigan State University and is affiliated with Alpha Xi Delta sorority.

Her fiancé is a senior at the same school. They plan to be married in August.

Spice CABINET

LONDON BROIL (Serves 4)

- 3/4 cup safflower or corn oil
- 3 tablespoons vinegar
- 2 tablespoons Worcestershire sauce
- 1/4 cup steak catsup
- 1/2 teaspoon salt
- 1 teaspoon paprika
- 1/4 cup grated onion
- 2 1/2 pound flank steak*

To make marinade, combine all ingredients except flank steak. Beat with a wire whisk or shake well to blend flavors. Trim excess fat from meat. Pour marinade over meat and refrigerate for several hours or overnight. Remove meat from marinade and broil to desired degree of doneness. (About 7 minutes for rare.) *Other cuts of beef are now called "London Broil." They are so marked in meat case and can be used in this recipe instead of flank steak.

Mrs. Thomas Devereaux was Rumpelstiltskin and Mrs. Wendell Smith was director for the AAUW play.

Queen Mary Ann Robertson, right, weighs in with Mrs. Patricia Stoddard, official weight watcher of the Pareweighters, Plymouth branch of TOPS (Take Off Pounds Sensibly).

AAUW members plan their annual book sale.

The Buzzard house on Main St. was in the house series.

Mrs. Arnold Johanson, kneeling left helps women of the House of Correction transplant irises.

Mrs. Charles Miller and Mrs. Wilson Augustine, chairmen of the Antique Mart pose with Lloyd Fillmore during the Fall Festival.

Mrs. Robert Isbister was one of the many brides of 1966.

Here Is One Last Look At The Year That Is No More — 1966

1966 was a full year according to the women's pages of the Plymouth Mail. The first engagement recorded that year was Hollis Haynes', daughter of the Chester Haynes. Hollis was married in May to Paul Oselka . . . The John Jacobs spent the first part of last January on ski weekend. Newcomers Club held a tea for their past presidents January 6. Club founder Mrs. Byron Champion was there along with six other past presidents . . . Margreta Jensen married James Dart that month. Mary Ann Robertson was TOPS Club queen after losing 55 pounds . . . The Jay-C-Ettes named Mrs. Russell Koepke Woman of the Year.

Marilynne Moss's engagement to Charles Hickman was announced in February . . . So was Diana Troutman's engagement to Marshall Acuff. . . Both were summer brides. The Len Viskochil family was pictured in "Who's New in Plymouth" . . . Emily Murphy showed guests at the Women's Club Fashion show how to pack a suitcase on Feb. 28 at the Elks Club. The Women's Club past presidents tea was held early in March. Thirteen past presidents dating back to Mrs. Charles Humphries, president from 1923 to 1925, attended. The John Murdocks celebrated their golden wedding anniversary on March 13.

Women of the Methodist Church sponsored a showing of fashions created at home, on March 30. Vance Packard, March speaker at the Northville Town Hall, was at the luncheon afterwards at the Mayflower Meeting House . . . The annual AAUW book sale ended up the month. April started off with a party given by Pamela Decker and Jill Allison for 150 of their fellow high school students . . . Spring vacation is a good time to get away, so Dr. and Mrs. Robert Rosbolt spent two weeks in Mexico. Scott Eddy was born April 8. His parents are Mr. and Mrs.

Gordon Eddy . . . Chris Foster was elected the new president of the Vivians. In keeping with the spring season members of the Garden Club went out to DeHoCo to help teach the women inmates gardening skills. Barbara Bender, daughter of the Philip Benders, became engaged to Hugh Carless in May . . . Maytime means new officer time; Mrs. John Haas was installed as president of AAUW. Flowers were in bloom when Mrs. Carl Caplin, president of the Soroptimists, presented the Sheltered Workshop with a check for \$500 in behalf of the club.

The interesting house series started in May with the Rockwell Smith house built in 1871. Mr. and Mrs. Gerald Fischer were honored at a party celebrating their 25th wedding anniversary in June . . . Mary Arnold won the Plymouth Panhellenic award for scholarship and leadership in the senior class of the high school. Mary is the daughter of Mr. and Mrs. Joe Arnold. Another high school student, Mary Vallier, left in June to spend the summer with the family of her pen pal, Gudden Hemme . . . A DAR picnic was held at the home of Mrs. Harry Geitgey. Summer weddings were those of Mary Hulsing to Delmer Fehrs, Jeri Gulbransen to John Cusma, and Robert Isbister to Susan Slack of Grand Rapids. Thomas Oldford was born July 7. His parents are the Howard Oldfords . . . A trip to the Meadowbrook music festival was organized by Mr. and Mrs. Ray Hulce. 25 couples went by bus to hear Van Cliburn . . . The Kenneth Van Antwerps announced the engagements of their daughters Margo, to Clyde Woodruff and Janet to Thomas Culligan. Summer meant no vacation to Mrs. Frank West who was nam-

ed national chairman of the Alpha Xi Delta fund raising campaign . . . Women's clubs in town started working on plans for the Fall Festival. Gallimore school held a day camp for low achievers . . . The Thomas Lewises were surprised by friends at a housewarming. Mesdames Edward Sawusch and Harry Ford had showers for a September bride, Nancy Doherty, daughter of Mr. and Mrs. Neal Fenkell . . . September meant the start of school and new habits with short skirts for the Sisters who teach at the Catholic school . . . Mrs. John McIlharge, volunteer coordinator, helped place people who signed up to work at the Plymouth State Home . . . Mrs. Edward Arthey was in charge of the knit fashion show

sponsored by the Soroptimists . . . Mrs. Robert Griffin was in town to campaign during October. The local Republican Women's Club gave a tea for her . . . Workers on the Community fund drive turned out for the victory dinner in Nov. at the Meeting House . . . Mrs. Edwin Schrader gave tips on Thanksgiving table settings. A musical fashion show was presented by the Rosary Society of the Catholic Church, with Mrs. Robert McVoy chairman. December saw the Symphony Ball, under the chairmanship of Mrs. Robert Utter . . . And a Garden Club Walk, starting with a lunch at Mrs. A. E. Van Ornum's house . . . Of course the biggest day of all was the 25th.

CLEANING TIP
Don't vacuum up Christmas tree needles. They can clog up the machine and possibly burn out the motor. They should be swept up with a broom, before the floor is vacuumed.

Strictly social

Mr. and Mrs. William Bourneas have been doing some holiday entertaining in their new home on West Ann Arbor Trail. On Dec. 17 they had a cocktail party for 50 business friends from Flint, Saginaw, Lansing and the surrounding area. Dec. 29 they had a pre-

New Year's party for 26 of their Plymouth friends. Jim and Jill Stander, daughter and son-in-law of the William Clarkes, came from their home in Cincinnati to spend Christmas weekend with the Clarkes.

A Few Friends Grew To Be A Symphony

It seems impossible to imagine Plymouth without its symphony. Yet it wasn't too long ago when there wasn't one. Nor did the symphony spring into being as the full fledged orchestra it is now. The growth of the group has taken 20 years and makes a story in itself. A few friends began getting together in each other's houses to play their instruments. Fred Beitner, one of the early members, recalls that they decided they needed a leader, and prevailed on Paul Wagner to conduct the orchestra. Wagner was the high school band director. Under him, the orchestra moved out of people's houses and into an old carriage house. This building was on some property the school had purchased. "About half the present symphony could just barely squeeze into the room where we played," said Beitner. Their first public concert was held in the high school auditorium. "Just before the concert we discovered we hadn't enough funds to pay all the bills," said Beitner. "Wagner had so much confidence in us that he borrowed the money to put on the concert. "Afterwards many people told us they came to the concert out of loyalty, and were amazed at the quality of the performance. "I have to admit that the quality wasn't all due to us amateurs. We had hired several professionals to fill in for the concert. Despite early money worries, the orchestra prospered. Much credit goes to workers like Mrs.

Cassady, Miss Hanna Strasen, Mrs. Elmer Nelson and Mrs. Charles Brake. Another crisis arose when Wagner left Plymouth. However he knew someone from the faculty of the University of Michigan who might be willing to replace him. That man's name was Wayne Dunlap. Dunlap came on the scene in 1951 and has been here ever since. The symphony has grown from 12 members to 90. Instruments worth \$100,000 are used in the orchestra. It has received a bequest of a Steinway piano from a member who died. Now the problem facing the symphony is finding another place to play. The high school gym, where concerts are held, is inadequate. Dunlap is on the committee for a local auditorium. This has often been talked about for use by many groups. "I hope we won't try to make it a combination of many things," cautions Dunlap, "or we won't end up with any one thing."

Engagement

Miss McDonald

Mr. and Mrs. David R. McDonald of Grosse Pointe Farms announce the engagement of their daughter, Diane Carole, to Carl James Bennett, son of the Richard V. Bennetts of Plymouth. Miss McDonald attended Central Michigan University and is presently studying at Wayne State University. She is affiliated with Alpha Gamma Delta sorority. Her fiancé also attended Central Michigan, and is now with the United States Air Force at Vandenberg Air Force Base in California. The wedding will be March 31, 1967.

What's happening

- Jan. 5 Newcomer's Club meet at the Thunderbird Inn. Hospitality at 12, lunch at 12:30. A to M reservations call Mrs. Herbert Salyer 453-9139; N to Z call Mrs. Keith Rattette, 453-0334 by Jan. 3. Baby sitting is available.
- Jan. 6 Women's Club meets at the Masonic Temple at 1 p.m.
- Jan. 9 Plymouth City Panhellenic meets at the home of Mrs. Robert Emerson on Palmer St. at 12:30 p.m. Bring a sandwich. Call Mrs. Robert Probeck, 453-4572 or Mrs. Gregory Dean, 453-2864 for reservations.

No more gambling

Not long ago, a serious mastoid infection involved about \$100 for the actual operation—\$200 for two weeks' hospitalization—\$50 for doctor bills—plus a gamble with death. Today, prompt treatment with one of the new antibiotics clears up most infections before they become serious.

ANN ARBOR DIAPER SERVICE

Township To Add Mains

★ Continued from page 1

Detroit main would serve the northeast part of the township and help the township to obtain all of its water directly from the Detroit lines, rather than from Livonia. Cost would be \$120,000.

2) Northville Road from Hamill to Clemons, 12-in. line, \$16,000.

3) Ann Arbor Road from Lilley to Rocker, 12-in. feeder, \$28,000.

4) Joy Road from Lilley to Haggerty, 12-in., \$53,000.

5) Joy Road from Haggerty to Eckles, 12-in., \$53,000. This line would be able to service the planned Elementary School No. 8 and also a subdivision north of the road.

6) Five-Mile Road from Sheldon to Beck and Beck Road from Five-Mile to North Territorial. This L-shaped, 16-in. feeder extension would be the largest single segment of the proposal, costing \$300,000. The line would be able to service what may become prime industrial property between the C & O railroad and the projected extension of M-14.

7) Beck Road from North Territorial to Powell, 16-in., \$100,000. This feeder line would make it possible for the

Township to serve Plymouth Hills.

8) Plymouth Hills, 8-in. lines \$54,000. Trustee Louis Norman said he didn't think the Township would get enough customers from Plymouth Hills. "They've got good wells," he said, "and all they want water for would be for fire and insurance purposes."

Trustee Ralph Garber said that the subdivision wanted sewer more than it wanted water. The Board asked Treasurer Elizabeth Holmes to write the residents in the subdivision and ask them if they want water.

9) Joy Road from Sheldon to Ivanhoe between Beck and McClumpha, 12-in., \$21,000.

10) Five-Mile Road from Bradner to Lakewood, 12-in., \$21,000.

The sewer program would involve extensions along Byron Creek, in Plymouth Hills, along Tyler Creek and at Elementary School No. 8.

Seek 5 Lanes For Arbor-Ypsi

LANSING — The State Highway Commission has announced publication of an Engineering Report recommending the widening to five-lanes of M-17 (Washtenaw Ave.) between Ann Arbor and Ypsilanti.

The Engineering Report deals extensively with possibilities for ultimate development of Ypsilanti-Ann Arbor area highway access and gives priority to expansion of M-17 to five lanes from Cross St. in Ypsilanti to US-23 at Ann Arbor. The 2.9-mile project would cost an estimated \$1.2 million.

Legal notice

NOTICE OF HEARING

PLYMOUTH TOWNSHIP DRAIN NO. 1

NOTICE IS HEREBY GIVEN that, pursuant to the provisions of Chapter 20 of Act 46, Public Acts of Michigan, 1956, as amended, a petition was filed with the Drain Commissioner of the County of Wayne, Michigan, by the Township of Plymouth, Michigan, requesting said Drain Commissioner to locate, establish and construct a County drain, the location and route thereof to be as follows:

Description of Proposed Relocation and Enclosing of the Koss Drain

Beginning at a point on the south side of Joy Road, located approximately 60 feet south and 1720 feet east of the south 1/4 corner of Section 35, Plymouth Township, Wayne County, Michigan, and proceeding thence northerly across Joy Road and along the westerly side of the proposed Industrial Park Drive with a 72" diameter pipe, approximately 735 feet; thence northerly, along the westerly side of Industrial Park Drive, with a 72" diameter pipe, approximately 700 feet of 42" diameter pipe, approximately 700 feet of 42" diameter pipe, thence northerly along the easterly side of said Industrial Park Drive, with a 36" diameter pipe, approximately 910 feet to the southerly side of Ann Arbor Road (M-14); thence easterly along the southerly side of Ann Arbor Road with a 36" diameter pipe 130 feet; thence northerly across Ann Arbor Road (M-14) and along private right-of-way, with a 36" diameter pipe, approximately 533 feet; thence westerly along private right-of-way, with a 24" diameter pipe, approximately 815 feet to the easterly side of Lilley Road and the upper termination of the Koss Drain, which is located approximately 505 feet northerly and 65 feet easterly of the center of Section 35, Plymouth Township, together with manholes and other appurtenances.

Description of Proposed Branch No. 1 of the Koss Drain

Beginning at Manhole No. 3 at the upper termination of the 72" diameter pipe of the Koss Drain, which point is located approximately 150 feet north and approximately 1640 feet east of the south 1/4 corner of Section 35, Plymouth Township, Wayne County, Michigan; thence northerly across private right-of-way and across the C & O Railroad, with a 66" diameter pipe 960 feet; thence easterly across private right-of-way, with a 66" diameter pipe, approximately 100 feet; thence northerly across private right-of-way and across Ann Arbor Road (M-14) to the north side of Ann Arbor Road with a 66" diameter pipe, approximately 1550 feet; thence westerly along the north side of Ann Arbor Road (M-14), with a 42" diameter pipe 364 feet; thence continuing westerly along the north side of said Ann Arbor Road, with a 36" diameter pipe 510 feet to the upper termination of Branch 1 of the Koss Drain, which point is located approximately 75 feet north and 895 feet west of the east 1/4 corner of said Section 35, Plymouth Township, Wayne County, Michigan, together with manholes and other appurtenances.

NOTICE IS FURTHER GIVEN that the Drainage Board for said drain has considered the said petition and made a tentative determination that the said petition is sufficient and that the said project is practicable; has designated the name "Plymouth Township Drain No. 1" as the name of said drainage project, has given the name "Plymouth Township Drain No. 1 Drainage District" to the drainage district thereof, and has made a tentative determination that the following public corporations should be assessed for the cost of said project, to wit:

State of Michigan, on account of drainage to State highways; County of Wayne, on account of drainage to County highways; Township of Plymouth, Wayne County, Michigan, at-large, for benefits to the public health.

NOTICE IS FURTHER GIVEN that the Drainage Board will meet on the 9th day of February, 1967, at 11:00 o'clock a.m. Eastern Standard Time, in Plymouth Township Hall, 42350 Ann Arbor Road, Plymouth, Michigan, for the purpose of hearing any objections to said project to the petition therefor and to the matter of assessing the cost to the public corporations above named. AT SAID HEARING ANY PUBLIC CORPORATION TO BE ASSESSED, OR ANY TAXPAYER THEREOF, WILL BE ENTITLED TO BE HEARD.

This Notice is given by order of said Drainage Board.

HENRY V. HERRICK
Chairman of the Plymouth Township Drain No. 1 Drainage Board

JUNIOR ACHIEVEMENT charter is presented to members of the Mega-Key Co., sponsored by Evans Products Co., in ceremonies at the area offices on E. Ann Arbor Trail. Sam Hudson, director of advertising and public relations for Evans, is shown presenting the charter to Vice President Elizabeth Macer. Others standing are: (from left) JA Center Co-ordinator Mason McKeel, Hudson, Miss Macer and George Smith, production advisor from Evans Products. Seated are: (from left) Nancy Pawlowski, Debbie Celski, Debbie Burgin, Shelia Stearns, Gerald Richardson, Tom Schick, Allan Paul and Marc Rosenthal.

Isbister Praises Growth Collective Bargaining Forecast

★ Continued from page 1

pointed by the Administration are now at work on planning a second high school. These Committees are diligently preparing along with the Architect recommendations for the Board on not only the kind of educational program for the new school but also on the space requirements needed to house the program. When the Committee recommendations are completed and approved, or modified, by the Board the Citizens as a whole will have an opportunity to voice their approval or disapproval at an election called for the purpose of voting funds to build and equip the new senior high school.

Bids for Elementary School No. 8 were available to the Board of Education through short-term bonding. Funds, when the \$5,500,000 bond issue approved by the electorate is sold, will also be available to finance Elementary School No. 9, the Middle School, additions to existing buildings and to purchase a number of sites, some of which are already under option. Applications to the Department of Housing and Urban Development are being prepared which, if approved, will provide matching funds from the Federal Government to purchase for Community use land adjacent to school sites for park, recreational, scenic and historic purposes.

Curriculum Committees

are studying new materials and different ways of teaching. Flexible scheduling of students, team teaching, ungraded primary schools and a humanities course are some of the innovations being tried during the 1966-67 school year. Other ideas and concepts will be tested under the National Elementary and Secondary School Act of 1965 which provides for the culturally deprived and educationally disadvantaged children. The Title I program through this Act provided during the 1965-66 school year \$47,607.04 in funds for reading specialists, a diagnostic team, summer camp program and in-service teacher education; Title II under the Act provided \$11,964.17 for library materials.

Challenges and opportunities might serve to characterize the movements in educational planning during 1967. Decisions will be made which will have far-reaching effects on the future of this Community. As one thinks of the future in the Plymouth area one might be guided by a prayer of St. Francis of Assisi when he said, "O God, give me serenity to accept what cannot be changed, courage to change what can be changed, and Thy wisdom to know one from the other."

Fire Puts Families Into Snow

★ Continued from page 1

under the BOCA Code, which the city first adopted on May 18, 1959. Permit for the Plymouth Apartments was issued more than a year earlier — on Nov. 25, 1957.

Fire walls will be installed in the rebuilt attic, and both the city building department and the Woodards want to see such walls put in the attic of the other building.

An outside incinerator is also planned, Woodard said. Owner of the apartments is Clyde Fulton of Birmingham. The fire was discovered by Walter Wilczewski, who lived in Apartment 9, and who heard a crackling in the kitchen. Shortly after, Mrs. Carol Simmerman, who lived in Apartment 12, was alarmed by an intense heat at the incinerator, where she had just come.

Others in the apartments became aware of the situation in minutes, and Mrs. Woodard called the fire department. Although she had seen no smoke before making the call, the area was filled with smoke a few minutes later.

The families, which were without homes on Christmas Eve, are now living with friends, relatives or in motels. The Wilczewskis are living with a son in the Northville area and the Simmermans with relatives in Livonia.

Mrs. Doris Yokum is living with a friend from the Presbyterian Church and Miss Rager with her brother, William Light, at 301 Park Avenue.

Mrs. Annie Proctor and Miss Agnes McKay are living with Mr. and Mrs. Charles Chase in Northville. The DonDers have been living in motels in the area.

Mr. and Mrs. Wilson Hemphill were in North Carolina at the time of the fire and had their belongings removed by friends.

★ Continued from page 1

local governmental units. They felt that public leadership must resolve mutual problems together. Specific areas such as police, recreation, incinerator, planning were mentioned.

Our Chamber then resolved to promote and encourage this needed cooperation. Two joint governmental meetings were held which included Plymouth Township, City of Plymouth, Canton Township, City of Northville and Northville Township. Since those meetings, they selected two areas of needed cooperation. A "joint police authority" might be a possibility. Also, the future need for an incinerator to service the area.

Two study groups representing these units are meeting on a monthly basis. Cooperation is becoming a reality.

The Central Business District is in need of some modern improvements. The Chamber is working with the City on a "cooperative" program with 33 citizens participating.

These two programs have given the community and the Chamber a purpose, a worthy goal which will help to enhance and brighten our community spirit.

We have planned a second Leadership Conference for the spring at Schoolcraft College at which time the citizen will have an opportunity to be heard and leaders to react.

Salmon Store Oil

Before salmon leave salt water, they store up oils and fats for the journey to the spawning grounds, during which they do not eat.

Mayor Houk Says Solution Is Merger

★ Continued from page 1

anniversary of incorporation as a little village and today we are faced with bigger problems, bigger issues. How we, in our communities, rise to meet these things, how we best serve, will tell what will happen to our community in the future.

I am very much concerned that in this 100th year we sit down and take a total look at what we want and how to reach it. I have been in this community for 32 years and I have seen the people as one people. But I have seen government factions fighting between themselves about problems which should be mutually solved.

I feel today that we are work-

ing better together than we have anytime in the past. But, we haven't gone far enough. We have avoided reaching for the real answers of what should be done in the area, and I would call all citizens to take a good look at this.

At one time, there was a great difference in taxes. With the recent increase of equalization in the township area, there is very little difference between the tax structures of the two communities, and there are no great barriers that are insurmountable.

I think it is time that we, as citizens of our community, band together and look at what is good for the total community and

put our selfish little prides aside and become the community that will be recognized in western Wayne County for great accomplishments, and to be a pattern to all areas and who will come and look to us to see how these things have been mutually solved for the benefit of all the people.

I am hoping that during 1967, we can make this a real year of achievement in our community. This would be something that would go down in history as a great year of accomplishment. Who is going to take this step forward and who will be the leader to bring about the thing that is best for all in the community is hard to say. I think we should take a deep look

each one at himself, and see what can be done to achieve unity for the benefit of all people.

Committee Set to Report

The Steering Committee that was named to consider ideas for a permanent moment in connection with the Plymouth Centennial next year is about ready to finalize its plans.

Joe Tarantino, chairman of the group, has called the meeting on January 5 to smooth out the rough edges and prepare to make the official presentation to the City Commission on January 10.

Board Minutes

REGULAR MEETING PLYMOUTH TOWNSHIP BOARD OF TRUSTEES DECEMBER 13, 1966

The meeting was called to order by the Supervisor at 8:00 p.m. All members were present.

For the purpose of clarification, Mrs. Richardson asked that the language under "I" in Item No. III - New Business in the minutes of November 8, 1966, be changed as follows: That the Board approve the Planning Commission's denial of Application No. 57 covering Burton, Passage, Scott and Phipps request to rezone from R-1 to R-2A and C-1 certain property on the northwest corner of Ann Arbor Trail and Haggerty Roads. Thereupon Mr. Overholt moved that the minutes of November 8, 1966 (with the correction as given by Mrs. Richardson) be approved. Seconded by D. Lauterbach and carried unanimously.

Mr. McEwen then asked that the Board consider the minutes of its special meeting of November 22, 1966. Mr. Garber called the Board's attention to "2" - Proposed relocation and enclosing of the Koss Drain, stating that the word "court" should be amended to "Engineering", and the sentence would then read: "Mr. McEwen had done some checking on this and was told that he would be liable for the accounting, secretarial fees and engineering costs if we withdrew." Following discussion, Mr. Garber moved that the Board accept the minutes with this correction. Supported by Mr. Lauterbach and carried unanimously.

Mr. McEwen read a communication from the Plymouth Area Planning Commission dated Nov. 25, 1966, signed by Harold Fischer. Mrs. Holmes stated that the \$5,000.00 on deposit with the Commission and the \$5,000.00 due, if paid, implies that the Board is providing support for the Commission for at least two more years. Mr. Garber concurred in this. Mr. McEwen advised the Board that in its meeting of July 12, 1966, it had been determined that the Plymouth Area Planning would be supported for one additional year. Following this discussion, Mr. Garber moved that the Grand Total of \$92,981.43, as shown on the list of Bills, be paid. Supported by Mr. Norman and carried unanimously.

Michigan Townships Association
Re: 14th Annual Convention to be held on Wednesday, Thursday and Friday, January 11th, 12th and 13th, 1967 at the Jack Tar Hotel.

Following the reading of a communication announcing the 14th annual convention of the Michigan Townships Association from Hazel Bundy Cunliffe, Mr. Lauterbach moved that the Township participate in the annual meeting and those Board members wishing to attend be privileged to do so by action of the Board, the Township assuming the cost of mileage, at the rate of 10¢ per mile, registration, room and meals. Supported by Mr. Overholt and carried unanimously.

Disposition of Tabled and Adjourned Business
Increase in Tap Charges

In a communication to the Board, Mrs. Holmes advised that in accordance with the financial report from Walter Markin, the Township's average profit on water taps had dropped from \$51.08 to \$21.80, and that \$25.00 should be considered the minimum profit per tap. Mrs. Holmes recommended that Utility Ordinance No. 21, section 5 (5) be amended to show an increase of \$25.00 on 3/4 inch connections and \$50.00 on one inch connections. Mrs. Richardson moved that the Board accept the recommendation as stated in Mrs. Holmes' communication on the amending of the Utility Ordinance No. 21, effective 30 days after publication. Supported by Mrs. Holmes and carried unanimously.

Recommendations from Plymouth Township Planning Commission of action taken by their Board on Oct. 19, 1966; also the 30 days wait from the Coordinating Zoning Committee under the amending of the Township Zoning Map as follows:

(a) Amended zoning map No. 36 proposed to rezone a part of the Northeast 1/4 of Section 36, from R-1 to R-2-A (Garden Apartment). This is off Ann Arbor Trail, near Eckles and Ann Arbor Road.

Mr. Lauterbach moved that the Board approve the action of the Planning Commission in approving the rezoning of the northeast 1/4 of Section 36, from R-1 to R-2-A (Garden Apartment). Supported by Mr. Norman and carried unanimously.

(b) Amended Zoning Map No. 37 - Proposes to rezone that part of the east 1/2 of the southwest 1/4 Section 36, from R-1 to C-1 (neighborhood shopping). This is on the southeast corner of Ann Arbor Road and Haggerty.

Mrs. Holmes moved that the Board accept the Planning Commission's recommendation to approve the rezoning of part of the east 1/2 of the southwest 1/4 of Section 36, from R-1 to C-1 (neighborhood shopping). Supported by Mr. Overholt and carried unanimously.

Amendment to Ordinance No. 13 as drawn up by Attorney Cole.
Re: An Amendment to the Subdivision Ordinance, chiefly with respect to sidewalks.

Following the reading of this proposed ordinance by Mrs. Richardson, discussion was held on the present ordinance and the proposed ordinance. Mr. Cole advised the Board that he intended the proposed ordinance to substitute for the Township's present ordinance. Discussion continued on the responsibility of the sub-divider in providing sidewalks, how to finance them, size, etc., and Mr. Cole also discussed a number of problems in providing for a sidewalk ordinance.

Mr. McEwen appointed a committee of three, Herald Hamill, engineer, Ralph Cole, attorney, and M. McLellan, to study these problems and present their recommendations to the Board at its next meeting. There being no objection, it was so ordered. Report from Site Committee on Land Acquisition.

A communication from the committee consisting of Louis Norman, chairman, Ralph Garber, E. Holmes, was read by Mr. McEwen. The Site Committee advised that it would not go further pending receipt of a site plan showing facilities to be provided and necessary acreage, and asked authorization to hire Mr. Johnson, Planning Consultant, to prepare such plan, at a cost not to exceed \$500.00.

Mr. Garber spoke briefly on the necessity for obtaining land now when it is available for future recreational facilities.

Following discussion, Mrs. Richardson moved that the Board authorize the Site Committee to hire Mr. Johnson to provide a use plan, showing such facilities as requested in their communication, with the cost not to exceed \$500.00. Supported by G. Overholt and carried unanimously.

Joseph A. Parisi, Jr. (12-7-66)

Re: Opinion on "Committee of One Hundred."
Mrs. Richardson read a communication from Mr. Parisi covering membership and participation in the Southeast Michigan Council of Governments. He recommended adoption of the Resolution of Intent. Mr. McEwen stated that 37 (thirty-seven) units of government had joined to date.

Mr. Norman moved that the resolution submitted by the "Committee of One Hundred" to join said committee be approved by the Board. Supported by Mr. Garber and carried unanimously.

New Business
Department of State Highways

Re: Installation of a School Flasher on M-14 (Ann Arbor Road) at Haggerty Road. Estimated cost of installation to be \$1720.00.

Discussion followed by the Board on this communication from the State Highway Department as to whether or not the Township or School Board would pay for the flasher; the hours it would operate, merit of cross-overs, etc.

Mr. Garber moved that the Board refer this matter to the School Board for information as to whether the Township or School Board should install this flasher. Seconded by Mrs. Holmes and carried unanimously.

Elizabeth Holmes (11-17-66)
Re: The Treasurer being authorized to transfer monies as needed from the Sewer Receiving Fund to the Construction Fund to pay the A. Bird Construction Co. who was awarded the Tramp Hollow Sanitary Sewer Contract.

In response to a question, Mr. Hamill advised the Board that the contractor was approximately three-quarters finished. Thereupon, Mr. Garber moved that the Board authorize the transfer of funds for the purpose of paying the contractor (A. Bird Construction Co.) as needed from the Sewer Receiving Fund to the Construction Fund. Supported by Mrs. Richardson and carried unanimously.

Action taken by the Plymouth Township Planning Commission at their regular meeting on November 16, 1966.

A communication dated Nov. 22, 1966 from Russell A. Ash, Secretary, Plymouth Township Planning Commission, stating action of the Commission at its Nov. 16, 1966 meeting, was read by the Clerk. Mr. Lauterbach moved that the recommendations of the Planning Commission to the Board on action taken in its November 16, 1966 meeting be approved. They are as follows:

1. Resolved to apply the one year limitation specified in section 22.02 of the Zoning Ordinance to Stewart Oldford's application No. 58.

2. Conditionally approved the preliminary plat of Old Orchard Subdivision, a development of Hope Valley Land Company.

3. Recommended that the Building Inspector issue a Building Permit to Mr. Brightbill for a single family residence on the east side of Canton Center, between Joy and Ann Arbor Roads. Supported by Mr. Overholt and carried unanimously. Approval of Improvement Plans on Stoller Subdivision.

Mr. Hamill came before the Board and presented drawings showing plans of underground sewers for this subdivision. Following examination of the drawings by the Board, Mrs. Holmes moved that the Board approve the plans as submitted by the engineer and authorize him to obtain construction permits. Supported by Mr. Garber and carried unanimously. Following this, Mr. Garber advised Mr. Stoller that this motion did not indicate final approval of the plat for this subdivision, and any changes necessary, at that time, would be the responsibility of the subdivider.

At this time, the Board discussed "Instant Banks", that is, their design and construction, and if they should be considered temporary or permanent structures, and if the Building Ordinance covering said banks should be revised. Mrs. Richardson was asked to add this subject matter to the Dec. 21, 1966 agenda of the Planning Commission's meeting.

Approval of sanitary sewer plans on Ann Arbor Road (Haggerty to Terry Streets) Ann Arbor Trail (Riverside Drive Sub. No. 3 to Riverside Drive).

Mr. Hamill presented the above-mentioned plans to the Board for its examination. Mrs. Holmes moved that the Board approve the plans presented by the Township Engineer for the sanitary sewer in the area described above. Supported by D. Lauterbach and carried unanimously.

E. Holmes (12-5-66)

Re: Mallery Chrysler Personal Tax
A motion by E. Holmes, supported by D. Lauterbach, was made to rescind her motion on Mallery-Chrysler Personal Tax made at the Nov. 22, 1966 meeting. Carried unanimously.

Following discussion on a communication dated Dec. 5, 1966 from Mrs. Holmes, on the above matter, Mrs. Holmes moved that in the case of the error in the Mallery-Chrysler Personal Tax Statement, that the recommendation of the Supervisor be accepted and the tax payer pay on the valuation of \$11,030.00 and Mallery-Chrysler be sent a bill for this amount and the balance be paid from the Township's Excess of Roll. Supported by Mr. Norman and carried unanimously.

Leonard S. Herman (12-5-66)

Re: Request to tap-in Associated Spring Sewer by the Plymouth Park Apartments, Inc.

Mr. McEwen advised the Board that this request was the result of a meeting in which Mr. Hamill, Mrs. Holmes, Mrs. Richardson, Mr. Cole and the Supervisor attended. Mr. Cole advised that he had talked by telephone to Connecticut and that the Township would get the necessary easement, and that he planned to obtain the assignment prior to the Board's next meeting. He also advised that Barnes Gibson Raymond wanted a provision stating that if the sewer becomes inadequate because of the additional load, it is to be repaired or enlarged at no expense to them.

Mr. Garber moved that the Board instruct the attorney to proceed with any negotiations necessary for the purchase and when it is consummated, then the treasurer be authorized to draft a check in the amount of \$3,000.00 for payment of same. Supported by Mr. Norman and carried unanimously. Mr. Herman's communication was received and filed.

Amend Ordinance No. 21 as to service charge for larger meters.

Mr. Norman moved to accept the recommendation of E. Holmes to amend Ordinance 21 regarding the bi-monthly service charge for larger meters. Supported by D. Lauterbach and carried unanimously.

Ralph Cole (12-7-66)

Re: Ordinance concerning the operation of Billiard and Pool Rooms.

In accordance with request, Mr. Cole submitted a proposed ordinance requiring the licensing of public billiards and pool halls or rooms in the Township and fixing the hours of operation thereof and providing penalties for the violation hereof.

In response to questions, Mrs. Richardson advised the Board that no permit to operate a pool room had been issued to the Plymouth Bowl, and that the Sheriff's Dept. had received complaints of excessive noise and minors being in the pool room until 2:00 o'clock A.M.

The proposed ordinance was taken under advisement for one month and the Clerk was authorized to notify the owner of the Plymouth Bowl of the necessity of a license to operate a pool room.

Resolutions
Mrs. Richardson moved that the Board adopt the resolution as presented by Mrs. Holmes permitting Banks to collect water bills for the Township of Plymouth. Supported by L. Norman and carried unanimously.

Mrs. Holmes moved that the bill for quarterly audit for the Water and Sewer Department, submitted by Mr. Walter Markin, be paid. Supported by L. Norman and carried unanimously.

A motion was made by E. Holmes, supported by D. Lauterbach to adjourn the meeting at 12:16 a.m. Carried unanimously.

State Control Means Freedom

An officer of society checks health standards in the hospital where we are born. Another protects the family from fraudulent advertising when we die. There is no escape from government.

Before we accept the notion that George Orwell's "1984" and Big Brother have arrived to control our every move, however, it would be well to look at the other side of the coin, a prominent economist suggests.

Dr. Arthur R. Porter of Hanover College, a member of the National Academy of Arbitrators, says that both people who criticize and those who accept the inevitable growth of government in the 20th century overlook this fact: "There has been a rapid growth of freedom for individuals and business units in our society."

Writing in the Michigan Business Review (November), published by The University of Michigan's Graduate School of Business Administration, Dr. Porter points out that not many years ago industrial workers "enjoyed the benefits of a 60-to-72-hour work week. The only off day was Sunday."

The standard 40-hour work week of today, he adds, offers time for activities unheard of a generation ago: "The tremendous growth of amateur symphonic orchestras, the development of spectator and professional sports such as professional football and bowling, weekend camping and backyard barbecues are all indications of a freedom which was reserved at one time for the elite. Sailing and golf are no longer the sports of 'gentle-

AFTER CHRISTMAS SALE ULTRA FEMININE

by Helena Rubinstein

A woman faces so many things . . . why should her age be one of them?

We believe every woman has every right to look younger than she is. Use Ultra Feminine every night! Guaranteed to make you look younger in 30 days — or your money back!

Lamprey Problem Solved

LANSING — An exhilarating excitement coupled with the sweet smell of success hover like a heady perfume over the Great Lakes fisheries program these days.

It's a story that tops the biggest fish tales ever told—except this one is true. Conservation leaders across the continent who have taken part in, or contributed to, this story are still a bit astounded by what has happened on the Great Lakes scene in the last few years.

But the facts, as told by Conservation Department Fish Chief Wayne H. Tody in the November-December issue of MICHIGAN CONSERVATION, are these:

1) Chemical treatment of streams to kill the destructive sea lamprey in Lakes Superior and Michigan has advanced far enough so that specialists in the U.S. Fish and Wildlife Service working with the problems say they have it licked. Lake Huron stands next in line for the full treatment, with lamprey controls already underway there.

2) Restocking of lake trout in Lake Superior, and to some extent in Lake Michigan, has advanced far enough so that planted fish are taking hold. Spawning has taken place in Lake Superior, and the first young crop of native, non-planted fish are now growing in the lake. Similar results are expected to follow in Lake Michigan.

3) Some 850,000 coho, or silver salmon, planted last spring in one Lake Superior stream and two Lake Michigan streams, have made amazing progress. The young coho were raised in Michigan hatcheries and planted as four to six-inch fingerlings. Within three months, several of the fish measuring over 15 inches and weighing up to two pounds had been caught in nets in Lake Michigan.

By early September, anglers were catching them on hook and line in the Platte and Manistee rivers, the two Lake Michigan streams originally planted. In the third stocked stream, the Big Huron River on Lake Superior, a small salmon run started in late September, but it never materialized like the ones on the Platte and Manistee.

In a nutshell, the unfolding story of success and promise suggests that fishing for both trout and salmon will continue to improve steadily during at least the next 10 years.

The Michigan Department of Conservation will continue to plant lake trout in lakes Superior and Michigan. Meanwhile, it will, with available federal aid, continue to beef up the Great Lakes fish management program in all waters.

A major program is being planned to open up new stream spawning and fishing areas. Old dams will be removed, and fish transfers and ladders will become a part of the Michigan scene. Key land areas will be acquired for public access and stream habitat protection. Whenever possible, streams will be improved for greater fish production.

On the Great Lakes, additional marinas and harbors of refuge will be added by the Waterways Commission, now a division of the Conservation Department, to accommodate the fishing fleets.

A major rebuilding of state hatcheries is also being planned. Not only do salmon need to be reared but coaster brook trout and steelheads (lake-run rainbows) will be produced to step up the existing runs.

A few years in the future, the chinook offers a possibility of really superb big-game fishing.

These rapid changes now taking place in the Great Lakes are going to require long and careful consideration of how to best use the new fish resources.

Having collected a ripe female coho in November and fertilized the eggs, the Department hopes to score a grand slam by hatching Michigan's first "native" salmon!

6) Efforts to revitalize the Great Lakes fishery received another boost within the last few weeks when the State of Washington donated more than 1,000,000 chinook, or king salmon, eggs to Michigan. Fingering chinooks hatched from these eggs will be planted next spring in a Lake Michigan stream yet to be selected.

7) The tremendous nuisance problem of alewives glutting lakes Michigan and Huron stands to be greatly reduced if the coho and chinook salmon both become established to add to current stocks of lake trout and steelheads. The alewife, a small low-value fish, currently accounts for an estimated 90 percent of all fish, by weight, now in lakes Michigan and Huron. It is crowding out other desirable fish, such as the yellow perch and cisco. Happily, it is a natural food for both the coho and chinook.

In a nutshell, the unfolding story of success and promise suggests that fishing for both trout and salmon will continue to improve steadily during at least the next 10 years.

The Michigan Department of Conservation will continue to plant lake trout in lakes Superior and Michigan. Meanwhile, it will, with available federal aid, continue to beef up the Great Lakes fish management

program in all waters.

A major program is being planned to open up new stream spawning and fishing areas. Old dams will be removed, and fish transfers and ladders will become a part of the Michigan scene. Key land areas will be acquired for public access and stream habitat protection. Whenever possible, streams will be improved for greater fish production.

A major rebuilding of state hatcheries is also being planned. Not only do salmon need to be reared but coaster brook trout and steelheads (lake-run rainbows) will be produced to step up the existing runs.

ONE OF THE MANY Plymouth homes which had a festive look during the holiday season was this home on Maple Street. A battery of red flood lamps illuminated the front of the house.

THIS CRECHE appeared in the window of a home on McKinley Street. The home was also decorated on the outside with a Christmas tree made in lights on the outside of the house.

Here Is Why We Celebrate The New Year

The birth of a New Year may seem - to many people precious little reason for celebrating. As you tot up your Christmas bills, worry about your mounting fuel expenses, and ponder the world situation, you may reflect that if 1967 is going to be like 1966, who needs it? But never fear. There are plenty of other excuses for celebrating on Jan. 1.

Birthdays are always cause for a party. J. Edgar Hoover, director of the FBI, was born Jan. 1, 1895. Instead of shouting "Happy New Year," you can shout "Happy birthday, J. Edgar!"

Other famous people have

New Year's Day for their birthdays. Lorenzo de' Medici, patron of the arts and ruler of Florence, was born Jan. 1, 1449. Revolutionary patriot Paul Revere called Jan. 1, 1735 his birthday, and Revolutionary hero "Mad Anthony" Wayne was born on the same date 10 years later.

And though it may be unchivalrous to mention a lady's age, flagmaker Betsy Ross came into the world Jan. 1, 1752.

There are plenty of other reasons for celebration. Haiti proclaimed its independence from France Jan. 1, 1804. Abraham Lincoln issued the Emancipation Proclamation Jan. 1, 1863. The Commonwealth of Australia was proclaimed Jan. 1, 1901. And the United States parcel post service began Jan. 1, 1913.

But don't let your party last long; not more than a week or two. It was on Jan. 16, 1919, that the 18th amendment to the Constitution was ratified.

That's the amendment that prohibited the sale of alcoholic beverages.

New Books In Library

"A Girl Like I" by Anita Loos is the autobiography of the writer and Hollywood script writer who became well known after the publication of her novel *Gentlemen Prefer Blondes*. The original flapper, Anita Loos was also the friend of Clark Gable, Elsa Maxwell, and Sherwood Anderson.

"The Trial of the Poppy" by Charles Siragusa describes the author's twenty-five year career as a federal narcotics agent who became instrumental in breaking narcotic smuggling operations. The book also presents the inside story of the Mafia.

"Saturday the Rabbi went Hungry" by Harry Kemelman is another mystery about the rabbi David Small who solves mysteries with the help of Talmudic logic.

"With a Vengeance", a new mystery by Dell Channon describes the Los Angeles Police Department's search for clues in the investigation of seven murders.

"The Time of the Angels", a new novel by Iris Murdoch, concerns a group of people fogbound in a ruined rectory who fall under the spell of a mentally disordered theologian.

"The Premier and The Train" are two new novels by the French writer Georges Simenon, the first dealing with the rise to power of a politician, and the second with the love affair of a Belgian fleeing the Germans during World War II.

"The Judgment of Eve" by Edgar Pangborn is an unusual novel about a young woman who tests three men's love for her by challenging them to find answers to several philosophical questions.

Area Obituaries

S. N. THAMS
Services for Dr. Thams, 77, of East Tawas, were held Dec. 6 in Midland, Tex. in charge of the Rev. R. Matthew Lynn with burial in Forest Lawn Cemetery, Piqua, Ohio.

Dr. Thams, a retired dentist, was born July 22, 1889 in Minneapolis, Minn. He attended schools in North Dakota and was graduated from the University of Minnesota in 1914.

He practiced in Fargo, N.D. and later in Plymouth for 34 years. He moved to East Tawas in 1963 after retirement.

Dr. Thams was a 32nd degree Mason and a Shriner.

Survivors include his wife Helen; three sons, W. H. Thams of Midland, Tex., Dr. Paul Thams of Orchard Lake and Lt. Col. R. W. Thams of Canal Zone, Panama; 12 grandchildren and one great-grandchild.

The family has asked that memorials be sent to the Presbyterian Tape Lending Library of the First Presbyterian Church, Midland, Tex.

RICHARD BURDEN
Services for Mr. Burden, 34, of 8914 Hugh, Livonia, were conducted in the R. G. and G. R. Harris Funeral Home in Livonia with burial in Cadillac Memorial West Cemetery.

A native of Plymouth where he was born Feb. 5, 1932, Mr. Burden died at his home Dec. 24. He was shipping clerk at the Plymouth Stamp and Print Co. and had moved to Livonia nine years ago.

Surviving are his wife, Mrs. Shirley Burden; a son, Richard; a daughter, Kathleen; his parents, Mr. and Mrs. Lester Burden; two brothers, Charles and Ronald; and two sisters, Mrs. Betty Childress and Mrs. Arleen Crimford.

MRS. ETHEL RICHARDSON
Services for Mrs. Richardson, 65, of 6275 Beck Road, Plymouth, were held at Schrader Funeral Home in charge of Dr. Paul Adams with burial in Cadillac Memorial Gardens, West.

Mrs. Richardson died Dec. 24 at Martin Place Hospital, West after an illness of a few days. She had come to Plymouth in 1958 from Detroit where she had lived since 1946. Prior to that she had lived in Terre Haute, Ind.

She is survived by her husband Fred E. Richardson; seven sisters, Clara James, Dollie Hyman, Opal Berlot and Sylvia Weaver of California, Helen All, Loraine All, and Wanita Lathrup of Terre Haute, Ind.; and four brothers, Alva, Russell and William of Terre Haute and Ernest, who lives in Tennessee.

HENRY REDDEMAN
Services for Mr. Reddeman, 72, of 679 Blunk, Plymouth, were conducted Saturday in the Schrader Funeral Home in charge of Rev. Norman Berg with burial in Riverside Cemetery.

Mr. Reddeman died Dec. 21 in University Hospital in Ann Arbor following a short illness. He was a native of the Plymouth Community and was born in Canton Township on Sept. 25, 1894. He was a retired employe of the Wayne County Road Commission.

Mr. Reddeman was a member of St. Peter's Evangelical Lutheran Church and had been in charge of church property since his retirement from the Road Commission in 1960.

Surviving are: his wife, Mrs. Ruth Reddeman; one brother, Frank of Milan; and one sister, Mrs. Anna Heintz of Plymouth.

Four Local Students Get MSU Degrees

Four students from Plymouth were scheduled to receive degrees at fall term commencement exercises at Michigan State University, East Lansing.

The Plymouth students were among some 1,450 students who received degrees. Graduates included 150 doctoral candidates, 474 master's candidates and 825 bachelor's candidates.

Candidates for graduation from Plymouth were John M. Dennany, 11750 Priscilla, B.A. in history; Keith E. Evans, 42023 River Oaks Drive, B.A. in general business administration; Holly V. Hanert, 300 N. Mill, Apt. 7, B.A. in speech; and Andrejs Krukutis, 725 Coolidge, Apt. 6, M.B.A. (master of business administration) in production.

U-D Announces Registration Date

Registration for the winter term at the University of Detroit will be held from 8:30 a.m. to 8:30 p.m. Jan. 3 and 4, 1967 in the Memorial Building on the McNichols Road campus.

Classes will begin Jan. 5. For further information, call the Admissions Office, 342-1000, ext. 246-7.

 So You Can Type That's nice. Now, can you type accurately and with some degree of speed? My name is Friden Justowriter and I'd like to have you work with me in my carpeted sitting room on week days and an occasional evening. I'm really just a glorified typewriter, but my master loves me. He's offering a generous reward, complete with fringe benefits to someone who'll care. He'll provide free professional training while introducing you to the fascinating world of newspapering. Apply in person to Bill Parish at the Plymouth Mail, 271 South Main, Plymouth.

Tips from the
STOP & SHOP CHEF
Questions & Answers

What is meant when butter is said to be a certain score?

Butter is graded predominantly according to its flavor, firmness and grain, color, and seasoning (salt). Grading is on the basis of a perfect "score" of one hundred. Butter with a score of ninety-four to one hundred points is, obviously, the best. Butter given a score of less than eighty-nine points may have some objectionable characteristics.
