National Bank Announces Major Expansion Program

The National Bank of Detroit is planning to spend three quarters of a million dollars to expand and modernize its facilities in the Plymouth area.

The announcement was made by Robert K. Barbour, Vice-President in charge of the bank's Plymouth offices, who stated that the program called for the renovation of the office on Main Street, and the construction of a new colonial type building on Sheldon Road in North Township, Plymouth Township, which will be completed early next year.

In announcing the program, Barbour stated that some of the services, particularly the Insta-Loan Division, will be transferred from the downtown office to the new building.

The announcement ended rumors that have been prevalent during the past few months and outlined a plan that, according to Barbour, will provide better banking service.

branch offices of the National Bank of Detroit.

"We simply didn't have the necessary room to meet this continuing growth," he continued, "and render the kind of service that was necessary."

The switch of the Insta-Loan facilities will mean the transfer of 26 employees from the present site on Penniman Avenue, but, Barbour added, the downtown office will still be a full service bank.

Barbour said NBD had considered ways and means of establishing a drive-in service at the downtown office, but it was not feasible.

"In the surveys we conducted," he said, "we found that there was no way in which it

could be done. We had thought of using a site on Penniman Avenue and directing traffic into the parking lot. But there was little space to turn and traffic would pile up on Penniman. City officials frowned on this and the idea was set aside."

According to bank officials, the present Insta-Loan office is processing all loan requests from the nine NBD offices comprising the Plymouth group. This includes Livonia, Novi and Redford Township.

By moving the administrative section of the Insta-Loan to the Sheldon Road office, the bank says it will be able to provide more adequate facilities for the customers in the downtown office. The shift will not affect the Insta-Loan services in the Main Street office.

The new building will have 13,500 square feet with windows for nine tellers; only six of these are to be used at the start. There will be full banking service and three drive-in windows. It will house between 40 and 50 employees.

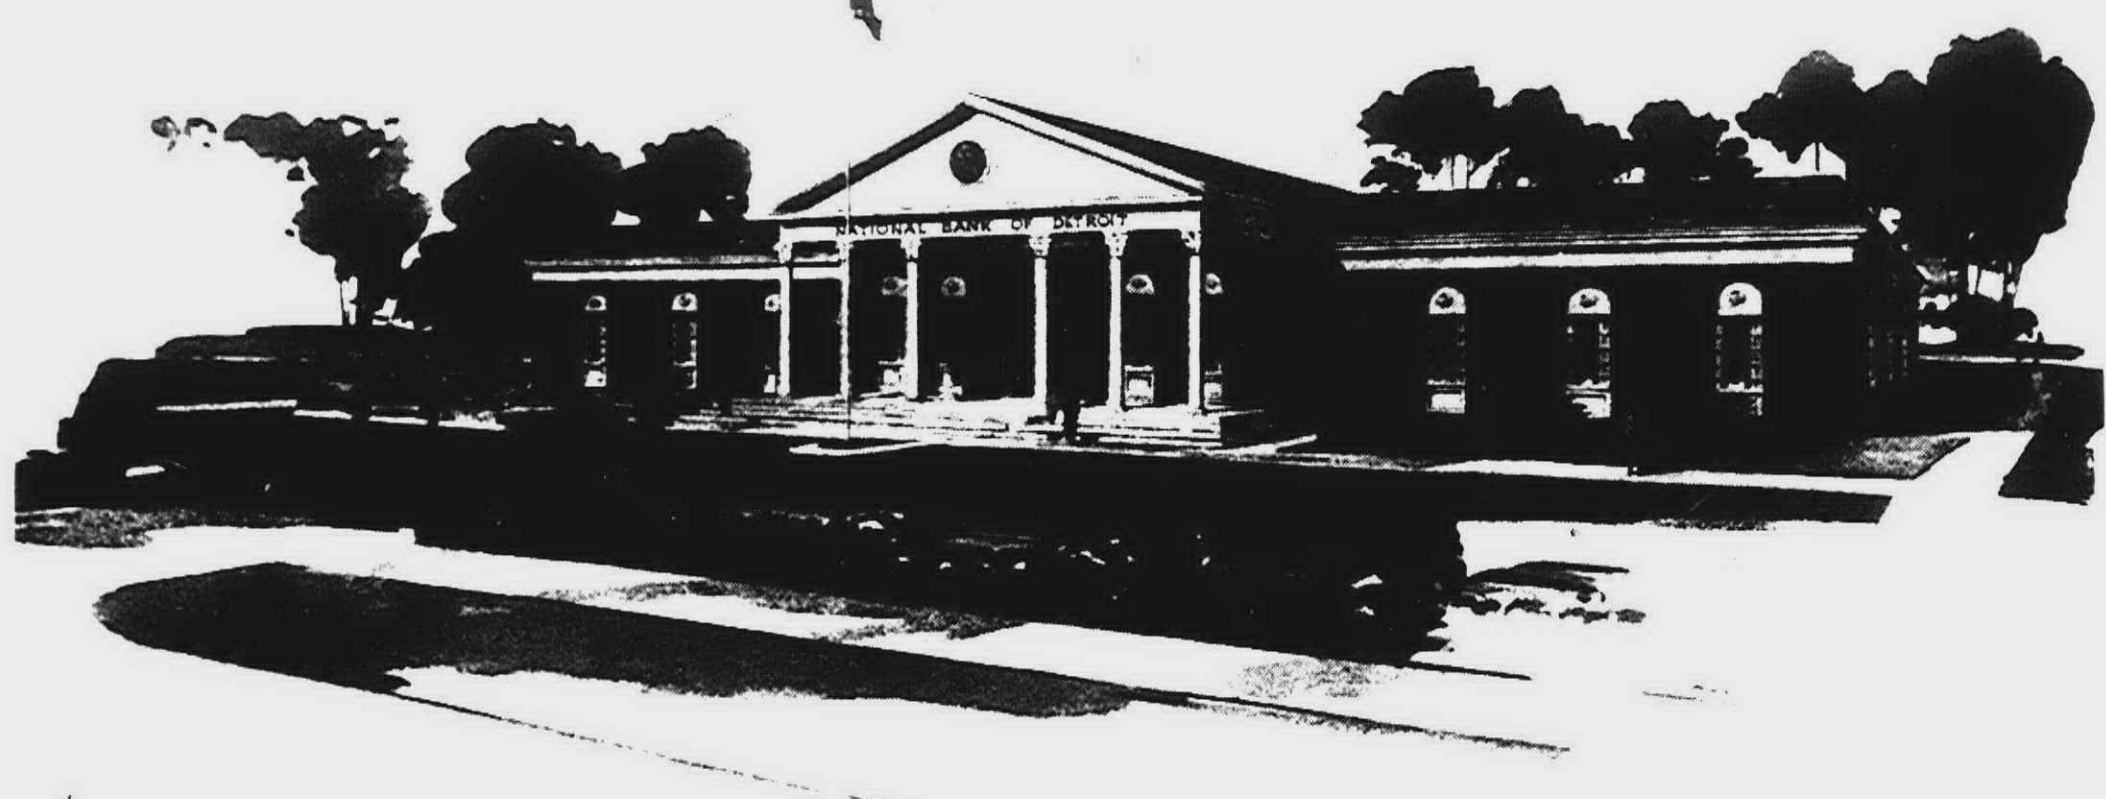

One of the other features is parking for 80 cars at the start and this will be expanded to accommodate 100 cars.

Plans for the downtown office include a complete modernization inside and outside. The latest type teller windows will be installed, the lobby carpeted and all railings in the management area will be eliminated. The exterior will get a complete face lifting to make it an attractive part of the loop.

There will be no central switchboard for both offices, but, according to Barbour, there will be a tie-in and no trouble is expected.

"The one thing that is to be emphasized," Barbour concluded, "is that with the expanding of some of our facilities to the township we are still retaining a full-service bank downtown."

"We'll still be doing business at the same site we've been at for years. My office will be in the same spot to continue conducting business as usual."

Here's The Architect's Version of The New National Bank Building Planned on Sheldon Road

Heavy Primary Vote Forecast

Because of the interest that developed in the campaign for the judgeship of the new district court, voting is expected to reach an all-time high for a primary election next Tuesday in the Plymouth area.

This prediction was made by both Mrs. Helen Richardson, Plymouth Township clerk, and Gene Slider, Plymouth city clerk, who noted that there has

been a steady flow of registrations.

"Presidential years always bring out a lot of voters," Slider stated, "but this reflects itself in the general election in November and not so much in the primary."

Both Slider and Mrs. Richardson emphasized again that those who registered after July 5 will not be eligible to vote

on Tuesday, but will be able to cast ballots in November.

AS OF the last day of registration, the township had 5,087 registered voters and the City of Plymouth had 4,057.

Mrs. Richardson is looking forward to a 50 per cent turnout because of the added interest in the race for the two seats on the Board of Trustees.

Meanwhile, City Clerk Slider stated that if the primary holds true to form there would be 30 to 35 per cent participation.

"We may have a much larger turnout," he said, because of the two issues that are of special interest to the city—the district court judgeship and the race for county supervisor.

The "Battle of the Signs" that marked the campaign for district judge, has helped to spur interest in the election and it has become a three-way battle involving candidates from Northville, Plymouth and Canton Township.

THE RACE has drawn five candidates that include Plymouth Municipal Judge Dunbar Davis, Philip Ogilvie of Northville, Robert Greenstein of Canton Township, Thomas Healy, former City Attorney of

Plymouth, and Allen Ingle of Northville.

The election will mark the first time that the voters have the opportunity to vote for a county supervisor that will represent the entire district. Heretofore, each municipality had its own member on the County Board.

Plymouth is offering two candidates — City Commissioner Arch Valier, a present member of the board, and Carl

Fursell, President of the Plymouth Chamber of Commerce. Valier is a Democrat, Fursell a Republican.

There are seven candidates for the two seats on the Township Board of Trustees and this should be a lively race that will boost the turnout.

As usual, the polls will be open from seven o'clock in the morning until eight o'clock in the evening, and all those in line at that time will be accommodated.

City Police And Dogs Aid In Kidnap Case

Two City of Plymouth police officers had an unusual experience last Tuesday night.

Answering a plea for help and "to bring the dogs with you," Sgt. Henry Berghoff and Patrolman Daniel Carpenter assisted Novi police in the hunt for two of the five youths who had kidnapped a Novi policeman and threatened to kill him.

Novi Chief of Police Lee Begole reported that Officer Robert Starnes, 32, a father of six children, was taken to St. Mary Hospital, Livonia, after

being kidnapped by the youths and driven around the area for more than four hours. He was treated and released.

The youths, two of them juveniles, have been charged with kidnapping and are being held in Oakland County Jail.

Giles Carl Askins, 19, 21939 Pontiac Trail, is being held under \$50,000 bond; William Joseph Jobe, 17, 433 Donovan, has been placed under \$25,000 bond; Floyd Kirkendall, 302 W. Lake St., is also under \$25,000 bond.

Girl Scouts Given \$7,500 By Kiwanis

The Girl Scouts of Plymouth and the Huron Valley Girl Scout Council received a check for \$7,500 last week without selling a single Girl Scout cookie.

The gift was presented by the Plymouth Kiwanis Club and culminated an interest that has spanned more than 25 years.

In 1943 the Plymouth Kiwanis Club felt that the local Girl Scout movement needed a focal point," explained Harper Stevens, president of the Kiwanis Club today. The logical solution was a cabin, which the club constructed for use by the Girl Scouts and underprivileged and handicapped children as well.

"In the mid-1950's the community improved its care of the underprivileged and handicapped child and it was around that time the Girl Scouts started to combine troops by area and our Plymouth Scouts joined the Huron Valley Council," Stevens explained.

CAMPING FACILITIES available through the Huron Valley Girl Scout Council at Camp Linden eventually made the Plymouth cabin impractical. As the years passed it became the object of vandalism and finally last year the building was burned beyond repair.

With Camp Linden a reality, the Kiwanians agreed that the money realized from the fire insurance and the sale of the property should be used to improve facilities there.

"This doesn't mean that we have closed the door on the Girl Scouts," said Stevens, "but we felt morally obligated to donate something of a lasting nature

and of course their needs in the future will determine our assistance."

What does a wooded 400-acre campsite in the northwest corner of Livingston County need in the way of a permanent fixture? Mrs. Kenneth Hulsing, president of the Huron Valley Girl Scout Council provided the answer.

"We need just that—permanent fixtures and the money will be used to cover one half of the cost of a wash house. I know that doesn't sound very glamorous, but because Camp Linden is so primitive, it will

Continued on Page 2

GIRL SCOUTING received a boost from the Kiwanis Club of Plymouth recently when Harper Stevens, club president, presented the Girl Scouts of the Huron Valley Council with a check for \$7,500. Mrs. Kenneth Hulsing, Council presi-

dent, looks on as Cheryl Gross, Cheryl Parson and Linda Hagopian accept the check, which will be used to improve the Council's camping facilities.

Chamber Hosts Election Party At Mayflower

The Plymouth Community Chamber of Commerce will be host to an Election Night Party at the Mayflower Meeting House on Tuesday from 8 o'clock in the evening until midnight.

Because of the interest in the various races, the Chamber deemed it a public service to furnish results as soon as possible.

All candidates from the Plymouth, Northville and Canton areas have been invited along with their workers and friends. Refreshments will be served by the Mayflower Hotel and tables, chalk boards and telephones will be available.

The general public also is invited.

Drain Bonds Are Approved For Township

Attorney General Frank J. Kelley, chairman of the Municipal Finance Commission, announced this week that the commission approved \$925,000 of drain bonds for the Plymouth Township Drain No. 1 Drainage District.

Other members of the Municipal Finance Commission are Allison Green, state treasurer; and Ira Polley, superintendent of public instruction.

Today's Quiz
WHICH CANDIDATE FOR DISTRICT JUDGE
DOES NOT refer to himself as Judge in advertisements although he has 12 years Judicial Experience compared to 6-8 years for a former candidate?
1. Has served longer as a City Judge than any other candidate?
2. Has served longer as a Township Justice than any other candidate?
3. Is the only candidate to be elected by the people to serve as their Judge (in fact elected 3 times)
ANSWER
The answer to all 4 questions is ALLEN C. INGLE.
DO YOU AGREE?
1. Who is correct in refusing to use the word Judge, as he insists that he will not mislead even one voter, as there is a new court and there are no present judges of the District Court?
2. That a candidate who has in the past been elected three times, surely must have served the people well.
3. That 12 years of law and 12 years of general practice of law makes him the best qualified candidate?
4. That his pledge to serve you as a fair and impartial judge is better than wild promises.

Girl Scouts
Continued from Page 1
be a very welcome addition," said Mrs. Hulsing.
THE HURON VALLEY Girl Scout Council is in the process of purchasing the 400-acre site, which has three contained lakes and five lakes bordering it. A recent conservation project involved dredging the shoreline of the lakes to provide a sandy beach for the camp.
It took the proceeds from the sale of a lot of Girl Scout cookies and many hours of hard work on the part of the Scouts to get a sandy beach, but it now is no longer necessary to bus the Scouts to a public beach several miles away.
"This is our first major contribution from any organization," said Mrs. Hulsing, "and it will certainly mean a lot to the girls."
TEN PLYMOUTH girls have just returned from Camp Linden and 16 are there now. Last month, Laura and Linda Clements, Sandra Drouillard, Nancy Hortsman, Kathleen O'Connell, Laura Parker, Cynthia Richards and Pat Tomlinson attended camp. Cindy Wilkin and Nancy Paul, both senior scouts, were also there taking an advanced course in counseling.
Sixteen girls are currently enjoying Camp Linden for two weeks. They are: Kathy Anson, Cheryl Brisbois, Suzanne and Margaret Brooks, Mary and Barbara Covington, Tonya Greer, Deborah Irvin, Lisa Kellman, Elizabeth and Kathryn Koepke, Carla Kops, Lori McAllister, Jim Plas and Patricia Ross.
Linda Hagopian is also there enrolled in the Wider Opportunity unit for Cadette Scouts. The emphasis of this unit is drama in the out-of-doors and the girls will write, costume, direct and produce their own plays.
All the Scouts live in tents at the camp and cook some of their meals over an open fire.

The Stroller...

Strolling around the downtown area these summer afternoons can be an interesting and rewarding experience and one never knows just what will happen or what he will be asked along the way.

For instance, Dave Agnew, who is the proprietor of the smallest store in the loop, wanted to know how he could explain to the callers that he is not going out of business.

"Ever since the piece appeared in the paper that our days were numbered in this location," he said with a voice choked in surprise, "folks are dropping in to bid me good-by."

"Somehow or other they didn't realize that we will have the jewelry store here until next April at least, according to what the City Commission ruled. So it isn't time to say good-by."

He also wanted it known, too, that the art of watchmaking is not a dead art. As proof he displayed a report of the upcoming convention of the watchmakers and their plans for the future.

"Can't be dying, if they're having a convention," he pointed out.

Okay, Dave. The Stroller has done his part in putting the series of good-bys and help the watchmakers will have a great time at the convention.

It used to be said, too, that blacksmiths belonged to the limbo of folk that this is until it was pointed out that there are more of them now than ever—and they need shoes. The difference is that the blacksmiths, like most other professionals, have become specialists and no longer have the old-fashioned skills. They travel in class to the various fairs and trade fairs, like others of their kind.

A PENNY SAVED IS A PENNY EARNED

Next The Stroller met Lou Goddard, the eternal optimist, who is busy these days converting the corner of Main Street and Ann Arbor Trail into a "mini mall."

Up to his ears in lumber for the various partitions and with a handful of tools, he was asked: "How are you coming, Lou?"

With the usual broad smile he answered: "Just fine—no making any money, but saving some."

It was his way of saying that he was doing a lot of the work himself.

There isn't a prouder man in town than Lou. He has a right to be, for he is making a great contribution to the face lifting of the central business district.

MSGR. HICKEY JOINS THE RANKS

Speaking of optimists, you'd have a most difficult time beating The Stroller's good friend, Msgr. Edward Hickey, who has contributed the St. Mary Art Guild to the assets in the loop.

"We're doing just fine," he remarked, "but we're not making any money."

"We have a fine collection of paintings and would be glad to have you come and visit us any time."

The good Monsignor hasn't changed much since the days of long ago when he and The Stroller served on the late Mayor Al Cobo's Detroit Tomorrow Committee for the development of the metropolitan civic center.

"And just imagine," the Monsignor remarked, "now we both are here in Plymouth trying to help with a job out here."

With a broad smile he asked, "Isn't it fun?" Sure is.

SOME NEW AUTO JARGON

Jack Sells, the nattily-attired auto dealer, was all smiles when he sat down at the luncheon table. "I've been in the automobile business a long time," he chuckled, "but I'm learning something new every day."

Was he talking of the new models that are soon to be unveiled to the public?

"Oh, no," he answered. "I've still got work to do before the '69's are here. But I'm learning a whole new jargon for use in making sales."

Jack then told of the two gentlemen from the south who were in his showroom recently.

"When I asked them which model interested them," he said, "they answered—the deuce and a quarter with ice."

"That was a new one on me," Jack went on, "so I had to ask just what they meant."

"The Electra 225 with air conditioner," came the answer.

"I got the idea in a hurry," Jack went on, "but before they left they gave me another. This was 'the deuce and a quarter with an umbrella,' which was the manner in which they described a convertible."

Good enough.

SAMOA AND MOSQUITOES

Somehow or other the conversation at lunch got around to mosquitoes—possibly because they are so prevalent this summer.

"I never bothered about mosquitoes," Ed Sawusch smiled, "until I got to Samoa during my days in the U.S. Marines. Then they not only bothered me—they frightened me. They're much bigger in Samoa and they carry disease."

"So, now I steer clear of all of them—I don't take chances."

What an interesting stroll.

Be Sure To Cast Your Ballot And You Won't Cry Over Spilled Milk

Down through the years it has been the custom to console folks who have made mistakes by pointing out not to "cry over spilled milk."

The admonition was meant to convey the thought that the mistaken action could not be retrieved and that it was best to make the most of it and just carry on.

Well, next Tuesday is election day and it is an important election in the Plymouth area. The importance lies in the fact that nominations are to be made for such offices as the judge of the city district court, the supervisor in the new streamlined County Board and Trustees in the Township.

These are key positions in our government and should not be taken lightly.

That's why it becomes necessary to caution the voters to exercise their right and not be in the position next Wednesday morning of realizing that the candidates they favored were not nominated.

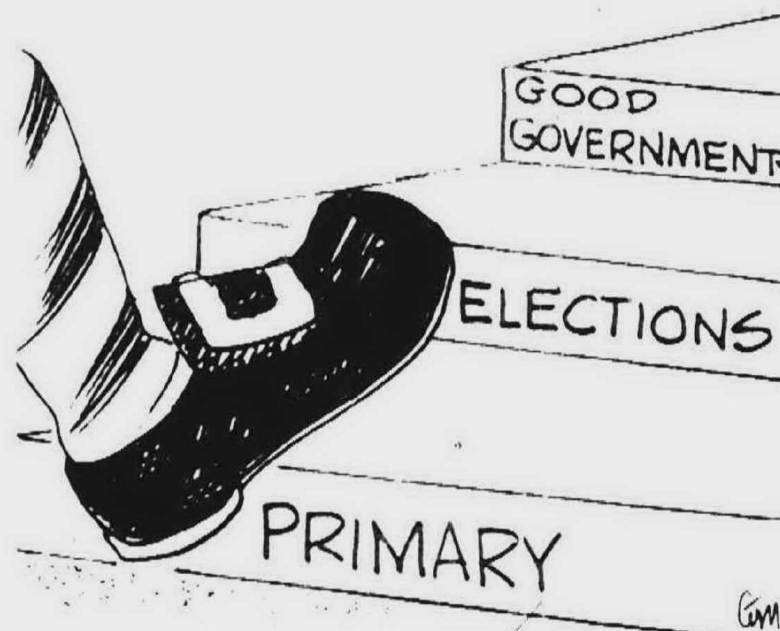

TOO OFTEN, in the past, folks haven't taken much interest in the primaries. They figure the list is too great and they don't take the time to study it and then cast the vote for their choice.

Because of this, many good, qualified and deserving men have lost out and the offices were taken over by lesser lights.

No doubt you have heard the expression in many times that bad government is brought about by the good people who don't vote. This simply means that the good candidates were made to suffer because of being taken for granted by the voters.

When this happens, it usually is the folks who didn't take the trouble to vote who make

WATCH THAT FIRST STEP.

the loudest and loudest complaints when things go wrong.

All of a sudden they realize that it was their failure to cast a ballot on election day that helped bring about the very condition that now irks them.

The other thing they overlook is that in the case of large lists of candidates for any one office, it does not require too many votes

to win the nomination. This fact often has been the undoing of outstanding candidates.

UNDER OUR primary system, a poorly equipped candidate can get together a good organization—one that will work and get out the vote in their neighborhoods. This is done in the knowledge that it won't require too many to assure victory.

These block methods have proven successful in the past and could be again.

This is another reason why it is necessary to pay a visit to the polls. It is protection for your favorite who could be made a victim of these concentrated block votes.

In calling attention to the importance of the primaries, one is reminded of the warning sounded not too long ago by Congresswoman Martha Griffiths who is a powerful member of Congress.

AS A MEMBER of the important Ways and Means Committee, she pointed out that the time to complain about the high cost of government and the raising of the national debt ceiling was not when the ceiling was being raised—but when the money was being spent.

"Raising the debt ceiling," she explained, "is only providing the money needed to pay the bills. The time to complain is when the appropriations are being made."

"Watch the spenders," she cautioned. If she were speaking of the election in these terms she would warn you to vote in the primaries.

That is important—as it is the time when you can get your candidate in the final in November.

So, you owe it to yourself and your favorite to get out and vote on Tuesday.

Don't put yourself in the position next Wednesday of being forced to cry over spilled milk.

Congressman Esch Reports

Vocational Education Given New Value

The new vocational-technical education program may well prove to be the most important single piece of legislation enacted by the 90th Congress.

As one who, since assuming public office, has constantly emphasized the need for broad new approaches in this field, I felt a tremendous amount of satisfaction when H. R. 18366 passed the House unanimously. This satisfaction has a personal tone because I am a co-sponsor of the measure and made contributions to it in my committee.

The bill is designed to move vocational-technical education from the relative obscurity it suffers today into the forefront of our total educational structure. I can conceive of no more important objective for education—and for our country—than this: that every citizen be prepared for a decent job at a decent wage in the economy of today and that no longer will the non-college-bound student be a second-class citizen.

meet this obligation.

THAT IS WHERE we need a sense of priorities in Federal programs which is so lacking in the executive branch today.

The legislative mechanism is at hand for beginning a national effort to improve vocational-technical education, but the job is just started. Our committee must exercise continuous oversight of the administration to this act. The Congress must take a strong hand to see that the mandate of this legislation is carried out, and that deficiencies in the act itself are corrected promptly.

As important as Federal leadership may be, our new program will succeed or fail at the State level. The State boards of vocational education, the State advisory councils, and the local school administrators and teachers have the overwhelming responsibility for the success of this legislation.

Throughout this bill the responsibility of State and local educational agencies is emphasized and reinforced. This is one of the strengths of the bill and indicative of a new trend toward the utilization of the expertise and recognition of the diversity found at the state and local level.

Congress has adopted a mandate for change in federally supported vocational-technical programs, a change long overdue. It can be accomplished only by a vigorous administrative effort at both the State and Federal levels. If we are to finish the total task of modernizing education we will need new national leadership with new priorities and a new will to change conditions.

New Zoning Ordinance Promotes Development

The new zoning ordinance, adopted by the City Commission last Monday night is based on the comprehensive plan that was completed in the past several years by the City of Plymouth Planning Commission. The plan reflects a more desirable land use pattern for the City of Plymouth based on current and future needs. The zoning ordinance, based upon this plan, proposes to cause development to follow the lines proposed within the future land use plan.

The districts established by the Ordinance, to some degree, contain the same use districts as outlined into the old zoning ordinance. However, new districts have been introduced as necessary to reflect more modern land use patterns than permitted under the old ordinance. Particular attention was given to the establishment of more modern standards and a certain liberalization of the ordinance to permit desirable developments which would not be permitted under the former ordinance. These include contemporary forms of apartment, office and commercial development.

Districts included in the ordinance provide for exclusive office zones as well as medium rise multiple housing zones. The new standards require that adequate attention be given to the provisions of open space in conjunction with apartment units and office development as well.

Requirements have been up-

dated in all districts to reflect the current needs of parking demand generated by uses that are developing in the community. The districts are tailored to permit the exclusive grouping of compatible uses within each area so designated. Conflicting uses, which were often permitted under the old Zoning Ordinance, are no longer allowed where they would be incompatible with the primary uses in a district. Where uses are questionable from the standpoint of the activity that

is conducted on the site, the ordinance provides for special conditions which will insure that the uses will not prove detrimental to neighboring properties.

In general, the zoning ordinance reflects a streamlining of the administrative functions of zoning which included a restructuring of the responsibilities of the Zoning Board of Appeals and the Building Inspector.

This is the first comprehensive updating of the zoning

ordinance that has taken place since the original ordinance was adopted in 1953. During the interim, the zoning ordinance has been amended and re-amended in piecemeal fashion. It is felt that the development under the new zoning ordinance will enhance the livability of Plymouth and will encourage new development, otherwise handicapped by the former ordinance and will also enhance the relationships between the residential, business and industrial segments of the total community.

Precinct Delegates

(Voters in each precinct of your city or township will elect delegates to district conventions.)

STATE PROPOSAL NO. 1—

JUDICIAL TENURE

This would amend the state constitution to establish a Judicial Tenure Commission to investigate complaints of cases of misconduct or disability of judges in office.

STATE PROPOSAL NO. 2—

COMPENSATION COMMISSION

This would amend the state constitution to create a State Officers Compensation Commission to determine the salaries and expense allowances of the governor, lieutenant governor, justices of the Supreme Court and members of the Legislature.

STATE PROPOSAL NO. 3—

JUDICIAL VACANCIES

This would amend the state constitution to give the governor power to appoint persons to fill vacancies in the Supreme, Appeals, Circuit, Probate and District courts until the next general election, thus eliminating the need for special elections.

WAYNE COUNTY PROPOSAL NO. 1—

TAX LIMITATION

This would extend for five more years (1970-74) a one-mill tax approved five years ago for operating county government.

Voters Have Wide Choice Of Candidates

When the voters go to the polls Tuesday (August 6) to cast their ballots in the primary, they will be doing more than selecting candidates for the various offices. They will be helping to write a new page in the political history of the area. It will mark the first time they will be voting for a judge of a district court and the first time they will be selecting a member of the Board of Supervisors who will represent an entire district instead of a single political subdivision.

Of course, they will be casting ballots for such other offices as candidates for the U.S. Congress, and the Michigan House of Representatives, a county prosecuting attorney, a sheriff and the Circuit and Probate judges, along with a Register of Deeds and the County Drain Commissioner.

However, it is the race for judge of the new district court established by the new

state constitution, and the streamlined County Board of Supervisors that are causing the most attention in the Plymouth area.

The new district court will supplant the Municipal Courts in the City of Northville and the City of Plymouth, along with the Justices of the Peace in the several communities that also include Northville Township, Plymouth Township and Canton Township.

The court, when it starts functioning on January 1, 1969 will serve a great need in the entire area. It will handle a broader scope of activity than the Municipal Court and it will be taking justice to the people, for the new judge—whichever he is—will sit in the cities of Northville and Plymouth, along with Plymouth Township.

The race for County Supervisor has created interest for the simple reason that it will

be the start of a new trend in county government—a trend to cut through the cumbersome work of 126 members and confine it to 26. As a result of the streamlining only one supervisor will represent the area that includes the cities of Northville, Plymouth and Livonia, along with Northville Township, Plymouth Township and Canton Township.

This single supervisor will function instead of the eight that have been holding down the supervisors' jobs. This makes the choice very important.

Along with the judges and supervisors race, interest also is at a peak in Plymouth Township where seven candidates are seeking the two seats available on the Board of Trustees. One of the big issues here is centered around unification of the two Plymouths—the Township and the City.

Candidates For Judge

Following is the list of candidates for judge of the new district court and their backgrounds:

Dunbar Davis

Dunbar Davis, 54, City of Plymouth Municipal Judge, who lives at 1325 W. Ann Arbor Trail, Plymouth, with his wife and daughter, is a candidate for District Judge in the Canton-Northville - Plymouth district.

Davis received his law degree from the University of Michigan Law School in 1937. He was admitted to the State Bar of Michigan in 1939 and began private law practice in Plymouth.

He served as a City Commissioner in Plymouth from 1944 to 1948 when he returned to his practice. Davis says he believes in courtesy to everyone who appears in court. He says he believes when a person commits an intentional criminal act he should be dealt with more firmly, and adds, "Probation is a useful tool that has its place, and I use it in appropriate cases in my court. As a judge, I strive to be fair and objective, showing no partiality to any particular group or individual but rather to exercise equity and justice toward everyone, regardless of his status in life."

Thomas Healy

Thomas H. Healy is a 45-year-old Plymouth attorney and former legal counsel for the City of Plymouth. A veteran of eight years on the Michigan Attorney General's staff, Healy served as an Assistant Attorney General in Detroit and Lansing.

He was appointed by former Michigan Supreme Court Chief Justice Thomas M. Kavanagh when the jurist was Attorney General.

In various capacities under both Kavanagh and present Attorney General Frank Kelley, Healy served as Chief Legal Advisor for the Liquor Control Commission and the Public Service Commission which regulates utility rates. He also served as attorney for the Highway Department, and Chief of the Consumer Fraud Division.

After earning a Bachelor of Science degree in Commerce and Engineering at Drexel Institute of Technology in Philadelphia, Healy was graduated from the University of Michigan Law School in 1950.

He worked for a Detroit architectural firm and spent a year on the Controller's Staff of one of the big three auto makers before going to the Attorney General's staff.

Healy has been in private practice for the past four years. He lives at 249 Blum Street in Plymouth, is married and has six children. He is a member of Our Lady of Good Counsel Church and serves on the Plymouth YMCA Board of Directors.

Philip Ogilvie

Philip R. Ogilvie, 49, Municipal Judge of the City of Northville and candidate for the Plymouth - Northville-Canton District Court, resides in Northville with his wife, Ethel, and their two children. He served in the Navy from 1944 to 1946 and later received his law degree from the Detroit College of Law in 1949.

Ogilvie immediately went into private law practice in Northville and was appointed attorney for the Village of Northville in 1953 and in July, 1967, he was appointed Municipal Judge.

He is a member of the Northville Rotary Club, Boy Scouts of America, Schoolcraft College Foundation, First United Presbyterian Church of Northville, American Legion, Suburban Bar Association, Wayne County Municipal Judges Association, Michigan Association of Municipal Judges, North American Judges Association and American Bar Association and Judicature Society.

Ogilvie says, "I trust that my reputation as a practicing attorney in this area for the past 19 years and my record of public service and experience as a municipal judge will persuade the electors of the 35th District that I deserve the opportunity to serve them as their District Judge."

Robert Greenstein

Robert E. Greenstein, 31, Justice of the Peace in Canton Township and candidate for the Canton - Plymouth-Northville District Judge post, lives at 47500 Hanford Rd., Canton Township, with his wife and two children.

He is a 1960 graduate of Wayne State University and has been in private law practice as a senior partner of the Livonia law firm of Kelly, Greenstein & McCann for the past eight years.

He is co-founder of the nationally famous Livonia Volunteer Probation Department and has been its chief probation officer since its inception.

Judge Greenstein says, "I believe the new District Court must be a people's court, where people can come to get justice in a less formal but still dignified setting."

"It is about time," he adds, "the property owners rights were given equality with the rights of the criminal. It will be the responsibility of the new district judge to keep order in our community."

Allen Ingle

Allen C. Ingle, candidate for Northville - Plymouth - Canton Township District Court, resides at 47115 Gramere, Northville with his wife and three children.

Ingle is a practicing attorney in Farmington. In 1951 he served as Municipal Judge in the City of Farmington. In 1955 he was elected Justice of the Peace in Farmington Township and served a second term as Justice of the Peace in 1961.

He was born in Highland Park, Michigan June 26, 1921 and graduated from Highland Park High School. He has received degrees from the Detroit Institute of Technology and Detroit College of Law. Ingle served with the 8th and 78th Infantry, then with Secret Intelligence Branch of O.S.S. during World War II. He is now a member of the V.F.W. and the American Legion.

He began his general law practice in 1949. His law office is located at 29320 Grand River, Farmington.

Township Trustees

Russell Ash

Russell A. Ash, 43, Republican candidate for trustee in Plymouth Township, resides at 47192 Stonecrest Ave. with his wife, Virginia, and their three sons and two daughters.

He has been with Chrysler Corporation for the past 17 years and is Supervisor of Car Dynamics Development at Chrysler proving grounds in Chelsea.

He has received degrees from Eastern Michigan University, the University of Michigan and Chrysler Institute of Engineering. He spent three years in the United States Naval Reserve from 1943 to 1946 and was stationed aboard the U.S. destroyer Mayrant.

He recently was appointed trustee to fill a vacancy on the board. He has served on the township planning commission for the past seven years and has been chairman for the past four years.

Ash said, "There are several great challenges facing the residents and electors of the Township of Plymouth which must be met by the officials and trustees with wisdom, imagination, impartiality and courage."

"It is my wish," concluded Ash, "to use all means available to provide those additional services which are clearly required by the majority at the lowest cost."

Louis Norman

(Picture Not Available)

"I have lived here all of my life and I know the township and what township government stands for, I am proud of what the township has done in the years I have been a trustee."

"I had the privilege of being the first Captain of the volunteer Fire Department, and was Acting Fire Chief for one and one-half years until a full time man was placed in command. I saw the department grow from one engine to its present status. In my opinion, the Township Fire Department, volunteers and regulars, are second to none."

"I was a member of the Board when the first sewer and water systems were started. And that program is still growing. I served on the Planning Commission and all the building committees and designed some of the buildings."

"The years I have served on the board have been very rewarding and I enjoy it very much. I could say a lot more, but I don't think it is necessary."

"All I ask is that everyone eligible to vote, do so. This is a privilege many people do not have, but we do."

"If the people of Plymouth Township re-elect me for another term, I will continue to do my best."

Maurice Breen

Maurice M. Breen, Republican candidate for Plymouth Township trustee, resides at 41121 Greenbrook Lane with his wife and their three children.

He is a practicing attorney and a member of the State Bar of Michigan, American Bar Association and the American Judicature Society.

He is currently a member of the Plymouth Township Planning Commission and has served as secretary and chairman. He has been a special assistant to the State Attorney General.

"Plymouth Township is, in area, equal to half a normal township," he points out, "and development has pressured demands for services as well as expansion of water and sewer facilities."

"The township board must exert its influence to provide the residents a community able to provide normal services and guarantee public safety."

"I pledge to work toward the best government for the area residents at the lowest possible cost."

He said, "Unification is a perennial issue that needs to be brought to a decisive end. The present administration has cited the need for expanded facilities but as yet has not made a conclusive study of the alternatives."

"The continued township developments," he continued, "increase the pressure for expanded services such as water, sewer, recreational facilities, police and fire protection and industrial development."

Concerning taxation, he remarked, "Uniformity of assessment of land and buildings must be achieved so that no small group benefits at the expense of the remainder of the taxpayers. The township board has the duty to bring the issue to the supervisor-assessor. I will do this."

James Brown

James R. Brown is a Republican candidate for trustee in Plymouth Township. He resides at 7111 W. Ann Arbor Trail with his wife and two children. He has received degrees from Wittenberg University and the University of Michigan.

Brown is president of Salem Laboratories. He is an accredited chemist, a Fellow of the American Institute of Chemists, a senior member of the American Chemical Society and a member of the American Society for Testing and Materials.

"Government is a complex thing," he said. "It is easy to be critical when all facts are not clear. When comparing our present township government to others, you can see that they are doing a fine job, considering the difficulties under which they operate."

"In the near future, the citizens and their elected representatives will have to come to grips with problems of growth and money," Brown said. He continued, "I want fresh air and clean water and want to be able to enjoy them without fear of molestation. As we grow strong and reasonable, law enforcement must be a reality."

"I would," Brown concluded, "consider it a privilege to utilize my training and experience to make Plymouth Township an even better place to live."

Irving Rozian

Irving W. Rozian, 42, Democratic candidate for Plymouth Township Trustee, resides at 15209 Lakewood with his family. Rozian is a research administrator and consulting engineer and is head of the Industrial Sciences Group, College of Engineering, University of Michigan. He received his engineering degree from U. of M.

He is past chairman and former member for five years of the Plymouth Township Planning Commission. He also is a precinct delegate and member of the Wayne County 2nd District Democratic Party Executive Committee.

"Plymouth Township is at a critical stage of both problems and opportunities in municipal growth. The best possible level of professional skill and experience is needed in township government," he said.

"One party government does not provide for checks and balances against errors, narrow thinking, and self-interest. In addition, the Republican Party has traditionally proven incapable of facing either domestic or foreign crises with any solution except marching backward."

"Plymouth Township needs Democratic trustees who believe that the needs of people can be met within American institutions of representative government and business enterprise," Rozian concluded.

James Lewicki

James Lewicki, Republican candidate for trustee in Plymouth Township, resides at 15209 Lakewood, Plymouth Township, with his wife and children.

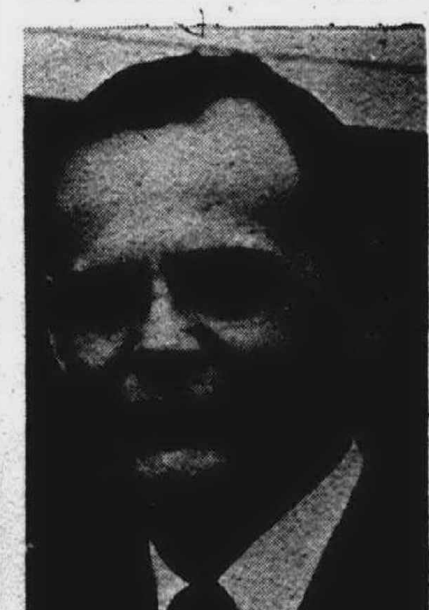

He is an educational representative for Random House Publishing Co., and is a former school teacher and coach. He has received a degree from Central Michigan University and has done graduate work at CMU.

Lewicki is active in the usher's club of St. Kenneth's Catholic Church.

He is director of Wayne County #11 Republican party, an acting precinct delegate and a state Republican convention alternate delegate.

He also is a member of Plymouth Opportunity Council, Plymouth Community School Council, P&A Theater Committee, Farrand School PTA, director Plymouth Cub Scout Pack 863, Plymouth Jaycees, director Central Michigan University alumni association, executive secretary National Catholic Bookman's Association and Western Wayne County Conservation Club.

Lewicki said, "It has become increasingly apparent to me that a real and definite need exists in the township of Plymouth to elect candidates who will communicate and support the interests of the people."

John Murawski

John M. Murawski, 39, Democratic candidate for Plymouth Township trustee, resides at 41020 Greenbriar Lane. with his wife, Margaret, and their four children.

He was graduated from Eastern Michigan University with a degree in industrial management and is employed with Gaylord Container Co. in Plymouth Township.

"I have been an active participant in affairs that involved both the township and the City of Plymouth, through civic organization, research committees and as a representative of the Democratic party."

"This involvement, I feel, gives me an insight on issues that in the future will involve both governmental bodies and the Plymouth Community as a whole."

"I have, in the past, supported unification," he continued. "However, I am anxiously awaiting the results of the study which is now being conducted and which may throw further light on the subject."

"I feel that each area should be treated with equal importance by all board members and I pledge myself to do so if elected."

"I offer you a chance in the two-party system and urge your support toward my election. I've served before. I'm willing to serve again."

Anne Arrives

Her Recipe For Making A New Home Calls For Enthusiasm

Mr. and Mrs. Robert Thompson, of 1325 Elm, Plymouth, announce the adoption of a daughter, Anne Virginia Thompson; born June 27.

The Thompsons have two sons, David and John.

If you have the pleasure of talking with Mrs. Edmond Judd, of Linden Street, for any length of time, you come away feeling proud. Proud that you live in America, Michigan and Plymouth.

Mr. and Mrs. Judd have only lived in Plymouth for two years, but they are so interested in our city and state and what they have to offer that a listener begins to see Plymouth and Michigan through new eyes.

"We want to tour our newly adopted state," said Mrs. Judd, "and learn all we can about it."

Originally from Bristol, Conn., which is 18 miles from Hartford, Mr. Judd's work with Associated Spring Co. has taken his family to Mattoon, Ill. and Dayton, O.

"We treat each new location as if it is going to be our permanent home--and who knows, maybe it will," Mrs. Judd mused.

THE FAMILY, which includes active, 10-year-old Curt, and Polly who is 5 1/2, has enjoyed Ann Arbor's college football, Dearborn's Greenfield Village and several other attractions our state has in store for a newcomer.

Mrs. Judd is equally enthusiastic about Plymouth. Her membership in the Newcomers Club, the Plymouth Woman's Club, Panhellenic, and the American Association of University Women is a pretty clear indication that she sits on the sidelines only in a football stadium.

When it comes to cooking Mrs. Judd admits that this, in addition to bridge, golf, swimming and learning about antiques, is one of the many things that she enjoys.

A bulging file of clipped recipes, and several much-used

cookbooks are evidence that she is at home in her attractive wood-paneled kitchen.

THERE IS one recipe book that her daughter, Polly, will be introduced to shortly. "This was my first cook book when I was a little girl," said Mrs. Judd, as she leafed through the worn pages.

"We used to make fudge on Sunday afternoons and as you can see that page is pretty spattered," she commented.

Mrs. Judd's recipe for cranberry salad is ideal for the holidays, but it can be used whenever fresh cranberries are available. Her "Under-the-Sea" salad is great when company is coming or when a heat wave sets in.

CRANBERRY SALAD
Combine 1 cup of ground raw cranberries, 1 cup ground raw unpared apples and 1 cup sugar. Make 1 pkg. of lemon Jello to directions. When partially set add cranberry mixture and 1/2 cup seeded grape halves and 1/4 cup chopped walnut meats. Chill.

UNDER-THE-SEA SALAD
1 pkg. lemon Jello
1 pkg. lime Jello
2 cups miniature marshmallows
1 cup broken pecans
2 3 oz. pkgs. cream cheese
1/2 pint whipping cream
1 can Royal Anne cherries
1 can crushed pineapple

Drain cherries and pineapple, reserving juices. Halve cher-

The Top Side of Life

By REV. DAVID M. STRANG

City Manager Richard Blodgett's search for a special kind of whistle to rid Plymouth of starlings (reported in this paper last Wednesday) has given me the idea for a new corporation.

The company would specialize in the invention and production of whistles capable of performing tasks thus far unimagined by the human mind. With further fanfare, then, here is our first catalog of whistles:

1. THE WHITE RACIST WHISTLE. This little gem will emit a shrill scream and is designed for use whenever it is rumored that a Negro might move into the Plymouth community.

The sound will be heard only by black people, whose ears are different than white ears, as any good bigot knows.

The high-pitched tone is guaranteed to send all Negroes within five miles of city limits back to the ghetto.

A special feature of the whistle is that it will not disturb the ears of those Negroes who are employed in industry around Plymouth. Obviously we need them working here so that our community will continue to prosper with the aid of their labor.

2. THE WAR ON POVERTY WHISTLE. This red, white and blue noisemaker can be blown whenever some comfortable middle-class guy complains about government spending to end poverty.

The instrument is unique because it accomplishes two jobs. First, it is loud enough to drown out the griper's ignorant noises. Second, the sound will start a special recording built into the whistle, which will remind the comfortable one how his suburbia was built on federal credit and his expressways were paid for with federal tax dollars. (Note: Guess who didn't complain about those government "hand-outs"?)

3. THE ANTI-PROPERTY DEFACING WHISTLE. When blown this whistle will emit a high decibel destruction tone that will turn to dust all political signs which either look as if they were lettered by kindergartners or which deface trees, views of the park, or otherwise assault one's sense of beauty.

4. THE FAIRNESS IN ZONING WHISTLE. This one is designed for use at any zoning commission meeting in which low income housing is zoned out of existence for commercial buildings or expressways, without providing satisfactory housing and relocation elsewhere in the community.

The music produced by this

whistle will be sweet enough to have the added effect of making municipal planners more sensitive to human need.

FUTURE EDITIONS of the catalog will suggest other whistles, all designed with the intention of contributing to a more humane and beautiful world.

Mrs. Huegel Marks Her 104th Birthday

A family gathering that includes five generations is something special. But when that same family gathers to celebrate the sixth birthday of a great-grandson and the 104th birthday of a great-grandmother, you have an extraordinary event.

Mrs. Sophie Huegel was born in Germany 104 years ago on July 31, and last Wednesday afternoon her family gathered to celebrate her birthday with a dinner in the Martin Luther Memorial Home, South Lyon, where she now lives.

Her son, Albert Huegel, of Plymouth, and daughter, Mrs. Sophie Saner, of Lake, Mich., were both on hand to wish her a happy birthday.

Her great-grandson, Gary, who was also born on July 31, 98 years later, was there to share his birthday with his great-grandmother. His parents, Mr. and Mrs. Charles Brokas and his sisters, Debbie and Judy joined the family party.

Harpers Have A Baby Boy

Mr. and Mrs. John M. Harper, of 499 Evergreen, Plymouth, announce the birth of a baby boy, Randall McCambridge, born July 15 and weighing eight pounds, three ounces.

Maternal grandparents are Mr. and Mrs. Robert C. Utter, of Amherst Ct., Plymouth. Paternal grandparents are Mr. and Mrs. John C. Harper, 390 Pacific, Plymouth.

Mrs. Harper is the former Susan Utter.

Other Plymouth members of Mrs. Huegel's large family are Mr. and Mrs. Roy Schultz and family, Mr. and Mrs. Avery Penney and son, and Mr. and Mrs. Ronald McLennan and daughter, Kathy.

Five generations were represented by Mrs. Huegel, Mrs. Saner, Mrs. Roy Schultz, Mrs. Ronald McLennan and Kathy McLennan.

A Northville branch of the family includes Mr. and Mrs. Fred Balko and family, Mr. and Mrs. Fred Casterline and Mr. and Mrs. Julius Saner.

Local Cancer Foundation Asks Residents For Aid

An urgent appeal for worn white and pastel sheets is being made by Mrs. Louis Dely, branch chairman of the Michigan Cancer Foundation for the Plymouth area.

This material, to be made into cancer dressings by the volunteer sewing groups, may be left at the Michigan Cancer Foundation office, 173 North Main, Monday through Friday, between 1-3 p.m., or arrangements for home pick-up can be made by calling 453-0151.

Volunteer workers are also needed to work in the local office, particularly after Sept. 1. Information regarding volunteer office work may be obtained by calling 453-3010 or 453-0151.

The Rev. John W. Ribar, former pastor of St. Thomas Lutheran Church, Freedom Township, has accepted the Foxwell-Albright Fellowship from the American Schools of Oriental Research, Jerusalem and Bagdad, Iraq.

Pastor Ribar has served as pastor of St. Thomas since 1965 while studying in the University of Michigan's Department of Near Eastern Languages and Literatures. The grant will enable him to conduct research for his PhD thesis.

Mrs. Dely announced plans for a September open house in the Plymouth office, which will acquaint workers with one another and enable them to coordinate their work.

Pastor To Study Orient

Rev. Ribar has also accepted an appointment with the Carnegie Archaeological Campaign in Ashdod, Israel for two months in June 1969.

He was previously a member of the campaign, which conducts archaeological excavations in the Holy Land.

Rev. Ribar will be joined by his wife and three sons on Aug. 8. The family will live in Israel for one year.

Rev. Ribar is the son of Mr. and Mrs. Louis J. Ribar of 398 Pacific, Plymouth.

Because the planet Jupiter is so large, it has a stronger gravitational pull than the earth. Someone who weighed 100 pounds on earth would weigh 260 pounds on Jupiter.

VIVIAN
U. S. CONGRESS

TOWNSHIP OF PLYMOUTH
BOARD OF TRUSTEES — SPECIAL MEETING
TUESDAY, JULY 30, 1968

The meeting was called to order at 7:32 p.m. by the Supervisor.
MEMBERS PRESENT: John D. McEwen, Helen I. Richardson, Ralph Garber, Russell Ash, Gene Overholt.
MEMBERS ABSENT: Louis Norman, Elizabeth Holmes.
ALSO PRESENT: Ralph Cole, Attorney.

APPROVAL OF THE MICHIGAN TOWNSHIP ASSOCIATION LIFE INSURANCE PROGRAM FOR ALL TOWNSHIP EMPLOYEES AND CANCELLATION OF THE EXISTING LIFE INSURANCE POLICY WITH THE TRAVELERS INSURANCE COMPANY.
Mrs. Richardson advised the members of the board of the situation as it stands with the Travelers Insurance Company and of the costs involved to insure the present twenty-three (23) employees of the Township with the Michigan Township Insurance plan. A letter from the Township Attorney, Ralph W. Cole was read stating that he had contacted two representatives from the Travelers Company and they have been unable to give any valid reason why the Township should pay a higher rate than the one quoted in their letter of April 25, 1967 and accepted by the Board of Trustees at their special meeting held on May 23, 1967, therefore he requested that their company return the checks which they apparently have in their possession so that the Township can write them a check for eleven (11) months premium at the rate quoted. It is further recommended that if the Township does not receive the outstanding checks within a reasonable time that we stop payment on the outstanding checks and on the checks which have been returned to the Township unsatisfied by the insurance company and that the Township write a new check for the eleven months premiums at the rate quoted and mark the check "Payment in full for premium balance on Policy No. G 616078M." It was moved by Ralph Garber, supported by Russell Ash, to notify the Travelers Insurance Company that the Township of Plymouth is cancelling Life Insurance Policy No. G 616078M, effective July 1, 1968 and will not renew the policy for the coming year. Carried unanimously.

It was moved by Gene Overholt to accept the recommendation of Township Legal Counsel relative to the payment of Policy No. G 616078M. Supported by Russell Ash and carried unanimously.
It was moved by Russell Ash and supported by Ralph Garber to accept the recommendation of the Township Clerk and authorize her to consummate the Michigan Township Association Group Life Insurance Policy in the amount of \$5,000 on each of the twenty-three (23) employees, retroactive to July 1, 1968 and said policy to be effective to July 1, 1969. Carried unanimously.
A motion was made by Ralph Garber and supported by Russell Ash to adjourn the meeting. Supervisor McEwen adjourned the meeting at 8:36 p.m.

Approved,
JOHN D. MCEWEN, Supervisor
PUBLISHED: Aug. 4, 1968.

Respectfully submitted,
HELEN I. RICHARDSON, Clerk

Your wife will probably kill you if you come home too late this summer.

Last summer, if you came home late, you probably got nagged.

This summer could be different.

This summer there's a gun in the house. And, one hot night it could be in the nervous hands of your well-intending wife. She's had lots of experience handling

kids and cuts and baby bottles.

But that's a little different from a .38. Or a double-barrelled shotgun.

Maybe you'll work late a few times. Or stop off with the guys after work one night. And maybe somehow forget to call home.

With all the talk going around, it won't take much to set a nervous imagination in motion.

That night, your footsteps on the porch might not sound so familiar. Your shadow on the side door might look bigger than a hundred nights before.

In one split second you could be face to face with the end of your world. And her's.

No, guns don't kill.

People do.

Keep the two apart in *your* home this summer.

MUST

men united for sane thought

Probe Huron Flood, Pollution Plans

Federal and state officials are discussing a combined effort to deal with flooding and pollution of the Huron River. Two federal agencies--the

Interior Department's Water Pollution Control Administration and the Department of Housing and Urban Development--are processing applications for \$63,100 in funds for a two-year project.

Purpose of the project, according to 2nd District Congressman Marvin Esch, would be to "improve communications and to maximize the utilization of available community and individual capabilities."

Esch, R-Ann Arbor, met last week with leaders of the Huron River Watershed Council to discuss four possible short-range flood control methods.

"The extensive damage caused by the Huron River flooding during the week of June 23 can only be avoided in the future by cooperative planning and action," Esch said afterwards.

At the meeting were John Dillon, past chairman, and Jerome Fulton, executive secretary of the Watershed Council.

UNDER CONSTRUCTION are these flood control plans: (1) Warning system--a cooperative communications system

with local radio and television stations, police and sheriff departments, and local officials, similar to systems presently in operation in a number of western states to alert communities of rising flood waters.

(2) Identification of flood plain--a type of marking system, analogous to that used on roads and highways to warn citizens of deer crossings or falling rock, principally to notify prospective property purchasers of the fact that their property is located in a potential flooding area.

(3) Flood plain zoning--an effort which has been started in a number of communities which border on flood plains to encourage local units of govern-

ment to draft protective zoning requirements.

(4) Public acquisition--efforts to encourage local governments to purchase areas in the flood plain for open space, park and recreation purposes.

(5) Structural improvements--for example, channel improvements, floodproofing, upstream dams, levees and the like.

"Each of these suggestions," Esch pointed out, "require initial analysis by local, state, and federal officials of engineering and economic feasibility. Equally, if not more important, these preventive measures must be discussed fully and openly with all of the local citizens involved to determine social feasibility."

County Manager Needed-Pursell

Three areas of Wayne County government change were underlined in recent talks by Carl Pursell, candidate for the Republican nomination for supervisor in the 26th District.

Pursell, running in a district that includes Livonia and Plymouth, called for a chief

county administrator, pollution abatement in the Hines Parkway area and cooperative arrangements between local government.

Pursell, president of the Plymouth Chamber of Commerce, said:

1. "After reducing the County Board from 130 to the new 26 man board, we can begin to establish new lines of responsibilities. I believe the board should consider hiring a chief executive officer to be fully responsible for all county operations. He would report directly to the board of supervisors similar to that of any large business corporation. This would eliminate the present 'buck passing' such as seen in the county jail problems.

2. "It is also important to recognize that our local units of governments are more and more sharing and effecting programs with their neighboring governments. Water, sewer, incinerator, roads, parks, and other programs indicate this trend. It is important that the supervisor representing this area be familiar with the objectives and problems of Northville, Livonia, Plymouth and Canton Township.

"I have had more personal working experience with this government than all my opponents combined. Although I support strong local government, I also recognize that two or more local governments can build an incinerator at less unit cost on less land. Some programs can and will eliminate duplication of costs and efforts.

3. "I believe that people of this area deserve a more attractive and useful Hines Parkway. Newburgh, Phoenix and Wilcox Lakes are heavily polluted. Just last year Wilcox was closed most of the skating season because a local plant was dumping oil in the river. I am suggesting the local governments call for a joint effort and coordinate this effort through the Water Resource Commission and begin to take immediate action to correct this unnecessary waste. The lakes could provide our residents with an attractive setting to be focal points for civic programs."

State Fair Lists Free Horse Show

Fifteen horse shows, free to fair patrons, will be presented in the Coliseum at the Michigan State Fair, August 23 through Sept. 2 (Labor Day).

Arthur Godfrey and Goldie, his Palomino horse, will feature four of the performances. The famed Detroit Mounted Police Drill Team is returning for all of the ten evening and five matinee shows. Godfrey will appear on the evenings of August 29, 30 and 31 and also August 31 matinee.

Early in the fair there will be the quarter horses, Palominos and parade horses. Then the colorful Arabians, Appaloosas, and Morgans followed by ponies, saddlebreds, Tennessee Walkers and the giant Percherons, Clydesdales and Belgians. E.J. "Jeff" Keirns, State Fair general manager, said that throughout the horse show programs will be various special contests including barrel racing, pole bending, cutting, girls' goat tying, jumping and stump racing.

The popular horse-pulling contest again will be held in front of the Grandstand starting at 9 a.m. Saturday, August 31.

6 Livonians Join In CMU Orientation

Six Livonians attended pre-registration and orientation at Central Michigan University recently.

The CMU freshmen are: Suzanne I. Brown, 14120 Livonia Crest; Catherine A. Eckhout, 32422 Wisconsin; Shirley M. Hixson, 32909 Perth; Lorraine M. Larson, 33024 Grenada; Robert Lee Myers, 15105 Gordon; Christine L. Mitchell, 32444 Barkley; and Dawn M. Pownall, 38036 Donald.

4 In Area Get G.M.I. Degrees

Four area students were among 450 receiving degrees from General Motors Institute. Dr. John A. Hannah, president of Michigan State University, delivered the commencement address.

They are: PLYMOUTH -- Charles E. Leahy, 400 Plymouth; Harold G. Nuoffer, 41931 Five Mile; and Daniel R. Smudski, 603 Herald.

REDFORD TOWNSHIP -- Michael J. Dimeglio, 11487 Tecumseh.

BEAUTIFUL QUARTET of Perfecta girls will inform bettors at the Detroit Race Course how to make wagers on the new mutual pool started this year at the popular thoroughbred racing plant. The colorfully attired girls not only will give information on the Perfecta, but also point the way to the windows.

Teens Beat Racket

Teen-agers are helping Britain beat the litter racket. "Litter Defence Volunteers" attack junk heaps, squalid canals, and littered parks.

The platoons of teen-agers wear T-shirts embossed with the slogan "I'm not an untidy So-and-So, and march down town streets with large push brooms to rally the citizens to their cleanliness campaign.

Even the Mods and the Rockers in their studded leather jackets got into the act. In the Essex town of Havering, they cleaned up whole fields covered with junked cars, corroding mattresses, broken-down TV sets and refrigerators, and piles of factory waste.

As one volunteer put it, "Once we got started it was all a bit of a giggle. We cleared that ground like locusts. I reckon that the volunteer team got through a whole week's work in one morning."

To give an added fillip to the clean-up efforts, some of the stately mansions of England

were opened to the volunteers for visits.

These included the homes of the Duke of Bedford, the Marquis of Bath and Lord Montagu.

Accountants Get Banner

The Detroit chapter of the National Association of Accountants was awarded a banner of achievement in recognition of its outstanding performance in competition with the more than 200 chapters of N.A.A. at the Annual Conference in New Orleans, La.

The Detroit chapter has over 1,300 members in the Greater Detroit area, making it the third largest chapter of the 63,000 member association.

New officers of the Detroit chapter are:

President--Frank I. Cook of Detroit Coca-Cola Bottling Co. Vice Presidents--Leonard Rynski of Arthur Anderson & Co.; A. X. Schmaltz of Brooks & Perkins, Inc.; Ed Kral of Kelsey Hayes Co.; and Robert Connors of Chrysler Corp.

CARL PURSELL X

WAYNE BOARD of SUPERVISORS

For the first time, the voters and taxpayers of Wayne County will have an opportunity to elect their representative to the Board of Supervisors on a direct basis. Instead of a 130-man Board, the decisions for your \$125 million dollar budget will be made by 26 directly elected officials.

The most qualified man you can name for that job is CARL PURSELL. He has dedicated himself to community service and been a key instrument of inter-relationships of governmental agencies in this area. CARL PURSELL IS PROVEN.

Signed, Livonia Committee for Pursell

X CARL PURSELL

After 13 years Charles Noel is repeating the lead role in "Thieves' Carnival" in the U. of D. Summer Repertory Festival (July 11-28). "I still have the same problem I had 13 years ago," he says. "Remembering the lines."

Supporters of an Aug. 6 Wayne County tax proposal are adding a concerned tone to their talks and articles.

Wayne County Tax Proposal 'Crucial'

This is apparent in a recent letter from Judge James H. Lincoln of the Probate Court's Juvenile Division. Lincoln is chairman of a committee supporting the tax proposal.

The proposal is to renew for five more years a one-mill property tax that was voted five years ago for Wayne County operations.

In a letter this week, Lincoln said:

"BECAUSE OF ITS crucial public importance, I most earnestly solicit your support for County Proposition No. 1, which will be on the ballot for the Aug. 6 primary election in Wayne County.

"Proposition No. 1, placed on the ballot by the County Board of Supervisors, seeks to continue for an additional five years a one-mill property levy (\$1 per \$1,000 of equalized valuation) which was adopted by the voters in 1964 for a five-year period. Thus it is not a tax increase.

"Approval of Proposition No. 1 is absolutely essential to prevent disastrous cutbacks in many of the most vital public services provided by Wayne County for its 2.7-million residents. The levy is costing the average homeowner only about 50 cents a month (based on an estimated market value of \$12,000 for the average home). But it produces approximately \$9.5-million annually to meet pressing human needs!

"Revenue from the one mill helps to support county programs in the fields of hospital care, public health, child care, juvenile delinquency, mental health, law enforcement, the courts, education, library services, and parks and recreation. Failure of County Proposition No. 1 would force drastic reductions in all these activities.

"SUCH CUTBACKS would imperil the health, safety and well-being of every resident of Wayne County because county programs are already operating at the bare minimum due to the shortage of funds even with the one mill.

"For example, I know all too well from personal observation that many juvenile delinquents capable of serious crimes are roaming our streets, unsupervised, due to my court's lack of staff and space. The people of Wayne County are not getting the services necessary to curb de-

linquency or to handle neglect cases. Failure of County Proposition No. 1 would result in an even greater shortage of court personnel.

"Similar shortages exist throughout county government in spite of the best efforts of county officials to achieve long-term solutions to the fi-

financial problems of the county.

"County Proposition No. 1 has been endorsed by the Greater Detroit Board of Commerce, the Wayne County AFL-CIO Council, the Metropolitan Detroit Council of Churches, the Catholic Charities, the Jewish Community Council, United Community Services of Metro-

politan Detroit and numerous city councils and township boards in Wayne County.

"In the interests of sound public services and a better community, I urge you to add your influential voice to those that are supporting County Proposition No. 1," Lincoln said.

30650 PLYMOUTH RD.
3 Blocks West of Middle Belt Phone GA 2 1000

AN AREA WAS SCOOPED out behind the home of Mr. and Mrs. Dwight Gordon on Spring Valley Rd. to provide for windows and doors for a lower level family room.

In this sheltered area the Gordons have created an attractive patio with flagstone paving and low retaining walls banked with plants. Closely clipped grass grows between the random-shaped flagstones that are set several inches apart.

In a bed next to the house are azaleas and rhododendrons which thrive in this protected location. The north wall is made of ledge rock and growing from the crevices are

"hens and chickens" and other sedum. At the base of the wall is a bed of ajuga with iris, peonies, and begonias for seasonal color.

The south wall, built of cement blocks, is covered by winter creeper euonymus. At the foot of this wall is a shady area with ferns, and persian iris and impatiens blooming in the summer.

Many varieties of plants grow on the bank above the wall. These include hosta, lily-of-the-valley, cotoneaster, potentilla, and a colorful assortment of daylilies. This grassy flagstone patio with its verdant enclosure reflects Mrs. Gordon's interest in gardening.

MRS. RAY EICHER, who lives in a beautiful country home on Nine Mile Rd., has used pink, her favorite color, as a decorative accent both inside her house and outside on her patio which is built of pink Tennessee sandstone flags set in pink mortar joints. Many of the fieldstones that form the retaining wall at the edge of the raised patio are pink granite.

The white wrought iron furniture on the patio has white cushions splashed with pink flowers, and large pots of pink geraniums edge the patio. This color scheme is romantic, but is fresh and crisp looking.

A wide, dark-surfaced asphalt drive-

way sweeps around the edge of the patio; for large gatherings, guests often spill over onto the drive and sit there as well as on the patio.

The patio was constructed when a living room wing was added to the house and an area that had been lawn was paved. Three large maple trees and a Chinese elm tree growing on the lawn were surrounded by the patio but left intact. The patio was built at the same level as the lawn had been, and large circular openings were left around each tree. These are filled with smooth white stones that allow water to seep down to the tree roots.

THE HOME OF DR. and Mrs. Conrad Lam on Westbrook Rd. in Farmington is built on a lot that slopes steeply down into a wooded ravine. The patio, just outside their lower-level family room, is at the edge of the ravine and has a view of a small waterfall and a tangle of trees and wild shrubs across the ravine.

The patio is paved with a rectangular "poured" concrete slab that has been scored into two-foot squares to prevent cracking and frost damage. The squares give the patio an attractive pattern and are of a size that is in good scale with the house and the patio area.

A decorative black wrought iron railing edges the patio area, adding an unusual, personal touch. It is a special memento for the Lams. Before they acquired it, it was used around the mezzanine of Henry Ford Hospital, where Dr. Lam serves as a staff member.

Flagstone steps lead from the patio to the upper level. The slope next to the steps is carpeted with ajuga. A gnarled old hawthorne tree is an interesting accent plant at the edge of the patio area.

Patio Turns Outdoors Into A Living Area

A patio is a prominent part of most suburban and many city yards. It is the center of family activity in the summer months and is used as a play area and for relaxation and entertaining. It helps make the yard a real outdoor living area.

Patio is a Spanish word meaning "courtyard" and is derived from an architectural form brought to Spain by the Moors in the 7th century. The main features were a paved area enclosed by walls, with a central pool or fountain and groups of potted plants.

Spaniards developed their typical patios in Florida, California, Mexico and other areas where they settled, and the enclosed patio is still found in these areas. In other parts of the country, however, the traditional patio has been modified so that only a token enclosure is given by the adjacent house wall.

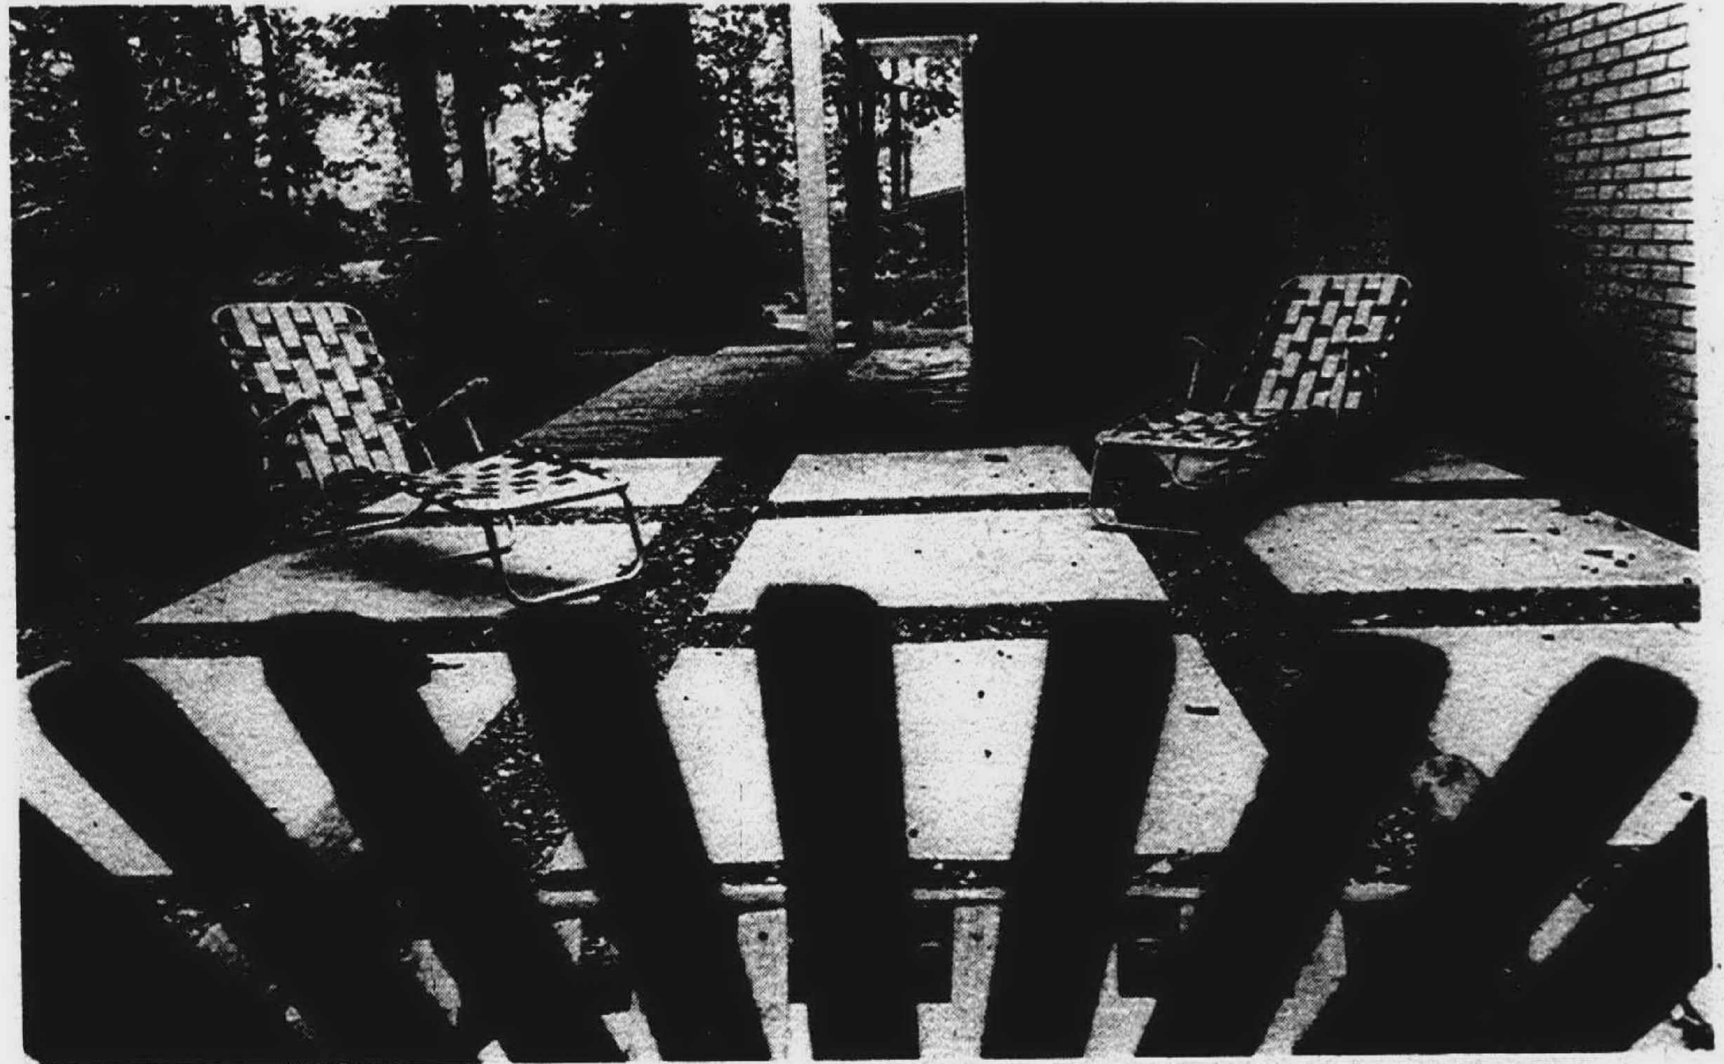

In order to be most useful, a patio should be level and firm, and built so that it drains quickly

after a rain. Materials for paving include brick, stone, concrete, wood, and imaginative combinations of these materials.

The patio should be located where it is convenient. Patios adjacent to kitchens or family rooms prove especially popular. They will be most useful if they provide maximum shade in summer and can serve as a "sun trap" at other seasons. Depending on the situation, patios can be located so as to take advantage of a lovely view, or tucked away so they provide privacy or seclusion.

STORY: Betty Frankel

PICTURES: James Hubbard

THE ATTRACTIVE PATIO AT the Allen Ansell home on La Muera Rd. was a "do-it-yourself" project. Four-foot square cement slabs are surrounded by a bed of grey crushed stone with railroad ties providing an edge to hold the gravel. The contrast in textures is very pleasing and the large cement slabs provide a firm base for chair and table legs.

A narrow wooden deck leads across the rear of the house to a second patio area that is now partly completed. This type of patio can be constructed a bit at a time. The soil in the Ansell yard is sandy, so it was used as the base on

which the patio was built. A four-by-four foot form was constructed and placed in position and the concrete poured into it.

At the edge of the patio a small flower bed edged with railroad ties serves as a transition between the patio and the yard.

No-Hitter, Unassisted Triple Play 24 Hours Apart

A no-hitter one night, an unassisted triple play the next! So it went in the majors this past week.

The no-hitter was turned in by George Culver of the Cincinnati Reds in beating Philadelphia, 6-1. He walked five struck out three and one batter reached first on a catcher's interference.

The lone Philadelphia run scored on an error.

Ron Hansen, shortstop of the Washington Senators, pulled off the triple killing against Cleveland, the first such play of its kind in 41 years.

Dave Nelson and Russ Snyder were on base for the Tribe when Jose Azcue lined to Hansen on a hit-and-run play. Han-

sen stepped on second to double Nelson and outran Snyder back to first for the third out.

Johnny Neun of the Tigers was the last man to pull off a triple play on May 31, 1927 -- against Cleveland.

THERE'LL BE A big game Monday when the Detroit Free Press softball team meets Chrysler in the semifinals of the Wordsmith's Softball League. Such elite members of the FP sports department as George Puskas, Joe Falls, George Cantor, Ken Clover and Kurt Sylvester play for the FP team. It was Sylvester's three-run triple that paced the FP team to its last win.

THE GREEN BAY Packers gave released rookie back Bob Apisa from Michigan State. The Packers also have traded rookie guard Steve Duick to Atlanta for placekicker Wade Traynham.

DOUG HOLCOMB, former star quarterback at Purdue University, has been named new football coach at Lake Orion High near Pontiac.

On the subject of prep appointments, star pitcher Jay Schwalm of Livonia's Class A baseball team has been named to coach and teach in Birmingham, filling the job left open by Ron Hillier, who becomes the baseball coach at Franklin High.

Hillier, who recommended Schwalm for the job, manages the Livonia "A" team.

PRO FOOTBALL teams are plagued with players demanding salary hikes. Several have "walked out," among them ex-Michigan Stater Gary Ballman, who has had some difficulties with the Philadelphia Eagles.

STAGE DOOR JOHNNY, one of the nation's top three-year-olds, has been retired because of a leg injury.

MARTY RIESSEN has jumped to professional tennis bandwagon and will begin his pro career in Europe next week. Riesen has been one of the

top U.S. amateurs and last Sunday lost in the finals at Philadelphia to Arthur Ashe.

DOUBLES PARTNERS Jack Treloard and Jack Born topped the 1967-68 Greater Detroit Bowling Association's All-City team.

Don Wray, Al Thompson and Bob Kwolek rounded out the selections. Treloard was named the captain after averaging 211 in 182 games as a member of the John Ivory team.

Born was the only repeater from last year.

The second-team selections included Rick McCarty, who's only 16. He averaged 201 for the season.

CYNTHIA GOYETTE is only 22. But she already is considered "an old lady" as far as swimming wars are concerned. Miss Goyette of Wayne State U. made the Olympic team four years ago, but will have her problems repeating when the trials are held in Los Angeles, Aug. 24-28.

Lions, etc. Taylor follows Walled Lake, Troy, Pontiac, Dearborn and even Detroit which have expressed an interest.

Taylor officials point out that a stadium in their city would be adjacent to all the major expressways.

The brilliant crop of youngsters (16-18) in the U.S. endangers Miss Goyette's chances of representing her country in Mexico City.

THE CITY OF TAYLOR is the latest to make a bid for a new metropolitan stadium, which would house the Tigers, Second In Tourney East Lansing--Jim Wibby, of Plymouth, was runner-up in the Michigan State University single intramural tennis tournament this summer.

Observing SportsBy George Maskin

Confusion reigned this past week in the Great-Livonia Connie Mack Baseball League.

Through nobody's fault, a flock of last-minute games had to be made up to qualify divisional winners for district tournaments.

We say "nobody's fault" because these were games rained out earlier in the campaign.

Under the league's rules, every contest that might have a bearing on the title must be held. Hence the jam-up which resulted in teams playing four games in three days, five in four, etc.

The races in both divisions were thrillers. Not until all the games were in was it finally decided who won—and who lost—the pennants.

Which is great! To a point, at least.

IN THE HECTIC developments of the final week, there was a ruling at one stage from league boss Bob Green that a game involving the Livonia Phillippi Service and the Livonia Spartans had to be staged to a finish.

Green's proclamation came while the game was going on and was agreed to by the managers and players, although all concerned were aware of the curfew that exists on all games played at Livonia's Ford Field.

The game ran past the curfew and continued merrily on.

There was no score until the 11th inning

when finally Phillippi captured a 1-0 thriller.

Well, Phillippi thought it had won.

Shortly afterward, Green reversed himself.

He said that there was a curfew rule, that he couldn't make a decision to violate his own rule.

Hence, he declared the game had to revert back to seven innings when there was no score and ruled an official tie.

FOR A MAN to admit a mistake is, indeed, a very honorable step.

Most of us would rather try and talk ourselves out of a jam with a big white lie.

On this score, Green rates our admiration.

Yet, there were some managers who felt that once Green made his original announcement that "the game would be played to a finish," he should have stuck by it.

How would you like to have been the managers of Livonia's Allen Fence and Northville teams, who were "pulling" for a Spartans' loss, because it meant they'd be right back in the divisional title picture?

THEN, THERE'S something else about the pile-up in Connie Mack play.

It forced the playoffs between Livonia's Cardinal Decorating and Redford Township to come to a complete halt.

Originally, the teams were to have played last Monday. Then the game was scheduled for Wednesday.

As we pen these words, one has no idea when the best-of-three playoffs will begin between Cardinal and Redford to determine which advances into the state tournament next week in Ann Arbor.

Green isn't really to blame for the Free Press holdup. It's just that with the Mack games to be made up, Cardinal and Redford players have been performing elsewhere.

Cardinal players are scattered over three teams in the Mack League; Redford over two teams.

Hence the Free Press action has to wait.

Which brings up a point: Since sandlot baseball has grown and grown in these parts, why not bar a player from competing on two teams?

What would be wrong with upping the games played in the Free Press League to 14 a month; in the Connie Mack to 12?

This amount of action should be enough to suit the appetites of all the players and give them an opportunity to do a little something else in the summer.

It also would eliminate what we have this summer, a jam-up, a wait and some unpleasanties, off and on the diamond.

Northville Ends On High Note

Northville Downs celebrated its 25th birthday in golden style with the silver anniversary going down in the history books as the best ever.

Wagering and attendance were at an all-time high with the handle up 10 per cent over last year with a record nightly average of \$310,810 and the turnstile count up one per cent.

This despite the fact that the "Downs" was hit by inclement weather at some point on practically every weekend and a heavy downpour in late afternoon held the final night's crowd down to 3,709, and betting sagged to \$256,961.

Northville handled a record \$16,785,589 for the 54 nights.

Tom Wantz, 26-year-old Adrian, Mich., driver-trainer who had never won anything before, joined Northville's list of driving champions when he compiled a .411 winning percentage.

Wantz had 67 starts, 20 wins, 10 seconds and six thirds.

It was a tight battle down to the wire between Wantz and veteran Ted Taylor, of Casselberry, Fla., with the former clinching the title on the next to last night when he had two entries and won with both. That placed him out of reach even though Taylor had four entries

on closing night and won two, with one second and a third. Taylor took the trophy for the driver with the most victories for the second straight year and just missed winning the title with his 4-2 average.

Wings Schedule 10 Preseason Contests

The Red Wings completed their 1968 preseason hockey schedule Friday. General Manager Sid Abel announced the Wings will play a total of 10 games, including two in Detroit he booked last week.

The preseason slate will begin Sept. 20, seven days after the Wings open training camp in Port Huron. They will launch the campaign against Boston at the Bruins' training base in London, Ont.

The schedule matches Detroit against NHL teams in nine contests and against the Fort Worth Wings, a Detroit farm club, in the other. The Detroiters play a pair of contests each against Boston, Minnesota, Oakland and Toronto and a single game against Montreal.

Four of the 10 games will be played in Michigan and two others will be within easy commuting distance of Detroit.

THE WINGS will play a pair of contests at Olympia, facing Toronto on Sept. 26 and Montreal on Sept. 28. In addition, the club has set two games

at Port Huron's McMorran Arena, against Boston on Sept. 21 and against Oakland on Sept. 29.

The game against Fort Worth, which will be played on Oct. 2 in Bowling Green, O., and the opener against Boston in London, Ont., also are contests Red Wings fans will find within two hours driving time of Detroit.

The remaining four games are booked on Sept. 24 against Oakland in Oshawa, Ont.; on Sept. 25 against Toronto in Toronto, Ont.; on Oct. 4 against Minnesota in Duluth, Minn.; and on Oct. 5 against Minnesota in Bloomington, Minn.

Sands Lounge with a 12-1 record carried off the regular-season title in Livonia's Senior Unlimited softball league.

Cloverlanes and Braves tied for second at 11-2, while Mike and Toms finished fourth at 10-2.

Other teams: Thomas Homes 9-4, Chevrolet S and B 7-6, Teepee Realty 6-6, R. and L. Wall 6-7, R.W.S. Michigan Bell 5-8, Hawthorn Center 4-0, Kerr 3-10, Garfield Auto Parts 2-11 and Nempco 0-13.

The playoffs open Monday at Ford field with Mike and Toms meeting Thomas at 6:30 p.m.; Braves and Chevrolet S. and B. facing at 8 and R. and L. Wall engaging Cloverlanes at 9:30; Teepee drew the bye for the two-defeat and out competition.

4 From Area Make Grade

Area golfers were among the qualifiers in the State Publix Golf tournament at Fenton.

The group included Gary Robinson of Plymouth, who shot 76, Bill Curtis, Farmington (72), Joe Wilson, Livonia (71), and Rocky Pozza, Livonia (71).

Wilson A 'Take Charge' Guy In Tigers' Drive

Talk about your athletes who produce in the clutch....the Tigers would like to nominate Earl Wilson for a spot somewhere high on the list.

Wilson doesn't have what one might say is a great record this year. He's 9-8 with an earned-run average of 2.90.

There's little chance he can reach his mark of a year ago when he was the Tigers' big pitcher with 22 victories against 11 losses.

Some of Wilson's difficulties are understandable. He missed almost three weeks with a heel injury.

Then he hurt his wrist when he stopped a line drive.

Notwithstanding, Wilson has delivered three times in the last two weeks for the Tigers in "key" situations—each time when the Tigers seemed to be faltering and on a downward skid.

THERE WAS an afternoon in Oakland where he set down the A's to help the Tigers head for home with a victory after their worst trip of the season.

Then, in Baltimore, when the Tigers needed a tonic, there was Wilson again with six strong innings before Daryl Patterson came aboard with a spectacular job of relief work.

Wilson's premier job came last Tuesday in blanking the New York Yankees, 5-0, to give the Tigers an even split in the two-game series.

The Tigers hadn't looked well the night before in being blasted by the Yanks. What's more Wilson found himself matched up with Mel Stottlemyre, the New York ace.

WILSON TOOK charge on the mound and with the bat. He held the Yanks to three hits and fanned five before giving way to Patterson in the ninth. It was Wilson who started the Tigers off in the scoring

column with a homer to the wrong field—right. Dick McAuliffe followed with another homer. Al Kaline doubled in two runs and Dick Tracewski knocked in the other.

McAuliffe is another who qualifies as "a clutch" performer.

He was the big Tiger with

Olympics Move Nearer To Flag

The Detroit Olympics lacrosse team, moving nearer to the Eastern Division championship in the National League, whipped Victoria, 12-8, at Olympia for its fifth straight victory.

Ross Jones, playing his last game for Detroit under junior rules, scored three goals and two assists. The Olympics host Toronto at Olympia Tuesday night.

the bat Wednesday night when Denny McLain picked up his 21st victory against three defeats by throttling last-place Washington with ease, 4-0.

McAuliffe doubled in the first inning and scored Detroit's first run on Mickey Stanley's fly. In the third, McAuliffe homered—his 14th of the year. In

the fifth he singled and raced around on Kaline's double.

Came the seventh and for the fourth time in the game, McAuliffe led off an inning with a hit—this time his second double. He once more scored when Kaline delivered a RBI single.

McLain scattered four hits

and fanned nine to gain his second straight shutout.

FOR McLain the victory also surpassed his previous high of 20 triumphs in a single season. He was 20-14 in 1966.

He now has won 80 and lost 45 since entering the American League in 1963 and as a Tiger he has the unique distinction

of having beaten each team at least once in each of the past four seasons.

McLain has completed 18 of the 26 games he's started and brought his earned run average down below two in 219 innings of work.

The statisticians figure that McLain will have at least 15

more starting assignments before the season ends, thus giving him a great chance to become the first major league pitcher since 1934 to win 30 games in a season. On that occasion Dizzy Dean was 30-7 for the St. Louis Cards.

The last American League hurler to hit 30 was Lefty

Grove, who was 31-4 for the old Philadelphia A's in 1931. McLain will get his chance for No. 22 Sunday when the Tigers play at Minnesota in a game to be televised on Channel 2. Manager Smith shuffled his pitching for Thursday's game with the Nats and used Pat Dobson in place of Mickey Lolich to no avail as Washington won, 9-3.

The Nats bombed out Dobson with a two-run homer by Epstein in the first and a grand slam poke by Ron Hansen in

the third. In the fifth, Bernie Allen "homered" for the Nats on a drive which actually was foul by several feet. But umpire Nestor Chylak saw the situation differently.

A homer by Norm Cash and three hits by Jim Northrup led the Detroit attack.

The Tigers, who play in Minnesota Sunday, returned home Tuesday for a two-night battle with Cleveland. Boston follows the Tribe into Tiger Stadium next weekend.

JOHN FETZER, president of the Detroit Tigers, is enjoying life these days as the owner of a club which appears to have a commanding lead in the American League flag race. However, he frets out each game as Observer Photographer James Hubbard discovered at a recent night contest. (Left) Gee. Things Look A Little Rough. (Center) That's Better, a Homer By Willie. (Right) Ahead And Everything Is Under Control Now.

The Tiger Schedule

SUNDAY—At Minnesota, 2:30 p.m. (Ch. 2 and WJR).
TUESDAY—Cleveland at Tiger Stadium, 2 games, 5:30 p.m. (WJR).
WEDNESDAY—Cleveland at Tiger Stadium, 8 p.m. (WJR).
THURSDAY—Cleveland at Tiger Stadium, 8 p.m. (WJR).
FRIDAY—Boston at Tiger Stadium, 8 p.m. (WJR).

This man is weeding his lawn!

YESTERDAY he used Turf Builder Plus 2. Now, while he sleeps, the dandelions, the plantain, the chickweed, (and similar kinds of rosette and vining weeds) are on their way out. And one morning a little later, he'll look at his lawn and notice that they have completely faded away.

How things change. Once upon a time people used to dig out weeds, one at a time. A backbreaking job. And worst of all, it didn't really work. If you didn't get every bit of the root out, the weed would grow right back up again.

Today, in minutes, America spreads Plus 2 and gets to the root of the matter. Rosette and vining weeds soon vanish and the grass itself gets thicker and greener because Turf Builder Plus 2 feeds as it weeds.

When's the right time to use it? Right now while your Scotts dealer is having a money-saving Weeds Away Sale. You'll be on your way to a better than ever lawn this fall.

Crabgrass a problem? Clobber it promptly with two applications of Clout, a week apart. You can get it at special sale prices right now.

Spartans Split Tests In Meet

FLINT -- So who needs rest? Not the Livonia Spartans baseball team. The Spartans had to sweat out winning a spot in the Cozile Mack district baseball playoffs until 10:45 a.m. Thursday when they left the field in Livonia a 4-0 winner over Redford's Big Boy.

With no chance to wipe the sweat from their faces, the Spartans made a dash to their cars and then another dash some 60 miles to Flint where they had to face Midland at 12:30 p.m. the same afternoon. The effects of the strain of a last-minute victory in Livonia and the drive to Flint

might have shook up an ordinary team. But the Spartans responded

with a 3-0 victory, thanks to some help from Dave Rice, a pitcher added from the Allen

Fence team of Livonia.

WHEN THE Spartans were facing Big Boy Thursday morning, Rice and his Allen mates sat in the stands cheering against the Livonia team.

Once he got to Flint, he forgot his morning cheers. He held Midland to two hits, fanned five and didn't walk a batter.

Rice also figured in all the scoring of the winners. In the second inning Rice walked and came home on Greg Wilkinson's triple.

In the sixth, singles by Jerry Detter, Rice and Phil Camp, plus an error, produced two more runs.

The Spartans rattled out eight hits with Camp leading the way with two.

FORM REVERSED ITSELF Friday morning when the Spartans were blanked by Flint, 4-0, in an opening round game in Flint.

Paul Tonnenmacher started for the Spartans and lasted three innings when Ken Grawkowski took over.

Dave Frost limited the Livonians to two hits in the shut-out. Camp collected one and Tim DeWitt had the other.

The Spartans were slated for action again Saturday morning in the double elimination tournament.

Shorthanded Lions Face Bills In 1st Exhibition

It'll be unenviable day Monday night for the Detroit Lions when they start their exhibition schedule facing the Buffalo Bills in Buffalo.

The Lions won't show their best against the Bills. Injuries, walkouts, the All-Star game ... all have reduced the Lions' roster to perhaps a danger point.

On the sidelines, among others, will be No. 1 quarterback Bill Munson, who was obtained from the Los Angeles Rams.

He underwent a leg operation this week and will miss at least two or three of the tuneup games.

Two or three other regulars also are ailing.

THREE OF the Lions' brightest youngsters—quarterback Greg Landry, Earl McCullough and Charles Sanders—played in Friday night's All-Star game.

They were to join the Lions Saturday, but it'll take them several days to become adjusted to the Lions' plays, etc.

Landry is the highly touted quarterback, who along with Munson and Greg Barton, another rookie QB, led to the Lions this past week asking waivers on veteran Karl Sweetan.

Sweetan had asked that the Lions trade him or release him since he could see no future on the team.

But, suddenly, Sweetan has

become important. The Lions find themselves with only Sweetan and Barton for QB duties Monday and it would be too much of a gamble to rest all their hopes on Barton.

Thus, the man they didn't want—and the man who didn't want to stay with the Lions—becomes a key figure, meaning Sweetan.

SWEETAN WANTS to play for New Orleans and the Saints put in a claim for him. Whether he winds up there remains to be seen.

But in the meantime he'll be shooting passes for the Lions Monday night.

The game against the Bills will offer the Lions a great opportunity to test the knee of second-year back Nick Eddy from Notre Dame.

Eddy saw little service last season as a rookie, but has shown in practice that he is healthy and sound again.

The Lions' game Monday will be carried on WXYZ radio with Van Patrick and Bob Reynolds calling the plays.

The Lions go to Mexico City next Sunday to face Philadelphia and will play their only home exhibition on Aug. 23 when they engage Baltimore in the annual contest sponsored by the Free Press Charities.

MAN'S JOB is handled by a pretty gal in the Class A League sponsored by the Livonia Recreation Department. Pam Theis, who has been an ardent follower of the teams all season, also is the official scorer. She's shown marking down the plays in a recent championship game.

Area Golfers Share Title In Tourney

Two area golfers performed on winning teams in the Salem Hills two-man, best ball tournament.

Play was restricted to 18 holes after rain washed out one-round of action.

Matt Williams, of Plymouth, teamed with Ray Hartner, of Northville, while Tom Kawo-

ski, of Farmington, played with Craig Seelman, of Sylvania, O., to tie the combine of Dr. Roy Smith of Southfield-Paul Haase of Detroit for top honors at 69.

The second flight crown went to the Farmington pair of Tim Peterson and Charles Conn, who shot a 78.

Gary Robinson and John Jakubiak, of Plymouth and Redford Township, respectively, shot 36-36--72 between them in the championship flight.

Plymouth's Bob Visser played with Westland's Ron Higgins and posted a 76 while Lew and Bob Mettetal of Plymouth had an 83.

Sports Holds TV Attention

Detroit sports fans will get another good look at their Lions before it really counts when WJBK - TV2 telecasts an exhibition game between the Lions and the New York Jets to be played in Cleveland Stadium beginning at 6:30 p.m. Saturday, Sept. 7, in color.

Doing the play-by-play will be Van Patrick and Sonny Grandelius.

Immediately following a post-game show with Patrick and Grandelius interviewing some of the players and coaches of the game, WJBK - TV2 will present the second part of the doubleheader as the Baltimore Colts meet the Dallas Cowboys in Dallas.

This game will start at approximately 9:30 p.m. and will be telecast in color.

Spartans, Morrall Annex Titles In Connie Mack

It was Earl Morrall of Redford Township and the Livonia Spartans carrying the hopes of the Greater Livonia Connie Mack League in district tournaments.

Morrall won the American Division title while the Spartans annexed the National crown — the latter in what amounted to a "last-second" situation. Because of rain and other postponements, the Spartans went down to Thursday morning, within two hours of game-time in the Mack district at Flint, before sewing up its trip.

Morrall was more fortunate. The Townshippers took their crown on Tuesday and weren't slated for action at Ypsilanti until Friday.

THE SPARTANS were faced with a "do-or-die" situation against Big Boy from South Redford when the teams collided Wednesday evening at Ford Field.

If the Spartans won, they copied the division. Otherwise the flag and the trip to Flint went to the Livonia Allen Fence team.

Rain cut short Wednesday's game after an inning and a half. So it was back to Ford Field at 9 a.m. Thursday with the Big Boy team fighting in the true tradition of sport despite the fact the game meant nothing to the Townshippers.

"You never know," said acting Manager Al Turner. "If we didn't go all out in this one, we might find somebody not trying to help us out with something another time."

THANKS TO four unearned runs and some nifty pitching and defensive play, the Spartans blanked Big Boy, 4-0, despite the groans of the Allen team, sitting on the sidelines. In essence it was another sports battle between Stevenson and Bentley Higs. The Spartans were comprised mostly of Stevenson players, the Allen team mostly of Bentley students.

Big Boy went with Ohio State-bound Denny Carol. The Spartans started Phil Camp and finished with Jerry Dettner.

All four Spartan runs came in the third inning when Rick Horstman started out matters with a walk. Matt Stachurski bounced one up the middle and all hands were safe on an error. Randy Johns bunted and the throw to third missed Horstman.

The bags now were loaded. Then Bob See forced Horstman, before Dave Fisher hit to first. The throw home was dropped; the gates were open. Dettner singled in two runs and Tim DeWitt one more and that was the ball game.

CAROL GAVE up only one hit the rest of the way while Big Boy collected five off Camp

and Dettner.

Big Boy loaded the bases in the fourth, but couldn't score. The Spartans on Tuesday waged an unusual battle with Livonia's Phillippi Service. The game was ruled a scoreless tie under the Ford Field curfew regulations after the teams had fought for 11 innings with Phillippi walking off a 1-0 winner. League director Bob Green

Prep Star Clips Record In Hurdles

More laurels have come to John Morrison, star hurdler at Redford Union High School last spring.

Morrison captured the 120-yard high hurdles in the unofficial record time of 13.7 seconds Saturday in the Regional Junior Olympics at Maumee, O.

The previous record was 14.2 seconds.

The victory qualified Morrison to appear in next week's National Junior finals at the University of Knoxville. Competition will begin Tuesday in Knoxville.

Morrison's blazing time at Maumee may earn him a chance for the U.S. Olympic team. The final Olympic trials will be held in mid-August in Oregon.

first ruled the teams had to play to finish; then he said he was wrong and the regular curfew would prevail.

Paul Tonnemacher hurled for the Spartans and fanned 18. Dave Paden went the route for the Phillippi team and struck out 15.

Paden's work won him a trip as an added member of the Spartans.

The game's only run, which wasn't to count, came when Dave Tovey tripled after Dave Fisher walked.

REDFORD'S Earl Morrall repeated as American champion with a 10-1 record, sewing up the crown with an 8-3 win over the Livonia Optimists.

Kirk Taylor forged the clincher, by allowing seven hits, fanning seven and walking two.

The Optimists took a 1-0 lead when Wayne Paulson singled, stole second and came home on two errors.

Redford got even in the third when Rich Craggs singled, went to second on a wild pitch and came home on an error.

In the fourth, Redford scored three times on a walk to Lee Bjerke, singles by Jerry Cook and Rick Kenyon and a triple by Fred Dunham.

John Schroeter singled and scored on Paulson's single in the Optimists' sixth before Redford bounced back with four more in the seventh on hits by Bill Howe, Taylor, Craggs and Fahey, plus a hit batsman. Schroeter singled over Bob Cascaden with the third Optimists' run.

THE PLYMOUTH Elks ended their regular season by downing Northville and Phillippi Service, 9-8 and 5-1, respectively.

Kevin Campbell hurled a no-hitter for the Elks against Phillippi, losing his shutout on two errors. He walked two and struck out three.

Walter Lee had three hits for the winners.

Against Northville, the Elks blew a 6-1 lead before winning in the eighth when Dale Rumberger tripled in Walter Lee with two outs.

Lee and Russ Carlson led the 15-hit Elks' assault with three safeties each. Campbell, Rumberger and Larry Wasalski each had two hits for the victors.

North Farmington's Coleman-Moss decided the Redford Panthers, 6-0, on a six-hit shutout by Bob Graessle.

New Court Provides Small Claims Division

What do you do when the cleaner loses one of your best dresses or suits, or some fellow bangs into your car and you discover he's not inclined to pay for the damage?

When you suffer a loss of, say, less than \$300.

Do you hire an attorney and burn up more money in legal fees than you're apt to recover?

You won't have to after the new District Court is convened, according to Thomas H. Healy, District Judge candidate.

The Small Claims Division of the new court will make it possible for citizens with claims of less than \$300 to obtain a satisfactory settlement without an attorney and the accompanying legal fees, Healy noted.

"For the first time in Michigan judicial history," Healy said, "people will be able to collect the \$100 deductible usually excluded under the insurance company settlement."

They will be able to do this without incurring high fees.

"In the past, it was too expensive to hire an attorney and sue the dry cleaner when he ruined your best suit or dress," Healy said.

Under the new District Court, a claimant needs no attorney. He merely completes the affidavit form with the court clerk and pays a \$5 filing fee plus a \$1 service fee.

Judge Davis Claims Court Needs Firmness

In a statement issued from his campaign headquarters Plymouth Municipal Judge Dunbar Davis, who is a candidate for judge of the new District Court, emphasized that firmness, not softness, is needed in our courts.

His statement follows:

"Firmness, not softness, in our courts is the crying need of the day. More enforcement of the law, not less; more concern for the victims and the public, more respect for the police and the courts is what we need. Too long we have had judges who frustrate the work of our police and men of the law by giving the convicted violator probation and a pat on the back. Our police work hard and often endanger their lives to apprehend speeders, drag racers and all types of offenders. How much encouragement do you think they get from seeing the ruthless, brazen culprit they encountered in making the arrest, put on an act of repentance in court and walk away free and on probation, joking to his cronies about what transpired."

"This past week a woman was doused with gasoline and set afire, police were shot at. Recently in my court a young man pleaded guilty to non-support, the taxpayers of the State of Michigan are supporting his child. I suggested to him that he get work. Safely beyond the court's hearing he belittled the court by joking about working."

"What to do about violations of the law by the youthful as well as the older offender is a problem that will not be solved by campaign slogans promising leniency. The best hope of society rests in greater enforcement of the law by our judges, not in less enforcement."

"During the 13 months I have been Municipal Judge there have been 452 cases brought before me. Of those there have been 22 back in court as second offenders. When people appear before me they know that if convicted they will be punished. In addition to punishment, if circumstances warrant, I put them on probation either to a local law person as did my predecessor, the learned and Honorable Judge Draugelis, or to the Wayne County Probation Department."

"Whether the firmness toward law violators that I have maintained is right or wrong

depends on results, not promises. The results are clear; people who are brought into my

court do not repeat. My system has proven itself 95 per cent right."

Vivian Outlines Plan For Jobs And Income

Wes Vivian, Democratic candidate for the U.S. House of Representatives in the Second Congressional District, met with area residents this week to discuss the central issues in the 1968 election. Of these, he said, unquestionably one of the most important is jobs and income.

Noting that progress had been made during the past decade, yet pointing out that "last year alone, two million man-years of potential work output, worth 10 billion dollars, were lost to our society because we did not succeed well enough in matching up individuals with jobs to be done," Vivian suggested two changes in approach:

"First, I believe our national, state, and local governments should guarantee skills training and productive employment at a clearly adequate wage for every man and woman who is ready and willing to work, who seeks work in private employment but does not succeed in finding a job in a reasonable time."

"BUSINESS and industry are now beginning to make efforts to provide jobs and training, but they are not able to provide all the needed jobs. Our government should accept the responsibility of being the employer of last resort for those individuals who fail to find jobs through normal employment procedures. The work offered should be constructive, needed, and competently managed, and adequate skills training should be assured."

"Second," Vivian went on to say, "even with full employment there will exist some families not able, for various medical or age reasons, to earn adequate income. In recent months, a great many of the most distinguished economists of the nation, liberal and conservative, Democratic and Republican, as well as many nationally renowned industrialists and businessmen, seeking a more

flexible, equitable, and expeditious approach, have in a potentially historic petition proposed replacing the current programs with so-called 'negative income tax' payments to such families. I accept and concur with their proposal."

VIVIAN CONCLUDED, "Taken together, these two steps--guaranteed full employment and the so-called negative income tax--can create a vital, but peaceful, revolution in our national life. With stable and secure incomes, families will be able to obtain and, more important, to retain financial equity in housing and other major needs."

"Because more stable consumer demand, insurability, and other economic conditions will prevail, business large and small will be better able to plan ahead, to invest in long-term improvements and innovations. All of us who pay taxes will have greater confidence that we are following an efficient course of action, as well as a responsible one."

Voluntary Probation Systems Called Illegal

The voluntary probation system now in effect in Northville is contrary to law in my opinion and any judge who would adopt such a program would violate his oath as a judge, Allen C. Ingle, candidate for District Judge, told a group of Northville residents last Wednesday.

"How can we hope to decrease crime if we are going to tell everyone that the first time you get caught we will give you a chance to go on voluntary probation so you won't have a record? A person could be caught in several areas where such a program is in effect and never have a record."

"To illustrate, assume you have two sons, John and Paul, each under the age of 21. John is caught in Northville, Livonia, and Royal Oak, (where voluntary probation is in effect) and charged with possession of beer. He is able to obtain voluntary probation in each area, thus three times he is caught and yet he has no record."

"Son Paul, although he may not like the idea, believes he must wait until he is 21 to have beer. Now, how can you as a parent explain to son Paul, that he should always obey the law, when his brother has not yet been caught, as far as records are concerned, to wit: No records."

"It is time that the courts quit playing games and make it clear to everyone that the law provides for a fine or jail or both even on a first offense, and of course there can be probation in a deserving case. Courts should not usurp the power of the Legislature, which they are doing by voluntary probation."

"The Legislature already has recognized the problem and has passed the law which provides that any person who commits a crime (excluding traffic and offenses that carry a maximum of life in prison) when under the age of 21, may after five years file a petition to have the conviction set aside, which, if granted by the court, results in giving the individual a clean record with no convictions."

"Thus, in effect, the Legislature has said to all persons under 21, if you make one mistake and prove that you realize that mistake and behave yourself for five years, we the people will wipe out that conviction so you will have no record."

"Prior to approximately 10 years ago there was no probation for the lower courts, myself and four other judges carried on a campaign in Wayne, Oakland and Macomb counties and we were finally able to have a probation department established for the lower courts, thus it is quite clear that I am not opposed to probation provided it is in conformity to the state law."

Court Probation Dept. Necessary

Northville, Municipal Judge Philip R. Ogilvie has called the establishment of a probation department "an essential adjunct" to the new district court.

Ogilvie is a candidate for the 35th District Court which will serve the Plymouth, Northville and Canton Township area.

He noted that from his own experience in establishment of a probation department in Northville he had found "even greater needs and uses than anticipated."

Ogilvie added, "Excellent investigative work by the department and the enlistment of sufficient volunteer sponsors have made it possible to assign a sponsor to each probationer."

they are considerably different than what actually occurred," he said.

Ogilvie concluded, "The new district court will see a large increase in civil cases because the jurisdiction of the court has been set at \$3,000, compared to \$300 to \$500 in justice of the peace courts and \$1,500 in municipal courts."

WE NEED ACTION

- ★ Metro Airport needs cleaning up
- ★ Water and Drain Programs must be overhauled.
- ★ Roads must be built and maintained.
- ★ Tax increases have to be stopped.

I want to represent You in the issues that are of interest to both of us.

LBJ Tells Hanoi 'Won't Sit, Watch GIs Killed'

WASHINGTON -- President Johnson has strongly indicated to Hanoi that he will not sit by and watch American GIs get killed. He told reporters that he had "every reason to believe" that the Viet Cong are getting ready for a "massive attack" on allied and South Vietnamese forces.

In the same news conference Johnson added there had not been, up to that point, any change in America's bombing halt. He also said the levels of enemy infiltration are at an all-time

peak.

PARIS -- In response to a press conference by Secretary of State Dean Rusk, a North Vietnamese ambassador said it was only another indication of the "obduracy of the US aggressive ruling circles" and added that the US officials are lying when they report troop build-up by Communists.

Rusk had asked the North Vietnamese what steps it would take to reduce the fighting if the US ceased all attacks on

its territory.

CASTEL GANDOLFO, Italy

World Roundup

-- In defense of his encyclical banning use of any artificial contraceptives by Catholics, Pope Paul VI told more

than 1,000 persons that it had not been an easy decision and he was "touched" by the anxiety of the persons who were troubled by the problem of birth control.

CIERNA NAD TISOU, Czechoslovakia -- In guarded optimism, Czech leaders Alexander Dubcek and Josef Smrkovsky said there had been "some success" in their talks with Soviet leaders.

Moscow-based reports indicated that the Soviet line against

Czechoslovakia is softening and the anti-aircraft phase of the Soviet war games over Czech soil are ended.

MEXICO CITY -- Rioting continued here as gangs of youths ran wild through the city. Police in two busloads were sent in and the mobs withdrew. The mobs had hijacked four city buses and crashed them into the sides of buildings.

SAIGON -- Combined efforts of armed American gunboats,

helicopter gunships and South Vietnamese marines forged into the thick Mekong Delta area and carried out a raid on a Viet Cong base camp.

The allied marines reported taking 62 weapons, 423 mortar rounds and more than 12,000 rounds of ammunition. There were no allied fatalities but two South Vietnamese marines were wounded.

SEOUL -- One American and one Korean were killed in a clash last week along the sep-

arating demilitarized zone in Korea.

A military spokesman said the US 2nd Infantry Division patrol met-up with North Korean infiltrators near the neutral zone and opened fire. Three Americans were wounded.

PRAGUE -- Gen. Samuel Kodan, a Czech officer opposed to Dubcek's liberal reforms, reportedly has been in contact with Soviet officers. According to the Czech paper, Prace, a trade-union publication, the

meetings were to "exchange views on the present situation."

Kodan warned last month against Czechoslovakia's planned "counter-revolutionary" tendencies.

BANGKOK, Thailand -- Resulting from the alleged North Vietnamese-inspired attack on the US Air Force base at Udorn, the Thai government is relocating some of its 40,000 North Vietnamese refugees to southern Thailand.

Redford, Livonia Clash In Sudden Death Duel

"There'll be no tomorrow, if..."

That's the chant among members of Livonia's Class A baseball team as it awaits a Sunday night sudden-death, playoff game with Redford Township at Livonia's Ford Field at 8:30 p.m.

The Livonians have battled through a 30-game schedule and won 23 times.

But, unless the team can pull out a victory Sunday night, it'll be all over for Livonia.

Redford, the defending league champs and the team which went all the way to the national finals a year ago, won't be under the same pressure at Livonia.

The Redfordites can lose and still stay in the race for a repeat crown.

HERE'S WHY the game means so much to Livonia.

The Class A schedule was played in three rounds. Redford won the first two.

Fishing Continues Good

Fishing continues good for most species throughout southeastern Michigan, according to the Pontiac district office of the State Conservation Department.

With warm summer weather, fish are biting best in early morning and in the evening.

Limit catches of trout were taken from Cooley and Teeple Lakes in Oakland County.

Bass fishing has been good off the Pontiac Lake boat landing. In Lake St. Clair, good smallmouth catches were taken with night crawlers and underwater plugs near the mouth of the Middle Channel off Huron Pointe and offshore between 11 and 12 Mile Roads. Fair bass catches were reported on Hart and Graham Lakes in Oakland County.

Walleye fishing has improved greatly in Lake St. Clair and the St. Clair River recently. Good walleye catches were taken on night crawlers near the mouth of the Middle Channel off Huron Pointe.

A few nice muskies were taken on the lower end of Lake St. Clair near the dumping grounds off Eight Mile Road.

Good bluegill and crappie fishing was reported on Hart and Graham Lakes in the Bald Mountain Recreation Area in Oakland County, and Union Lake produced good bluegill catches.

Perch fishing was "fair" to "reasonably good" in Lake St. Clair and the St. Clair River.

Two Records Cracked At Hazel Park

Two records fell in the 84-day thoroughbred meeting which ended Saturday at the Hazel Park Race Track.

The total mutual handle of \$82,863,228 was an all-time high for Michigan. Don Holmes brought in 103 winners to become the first jockey in Hazel Park's 20-year history to win 100 races in one season.

TOTAL ATTENDANCE was 97,136, an average of 11,633 fans per day. The average mutual handle was \$986,467.

Youthful Jere Smith, conditioner for Holiday Stable, won his first track trainer championship with 41 winners to 39 for Bob Irwin.

Larry Snyder brought in four winners Saturday to tie Dave Whitford for runner-up honors among the riders. Each turned in 83 victories.

Cougars Snap 13-Game Streak Without A Win

The Detroit Cougars soccer team has to feel much better.

After going through 13 games (12 of them defeats) without a victory, the Cougars snapped their slump with a 2-1 victory at Toronto.

Sam Acquah scored both the Detroit goals in the second half.

In a full season of harness racing, Halves earned \$48,710, an Australian record for earnings in a single season. First Lee, imported to this country from Australia topped that figure in one month of racing, winning only one race, a minor one at that.

Eighty-one active harness race drivers now have career purse earnings in excess of \$1 million.

In the third round, both teams finished with a 9-1 record. Thus, the one-game playoff decides the winner of the round.

If Redford wins, the Townshippers will have clinched the league title and the right to advance into a district playoff against winners from Detroit and Dearborn for the right to enter the state tournament at Battle Creek.

If Livonia wins, it only means that the team will reign as the third-round champs.

Then another playoff will become necessary to decide the overall loop flag.

Should such a series materialize, Livonia would have to win two straight. A victory for Redford would end the title chase.

LIVONIA WILL go with its ace pitcher, Jay Schwalm in Sunday night's clash. Rick Krumm likely will go for Redford.

The two teams have met six times this season with Redford winning four. It was Schwalm who beat Livonia the last time the teams met 10 days ago--only the third loss in 30 games for Redford.

Schwalm has a 5-1 record, while Bill Ziegler stands 7-2, Tom Balistiere 5-2 and Pete Hembrough 2-1 for the Livonians who have a combined earned run average of 1.42.

Jim (Chip) Rose from the University of Michigan leads the Livonia hitters with a .433 mark. Paul Portney follows with .391. Then comes Gary Bowman at .351, Roger Frayer .333 and Gary Birkett .301.

Sam Lamerato has emerged as Redford's No. 1 hitter with a blazing .450 average. He belted safely 36 times in 80 trips to the plate. Not too far behind comes Gary Schaefer at .415.

Tom Tanner tops the Redford pitchers with a record of 10-0. Krumm comes next at 6-1.

Patch Knocked Out

Miss Nancy Patch of Farmington was ousted by Mrs. Rodney Thompson of Pine Lake, two up in the Women's District Golf Association quarter-finals.

Miss Patch had whipped Mrs. Anthony Koustas of Dearborn, 6-5 and Helen Grinnell of Detroit, one up in previous matches.

A first round loser was Mrs. Chris Miller of Farmington, who bowed to Mrs. Robert Gamble of Lochmoor, 4-3.

KALAMAZOO -- Western Michigan University's 440-yard relay team of Horace Coleman, Steve Strauch, Don Castronovo and Tom Randolph set an all-time Michigan collegiate best when it clocked 40.4 at the N.C.A.A. outdoor championships in June.

Lack Of Decent Housing Linked To Race Riots

WASHINGTON -- House debate on the omnibus housing bill revealed a new realization in the Congress that a lack of decent housing is one of the main underlying causes of riots and other problems in cities of the nation.

The housing bill was widely

heralded as an effort to give meaning to the national goal set by Congress in the 1949 Housing Act of "a decent home and a suitable living environment for every American family."

AT LEAST that was the in-

tention expressed by members of the House who carefully skirted indications of direct reaction to the rioting of recent years.

The bill provides for the construction of about one and one-half million new housing units for low and moderate-income

families over a three-year period.

This would represent a ten-fold increase in the volume of such housing produced in recent years and would be the start of a 10-year program to build six million federally aided dwelling units and help elim-

inate substandard housing.

THE HEART of the program is a new subsidy plan under which low and moderate-income families will pay 20 to 25 percent of their incomes to buy homes, or rent apartments, and the government will make up

the remainder of the mortgage payment.

"I believe the adoption of a home-ownership program to be one of the most important issues to come before Congress," declared Rep. Wright Patman (D-Tex.) in urging approval of the bill drafted in committee

under his leadership.

"Pride of ownership is a subtle but powerful force," he explained. "Past experience has shown us that families offered decent homes at prices they can afford have demonstrated a new dignity, a new attitude toward their jobs and a sense

of participation in their community. Incidents of vandalism... have declined markedly."

A similar theme was struck by Rep. Leonor Sullivan (D-Mo.), also a member of the Banking and Currency Committee which shaped administration recommendations.

"The human and social benefits of home ownership are vital to a stable society," she said. "A home is the hub of the family's life. The owner feels a strong stake in the community, develops an interest in civic affairs, and enjoys a feeling of pride and security in the possession of his own home."

FACING UP to the specific problems of urban unrest, Rep. Ferdinand St. Germain (D-R.I.) said: "This legislation comes at a most timely moment. For the first time in our recent history, as far as I know, Americans of every background and all political alignments are in close agreement that something must be done."

However, Rep. Ogden Reid (R-N.Y.) questioned whether the bill goes far enough in its efforts to replace substandard housing with decent homes and apartments.

He said: "To spend \$5 billion on housing over three years means that we spend \$1.5 billion per year—or about as much as we expend monthly in Vietnam. I believe that this is a clear indication that our priorities are out of order, and not in line with the needs of this nation at this time."

It was the possibility of federal spending to help cover losses in riot areas which ranked Rep. H. R. Gross (R-Iowa), who keeps a close eye on spending.

"Does the gentleman not believe," he asked of Rep. William Moorhead (D-Pa.), "that law enforcement would have a very beneficial effect upon these losses that occur in the areas of which he speaks?"

Moorhead said the federally backed program of riot insurance "would be a strong inducement for there to be the strongest kind of law enforcement" and "would be an inducement to calling out the Guard sooner than was done" in some recent cases.

Six Stars In AAU Meet

ANN ARBOR -- Lt. Mick King, a former University of Michigan coed, heads a contingent of six divers from her alma mater to the National A.A.U. Men's and Women's Swimming and Diving Championships in Lincoln, Neb.

Lt. King, a 24-year-old Michigan graduate and now Administrative Officer of the University of Michigan Air Force ROTC program, will journey to Lincoln as the defending champion on the one and three meter boards.

Other University of Michigan hopefuls include Lani Loken, a 19-year-old sophomore and the daughter of Michigan's Gymnastics coach Neel Loken; Jay Meaden, a 20-year-old Michigan senior from Hinsdale, Ill.; Bruce McManaman, a 20-year-old junior hailing from Elmhurst, Ill. Alan Gagnet, a 19-year-old sophomore from Rocky River, O.; and Dick Rydze, an 18-year old sophomore from Mt. Lebanon, Pa.

WITH THE EXCEPTION of Gagnet, all bring A.A.U. experience into the Championships. Miss Loken has been an A.A.U. finalist six times, and is the current N.C.A.A. Women's one-meter diving champion. Meaden has been an A.A.U., N.C.A.A., and Big 10 finalist; Rydze has been an A.A.U. finalist five times on the 10-meter tower; and McManaman has also reached the A.A.U. finals.

All of these divers will be competing in all three diving events—the one-and-three-meter boards, and the 10-meter tower.

The divers have been training all summer under the tutelage of Dick Kimball, University of Michigan Diving Coach, at the Brandon Swim and Tennis Club, in Brandon, Fla. (which will appear as their affiliation in the Championships). Kimball runs a summer diving program for the Brandon Swim and Tennis Club.

After the A.A.U. Championships, Lt. King, Miss Loken, Meaden, and Rydze (and McManaman if he places in the finals in either the three-meter or 10-meter) will win the Brandon Swim and Tennis Club monogram for the U.S. Olympic Trials to be held Aug. 21-24, in Long Beach, Calif.

Experts Provide Tips For Home Gardening

Although the passage of Spring has slowed the perennial rush to get in the family garden, there are still many things which the avid gardener can do with the advent of summer.

Among these is weeding, that old standby of the home far-

mer. Rather than pulling each and every weed by hand, a much easier method is to skim beneath the surface of the soil with the blade of a hoe. This method cuts the weed off from its roots and also loosens the compacted top soil layer so that rain or waterings can soak in more readily.

HAND-IN-HAND with cultivating goes watering, for not only is it important to have water, but it must get down to where the roots are. Generally, a vegetable or flower garden needs about one inch of water per week.

If rain does not supply it, your hose will have to. To get enough on, use a sprinkler or a soil-soaking hose, either a porous or a perforated one. Above all, don't think you can apply enough by watering by hand. No one can stand in one spot long enough.

How to tell when you've applied enough? Just dig around, here and there, with a trowel.

The soil should be moist at least 4 to 6 inches deep. Another way to check how much you have applied is scatter a few coffee cans around on the surface. Then measure the amounts in the bottoms of the cans.

NEXT COMES feeding. Just because you mixed fertilizer into the soil at planting time don't think the need ends there. It gets used up, or leaches away in a sandy soil. Apply about 1/3 as much (1 pound per 100 square feet) of a good balanced vegetable fertilizer in shallow trenches alongside and a few inches away from every row—double in the case of tomatoes applied in a ring.

When crops just don't seem to

get under way, leaf feed, too. Mix up a dilute solution of a completely soluble fertilizer and spray it on the leaves. The effect will be almost instantaneous. But, don't depend upon this

alone. Side-dress as described above, too.

Finally keep your tomatoes tied up to stakes for best results. Also, spray or dust, if necessary.

Roof Is Vital To Home Design

The roof is one of the most important design elements of a house and is more important than ever before, according to a recent speech made in Chicago by one of the nation's leading architects.

"Take away the roof from a house and all you have left is a box," said Robert Martin Engelbrecht, AIA, who has won numerous awards for his designs, and whose firm has become well-known for development work in building products and roofing systems.

"The overhang, height, color, size and design of the roof give the exterior of the house its character, distinction and personality," he said. "Roof design is equally important in remodeling and new construction."

"Building sites in metropolitan areas and suburban communities have become scarce and costly. Lots are smaller, and houses are located closer to one another," Engelbrecht said. "While much can be done inside the house to differentiate it from the house next door, the roof architecture is the most important factor in a structure's individuality."

MORE THAN a decade ago Engelbrecht forewarned of the rising cost of land and the trend to small lots. In a national magazine article in 1958, he predicted that by 1970 land values would equal construction values. They already have in many areas of the United States.

"Because of the physical dominance of the roof, color is one of the most important factors in considering roof scape design criteria," Engelbrecht said. "The color of the roof should be selected before any exterior color."

"If the house is complicated and broken with various setbacks and planes, a dark roof

will pull it together more effectively than a lighter colored roof. On the other hand, a lighter colored roof will tend to make a house appear longer.

"The construction quality as well as the color of the roof are important factors in heating and cooling costs. Dark colors tend to absorb solar heat while light colors reflect the hot rays of the sun."

WHILE VIRTUALLY any color or blend is available, the more popular asphalt roofing colors include white, blues, reds, greens, browns and earth tones.

Asphalt roofing offers a designer unlimited opportunities to stylize a roof because of the availability of numerous colors and blends, textures and patterns. Color allows individuality, personal choice and the opportunity for one to distinguish according to his own taste.

In choosing the roofing material, the homeowner should select a product that not only has color but the advantages of low maintenance, long-lasting durability, the UL label for fire resistance, wind resistance and insulating value.

A comprehensive new booklet which helps homeowners select the right roof for their house is available by sending 25 cents to cover mailing and handling to 3M Company, P.O. Box 3500, 3M Center, St. Paul, Minn. 55101.

SALMON TAGS

Tiny nickel stainless steel rods, inserted into the muscle tissue on the backs of salmon fingerlings, are used for migration studies. Less than one twenty-fifth of an inch long, the rods are injected with a hypodermic needle and cause no discomfort to the salmon.

MIAMI BEACH is on an island, easy to protect from embarrassing demonstrations. The Michigan delegation to the Republican National Convention will be in the Carillon Hotel.

Miami Beach Set For The Invasion

MIAMI BEACH -- "Don't drive. Take the shuttlebus." "Bring money -- lots of it. This is an expensive town." That's the gist of the advice given delegates, alternates, campaigners, sightseers and newsmen who are attending the Republican National Convention here this week.

THE MICHIGAN delegation is in the Carillon Hotel three and one half miles from the convention hall, and prices are \$28 to \$32 a day, depending on whether you want a little porch.

That's not as bad as it could be. Miami Beach was so excited about getting this convention that it asked innkeepers to stick to their 1967 prices and not try to gouge Grand Old Partisans.

Innkeepers figure they're actually behind, because prices in general have risen during the last year.

There will be only about 1,300 delegates at the convention, but some 40,000 to 50,000 persons are expected here this week. It's as if half of Livonia, or all of Farmington City and Township were to invade this plush oceanside town.

There are about four newsmen for every delegate attending the convention.

THE MICHIGAN crowd seems pleased with its accommodations. Al LaPorte cased the town carefully before picking the Carillon, and he's highly

pleased.

The Rockefeller entourage is in the Americana Hotel, at the north end of the seven-mile long island, and it spills over into the Carillon.

California's 600-member party has practically taken over the entire 16-story Deauville Hotel, along with other rooms in neighboring hotels.

Nixon's party is headquartered in the eight-month-old Hilton Plaza, for which Jackie Gleason served as "creative consultant."

SECURITY IS tight.

It took several weeks of letter-writing for The Observer Newspapers to get press credentials, and many others were turned down.

Tickets to everything are being jealously guarded.

Miami Beach is on an island (see map), and it will be comparatively easy to guard from demonstrations compared to Chicago, site of the Democratic convention in three weeks.

Police Chief Rocky Pomerance's 200-man force has been getting a good deal of crowd control training in recent months.

THE CONVENTION hall was given an 18,000 seat addition as soon as Miami Beach was sure it had landed the GOP convention last year.

There are lapel pins and bumper stickers reminding everyone to be courteous, friendly, hospitable.

The Republicans

Dates—Monday, Aug. 5 through Thursday, Aug. 8.

Site—Miami Beach Convention Hall, Miami Beach, Fla.

Headquarters, Fontainebleau Hotel.

Delegates—1,333.

Alternates—1,333.

Needed to nominate—667.

Michigan—48 votes.

Permanent Chairman—House Minority Leader Gerald R. Ford (R-Mich.)

Keynoter—Gov. Daniel J. Evans (R-Washington).

Temporary Chairman—Senator Edward W. Brooke (R-Mass.).

Monday Morning Caucus Convention Eyes On Michigan

By TIM RICHARD

MIAMI BEACH -- A lot of eyes will be on the doors of the Michigan delegation's caucus room Monday morning.

The 48 Michigan votes are pledged to Gov. George Romney, and nearly everyone, when asked, says he hopes political lightning will strike him for the presidential nomination.

But privately there's a lot of pulling and hauling for Richard Nixon and Nelson Rockefeller. Whether Romney can guide the Michigan votes into one corner is the big question.

A COUPLE OF Observerland members are almost openly for Rockefeller.

Henry R. Sladek, of Livonia, is an alternate-at-large, and as Wayne County GOP chairman he's concerned with how much the presidential candidate can help the local ticket.

To him, it adds up to Rocky, and no one else.

Mrs. Delores Kory, of Redford, is a delegate from the 19th Congressional District. Her real favorite is New York Mayor John V. Lindsay, but

observing the GOP

she can be expected to swing for Rockefeller.

THE 2nd DISTRICT, which covers Plymouth, is represented by Peter Fletcher, an articulate young lawyer from Ypsilanti, and Norman Jamison of Livingston County.

That district, liberal in outlook, is likely to lean toward Rockefeller.

One Plymouthite is in it—E.O. (Bud) Weber, an alternate delegate.

Observerland is represented in the 15th District by alternate John Boyle, of Westland, his party's candidate for Congress this year.

Also among the alternates-at-large is the close-mouthed Mrs. Isabel Haynes, of Farmington, chairman of the state GOP Women's Federation.

WEIGHING ON the local delegates' minds is the showing Rockefeller made in the state's five "marginal" Republican congressional districts -- including the 2nd and 19th. That

showed up in a private poll.

But Nixon has a strong following. Nearly all of the 20 Republican state senators are for him.

For Gov. Romney, principles and the platform will be important. He was here last week to speak to the platform committee.

Romney, Dirksen Apart On Vietnam War Plank

Gov. Romney seems to be on a collision course with Sen. Everett Dirksen, chairman of the Republican platform committee, over the Vietnam war plank.

The Michigan governor wants a "positive" statement on the war, while Sen. Dirksen reportedly wants a shorter plank that will criticize the Johnson Administration but avoid offending either hawks or doves.

He wants a candidate close to the principles he has established in Michigan; he takes it as a matter of course that the rest of the delegation does, too.

But Romney will hardly be immune to an offer that could help Michigan -- say, a vice presidential nomination for himself, or the promise of a Cabinet job for someone from his state.

As the platform committee, meeting the week before the national convention, is planning to write it, the Vietnam plank would charge the administration with mistakes, call for an "honorable peace" and voice support of American troops.

Said Romney: "While I wholeheartedly support these points, I want to make it absolutely clear that if the platform does not go further than this, it will

TWO OBSERVERLAND residents will have honorary sergeant-at-arms jobs here.

Marvin G. Pridgeon of Livonia and Miss Diane Johnson of Farmington have two of the jobs, although it isn't clear yet what duties they will have.

In addition, a lot of local people are here to campaign for a favorite candidate or just to see one of the most exciting shows in American political history.

be woefully inadequate in providing the responsive leadership necessary on this vital issue."

Romney wants a plank that will "clearly state our aims in Vietnam, outline a successful strategy for conducting the conflict, and support a positive peace program that will enable us to take the peace offensive."

Develop Composite Of Child School Disrupters

You don't have to be big to have things bugging you. At the age of six-going-on-seven, Brian is a powerhouse of endurance and intelligence. His aggressiveness could make him a leader, but so far it's turned him into the class bully. He's a fight-starter, often hostile and easily enraged.

Brian is a hypothetical composite of dozens of little class disrupters who made teachers glad to see school end last month. But he wasn't the only kind of "problem child."

THERE WAS Susan, equally bright but extremely withdrawn. Though she was never purposely uncooperative, the teacher's messages couldn't quite penetrate her dreamworld. Since, in her shyness, Susan draws no attention to herself, her abnormality probably went unnoticed longer.

These Susans and Brians usually have one common trait however: an inability to learn in

proportion to their own intelligence. "Perceptually handicapped," they are sometimes called. It means they can't learn to read.

These are the most frequent symptoms of emotional disturbance, a real "wastebasket term" in the words of one psychologist. It presently covers the gamut from brain injury to schizophrenia to cultural deprivation.

ON A NATIONAL level it is estimated that 10 to 15 per cent to the population under 20 have emotional problems of varying degree. This means some 390,000 children in Michigan. The highest rate of increase in state hospitals is among children under 15, according to Dr. William Rhodes of the Washtenaw Community Mental Health Center. "While other age groups have leveled off or decreased in the

past 10 years, these patients have doubled," he says. This is not necessarily to say more youngsters are mentally disturbed than in previous decades, Rhodes clarifies. More are being recognized.

There are no statistics as to age or prevalence, but adolescents create the most problems, he says. By their adult size alone, they are harder to handle. Many psychologists feel

that emotional disturbance, regardless of when it manifests itself, takes root in the preschool years, but Rhodes' colleague Dr. William C. Morse disagrees. "In some cases," he states, "adolescence itself is a catastrophe."

MORSE, a professor of educational psychology at the University and consultant for Ann Arbor Public Schools, feels the

anxieties often start in the first grade, third grade or junior high school. "Of the 10 to 15 per cent with problems, about three per cent may have severe problems and one per cent require special education."

But why? "We've come to a new state of mind," Morse speculates, "At one time values were a product of religion; then, of Western culture; now they are

a product of our own convictions.

"The older kids see affluence in the face of poverty, claims of 'high standards' in the presence of discrimination. They are either rejecting these values and searching for improvements, or are becoming alienated and hostile to our whole culture."

Teachers and parents are also affected by the new atti-

tudes. Morse perceives a degree of uneasiness among adults as to the demands which should be placed on youngsters and an uncertainty as to their rights.

USUALLY the anxieties plaguing a child can be traced to something of a narrower spectrum than the changing society at large. "A traumatic event in his life," suggests Rhodes, "such as the loss of a parent or move to a new city."

Area Deaths, Funerals

GEORGE RICE SAYLES. Funeral services were held in Caro, Mich. for Mr. Sayles, 79, of 3410 Chicago Blvd., Detroit. Funeral arrangements were handled by the Heene-Sundquist Funeral Home.

Mr. Sayles is survived by two nephews, Harold C. Rice of Detroit and Sherman Rice of California and three nieces, Mrs. Ruth Head of Florida and Mrs. Nellie McGirr and Minnie Serrymeyer, both of Chicago. He was also related to Mrs. Andy Kanjarevich of Farmington.

CECELIA MARY WIERSKI. Funeral services for Mrs. Wierski were conducted by the Rev. Stanley Hartmann in the Heene-Sundquist Funeral Home. Burial was in the Forest Lawn Cemetery.

Mrs. Wierski, 52, of 16010 Rose Dr., Allen Park, died July 23 following an extended illness. She is survived by her husband, Walter, and a daughter, Mrs. Wayne (Christine) Piotrowski of Detroit. Also surviving are three brothers, Jacob Kusnierz of Brighton, Jacob Kusnierz of Detroit and Edward Kusnierz of Allen Park, and a sister, Mrs. Stanley (Lucille) Hebda of Livonia.

MOORE (MICKY) McNEICE. Mr. McNeice, 68, a former Livonian living in Tampa, Fla., died July 29 in that city. He was a member of the Livonia Rotary Club and a life member of the Masonic Lodge. A native of St. Thomas, Ontario, he had lived in Tampa the past four years.

Surviving are his wife, Mrs. Leone McNeice of Tampa; one brother, Eric L. McNeice of Windsor, Ontario, and one sister, Mrs. Hazel Jones of St. Thomas.

HENRY NALEWAY. Services were held for Henry Naleway, 80, of Farmington, formerly of Redford Township, who died suddenly following a heart attack at home.

Services at St. Valentine's Church, Redford, were followed by interment in New Port Richey, Fla.

He is survived by his wife, Irene, and a son, Henry W. Jr. Employed by the Burdett Oxygen Co., Detroit, Mr. Naleway and his wife had just returned the night before from a two-week vacation in Florida. A World War II veteran, Mr. Naleway was active in township scouting programs.

ALPHONS W. HUETTNER. Services for Mr. Huettner, 62, of 44701 Cherry Hill Rd., Livonia, were held in Our Lady of Good Counsel Catholic Church, Plymouth, with Fr. J. Robert Schaden saying requiem mass. Burial was in Holy Sepulchre, Southfield.

Mr. Huettner died July 31 in his home following a long illness. He is survived by his wife, Elfrida T. Huettner; one daughter, Mrs. Paul (Gwendolyn) Alright of Plymouth; two sons, Ronald of Northville and Lyle of Livonia; four brothers, Arthur of Booneville, Mo., Edward of Madison, Neb., Joseph of Humphrey, Neb., and Theodore of Humphrey, Neb.; three sisters, Mrs. Elsie Letkenhauf of Lindsay, Neb., Mrs. Netta Hemmer of Humphrey, Neb., and Sister Annette, of Portland, Ore.

Mr. Huettner was born Feb. 15, 1906 in Cornlea, Neb.

JENNIE BROWN FELT. Services for Mrs. Felt, 82, of Fairground Ave., Plymouth, will be held Saturday at 1 p.m. in the Schrader Funeral Home with Rev. Lewis Brown officiating. Burial will be in Kenyon Cemetery.

Mrs. Felt died July 31 in Marwood Manor Nursing Home, Port Huron, after a long illness. She is survived by one daughter, Mrs. Irene Smith of Algonac; two sons, Harold of Milan and Kenneth of Redford; two sisters, Mrs. Edna Sockow of Plymouth and Mrs. Edith Sockow of Plymouth, and six grandchildren and five great-grandchildren.

Mrs. Felt was born Aug. 15, 1885 in Plymouth and lived her entire life here.

ONALEE H. ASCH. Services for Mrs. Asch, 53, of 122 Coalmont, Walled Lake, formerly of Plymouth, will be held Aug. 1 at 1 p.m. in the Casterline Funeral Home with Rev. Guenther C. Brunstner officiating. She will be buried in Oakland Hills Memorial Gardens, Novi.

Mrs. Asch died July 28 in St. Joseph's Hospital, Pontiac, following a long illness.

She is survived by her husband, Wesley G. Asch; one son, Glen of Northville; her mother, Mrs. Lovine R. Hesler of Pontiac; one sister, Mrs. Ruth Cook of Punta Gorda, Fla.; one brother, Fred J. Hesler of Detroit, and seven grandchildren.

Mrs. Asch was born Aug. 15, 1911 in Plymouth and completed her schooling here before moving out of the city.

GERTRUDE MARGARET DUFFY. Services for Mrs. Duffy, 78, of 5630 Gottfredson Ave., Salem Township, were held in the Schrader Funeral Home with Rev. Lewis Brown officiating. She was buried in Evergreen Cemetery.

Mrs. Duffy died suddenly July 28 in Christmas, Michigan. She is survived by her daughter, Miss Kathleen Duffy of Plymouth.

Mrs. Duffy was born April 19, 1890 in Detroit and came to this area 27 years ago.

Height Of Lamps Important

If you buy lamps only by look, you miss more than half the purpose.

While lamps are a decorative addition to your home, their main purpose is to provide light, where and when you need it.

As you shop for lamps, Mrs. Rosalie Hawley, home economist with the Cooperative Extension Service in Oakland and

Wayne counties, suggests you keep one simple rule in mind. Table height, plus lamp base height (to the lower edge of the shade) should equal the height of the seated person using the lamp.

EYE HEIGHT, of course, will depend on the height of the chair or sofa seat and the height

of the person seated, so one definite lamp height could not apply to everyone, the home economist says.

However, for an average person to see comfortably, the lower edge of the lamp shade should be about 40 to 42 inches above the floor. With this in mind, if you already have a low occasional table, you

should have a lamp that is taller than average to bring the light into the right area. If the table is high, then you need a lamp with a shorter base.

A LAMP that provides proper lighting can still be a decorative addition to your home, the home economist adds.

Mr. and Mrs. Eugene Pat-tinson, of Royal Oak, announce the engagement of Mrs. Pat-tinson's daughter, Terri Lee White, to Gary Van Poperin, son of Mr. and Mrs. Neal Van Poperin, of Livonia. The bride-elect also is the daughter of the late Terrence White. She and her fiancé both are juniors at Eastern Michigan University where she is affiliated with Sigma Kappa sorority and he with Phi Sigma Epsilon fratern-ity.

TERRI LEE WHITE

Mr. and Mrs. Maurice C. Hobbs, of Michele Avenue, Livonia, announce the en-gagement of their daughter, Janet, to Richard G. Gratton son of Mr. and Mrs. Guy Gratton, of Windsor, Ont. The couple will marry Oct. 19 and will live in Windsor.

260-Day Newspaper Strike Ends Dailies On Streets Next Week

The historic 260-day-long strike of Detroit metropolitan daily newspapers is over. That was the announcement Thursday when the Publishers' Association stated it had reached agreement with the Mailers Union, last of the striking groups, on a wage pact.

The Detroit News immediately announced plans for resumption of publication on Friday, Aug. 9 and the Free Press will publish its first papers on Saturday, Aug. 10.

THE MAILERS SETTLEMENT follows the Feinsinger economic package of \$33 for the next 34 1/2 months.

In addition, negotiations had to settle union demands that ITU general laws will prevail in the future mailer contract.

Brown said that the agreement reached would provide a "good, clean, workable contract."

Remaining contracts with other unions -- electricians, machinists, operating engineers, and building service maintenance employees -- will not prevent resumption of publication as soon as the mailers have approved their pact.

Settlements between these unions and the papers are generally set by area negotiations such as those recently concluded by the building trades.

Once the mailers have ratified, all key unions will be ready to send their members back to work.

Rainfall May Damage Nests Of Pheasants

LANSING --- Southern Michigan's recent record-breaking rainfall in some parts of the pheasant range causes concern among conservation Department biologists who fear damage may have been done to some nesting areas.

The rain was not all bad for pheasants, however. It delayed having to give chicks a better chance of survival and it came after the peak of the nesting season. Had it come earlier, say the biologists, considerable loss would have resulted.

There are no predictions yet on the pheasant situation for this year's season.

Annual brood counts by rural mail carriers will be made during the last of July and first of August. These will provide the measuring sticks for hunting prospects.

Newspapers Bleach Celery

Celery may be bleached snow white in just two weeks by wrapping a newspaper around it.

Hold the paper in place with rubber bands.

Then as soon as you uncover a bleached stalk, move the newspaper up the row to the next unwrapped stalk.

Wrap about two dozen stalks to start with, leaving just the tops or the upper leaves of the stalks sticking out about two or three inches above the paper.

LANSING--Ralph W. Bonner of East Lansing has been named to the newly created post of urban programs officer in the State Highway Department.

Bonner, executive director of the Lansing Urban League for the past three years, will fill a vacancy created by the resignation of Flynn Wells, the department's relocation officer, but will take on additional responsibilities.

STATE AND LOCAL ROUNDUP

LANSING--Michigan voters in the Aug. 6 primary will be asked to make three changes in the state constitution. If approved, the changes will be the first amendments to the five-year-old document.

A "Yes" vote on the three constitutional proposals will establish:

1. A judicial tenure commission to investigate complaints against all judges below the Supreme Court level.
2. A state officers compensation commission to set the salary scales for the high-ranking state officials.
3. Authorize the governor to fill vacancies in the courts of justices of the Supreme Court, Court of Appeals, Circuit Court, Probate Court and District Court.

MONROE--A four-seat private plane developed engine trouble and crashed shortly after takeoff in Monroe Municipal airport, injuring four Detroit-area men -- one critically.

Richard Fehling, 45, of Lincoln Park, a student pilot, was in critical condition and transferred to Oakland General Hospital in Dearborn.

Thomas Bajkiewicz, 32, of Wyandotte, a certified flight instructor, was listed in serious condition at Oakland.

DETROIT--Ford Motor Co. has become the third of the Big Three auto makers to announce major increases in earnings for the first half of the year with a 46 per cent increase.

Chrysler Corp. previously reported record first-half earnings and General Motors Corp. reported profits \$48 million ahead of last year's first half.

LANSING--Waverly School District officials have delayed indefinitely the scheduled opening of classes in the fall following the second apparent defeat of an operating millage request in six weeks.

"The Waverly voter," said Emerson B. Ohi, school board president, "has denied the school district 40 per cent of next year's operating budget and without this 40 per cent, we cannot operate."

The Waverly's 13.5-mill is

Frenchmen Drink

PARIS -- The French consumed about two billion bottles of mineral water last year. Each bottle contains one and three-fourths pints. The average annual consumption per person is 32 quarts--compared with 23 in Switzerland and 16 in West Germany and Italy.

sue failed by an unofficial eight-vote margin.

GRAND RAPIDS--One of the spectators injured July 13 when a race car went out of control at the Berlin Raceway at Marne has filed a \$150,000 suit in Kent Circuit Court against the raceway owners.

Walter A. Runstrom of Grand Rapids was seated in the Grandstand when the accident occurred and claims he suffered severe and permanent injuries. Three persons were killed and 25 injured in the crash.

KALAMAZOO -- Police closed several blocks of a street in Kalamazoo's predominantly Negro north side when small groups of Negro youths stoned passing cars.

The youths hurled rocks, bottles and "at least one Molotov cocktail" at white motorists, police said. No one was injured. There were no arrests.

WASHINGTON--Rep. James G. O'Hara, (D-Mich.), has called for quick action on proposals to establish a Sleeping Bear Dunes National Lakeshore on Lake Michigan.

"We can still save Sleeping Bear," O'Hara told a House Interior subcommittee. "But we

must act quickly. Time is running out. Every day of delay takes its toll of the park."

TROY--The nude body of an unidentified woman has been found near the southbound exit of I-75 at Crooks Road in Troy.

A coroner was unable to determine the cause of death immediately but said the woman, who was 35 to 40 years old, had been dead at least two days when found.

Troy police said the 5-foot-2, 110-pound white woman was wearing a gold wedding band. Investigators at the Michigan State Police Crime Laboratory in East Lansing have been called to help on the case.

CADILLAC -- A young Cadillac woman has been hospitalized with severe burns after a car load of youths doused her with an inflammable liquid and set her clothes afire.

Mrs. Larry Titus, recovering at Cadillac Mercy Hospital, told police that four young men touched a flame to her sheer garments while they were talking on the front porch of her home.

Mrs. Titus said they drove off in a light blue car which police said avoided overnight roadblocks set up by local and

state police assisted by sheriffs deputies.

DETROIT--Six Negro members of the Mayor's Special Task Force on Police Recruiting have resigned, saying that the city's stop and frisk law conflicts with progressive changes and proposals within the police department.

Mayor Jerome P. Cavanagh's signing of the stop and frisk ordinance earlier this month is evidence that he "is not giving it (police-community relations) the kind of recognition it needs," said Robert Tindal, one of the committee members who resigned.

DETROIT -- Mayor Jerome P. Cavanagh has been granted an absolute divorce from his wife, Mary Helen, and was awarded custody of the four oldest boys.

The 40-year-old mayor was ordered to pay his 38-year-old wife \$50 weekly alimony and \$25 weekly for each of the four children given in her custody.

Mrs. Cavanagh also was awarded the family home and furniture, car and her personal property, with the mayor directed to assume the mortgage and maintenance of the home.

BILLIE FARNUM ENDORSEMENT

Former Congressman Billie S. Farnum understands the qualifications necessary for the office of United States Representative.

He supports Attorney Gary R. Frink for the 19th Congressional District seat he held in the 89th Congress because Farnum knows first hand, the job Gary Frink did in the White House, the Commerce Department and the Department of Health, Education & Welfare during his years in Washington, D.C.

Billie Farnum doesn't take an endorsement lightly: "I have given the matter a great deal of thought. I have analyzed background, education and experience of the two men vying for the honor of the Democratic congressional nomination . . . and I have come to the conclusion that Gary R. Frink is undoubtedly the best qualified candidate . . . I urge my many friends in the 19th District to support the candidacy of Gary R. Frink, to work on his behalf and to vote for him in the Democratic primary August 6 . . ."

Observer WORLD OF WOMEN

MRS. JAMES L. KROPF
(Martha Wetzel)

New Bride Wears Ivory Linen Gown

Martha Wetzel and James L. Kropf spoke their marriage vows in a recent double-ring ceremony in the First Congregational Church in Glen Ellyn, Ill.

Dr. Charles Hoskinson officiated the service.

Wearing a gown of ivory linen, edged with lace, the bride was given in marriage by her father. Her sweep-train and full length veil fell from a bow of ivory linen as she carried a bouquet of old-fashioned flowers.

PARENTS of the couple are Mr. and Mrs. Gardner Wetzel, of Glen Ellyn, and Mr. and Mrs. J. Richard Kropf, of Plymouth.

Mrs. Richard Wetzel was matron of honor, and Mrs. James Cooper and Mrs. Al Stigallo served as bridesmaids. They wore yellow and white polka dot, floor-length dresses and carried nosegays of white daisies and baby's breath.

THE BRIDEGROOM'S brother, John R. Kropf, attended as best man and Richard Wetzel and James Cooper served as ushers.

After a trip to Copper Harbor, Mich., the couple went to St. Louis, Mo., where they will make their home. The bride is a graduate of University of Mich., and the bridegroom holds degrees from both U. of M. and Harvard University school of business.

CHRISTINE PERRONE

Mr. and Mrs. John Perrone, of McAllister Avenue, Southfield, announce the engagement of their daughter, Christine Gertrude, to Michael James Bartlett, son of Mrs. Ann Bartlett, of Beaverland Avenue, Detroit. The bride-elect is a graduate of Our Lady of Mercy High School, Farmington, and the University of Detroit School of Dentistry, Detroit. She is employed as a dental hygienist. Her fiancé graduated from Cody High School, Detroit, and is employed by Oval Tool and Die Corp. The couple is planning to marry in the spring of 1969.

MARY RONK

Mr. and Mrs. William Ronk, of Elmhurst, Plymouth, announce the engagement of their daughter, Mary Ellen, to Larry E. Smithson, son of Mr. and Mrs. Hubert E. Smithson, of Southworth, Plymouth. Both are graduates of Plymouth High School and students at Michigan State University. No wedding date has been set.

Soak Glory Seed

Morning glory seeds are very hard. To facilitate germination, notch the seed with a sharp knife or soak it several hours in lukewarm water.

LBJ Opposes Proposed Steel Price Increases

WASHINGTON -- President Johnson said of the Bethlehem Steel price increase, "It will have dire economic consequences for our nation." Johnson also urged other steel industries not to follow this increase.

U.S. Steel, the largest of the steel industries only increased prices on tin plate and not on all products. Although a spokesman for U.S. Steel said, "This is a price increase. No question about it."

The Bethlehem action was

taken after the labor settlement of a billion-dollar contract. This is the largest in history.

LITTLE ROCK, Ark. -- In spite of three vocal Democratic foes, Sen. J.W. Fulbright won the Arkansas primary by a large margin. His opponents had tried to beat him out because of his "get out of Vietnam" policy.

Fulbright came out of his tightest campaign in 24 years with more than half the votes.

National Roundup

During his two-month political swing in his home state, he explained his stand was to "stop the killing of our men and to bring them home to their families where they belong."

WASHINGTON -- At the same time Congress passed its gov-

ernment spending law, a \$6 million cut, the federal payroll reached unprecedented numbers. Congress ordered a cutback of 2,366,317 jobs, and the federal payroll simultaneously increased by 95,350.

The required rollbacks are already infringing on some areas, particularly the post office, where Congress is acting to make them exempt from cuts. Action will probably also be taken to relieve the air traffic controllers.

LOS ANGELES -- The 25 year marriage of a Hollywood glamour girl and a football hero ended in divorce. Jane Russell, 47, told the court that

her husband, Bob Waterfield, was "cold and indifferent." He charged that she was "habitually intemperate."

Miss Russell still receives \$900 a week from her early contract with Howard Hughes, who began her movie career, starring her in "Outlaw."

WASHINGTON -- Using a film a University of Michigan film club, the Senate's judiciary committee is challenging in still another area, President Johnson's appointment of Abe Fortas as Chief Justice of the US Supreme Court.

"Flaming Creatures" was not censored by the US Supreme Court in a 1967 test

case, Fortas agreeing with the Court, Chief Justice Earl Warren, however, did not agree, and said the film was not within the guidelines of the First amendment.

MIAMI BEACH -- George W. Kriska, executive director of the Air Traffic Control Association, Inc., testified before the GOP platform committee, that it will take \$1 billion to expand airports and airways and another \$200 million annually to maintain them.

The Air traffic controllers are requesting the GOP to pledge necessary men, funds and legislation to ease the increas-

ing air traffic congestion.

HOUSTON, Tex. -- Beth White Brunk, a Houston housewife is the first woman to receive a heart from a woman donor for heart transplant surgery. She is reported in satisfactory condition at St. Luke's Episcopal Hospital.

Betty O'Neal, 40, of Corsicana, Tex., was the donor. She was brought to the hospital after suffering a brain hemorrhage.

WASHINGTON -- In spite of challenge from the Food and Drug Administration, the Army insists that irradiated canned bacon is not harmful. The FDA

claims it can result in adverse effects on the reproductive process in rats, according to their tests.

Col. Edward L. Johnson said because of the FDA's report, the Army plans to do additional tests on irradiated bacon.

MIAMI BEACH -- Appealing to the Nixon camp and disturbing to others, former President Eisenhower sent a special message to the GOP platform committee warning them against a "camouflaged surrender."

A member of the nonpartisan committee, he strongly advised against a platform of complete pullout or of massive escalation.

\$\$\$ Dictate Community Play Choices

By SUE SHAUGHNESSY

Art for art's sake is fine, but it doesn't pay the bills.

Nowhere is the artistic type brought so abruptly face to face with this stark reality than in the world of community theater.

Observerland's community theater groups are no different.

One active member of a local organization told us that "about once every two years we can do a play we want to."

A member of another group says "it's true that we don't often do the plays we like." This view is not universally shared.

HOWEVER, one and all agree that the budget and finances often dictate the choice of a play.

The time was when community theater fare consisted of "John Loves Mary" plays with a few recent Broadway comedies tossed in for good measure.

Thankfully that is a time of the past.

Today's community theater groups seem to walk a tightrope between plays that are good drama and the mindless products that are box office hits.

Observerland community theater groups face strong competition from the Fisher, the college theaters in both Detroit and Ann Arbor, the growing sophistication of the film industry and the free and all too convenient distraction of the TV set.

To come up with a winning combination of theater and finances takes both skill and luck.

WHAT ARE the factors in choosing a play?

The Livonia-Redford Guild says that the cost of royalties—especially for the musicals—is often the deciding factor.

Then the next step for any group is to determine whether or not the show is technically feasible. This means—can the set be constructed, is the stage large enough, and can the group do the costumes?

Next—can the group cast the play?

Once these irrefutable hurdles are passed—then the choice becomes more complex.

The director's choice plays a prominent role. From there on it hinges on the personal taste of the play selection committee of the group.

While this process is the basic one generally followed by all the community theater groups, some use the additional factor of inserting cards in the programs asking the audience what they would like to see.

The Farmington Players uses this method.

Hope Nahstoll said that the cards very often report that their audiences like the choices and to continue the good work.

She adds, however, that the Players believe they are drawing "an increasingly sophisticated theater-going audience."

"We are attracting people from outside Farmington," she adds, "and we don't have to worry about any type of provincial outlook."

WHAT ABOUT the cost of a production?

A straight play will run from \$600 to \$850 on the average for any group, but musicals can run much higher.

Budget for the recent Livonia-Redford production of "The Fantasticks" was \$2,500. And that was a low-cost musical.

The Guild made money on that play. It lost on the fall musical production of "Irma La Douce."

However, a few years back the Guild brought in a troupe from Michigan State University to put on the classic Shakespearean comedy, "Taming of the Shrew."

The result was disaster. "We had to beg people to buy tickets," a member wails.

Conversely, the Farmington production of "Death of a Salesman" was called "one of the best money makers" for that group.

What's the answer to the problem?

If anybody has it, contact any one of the local groups pronto. They're waiting to hear from you.

Melodrama Joins Village Repertory

A train chugged across the stage of the Henry Ford Mu-

seum Theatre July 29, but the heroine jumped in just in time to keep it from impaling her boy friend on its cowcatcher. The scene climaxes several exciting plot twists that contain all of the elements associated with broad melodrama.

That's as it should be since the play, "Under the Gaslight," was penned by the man who originated the device of tying the hero to a railroad track. Augustin Daly's melodrama first shone in the footlights at Daly's New York Theatre on Aug. 12, 1867.

"Under the Gaslight" is the third of four plays being offered this year by the Greenfield Village Players under the banner of the "American Drama Festival." The Players perform in repertory and present each play in its original manner.

Another Daly drama, the farce "Needles and Pins!" opened the season in early July. That was joined by "Rip Van Winkle," and now by "Under the Gaslight."

The fourth play of the season will open on Aug. 12. It, too, is a Daly-written comedy entitled "Horizon." Most critics consider "Horizon" as Daly's best play. It combines both a tender love story and satire on the Easterner's view of "the wild West."

With the opening of the last play, summer theatre-goers may attend a different play on any four consecutive nights. The season continues through Sept. 14.

MIA FARROW doesn't know it yet, but the charm given her by Ruth Gordon in "Rosemary's Baby" is satanic. Ira Levin's novel about witchcraft has been made into a film that will open Wednesday at the Livonia Mall Cinema I Theatre. It's recommended for adult audiences only.

Verdi Opera Slated

Cornell MacNeil, Roberta Peters, Jan Peerce, and Ezio Flagello will appear with the Meadow Brook Orchestra and Chorus in a concert performance of Verdi's "Rigoletto" at 8:30 p.m. Wednesday, Aug. 7.

James Levine, musical director of the Meadow Brook Orchestra, will conduct in the Baldwin Pavilion at Oakland University.

To be sung in Italian, the program features Cornell MacNeil as Rigoletto, Miss Peters as Gilda, Jan Peerce as The Duke, and Ezio Flagello as Sparafucile and Monterone.

Levine, assistant conductor of the Cleveland Orchestra, said of the event, "These professional singers want to do this in order to provide an exceptional musical experience in collaboration with the young artists of the Meadow Brook Orchestra and Chorus."

The Meadow Brook Orchestra and Chorus are composed of talented musicians selected by audition. They have come to Meadow Brook from 44 states and 14 foreign countries for a summer of professional study and performance with leading artists of the musical world.

Tickets for the concert are available at the Meadow Brook Festival box office and all J. L. Hudson stores.

Singles Club Seeks Singles

The Klub, an organization for singles 21 and over, has been busy getting acquainted with singles throughout the area. A series of mixer parties has proven to be the best and most enjoyable way to meet people from various walks of life and of all ages.

Realizing that it is hard for singles to meet those with like situations, The Klub, provides an excellent opportunity for those people willing to get out and form new friendships.

A New Year's Eve Party (in August this year!) will be held August 7, 1968 at "300" Bowl, Pontiac, for singles.

DRAW SILENT

CARSON CITY, Nev. — The editor of the Nevada Boys State newspaper says 160 high school delegates studying government should be allowed to gamble in this state where gambling by adults is legal.

"Everyone is doing it anyway," said editor Dale Wilson of Reno. He said the boys are playing penny-ante poker, but counselors keep confiscating their pots.

SATELLITE MESSAGES

A personal transceiver, which man can use to speak to any person on earth, could possibly replace the telephone, as we know it today by 1985. Satellites using nickel-containing alloys will beam the signal toward the desired receiver wherever it is.

THINK FRANK

DEMOCRAT FOR CONGRESS

ON TAXES

Gary Frink knows that taxes are hitting you hard. He's paying them too. And his four years in Washington, with the Departments of Commerce and Health, Education & Welfare and the White House convinced him that Americans of moderate income are paying more than their share of the bills of government.

As legislative assistant to Michigan Congressman Wes Vivian and staff director of a U.S. House of Representatives Subcommittee devoted to the modernization of our archaic postal system, he understands the federal budget. He has ideas that will lead to economies. As your congressman, Gary Frink will work for adoption of a plan to pay off the national debt with federal royalties from western shale oil reserves.

He will work to turn our resources to the rehabilitation of our cities, our disenfranchised, our youth, our water and air. With increased productivity and an enlarged, vital work force there will be more people to share the bill.

We will all benefit from a congressman who has the background, the qualifications and the experience to give us our money's worth in Washington. Vote for Gary R. Frink in the Democratic Primary August 6.

(Paid Pol. Adv.)

Suburbanites Like To Wire Protests

By HENRY J. TEUTSCH

Let Western Union do your protesting for you--POM.

If you don't like something someone has said and you want to write your congressman or senator, simply call Western Union and send a "protest" telegram for 90 cents.

W. L. Stewman, regional manager for Michigan and Indiana, said this is the age of protest and more people are using the telegram to protest than ever before.

POM stands for "Personal Opinion Message" and was designed to let the public have a voice and get their opinion to their representatives for a very small fee, he said.

SUBURBIA contributes about 40 to 60 per cent of the total volume of messages and suburban people on the fringe of big cities do the most protesting, Stewman said.

"We reached a peak year in 1967," he said. "We forwarded 1,540,000 telegrams throughout the United States on subjects ranging from the war in Vietnam to the Middle East crisis."

He said that 1967's volume was more than double the number of POM messages sent the first year the service was begun in 1965. That year 20,000 telegrams were sent by everyone who had something to say.

STEWMAN SAID the switchboard lights up like a Christmas tree after a political candidate makes a speech on television.

If you want to protest, he said call the Western Union office and tell them you want to send a POM telegram. For 90 cents, under this plan, a person can lodge a complaint to his elected representative in Washington or his home state in 15 words or less.

He said his office will supply the name of the official the caller wishes to contact, but they will not help the person write the message.

The director added that Western Union insists that the caller include his address so that the official may reply.

"This is an age of protest and it seems to have generated more interest in affairs," he said.

WHEN THE AID to non-public schools was a hot issue in California a few months ago, Stewman said, there were

40,000 POM messages from that area to Washington alone. Interestingly enough, he pointed out, the housewife uses this service more than men do.

Western Union will continue the POM message system as long as there is interest from

the public.

He added that the most messages sent now deal with the various political races around the country. He expects more people to do more sending in the coming week when the national conventions get under way.

Moving Task

It recently took three men to carry a giant philodendron that had decorated a Hackensack, N.J., barber shop for more than two years.

The philodendron had grown to a length of 85 feet when the shop moved.

Abolish Electoral College

The prospect that this year's presidential election will be thrown into the House of Representatives underscores forcefully the need to do away with the Electoral College and have a direct popular vote, says 19th District Congressman Jack McDonald, R-Redford.

"Nothing could be less democratic or less a reflection of national attitude than our present system of electing a president."

"We do not vote for the president. We vote for presidential electors who are chosen by each party in each state and meet after the election to cast the state's electoral votes," McDonald said in a newsletter.

"BECAUSE IT is a winner-take-all setup, it is basically inequitable. More than that, however, it has resulted on two occasions in the election of a president who did not lead in the popular vote but had captured majorities in the right combination of states to win in the Electoral College."

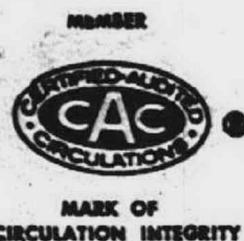

"In 1824, in the only election ever decided in the House, Andrew Jackson had led John Quincy Adams, Henry Clay and William H. Crawford but had fallen short of an electoral majority. Clay threw his support to Adams, who was elected by the House."

"In 1876, in the nation's most scandalous election, Samuel Tilden led Rutherford B. Hayes in the popular vote, but election returns in four states were disputed, and an Electoral Commission decided for Hayes by one electoral vote."

"In 1888, Grover Cleveland, who was running for re-election, led Benjamin Harrison in popular vote but lost in the electoral college."

"THE BASIC unfairness of the Electoral College lies in the fact that it is based on the decennial census."

"Thus, despite population shifts and widely varying population growth rates, Electoral College apportionment takes place only at 10-year intervals."

4-1 Help Wanted, Male

RETAIL SYSTEMS Equipment
The NCR Retail Total System is used by retailers to electronically provide them with up-to-the-minute data on sales, inventories, accounts receivable, etc.
An additional salesman is needed to market retail systems equipment in Detroit. He will undergo extensive training on a salary and bonus basis. Draw and commission following training will extend into a five figure income. No overnight travel will be entailed.
Complete fringe benefits (including college tuition refund) are 100% company paid and are effective the date of employment.
We do not require a degree, but prefer a college background. Sales experience is not required, but experience in some aspect of retailing is desirable. It is required, however, that applicants have an accounting background (experience or formal education).
Capability of dealing with the public must be compatible with NCR's undisputed leadership in the business equipment field.
Phone for an interview appointment. Interviews will be in strict confidence and may be arranged after normal business hours. Ph. 873-5500.

Congress, Legislative Candidates Given Ratings

As Tuesday's primary election draws closer, two prominent nonpartisan organizations have issued their ratings of candidates in southeastern Michigan contests. They are Civic Searchlight, which specializes in Wayne County races, and the Oakland County Citizens League.

In the 19th Congressional District race for the Democratic nomination, the Oakland League gave Pontiac attorney Gary R. Frink 89 points and Livonia businessman Ron Mardiros 73. The ratings are based on education (10 points), experience (35) and an interview (75). Incumbent Jack McDonald

was given no rating because he is unopposed in the Republican primary.

CIVIC SEARCHLIGHT gives ratings of "preferred," "well-qualified," "qualified" and no designation. No designation can mean either that the committee lacks information on the candidate or that he is not considered qualified.

Here are Civic Searchlight's ratings in local state representative races:

- 33rd House District (includes part of Livonia)--Incumbent Democrat Richard Young, preferred and well qualified; Steve Dziadzio, also running in the Democratic primary, no designation; unopposed GOP candidate James T. Brady was not rated.
- 34th House District (Redford)--John Bennett, incumbent Democrat, preferred and well-qualified; Eugene F. Melnick, opposing Bennett in the Democratic primary, no rating; Ronald C. Rice, with no opposition in the GOP primary, no rating.
- 35th House District (most of Livonia, Northville)--Louis Schmidt, incumbent Republican, preferred and well qualified; Neal C. Hall, also in the Republican primary, no rating; Marvin R. Stempien, former Democratic representative, preferred and well qualified; John T. McDonald, also in the Democratic primary, well qualified.
- 36th House District (Garden City, part of Westland, Plymouth)--James Tierney, incumbent Democrat, preferred and well qualified; Donald A. Sellers, Democratic challenger, qualified; Lawrence J. Keller, Democratic challenger, no rating; Harold Bergquist, Republican, qualified; Gregory Pilon, Republican, no rating.
- IN THE 64th House District race, which includes Farmington, incumbent Republican Raymond Baker was given 95 points by the Oakland Citizens League. He is unopposed for renomination.

The league gave Democrat Aldo Vagnozzi 89 points but didn't rate Democrat Leonard P. Baruch.

ADDING TO THE COLOR of the Livonia Mall Hawaiian Doorway Sale were Russ and Betty Hidden from Livonia, and Jim and Thelma O'Donnell. The couples gave out fresh orchids and leis from Hawaii and contest blanks for Dinner For Two At A Famous Restaurant. Winners were: Debbie Simpson, Livonia; Elaine Carter, Livonia; Linda Kaiser, Detroit; Mrs. Alex Johnson, Northville; Louise Sebesten, Detroit; Ava L. Denio, Redford Township; Peg Johnson, Farmington; Jamie L. Valimont, Livonia; Mrs. Gus Gumas, Livonia and Mrs. E. Hutcherson, Detroit.

Get Out Of Vietnam - Frink

Carl L. Frink wound up his campaign for the Democratic nomination for the 19th district seat in Congress with a plea to get out of Vietnam and to "preserve society, not just the cities."

"I'm totally against the war in Vietnam," he said. "It's completely untenable for the United States."

He asked for an "open-end commitment" attacking the problems of the cities, where 70 per cent of the population live on 10 per cent of the land.

"WE'RE NOT JUST talking about saving the cities, but preserving our society," he said.

"We should attack this problem with the same commitment we wage a war. Nobody asks what a war will cost when our whole way of life is in danger."

Frink said that the United States is not realistically in Vietnam to preserve South Vietnam for freedom-loving people, but to try to contain Red China.

It is Frink's first campaign as a candidate after serving in the campaign of former Congressman Wes Vivian in 1966. Vivian, a Democrat, is running again for the 2nd District seat.

"IT'S A LITTLE different out here with your own head on the block instead of helping another candidate," he said.

Frink held four congressional jobs in Washington before resigning this spring to make his campaign for Congress.

"I have gone to the voters with my qualifications," he said. "I think it is important for a candidate to be able to attract independent voters. That I have done."

Missing Clerk Still On Ballot

The U.S. Coast Guard search for Oakland County Clerk John D. Murphy on Lake Michigan has been called off, but it's possible that the first Democratic clerk of the county will still be on the Aug. 6 primary ballot.

Murphy was reported missing July 27 when he failed to return from a boat ride near Beaver Island on Lake Michigan. The Coast Guard station at Charlevoix abandoned its full-scale search for Murphy on July 30.

Murphy, 54, is unopposed for the Democratic nomination. He was first elected in 1964.

State and county election officials said this week that until death can be determined, there is no way that Murphy's name can be removed from the ballot.

MURPHY HAS BEEN missing since Saturday when he failed to return from a boating trip to Beaver Island off Charlevoix. He was alone in his 14-foot craft which was found overturned on Lake Michigan Sunday.

James Chapman, state elections supervisor, said that there is a state law providing for the selection of an alternate candidate by a county political committee in cases where a lone candidate for office dies.

The statute does not apply in Murphy's case because death has not been officially established, according to Chapman.

If his body is recovered the day before the primary, there is a possibility that the County Democratic Committee could

select a substitute candidate to run in his place.

This would mean, however, that county election officials would have to print stickers with the name of the new candidate and distribute them to each of the 408 precincts in the county for placement on voting machines.

SHOULD MURPHY'S body be found after the primary, the Democratic committee could choose a replacement to run in the Nov. 5 election against the Republican nominee for the office.

If all attempts to find Murphy's body fail before the November election, his name would appear on the general election ballot unless Probate Court is petitioned to make an official ruling on the death.

The petition can be filed with the court only after 60 days have elapsed from the time a person is presumed dead.

County Democratic Chairman George Googasian said that the committee would probably take this action. Otherwise, the party would be left without a candidate for the high county office.

MEANWHILE, the vacancy will be filled by an appointee selected by the Oakland County Circuit Court judges.

It is not known when they would make the appointment. The appointed clerk would serve in office until Jan. 1, 1969, when the winner of the November election takes office.

This Brennan's Running For Circuit Judge

By DON HOENSHELL

Sort out the Brennans in Wayne County politics and you come to a 46-year-old lawyer who is fighting an uphill battle in a three-man race for the Wayne County Circuit Court. He is Thomas J. Brennan, former president and now a member of the State Board of Education.

Brennan is running in the Aug. 6 primary against Common Pleas Judge John O'Hair and Detroit Traffic Judge Richard M. Maher.

He admits Brennan is a magic name in county politics and that it will probably help at the polls, but most labor and party district organization endorsements are going to others.

"It's going to be tough," he said.

THE OTHER Brennans? There is John Vincent Brennan, a retired circuit judge; the late Vincent Brennan, a former circuit judge; Supreme Court Justice Thomas E. Brennan, and Recorder's Judge Vincent Brennan, who is running for the State Appeals Court. The confusion spreads over to voters. Thomas J. quoted one petition signer: "Sure I'll sign. He's been a judge for a long time."

THOMAS J. BRENNAN The Name Helps

Brennan's major labor backing is Communications Workers of America (CWA) Local 4000, which he helped organize as a Michigan Bell Telephone Co. employee while working days and going to school nights.

He's also getting some help from UAW Ford Local 600, but the heavy brass of the AFL-CIO and the UAW are pledged to Maher.

"I DON'T THINK labor should make the decision," Brennan said. "I think the voters in the primary should have the final word. My whole life has

been in the labor movement, and I can't understand it."

Brennan is still a member of the Michigan Employment Security Commission Appeal Board, and he has been a member of the Executive Board of the Rehabilitation Institute of Detroit and of the Community Services Committee, Wayne County AFL-CIO.

He also has served as secretary-treasurer of Local 4000 (CWA), vice chairman of the Youth Division, Catholic Social Services, secretary of the Blind Service Center of Detroit, and served three years overseas in World War II.

Brennan says Maher, just recently elected to the Recorder's Court traffic division, has eight years to serve and O'Hair has four years to go on a new term in Common Pleas Court. "I think they should serve out the terms to which they were elected," he said.

Brennan went to school nights to complete his education at the University of Detroit and the Detroit College of Law.

Michigan, a leader in health programs, is one of the few states to have a cancer research center--the new G.D. Cummings Cancer Products Development Center located at Lansing.
