# Principal Told: 'Sign Contract Or Else ... '

A sign on the desk of Principal Robert Smith at Middle School West reads: "Be Reasonable. Do It My Way.

That's the thinking, school chiefs say, which may mean an end to Smith's job.

# .45 Mill Tax Hike Included In Budget Proposed For City

By W. EDWARD WENDOVER

The tentative budget proposed for the city of Plymouth's 1973-74 fiscal year contemplates a tax increase of 0.45 mills applied to the recent city-wide reassessment.

The proposed budget includes 5.5 per cent salary increases for all city emploves

According to City Manager Fred L. Yockey, who proposed the budget at Monday night's city commission meeting, a tax increase from 14.70 to 15.15 mills -- as well as some existing capital reserves - would be needed to balance the \$1,791,750 budget.

That increase would be applied against the city's total state equalized assessment which rose about \$6 million to \$76,700,000 in the city-wide reassessment and subsequent adjustments earlier this year.

This would mean an overall increase in revenues of about \$109,000 over last year. Yockey projected.

However, the projected budget shows a spending increase of \$198,000 with the additional \$89,000 coming from ac-

cumulated capital reserves of the city which were mostly realized during the 1972-73 fiscal year.

Under the city charter, the city commission must approve the budget by its first meeting in May. The fiscal year runs from July 1 through June 30.

Monday night the city commission set a public hearing on the budget for its May 7 meeting and set a study meeting on the budget for Tuesday. April 10.

The city commission may decide to change some items in the proposed

One such item may be the \$35,000 in fees for the planning consulting firm recently hired by the city which, under the proposed budget, would come from general operating funds.

The commission had said it would like to use federally shared revenue for the planning fees.

If the commission decides to pay that from the federal revenue sharing fund account - which is not spent under the proposed budget -- it could mean a decrease in the proposed budget by that amount.

If that amount were removed from the proposed budget, it would mean the contemplated tax increase would probably not be necessary since it would generate about \$34,000 based on the recent reassessment.

Among the proposed major expenditure increases are:

• \$64,000 for debt retirement including payments toward the Plymouth Community Cultural Center and the parking fund bonds.

• \$44,000 for the continuation of city employes hired under the federal Emergency Employment Act which runs out this year.

• The \$35,000 for the planners' fees. •\$30,500 for a general 5.5 per cent salary increase for all city employes.

According to Yockey, the contemplated .45 mill increase would put the city's total operating millage levy at 12.525, or roughly 212 mills below the 15-mill limitation defined by the city

In addition to that, there would be a 2.625 mill levy for debt retirement -making a total levy of 15.15 mills.

At that rate, a home with a state equalized valuation would be taxed \$303 for city operating and debt ex-

Smith maintains that these two statements make the rest of the document meaningless and leave him unable to compute what salary to expect for the coming year.

Since administrator contracts are fairly standard statewide, there are those who see wide implications in Smith's stance.

After 26 years in this business I feel crushed to be treated in this manner. said. Communications have broken down completely with the central office. I haven't seen the superintendent for over a year to talk to, and I have asked to see him.

"I don't know if this is the end of the line or not as an administrator. The harassment and attitude isn't worth all the noise it's making

However, there are those in the community who feel that Smith's dispute with Hoben is really a personal one. going back nine years to when Smith was assistant principal in charge of guidance and counseling at Plymouth High School.

Hoben was given his job and Smith, who some say had expected to replace Carvel Bentley as Plymouth High principal, was made principal of Middle School West. And Hoben continued to climb until reaching the superintendent position.

To Lawton the whole fuss is a bunch of "nit-picking. "We just expect the same of Bob as any other administrator." he said.

Dr. Joseph C. Denniston, deputy director of the State Department of Mental Health and the task force chairman. outlined the task force findings and recommendations at the start of the meeting.

"There is no question that small group living arrangements are the best program for the vast majority of children, than are individual large institutions where people are regimented and programmed in bulk," he stated.

He also said he is "strongly in favor of" the creation of a central agency to refer families with troubled children to the proper agencies for help, as recommended in the task force report.

Dr. Denniston said most children at the center are properly the responsibility of the state or, in the cases involving delinquency in a child with an IQ of over 70. of the courts.

Dr. Denniston was supported by Dr. Ray Lewis, director of the Detroit-Wayne County Community Mental Health Services Board.

"It is no longer true that the best treatment for disturbed children is in large. centralized, isolated institutions," Lewis stated. "It is our board's recommendation that the entire program be decentralized and that the children be placed in community-based facilities."

However, Dr. Lewis added that the state government "better put its money where its mouth is or it can't be done.

His agency is financed through 75 per cent state funds and 25 per cent county funds.

Samuel Davis, executive director of the Michigan Association for Emotionally Disturbed children, said small-group homes are "not feasible" for severly disturbed children.

He also questioned the

The district currently levies The state will supplement of 35.65 for operations and four mills for debt retirement.

Under the bill, South Redford's state aid will drop from \$34 per pupil to nothing from the state.

Southfield would drop from \$48 to \$17 per pupil but industrial expansion will boost local revenue from property taxes. Based on an average 7.5 per cent increase in SEV. Southfield's state and local aid per pupil will increase from \$1,072 to \$1,101 per pupil or more.

Pursell said that South Redford officials claim the district's SEV won't increase by 7.5 per cent but only by about three-quarters of one per cent. Consequently, the district won't gain additional revenue through increased local revenue.

Pursell said that a "grandfather" clause may be added to the bill to give South Redford some state aid next year. A meeting is being set up with school officials to discuss that possibility, he ad-

All other districts will experience an increase in state aid if the bill is approved ir its current form.

Pursell said state aid to Garden City will increase next year from \$507 per pupil to \$607 under the bill: Livonia from \$286-to \$343; Plymouth from \$190 to \$211; Redford Union from \$396 to \$485: Wayne Westland from \$412 to \$503; Farmington from \$313 to \$380 and Clarenceville from \$344 to \$424.

Based on a projected 7.5 per cent increase in SEV for each district, the bill will bring state aid and local funding to a total per pupil rate in Garden City from \$818 to \$925, Livonia from \$932 to \$1,002, Plymouth from \$957 to

Also in the bill is a provision to reimburse districts for 75 per cent of their student transportation costs. This will benefit all local school districts since they have been reimbursed about 65 per cent in the past.

Livonia will be one of the prime benefactors of an academically talented provision in the bill to support programs for exceptional students. Pursell said.

A similar provision was vetoed out of last year's appropriations bill, but Pursell said he will "guarantee" that the \$150,000 provision will remain in this bill.

The bill includes provisions for the next two years including \$39 per pupil per mill for the first 25 mills levied in 1974-75 and \$40 per mill regardless of the levy in 1975-76.

Although the bill has been hailed as the first to look at long-range school financing. Pursell said he doesn't agree.

"I don't view it as a threeyear plan," he said. "People are still looking for property tax relief despite the defeat in November."

The tax relief proposal on the November ballot would have dropped property taxes for supporting schools and relied on the income tax to provide the funds.

Pursell said that there is a possibility the school millage rate would be set at 13 mills in the state with the balance made up from an income tax increase.

### **A Hockey Glance** Over The Ocean

I guess the extra long lunch breaks can still be as informative as a hidden "mike" on the pitcher's mound in the ninth inning with two outs and the bases loaded.

Bob Griffin, local sporting goods dealer, had just returned from a 12 day tour to Stockholm, Finland and Leningrad. Russia so I figured it was about time for one of those "extra long lunch breaks."

I couldn't have asked for three hours of more interesting straight talk from a man who is doing so much for sports in Livonia.

Koho Hockey Stick Co. in Forssa, Finland invited dealers from the United States and Canada to be its guests and observe hockey across the ocean and of course to look at its equipment.

"I was just tremendously impressed with the hockey facilities overseas," said Griffin. "And all players are treated like national heroes."

Bob's greatest thrill had to be the opportunity to get behind the Iron Curtain.

"We stayed in Leningrad two days and what a feeling of uneasiness for us," he said. "But we had the chance to see the Russian national team play Finland at the Yubilevnv Ice Palace which seats about 12,000."

At this time Bob shuffled over some colorful post cards of the palace which looked like something out of a Disneyland picture book.

"I couldn't get over how clean it was and of course there is no parking problem because there are hardly any cars.

"Here it was, two national teams playing and the people just didn't seem to show any emotion. They acted like they were all in limbo or something.

The Russians appeared intense but they sure didn't display it. "Except for when they scored a goal, they would

all stand up and applaud and sit back down. "The amazing thing I found was that before you got to your seat, there was a booth with a girl where you checked your coat. There was one of these for about every 100 people. So about some 12,000 people check their coats before entering the arena to watch

"Could you imagine checking your coat to watch a game at Olympia? You have a hard enough time keeping it with you when it's on your back.

There are no vendors in the Russian arena. with a small amount of refreshments sold in the corridors but nothing of an alcoholic nature," added

"You know, you just have to be impressed with their discipline. Even the players stay away from a violent aggressive style of hockey. In the two games I saw in Russia, I didn't see one stick broken.

'The Russians play like a well-oiled machine with limited body contact," added Griffin.

Bob stayed at the Astoria Hotel in Leningrad. the same site where Hitler had planned his victory party after a victory that never came.

Sight-seeing was on a limited basis with the guests told of a radius that they were not to cross so Griffin concentrated on the activities around the ice

The people are so intent on watching the game - there's just no other 'mickey mouse' stuff going on. You go to a game to observe and that's just the

way it is. Bob saw Russia beat Sweden, 5-1, and Finland,

"Now right across the border the entire situation was just the opposite," said Griffin.

"Everything was colorful in Finland. People are hockey crazy and aren't afraid to show it. Little kids even walk around with Boston Bruins jerseys."

#### My Kid Didn't Politics At Have A Chance! Franklin?

wonder if I may sound off a boy was very good, and know where before I watch last of the seventh.

While others are complaining about not getting their favorite man on the allarea first team, we are concerned about our kid not even getting a chance to play on the high school baseball

All winter, the boys have been looking forward to playing in the spring. They know the game -- play if very well -- have not missed a single practice session as the hard nosed coach insisted, having no consideration for boys attending driver's training classes and yet they were cut from the team.

One of my sons has a case brought teams that were to say. full of trophies, played on tournament teams ever since he started in the Little League. He can play any position well including pitching and the coach has the nerve to tell us the boy is not qualified to play.

If the man was honest with us and admitted he had to make room on the team for friends of friends and favorites from his football team. I would admire his honesty but I cannot accept his decision on the basis that our boys are not good enough.

Oh yes, they say go out for sports. Thank you for listen-

The Observerland area was well represented in the Michigan high school state basketball championships at Ann Arbor's Crisler Arena last weekend.

A mis-worded statement, you say. True, Franklin did get upended in regional action, and Churchill and Westland John Glenn both were crushed in state quarter-final bids, each losing in regional finales.

But Observerland was still well represented, and what a job these area athletes did.

The Dearborn Divine Child Falcons captured the state Class B championship with a 58-54 victory over the Hudsonville Unity Christian Crusaders.

And three of the starting five of Divine Child are Livonia athletes, all juniors. Two of them could have been on the Churchill court and one on the Franklin

In fact, five of Divine Child's nine-man team are from Livonia which is fast becoming an important "feeder city" for parochial powers.

The Livonia "starting threesome" is composed of juniors Gary Forystek, Bob Wenson and Ed Kasparek.

Divine Child Coach Bill McCartney, who has compiled a 132-40 record in four years of coaching. also sported two other Livonia athletes in his sixth and seventh men in junior Dave Swoish and sophomore Jim Wenson, brother of starter Bob.

Churchill basketball Coach Pat Montagano and Franklin head mentor Bob Visser know just what they could have had.

Forystek is a 6-2, 189-pound, 16-year-old who attended St. Damians in Westland before making the jump to Divine Child.

In his sophomore stint, Gary was the seventh man on the Falcon court.

This season he averaged seven points a game and 10 rebounds. He scored six points and hauled in seven rebounds in the state finale over Hudsonville. Basketball is not Forystek's only prowess.

In two years of varsity football competition. Gary has tossed for 28 touchdowns, hit on 217 of 329 passes, was selected all-state Class B quarterback and Catholic All-American.

While in eighth grade at St. Damians, Gary once thought of going on to Franklin High but his father changed his thinking. It was on to Divine Child and now a state basketball crown.

Gary is also a shortstop on the baseball squad, and hit .270 his sophomore year.

Bob Wenson is a 6-3, 175-pound junior who attended St. Michaels school in Livonia.

The older of the two Wensons never gave it any thought to switch to the public school and Churchill High, where he would have gone. It was all Divine Child for Bob.

Bob averaged 14 points a game for Divine Child last year along with an average of 12 rebounds a

This year he averaged 17 points a game and scored 10 points in the championship clash against Hudsonville.

Ed Kasparek is another who could have gone to Churchill.

He also attended St. Michaels in Livonia before taking the Divine Child route.

Kasparek started in his sophomore season and averaged 10 points a game and upped his junior mark to 14 points a game, with 14 points in the Hudsonville victory.

The 16-year-old Livonian was another of all-state football acclaim, earning a berth on the Class B first team, catching 60 of Forystek's passes in two years.

Last season, with these three in their sophomore years. Divine Child piled up a 15-5 record which included the Double A Catholic championship.

Now in their junior stints, these starting three paced Divine Child to a 20-5 record and a Class B championship, the first state crown ever for the school which is in its 13th year.

Jim Wenson was the No. 7 man on this year's state champion, another ballplayer that Churchill could have had, and junior Dave Swoish was the No. 6 man, another roundballer Franklin might have

That's five of Divine Child's nine man roster from Livonia, five ball players who will again be wearing the Falcons uniform come the '73-'74 basketball season.

Yes, the Observerland area was well represented in the Michigan high school state basketball championships.

### THE GRASS CATCHER IS NEVER IN YOUR WAY!

It's not just luck that one of the largest grass catchers you can buy has our mower attached to it. When we designed the Snapper, we weren't trying to build a better mower, we were trying to build the best mower, and we did, right down to the grass catcher. The Snapper Comet has a big 6 bushel grass catcher attachment that unloads in seconds. The V-18 and V-21 have a large 3 bushel bag. Whichever one you choose they all pick up grass, leaves and

# High Schools Set Football Schedules

**PLYMOUTH** Plymouth football fans may find it hard getting used to for a while, but they'll be rooting for both the Rocks and the Chiefs next fall.

Grid schedules for both Plymouth-Salem and Plymouth-Canton High Schools were announced this week by Athletic Director John Sandmann and they show that each varsity will play four games at home and five on the road.

Traditionalists will feel at home with the Salem gridders, where Tom Moshimer will continue as head coach and the Suburban Eight club will be known as the Rocks. Colors are blue and white.

As Canton makes it debut in varisty competition as a full fledged Western Six member, it will be with the nickname of the "Chiefs." Colors are red and white and the head football coach will be Jim Muneio, who moves up from the Canton jayvee squad of last fall.

All home games for both schools will be played on the same field at Centennial Educational Park.

### Come retire with us

If you're considering gracious, secure retirement, you should consider joining us in Ann Arbor.

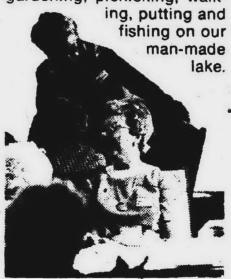

We're some of the first retirees to reserve apartments at a brand new, full service retirement community ... the interdenominational Lutheran Retirement Center.

When the Center is completed, a few short months from now, we'll start enjoying a whole new experience in

To begin with, we have quite an estate. Our 5-story residence building is set nicely on 34 acres of beautiful open space in the northeast part of the city ... just about a mile. from North Campus.

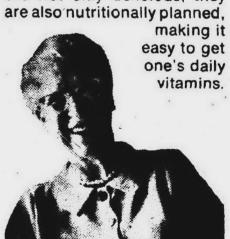

The landscaping is going to be really lovely, and having such an expanse of landscape provides nice recreational opportunities. Like gardening, picnicking, walk-

Although we have all the amenities of country estate living, we're actually inside Ann Arbor. The shopping and entertainments in town are just a short drive from your personal carport or a comfortable ride on one of the Center's complimentary

Dining is a daily delight in the pleasant atmosphere of the Center, with private dining rooms available to make entertaining guests an effortless pleasure. And, the meals are not only delicious, they

Socializing is a natural part of Center living, with luxurious lounges and well-equipped recreation rooms as the setting for our lively schedule of programs and activities. A carefully selected library is available, with books and periodicals for the most discriminating of tastes. We also have a fully-equipped and professionally-staffed health and therapy center. It's comforting to know nursing care is readily available at the Center if ever needed.

We could continue, because there are many, many more advantages to describe. If you're 65 or older, we think you should examine them all. It's quite easy, and there's no obligation. Just return the coupon for full information or call the phone number below. And, please, do it soon. Because, we'd really love to have you join us.

Fill out and return this request to receive complete details on retirement living at our interdenominational center, or call (313) 663-1330.

EAST LANSING Do you have a hippeastrum plant in your home? If you handle it properly, you can enjoy it for a long time, says August De Hertogh, Michigan State University horticulturist.

According to De Hertogh. this plant which is sometimes called amarvilis, should be planted outside after the last spring frost. Sink the entire plant, pot and all in welldrained soil in a sunny area. Remember these are sub-tropical plants.

De Hertogh recommends leaving your hippeastrum outdoors until early September before the first frost. Then take the plant inside and cut off its leaves at the nose of the bulb. Put the plant in a cool (50 degree F), dark area for six to eight weeks. Don't water it at all during this period.

When the time is up, place the plant in a warm, sunny spot in your house and start watering it again. Your plant will normally reflower during the winter months.

De Hertogh says that the hippeastrum can keep up this cycle for years.

# **BEFORE YOU CAN**

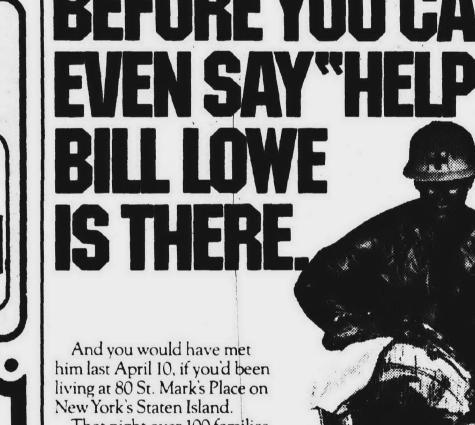

That night over 100 families were forced out of their apartments by a five-alarm blaze. And Bill was on the scene.

That fire – and Bill's 7 hours on the scene – didn't make very big headlines in your morning paper. It wasn't that kind of "major disaster." But because there was a need for such assistance, the Red Cross was there to help. With volunteers like Bill.

Red Cross Volunteers - America's best neighbors are the backbone of services like these, all across the country. People who give their time. And themselves.

to the Red Cross every month. But think a little. Where do you fit in? The American Red Cross.

PEOPLE LIKE YOU HELPING PEOPLE LIKE YOU.

Not as a fireman, or a police-

man, or even a fire buff. But as a Red Cross Volunteer. Rushing to find some beds for people in a nearby church. Rounding up sweaters and pants and shoes for people who'd lost just about everything. And passing around sandwiches and coffee to weary firemen and reporters.

#### RULE BREAKER? DOC KEETH

Are we becoming a nation of rule breakers? My agents report that many of us do not "close cover before striking." Some will not "cut along dotted line," while other more rebellious souls absolutely refuse to reseal a breakfast food box accord-

ing to the instructions. Once I even did not "use handrail." So you see, I'm not lily white either. However, there are some rules swear by and bust my britches to fulfill.

One of these rules is to service the equipment we sell. Lennox air conditioning and heating equipment is famous for a minimum of servicing ... but the buyer is still entitled to have someone standing behind the product. We do. And so does the Lennox company.

Another rule is not to stint on quality. This isn't selfrighteousness. It's just good business. We expect to remain in business around here for quite some time . . . to do so successfully we cannot give short measure of quality.

Another rule: no high pressure selling. The suede shoe operators have sort of worked the furnace business over. But we are not all like that.

It all adds up to one rule. And that is to satisfy the customer. It's a rule we never want to break. Try us. Phone soon.

But be sure to "listen for the dial tone" ... and keep your mouth within 2 inches of the mouthpiece!

#### **Coalition Must** Be Renewed --Winograd

State Democratic chairman Morely Winograd told 2nd Congressional District Democrats that re-establishment of the traditional Democratic coalition is vital to victory in 1974.

Winograd talked in Ypsilanti Township Hall to Democrats from the district, which includes Plymouth City and Township and Livonia.

He said the 2nd district is similar to the state party with its divergent sources of strength.

Winograd admitted that all elements of the party aren't represented in leadership positions. He said that he hopes at-large officers which are to cer in 1971. be elected at the next state central committee meeting U-M Extension will correct this situation.

# Rhubarb--Harbinger Of Spring

By ELLY

The conversation had turned to crocus and hyacinths in bloom, budued tulips and forsythia ready to burst. All this was in spite of the late, heavy snowfall, the remnants of which still remained in blackening drifts.

"And my rhubarb is up that high." said one of the women, measuring a good six to eight inches with her

Now there was the true harbinger of spring. That first batch of rhubarb from the earth, barely frost free. is a promise of all that is to come.

Rhubarb is a native of northern Asia. Of the 25 species, some are grown as ornamentals, some for their medicinal properties.

Garden rhubarb, or "pie plant" should be pulled when young, not cut. It should be used as soon as possible, for it loses its sugar when it stands. Much of the flavor and color is in the skin so it should not be peeled unless very tough.

For sauce, wash and cut in two-inch lengths, sprinkle generously with sugar and let stand two hours. Boil only five minutes in its own juice. Never add water.

A small amount of rhubarb sauce can be "stretched" by making a fruit salad. Just add crushed pineapple and sliced bananas.

For the true rhubarb lover. there is nothing like a good rhubarb pie.

Most cook books have one or two recipes for rhubarb pie: but there is one that contains 17 prize - winning

This is the Blue Ribbon Cookbook of pies and pastries which contains the favorite recipes of home economic teachers.

There's a "Rhubarb-Cherry Pie" from Wisconsin, a "Sour Cream - Rhubarb Pie" from Oregon and a "Tangy Rhubarb Pie" from Arizona. Michigan's contribution is "Quality Rhubarb Pie" from

West Branch. This must be one of the best pie and pastry cook books ever published. Proceeds from the sale of the book aid home economics departments "to add needed, up-todate equipment and to support worthwhile projects within their schools and communities.

Two area teachers have recipes in the book. They are: Alice M. Crossette. O.E. Dunckel Junior High in Farmington. "Fluffy Peppermint Chiffon Pie: and Darlene Marohonic of Churchill High in Livonia. "Orange Layered Pie."

# Blisters Defense Of Secret Board Sessions

EDITOR: read with great interest the recent letter to the editor on why the Livonia school bdard sometimes finds it necessary to dispatch my tax dellars and decide the future of my children in an atmosphere of secrecy.

The letter writer, a school board member, defended "executive sessions" (a euphemism for secret meetings) on grounds they are not a violation of state law so long as they deal only with personnel or property. and the formal vote, if one is required, is cast in public.

Simply put, that means board members can not be prosecuted without one So could virtually any other the disappointment of the so-outstanding poets to appear testiying that discussions matter more easily discussed called "complete" athletic at the college this year under not be prosecuted at all deliberations. because the law cited by the The defense of secret writer carries no penalty, meetings also raised the leaving the board, once question: "Do the automobile behind closed doors, to industries negotiate in discuss any public issue it public?"

I would appreciate instruction on how expulsion of a student relates to either personnel or property acquisition.

The writer noted that salaries, the largest operating expenditure put before the board, are personnel.

Presumably, if "personnel" is a sufficiently broad category to accept discussions of staff salaries,

# Cities Using Double Standards In Judging Movies?

The suburbs, led by Detroit, have gone on a rampage adopting anti - obscenity ordinances to curb undesirable, objectionable portrayal of sex in movies and

Pornography control ordinances have been adopted or revised in Southfield, Livonia, Redford, Garden City and Westland.

Oakland County Prosecutor L. Brooks Patterson has launched an anti-smut campaign, with the first thrust being banning of the movie "Deep Throat."

Garden City was an early pioneer in this field when a group of concerned citizens attempted to ban "Catcher in the Rye" and "To Kill a Mockingbird" from the school reading lists.

But, now all suburban municipalities are on the bandwagon. The distaste for "dirty" movies, it would seem, is more intense than the fear of cross-district busing.

There is a serious "prior restraint" civil libertarian issue at stake here, but the courts should be capable of reading the First Amendment even though suburban councilmen are unaware of what those protections mean.

Aside from the legal challenges which will soon arise, I suggest consideration ought to be given to the double - standard hypocrisy being practiced by city councils, the movie industry, the media, and movie-goers.

Although "Deep Throat" has been banned across the nation. and maligned by the media, the same attention hasn't been given "Last Tango in Paris" starring Marlon Brando. Indeed. "Last Tango" has received cover-story treatment from Time and Newsweek and over articulate reviews from the New York Times.

would not only deprive a great war hero, Gen. Casmer Pulaski, of the honor due him for his many contributions to our nation; it would be an insult to the people of Polish origin of this state. . .

Apparently, back in Salemsville, Pa., where Stosh Nowak hails from, they didn't teach a lot of history. To begin with. Pulaski never came near Michigan. He distinguished himself at the Battle of Brandywine, which is someplace around Philadelphia: he stuck it out at Valley Forge, in Pennsylvania: and he performed well in South Carolina, where in 1779 he was fatally wounded.

It was stretching things quite a bit to name the road for the count in the first place.

Sen. Nowak is correct about one thing: the Sauk tribe has no particular association with Michigan history. Yet for centuries before the first fur trappers arrived, the Indian path that connected the site of Detroit to the site of Chicago was called "The Great Sauk Trail.

Apparently it was called that for the same reason we have roads around here named Southtield, Greenfield, Inkster, Orchard Farmington, Wayne, Plymouth and Ann Arbor -- not in honor of those communities but because they go TO them. If you were a Michigan Indian and you

Another reason for applying Indian names to our roads is that they actually followed old Indian trails. The Detroit-Toledo route. old Grand River, the Detroit-Chicago Road -- all the old highways and even today's freeways are based on Indian trails.

Considering our custom today of naming things in honor of persons or groups, "Sauk" does seem like a bad choice. What else then?

I'm against "Ottawa" ever since I read about how Pontiac's forces executed British captives and floated the corpses past beleaguered Fort Detroit. No one can spell "Potawatomi," not even the Potawatomies. "Miami" seems inappropriate, even though that tribe lived in southwestern Michigan along the Sauk route.

# Knight On White Horse Shafts Senior Citizens

President Nixon has been portrayed by his supporters as a knight on a white horse carrying a lance into battle.

The lance is really a shaft

which Observerland suburbs received in the mail last week.

The shaft was a form letter from the federal Housing and Urban Development agency concerning federally - funded housing for the elderly

The government said it is returning the applications filed by cities because of the president's suspension of subsidized housing programs. It should be noted for the

record that some of the Observerland applications have been on file with HUD and awaiting approval for up to two years. The form letter came within three months after the presidential decision to refuse federal funds for housing for the elderly.

Garden City and Westland housing commissions and administrations have spent a lot of time and money preparing applications for senior citizens' housing and there was no reason to feel that the government would say "no" when neighboring cities like Li-

vonia and Inkster received funds. What makes the lance -- or shaft -- more painful is the president's revenue sharing program will fail to provide much help for the financially - distressed elderly

in the suburbs. The 65-plus retiree or widow is forced to maintain the school tax rates required by growing enrollments and school operational

Although they have the help of property tax relief, the burden is still overwhelming for many families faced with a \$500-\$800 tax bill with an annual income of \$3,000 -

The federally - funded housing for the elderly would have solved a genuine problem for senior citizens -- housing.

Revenue sharing could have been used to either cut taxes or provide services for the elderly.

But in reality, this won't hap-

So the knight on the white horse came riding out of the White House to de battle with the "big spenders" in congress and reduce the national deficit.

His rhetoric may help soothe the feelings of conservatives and supporters but it doesn't help the senior citizens in Observerland who may have a hard time sitting

# Plymouth School Board Gives In To Band Parents... For One Year

Our Observerland readership was left hanging in mid-air last week by an editorial which spoke of high school band problems being weighed by the Plymouth Board of Education. The conflict between the board's meeting date and our press time gave R.T. Thompson the opportunity to pass on some advice to the board, but not the outcome.

To end your suspense. Thompson lost. However, it would seem in order that views from the other side of the coin be presented by one who believes the board acted correctly.

You may have noticed in the past that expressions of Observer editorial writers on issues of the day do not always agree. This right to disagree is something in which we take journalistic pride.

Plymouth is engaged in a unique educational experiment. To begin with you must realize this is a monstrosity of a district which covers 54 square miles. straddles the line between Wayne and Washtenaw Counties, and includes all or parts of six governmental areas.

It bodes well of becoming one of the most populous districts in Michigan, with an enrollment that is expected to double in five vears.

Several years ago, anticipation of this growth led to acquisition of a parcel of land of more than 300 acres three miles from downtown for development as an educational "park."

Purpose was to concentrate all high school activities of the entire district in that acreage on which an educational complex -- not a compound -- would emerge. It was decided to operate each new structure as a separate school with its own identity instead of calling it one big PHS campus.

Behind this decision was the concept of "shared facilities." This means that with schools virtually side by side, students may have classes in any or all buildings. One major suditorium, one stadium, etc., would suffice for all. Yet student identity and loyalty is to be with one school. The Plymouth-Salem building

opened in 1970. The Plymouth-Canton building went into use last fall, but will not have its first senior class until 1974-75. A third high school on the same site (Plymouth-Superior) is now on the drawing board and a fourth is under discussion for the future.

Each will eventually have its own full-fledged status, with its own sports teams, bands, separate leagues, etc., yet continuing to share many facilities ranging from laboratories to the stadium. Quite obviously, many problems

lie ahead which will dwarf the debate which arose over what to do about the 1973-74 marching band.

Plymouth-Canton will begin interscholastic competition next fall in the Western Six, Plymouth-Salem continuing in the Suburban Eight. In simplest terms, the argument which developed within the community was whether Canton should immediately have its own full instrumental music program, even without a full complement of students, or should musicians from both schools combine in a unit that would perform at functions of both institutions.

The latter compromise was accepted -- but just for one year. When Canton is of age, it will boast its own marching troops as it should.

Plymouth long has been proud of its school instrumental music program in particular, and its products starting at the junior high level consistently earn the highest ratings possible.

So great is the participation that the structure includes a symphony band at the top, the concert band and finally varsity band. Membership is determined through personal auditions. The marching band, which functions only through the fall with football games as the showcase, is made up of volunteers from the other three.

Charges of ego-building, selfcentered badgering arose in the Plymouth debate.

The basic desire was that all students be eligible to participate in a unit which would maintain quality. The fact of the two schools standing together made the combination answer possible. under a commitment that this all-Plymouth band will toot just as hard at Canton games next fall as for the Salem gridders.

### Sense And Nonsense

There are probably a lot of Observerland families who are living off stored and frozen supplies rather than buy meat this week in protest of prices.

But no doubt some of the people in line at Farmer Jack's in Plymouth were surprised Sunday when they saw one man buy 100 frying chickens.

It wasn't that he was stocking up so he could boycott prices though -- his church was having a chicken dinner and he was in charge of buying the meat.

#### Councilman **Gets Praise**

EDITOR:

As a resident and homeowner in this community for the past 14 years, I am concerned about the many problems we have in Westland and many more are bound to come up in the future, namely taxes that have increased to a high point that is unbearable.

Some homeowners have sold and moved to other cities for a tax break.

Another problem that concerns most Westlanders is the teenagers and adults who do not seem to understand as to how they should conduct or behave themselves in human society.

Westland's primary elections are coming up Aug. 7 and I would like to see many new people attend the City Council meetings that are held Mondays at 7:30 p.m. in the council chambers, 36601 Ford Road, Westland City Hall.

I have a great deal of sympathy for retired persons who are being hurt by rising property taxes. but I feel they are forgetting a few things.

4. Senior citizens do have various exemptions from property taxes and can apply to have taxes go unpaid and left as a lien on the property to be paid when the house is sold.

5. It is hardly to the benefit of young families to have senior citizens lose their homes and go into nursing homes since they are helping to pay the taxes to support nursing homes.

Last week's letter from R.H. Clough proposed an exemption for senior citizens with annual incomes of less than \$25,000. Few parents of school age children make anywhere near that amount.

#### **Police Praised** By Plymouthite

During the night of March 28, an illegal entry was made in one of the apartment buildings on Sheldon Road, Plymouth.

The Plymouth Police Department was alerted and in just over two minutes three patrol cars and six officers were at the scene, and two arrests were made. All of this without any of the tenants in the apartment complex being aware of what was happening.

Plymouth residents should know they have alert, efficient and well-trained police officers ready to respond to any such emergencies. If you want action, call Plymouth police and you'll

# GET LOST IN A 29-F00T FAMILY ROOM THIS

Come to Northville Commons and you'll see some things you don't often see built into homes anymore.

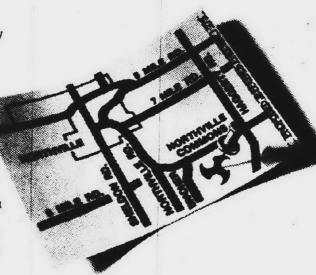

29-foot family rooms, for example. Dining rooms with elegant stained wood and built-in break fronts. Cathedral ceilings that span both living and family rooms. And a walk-out basement.

We even have a unique garage, and a totally new Idea Home, to show you. Plus a 30-acre Commons with picnic and playground areas, walking paths and open spaces. An excellent school system. And excellent shopping,

churches and freeway accessibility in the peace and quiet of a small community.

And with our Guaranteed Sales Plan you can, in effect, trade your present home in on one of our new models. We also have homes available for immediate occupancy. And models in which you can have the

interior custom designed.

THE TALKING COMPUTER (It can help sell your home)

One of the nagging problems you must deal with when you decide to sell your home is establishing the proper price. In a rapidly changing market like we have now, this is no easy task. Of course, you want the best possible price, but you must be realistic. Your price must be competitive with those of other similar properties in similar locations. To save you a lot of time and wasted money and effort, you ought to seek professional counsel right at the beginning.

Here at Farmington Realty Company, one of the tools we use to set proper values and to market your home, is the talking computer. We subscribe to this service to insure the best possible service to you. It works like this: We list the features that make up your home, i.e., size, basement, family room, garage, etc. and then, using a special code assigned to us, dial these into the computer from our office telephone. We ask for prices of homes like yours in a given area. In a matter of seconds, the computer voice comes on with the information we seek. (You can listen in if you wish). You don't get a Bob Hope or a Jack Benny, just cold factual information.

This service, plus our own dedicated selling effort, makes Farmington Realty Company the best place to list your property for sale.
