Trustees mull mill renewal in Novel

staff writer

A decision whether to seek another millage vote in Plymouth Township

will be made next month. Plymouth Township trustees, in their first meeting since the July 29 defeat of a four-mill authorization vote, debated the merit of another vote for one mill during Tuesday night's special

Based on advice from Clerk Esther Hulsing and state Rep. Gerald Law, R-Plymouth Township, the board has targeted Nov. 5 as the date for a new millage election.

Trustees will decide whether to seek

another vote, and for how many mills, at their first meeting in September.

Hulsing said the Nov. 5 date already has been reserved for a possible library authority millage vote.

Law, who attended Tuesday's meeting, said any millage voted after Sept. 15 requires legislative approval in order to be placed on the December property tax bill.

Because of that, Law urged the board to hold the election as soon as possible to avoid problems with obtaining the needed legislative approval.

DISCUSSION OF another millage vote was intertwined with preliminary 1986 budget debate. Supervisor Mau-

budget by Sept. 1.

Because of the July millage defeat, the township is faced with operating on reduced revenues next year. Breen called for opinions in determining where spending cuts should be made.

A rough budget estimate, based on preliminary departmental requests made following the millage defeat, showed a deficit of some \$120,000 although Breen isn't certain about the accuracy of the figure.

Also adding to the uncertainty was information Law shared about state revenue sharing. Because those revenues are allocated based on a relative tax effort, a decrease in township mil-

rice Breen must submit a proposed '86 lage also will decrease state shared revenues The millage defeat means the loss of

some \$80,000 to the township in state shared revenues, Law said.

Trustee Jim Irvine, the only board member who came prepared with proposals on where to cut, outlined a program to eliminate some \$120,000 in

Irvine's two major components, representing some \$100,000 in savings, were eliminating the purchase of voting machines and eliminating dirt road spraying to prevent dust.

Some \$55,000 could be saved by not buying new voting equipment, he said. "I would wipe another \$45,000 and

let the people who live on dirt roads take their problems to Wayne County," he said, adding that the responsibility for county roads rests with the county.

Hulsing objected to eliminating the voting machine purchase. The old machines cost \$4,000 to move to the precincts each election, she said.

"The punch card system certainly would be much cheaper to do. It is time that we modernize our voting procedures," Hulsing said.

BREEN SAID Irvine's suggestions wouldn't cut any services, but would tighten the belt with what they have. Other trustees didn't offer spending-cut

The supervisor, who opposes another millage election, said the township could make it through most of 1986 possibly having to borrow money dur-

ing the final quarter. "You can get through 1986 without any millage but that's a short-term situation and it doesn't take care of the long run."

Hulsing, instead of discussing ways to cut expenditures, led the fight to seek renewal of the one mill for police which expires this year.

"I think we would be justified to ask for the one mill," she said. "It has been the tradition of the board to keep the

Amid the hustle and bustle of a growing suburban city, one small spot in Plymouth has resisted change and remained a quiet haven for nature - at least until now.

Tucked away along the banks of the Tonquish Creek, in between neighborhoods and apartments, is 41/2 acres referred to as the Clarence

The grass-covered field - situated in the middle of residential development, yet hidden from public view - are like an oasis hidden by surrounding sand hills.

The barn, cattle fencing and animal shed stand as monuments to Moore, who until his recent death raised sheep on the land. And just as his 41/2-acre plot was the last farmland in the city, it appears history will record Moore as Plymouth's last farmer.

The quiet little spot has been sold and appears to be destined for development rather than sheep herding.

PLYMOUTH DEVELOPER Jim Jabara and a partner, calling themselves the Moore Property Development Co., have purchased the land and requested rezoning. The land is bordered by Burroughs, Harding and Main.

The planning commission was scheduled to act on the rezoning - from single-family residential to multiple family - at last night's meeting. If approved, the rezoning would pave the way to allow apartments or condominiums

There aren't firm plans on what will be built, even though the land has been staked out, Jahara said Tuesday. "At this point there's not much to tell you," he

Snider hired as deputy chief By Gary M. Cates

staff writer

Plymouth Township resident Marvin "Chip" Snider was hired Tuesday night as second-in-command of the township police department.

Trustees unanimously approved a six-month, \$14,500 contract with Snider following the resignation of former police commander Larry Hall. Hall left the township the day after a

July 29 millage proposal was rejected by voters. He returned to employment with the Southgate Police Department. Snider, 34, most recently was police

chief in the City of Milan. He was relieved of duty from Milan last Friday for failing to meet a residency require-

Snider said Milan officials told him he would have two years to meet the requirement when he was hired but instead was given one year.

Married and the father of two, Snider said he didn't want to move his family from Plymouth Township at this time.

NOW THE deputy chief in the townhis stay at the Milan Police Depart-

At the time Snider came to Milan, having been chief in Clinton, he came into a highly volatile situation. The Milan department had undergone a state police investigation which led to the indictment of several officers.

"I was brought in to stabilize the department," Snider said Tuesday night. Although he was relieved of duty, Milan officials gave him a strong letter of recommendation.

"The council and I deeply regret that this action had to be taken," Milan Mayor Ronald Weber wrote.

"Your performance as police chief has been of superior quality and appreciated by all the citizens of Milan. You can be assured that we will give you the highest recommendation possible in any future employment situation.

Thank you for your excellent service provided this city during the last 15 months," Weber wrote.

TOWNSHIP SUPERVISOR Maurice Breen said the Milan decision, although unfortunate for Snider, was the township's "good fortune."

The six-month agreement is something we thought was best for both parties," Breen said, adding Snider and the township will review the contract after six months.

Breen also said a deputy chief was needed in the township department be-

cause of the relatively young age of the majority of the officers.

"The department needs the additional guidance. We need more than one command person," Breen said.

Trustee Abe Munfakh, who served on a recent township law enforcement study committee with Snider, said he has known the deputy chief for some

"Mr. Snider carries a very good reputation with law enforcement officials in Washtenaw County," Munfakh said.

The trustee believes the township will benefit from Snider's experience at Milan and having started the police department in Clinton.

"We can gain from his experience . . he will be an asset to our new department," Munfakh said.

Besides serving as chief in Milan and Clinton, Snider worked his way through the ranks in the City of Farmington becoming Commander of the public safety department.

He also works as a police instructor at Schoolcraft College, the State Police Academy and the Washtenaw County Sheriff's Department. He holds an associate's and bachelor's of science degree from Madonna College and served in the U.S. Marines.

Township lets investments ride

By Gary M. Cates staff writer

Plymouth Township trustees failed to take action on an investment policy Tuesday night, despite being told they currently keep some \$500,000 in standard savings accounts - an amount equal to 55 percent of the total general

fund investments. Expressing uncertainty over their qualifications to make investment decisions, the board — at best — has postponed action on the matter. A committee was appointed to determine whether an investment policy is worth looking into.

Currently, according to Treasurer Mary Brooks' figures, the township has about \$4.7 million in investments -\$900,000 for general fund and "a little over \$3 million" for water and sewer.

THE INVESTMENT item was placed on the agenda for Tuesday night's special meeting by Supervisor Maurice Breen — although the item appeared under Brooks' name.

Brooks said she never requested the

on the agenda after a discussion with cific investment proposal to be pre-Brooks regarding mutual funds or pools for governments, and because of a recent auditor's letter.

Brooks, who handles township investments, told the board she tries to keep at least \$250,000 at all times in each of two savings accounts - reportedly earning less than 6 percent interest.

The large amount of money in the savings accounts is needed for cash flow purposes, Brooks said. The remainder of the money is invested in

certificates of deposit (CDs).

By purchasing 30-, 60- and 90-day
CDs, Brooks said the saving instruments mature close to the time money is needed and the funds are transferred into either of the savings accounts general fund or water and sewer.

Breen said the purpose of the item was for a general direction — to be more aggressive or continue being conservative with investments. "This board doesn't have the ex-

pertise to make investment decisions," Clerk Esther Hulsing said. She believes Brooks is the only one qualified to give advice on the practices. Instead of acting on a policy, Brooks and trustees Jim Irvine and Abe Mun-

Locals eye tax hikes as U.S. aid shrinks

By Teri Banas staff writer

Suburban community leaders, predicting they may be forced to raise local taxes once federal revenue sharing funds are cut, say they resent paying the political price for President Reagan's budget plans.

"We haven't felt the public impact yet, but we will in a year and a half when we have to find someplace else to replace the money. Then the people will look at it because we're going to be the ones to go out and raise the taxes not them (the federal government)," said Garden City mayor Vincent J. Fordell.

Fordell's comments came Monday morning at a legislative breakfast chaired by U.S. Sen. Carl Levin, D-Mich., in Inkster's Recreation Complex. Among the 13 officials, mostly

Democrats, were mayors, township su- ship official. He said his community pervisors and their representatives from western Wayne County and Downriver communities

FEDERAL revenue sharing, money distributed by congressional allotment to local units of government, has been targeted for elimination in 1987. Other domestic cuts will be made in Urban Development Action grants, the Economic Development Administration and public housing support.

In response, Levin encouraged the local officials to lobby Washington lawmakers, saying "more letters" from citizens "could be extremely effective."

LEVIN blamed the funding cuts on the federal deficit, which he called "a knife at the throat of these domestic programs.

"I believe the only way we can protect these programs is if we have some lieve it's political survival to vote for revenues that are fair."

Levin predicted a "major battle"

brewing on Capitol Hill in the fall over increasing revenues.

'We've cut programs, but we've not "What's the answer? We're in dire done anything about revenues," said

"Many of us feel you must do something about that to get the deficit in

RATHER THAN advocating a general tax increase, he suggested revenues be raised in several other ways.

First, he said taxes should be maintained on luxury items such as tobacco a tax which has been targeted for elimination and would cost \$5 billion over three years.

Second, Levin proposed the current income tax rates not be indexed for inflation until the fiscal picture clears. Revenues would increase faster than the rate of inflation.

Third, he supported a minimum tax for those 2 percent of U.S. corporations and individuals that pay no taxes be-

cause of their use of tax loopholes. "I think the general public will support it, provided it's not a general tax,"

"I DON'T know how else we can proceed with tax reform with that deficit hanging over our heads," he added.

In some communities, revenue sharing has become an integral part of funding for basic communities ser-

Shipshape program lures teen sailors

By Neal Haldane staff writer

"It's not just a job. It's an adventure."

That Armed Services slogan took on a whole new meaning this summer for almost a dozen Detroitarea youngsters who undertook their own adventure on the Great Lakes.

The teen-agers are enrolled in the Great Lakes Division of the U.S. Naval Sea Cadet program operated out of the Naval Reserve Center in Southfield. As part of their training, 11 cadets spent two weeks in July on the program's ship, the Noble Od-

yssey, which home ports in Mount Clemens. "This is kind of a unique program because the kids have their own ship," said program director and captain Lt. Luke Clyburn. "The kids maintain and operate the ship as an expansion to the kinds of

things they learn during the winter months." This year, students experienced life on the lakes during one of the worst storms in recent memory. The boat was monitoring sailing vessels during the Port Huron to Mackinac race when the storm

struck, Clyburn said. Fourteen- to 16-foot waves pounded the ship and ripped off a strip of copper plating from the bow, he said. The Noble Odyssey was even reported sunk during the storm, he said.

BESIDES surviving the storm, the crew made a number of visits to various ports along the Lake Huron shores from Alpena to Owen Sound, to Mack-

But the two-week cruise and other weekend trips are only a part of the extensive, year-round program offered to the 30 Sea Cadets enrolled in the

program, Clyburn said. First-year students receive basic military train-

ing such as care of uniform, ranks and whom to salute. A two-week boot camp follows at the Great Lakes Center near Chicago, Clyburn said.

"It's the same training they would receive if they joined the Navy, except it's condensed," he said.

Those in their second year study either seamanship or engineering while third-year cadets learn about leadership and command.

An estimated 25 percent of the cadets in the program continue in the services, Clyburn said.

"The military is not for everyone, but this gives an opportunity for kids to find out what he likes or doesn't like," Clyburn said.

That is why Clyburn has worked extensively with research groups on the Great Lakes. In fact, the ship gained fame when it was featured in a documentary-drama about an ore carrier shipwreck in the film "Angels of the Sea."

"I'M OPEN to any science project on the Great Lakes where we can gain experience and introduce something the cadets may not get in normal school training. You never know when kids will get turned on to that kind of thing."

The adventure is what turned John Bassett of Southfield on to the program. Bassett, who is not officially a Sea Cadet because he is not yet 14, served as the cook's assistant on the cruise.

"We get to go on trips you normally wouldn't do," Bassett said. "And when you get back to school, you have all kinds of stories to tell.

"It's a once-in-a-lifetime experience and there is a certain amount of pride when you start at the bottom and work your way up.

Bassett would like to join the Navy, in the aviation area, when he graduates from high school. Another student who would like to pursue a mili-

"It was a lot of fun, but there was a lot of work to do," he said. "And it's different. You're not doing the same things all of the time."

THE SEA CADET program is sponsored by individual councils of the Navy League, a nonprofit organization which supports the maritime services. No federal money is spent on the Sea Cadets and Clyburn and other adults participating in the program volunteer their time without pay.

The local program has operated for 13 years but

it wasn't until 1977 that the Noble Odyssey became part of the educational offering, Clyburn said. Before acquiring the ship, cadets gained experi-

ence on Coast Guard vessels, Clyburn said. "We picked up the ship because Southfield is a land-locked reserve center," Clyburn said. "In order to experience things, you have to be able to go out

Clyburn was able to convince the secretary of the Navy to donate the ship to the program instead of

scrapping the vessel. Since then, the ship has been improved and maintained by the cadets who have developed a strong attachment to the vessel and its crew.

"I'd take my crew and match it against any other," said Chief Petty Officer Maurice Markowsky, 17. "They'd handle it just as well as any 30year-olds. They know the ship that well."

Schools decide to continue all safety busing

In a meeting Monday night, the the districtwide energy conservation Plymouth-Canton Board of Education improvement projects. agreed to continue temporary busing on specified routes for West, Lowell and Pioneer middle schools.

The safety committee, headed by Dale Goby, director of transportation and safety for the school district, had recommended the temporary busing be discontinued.

Affected middle school students in Greenmeadows will continue to ride the buses until a pedestrian signal and pedestrian crosswalk promised by the Wayne County road department is completed. All affected families will be

notified by mail. More than 200 middle school students who were temporarily bused to Lowell Middle School last year will continue to be bused until school board members are notified by Goby that a sidewalk is completed on the north side of Joy Road from Tavistock to Hix. The work is scheduled to be completed by the Department of Public Works before the start of school.

Pioneer students in the Woodlore and Eric Pass area near Isbister school who were temporarily bused last year will continue to be bused as no changes in the safety of pedestrian crossways

No changes in the status of elementary school temporary busing will be enacted this school year.

Dick Wylie, project manager for Daverman Associates, contractors of the project, said nearly all window replacement, general construction and temperature control projects will be completed by Aug. 26 with the exception of Central Middle School and Starkweather Community Education Center.

According to Dan Minghine, director of maintenance and operations for the school district, completing the Central projects will result in no disruption of classes and school will begin on sched-

Minghine and Rich LeBlanc, supervisor of operations, will be holding seminars in each school to acquaint building engineers with the new equipment.

Total project costs were \$4,334,295. The first year's saving in energy costs is estimated by Ray Hoedel, assistant superintendent of business, to be \$400,000, with an estimated savings of \$900,000 by the ninth year and \$1 million by the 12th year.

Hoedel said, "We are paying back the loan with the savings we will realize."

AN INTERIM report by the Citizens Bond Review Committee and a propos-

al to name 11 additional members to the board was passed by a 6-0 vote.

Committee member Stephen Harper will be reporting monthly to the board on the status of the committee in designing a bond issue.

Harper said the committee will be "making recommendations that the board can decide upon . . . that the voters can accept."The bond issue is expected to come before the voters in late February 1986, according to Harper, to have time for "a sales campaign to get the message to the commake minimum funds available for John Hoben, superintendent, indicating outside consultation will be considered six release days (half days) might be in a board workshop.

"I, too, think we should go for the police millage - it's essential," said Trustee Andy Pruner.

Trustee Abe Munfakh agreed with the call to seek another vote, but wanted a general mill rather than one for police.

"If you go to one mill for police what happens to the general fund if the revenue sharing money drops," he said.

"I think we should all talk to our neighbors and explain the importance of the millage. Then, if

But Munfakh, like Trustee Smith Horton, didn't want to go for a millage renewal on Nov. 5. Both trustees believe they would be competing with a possible library authority millage vote (provided a library authority is approved on Sept. 10).

"I would hate to jeopardize both of the millages," Horton said. "There's a lot of resentment toward

THE PROBLEM pointed to Tuesday night isn't with the interest rates on the CDs which Plymouth Township buys, which range from 7.45 to 8 percent. Instead, it is a question of how the town-ship should be investing.

Besides earning yields between 7 and

Because CDs traditionally can't be bought for less than 14 days, the township loses interest earnings every time a certificate matures and the funds are needed — the money is deposited into the low interest savings account.

A check with the neighboring com-munities of Northville and Canton townships showed that such funds can earn between 7 and 13 percent, instead of the less than 6 percent earned in a savings account — indicating Plymouth Township could be losing more on short-term investments than it is mak-

Both units, like Plymouth Township, depend heavily on CDs for the bulk of their investments. But unlike Plymouth Township, both utilize repos, mutual funds and other vehicles for investments under a two-week duration.

In Canton, Treasurer Gerald Brown reports earning between 7.7 and 8 per-

Brown also uses a mutual fund for the same purpose, and averages about 7.6 percent interest.

"We like to stay as close as possible to 100 percent investment," he said in explaining the use of repos and mutual funds instead of savings accounts.

Brown also wants to buy some Treasury securities (bonds) directly for his surplus water and sewer revenues and hopes to earn about 9 percent in-terest. Such a move will bolster Canton's longer term yields.

Mixed review of ball strike

staff writer

The sudden end of the major league baseball strike after nine months negotiations has left many in the Plymouth-Canton community with mixed feelings.

Many who look upon the game as home enter-tainment because of television and radio were glad to see that the teams have returned to action.

On the other hand there were many who thought that the players' demands were an insult to the intelligence of fans. One of these was Kenneth West, head of the City of Plymouth Building Department.
"I think the whole thing stinks because these

players are taking the game away from the kids in the nation and they should feel bad about it.

"To think that players drawing the kinds of salaries most of them do now want more salary and more pension is jsut terrible. But I am glad it is settled."

HAROLD Fisher, the real estate broker on Main Street, is delighted that he can sit and watch the games again on television or listen to the radio. "I like baseball and seldom miss a game at home.

Now I will be able to enjoy it again."

James McKeon, a former mayor, wishes the strike would have lasted longer.

"When the strike was on I could get plenty of rest. Now that they are back at playing I'll be losing that and I don't like it."

Bob Bake, another Plymouth Realtor, feels that the players and the owners were losing sight of decency and the discussions over salaries with the money the players are being paid left a lot to be

Sitting at the luncheon table, Don Sutherland, a Certified Public Accountant who admits that he

sees only one game a year in Tiger Stadium, is glad the strike is over. "I watch almost every game and enjoy them a great deal. So I am glad the strike is over. I can get

back to some evening entertainment again."

CANTON TOWNSHIP Supervisor Jim Poole is glad the strike ended because he thought the entire

glad the strike ended because he thought the entire matter was not in good keeping.

?'Why do these players, especially those getting high salaries, have to go on strike for raises and pensions? They are getting enough now."

Plymouth Township Clerk Esther Hulsing was unconcerned when she heard that the strike had ended. "I couldn't care less. I didn't pay much attention to it." tention to it."

Plymouth Township Treasurer Mary Brooks said she thought the players shouldn't strike, asking for more money, considering the salaries they are getting. "So I am glad it is over."

Mike McCaffery, another Realtor, said he goes to all the games he can and hates to see a strike that heeps the teams idle. "Now I can enjoy them adult."

Insurers to fight Blanchard on premium tax

By Tim Richard staff writer

Michigan insurance companies are carrying their fight against Gov. James J. Blanchard's proposal to tax premiums to the state Senate.

"Insurance costs are passed directly to the consumer. This is another burden to be borne by the people of Michigan," Thomas E. Hoeg, president of the Michigan Insurance Federation, told the Senate Finance Committee last week.

But state Treasurer Robert Bowman, architect of Blanchard's "Fairness Plan," argued that the premium tax would close a \$53 million "loophole" enjoyed by Michigan-based insurance companies.

THE GOVERNOR'S program includes several business tax increases to balance a \$150 million increase in rebates the treasury gives homeowners

House of Representatives has passed an amended version, which Bowman and pay their fair share with Aunt Jane says is acceptable to the administra-

Senate Finance Committee, chaired by Norman Shinkle, R-Lambertville. Along with state Sen. Rudy Nichols, R-Waterford, Shinkle last week heard testimony from Bowman, insurance industry spokesmen and bankers in Rochester Hills.

Insurance would be affected by House Bill 4702, which would make "domestic" (Michigan-based) insurance companies subject to the same 2-3 percent taxes on premiums paid by "foreign" (non-Michigan) companies.

Domestic insurers currently pay only the single business tax. HB 4703 would exempt them from the SBT if the premium tax is passed.

"SOME DOMESTIC companies pay

who pay high property taxes. The nothing," said Bowman. "That's unfair. Insurance companies should step up and Grandma.

Asked by Shinkle why the state The tax package is now before the shouldn't lower the tax on foreign insurers instead of raising it on domestic insurers, Bowman replied: "To close a loophole. We're not going to finance the fairness program out of thin air."

Questioned by Nichols, Bowman said the governor's program "is absolutely a tax shift. . . to certain businesses that have had loopholes in the past. Will some companies leave the state? I doubt it very much. Insurance premiums are the same whether it's a domestic or foreign insurer."

The treasurer added, "Michigan is overly-reliant on the property tax. We're 133 percent above the national average. This administration prefers to see property tax cuts."

HOEG DENIED Bowman's charge that domestic insurers haven't passed on their tax advantage to their customers, saying state officials used "selected companies and weighted averages" to produce their statement. "In every single case, domestics were 15 percent below foreign companies."

The insurance spokesman from Canton Township argued that the ability of Michigan's 25 domestic insurers to write property and casualty policies would be reduced by an increased tax.

Nationally, he said, the insurance industry suffered a \$3.5 billion loss in 1984 - "the worst year in our industry." And because regulators require insurers to maintain a 3-1 premiumreserves ratio, that loss reduces the industry's capacity to write insurance by \$10 billion.

"We are a non-polluting, high-employment industry" that employs 18,000, Hoeg said, adding that Michigan has "one of the most onerous regulatory climates in the country."

BOWMAN SAID a U.S. Supreme Court case struck down Alabama's preferential tax treatment of domestic insurers, and that Michigan should prepare to do the same.

Macomb Prosecutor Carl Marlinga agreed with Bowman's interpretation, generally supporting Blanchard's pro-

Industry spokesmen, however, said the treasurer misinterpreted the rul-

"The court didn't rule on the legality of differential taxation but on the purposes of the tax - to encourage investment in Alabama," said D. Joseph Olson of Citizens Insurance Co., Howell.

Olson added that the high court sent the case (Metropolitan Life vs. Ward) back to the Alabama courts to decide whether other justifications for differential tax rates might be found.

Sen. Shinkle said he was "not persuaded" by Bowman's interpretation of the Alabama case.

THE LIFE insurance industry argued that a 2 percent tax on its premiums would be passed onto policyholders either indirectly or directly.

"The life insurance product is a longterm contract over many years. The premium is fixed from day one to the end," said Bill Lewis, representing the 16-member Life Association of Michigan. "If you impose a 2 percent premium tax, we have no way of flowing it through our premium cost."

The tax, if passed, would mean dends to policyholders would be duced, Lewis said. It also would m premiums on new policies would he to be increased

'Domestic life insurance may be of the few growth industries in state," said Lewis. He noted that in 1981-85 time period employment. Michigan rose 56 percent, payrolls re 100 percent, American Commu Life Insurance put up a new building Livonia and Alexander Hamilton L

"But I wonder, from the beating ar pounding, if they (the state) want us stay," said Francis, noting Maccabe is putting up a new building next to the Prudential Tower in Southfield.

Francis said Blanchard's propos premium tax would be passed on group insurers, governmental agencie and the financially strapped Con sumers Power Co.

Financial tax hits borrowers-banks

credit risks - not financiers - will suffer from Gov. James Blanchard's plan to double the tax on deposits in banks and savings-and-loan associa-

"We're opposed to any significant increase in taxes on Michigan banks," Don Booth, executive vice president of the Michigan Bankers Association, told the state Senate Finance Committee last week

Booth characterized Blanchard's "fairness plan" as "a tax shift from jobholders to job providers."

Other banking spokesmen added that Michigan's so-called usury laws had driven many finance companies and credit card operations from the state.

STATE TREASURER Robert Bowman, however, stoutly defended the administration's proposal to increase the intangibles tax to 40 cents per \$1,000 from 20 cents per \$1,000. It is embodied in House Bill 4700.

"In 1983 banks paid less than in 1974, without an adjustment for inflation," Bowman told the Senate committee, holding a day-long hearing in the Rochester Hills municipal building.

But Robert Allison, Rochester Hills resident and a vice president of National Bank of Detroit, said Bowman's 1974 figures included portions of the single business tax that were later declared unconstitutional. Allison also said Bowman's list of the 10 largest banks was

TED CHWALIBOG, vice president and cashier of First of American Bank-Troy, said his firm would pay \$99,900 or 12 percent of its pre-tax income for 1985-6 under existing tax laws. It would pay a total of \$196,000 under Blanchard's "fairness" proposal.

Essentially, this takes \$100,000 we would invest in the community,' Chwalibog said.

John Halleck, representing First of America Bank Corp., which owns 30 banks in Michigan, said other banks would be hit even harder. FOA-Rochester would pay 111 percent more, and FOA-Munising 237 percent more.

"This will affect our ability to grow," said Halleck, saying the tax would leave banks less to loan to car buyers, businesses and real estate buyers. "The funds have been used. They're not sitting around in a pot," he

More people travel daily from Wayne County north to suburban Oakland than from Oakland to Wayne.

That flow occurred despite the fact that Wayne still has twice as many people (2.1 million) as Oakland (1 million). And it reverses the classic pattern of traffic from the suburbs to the area of heaviest population (Detroit).

The changing pattern was reported this week by SEMCOG, the Southeast Michigan Council of Governments. The

 Wayne-to-Oakland travel amounts to some 574,000 daily trips.

 Oakland-to-Wayne travel amounts to 442,000 daily trips - about one-third

"SURE THERE there are more jobs in Wayne County though the big growth

in office jobs has been in Oakland County, Southfield and Troy, in particu-lar," said Paul Tait, SEMCOG's deputy executive director.

"Detroit suffered very hard in our recessionary period, but with the development on the Riverfront and other economic recoveries, that trend out-ward certainly will alow or at least be somewhat counterbalanced by the de-

velopment in Detroit," he said. That's further backed up by popula-tion projections in SEMCOG's Year 2005 report, he said. It indicates Detroit's decline will stop, population will level off and rebound by the year 2005.

He said there's optimism for growth in Oakland County as well, particularly because of the recent sprouting of high tech developments such as the one in

RESIDENTS OF southeastern Michigan - particularly those in Wayne and

Oakland counties — seem to be "on the move" a lot more than counterparts in other major urban settings across the country, with the exception of New York and Los Angeles.

Local residents criss-cross county borders daily, according to the traffic pattern report from SEMCOG.

"The report shows that no county in southeastern Michigan is an island onto

itself," Tait said. Meanwhile, 70 percent more Macomb County residents travel to Wayne County than vice-versa. In general, Macomb exports people during the daytime - 50 percent more Macomb residents leave the county than enter it.

A GOOD freeway system coupled with the region's development around the automobile industry has meant that residents are more inclined to travel some distance each day, said Tait.

The report took in the seven-county

region of Wayne, Oakland, Macomb, Washtenaw, Monroe, St. Clair and Liv-ingston. It was based on information culled from the 1980 federal census, Michigan Employment Security Commission, and building permits.

The SEMCOG report further showed that more Wayne and Oakland people still live in the same county where they work. The survey showed that 5.2 million trips began and ended in Wayne County each day compared to 2.2 million trips beginning and ending in Oakland County each day.

"A large percentage of activity in the region still focuses on Wayne County and the city of Detroit, though there's considerable travel in outlying counties," he said.

The study results will be used by SEMCOG to help determine transit needs in the region, said SEMCOG executive director John Amberger.

School foundation has been formed

An educational foundation to support educational needs throughout the Plymouth-Canton Community Schools has been established.

The foundation will be separate from the Plymouth-Canton school district, with donated funds being tax deductible pending a ruling by the Internal Revenue Service.

A May 23 organizational meeting was held to discuss the operation, activities and the scope of the foundation.

Those agreeing to serve as members of the first Educational Foundation Board are: Edward F. Draugelis, principal in the law firm of Draugelis, Ashton, and Scully; Scott Lorenz, Mayflower Hotel proprietor, Kenneth Hulsing, retired General Motors engineering consultant; Joseph A. and representing the Board of Education will be board vice president Elaine J. Kirchgatter. Raymond Hoedel, associate superintendent for business, will be an ex-officio member of the group.

First on the foundation's agenda are the writing of bylaws, election of officers, seeking tax exempt status and soliciting funding for the organization.

School board president Roland J. Thomas said, "We view the foundation as the vehicle to continue our quest for excellence in public education in the Plymouth-Canton Community Schools. We are pleased that the members of the foundation board are willing to give of their time and themselves to assist in bringing this vehicle to reality."

Reduce stress and raise profits

A stress management program developed by a Plymouth consulting service has demonstrated it can help generate profits for businesses.

Dr. Lorraine Colletti of Human Synergistics of Plymouth says that corporations of every description are discovering bottom-line benefits of having employees reduce stress levels and simultaneously increase their management effectiveness

Colletti is a clinical psychologist and trainer for the one-year-old System for Creating Organizational and Personal Effectiveness (SCOPE), a marked departure from the variety of stress-management seminars now offered.

"Most stress programs are purely topical," said Colletti, "that is, they deal with the effects of stress. When they are over, you do feel better. But the basic problems remain.

"That's what we at Human Synergis-Also serving on the foundation board tics call an aspirin approach. In contrast, SCOPE deals with the roots the causes of stress. It enables us to locate the potholes in each person's psyche, to point out places where they're likely to buckle under pressure.

Then we give them a proven process for actually rethinking and reframing their problems."

THE DIRECT correlation of thinking styles with measurable on-the-job stress is not a new concept.

Studies conducted throughout the past decade have shown that by changing specific thinking styles and the behaviors associated with those styles, it's possible to reduce the incidence and intensity of stress.

As one example, the New York Equitable Life Assurance Society, in a 1979 study, discovered that for every \$1 spent on employee stress reduction the development.

senteeism, on-the-job accidents and in surance costs.

In another case, a major food whole saler traced its profits and expansion directly to the participation of its key managers in an extended executive development program implementing the same techniques applied in SCOPE seminars, says Colletti.

DURING THE first of the seminar's two days, participants complete a Stress Processing Report - a multiple-choice assessment inventory that identifies sources of stress and points out vulnerable areas.

The individuals also are asked to draw a lifeline — a map of major life events — and to explore the decisions and behaviors that resulted from the

The second day is prescriptive and includes a skills retraining session which teaches a rethinking process for organizational and personal problems.

Hundreds of middle- and upper-level managers who have participated in SCOPE, says Colletti, report the program has a large and positive affect on their work performance. Many say the program has helped them to feel more productive, both personally and professionally, and has led to a sense of greater control over their lives.

SCOPE is one of 84 diagnostic and simulation products offered by Human Synergistics — a management development, consulting and training organization founded in 1970 and headquartered on Plymouth Road in Plymouth

Chrysler's Lee Iacocca may have written a runaway best seller about his rise to fame, but his longtime pal at Ford Motor Co., Walter T. Murphy, has a "small hit" on his hands in Oakland County.

Murphy, retired director of Ford's worldwide publicity operation, was mentioned no less than four times in Iacocca's autobiography.

But you won't find Lee in Murphy's

book. What you will find is almost required reading for anyone contemplating growing old and needing some help to get there.

ENTITLED "Caring and Sharing," it's a self-described "comprehensive guidebook" to the hundreds of services and programs in Oakland County that help persons over 60 "cope with their wide range of special needs."

The book was penned by Murphy, a Beverly Hills resident, and John R. Keeler, director of Sheltering Arms, a Birmingham day-care center for elderly senior citizens, operated by Oakland County Catholic Social Services. "The information network that re-

tirees had while they were working doesn't fulfill their needs after retirement," said Keeler. "When people retire, they get very frustrated and confused by misinformation. What they need is to put things into perspective: what's available, where to go and who is rendering it."

THE WRITERS say there are 160,000 retirees over 65 in Oakland County. Those over 75 number 50,000. And that figure is expected to double between the years 1990 and 2000.

While national directories have been printed with information about ser-

effort marks the first time a local collection of information has been put together. And so far, response from relat-

ed agency providers has been great. "We have a small hit on our hands," Murphy excitedly proclaimed one day

The project started one year ago when Murphy, enrolled in a gerontolo-gy class Keeler teaches at Oakland Community College, asked a simple

"We had been studying the national service network for senior citizens, and I asked about the county system. John said there wasn't any, so I volunteered to write one," Murphy said.

IN MURPHY'S words, he began collecting the information "by living on the telephone, talking with people who were care givers, looking in the phone book and scanning the Birmingham Eccentric every week for leads on what's going on."

It contains more than 700 entries with names, phone numbers and addresses of private agencies and government services under easy-to-follow cat-

Keeler said he (Keeler) found services and programs even "I wasn't To the editor: aware of. It was a way of putting together all the services I knew of.

This is, after all, the information age. You need information to be successful and negotiate the environment."

WHEN IT was all collected, the men took the manuscript to OCC, where students helped publish the 146-page book. To assist readers with failing eye-

sight, the print is enlarged beyond normal typeface, and the information in indexed in the front and back by alphabetized categories.

The project cost \$9,000, and \$1,500 of it was donated by the Fourmidable vices and programs for the elderly, this Group of Farmington, a developer of

senior citizen high-rises in southeastern

The greater share of the cost was donated by an individual through a national corporation. The philanthropist prefers to be anonymous, Keeler said.

KEELER SAID his investigation into area services for the aged gave some indications about how this area stacks up as a home to the elderly.

"It (the guide) can help us look at where the gaps are in this county. It can better identify where we should put our priorities," he said.

A check of the transportation sec-tion, for instance, lists which communities in Oakland have something to offer their elderly population and which

"Rochester, Waterford Township and Madison Heights are excellent," he says, "but things could be beter in Pontiac, Royal Oak Township, Oak Park, Ferndale, Hazel Park.

"Southfield is in the middle, and Birmingham is terrible."

HIS CONTACTS showed him that "90

percent of service providers are overextended. They worry about tomorrow and what's going on in federal government cutbacks."

Keeler said the guidebook probably will be outdated in about three years. And while they've made no commit-ment to redrafting it then, Keeler says he has already begun filling envelopes

The book has been dedicated to the memory of Leonard R. Jagels, who served 33 years as executive director of the county's Catholic Social Services organization.

Under Jagel's leadership, the organization has grown to serve the annually. Jagel, who died at age 61 in 1983, is considered inspirational by those who knew him. Raised in a Detroit settlement house, he became its boys' work director at age 19. He carried a commitment to social work throughout his life.

Copies of "Caring and Sharing" are available at no cost at any branch of Catholic Social Services in Oakland County.

The wording on the ballot must have been the work of a so-called Philadelphia lawyer. Anyone older than 65 will know what I mean. It was intended to confuse the voter. This is why it took pages of explanations in the media which only served to confuse matters even more. What the voters did not

The ballot wording not only included the one mill requested by the board for use at its discretion in future years but also included the renewal of one mill which is expiring. Madonna business courses televised

Madonna College of Livonia has announced the start of a new introductory business course that will be televised this fall.

Called "The Business File," the TV course will feature 65 executives from major corporations describing their corporate strategies and challenges from such companies as Chrysler, Proctor and Gamble and Rockwell International.

"It (the course) may help the undecided student choose area of the business world for which he or she is best suited. It provides an overview of many different career opportunities, such as accounting, management and marketing," said Dr. Charlotte Neuhauser, division head of business and associate director of graduate studies at Madonna College.

OTHER telecast courses scheduled this fall are "The Business of Management" and "Introduction to Computers: The New Literacy."

The courses are provided in conjunction with the Southeast Michigan Educational Television Consortium. They can be viewed on the college channel in some cable systems and on WTVS-Channel 56.

Students earning credit through television cours es are required to view the weekly program and attend up to six group discussions with assigned faculty. The courses offer from two to four college

Governor's 'bad bill' line not good enough

GOV. JAMES Blanchard owes us a bet- are paid out of the state treasury, the invetoing the Michigan Legislature's reform in the communities surrounding Detroit. of the Essential Insurance Act.

Act is a piece of social legislation — an support from almost all our suburban attempt to use the force of law to make senators — Cruce, R-Troy; William one group (mainly the suburbs) subsidize another (mainly Detroiters).

There are other subsidies of Detroit, but at least they are honest, visible ones. The state subsidizes Detroit's Institute of Arts, Main Library and Zoological Park through the so-called "equity package" with a price tag of \$34 million a year. The tricounty area will pay higher liquor and hotel taxes in order to subsidize expansion of Detroit's Cobo Hall.

passed in 1981, is an underhanded, hidden subsidy of Detroiters through the mechanism of private industry — the auto insurance companies.

Nowhere in the EIA is there a stated price tag, but the estimate of one knowledgeable senator, Doug Cruce of Troy, is that Detroit auto owners pay \$40 million in premiums and collect \$80 million in claims.

If the governor honestly believes such a transfusion is warranted, let him place a \$40 million "Detroit insurance subsidy" item in his budget and assign social services Director Agnes Mansour to defend

The EIA's mechanism works like this: An auto insurance company can divide the state into no more than 20 zones. The rate it charges in zone 2 must be at least 90 percent of the rate charged in zone 1 (the highest-priced zone). The closer a suburb is to Detroit, the higher its rates - it doesn't matter how good suburban drivers

IT IS PREPOSTEROUS to say, as some close to Blanchard argue, that "this isn't a Detroit vs. the suburbs" issue. It most

certainly is a Detroit-suburban issue. Whereas items in the "equity package"

ter explanation than "it's a bad bill" for surance subsidy is paid for by auto owners

Look at the Senate's 25-6 vote by which As it stands, the Essential Insurance the bill was passed. It received bipartisan Faust, D-Westland; Richard Fessler, R-West Bloomfield; Robert Geake, R-Northville; and Rudy Nichols, R-Water-

> (Jack Faxon, D-Farmington Hills, missed the vote but had supported an earlier version.)

> Only Patrick McCollough, D-Dearborn, whose district includes part of Detroit's west side, voted against it.

THE LEGISLATURE struck a lot of THE ESSENTIAL Insurance Act, as compromises and honestly attempted to address some of Detroit's problems in the reform bill.

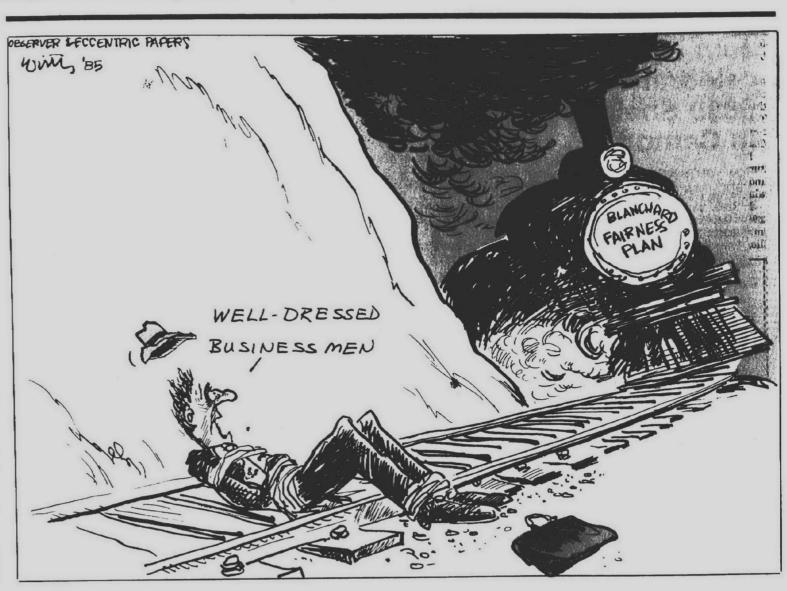

In order to keep insurance rates in Detroit from rising too rapidly, there was a provision to "cap" annual percentage in-

In order to address the problem of auto theft — rising everywhere but exploding in Detroit - the Legislature sought to set up and finance a Theft Prevention Au-

Finally, the Legislature sought to address the problem which EIA had created through political tinkering with insurance rates — the problem of Michigan being broken into two insurance markets, with a resulting reduction in competition.

BLANCHARD WAS under extremely heavy pressure from Detroit Mayor Coleman Young to veto the EIA reform bill. For more than 50 years, Young has nursed a grudge against the suburbs and after 11 years in office still won't rub elbows with suburban officials in the Southeast Michigan Council of Governments.

Blanchard should have been actively selling Detroiters on the notion of paying their own bills. Instead, he passively let Young sell him the veto. Just who is governing Michigan anyway?

Beware of those nice suits

BOB BOWMAN, the financial whiz kid who is Gov. James Blanchard's state treasurer, led with his jugular vein the other day. And the people he was trying to hit for more taxes swung sharp knives.

Picture the scene: The high-ceiling meeting room of the tasteful municipal building in Rochester Hills, up in the highrent district of Oakland County. The state Senate Finance Committee was hearing testimony from Bowman and spokesmen for the banking and insurance industries.

"I'm glad you are holding a half-dozen hearings around the state," said Bowso you ii rom other besides -dressed busines: men we'll hear to.

Ooof! With grey suit and conservative spotted tie, Bowman, once a Wall Street type himself, was hardly in a position to Bowman sniff at how businessmen dress.

"I SHOULD have worn my sweatshirt and jeans so I wouldn't be one of the wellRichard

suited people," replied Thomas Hoeg, president of the Michigan Insurance Fed-

"I'd rather be here in a sweat suit," said Bob Allison, a vice president of National Bank of Detroit and office in the Michigan Bankers Association.

Rudy Nichols, R-Waterford, who got elected to the state Senate on the strength of his opposition to the Blanchard-Bowman income tax increase, got in his dig. If the state holds down business taxes, he told the bankers, "You could take that money and get your suits pressed."

BOWMAN'S CRACK amounted to inverse snobbery. Instead of discounting the peasants because of their tatters and armpit odors, we were supposed to discount what the financiers were saying because they're well-suited.

Bowman went further, arguing it's OK to raise taxes on capital gains because only 7 percent of us have capital gains while 93 percent of us are "working stiffs" with no capital gains.

The message I got was that the 93 percent can use their voting power to gang up on the other 7 percent. "Mob rule," they called it in the history books.

Bowman's remark undercut some of the nice things I have been writing about the Blanchard administration — how "corporation" is no longer a dirty word in the State Capitol.

Maybe I should be rephotographed in my mushroom-pickin' shirt to enhance my own credibility.

BOWMAN'S BOSS might take exception to what his staffer says about men in

On an Upper Peninsula vacation last month, I attended the Alger County centennial parade. Guess who were the only guys in Munising wearing suits, dress shirts and ties.

No, it wasn't the yachters, although you could tell who had sailed up from Grosse Pointe by the crisp creases in their unstained jeans.

No, it wasn't the chamber of commerce types because they were laboring on parade floats.

Only James J. Blanchard and his staff wore suits, dress shirts and ties.

And the guv wasn't wearing a Democratic spotted tie, like Bowman's. Blanchard wore a striped Republican tie, just like Bill Lucas, the bankers and the insurance executives.

GOP hopefuls ought to learn to plan ahead

SUCCESSFUL organizations plan ahead. That's why the Michigan Republican Party should start planning now for a 1989 inform-the-candidate conference.

Based on what's happening now, there'll be a need in the summer of 1989 for some hotel rooms and conference rooms. That's about the time that there will be another inform-the-candidate conference.

· It would be nice if the next conference could be held in Michigan rather than

As you probably know, the Republican candidate-apparent for governor, Wayne County Executive William Lucas, is hosting a several-day conference in rented rooms in Marriott's Harbour Beach Resort on the Atlantic Ocean in Ft. Lauder-

PURPOSE IS to have a dozen or more learned persons inform the candidate-apparent all that he needs to know to run for governor of Michigan. Unexplained is whether a candidate who gets elected would need to hold another conference to learn all he needs to know about govern-

At least Lucas' people scheduled a several-day conference to learn all that a candidate needs to know about running for governor.

One of the GOP's last standard bearers — U.S. Senate candidate Jack Lousma claimed that he could learn in three hours what he needed to know about running for the U.S. Senate.

To their credit, Lucas' people realize that it takes more than three hours. On the other hand, maybe Lousma was a faster learner. Maybe he learned speed reading during his tour of duty as a space cadet.

NEVERTHELESS, THE people who plan ahead such things as candidacies for governor should realize that conferences are necessary, and it would be nice to hold them in the state which the candidate hopes to govern. The Lucas people

Bob Wisler

claimed that they tried to find space in northern Michigan resorts and conference centers but found them all booked. Of course, they didn't start trying to find space until the last few weeks.

I say anyone who wants to run a state should plan far enough ahead that he can learn all he needs to know about running for office right in the old state he wants to run for office in.

WHAT'S WRONG with the Harbour Beach Resort, you ask?

What's wrong is that flying a group of people out-of-state to inform a would-be candidate all he needs to know about running for governor gives the wrong impression to people in the state and out of

Michigan is getting known as a state where you can't do things. You can't build a subway in Michigan, that's for sure. You can't build a bridge over the Saginaw River — the Zilwaukeee bridge proved that. You can't run a decent bus system. You can't count on an innovative transit system like the People Mover being constructed without a hitch. You certainly can't count on the state's largest taxpayer and employer building a new car plant in Michigan.

And now you can't even count on it being a state where the leading GOP candidate for governor can hold a conference to learn all he needs to know about being a

It's bad for the state's image. We need something that will make other people think we know what we're doing in Michigan, that we have a state worth doing something in I say, next time, plan ahead.

Insurance — a double whammy

IT USED to an axiom of business that you could get insurance for anything as long as you were willing and able to pay.

But that's out the window as the high cost of insurance knocks some individuals and groups right out of the market.

Some parties are being canceled because they are too risky. For them, the premiums with the few companies willing to insure them are so high they are no longer affordable. It's a sad state of affairs.

Three of the worst-hit groups are bar owners, companies running risks of accidental pollution and horse stables. Things got so bad that riding stables on state parkland have been forced to close, and 70 percent of the state's bar owners, many in Wayne and Oakland, are going without liquor liability insurance because of skyrocketing rates.

A 1982 CASE in which a drunk driver and a motorist in another car were killed in a head-on collision on M-59 in Oakland County resulted in a \$5 million judgment against a nightclub and a Pontiac restaurant that had served the drinking driver. He had a blood alcohol content of 0.34 percent, more than triple the 0.10 percent considered legally drunk in Michigan.

The award went to the widow and two

children of the drinking driver.

The insurance policies of the two establishments were canceled.

The Michigan Licensed Beverage Asso-

Ritz

ciation, the state bar owners association, says many of its members are paying 25 percent of their revenues for insurance vs. 2.5 percent a few years ago. Premiums have increased at least 300 percent, they

THE FIRST answer is a complex economic trend that dev :loped in 1978-83, a period of double-digit interest rates. Companies could sell insurance at cut rates and make their profits through investing at high interest. Premiums were artificially low.

That's where the second major factor comes into play — the huge judgments courts and juries have been awarding complainants.

The combination caused insurance companies nationwide to suffer a collective \$3.5-billion loss in 1984. They raised their premiums and got out of certain lines of business.

The result was a double whammy for the poor consumer.

Why not just raise premiums? Why cut need to keep trying.

out entire lines of business? The answer lies with governmental regulations which require insurance companies to maintain a 3-1 ratio between premiums and reserves. If the premiums go up too much, so do the ratios, say, to 4-1 or 5-1. To hold down the ratio, it was necessary to write less insurance.

WHICH BUSINESS? High-risk — such as accidental and sudden pollution and the bar business.

It's not like life insurance, where a graph will show a certain death rate per 1,000 population. But how do you calculate the odds on sudden pollution like the Bhopal, India, catastrophe in which leaking gas from a Union Carbide plant killed thousands?

As a former beverage newspaper editor who still does an occasional article about the industry, I've heard incensed bar owners complain they're the most "pickedon" group in the economy. Without making any judgments, you can understand their feelings, particularly with state and federal liquor taxes going up Oct. 1.

It's time for some imaginative ideas. In a previous column, I quoted a source who suggested licensing more neighborhood bars to cut the distance from home to the

bar and the danger of drunk driving.

Another idea was to change the bar closing time from 2:30 a.m. to midnight.

Maybe neither idea would fly. But we

BUDGET — By a vote of 309 for and 119 against, the House adopted the conference report on the fiscal 1986-88 budget resolution (S Con Res 32).

The Senate followed suit (below), and the blueprint took effect, governing congressional action on individual authorization and appropriations bills. The measure sets spending ceilings and revenue floors, and determines federal fiscal priorities.

Perhaps its most newsworthy feature, at a time when out-of-control U.S. indebtedness is setting off worldwide alarms, is its 1986-88 deficit projection.

In 1986, the resolution anticipates \$967.6 billion in spending, \$795.7 billion in revenues, and a deficit of \$171.9 billion. For the three years, it projects in-

Those assumptions would lower the Congressional Budget Office's earlier deficit projection by \$55.5 billion for 1986 projected deficits by \$277.4 billion for 1986-88.

However, many lawmakers, including such leaders in fiscal policy as Rep. William Gray, D-Pa., and Sen. Robert Dole, R-Kans., doubt that Congress will even come close to achieving the spending cuts called for by the resolu-

below the 1985 appropriation.

The Kennedy Center, a creation of Congress, is the closest thing the United States has to a national cultural center. But the facility has been criticized because its box office receipts have fallen far short of paying its construction and operating costs.

The amendment was offered to an Interior Department appropriations bill (HR 3011) later passed and sent to the Senate.

Sponsor Clay Shaw, R-Fla., said the Kennedy Center should bear its "fair share of the responsibility in our efforts to reduce the deficit."

Opponent James Howard, D-N.J., said the center's proposed 1986 budget of \$4.53 million, requested by President Reagan, was the same as the 1985 appropriation.

Members voting yes wanted to slice \$90,580 from the 1986 Kennedy Center budget. Voting yes: Pursell, Broom-

DR. HENRY E. EBEL, a Canton Township resident, has announced his retirement from dentistry Oct. 1. His 10 children will host a retirement party at Bonnie Brook Country Club. Guests are coming from as far away as Texas, Florida and California to join the celebration and acknowledge his accomplishments in more then 40 years in the dental profession.

He is a specialist in the field of prosthetics and his offices are in Henry Ford Hospital, Fairlane

The doctor is a past president of the American Equilibration Society, director of the Detroit Dental Clinic Club, program director of the A.L. Nelson Seminars, and editor of the Compendium. He taught at the University of Michigan Graduate School and the University of Detroit Undergraduate School.

RICHARD R. RADKE of Coolidge, Plymouth and H. David Grace of New York, N.Y., won first place in their section in the Golder Pairs, a one-day regional championship that drew a field of 2,576 players.

The contest was among the events at the 1985 Summer North American Championships of the American Contract Bridge League in Las Vegas, Nev. The meet became the world's largest with more than 5,000 players in action at the same time. The meet drew 11,000 bridge players.

ADISTRA Corp., headquartered in Plymouth, has announced the recipients of its scholarship recognition awards program. The program, initiated in 1984, assists Adistra employees and their relatives in furthering their education.

Awards were given to: Tracey Boyle, student at Northwestern University and the daughter of Mr. and Mrs. C. Boyle of Ann Arbor; Helen Boyle, daughter of Mr. and Mrs. C. Boyle, for attending special classes at the University of Michigan/Interlochen; Lisa Lucas, daughter of Mr. and Mrs. T. Lucas of Westland and a student at Lawrence Institute of Technology; and Mary Jo Kobliska, daughter of Mr. and Mrs. F. Kobliska of Plymouth and a student at Schoolcraft College.

JULIETTE Maciejewski enjoys rural living and particularly the wildbirds and animals that provide year-round entertainment and excitement.

Happenings, such as the unexpected arrival of a dozen or more chimney swifts, are interesting to watch. In their swallow-like glides, they decimate the flying insect population in just a

A pair of red-headed woodpeckers presented a mystery. Juliette threw out wet bread for them. They scooped it up and headed for a utility pole where they packed it in holes and cracks. It took her a while to discover the reasoning behind this behavior. They waited until bugs were attracted to the bread then had a real feast

She puts her bird bath on the ground so the rabbits have a regular drinking spot. She has had mocking birds visit her feeders. From dawn until dusk, the show goes on.

For a nature-lover like Juliette, it is difficult to understand people who have no feeling for her friends, youngsters with BB guns who shoot the birds or roar through their

habitats on noisy dirt bikes. Earlier this week, she held the still-bleeding body of a young heron in her hands and wished she could do something about it. "It still had the yellow on its beak and yellow legs. It was a young one," she said, adding that a heron that young stays close to the water. It was obvious the bird had been driven from its home area.

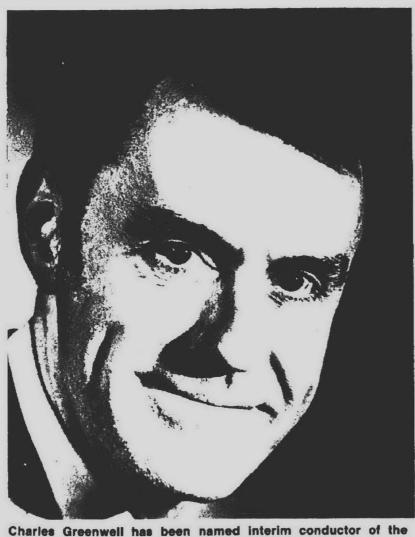

One thing she has discovered, nothing can be done about kids shooting birds with BB-guns. No official action can be taken unless they shoot at her.

choral literature. He has been noted as Overture, Haydn's Symphony No. 82 in a "forceful and dynamic conductor whose mastery of orchestral literature is enhanced by his versatility and wide repertoire." He studied music at Michigan State University, Yale University, and the Royal College of Music in London. While in England, he was a student of Sir Adrian Boult. Greenwell's principal instrument is the oboe.

Sunday concerts will be in Plymouth Salem High School auditorium, Joy Road west of Canton Center. In addition to the regular concert series, the Plymouth Symphony Society has scheduled three Sunday musicales and the annual spring pops concert.

THE OPENING concert will feature John Mohler, principal clarinetist with the Plymouth Symphony since 1958, in a tribute to Mozart. He will be soloist in Mozart's Overture to "The Impressario," clarinet concerto, and Symphony No. 36 in C ("Linz").

Mohler studied with Philadelphia Orchestra clarinetist Ralph McLane at the Curtis Institute of Music in Philadelphia and with William Stubbins at the University of Michigan. He is chairman if the Wind and Percussion Instruments Department at the U-M School of Music and is a clarinetist with the University Woodwind Quintet.

In addition to frequent appearances as guest soloist with orchestras and bands throughout the United States, Mohler has performed with the Philadelphia Orchestra and has been guest recitalist and clinician at the International Clarinet Clinic. He has served on the faculties of Drake University, the Brevard Music Center and the Cumberland Forest Music Camp.

There's nothing like a wellplanned picnic

someone from our community making good, accomplishing a goal, or just plain soaring to greatness.

This past weekend, a young man from Canton ventured out to the Annual Detroit Police Renaissance Classic. a five-mile run, winding up in Tiger Stadium. With a field of more than 400, our Cantonite came in 65th overall and no less than third in his age bracket.

This race was not well covered by the media, and had I known this in advance, I would have tried to get Omnicom coverage. But, by golly, I got the results first-hand when I held the thirdplace plaque in my hand along with the medal and T-shirt - presented to me by my son, Alan.

As a 15-year-old, running in the 15-18 year group, I think he did a great job coming in third. The first and second place winners were 18.

This was no accident. Al ran both cross country and track for Plymouth Canton High School last year as a freshman.

He has kept up his running skills this summer with his dad. He has been fortunate to receive great coaching from Jim Hayes, Mike Spitz and John Tarr, all coaches at Canton.

Al plans to continue running this year as a sophomore. As it stands right now, he can't wait to tell his coaches. So if he hasn't seen them yet, Coach Hayes, Coach Spitz, Coach Tarr: Thanks a bunch. It all paid off. He did it. Congratulations and thanks to all of

IT IS TIME for picnics and St. John Neumann Parish is no exception to the rule, "If you want to have some fun, have a picnic." (I made up that rule.) There is no way to commend all the people who work on something like this. It seems there are always six hands pitching in when only two signed up. Let's just say, Debbie Skotak and Lauri Keifer, with teen representatives Debbi Borke and John Sheridan, cochairs John and Phyllis Kownacki and Jim and Joanie Walling joined the Rev. Edward Baldwin. The latter offers his expert advice and opinions on all matters - activities, entertainment, emotional, physical spiritual and financial - all of which he will deny completely.

Together they were the perfect combination. Each committee member gathered his or her own flock of volunteers to do all the things that make gatherings of this size such an overwelming success.

Best guess at attendance, using name sure it seemed like a lot more if you were on kitchen duty. On that subject, we have Bordine Farms to thank again for much of our food. They donated all the sweet corn, watermelons, pumpkins used for prizes and the filled vegetable baskets used as door prizes for the

As for other supplies, we purchased from, and owe a big thank you to Mike Albus of Stans Market for all he did, Guernsey Dairy for our ice cream sandwiches, and, as always, McDonalds for our orange drinks.

There were three or four games for each age group, from the always-challenging marshmallow race, to Frisbee toss, and the ever-popular and treacherous water balloon toss.

Softball and volleyball were ongoing games anyone could join. Now, about the water balloon toss. I don't wish to skim over that lightly as it was an adult game. The only thing we didn't have was enough balloons.

EVERYONE WANTED to participate . . . almost everyone. My partner time without leaving town. was a tad on the tall side and threw over my head. And guess who didn't Aug. 17 or 18.

I always try to make mention of jump high enough to catch it? Scared, that's the only possible excuse. I would not have been in the game as my husband of over 22 years suddenly, and very strategically, disappeared when it was time to line up for the event. Too many bouts on the tennis court with me in the past, I guess. But to my rescue came my eldest son, Brian.

This rollicking fun continued until almost everyone was sufficiently soaked, including Mr. Bordine, whose wife gave it to him smack dab in the middle of his chest. Outlasting all of us was the fairest of the fair, Kathy Lustig, and her partner the Rev. Tom Belczak. He offered an explanation for the win, Holy Water. Would you consider that contest fixed?

So it continued throughout the day. One other very important fact to make note of, the committee chairmen say none of this could have been possible without the teens of the parish. As Joan Walling put it, "They seemed to be johnny-on-the-spot with the question What needs to be done?' and the answer, 'Consider it done.'

Whether it was shucking tons of corn, filling balloons, setting up, cleaning up, or dressing up as clowns, they were there and helping all the way through. We hear enough about the bad things kids do, we should take time to talk about the good things, too. We had as many teen-agers signed up for helping as adults. Thanks, kids. It was noticed.

Of course at the end of the day, I don't think there was one ice cube left unthrown. It was a sticky day, so most appreciated being caught by a cube toss. A lot of kids took revenge on parents, and each other.

All in all, it was a simply marvelous day, one I hope all of you have an opportunity to match at your place of

GUESS WHAT is coming up this weekend?

It's time for the Historical Society Ice Cream Social and Arts and Crafts Fair at the Historical Museum, Canton Center and Proctor roads.

You can stroll the grounds, see the many displays of tags as a measure, is around 500. I'm arts and crafts, enjoy hot-dogs, carmel corn, pop, whatever appeals to you. You may have a free tour of our muse-

> On your way out, stop and purchase the best, freshest, right-off-the-stalk sweet corn and fresh-from-the-field melons. Now is the time to grab a whole sack of corn and put it up for your Michigan winter. If you haven't mastered the art of canning, try freezing. It's real simple, and if you don't trust your hand at safe canning, freezing makes good sense

I know the farmers frown on this, but for city folks trying to be weekend farmers, it makes great sense. We still get the fresh farm food without the expertise. Everyone says canning is easy, but if you're a novice, it can be very

Anyway, back to the museum. The prices are good, the food is delicious, and the fun is fantastic. It's a summer day you won't regret or forget.

With the vacation days dwindling, it's a good time to get in some family

I am a 33-year-old male and am right handed. I've been told by many people that my penmanship is terrible, so I tend to print most of my work or combine printing and writing. I've tried very hard for a while but this is the best I can do. What do you think? J.A.,

Redford

While you probably never received the highest grade in penmanship class, keep in mind that few males do. But your handwriting is legible and this, combined with your far right slanted writing, tells me you want to enjoy relationships with other people.

You often place yourself and others in a precarious position by being very sensitive to criticism. It seems you experienced a great deal of criticism in the formative years causing your protective defenses to be overly alert. Have you ever considered that your imagination may expect criticism when none is intended? Some self-consciousness is also here.

Currently you are experiencing an element of dissatisfaction in your life. Indecision and/or down feelings have a way of creeping in. Still there is enthu-siasm here for the things that you enjoy and find meaningful.

Heavy pressure tells me of your vitality for the things that are important. It also reveals the intense feelings which you find difficulty in releasing.

Living with style

Designer's tips make 4 walls your walls

By Richard Lech staff writer

RESS YOUR home as you dress vourself. That's the advice of Wood Caldwell, style and color

coordinator for the Sears Home Fash-

"People certainly know how they feel about how they dress, and they

should project that onto their home, because it really is the same process, only bigger," Caldwell said. If a color looks good on someone it will look good around them in their

home, Caldwell said. For instance, if a lavender dress nets a woman compliments, she should consider decorating her home in different shades of laven-

color that makes you look good, a color that goes well with your skin tone."

CALDWELL, WHOSE custom-style offerings are featured at every Sears store throughout the nation, is based at the corporation's world headquarters in Chicago. He was at Sears' Livonia Mall store recently to conduct a homedecorating clinic.

Caldwell told clinic participants that selecting the right color scheme is the first step in decorating a home. Making the right choices from the more-than-arainbow of colors available today can help personalize your home.

There's a world of color today. For example, you've never seen as many color towels as are available today. That's because people are expressing themselves, and they want their own color that's right for them."

Too many colors may spoil a room,

room out of balance, Caldwell said. Instead, he advises limiting the selection to no more than three colors — a major color with supporting and accenting

To select the colors, Caldwell suggests using a color wheel, which features the various major colors and their different shades. The wheel's "spokes" connect colors that complement each other. Off-whites could be included in any color scheme because all off-whites incorporate some color.

THE COLORS may be selected according to a monochromatic, complementary, split complementary or neutral color scheme.

The monochromatic scheme makes use of variations of a single color, such as light, deep and dark. For instance, a room might have light blue walls, a dark blue rug and lighter blue curtains.

A complementary scheme uses colors that are directly across each other on the color wheel. These are go-together colors such as the red and green of Christmas or yellow and purple of

But your house doesn't have to look like a Christmas tree or Easter egg.

"Instead of taking red and green, take a pale rose and mint green, or a pale rose and a light green."

The most used color scheme today is the split complementary, Caldwell said. This scheme pairs a color with two colors that are opposite it on the color wheel. A red-orange, for instance, might be used with greens and blues, or a peach with rose and aqua. The neutral scheme makes use of

such colors as chocolate, carmel, putty, ebony and the various shades of gray. These are the colors of tranquility and repose - just right for the home, Caldwell said. "It's very comfortable. In today's

very busy world we try to design our homes as sort of quiet respites."

ADHERING TO a certain color scheme will make a room seem balanced and attractive.

"If you're really into decorating you could even choose your wine based not on which one tastes best but what looks

"Country today is the most important style in home fashions. It features simplicity in decorative accessories."

IF ALL THIS seems like more design decision-making than you have time for, Caldwell points out that major retailers have come up with collections to take some of the work out of design selection. The collections feature wallpapers, curtains, furniture, carpeting and other accessories in a certain style, such as country French.

> Paying close attention to style and color can give a room a whole new identity, he said.

Migraine relief studied

Relief for women who suffer from chronic migraine headaches may be just around the corner, according to Sinai Hospital physician Dr. Edward

Working with Ronald Bennett, a neurologist on staff at Sinai, and in conjunction with Winthrop-Breon Laboratores, Lichten is testing danocrine, a drug that helps prevent migraine headaches by lowering estrogen levels.

Through his extensive work with premenstrual syndrome (PMS) pa-tients, Lichten theorizes that the fluctuation of estrogen levels during the menstrual cycle can trigger severe headaches in certain women. He noted that 80 percent of all headache sufferers are women; that 60 percent of women's migraine headaches occur only during their menstrual periods; and that neurologists have recognized for three decades that high estrogen levels, from birth control pills or released pregnancy, can cause head-

WORKING UNDER THE auspices of the research committee of Sinai Hospital, Lichten has devised a study to test the effectiveness of this drug.

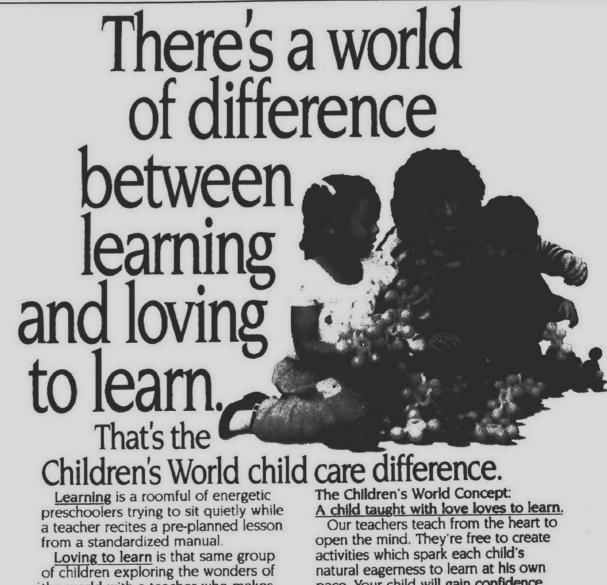

After full neurological evaluation and testing overseen by Bennett, patients will be asked to document on a calendar the frequency and severity of their headaches during the five-month

In the first month, patients are evaluated for headache patterns without receiving the drug. During this first month, extensive dietary instructions are given. In the following months, the patient receives either a diuretic or a hormonal agent for two months each.

The preliminary data confirms that more than 70 percent of the first 300 patients Lichten has treated for severe and incapacitating migraine headaches have had sufficient relief on the danocrine study. Most were women who found no relief with standard migraine medication or treatment.

Crafters set up shop in old caboose Slaters wed 60 years

Members of Louise de Marillac Guild are stocking the shelves in a turn-of-the-century caboose that stands on the grounds of the Sarah Fisher complex getting ready for the grand opening of Caboose Crafts.

The grand opening will take place in conjunction with "Country Fair," a fund-raiser sponsored by volunteers for Sarah Fisher center programs, from noon to 8 p.m. Saturday and Sunday.

The red roof of the caboose can be easily seen by passers-by on Inkster north of 12 Mile. Refurbished last spring by area Boy Scouts, the car that rode the rails in the last half of the 19th century is being fitted with new shelving, new showcases and sign to serve as a permanent gift shop.

The caboose was given as a gift to the center to be used for recreational purposes and stood for a long while

Farmington Hills Boy Scout, decided to restore it as a community service project. With the help of other scouts working toward their Eagle awards, the caboose passed all the safety requirements to take on a new life.

All proceeds from Caboose Crafts are earmarked to provide recreation for the residents, both in Sarah Fisher Home and Marillac Hall. With the use of the caboose to serve as an outlet for their crafts members

increase the contributions they make to the agency by a considerable amount. **GUILD MEMBERS** meet on Tuesday mornings in the complex to make crafts of all types that will be sold, gen-

erally during the pre-Christmas shop-

ping weeks, in various churches.

Margaret Byrne, a West Bloomfield resident and longtime member of the guild, rattled off the congregations of St. Colman in Farmington, St. Ivesin Southfield and Holy Family in Novi, as "all very supportive of our sales," when the shop was set up in those churches for a couple of weekends.

With the permanent outlet for their crafts, members are also moving out of cramped working quarters in Marillac Hall to more spacious quarters that are being readied for them in a building adof Louise de Marillac Guild expect to jacent to Caboose Crafts.

What they make for sale is "just about anything that utilizes the mem-bers' talents," said guild member Karen Solomon, who added that with the larger working space, the volunteers are looking for other crafters to join them in their Tuesday morning get-togethers.

"We want more crafters to help stock the shelves, and we need more volunteers to man the gift shop," said Myra Luzod, who coordinates volunteer activities for the entire Sarah Fisher complex. "As of right now our shop will only be open on Tuesdays when the women are here. We want to be able to expand the shop hours and can only do that with more volunteers.

The shop carries gifts that run the gamut from note paper to baby clothes. Most recently the crafters took a lesson from one of their members in basket weaving to add to the inventory.

During the grand opening, guild member Cindy Marlo will be demonstrating how she makes stained-glass, night-light covers that will be for sale.

Persons interested in joining the Louise de Marillac Guild may call Lu-

Merton and Verna Slater celebrat-ed their 60th wedding anniversary at a luncheon at Bill Knapp's restaurant with family and close friends. They were married in Caney, Kan., in 1925 and moved to Michigan in 1937. When he retired from Ford Motor Co., they moved to Plymouth to be near their daughter and her husband.

The Slaters have three grandchildren and six great-grandchildren. Mrs. Slater made quilts for each of her grandchildren when they were married and has made one for each of her great-children, except the youngest who is not quite three months old.

Merton Slater has enjoyed hunting and fishing. He has a life membership in the Masonic Lodge and his wife is a life member of the Eastern Star.

Botsford Inn owner seeks memorabilia

Did your grandmother ever attend one of Henry Ford's square dances at the Botsford Inn in Farmington?

Is there a dance program in your attic, or maybe a theater stub from the days when the inn offered its famous theater-in-the-round?

Have you wondered what to do with that old chipped cup that your uncle obviously stole from the Botsford Inn when he was a boy?

The cup is yours forever, with the inn's blessing, but owner John Anhut would like you to lend it to the inn, along with that old dance program and that old theater stub, so that the Anhut family and the community can celebrate the Botsford Inn's 150th anniver-

1836, is now the oldest operating lodging facility in the state. It was a stagecoach stop on the road between Detroit and Lansing before Henry Ford put the country on wheels.

Ford met his wife Clara at the inn. He bought it as a romantic gesture in 1924 and operated it as an historic inn for 27 years. It was sold to the Anhut family after Clara's death in 1951.

ANHUT HOPES that residents of the area will search their memories and their attics for information and

memorabilia of the inn's early years. He would also like to talk to people interested in joining the Sesquicenten-

sary in 1986. The Botsford Inn, built in nial Planning Committee, a group of local citizens appointed to gather old treasures, research historical information and plan a yearlong schedule of special events for the anniversary

> High on the committee's list of priorities is a book about the history and culture surrounding the inn for its century-and-a-half of life. The book is being researched and written by Jean Fox of Farmington with the help of University of Detroit student John Lapham, also of Farmington.

Treasures are often found in musty archives but both the family and the author hope to unearth nuggets from the community that has been part of the inn's life for so many years. These hidden treasures could include artifacts, big or small, or memories.

Kay Briggs, who has lived in a house near the inn all of her life, remembers walking the oxen there as a child. She has given the Anhuts a photograph of those long-ago days for the birthday celebration.

If you have either artifacts or memories, contact Angel Bakos at the Botsford Inn, 28000 Grand River, Farmington Hills, 474-4800, or Jo Ann Soronen at Farmington Chamber of Commerce, 33201 Grand River, Farmington, 48024,

"Kathy's family needed hope."

Getting settled made simple. New-town dilemmas fade after a WEL-COME WAGON call.

As your hostess, it's my job to help you

A young mother with a serious illness. Her family in crisis. They came to Harper Hospital and found new hope. They learned that Harper is a university-based research and teaching hospital. A place

where scientists work alongside physicians, transforming discovery into treatment. They found that Harper concentrates on the tough adult cases in cancer, heart disease and serious vision disorders. Patients like Kathy come to

Harper Hospital at the Medical Center with confidence. They come because Harper is a major participant, together with the Sloan-Kettering Institute in New York and the M.D. Anderson Tumor Institute in Houston, in America's network of only twenty Comprehensive Cancer Centers. Patients know that if the diagnosis is cancer, there is no better place to be than Harper Hospital. And they come with confidence because the Kresge Eye Institute is at Harper Hospital. This important Medical Center resource is devoted exclusively to the problems of vision. And through its research and clinical work, the Kresge Eye Institute gives new hope to millions with impaired vision throughout the world.

Harper is hope for heart patients, too. Its large scale, nationally recognized program brings together research, teaching, surgery and medicine. More open heart surgeries are performed each year at Harper than are performed at any other hospital in Michigan. But of more significance is the growing number of heart patients Harper is able to treat successfully each year without surgery. For Kathy and her family. For you and your family. Harper Hospital is Science. Research. Hope and Healing.

Will Rogers Museum: sure way to start a smile

"When I die, my epitaph, or whatever you call those signs on gravestones is going to read: 'I joked about every prominent man of my time, but I never met a man I didn't like.' I am proud of that. I can hardly wait to die so it can be carved and when you come 'round to my grave you'll find me sitting there proudly,

- Will Rogers

(This was one of Rogers' most famous remarks, first printed in the Boston Globe on June 16, 1930. Rogers had been asked to say a few words after a sermon he had attended at Tremont Temple Baptist Church. The remark stayed with him the rest of his life.)

By Joy Schaleben Lewis special writer

CLAREMORE, OKLA. - Humoristphilosopher Will Rogers said, "Everybody is ignorant - only on different subjects." He also said, "We do more talking progress than we do progressing." And then there was, "Civilization has taught us to eat with a fork, but even now if nobody is around we use

Will Rogers was a fellow who could make people think while laughing with him. Nowhere is the laughter and thinking he provoked more alive than at the Will Rogers Memorial in Claremore, Okla., about 20 miles northeast of Tulsa. The Memorial is open daily from 8 a.m. to 5 p.m. Admission is free.

Will Rogers' presence is everywhere. You hear his voice on radio tapes, see hlm in films and photographs, read his columns, trace his life through dioramas, touch the saddles and ropes he so loved, and even see the Royal portable typewriter he used to peck out 2 million words before he died at age 55.

About 500,000 people annually visit the Memorial which was established in 1938. It's obvious that while Rogers said, "Nobody wants to be called common people, especially common people," the common people recognize he was one of them who was uncommon.

IN 1982, a library was added to the Memorial containing books by Rogers about him, his original papers and many volumes related to his varied career - ranching, horses, early radio, films, Cherokee Indians, aviation,

AT ROGERS' tomb, you may mourn as millions the world over have. We're not likely to see again the likes of old Will - trick rider, rope artist, comedian, philanthropist, columnist, movie star, radio commentator and goodwill ambassador - all rolled into one helluva gum-chewing cowboy who liked chili parlors better than dining with royalty and presidents.

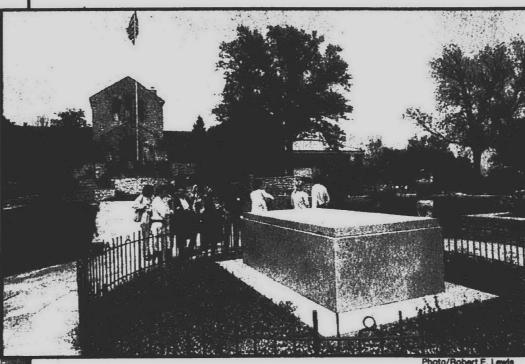

"It's great to be great; but it's greater to be human," Rogers insisted.

tin of Bandaids and a can of Williams Quick and Easy Shaving Cream. He also had eight three-cent stamps, two books ("Alaska Dog Driver" and "Arctic Village"), pencil stub, pocket knife, rodeo program from Los Angeles, two pairs of glasses, two watches

and a small, square, wooden puzzle.
In Will's smashed typewriter was the third page of his latest weekly article. It ended mid-sentence with the last word he had typed — "death." He had been writing about an Eskimo's dog and a bear.

REBA COLLINS, director of the Will Rogers Memorial, says the traveling possessions tell a lot about the man. "Rogers was always misplacing things," she said. "That's why he had two watches and two pairs of glasses. As for the puzzle, he liked to fidget with things in his hands.

"He always traveled lightly," she continued. "For example, if he needed a new suit, he'd buy one and just throw out the old one."

Collins has written hundreds of articles and three books on Rogers and has considers Rogers "the best communicator of the century. He was tops in all media," she said. "And no one wrote a line for him. It was all his. He'd go into a town, size up the place, its people and politics, and 15 minutes later be on stage ready to make people laugh."

COLLINS SAYS it's difficult to come up with the exact key to Roger's universal charisma. "You might say that despite his tremendous fame, he remained as common, unpretentious and comfortable as an old shoe," she

Rogers himself gleefully maintained, "I'm just an old country boy in a big town tryin' to get along.'

TEMPLETON TRAVEL...Y

The philosophizing cowboy was born Nov. 4, 1879, the eighth child of Mary and Clem Rogers. He was christened William Penn Adair Rogers. His birthplace is just 12 miles north of the Will Rogers Memorial at Will Rogers State Park near Oolagah. It's open daily, 9 a.m. to 5 p.m. No admission charge.

The two-story white house with the picket fence was the center of frontier hospitality in its area of the Cherokee Nation. Will himself was a quarter Cherokee and damn proud ot it. He kidded, "My ancestors didn't come on the Mayflower, but they met the boat."

Visitors to Rogers' birthplace see a simple seven-room home with two large central halls, open porches and open fireplaces in four of the rooms. Will was not born poor. His father had a 60,000-acre ranch.

Much to his teachers' dismay, he had a habit of lassoing his classmates who willingly stooped over, ran down corridors and bellered like calves.

Will was in and out of numerous schools until he was 17 when he ran away to a Texas ranch. At 19, he returned to please his father, but managing the old home ranch simply wasn't for him. Reluctantly, his father let Will go his own way. And what a way from "The Cherokee Kid" with Texas Jack's Wild West Show he grew into vaudeville, then the Ziegfield Follies, motion pictures and radio, newspaper columns, books and finally the title 'America's Ambassador to the World."

The legendary humorist was once interviewed by the legendary historian Will Durant for his book "Living Philosophies." The Will with the shy grin, tousled hair and quick wit told the

Interior designer Dick Tolbert, working with Englanders, was well acquainted with the couple and their lifestyle. He had done a previous

home for them. Mrs. Harris was prepared to trust her decorator's judgment implicitly and that's what it takes with Tolbert, who is a pleasing combination of laid back and positive.

Mrs. Harris said at first that she wanted her new environment done in neutrals with black as one of the dominant colors.

"It is done in charcoal, white, beige and camel, no black," said Tolbert with a smile adding, "The beige is transitional, everything is played against the patterns of the

EXCITING use of wallpaper is one of Tolbert's hallmarks. In this home, he used at least seven different patterns all in the charcoal, white, beige and camel color theme. And doors and woodwork as well as walls are covered with paper, but not ceilings.

For the walls of the library, easily visible from the living room, he chose a charcoal gray vinyl suede cloth. This blends nicely with the wall covering, an abstract print on a charcoal background, in the breakfast room and kitchen. Tolbert had the same print vinyl coated for the

The atmosphere is sleek, contemporary and luxurious. For instance, Tolbert used mirror on the fireplace wall, clear rather than tinted, because he thinks the latter distorts

Tolbert bought the white ceramic sculptural pieces on charcoal pedestals along the interior wall of the living in Italy. The large vase on the coffee table was intended as an umbrella holder, but, because of graceful shape and size, Tolbert gave it a more glamorous role.

The dining room chairs, finished in charcoal lacquer, matched to the shade of charcoal used throughout the home, are covered with the same beige wool as the modulars.

The verticals used at all of the windows are covered with a white textured fabric and this textural treatment softens the light which filters into the rooms.

There is a great deal of drama in this environment which has a lot of variety within the subtle color scheme. The family pictures, reframed to coordinate with the rest of the furnishings, hang on a den wall - an interesting photographic gallery which the Harrises thoroughly enjoy.

Now, with more than a decade of art show experience behind them, Council members are tending to the last minute details of the "Art at Meadow Brook," with a kind of low-key expertise. The show is Saturday and Sunday on the grounds around Meadow Brook Hall.

There will be more than 100 artists from Michigan, Ohio, Illinois and New York in the two-day invitational which includes things such as soft and hard sculpture, fiber, quilting, photography, pottery and basketry as well as paint-

Booths set up by the artists will ring the circle drive and courtyard of the stately mansion that was once the home of Matilda Dodge Wilson, widow of auto pioneer, John F. Dodge. It was built in 1926-29 at a cost of \$4 million.

Refreshments will be available and the Meadow Brook Hall tea room will be open to those attending the show.

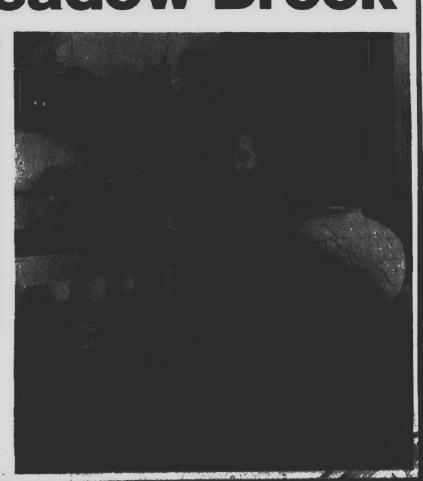

Admission is free. Show hours are 10 a.m. to 6 p.m. each day. Entrance to Meadow Brook is West of Adams, south of Walton Blvd. or take I-.75 to University Drive and follow the signs to Oakland University and Meadow Brook Hall.

Farmington Hills potter Jeff Robinson is one of more than 100 artists from four states participating in "Art at Meadow Brook" Saturday and Sunday. He makes both functional and decorative pieces, likes to use a lot of color and prides himself on a special glazing technique. He is

just now getting into carving on porcelain. A former resident and full-time potter in the Gulf states, Robinson has lived in this area for about 1½ years. Above are samples of his functional pieces and on the table in his studio, at right, is a large bowl, showing the new carving technique.

weight, and I know that this week I will lose at least three pounds.

Why? Because I've been sandbagging. You see, each week I have weighed in with my shoes on, and I think that Thursday morning will find me barefoot on the scales. I wonder how much socks weigh?

I feel like such a sneak, but this week I have been bad. I am now familiar with the "Weight Watcher" jargon, ie: bread exchange, vegetable exchange, protein exchange. I really do, however, miss the Oreo exchange, fudge ex-"Maintenance: to keep in repair, change and the peanut butter cup exchange that I grew up with.

> OH, GREAT. Here I am writing this article and my boys left their bags of gummy worms right out in front of me. Everyone is in bed and it's just me and those dumb gummy worms. Hey, I'm tired, a little sugar might perk me up,

I am about 15 pounds from my goal right? I'll just sneak one . . . umm . . .

Talk about your gourmet candy I just remembered; the boys always

audit their gummy worms. I'll be in trouble unless I eat one out of each bag.

Lorraine! H-E-L-P! I need you. I wish there was a weight watchers hot line I could call, like 1-800-FAT-FOLKS!

Maybe foods taste better to artists. After all, we're sensitive to things like color, shape and texture. Therefore, I didn't cheat this week, I just "artistically appreciated" a lot of good stuff. Since maintenance also means "to

repair," I'll try to get my diet together before the big weigh-in. Just to be sure I still show a loss maybe I'll wear shorts, get a haircut and wear a sleeveless T-shirt.

I'm not sure about it being more difficult for artists to maintain their diets, but I am sure that it is very difficult for artists to maintain their supplies.

WHAT PROMPTED this article, however, was a large can containing probably 35 brushes. I actually got excited when I saw they were all good, name brushes. But as I lifted one to look at the hair all 35 rose with it. They were all welded together in a solid disk of petrified something or other.

All art supplies need some form of maintenance, even an eraser. I was at the art store finishing a commercial job for one of my customers. The artwork was clean but I have a habit of giving the work a once over before I spray it with a fixative. The kneaded eraser I grabbed had a shaving of brown colored pencil hidden in it. To my dismay, my unnecessary cleanup produced a three inch "w" right across my finished piece.

To guard against this disaster always keep one clean kneaded eraser wrapped in plastic or an envelope in your art bin. Carbon or charcoal pencils, conte' pencils and even 4B through

Constant use is the best thing possible for a technical pen. My favorite pen and point is Alvin's reform pen No. 4x0. For the artist these pens are easier to handle since they can be held at an angle when being used. Most other pens require that they be held straight up. My 4x0 lasted me so long that the plastic

School starts fall with new director

Detroit Community Music School, an affiliate of Center for Creative Studies, will start the school year with a new executive director, Steven J. Nelson.

The former Cleveland resident brings a strong background in public relations, program development and fund raising to his new position, which he is assuming this month.

He was executive director of the Arthritis Foundation for eight years and before that held executive positions with Diamond Shamrock Corp., Western Reserve College Association and Cleveland Clinic Foundation.

Registration for Detroit Community Music School, a 59-year-old school for The registration office will be open noon to 5:30 p.m. Aug. 19-22 and Aug. 26-29 for students interested in studying instruments, voice or dance.

Pre-school programs, ensembles, music theory and the Detroit Children's Choir are also available. The school recently received a grant

from the Community Foundation for provide music therapy for the frail and elderly. Mary Roberts, registered music therapist, chair of the school's music therapy division, will supervise this new program.

EQUITY LOAN

Unlocking Your Buying Power ...NOW!

What is an Equity Loan?

Many homeowners have accumulated money value in their homes over the years as a result of property appreciation or a reduction of their loan balance or combination of both. This money value is commonly referred to as Equity. An Equity Loan is a loan given on a percentage of that money value. This loan is secured by a first or second mortgage on the property.

What are the benefits?

- ☐ You can purchase a new home without having to first sell your existing
- ☐ You can take advantage of the equity in your home without liquidating other investments or drawing on your sav-
- ☐ You can obtain the loan approval prior to the purchase of your new home, thus giving you a negotiating advantage.
- ☐ You and your family will have peace of mind knowing the funds are available if and when you need them.
- ☐ You can use the loan even if you are moving out of town.

What are the features?

- ☐ One year loan term.
- ☐ Interest-only monthly payments calculated on an annual simple interest computation.
- ☐ Repayment of the loan principle balance upon closing of the sale of your home.

OPTIONAL PAYMENT PLANS: 12 equal monthly interest payments or nine (9) equal monthly interest payments which allows for 120 days delay from the date of loan closing before your first payment is due.

☐ An optional payment feature on your present first mortgage for up to six (6) months.

How are loan amounts calculated?

The maximum amount of your equity that can be borrowed is 75% of the market value of your home, less any existing mortgage balance(s).

Depending on the available equity in your home, you'll have access to funds ranging from \$5000 to \$50,000.

How do I apply for an equity loan?

Real Estate One and its affiliated companies have made exclusive arrangements with a lender for this Equity Loan Program for the purchase of a new residence. Additional information for application can be obtained from any Real Estate One sales associate, or by calling and asking for Equity Loan information.

International tour fosters friendships

Mike O'Toole is a professor of English at Schoolcraft College and served this summer as head coach of the Livonia Rotary Club's girls volleyball team, which toured West Germany last month. He recounts the memorable

HE LOCAL radio reporter pointed the microphone toward Joan Frysinger and asked, "What do you like best about Bavaria?" We all held our breath because Joan was our "free spirit," and we didn't know what to expect.

Her answer was serious for a change, and sincere - "The people." We all agree that she said what we all felt during our two-week stay in

In 1984, when Bill Cameron and the Livonia Rotary Club initiated the Girls' International Volleyball Tournament, the main idea was to foster friendships among girls from all over the

The organizers, the girls and the host Bavarian families certainly kept the idea alive in the second annual tournament.

Our stay in the Munich area lasted 10 days and the people were warm, friendly and caring.

The organizer was Ali Schneider, our friend from last year's tournament (held in Livonia). He was ably assisted by Hubert Fleckenstein and

SINCE THE LIVONIA team lived in the town of Dachau for 10 days, Horst was the person responsible for making our stay a most enjoyable one. He was tireless in his efforts to house our team members, to transport us to and from the tournament sites and to plan activities to fill our days and nights. Above all, he was our friend and the epitomy of Bavarian hospitality.

Horst and the Dachau Girls Volleyball Club made us feel comfortable and at home. Each day held new and interesting activities.

Our hosts felt that is was important that we visit the Nazi concentration camp located in Dachau, and we did. It is truly a monument to the weakness of intolerance that we all harbor.

What we found just as enlightening was a quaint, beautiful town with an honorable history of some 900 years. The old town district featured antique, white structured buildings with orange tile roofs, surrounding the cobblestone streets. Churches, cafes and shops reflected the antiquity It truly took us back in time.

STANDING ABOVE "old town" is the Dachau Castle with uniquely carved wood ceilings, a beautiful rose garden and a lovely view of the entire city. Since it was a clear day, we could see the Alps on the horizon.

Having given us a teasing view of the Alps, our host then took us for a closer look at the mountainous beauty of Bavaria and at stunning Neuschwanstein Castle of King Ludwig.

Ludwig had an artist's eye for beauty and built his monument on a peak with the Alps as a background. It is a fairy tale picture of craggy mountain peaks, tall evergreens, gorges, streams and waterfalls, surrounding an imposing structure that just high into the air.

Ludwig, who loved Richard Wagner's music, decorated the interior of each room with scene's from Wagner's operas.

With our host providing information and personal guidance, we visited Munich for several sight-seeing and shopping trips.

AMONG THE HIGHLIGHTS was gathering to watch the glockenspiel at the Munich Town Hall. This beautiful, old gothic building was restored from the ravages of World War II and commands the view of all those who visit the Marienplatz

pedestrian mall. Sidewalk cafes, flowers, fountains, statues and people of all shapes and sizes make this spot a tourist's delight. People gather to watch the performance of the glockenspiel and each other.

Other highlights of the Munich trips were the Olympic Center (1972), the BMW Museum and the famous Hofbrauhaus.

Oh yes, there was volleyball.

On the first weekend of competition, the Livonia girls finished second in the seeding round with a 9-2 record.

During the following weekend, the girls finished pool play with a 10-0 record, qualifying for the semifinal round.

ON SUNDAY (July 28), our team, made up of the area's top high school players, defeated a strong team from Ravenna, Italy to move on to the finals.

In the final, we lost to a very fine, experienced team from Istanbul, Turkey. Everyone was pleased with our performance and our second

On Sunday evening, we realized that our stay was almost over. And we knew that Joan's answer, "The People," was truly the best part of our experience

The leaders of the tournament provided us with an interesting and wonderful experience, the host parents were gracious and caring, and the girls of

Dachau became good friends.
Our girls will always attach fond memories to the names Christina, Andrea, Sabina, Christiana and so many others. The girls who had the courage to stay by themselves with a host family for 10 days certainly grew in maturity.

As we prepared to leave, I was reminded of a comment made by Christine Gall of a host family. She said that her teacher always told her, "It's nice to be a Preise (a northern German), but it's higher to be a Bayer (a Bavarian).

Wolves claim MSHL crown

By Chris McCosky staff writer

Michelle Donnelly, the scorekeeper for the Midwest Summer Hockey League, leaned over the glass at the Plymouth Cultural Center ice arena and shouted at Terry Shook, a hard working defenseman for the Wolve-

"Come on Terry, get another one," Donnelly said.

"OK," Shook said.

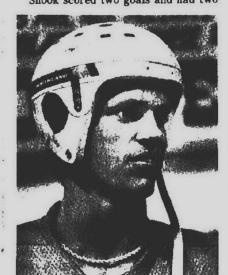

A couple minutes later, Shook complied by blistering a shot past Laker goalie George Abbott with 21 seconds left in the second period.

It gave the Wolverines a 4-1 lead (Shook figured in all four goals) and sent them on their way to an 8-4 win over the Lakers Monday in the MSHL championship game.

The win also earns the Wolverines a trip to Chicago this weekend to play the champions of the Chicago Summer Hockey League and an all-star team from the greater Chicago area.

"I WAS REALLY looking forward to playing," said Shook, who played hockey last year in the ACHL for the Eric Blades. "I wanted to go to Chicago. Hey, if you can't get up to play in the final game, then you can never get up."

Shook scored two goals and had two

Don Krussman, out of Fraser, scored three goals; Darrin Schmitz scored a goal and added two assists, and goalies Dave Church and Tom Nowland combined to keep the Lakers at bay.

The Wolverines, coached by Marty Read and runners-up in the Tex Conference during the regular season, also got goals from Bart Cammarata and Tony

"Their forwards were strong and very effective around the net," said Laker coach and MSHL commissioner A.J. Baker. "They just didn't miss. And, on our side, our forwards were not very effective at all."

KURT KRUGER, Jason Tratechuad, Darryl Moise and Mark Stevenson scored for the Lakers, runners-up in the Bakes Conference. For the most part, though, it was a case of missed opportunities for the Lakers.

With the Wolves clinging to a 2-1 lead late in the second period, the Lakers had several golden scoring chances. Tratechuad, a 15-year-old sophomore at Farmington Harrison High School, was robbed point-blank by Church. Then, J.F Carter and Stevenson, line mates at Eastern Michigan, took turns firing wide at an open Wolverine net.

Not two minutes after the Lakers' near misses, the Wolverines got a goal from Krussman to go up 3-1.

Overshadowed by the defeat was a sterling performance by Laker goalie Doug Brown. At one stretch in the second period he kicked away five straight shots in one sequence during a Wolverine power play. In the first eight minutes of the second period he steered away 11 shots, seven from close range.

"He played a fantastic game, didn't he," said Baker of Brown.

Late rally saves Livonia Adray from fast exit at Johnstown

Livonia Adray, representing the Detroit area at the All-American Amateur Baseball Association (AAABA) national tournament in Johnstown, Pa., came as close to sudden elimination as coach Ron Hellier could stand Tuesday afternoon.

After losing a 10-4 decision to New Brunswick, Ohio, in the first round of the double-elimination tournament Monday, Livonia Adray stayed alive with a stirring 12-11 triumph against Altoona, Pa., in front of an estimated 14,000 fans.

Adray, champions of the Livonia Collegiate Baseball League, trailed Altoona 11-3 entering the eighth inning and 11-6 entering the top of the ninth.

They had a kid blast a grand slam home run off us in the seventh that put them up 11-3," Hellier said. "We thought it was over then. We were really down, but the kids never gave up. They just didn't want to go home after two games.

We really should have scored more," Hellier said. "We had 15 hits and 10 walks. We left 15 runners on base.

Derron White and Krumm paced the attack with three hits each. Krumm, the starting pitcher, got assaulted for nine runs on 10 hits. Doug Doyle pitched the eighth inning and got credit for the win. Rick Rozman

worked the ninth and earned a save. There was little cheering from the Livonia contingent Monday night as New Brunswick picked apart three Adray pitchers for 10 runs on 13 hits. Mike Wilkins, the starter and loser, gave up six runs though only two were earned.

Mike Johnson provided the lone highlight for Livonia with his solo homer in the sixth.

Livonia was slated to play the loser of the Lansing-Johnstown game on Wednesday night.

Canton crowns champs

Domino's Pizza and the Rebels brought home championships last weekend in the Canton Parks and Recreation's annual softball playoff

Domino's defeated Catterall's T.V 8-4 to capture the men's first division crown. Tom LaPerna (three RBI) and Bud Irving (two hits) paced Domino's

Domino's, coached by Keith Nasser, posted victories against Stans Market, J.J. Pub and Grub and Plymouth Rock I.

The Rebels captured the men's second division title with a 7-5 win against Wauldron Corp. Manager Craig John's squad got a pair of hits each from Robert Boucher and Jack Wilson, as well as a pair of RBI from Charles Pierson.

The Rebels scored wins against St. Michael III, Plymouth Rock II, Ed's Sports and Canton Bowling and Trophy. Wauldron had knocked the Rebels into the loser's bracket with a 14-8 win prior to the title game.

Bart Cammarata got the Wolverines off and running in the first period Monday night he scored the game's first goal.

The league season officially opens on Thursday, Aug. 22, with the Schafer All-Star Classic at Thunderbowl Lanes in Allen Park. During the week the women all stars will get going at Luxu-

ry Lanes and at Cherry Hill. More than 120,000 will answer the call for the Detroit Bowling Association leagues and there will be close to that number in the women's leagues.

In keeping with the interest shown a year ago, the seniors will play a big role in the day leagues and the juniors will hit a new high.

A BIG DAY: Last Saturday was a big day when the proprietors turned back the calendar to celebrate the Good Old Days and a new record was set, when close to a ton of hot dogs was devoured by the bowlers - especially the juniors. MerriBowl in Livonia was credit-

Hockey League, according to commissioner A.J. Baker.

In terms of talent and competitive play, the league has never been better. But in terms of on-ice violence, it had never been worse.

"I don't understand it," Baker said. The players were testing me, I think. The play at times got real feisty. But there will be repercussions. The players will know how much the over-aggressive play is frowned upon in this league."

Two players already know. Scott Varga and Perry Read were booted out of the league for incessant fighting. Six other players were slapped with onegame suspensions for fighting.

On the whole, though, the MSHL did come of age this season. The level of play was brilliant for a summer league and it attracted some of the biggest crowds in the league's history.

"I'm already looking forward to next year," Baker said.

Aged record

The greatest age at which anyone has broken a standard world record is 41 years and 196 days, in the case of John J. Flanagan, who set a world record in the hammer throw in 1909.

Club pro calmly accepts Buick ch

By Chris McCoeky staff writer

A telephone call was placed to the press tent at Warwick Hills Golf and Country Club in Flint, the site of this weekend's Buick Open. Here's how it went: Reporter: Is Ed Muir there

Press Tent: He hasn't come through here. We'll be seeing mostly the leaders in here, and frankly, I don't expect to see Ed much.

Ed Muir's biggest asset this weekend as he prepares to play in the Buick Open, aside from his accurate and powdemeanor

For Muir, the golf pro at Farmington Hills Country Club, the opportunity to play in a major PGA golf tournament doesn't come around too often. In fact, the Buick Open is the first major professional tourney he has qualified for. He'll be walking the fairways with

the likes of Andy Bean, Ray Floyd, David Graham and Payne Stewart. But don't look for Muir to get ruffled playing with the big boys. It's simply not his style.

"I'M NOT intimidated," the former All-American from Eastern Michigan

erful long iron play, could be his University said, his voice deep, speech pattern slow giving the impression of total relaxation.

"Not yet, anyway. Maybe when I tee it up Thursday morning it'll be a different story. I'm sure I'll be more nervous than usual. Hey, I'll just hit the drive and go from there."

His calmness is his strength. Muir, regarded as one of Michigan's top match-play performers, has no delu-sions of winning the tournament.

"It's really tough to work at a club 10 to 12 hours a day and still have time to work on your game," he said. "These guys (on the tour) are playing all the

to be home in two days either.

"I feel I can make the cut," he said. "It all depends on how I putt. I've been hitting the ball well. Basically, all I'm doing now is waiting for the ball to

drop."
Muir earned a berth in the tourney by placing in the top four in the Michigan PGA Sectional qualifying tournament Aug. 2 at Katke Cousins Golf Club in Rochester. He was the fourth and final qualifier shooting a 74.

"I hit 17 greens in regulation," Muir said of his qualifying round. "I should have had a better round than 74 but I didn't putt well."

THERE ARE several factors that could work in Muir's favor this weekend — the long fairways at Warwick Hills being one of them.

"I'm not a long hitter off the tee, really," Muir said. "But my long-iron game is sound. I don't mind hitting 3-, 4- and 5-irons. I get in trouble with the short irons. I don't really get to work too much on that at the club.

Muir also has had a history of playing extremely well against superior competition.

"I just seem to be at my best when I play people who are better than me," he said. "It's like a basketball player. The only way to get better is to play against better players. When you play stronger competition you improve your

The elements would appear to be pointing in a positive direction for Muir. But, if things should sour, don't look for him to sulk.

"It's just a privilege to be here," he said. "My goal is simply to make the cut and go from there. I'm going to do the best I can and try to have some

And, who knows, maybe the folks in the press tent will get a look at Ed Muir after all.

Westland 9 brings home national title

Westland Baseball Federation claimed the American Amateur Baseball Congress (AABC) Mickey Mantle World Series (15-16 year-olds) Tuesday afternoon with a 6-5 victory over Bayamon, Puerto Rico, at Municipal Stadium in Waterbury,

Westland, coached by Jerry Pitcher, returned home Wednesday as champions with a final overall record of 34-4.

Ron Way was the winning pitcher in the championship of the double-elimination tournament. He relieved starter Clint Straub in the fifth inning when Westland took the lead for keeps. But it was Bill Barber, who came on for Way in the seventh, who held off a Puerto Rican rally to pick up the

Bob Malleck led the winners, going three-for-five with two RBI. Other hitting stars included Mike Hammontree and Jim Kenyon, who each collected two hits and an RBI.

Left fielder Doug Quartuccio led all tourney hitters with a .455 average in six games

THE WORLD SERIES opened Friday with Westland edging Chicago, 3-2, as Quartuccio and Kenyon racked up three hits each, supporting the eight-hit

On Saturday, Westland nipped the Midland (Ohio) Cardinals, 3-2, as Barber went the distance to pick up the victory. Sean Maloney and Kenyon each had two hits in the win.

Westland then won its third straight, a comefrom-behind 6-5 win over South Lexington, Ky.

Lexington jumped out to an early 5-0 lead, but Westland battled back on one of Quartuccio's three hits, a two-run triple, followed by an RBI single by Barber and a RBI triple by Hammontree.

On Monday, Westland used four pitchers, with Way picking up the win and Barber taking the save in a wild 9-7 triumph over Bayamon.

WESTLAND JUMPED OUT to a 5-0 lead in the first, keyed by Malleck and Straub, who each clubbed two-run hits. Puerto Rico then got three runs back in the second, but Westland scored twice in the bottom of the inning when Quartuccio was balked home followed by Hammontree's RBI sin-

Not to be outdone, Bayamon scored four runs in the fourth to knot the count at 7-7, but Westland scored the game-winner in the fifth on Way's RBI

Facing elimination Tuesday morning, Puerto Rico forced a sixth and deciding game with a 4-3 victory over Westland, behind Tony Cabera's three-

Westland, however, won the rubber match to claim the championship, 6-5.

A week earlier, Westland rolled past five opponents to win the Mantle Regional at Coldwater.

WESTLAND EARNED the World Series trip by defeating Sterling Heights (3-0), Mount Clemens (5-3), Clintondale (9-5), Dearborn Heights (17-2) and Mount Clemens again (6-3).

Barber had a homer in the championship game with pitcher Shawn Dunford gaining the win.

Way, meanwhile, hurled a one-hitter in the opener, and Malleck's grand slam was the difference in the win over Clintondale.

becomes reality

I like that title. Kinda has a nice ring to it. Of course, that would mean trading in pen and paper for a whistle and a clipboard and discarding adjectives and verbs for Xs and Os.

What the heck, I'll give it a shot. Beginning today, I'll be a part-time, non-salaried assistant junior varsity football coach for two weeks at Avon-

dale High School in Auburn Hills.

Why, you may ask? The answer is three-fold, really.

I've always dreamed of coaching football, and this will allow me the opportunity to write a series of stories on the coaching profession - in first-person format. Plus, it will help me pass the time while I anxiously await high school games at the Silverdome, Saturday afternoons at Farmington Harrison and Notre Dame handing Michigan an old-fashion stomping.

I MAY NOT know what I'm getting myself into, but Avondale head varsity coach Rick Brewer seems to think it's a good idea. Who knows, it may open up a whole new career. I could move on to varsity for a few years, pile up a few W's and hang loose until there's a college opening in South Bend, Ind.

Ah, the old Walter Mitty syndrome. I want it understood that I'm not going into this half-cocked. Football has been my sports love since I was old enough to roll a pigskin on the carpet. My dad says he never pushed me into the game, but I know that football didn't come from the delivery ward.

Dad was quite a football player at St. Alphonsus High School in Dearborn. He coached in the Catholic Youth Organization and later in the little leagues in Dearborn. Consequently, I was surrounded by the game and learned to time my feedings for halftime.

No regrets here. This coaching escapade will allow me to return to my favorite pastime. I played little league, junior high

and high school football before going to Central Michigan University where I was the starting quarterback for four years. (Well, it was intramurals at CMU, but that's irrelevant).

IF MEMORY serves me correctly, I played nearly every position in little

quarterback and defensive back in junior high and at Edsel Ford High School. I couldn't throw the ball very far, but I sure was slow.

To me, there was nothing more enjoyable than football season. I didn't even mind those double-session practices during the hot and muggy Michigan Augusts. There was nothing like game day during the fall - the anticipation, the game itself and reflections afterward.

Miss it? You bet.

I'd have loved to continue on at CMU, but there're not many spots on a Division I team for a 5-foot-9 kid who needs a calendar to be timed in the 40-yard dash. So, I did the next best thing. I majored in journalism and wrote for the sports section on the campus newspaper.

To complement my major, I mi-nored in physical education with an emphasis on athletic coaching. That way, I could get a feel for all aspects of the games.

Now, those class credits may really pay off. Instead of understanding a coach's technique, I can apply what

I'm the kind of coach Rochester High assistant Jerry Murphy would want on staff. I believe a football should be thrown. Why do you think there's air in a football?

Brewer is a throwback to the old Big 10 days, when the only time the ball was in the air was when it was kicked. He believes, and I quote, "If you have to throw the ball, you're los-

Don't worry Rick. You're the boss. I'll do whatever you want. If you don't want footballs in the air, just say so.

Writer's dream Course gets \$1 million facelift

By Chris McCosky

The first thing you notice about the Glen Oaks Golf Course in Farmington Hills is its beautiful stone club house it looks as if it belongs up in the hills of Scotland. The only thing missing is a

The next thing you notice, especially if you haven't played the golf course in the last six or seven years, is its vastly improved condition.

Glen Oaks Golf Course, on 13 Mile Road just east of Orchard Lake, has gotten a \$1 million-plus face-lift since 1978, and the results are obvious. A course that had long been a financial burden for its owners is now bringing in well over \$100,000 in annual profits.

The change in Glen Oaks coincides with the purchasing of the course by the Oakland County Parks and Recreation Commission in 1978.

"The course has really come a long way," said Mike Thibodeau, the chief of golf course operations for the county. "And it still has a long way to go. When we bought it, the course was in a rundown condition. It had been neglected. It was nothing more than a weed patch,

BUT THIBODEAU and others on the recreation commission saw tremendous potential in the course.

"The course's locale was the main thing," Thibodeau said. "It had great potential for the residents in the area. The land was going to be sold off for condominiums.

Since 1978, Thibodeau estimates the county has spent some \$700,000 on improving the club house and another \$300,000 on the grounds. Here's some of what that money has bought. On the course:

• Some 350 new trees have been planted in the last four years, including

Austrian pines, spruce, maple and ash. • The irrigation system was completely repiped; a new pumphouse was installed, doubling the water capacity; automatic timers are currently being

installed on tees and greens. • The cart paths have been rerouted

"I admit we still have a long ways to go. We've not yet reached our standards," Thibodeau said. "But, it's a heckuva lot nicer course now than it was a couple years ago."

THE COURSE is what the public relations brochures would term "very playable." In other words, it's not too difficult but fun for the average golfer. Senior citizens make up the majority

of the course's patrons. The course can play as long as 2,948 yards. Using the men's tees, the course plays 2,843 yards. Using the women's tees, the course plays 2,691 yards.

Singing Birds

Moviemakers put together 1st film

staff writer

HIS BUSINESS IS a lot of persistence, a little bit of talent and the ability to get by on very little sleep," said Kimberly Conely, one of a pair of seemingly tireless, area moviemakers.
Conely and partner Michele Poulik

are the indefatigable twosome behind 'Singing Birds," a period piece about Lithuanian immigrants set in Detroit of 1928. Shooting on the short film finished Saturday; it will take another two months to edit.

Conely of Birmingham is 29. She was location manager for the Detroit shooting of "Beverly Hills Cop" and a location scout and set stylist on "Tiger Town." She has a master's in film from Wayne State University.

Poulik, also 29, is from Grosse Pointe Woods. She worked last year in wardrobe, props and makeup on "Stryker's War," a locally produced, yet-to-be-released horror film, and she has a bachelor's degree in art from

The animated moviemakers took time out recently for an interview with the Observer & Eccentric Newspapers.

CONELY AND POULIK met only two years ago but could pass for sis-ters. They complement each other as

"We were the only girls in the film department," Conely said. "And every- in Detroit's warehouse district and inone picked on us," Poulik added, ex- teriors filmed at an eastside restaurant plaining how they met.

"We were also the only Lithuanians. When she (Conely) went to a Lithuanian funeral, I was the only one who understood what she went through."

Their shared persistence makes them more like sisters, too.

"People told us from the very beginning that we could never, ever make this movie," Conely said defiantly. Said Poulik, "Especially because we're girls they told us we couldn't do it.

"And there were days before our first shoot when I'd get up in bed and say maybe we can't do it. I'd get anxie-

Conely said, "When people you respect stand right in front of you and say you can't do it, you begin to wonder. There was a lot of anxiety. But you can do anything you want."

Poulik concurred, adding: "Fortunately, we went through anxiety attacks at different times. Thank god we didn't lose it together."

"SINGING BIRDS" is about rival families - "a sort of Lithuanian 'Romeo and Juliet,' and it's loosely based on our families," Conely said. "It's a little bit of everything," Poulik added enthusiastically.

It's also intended to showcase the talents of Conely and Poulik, who have bigger, if not better, projects in mind.

'We have feature-length scripts we want to do, but we know you have to moviemakers, they say; and they have have a reel to show people to get the a habit of finishing each other's funding to do what you want," Conely

That reel will include exteriors shot that will pass for a 1920s speakeasy

and in a studio near Eastern Market. "Singing Birds" also will include pathos and comedy, dialogue in both English and Lithuanian, and an authentic, 1920s look, they promise.

TO ACHIEVE the look, they are using toned lighting — "yellows that look like old photographs" for family scenes, and "blues with high contrasts and sharp edges" for scenes in the speakeasy, explained Poulik, the film's

Zoom lenses will not be used; instead, "prime lensing — where every-thing is done manually with a dolly or by changing lenses" — will imbue the film with a more classical style, said Conely, the film's director.

(Conely and Poulik share writing and production credits but stress the separation between direction and art direc-

They hope their skill in selecting and handling cast and crew will demonstrate their abilities as producers. The confident women also hope the film will be a critical success, not only for their sake but for the sake of movie making in Detroit.

MORE THAN 100 people have been involved in the making of "Singing Birds," and every one of them has worked for free. "Many of them know a lot about production but have never had a chance to work as artists, because we all work in commercials," said Conely, who with Poulik runs Sparkle Films, a Birmingham-based, commercial production company.

"Well over \$100,000" in salaries alone has been saved so far, Poulik said. Loans of equipment have also made the project possible.

"The nice thing is that people let us use their equipment — they've been behind us 100 percent," Conley said. "They also want to see something else than television commercials done in

"It's like eating chocolate — it's a treat for them," Poulik reasoned. "Why talk about Comet cleanser all the time when you can help make this crazy Lithuanian movie?"

"We're real proud that we can shoot this in Detroit," Conely concluded. "And we're proud that we're making Detroit look good. We're going into some bombed-out areas and making them look real good.

"But what we're happiest about is that our dream for the last couple of years is really happening now."

minutes. "The Man with Bogart's Face" has all the makings of an awful spoof a la "Zorro, the Gay Blade." However, it's a genuinely funny and suspenseful take-off of "The Maltese Falcon." Robert Sacchi plays a detective who looks and acts astonishingly like Bogart's Sam Spade; the moviemakers might have rested on that. Instead, they use the gimmick as a launching pad for the adventures of their own gumshoe, Sam Marlowe. (Bogie also played Philip Marlowe in "The Big Sleep.") The at-tractive cast of co-stars includes Michelle Phillips, Misty Rowe, Sybil Danning, Olivia Hussey, Franco Nero, Victor Buono and George Raft (in his last film).

Rating: \$3.25.

"Things to Come" (1936), 1 Sunday night on Ch. 4. Originally 92 minutes. TV time slot: 120 minutes.

"Things to Come" will come as a great disappointment to aficianados of H.G. Wells, who wrote the screenplay, and to sci-fi fans who expect to find in it characteristics of fantasy films from a later generation. "Things to Come" may be the granddaddy of modern sci-fi, but it's also a terribly static, uninspiring film. The acting is stagy and the special effects third-rate — and that's comparing them to, say, "King Kong" (1938), not to "Star Wars." "Things to Come" is a significant film and worth watching from that standpoint, but, it is not very entertaining. great disappointment to aficianados of

"A Love Affair: The Eleanor and Lou Gehrig Story" (1978), 1 Monday night on Ch. 7. Originally 96 minutes. TV time slot: 125 minutes.

I'm not sure whether I like Blythe Danner, Edward Herrman or Lou Gehrig best, but all three are high on my let's-have-lunch list. So naturally you can expect an endorsement from me for "Love Affair," which stars Blythe and Ed and is all about Lou. But

that's not to say it's a perfect movie.
"Love Affair" is a made-for-TV, revisionist version of the classic "The Pride of the Yankees" (1942), starring Pride of the Yankees" (1942), starring Gary Cooper, which depicted the Ironman's life as one long fairy tale with an unhappy ending. "Love Affair" tells the same story from Eleanor's point of view, with many a warts-and-all segue into the difficulties of being a slugger's wife and living with a domineering mother-in-law. That's fine.

But if I had to say which Lou Gehrig story I liked best, I'd pick the fairy tale every time. Patricia Neal, Jane Wyatt, David Ogden Stiers and Gerald S. O'Loughlin co-star.

Rating: \$3.20.

Comedian is in another jam

The Detroit Comedy Jam, which comic Mike Binder started in 1982, has been so successful that this year his name gets top billing: It's "Mike Binder's Detroit Comedy Jam 1985."

The young comedian, who is originally from Birmingham, has gotten brother Jack Binder into the act, behind the scenes. In a recent phone interview, Jack explained that he became the producer because Mike, who produced the other comedy jams, wanted to concentrate on the creative end of the show and other ventures.

"Our father is also a partner — a silent one," said Jack, who lives with brother Gary and Gary's wife in Sylvan Lake. Mike has an apartment in Los Angeles but also bunks in with the Gary Binders when he's in town.

The fourth Detroit Comedy Jam will be at 8 p.m. Saturday, Aug. 24, at the Royal Oak Music Theatre. "We probably will announce a second show, for 10:30 p.m.," Jack said. Projected ticket sales are

Appearing along with the comics will be the Look, a band originally from metropolitan Detroit.

JACK SAID he got involved in the comedy jam last year when the show, featuring rising young comics known locally and nationally, was presented at Detroit's Fisher Theatre. The concert was

taped for a live TV special, which was seen on cable-TV's HBO.

"I was assistant producer for the HBO special,"

"We got great reviews," Jack said of that show, which was aired in June. "June was HBO's highestrated month. Ours was the highest-rated comedy special on any station during June. It was running three times a week in prime spots. In August, it's starting back up again."

In each of the jams Mike has been one of the comedians doing a routine. This year's jam also includes Shirley Ann Hemphill from ABC-TV's "What Happening" (she played the waitress Shirley); Joe Nipote from Southfield, who has been a guest on "Happy Days," was on Carl Reiner's "Young Comedian" special on HBO, appeared in Las Vegas and Reno, and played a role in "Meatballs II;" and local comedian, Detroiter Tony Hayes, who performs at the Comedy Kitchen in downtown Detroit.

"Mike will host and be a comic," Jack said. Each performer offers a different style. "We look for a wide spread. We try to have a varied show."

Describing the individual comics, he said, "Shirley has got a great ability to make people laugh and be comfortable. Joe is off the wall - wild. Tony -I don't know how to describe! Mike's humor is insightful - everyday experiences. He does some political material. I think it's an intelligent humor."

JACK, WHO IS 22, was an electrical engineering student in college before he joined Mike and is now working full time as producer of the comedy jam. He said more jams are being planned for others cities in Michigan, with other comics and bands.

Brother Mike is 27; Gary, 29, is a builder. "We have one other brother, 24, who is in Florida. He's not in show business."

Although Jack and Mike are both in their 20s. they aren't likely to be mistaken for each other Said Jack, "He's got red straight hair, and I've go brown curly hair.

Singing songs on topics such as El Salvador and nuclear arms is what Peter Yarrow, Noel "Paul" Stookey and Mary Travers do best. They were among the first musicians to put their popularity at the service of a cause, and on their silver anniversary tour they brought some old songs and new causes to Meadow Brook Music Festival Saturday night.

"Thank you for being with us all this time," Yarrow said. "We also understand many of you are under the age of 8 or 12 — you learned these songs in camp. So, thank you, too, for being

It is true that some of their folk-pop songs are now camp standards. The trio performed several of these including "Puff the Magic Dragon," "If I Had A Hammer," "Blowin' in the Wind" and "This Land Is Your Land." At times throughout the concert, it even sounded like a camp sing-along.

"If somebody next to you is singing

very loud and very out of key, love them for it," Yarrow said.

"PUFF THE Magic Dragon" was sung early in the show. Yarrow explained that many of those who wanted to hear it might be asleep near the end of the show. "Puff the Magic Dragon" was the popular exception to a first manner. There is still comedy — the half that included many lesser-known jokes have just changed. folky songs and some serious political

The political songs, the songs with meaning stand out among the others. The trio puts more heart into these songs and they steal the show. In one beautifully performed song, the lyrics ask, "Don't you think it's time to leave El Salvador?" The audience applauded both the ideals and the energy behind

There was a solo section of the show which allowed each singer time to play stand-up comedian and then sing. Peter, Paul and Mary concerts are known for their spurts of comic interlude. For 25 years Peter, Paul and Mary have been presenting their show in the same

review

jokes have just changed.
Travers joked about her changing roles as mother, mother-in-law and soon-to-be grandmother. "The line between oppressor and oppressee is nine months," Travers said. "And why is it when you call up your mother to com-plain about your children, she laughs."

The comic moments drew positive response from the audience, who laughed at Stookey's "Right Field," at Travers' Joan Rivers-style monologue and at Yarrow's quick wit. The audience, including many people in their 40s and 50s, seemed to appreciate the jokes on parenting, politics and aging.

AFTER THE SOLO section, the band regrouped for some more harmonizing. The show dragged for a while until "Leavin' on a Jet Plane" picked things up. The trio then fired through "If I Had a Hammer" and finally things were getting hot.

The thunderous applause for "If I Had a Hammer" was answered by "Blowin' in the Wind." If there was ever a timeless song, this is it. Then, picking up the pace for a final farewell, they sang "This Land Is Your Land" and a brief "Good Night, Irene."

Not much has changed in the way Peter, Paul and Mary do their show. They are older. Yarrow and Stookey are balder. Stookey (originally from Birmingham) prefers his given first name, Noel, to Paul. But, the harmonles are intact and are best showcased when devoted to a cause.

Acts II NURSERY CARE PROVIDED SERVICES INTERPRETED FOR THE DEAF

World is at the crossroads — love or perish

WAS AT the Christian Peace Conference in Prague, Czechoslovakia. I was listening to Fumiko Amano, a Japanese woman who had experienced the atomic blast at Hi-

She was a girl of 14. All of her family were killed in the blast. She had planned to accompany her brother to the hospital in the city's center. The doctor they planned to see had left town, so, instead, she went to work in a military factory on the edge of the city.
This change of plans saved her life.

Following the atomic explosion, and the fires which resulted, she went back to the city the next day to find her parents and her brother. Her parents had been crushed to death in their home. Her brother had been incinerated by the bomb's fire.

She said, "I walked on the hot ground seeking my parents and my brother. I had a very strong feeling that I was sorry that I survived I said to the bod-

ies, 'I'm sorry, it must have been hot and hard on you.' It seemed that I was the only person alive at that time. I was all right but my heart was dead."

SHE BECAME a teacher of the children who had survived the bomb, many of whom were without any surviving family. She tried to teach them and

missionaries built a church near the school. She began to attend the church, yet she could not accept what they said about God's love because of the bomb. Then she realized that her hate and unforgiving heart were the same sin that caused men to build the bomb and explode it in their city. As a result, she forgave those who had dropped the bomb and she began to feel a change in

During that time American Baptist more powerful. Yet aside from my tears, her words seemed to fall upon deaf ears. Many people who hear this story react with the rejoinder, "Well, they started the war. Think of how many suffered on our side."

Other people react with the boredom of a well-fed person being offered another dessert: "We have peace. Why should we be concerned? As a matter of fact, isn't it our bombs that have prevented a war?"

As horrible an image as this story calls forth, let us hope that Amano's witness is not in vain. Forty years ago last week something happened that has changed the world. Only our minds and hearts have not changed.

BEFORE THIS, we spoke about "we" and "they." They were the enemy and we were the people who had been deceitfully attacked. Their fate would be different from our fate. We could still divide the world into the good side and the enemy side.

"I was encouraged and inspired that

Those who have lived and fought through World War II have an image of what war means. Many more in Europe than in America experienced this war first-hand. Some of those who survived are now saying that nuclear weapons are entirely different from what they experienced.

As one speaker, Dr. Karoly Toth, said, "Throughout all mankind there have been variations of the same. The situation has radically changed." Another speaker said that what we comtemplate now cannot be called war. We are facing a new reality, but we cannot yet understand what we truly face.

What we face is reflected in the words of Deuteronomy 30:19: "I have set before you life and death, blessing and curse; therefore choose life." Over and over again we hear the figure that just 1 percent of the bombs in existence could virtually destroy life on earth.

WE CANNOT possibly grasp such a fact. Yet we are faced with the chal-

lenge to change our minds and hearts in such a way that "They" are no longer the enemy. As never before we are confronted with the call of God to love our enemy. This is the nearly impossible demand. It comes from both our Lord of 20 centuries ago and from the terror of thousands and thousands of bombs which exist today. Each carries a million times the power of destruc-tion which exploded 40 years ago over Hiroshima.

If we are to love our enemy, we would have to treat them as a part of our family. If we are to love them, we would have to talk to them; indeed we would have to give up something of the fear and distrust that separates us. We would have to love, which means some kind of trust and compassion.

How will we ever get beyond this wethey syndrome? How will we realize the fact tha we will either change and

live together in one world, or we will perish together?

THE GOOD NEWS is that we are on the verge of understanding this. Few wanted to believe that nuclear war would blot out the sun from reaching the earth. Yet this computer-designed prediction has become almost common knowledge. Few want to even think about the effects of the arms race, yet more and more are seeing how it will affect our economy, and the welfare of

The images of yesterday must give way to the new realities. At the beginning of World War II, the Polish army still relied on calvary. We are caught in

Our hearts and minds must be ready to change. We must see the new meaning of the words "Love your enemy" as realistic in an entirely new way. Now people are not the enemy. Thermonuclear war is the ultimate enemy. A thermonuclear war once begun will make no distinction between friend or enemy, soldier or child, the starving or the well-fed. If it happens, the words of Amano will echo from millions of tongues. "I was sorry that I survived." Few could guess what future could be possible in such a world.

Following the explosion and the fires which resulted, she went back to the city to try to find her parents and her brother. Her parents had been crushed to death in their home. Her brother had been incinerated by the bomb's fires-

As she told her story in Japanese, which was translated phrase by phrase into English, Rev. Strong recalls "Tears began filling my eyes. I could imagine a 14-year-old going through such horror, and now she was willing to tell about it."

But for 36 years, Amano would not tell others about her experience. Then she realized that her silence and her unforgiving spirit was the same kind of hostile sin that had brought about the dropping of the bomb itself, she told the peace delegation.

She said she found herself able to forgive those who had caused so much misery and she realized that she must witness against it ever happening

'I was deeply touched by her personal account. In a conference dominated by speeches and by men who are leaders in their churches, it was a surprisingly human and realistic account. Mrs. Amano brought all of the grand speeches down to a personal experience."

Now she makes every effort to tell others about her experience.

- Marcia Strong

"As long as there are nuclear weapons, there is a threat for destruction,' she said. "Nuclear weapons are a crime against humanity."

AMANO BROUGHT thousands of origami paper cranes which people in her church in Hiroshima had made for the conference. She distributed the paper symbols of peace to the delegates and to a group of children who were in attendance.

Strong asked for some of the cranes to take back to his church in Livonia. He passed them out last Sunday to everyone in attendance at the worship service. His sermon for the morning was "Love Your Enemy."

Not only was she "deeply touched"by Amano's story, Marcia Strong had another reaction.

"In a conference dominated by speeches and by men who were leaders in their churches, it was a surprising human and realistic account. Mrs. Amano brought all of the grand speeches down to a personal experience.

Jonathon Strong was also moved by Amano's presentation. "It was good that people could hear from her how she experienced the atom bomb. Speakers were talking about how we must not have a nuclear war. She came up

Furniko Amano (left), survivor of Hiroshima, brought thousands of paper cranes — symbols of peace — to the conference in Prague and presented some to Marcia Strong of Livonia for use at a worship service at St. Matthew church in Livonia.

and told us what it was really like."

DAVID STRONG HAD twice before attended the peace assemblies in Prague. In April 1968, he found the conference seemingly taking place in the midst of new freedoms and open dia-logue. In August of that year, the Russian tanks invaded Czechoslovakia.

The next assembly he attended was in 1971 which was a time of tension and guarded anticipation, he recalls.
"This time (1985), the conference

was one-sided in that criticism was aimed strictly at the United States. Most of what they say is true," he reflected, "but we simply do not hear about the sins of the Russians. It is part of the cost of holding a conference in

an eastern European country."

Many in the U.S. delegation acknowledged the responsibility of this country in the arms race, but also realize that Christians from other countries have a

different perspective of what our country is doing, Strong believes.

The Livonia minister also found it interesting to hear the speeches, to talk with the delegates and read the background documents. He read a paper by a member of the Soviet Academy of Science critiquing President Reagan's "star wars" system.

"I found it curious not only that I could understand the entire paper," Strong said, "but also that I agreed with the writer that 'star wars' could not prevent a total disaster upon the earth. We heard over and over again that if just one percent of the current stockpile of nuclear bombs were to explode, the world would be essentially

stroyed." Strong said he is in the process of writing a small booklet of m based upon his experience at the peace

U.S. Savings Bonds.

Now Paying 9.49%.

In the 1800's, baseball was a child's sandlot game. Then came the curve ball, the slide, the crowds and the legends—like Babe Ruth. Baseball had become our national pastime.

Some things never change. But one great American tradition has changed—U.S. Savings Bonds. Now Savings Bonds pay higher variable interest rates like money market accounts. Currently, Bonds are paying 9.49%.

Just hold Savings Bonds for five

interest rates. Plus, you get a guaranteed return. That means you can earn a lot more, but never less than 7.5%. You can purchase Bonds at almost any financial institution, or easier yet,

years and you get the new variable

through the Payroll Savings Plan where you work. Buy U.S. Savings Bonds. Like baseball, they're another part of our proud heritage. For more information, call tollfree 1-800-US-BONDS.

U.S. SAVINGS BON Paying Better Than Eve

Variable rates apply to Bonds purchased on and after 11/1/82 and held at least five years. Bonds purchased before 11/1/82 earn variable rates when held beyond 10/31/87. Bonds held less than five years earn lower interes
