Pool proposal on ballot?

To decide 2-mill tax

By Doug Funke staff writer

Plymouth Township voters probably will face a second ballot proposal on Nov. 3 - whether to finance and build a public pool.

Jane McCourt, a Plymouth Township resident, spearheaded a group of about a dozen who circulated petitions calling for the pool. They collected enough signatures, more than 500 in a week, to qualify for a spot on the ballot.

The lawyer for the township has been asked to clarify wording and to determine whether there's enough time to get the proposal on the November ballot at this late date.

Esther Hulsing, township clerk, said she expects that the proposal will be put to a vote this fall

McCourt proposes a one-time-only property tax of 2 mills (\$2 per \$1,000 of state equalized valuation) to construct and operate a pool.

That tax would generate about \$878,000. She wants the pool built in Township Park at Ann Arbor Trail and McClumpha

The owner of a house with a market value of \$100,000 would pay \$100 for the pool if a 2-mill tax were ap-

A LIKELY timetable, should the proposal pass, would be to collect the money on the December 1988 tax bill, begin construction in 1989 and open for business in 1990, McCourt

She said she has received an estimate that \$650,000 could buy an outdoor Olympic-sized pool, a kiddie pool, a diving pool, a bath house and a concession stand

The rest of that millage money plus user and concession fees, would fund on-going operations, McCourt

"I'm real serious about this," she said. "This community is big enough to support a pool

Plymouth township and city voters also will be asked Nov. 3 to approve a tax hike to \$1.20 from 80 cents per \$1,000 of state equalized valuation for expanded hours and more books at the Dunning-Hough Library

That tax increase (from .8 mill to 12 mills) would net the Plymouth District Library Board \$237,000 annually and cost the owner of a \$100,000 house an additional \$20.

Neither McCourt nor Carol Davis, president of the library board, seemed overly concerned that more than one tax increase proposal would appear on the same ballot.

McCOURT differentiates the two by noting that the pool proposal is for one year only

"What we're doing is offering people choices how best to serve the community." Davis said

One person not excited by the prospect of a township pool is Supervisor Maurice Breen

I suppose if I had young children I'd have different feelings," he said "I've always said if people want it and vote in the dollars, we will do

McCourt is upbeat but cautiously

"There are a lot of interested people out there

Circulating petitions was relatively easy. McCourt added, "which kind of makes me nervous about the election. This went so easy, it may be difficult to get a positive vote in No-

If you're thinking about an investment that's too good to be true, it probably is and you could face a jail sentence if you get involved.

A pyramid scheme involving aeronautical code words is luring investors with a promise of making \$12,000 on a \$1,500 investment.

It's especially prevalent in Plymouth, Canton, Livonia, Ann Arbor, Ypsilanti, Walled Lake, Pontiac, Brighton and Milford, said Det. Sgt. Norm Maxwell of the Michigan State

PYRAMID SCHEMES and chain promotions are felonies carrying penalties of up to seven years in prison and a \$10,000 fine.

In what appears to be a major crackdown, Maxwell said there are

"thousands" of people involved in this pyramid scam. It was initiated outstate and has spread through other states.

In a pyramid scheme, investors contribute money and then begin to convince others to join, thereby increasing the investment pool. As more members join, those who invested early move through a quasihierarchy until the investment pool is large enough to payout the promised return. The system perpetuates itself by having enough new members contributing money in the hopes that they, too, will one day receive their promised return.

The pyramid scheme under investigation works as follows, with the titles of airline personnel representing the investors:

The plane consists of one pilot, two copilots, four crew members A pyramid scheme is luring investors with a promise of making \$12,000 on a \$1,500 investment.

and eight passengers.

Meetings are held to give the pilot, copilots and crew a chance to recruit new passengers who buy seats for about \$1,500 each. The money is paid to the pilot, who is then eliminated

The airplane splits into two planes and each of the copilots become pilots. The crew members are split into two sets of copilots and the passengers are divided into two sets of

THE PROCESS begins all over More people are sought to buy seats and pay the new pilots.

Organizers are telling potential investors not to take the money out of bank accounts in lump sums to foil links to the scam, Maxwell said John Walters, assistant state at-

torney general, said: "There's an ongoing investigation and there's very little, if anything. I can say at this Walters said the state attorney

Adult education in TV project Residents are being given a sec-

ond chance to earn a high school diploma by taking classes over public

Plymouth-Canton Community Education has joined with WTVS/Channel 56 in a pilot project of offering adult education training and credit via public television.

Plymouth-Canton is among 10 school districts statewide that are coordinating classes on Channel 56 for General Educational Development (G.E.D.) credit. The TV courses also are available on cable television's The Working Channel and the College Cable channel and will be available on Omnicom Cablevision channels in Plymouth and Canton.

munity education here, has been working with Mary Jo Workman in his department on the program. Residents with questions may call 451-6660 or 451-6555 or WTVS's education division at 873-7200, ext. 187.

Students can register through the community education department, at Plymouth Canton High or the Starkweather Center. The GED preparation courses will be televised from 8:30 a.m. to 3:30 p.m. Monday through Friday beginning Sept. 28.

'Our goal is to help thousands of metropolitan area residents who need a GED certificate to improve employment prospects and the quality of life," says Doug Halladay, WTVS director of education. 'The accessibility of this GED in-

struction on Channel 56 will benefit students in any curriculum but particularly those who enroll in one of our participating districts.'

Others participating in the pilot program are the adult education programs of Detroit Public Schools, Hazel Park, Highland Park, L'Anse Creuse, Port Huron, Redford Union, Pontiac, Willow Run and Ypsilanti.

The 43 half-hour programs involve instruction in basic reading, writing and math skills. Workbooks and test-

ing are provided by the participating districts' adult education depart-

The televised GED series can be used by districts: as supplementary instruction to classroom-based courses; as core instruction, around which the teacher develops lesson plans; or as homebound instruction with or without assistance from a

The pilot program will be evaluated by Wayne State University's Center for Urban Studies and the data used to coordinate future televised and classroom GED instruction.

Construction has been ongoing this summer on The Meadows condominium project on the former Clarence Moore sheep farm. Monday night the Plymouth City Commission approved changes in the project plan, allowing for additional parking spaces for tenants and for fencing circling the site.

Farmland to yield condos

By M.B. Dillon staff writer

What once were sheeps' quarters in the heart of Plymouth soon will be living quarters for the owners of luxury condominiums

Around Christmas the first residents are expected to move into "The Meadows," a three-story, Tudor-style complex that sits on what used to be the Clarence Moore sheep As recently as the early 1980s,

Clarence and Lulu Moore sheared sheep and grew vegetables on seven acres off Burroughs, east of Main Street north of Ann Arbor Road. You wouldn't know it today.

Two nearly completed stucco and brick buildings with high-pitched roofs form an "L" that opens into a wooded acre coursed by Tonquish Creek. The site, behind the March Tire Co on Main Street, neighbors Deer and Kellogg Streets and the Kellogg condominiums.

Nora Roberts' nephew was murdered But in death the young man gave new life and hope to three other people who were close to dying

The tragic murder of this 19-yearold forged three new futures because his family said yes to one of the most difficult questions medical professionals in Michigan are now forced by law to ask

The question "Would you agree to donate his organs to others?"

Despite their grief, the young man's family agreed, and donated his heart and both of his kidneys.

The person you love is gone, but someone else lives on through him," said Roberts, who is administrative clinical supervisor for Garden City , Osteopathic Hospital. "There's some good that comes from something terrible. Three people are now alive because he died.

In her nursing supervisor's job, Roberts often has to ask the same question that once was asked of her own family

It is never, ever an easy question to ask, said those medical professionals interviewed for this story.

One one side is a grief-stricken family, trying to cope with a devastating, often sudden, loss.

On the other side are hundreds of ailing patients who are waiting and praying for a new liver, kidney or pancreas to keep them alive.

In the middle are the medical professionals, whose main goal is to sustain human life.

BEFORE 1986, professionals standing in the midst of such grief often found it easier not to ask the question

Since the passage of a Michigan organ donor law in late 1986, they are now required to ask the question to the families of eligible donors.

The law requires hospitals to set up a process in which the question is asked routinely and uniformly when someone has died or death is immi-

BUT LAW or no law, it's still a sensitive area.

Physicians and nurses ask, but it's still very hard," Roberts said. It's not something people jump at. It's hard (for next of kin) to believe that someone is dead when they're still on a respirator. And doctors are here to promote life. It's hard for them to say someone's dead.'

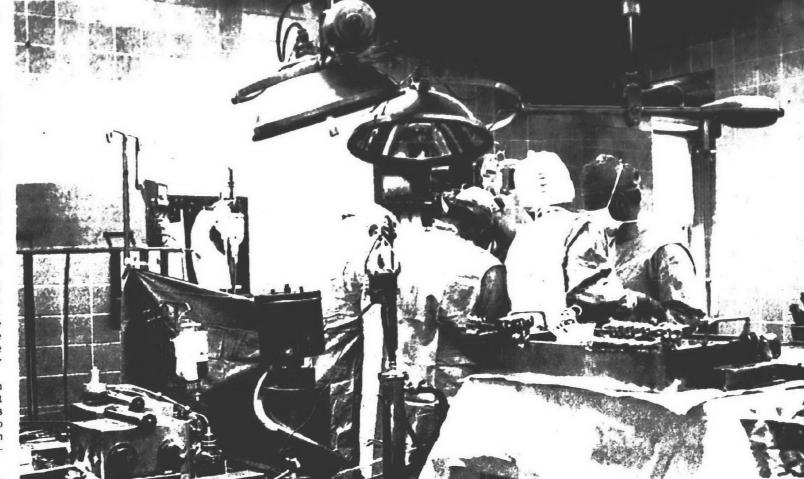

Since passage of the law, the Ann Arbor-based Organ Procurement Agency of Michigan (OPAM) has held seminars in state hospitals to give medical professionals tips on how to broach the question sensitively to grieving family members.

HAS THE law helped? Are more organs now being donated?

"Having the law has created an awareness of the need for organs," said Anne Gusfa, director of nursing for St. Mary Hospital, Livonia.

Patricia Claypoole, nursing administrator for Redford Community Hospital, agreed.

With the law, it's definitely a lot easier because we have to do it now," Claypoole said. "We have to

BY FAR, the biggest need is for kidneys Giles said more than 650 patients in Michigan are waiting for a kidney transplant; 26 for heart transplants, two for livers, and 13 for a pancreas.

Giles said Michigan residents are given first priority when an organ becomes available. If no "match" can be made within Michigan, then the organ can go to a patient out of state. Giles said.

Samantha Talbot, 2, of Plymouth, tries to reel in a fish under supervision from her grandfather, Ken Radtke of Northville, and great-grandfather Cy Johnson of Florida.

Anglers find 'reel fun' in the park

Families compete in derby

Gone Fishin' was the theme and that's exactly what 55 grandparents and grandchildren did during Saturday's Wayne County Parks-sponsored event.

Anglers cast off from the dock at Newburgh Lake, in Hines Park, competing for prizes in child and adult

Among the winners:

• Largest fish - Jeff Angialli, Canton, grandchild, Donalo Zapoton, Livonia, grandparent.

 Largest family unit: Jenkins family, Plymouth; Wysonski family, Redford Township, five members. · Youngest angler, Samantha Talbot, Plymouth, 2. Oldest angler,

Cy Johnson (her great-grandfather), It was the second annual grandparent/grandchild fishing derby.

The event corresponded with Grandparents Day. Most participants came from Livonia, Redford, Plymouth and Canton, organizers

Schools announce free meal program

Wayne County Intermediate School District has announced its policy for free and reduced-price meals and free milk, which will be followed by all schools (public and non-public), preschools, child care centers, Head Start programs, and residential child care institutions in Wayne County participating in federally reimbursed child nutrition programs. These programs include the National School Lunch Program, School Breakfast Program, Special Milk Program, Commodity School Program and the Child Care Food

All public school districts, nonpublic schools, child care agencies, Head Start programs, and residential child care institutions must use the following household size and income criteria for determining eligi-

Children from families whose income is at or below the levels shown are eligible for free meals or reduced-price meals.

Applications forms will be sent to all homes with a letter to parents or guardians. To apply for free or reduced-priced meals, households should fill out the form and return it to the school. Additional copies of the application form are available at the principal's office in each school. Households should answer all questions on the form.

An application that does not contain all of the following information cannot be processed by the school: (1) the total household income and the amount and source of income received by each household member (such as wages, child support, etc) or the household's food stamp case or AFDC number if the household is on foed stamps or receives AFDC; (2) names of all household members; (3) social security numbers of all household members 21 years of age or older, or the word "none" for any adult household member who does not have a social security number; and (4) the signature of an adult household member.

FOOD STAMP/AFDC households - If you currently receive Food Stamps or "Aid to Families with Dependent Children" (AFDC) for your child, you only have to list your child's name and Food Stamp or AFDC case number, print your name and sign the application.

The information provided by the household is confidential and will be used only for the purpose of determining eligibility and verifying data. Applications may be verified by the school or other officials at any time during the school year.

If children are approved for free or reduced price meal or free milk benefits, the household must report to the school increases in household income over \$50 per month (\$600 per year) and decreases in household

Households may apply for benefits at any time during the school year. If a household is not currently eligi ble but has a decrease in household income, an increase in household size or if a household member becomes unemployed, the household should fill out an application at that

In most cases foster children are eligible for these benefits regardless of the household's income. If a household has foster children living with them and they wish to apply for free or reduced price meals for them, the household should contact the school for more information.

Under the provisions of the policy, each public school district, non-public school, preschool, child care agency, Head Start Center, and residential child care institution determines an official or officials to review applications and approve or disapprove eligibility. A parent or guardian dissatisfied with the ruling of the official may wish to discuss the decision with the determining official on an informal basis. The household also has the right to a fair hearing. This can be done by calling or writing the hearing official whose name and address is in the letter to parents. Each district, school, center or agency's main office has a copy of the complete policy, which may be reviewed by any interested party.

In the operation of the child feeding programs no child will be discriminated against on the basis of race, color, national origin, age, sex, or handicap. If any member of the household believes that the household has been discriminated against, he/she should write immediately to the Secretary of Agriculture, Washington, D.C. 20250.

Teachers cheer pact proposal as ratification process begins

By Tedd Schneider and Leonard Poger staff writers

Wayne-Westland school district teachers applauded a proposed 18 percent salary increase over three years Tuesday as they started the ratification process for the threeyear contract.

About half of the 700 Wayne-Westland Education Association union members applauded the proposed salary raises when they convened in the Stockmeyer Auditorium at Wayne Memorial High School to hear details of the tentative agreement, approved by school board and union negotiations about 3 a.m. Tuesday.

Under the ratification process, teachers must have copies of the complete proposed contract at least 48 hours before they can vote on it.

William Reece, WWEA president, hopes that the copies can be distributed to teachers by Friday with the voting starting early next week.

Sun Plastic expects new hires, tax cuts after building expansion

Sun Plastic Coating Co. expects to roll after the first of the year, Osnearly double its work force next terhout said. Fifteen to 20 hires year after completing a 15,000square-foot addition to its leased

building in Plymouth Township. Sun Plastic, on Postiff Street behind Plaza Lanes, currently employs 21. The company applies plastic coatings to automotive and aero-

space parts. Work on the addition, already under way, is expected to be finished by mid-December, said George Osterhout, general manager. It will

double the size of the plant. Semiskilled and unskilled laborers gradually will be added to the pay-

should be aboard by the middle of next year. He declined to provide pay fig-

The township board is expected to

grant tax abatement on the building improvements and on new equipment as requested by Sun Plastic.

The tax breaks would amount to just less than \$10,000 the first year. That's assuming current tax rates and assessments on the building and equipment equal to the company's estimate - \$445,000 and \$200,000, respectively.

The abatement would decline slightly over most of the next 11 years.

State law provides tax breaks to stimulate companies to renovate aging plants and to build new facilities. A \$10,000 annual tax break is fairly small as far as abatements go.

Still, a dollar saved is a dollar that can be plowed back into the business, Osterhout said.

"We'd apply it to hiring another person, train another person, buy new equipment.'

Sun Plastic has done business in the Plymouth community for 25

years, Osterhout said.

American scientists and businesspeople have a new way to tap Japanese research before it is turned into competitive products.

called "Japan Technology" makes the latest research, technical and management information from Japan available in English.

The service began in May. It is a tion Service.

joint venture between University Microfilms International (UMI) of Ann Arbor and Dialog Informational Services, Inc., of Palo Alto, Calif

Japan Technology provides a comprehensive overview of the total technical and business climate in Ja pan The service presently consists of about 75,000 article abstracts from 1985 to current issues of the 600 leading Japanese journals

EACH MONTH these Japanese publications - produced by commercial publishers, corporations, professional societies, universities and the Japanese government - are shipped by air to the US shortly after their release Every article of substance is abstracted and indexed

Available are abstracts covering technical, scientific and business articles, corporate histories, industrial standards, economic reports, product news and book reviews

"It has taken quite a bit of effort to get this product out." said Block

First we had to identify 600 leading publications; then we had to set up a network of translators who were specialists in various technical areas, and finally, index the information to library standards

Until now, the information flow has been one-sided because '90 percent of the technical information coming out of Japan is written in Japanese. Because of this, U.S. businesses and research institutions often learn years

Parking fees at Detroit Metropolitan Wayne County Airport would increase under county executive Edward McNamara's proposed 1988

At the same time, county indigent health care payments would be cut in half. McNamara sent the budget Friday to county commissioners.

The balanced \$229 million budget includes a \$6 million cut in general county expenses, mostly through elimination of vacant county jobs. It is a 2.5 percent reduction from last year's budget.

"If we had to use a term (to describe the budget proposal) it would be: austere," McNamara said Tuesday at a press conference to explain

McNamara's budget proposal rests upon two key provisions:

• A 25 percent county tax on parking fees at Metro Airport.

· A statewide surcharge on traffic tickets

The parking fee tax would raise \$5 million-\$6 million, according to McNamara's estimate. If approved, the tax would represent the first time the state allowed airport revenue to go toward general county ex-

Adding a surcharge on tickets issued by all county police forces would raise about \$3 million, McNamara said. The money could be used to build new jail cells.

Both items require the state legislature's approval. If the items aren't approved.

McNamara said he would order cuts in indigent health care payments to county hospitals.

"IF WE FAIL to receive that help we will have to arbitrarily cut indigent health care payments," he said. "The budget allows only \$15 million for indigent health care." The county spent \$30 million for indigent health care services this year.

Health care costs are at the heart of Wayne County's debt problem with the state. "Unless we can cap indigent health care there's no way this county is ever going to balance its budget." McNamara said. (See related story.)

Of the proposed \$6 million cut, an estimated \$500,000 would go toward "good faith" payment to retire county debt.

"That's enough to cover UPS service between here and Lansing," McNamara joked.

• The county expects to receive \$25.8 million in federal revenue sharing grants next year, even though this year's payments are being withheld by the state to pay off county debts

Tax shift

Guess where the tax bucks stop?

OBBING PETER to pay Paul is a practice almost as old as mankind.

The short-minded approach now has an aura of respectability since it has been rechristened The New Federalism and covered by the umbrella of Reagonomics.

The practice already has hit local taxpayers in the pocketbook but the outcry is misdirected so those responsible continue to play the game without being called to account.

Presidents Nixon, Ford and Reagan all declared reduction of the federal deficit to be a top priority. All talked of reducing the expenditure level in Washington, D.C., and returning to the states responsibilities that are better met at that level

Innocent sounding stuff.

But much more was done and city councils, township and school boards today are still wrestling with the fall-out.

THE BEST EXAMPLE may be the cutbacks in federal revenue sharing.

In the past, some of the money that poured into Washington. D.C., via the income tax was returned to states who allocated shares back to the cities and townships. There were no federal strings attached to this money.

The philosophy was to let the money be spent at the local levels where real needs were best understood. Also very high-sounding but lost in today's rhetoric.

Now federal revenue-sharing is being eliminated with the money "saved" being used to reduce the federal deficit. State and municipal governments, though, have had to increase taxes to make up for the lost income because deficits are illegal for local units.

So where are we? The federal tax level stays the same, the deficit allegedly is reduced, and taxes are increased at the local level. The tax-payer doesn't get a break and the heat, when applied, is felt by Plymouth-Canton officials and Lansing officials — not in D.C.

THE REAGONOMIC apostles argue that state and local governments do not have to increase taxes just because federally shared funds have been removed. All locals have to do, they argue, is cut spending.

That argument is really shallow when these postles also are the disciples of the New Federalism. These are the same policy-makers who are returning programs and services to the states to administer.

And so the federal government is saving monev by dumping programs onto the states, and The deficit must be reduced by spending less money or raising taxes, not by shifting programs and services on the D.C. to Lansing shuttle.

saving money by taking money away from the states, while suggesting the states can do all this without raising taxes. Sometimes they can.

State governments sometimes can take on former federal programs with less federal movey simply by playing the same game and passing the program down to municipalities and school districts.

The latest example in this area is the Learning Options of Growth Works. Federal funds are withdrawn, the state does nothing, and Plymouth-Canton ends up with the bill.

We have seen the same thing happen with Super Sewer, Son of Super Sewer, etc., with school lunch programs, with transportation dollars for roads, highways and bridges, and airport expansion.

The federal government has \$8 billion in a fund for airport expansion and safety improvements. The money is not being released because "not spending" the money is a "savings," which goes towards reducing the deficit.

THE FEDERAL DEFICIT will be reduced only by not spending money in the treasury.

One way to do this — the easy way — is to collect money and not spend it by eliminating programs or shifting them to the states. Another way is to increase the amount of money coming into the treasury but not spend the additional dollars coming in.

Any serious deficit-slayer will increase taxes to raise money to be applied against the deficit. Some serious deficit-slayers (not many in the Reagan camp) actually suggest increasing federal taxes. Most take the coward's route and increase the volume of unspent federal dollars by forcing increases in state and local taxes.

Uncle Sam may be robbing Peter to pay Paul but the taxpayer ends up paying Peter, Paul and Mary.

Stewed at the stadium

Time to toughen up rules on booze

FALL IS a great time to be a sports fan in Michigan. What with the Lions, Wolverines and Spartans — not to mention the Tigers, Mid-American conference teams and all the rest — hundreds of thousands of fans will be attending sports events in the next few weeks.

But let's not kid ourselves: many of those fans will wind up drunk. That concerns us.

Frankly, we've had it with with loud, obnoxious rowdies spilling beer down our shirts. But what happens during the game is only part of the problem.

Consider this: even if one in 50 fans gets smashed, there could be as many as 1,600 drunks driving away from the Pontiac Silverdome on any given Sunday, ALL AT THE SAME TIME. That's a scary thought. And it's not much different at other area sports arenas.

It's certainly no different at college events, despite the NCAA's self-professed alcohol ban. Nor is drinking confined just to certain sports. It's an across-the-board problem.

THE PROBLEM isn't new. It goes back as far as a century.

But there has been a reassessment of America's drinking habits lately. Drunken and stoned behavior isn't being tolerated the way it once was — especially when it comes time to get behind the wheel.

It seems our sports stadiums and arenas are among the last bastions of the old anything-goes mentality. This has to stop.

Now, our local sports moguls are probably already pulling out long lists of things they've already done to curb drinking at their stadiums.

Truth to tell, there have been some accomplishments. For instance, we think the decision to sell low-alcohol beer at Tiger Stadium was a good one. We also think it was a good idea to stop vendors from hawking beer throughout the grandstands of some local sports meccas.

Without discouraging continuation of past efforts, we say they are not enough.

WE ENCOURAGE local professional sports teams to experiment with other ways to curb public drunkenness. Earlier cutoff times for alcohol sales are among the items that could be tried. What's the sense of allowing fans to drink all the way up to the final whistle? Or even beyond halftime? We think an hour or two of mandatory sobering up time would clearly help.

As for colleges, there is an alcohol ban already in effect. Enforce it — even if it means confiscating the stuff from alumni as well as students.

But even though we think our sports moguls could do more to cut down on drunkenness at their stadiums, the responsibility isn't theirs alone.

To those who see sports events as nothing more than an excuse for public drunkenness we have this advice: Stay home. It's cheaper, it's safer and the rest of us won't have to worry about meeting you — head-on — when the game is over.

To the editor

I would like to correct some misconceptions found in Bill and Denise Schmidt's letter to the editor last Thursday.

The Schmidts question the need for a public pool in Plymouth Township Park, saying there are many swimming areas nearby, such as Pinkney State Recreation Area, Murray's Lake Swim Club and Colony Farms Swim Club.

Pinkney and Kensington Metropark are not considered "nearby" for those of us with young children who need to go home for naps, or with elementary schoolers who may swim only 1-2 hours and then tire out. These parks are ideal for occasional day trips, but just too far for daily summer fun.

Murray's Lake is a fine swim club. I put my name on the waiting list early summer of 1986 and have not been called yet.

Colony Swim Club does, in fact, have a waiting list. It is a wonderful private club, which costs much more than some of us wish to pay.

I'm a member of a pool in Livonia. It costs \$160 per summer, a bargain compared to Colony and Murray's Lake. I would much rather take my children to a local pool to enjoy my friends and neighbors from Plymouth.

Building private backyard pools is not a "perfect solution." Many people have neither the time nor desire to care for a pool in their yard, but would gladly pay a nominal fee to be able to use a pool in their community park.

ty park.

There will always be people who prefer the beach over the pool for summer activity. But as my neighbor said, "At least in a pool you know where the bottom is." If the Schmidts' eyes get "red and irritated from the chlorine," I suggest they

try goggles.

1 admire Jane McCourt for spear-

heading the drive for a public pool. Over 600 township citizens have signed a petition to get a millage vote for a public pool on the ballot in November. I strongly suggest anyone who wishes to see this pool built register to vote if they have not already done so. To vote on the Nov. 3 ballot, register by 5 p.m. on Oct. 2 at Township Hall. Then please go out and vote on Nov. 3 for a public pool in Plymouth Township Park.

Stories were both contrived

To the editor:

I would like to respond to two items in your paper on Thursday, Aug. 20.

The first was an article entitled "Air crash lawsuits pending," which referred to a lawsuit that will be filed in conjunction with the recent Northwest plane crash.

There was no substance to this article except for sensationalism and free advertising for the attorneys (addresses and law firm names included) mentioned in the article.

There have been a number of insensitive and self-serving attorneys who have made themselves known following this tragedy. You helped make this possible by printing this article.

The editorial entitled "Families deserve time to convey their stories" was inappropriate in two ways. In my professional and personal life, I have never met a person who needed the press to work out grief. I can appreciate an individual's need to talk about the loss, to remember, to eulogize. That is different than suggesting this process necessitates talking

to a reporter.

The editor said that Northwest's decision to withhold the passenger list denied the public's right to know who died so that they could go through their own grief process. This

suggests a distorted priority.

Is the public's right to know more important than the possibility of releasing a wrong name, thus leading friends and relatives to believe someone had died who had not?

In this age of super-saver coupons, etc., people buy tickets under other names. What could Northwest's motive conceivably be except to verify the names of the passengers?

It seems to me the editor was curious to know who he/she might know on the plane. Weren't we all? Surely this travesty offered enough newsworthy information without contriving these two articles.

Natalie Rice, Ph.D., Farmington Hills

The attorneys who were quoted in the above referenced article were contacted by an O & E reporter and asked for their comments.

LOOKING FOR information about state government? The League of Women Voters has a toll-free telephone service (1-800-292-5823) that may be helpful.

The league's Citizen Information Center in Lansing offers to help people find out about such things as pending legislation, the state constitution, election laws, voting regulations or tax information.

The telephone is answered from 10:30 a.m. to 3:30 p.m. weekdays.

The telephone service is paid for by the league's education fund. The League of Women Voters is a non-profit organization that works to keep voters interested and informed about governmental issues.

Unlocking the secret of a forgotten script

It's been a long time since LeHugh Buzzell entrusted me with the mysterious document that has become a quiet but constant companion.

Enclosed in a blue slipcase, it is actually a long, slender book with a purple cover. The pages unfold accordion-style, sort of like some fancy book you buy for a child for a holiday gift.

For several months now, it has traveled with me from office to briefcase to home and back. Although nowhere is it written within this document, a promise unfulfilled comes with it.

Buzzell, a Livonia resident, turned over this rare document in hopes that I could find someone to unlock the mysteries of its contents.

Sounds intriguing, I thought, and probably easy enough to solve. Well, the challenge has been absolutely fascinating, but easy, never.

THE WORLD War II Navy veteran came across the document quite by accident just after the Pacific war ended. He was serving with the occupation forces in Japan To make room for U.S. Navy forces, Buzzell and a crew of men from the USS Washington were assigned to clean out a base formerly occupied by Japanese forces.

While searching through some drawers he found the document. Em-

He didn't know whether this was a laundry list, an inventory of supplies, a menu or a message of some importance.

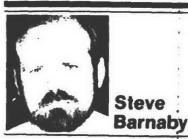

blazoned in gold lettering on the front was a message in Japanese. Above it was a strange, unfamiliar symbol. He later found out it was the official symbol of Japanese Emperor Hirohito.

Curious, the GI queried a few of the Japanese with whom he had become acquainted. Now he didn't know whether this was a laundry list, an inventory of supplies, a menu or a message of some importance.

But he soon found that his inquiries brought curious and sometimes frightened glances.

"We know what it says, but we can't tell you," was the typical reply. Finally, like many others, getting home took precedence over everything else, so Buzzell packed up his seabag, mystery document included, and headed back for the states.

Until recently the document, and from the big three.

its unknown message, has languished in the bottom of a trunk gathering dust.

AND AFTER more than 40 years its contents remain a secret.

With the influx of Japanese to this area, translating the document would seem a simple task. But like Buzzell, I have run into some strange roadblocks.

Apparently, the emperor wrote in a style unknown to most. So you just don't walk up to the ordinary Japanese businessman and say, "Hey. bud, what's the message here?"

You also run into some different kinds of reactions, kind of like, well, you know, "We know what it says but . . . " Sometimes you run into simple silence.

But, LeHugh, stick with me. I'll get to the bottom of this mystery. Let's resolve that before the new year, the secrets of this manuscript will be unlocked for all to know.

Gee, maybe it's a secret plan on how to take over the auto industry from the big three.

Awakening of a library

LOTS OF local folks got bent out of shape when state Sen. Doug Cruce sponsored a bill to stop public libraries from renting out videotapes of old movies

Cruce of Troy was turned off by the notion of a library's renting out Texas Chainsaw Massacre." As a good Republican, he also was unhappy that tax-supported governmental agencies are competing with taxpaying private businesses

Cruce took a lot of abuse, as I said. but he may have been onto something. Did you notice the UPI wire story that made the rounds a week ago? It cited

 A branch of the Chicago public library that loans expensive tools 40-foot extension ladders, for example. There's a small fee.

• Other libraries that lend smoke detectors to vacationing families, offer computer training and provide certification for baby sitters or tutors for homework.

LIBRARIES AREN'T libraries any more. They are "learning resource centers." That's what they re labelled in many high schools and colleges. Honest, I'm not making

In some places, they are "instructional media centers." I don't know whether a learning resource center is a sign of greater upward mobility than an instructional media center

The word "library" comes from the Latin liber, meaning books A liberal arts education doesn't mean you have to become a political left winger, rather, it is a book-oriented education. Liberal arts are to be distinguished from industrial arts and domestic arts - not from right wing

THE REASON they call 'em learning resource centers nowadays is that libraries contain more than books

Why ask the obvious?

THIS ISN'T MEANT to be a slam against Sen. Rudy Nichols. As politicians' polls go, his is as good as most. better than many.

But it is wise to beware of legislative surveys that are basically designed for two reasons: a) to show that the politician is in touch with his constituency, and b) to make sure that there are no controversial or unexpected results.

Nichols, for instance, is "particularly pleased" that 77 percent of those responding favor his new proposal for financing public schools That sounds good, but you have to look at how the question was worded, which basically asked if people would support a massive reduction in their property taxes without a corresponding new tax and without any cutbacks to education.

In other words, would you like your tax bill slashed in half? Amazingly, 23 percent said "no."

NICHOLS ALSO noted that survey respondents are in favor of crackdowns on drugs and crime. Big surprise there. What did you expect? That 59 percent of Oakland County residents support an increase of he-

roin use and armed robberies? The drug questions, to be fair were not so blatantly stated. They

asked if people favor legislation that allows drug testing in schools and in the workplace About two-third said

Of course, many people are willing to have other people tested for drugs But if Nichols and other lawmakers really want to know how their constituents think, they might try this question on their next sur-

phones, if approved by a magistrate to help crack down on the drug problem in Michigan?"

Basically, this question asks if people think drug abuse is a bad thing and whether they think pushers should be put in jail. It is not approval of a suspension of civil liberties.

There are at least two things wrong with the question. First, there is no indication that the respondent is aware of current wiretapping laws or even knows what a magistrate is. Second, the question implies that the action - wiretapping - will accomplish the desired result - reducing the drug problem. There is nothing offered to back up the premise, how-

The Old Wayne County Building is being readied for occupancy once again. County workers are expected to move in sometime around Thanksgiving.

Old County Building set to reopen

By Wayne Peal staff writer

Restoration of the Old Wayne County building is "on target" for October completion, building archi-

County workers should move into their new offices by Thanksgiving, according a spokesman for project architects Smith, Hinchman and Grylls Associates of Detroit.

'Right now, everything's on target," company spokesman Larry Burns said. Contractors are entering the final phase of a 16-month project that aims to restore the 90-year-old building to its past glory.

The granite and sandstone struc-

ture" served as the county seat through the mid 1950s, when offices were moved across the street to the City-County Building.

The building, bordered by Ran-

dolph, Brush, Fort and Congress, takes up a city block in downtown Detroit.

It brings a touch of old Detroit to the city's most-heavily revitalized area. The Millander Center is its neighbor to the south. The Renaissance Center is within a block. It's also within walking distance of Hart

Plaza and Trapper's Alley. Workers are completing restoration projects designed to restore the building's antique woodwork and marble floors.

The county executive, county commission and county retirement, personnel, corporation counsel, health and human services and management and budget divisions will all move into the building.

The county executive's third floor office will be directly below the fourth floor office of the county commission chairman.

The old fourth floor board of supervisors meeting room is being re-

stored for the county commission. Only about 120,000 square feet of the 242,000-square-foot building will be used, though architects said that was about what could be expected in

a building that old "Today's buildings are about 80 percent efficient, but that wasn't the case back then," project architect Jeffrey Hausman said "Frequently. you'd find buildings were only 50 percent efficient because of large

entryways, hallways and the like." The building's tiled main entrance will be used as a ceremonial entrance. A new public entrance is being added below the large front

Though the building draws upon the Italian Renaissance school of architecture, "essentially, it's a pretty eclectic mix," Hausman said.

Interest rates on Adjustable Rate Mortgages are the lowest ever at Standard Federal.

15-Year ARM

30-Year ARM

Before you buy or refinance your home, consider the advantages of our Adjustable Rate Mortgage (ARM).

Many of our ARM loan customers have saved a lot of money in mortgage interest costs over the past few years. And, at present interest rates, borrowers are finding our ARM loans to be an even better bargain. The first-year interest rate on our 15-year ARM is now only 7.25% compared to much higher rates on fixedrate loans. What's more, with the 2% annual and 6% lifetime interest rate caps that we have placed on our ARM loans, you'll pay less interest and have greater principal reduction over at least the first four years of your loan.

The lower initial interest rates on our ARM loans result in lower initial monthly payments. And, the lower monthly payments mean that it will be easier for you to qualify for the loan that you need to buy or refinance your home.

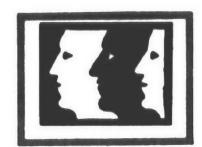

So, come to any Standard Federal branch office and learn more about our ARM loans. We'll help you find the loan that is just right for you.

"All annual percentage rates are calculated based on a 2% loan discount fee a loan amount of \$50,000,000 a 20% down payment, and monthly principal and interest payments of \$456,43 for the 15-year loan and \$349,61 for the 30 year loan. These estimated annual percentage rates are subject to increase or decrease on an annual basis after the loan is closed based on the formula set forth in the loan contract.

Plymouth's Beth Kohmescher works on a lampshade design.

Talent found close to home

Dealers will arrive from points throughout Michigan and beyond. One of the dealers, Beth Kohmescher, will travel just a short distance to get to the event.

Kohmescher, a Plymouth resident, is participating in the Antique Mart for the first time this year. She'll be selling her lamps and lamp shades, along with a few pieces of furniture.

Kohmescher has lived in Plymouth for nearly 13 years now. She's gone to Plymouth Symphony League Antique Marts in previous years and is looking forward to being a firsttime participant in this year's event,

scheduled for Friday through Sunday. Sept. 11-13, at the Plymouth Cultural Center.

IT'S BEEN about 41/2 years since Kohmescher started making the lamps and lamp shades. About 90 percent of those she carries are antiques. She also carries a few reproductions.

"Very few. And if I do an antique show, I don't take those," she said. She takes the reproductions to craft

Although she enjoys the craft shows, the antique shows are particularly enjoyable for Kohmescher. She's found the antique shows to be a bit slower in pace.

Kohmescher's business is named The Sugarplum Cottage. She works out of her home.

"I couldn't afford to buy them," she said in explaining her reasons

Artist to appear at benefit event

By Doug Funke staff writer

Family and children mean a lot to Pat Buckley Moss, a nationally acclaimed artist.

So much so that she has agreed to appear at a dinner and reception next week in Plymouth to benefit Straight, Inc., a substance abuse program for young people.

An original watercolor painting by Moss of the Mayflower Hotel Hot Air Balloon above the Mayflower II ship in Plymouth, Mass., will be auctioned at the dinner.

Tickets for the Tuesday, Sept. 15, affair, at \$150 per person, can be reserved by contacting Terry Lorenz, benefit chairwoman, at

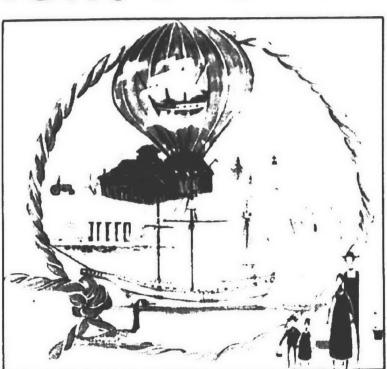

All proceeds from the auction, plus \$100 from every dinner ticket sold, will be donated to the Straight Foundation. Everyone who attends the dinner will receive a signed lithograph of the painting to be

It was all by accident. This was not planned

Before she began working on the lamps. Kohmescher had started doing wall stenciling. For a while, she did both. Although the wall stenciling was good training for the work she does now, doing both became a bit hectic

KOHMESCHER'S partner moved to Wisconsin, Kohmescher decided to continue with the lamps and lamp shades rather than with the wall

Working at home has been convenient for the Plymouth resident. She doesn't have to worry about the weather and can set her own sched-

"I can still drive for field trips," said Kohmescher, who's the mother of a 10-year-old daughter, Alexis. She's been able to be the room mother for her daughter's class.

"I can still help out at school. I can be here when she needs me. It's been

Working at home is a big help for Kohmescher during times when Alexis is sick or forgets to take her lunch to school. Kohmescher enjoys being at home and being her own boss, although it does have one draw-

"If something goes wrong, you're the only one to blame," she said with

It takes Kohmescher about 212 hours to do a lamp from start to finish. She usually works on four or five

The bases are fairly easy to put together, she's found. Cleaning some of the pottery for the antique bases, has. such as moonshine jugs, isn't always a pleasant task.

"You die at what you find inside them. I go through ammonia like

SHE RECENTLY found a beautiful pocket knife inside a jug; she was able to get the knife out intact.

After the pottery has been

cleaned, Kohmescher lets it dry.
"The wiring's basically easy." She prefers not to drill the pottery, however; the pottery is fragile and can be damaged in the process.

"I hate to lose the antique value on

For the lamp shades, Kohmescher starts with a cardboard pattern that's traced onto colored lamp shade paper. The design's usually put on the backside of the paper.

A graphite paper, similar to carbon paper but not as messy, is used for tracing Kohmescher then uses a piercing tool on the lamp shades. She uses an Xacto knife to do the cutting. some artists prefer to use manicure scissors, but she's found the Xacto knife works just fine.

The shade can then be lined. Kohmescher lines most of the lamp shades except for the fabric ones. The shades are then put on the rings and trimmed.

Kohmescher's daughter likes looking at the lamps, as do other chil-

"She loves them. They seem to fascinate the children." Kohmescher's found that men also like the lamps and lamp shades.

Sometimes, Kohmescher receives quantity orders. Like anything else, that means some pressure is on. 'It's become a business, it really

"I really don't. I enjoy doing them

The Plymouth resident loves antiques; her work allows her to buy antique items and then put them to good use.

"So this gets it out of my system." These days, Kohmescher doesn't have much trouble seeing the lamps leave once she's finished work on them. That was more of a problem when she was starting out.

"It's hard, but I do it."

Prices for a combined lamp and lamp shade are in the \$20 to \$65

Mart offers a variety of antiques

The 25th annual Antique Mart of Mart all three days. the Plymouth Symphony League will offer something for everyone.

The Antique Mart will be held Friday through Sunday, Sept. 11-13, at the Plymouth Cultural Center, 525 Farmer St. Hours will be 11 a.m. to 9 p.m. Friday and Saturday, noon to 6 p.m. Sunday.

Donation is \$2 for adults, \$1.50 for students and senior citizens.

A preview reception will be held from 7.30 to 10 p.m. Thursday, Sept. 10, at the Plymouth Cultural Center. Ticket price is \$10 per person. Wine and hors d'oeuvres will be served. (For reservations, call 455-3199.)

Those attending the preview reception will be able to buy items that evening, a silent auction will also be held at the reception. The \$10 price for the preview reception is also good for admission to the Antique

ALL PROCEEDS from the Antique Mart will benefit the Plymouth Symphony Orchestra. The Antique Mart is the single largest fund-raising project the Plymouth Symphony League sponsors each year.

At this year's event, 22 dealers will display a variety of antiques and collectibles. Primitive furniture, caned and rush seat chairs, china, ironstone, Doultons, American brass and copper will be featured.

This year's Antique Mart will also feature children's miniatures and toys, baskets, country antique accessories and Heisey glass

'We have six new dealers," said Sherri Lewis, co-chairwoman for the Antique Mart. "We are excited."

Food from Connie's in Plymouth's Old Village will be sold each day at

the Antique Mart. Sandwiches (corned beef, turkey and chicken salad), beverages (beer, wine, soft drinks, coffee), chips and chocolate cake will be available.

This is the first time deli food has been served at the fall show, said Lewis, who's working with Peggy Blaisdell as co-chairwoman. Food was served at last winter's Plymouth Symphony League antique show, held during the Plymouth Ice Sculpture Spectacular.

"That was very successful last year," Lewis said of the winter event. The winter show will once again be held this coming year.

NO SPECIFIC fund-raising goal has been set for the fall event, although those involved hope to top the previous year's total each year. Last year's three-day attendance was between 3,400 and 3,700 people.

"We're hoping for a real good crowd," Lewis said. Attendance in previous years has been steady throughout the event and has been particularly strong on the first day.

The weather could help boost attendance at this weekend's Antique Mart. The Plymouth Cultural Center is air-conditioned and is a good place for those attending the Plymouth Fall Festival to cool off, Lewis said.

A number of local residents have worked on the 25th annual Antique Mart. In addition to co-chairwomen Pegg, Blaisdell and Sherri Lewis, others are: Sue Decker, Sharon Kania and Marlene Ciofani, dealers; Cathy Kirkpatrick, treasurer: Sue Konovaliv, deli; Pam Anderson, programs and posters; Ann Talbot, hostesses; Mary Thomas, setup, cleanup and costumes; Lura Hanschu, reception; Pat McCombs, publicity.

Plymouth Inn

The Gracious Alternative

Someone you love is growing older and needs just a bit more support than he or she can get in their current living situation. A nursing home isn't the answer. Normal activities like eating and dressing aren't a problem. But you would be happier knowing someone was there to provide gentle encouragement and firm support when needed, in a non-institutional atmosphere.

The answer is The Plymouth Inn, a magnificent residence for seniors who want their independence but need some supervision as well. Consider some of the many advantages:

- Spacious mini-suites for those who desire extra comfort and privacy.
- Deluxe semi-private accomodations, richly appointed, with private lavatories and showers.

- · Easily accessible via I-96 and 1-275; only 30 minutes from both downtown Detroit and the northern suburbs, including Farmington Hills, Birmingham and West Bloomfield.
- Tranquil landscaped grounds and lovely common areas
- Three delicious meals served in our central dining room by a friendly, attentive staff of professionals.
- Extensive, varied social programs and recreational opportunities.
- · Game room, chapel, beauty parlor and lounges, all designed with the special needs of our residents in mind.

The Plymouth Inn welcomes your inspection visit. When you see what we have to offer we think you will agree that

The Plymouth Inn is a very special place where your loved one can feel secure, yet independent. We invite you to call today for an appointment.

moral perspectives

A FRIEND told me about a conversation he had with his son. My friend's son occasionally enjoys taunting another person. He wants to see whether the other will back off or will fight. The father warned his son that he could get in serious trouble because if you are dealing with a stranger he may be carrying a weapon. The son's reply was, "I can tell those kind.

The father then told a story about himself. A car cut in front of him. He had a few words for that driver. The incident ended with both he and the other driver getting out of their cars and trading some harsh words.

A Detroit newspaper recently printed the story of Ronald Ebens, the man who killed Vincent Chin. Ebens beat Chin to death with a baseball bat. Ebens is quoted as saying, "If he (Chin) hadn't started it, he'd still be alive.

The most primitive level of morality is retaliation in kind, an eye for an eye, a tooth for a tooth. Too often today we hear of an incident that reflects this morality. A person cuts in front of me with his car. I'm going to show him. I will flip on my high lights or ride up on his bumper. The reaction may occur without thinking about the results.

EACH OF THESE reactions is an escalation of violence. Wars are fought for such reasons. We need to realize that retaliation is a most primitive level of morality. We must curb our reactions by the knowledge that we do not wish to be drawn into this kind of morality.

A person wields power when they force the other party to respond in like manner. If I curse you and thereby incite you to curse me back, I have effectively exerted my power over you. If I curse you and you choose to respond in a different way then you have retained control over your response.

When we retaliate to another person's affront we are simply joining him at his level of morals. As a result our self-esteem is lowered. We are no better than the person who

"started it." The person of Christian or Jewish faith cannot respond to an attack of this kind. We acknowledge a God who is loving and forgiving toward us. If we follow this God we must relate in like manner towards others. Forgiving, letting someone pass, staying clear, these are ways to

practice a higher moral life. We must identify retaliation for what it is: a most primitive form of violence. I have heard a religious leader defend the idea of "an eye for an eye" as scriptural and right. Such people miss the centrality of love and forgiveness in our religious heri-

RETALIATION often escalates to the point where the enemy is seen as one we must be rid of. The desire to be rid of the other person ultimately leads to murder. Retaliation is usually the way this escalates, as in the Vincent Chin killing. This incident was clearly reprehensible, but the excuse of the killer is "he started it."

Our society badly needs to examine this issue. We see an increase in violence that escalates with the idea of retaliation. I believe that violence is now the No. 1 problem in our American society. We tolerate violence. We excuse violence. We make few attempts to teach our children about the causes and reasons for the massive violence we have experienced in our lifetime.

duty to address this problem. We can begin by calling retaliation what it is: a primitive form of violence.

It is our religious and our human

In addition to emphasizing the basics of reading, writing and arithmetic, educators say critical thinking is a key to success.

At Wayne State University in Detroit, new students this fall will be required to take history, humanities, social studies and science courses or pass equivalency exams testing their general knowledge in those areas. Before graduating they must pass courses or tests demonstrating their knowledge of writing, oral expression, math and computer usage.

"We're not really stating the requirements strictly in terms of courses," said Marie Draper Dykes. associate vice president for academic affairs. "Our concern is that they demonstrate the competency. We suspect many of the students will take the tests or other options to courses.'

Gary Klotz: "I think drug testing will become common and accepted as a pre-employment tool, and you are going to see some use in

some industries after accidents or in periodic physical exams."

Troy lawyer writes drug testing manual

By Carolyn Carman special writer

Alcohol and drug abuse in the workplace, along with the controversial issue of drug testing, is fast becoming a major concern of employ-

Michigan employers now can find advice and guidelines on these issues in a book called "Combatting Alcohol and Drugs in the Michigan Workplace: A Handbook for Michigan Employers," written by Troy attorney Gary Klotz.

Two years ago we had a client that wanted to do a drug testing program," Klotz said. "I researched to learn more about the topics, and my interest grew out of that."

The book, written in layman's language for the Michigan State Chamber of Commerce, was published in

"The first printing has already sold out, and we are only in the beginning of the promotional compaign," Klotz said.

"It is the only book on the issues written specifically for state employers in light of Michigan law," Klotz said.

"The book is aimed at business people and personnel officers responsible for developing alcohol and drug plans, including drug testing programs," Klotz said.

ONE FOCUS of the book is drug testing, including how and when to test and what to do with positive test

"The whole area of drug testing is fraught with potential legal hazards for employers," Klotz said.

Does he believe in drug testing? "In limited situations, it can be helpful," Klotz said.

He called it a helpful tool for personnel departments to screen out drug users from the work force and said testing current employees may have a deterrent effect on substance abuse during the workday.

Klotz says he does not believe a positive drug test can be used alone as evidence without the independent evidence of on-the-job usage like evewitness accounts, or the employee's lack of coordination and mental

"But I don't recommend it for all companies," he said. "The companies that have adopted it most frequently are manufacturing fields where there is a concern for safety on the job.

Klotz says another area where we may see more drug testing is jobs where public safety is involved such as police and firefighters, nuclear plant employees or truck and bus

"I think drug testing will become common and accepted as a pre-employment tool, and you are going to see some use in some industries after accidents or in periodic physical exams," he said.

BUT HE BELIEVES the use of random drug testing will diminish because of the legal ramifications.

"It is unconstitutional for public employees and for private employees. It is simply unfair," he said. Labor arbitrators have come to that conclusion.

The book also tackles legal and employee relations considerations

applicable to work rules regarding substance abuse, disciplinary measures and investigative alternatives to drug testing, Klotz said.

The phrases "impaired by" and 'under the influence of' alcohol are defined, as well as "impaired by" and "under the influence of" drugs.

There is also a workbook that assists an employer in assessing his/ her substance abuse policy and pro-

cedure needs. It helps an employer tailor a program of lawful and effective policies and procedures based on company needs. Some of the headings include drafting alcohol and drug rules; developing a drug testing program; policy considerations; and investigating suspected alcohol or drug in-

"The purpose of the workbook section is to guide employers in the process of establishing new policies or reviewing existing ones," Klotz said. The book also contains a series of sample policies and forms."

a preventive measure - just in case an employee, job applicant or customer is injured in some way.

HERE ARE SOME of the preliminary findings (with 2 percent of the surveys returned), from the Hotelling file:

• The first 200 respondents' insurance companies paid a total of \$2.5 million in liability claims the last two years, or an average of about \$63,000 per company per year.

• The average small-business liability-insurance premium is \$84,000 per year, based on \$4.2 million in aggregate policy charges for 200 companies responding so far.

Many small business owners

costs so much and is difficult to obtain. "In the comments section, some people want to (1) shoot all the lawyers, and (2) then all the judges, Hotelling said. "This is because they perceive the problem to be high judgments being awarded in our courtrooms today.'

• Liability is a particularly pressing problem for medical personnel and for companies seeking to guard against wrongful discharge.

'It used to be you could fire somebody and that was it," Hotelling said. But now the employer who acts hastily and dismisses an employee can lose big in court. Eighty-nine percent of wrongful discharge cases are lost by employers here.

'Until employers get smart and start dismissing employees only for proper reasons, and until medical liability can be controlled, premiums in those arenas will always be extraordinarily high."

WILLOUGHBY AND Hotelling say they expect the survey will run at least \$10,000. It was paid for through a grant from the Independent Research Business Organization of Michigan, an arm of the state Department of Commerce that underwrites research ideas in an effort to encourage them.

Hills man paces stock contest

With a little more than a month left in the National Association of Investor's Corp. stock contest, Investor's Quotient, a Farmington Hills' man was narrowly leading the pack of 879 entrants.

James Arrison's selection of Activision from the NAS-DAQ stock exchange resulted in a 167 percent gain to \$2,666 as of Aug. 27. The stock, which made up Arrison's entire portfolio, was valued at 75 cents at the beginning

The contest, in cooperation with Observer & Eccentric Newspapers, challenged readers to select a fictional portfolio worth \$1,000. Winners will be those whose portfolios show the greatest growth (exclusive of dividends) over the contest period. Deadline to enter the contest was June 28. Contest results will be based on the published closing quotes of stocks on Sept. 25.

Michael W. Lynn of West Bloomfield occupies second place. Also placing his money on a single stock, he chose Viratek from NASDAQ. The stock's value has risen 164 percent; it sold for \$11 at the beginning of the contest.

Tied for third place are Randy Pitler of West Bloomfield and Ronald Schmidt of Canton Township. Both seected the same stock at the same price - International Thoroughbred Breeders from the AMEX exchange. It sold for 11/16 and has risen 133 percent.

In fifth place is Debby DiLalla of Livonia who selected Beltauf from NASDAQ. Purchase price was 1%, and it has gained 109 percent.

First prize is a weekend for two to New York City including airfare, accommodations and a tour of the New York Stock Exchange. Three second prizes of a weekend at the Westin Hotel will be awarded. Subscriptions to Better Investing magazine, the NAIC monthly publication, and Observer & Eccentric Newspapers are the third- and fourth-place prizes, respectively.

The results through Aug. 27 were compiled by Sally Janke, an investment club member. She used the closing stock prices listed in the Wall Street Journal. Stock contest winners will be announced at NAIC's national convention to be held Oct. 14-17 at the Westin Hotel in De-

What's all the commotion about? Tape cassette learning, that's what.

The first time I was given a "boring tape tas I referred to it back then it was presented to me by a business associate who was shocked at my lack of familiarity with this popular learning tool

"It's probably the best way to that's going to require that I think arn that exists today about it." I had argued. It was bad enough that I had to read through 20 business publications a month, let alone begin using my car or Walkman as a portable classroom.

After being pestered by my associate for several days, I finally played the tape during an evening walk. I knew I was hooked when I took the long way home in order to finish listening to both sides of the cassette.

Investment Management and Research, a major brokerage firm in St. Petersburg, Fla, has some good advice for investors comtemplating investing in convertible bonds. Here are some pointers

Middle-of-the-road, hesitant investor: For the investor who doesn't ally? have a feel for the way the market is going, who does not want to shut himself or herself out of capital appreciation, but who is scared by the increased volatility of the market, table convertible securities represent a middle-of-the-road option. The yield spread between convertibles and long-term bonds (1 percent to 4 percent) is minor considering the appreciation potential

Income-oriented investor: Conover equities in that they are more income-oriented than most stocks. Changes in the tax laws have made income securities more desirable because both income and long-term capital gains are now taxed at the highest marginal tax bracket.

tion: Convertibles offer protection against loss of purchasing power. In an inflationary environment, a straight bond holder loses. With a convertible bond, the client has the possibility of capital appreciation primarily because the bond is convertible into stock.

How attractive are convertibles, re-

John Calamos, President of Noddings, Calamos Asset Management Inc., developed the accompanying

The table clearly suggests that, if conditions are right, convertibles can provide a return higher than what you may receive from a common stock. However, the conditions must be right.

In this example, convertibles vertible bonds have an advantage came into being in Nov.1984 when IBM acquired Rolm Corp., a major corporate merger, which provided the impetus for the appreciation of the convertible.

Thomas Noddings, author of Low Risk Strategy for the High Performance Investor (Probus; \$22.,50, published in 1985), studied the price Income investor afraid of infla- movement of 10 convertible issues

He found that, on average, the convertibles offered about % the upside opportunity of their common stock (77 percent vs. 100 percent) at about half the risk (-23 percent vs. -50 percent). In addition, the bonds offered a yield advantage of about 5 percent over the stock

How to buy them

Most convertible bonds have a par value of \$1000 at a maturity and are listed on the major exchanges. They are listed in the bond tables published in newspapers with the notation "cv". However, in order for you to find out how many shares of stock each bond represents, you would either have to call your stockbroker or consult such statistical reports as Lipper Analytical Services, Weekly Convertible Analysis Report, or Val-

ue Line Convertibles. Usually, it costs less in commissions to buy the bonds than the underlying stock, but there may be a transaction charge when you convert the bond into

Mutual funds are another alternative. Until 1984 there were only four mutual funds offering convertible securities. Lipper Analytical Services now follow 24 mutual funds that concentrate on convertibles.

An important warning

Convertible bonds are complicated investment vehicles. Therefore. careful analysis must be undertaken to select those which have the best combination of stock and bond characteristics. Even more important, only your financial planner can determine if a convertible belongs in your investment portfolio. Consult an informed financial planner today IBM common vs. convertible

Liability rates plague business

Willoughby helped guide the survey to lead to what he hopes are insights into the so-called liability insurance crisis from the small business owner's point of view specifically, whether liability insurance is available and if so at what

The Willoughby-Hotelling vantage points are different, resulting in a survey covering a wide spectrum of

Willoughby teaches OU students how to manage a small business and how it succeeds or fails. Hotelling is a lawyer with a doctorate in economics.

Willoughby says liability costs in the U.S. are too high, and liability insurance is too hard for small companies to acquire. But sometimes they have nobody but themselves to

"Part of the reason, I suspect, are the enormous numbers of frivolous lawsuits that are filed out of ven- cause.

geance or principle," he said. "People try to work out their problems with companies they purchase goods from, and when they don't proceed through the right avenues and become frustrated, they realize a lawsuit is the best way to get a company's attention. And it usually does."

HOTELLING IS concerned with finding solutions to the liability insurance crisis gripping Michigan's small businesses. Unlike Willoughby, it is Hotelling's belief that the insurance companies are at fault.

"Liability is not a new problem. Rates have gone up in waves, I think, because insurance companies investments have gone down," he said. "The study should give us an inkling of whether poor investments or the awarding of huge judgments against small businesses is the reason for these high premiums.

"I think high judgments are the

N A BIG METRO AREA, it's rare for a person to have the same good neighbors for more than 25 years. It's really rare for a radio personality to stay on the air in the same metro area doing the same radio program for more than

Genteel and eloquent radio personality Bob Allison of Bloomfield Township is that rarity. For more than 25 years, he has been hosting "Ask Your Neighbor," currently heard every weekday from 10-11:30 a.m. on WEXL (1340 AM), Royal

"Ask Your Neighbor" is much more than a simple information program with a talk show host listening to callers.

"It is essentially an electronic back fence or an electronic coffee klatch," Allison said at a recent informal interview over lunch. "We have a very huge living room in which everybody wanders in and out every day and has coffee and talks with old friends."

The format has changed little from the day it premiered - Feb. 25, 1962, on WWJ. Allison is the neighborly host, who talks with callers from all over the metropolitan area, covering "common household problems and recipes."

"THE CALLERS are the experts, and the questions come from the callers. So the host sits in the middle, and the caller asks a question of how to do something, where to buy something."

"It is very gentle, very unassuming." He smiled and chuckled. "It's very . . . I don't want to say it's oldfashioned because it's not . . . but it takes you back to a slower time in life when people weren't running so that they could wait for five min-

One change with the format over the last few years has been the addition of short segments with experts, such as writer and food detective Gloria Pitzer, handyman Lon Grossman, medical experts from the Vision Institute of Michigan and attor-

The show also offers listeners a six-page newsletter, "Menu Minder," which comes out once a month and in June 1985, where it has been features recipes and household hints since.

Allison is always asked if he is the "Bob" in Bobson Construction Co., the oldest sponsor of the program. He is not. Bob Miller is.

"I GO OUT and check all the advertisers and make sure they're good people and that I like them and that I think they will do a good job. And if they don't, we get them off the air. We're one of the few stations that still shows some integrity about who can buy time. That's unusual in the broadcasting business."

Through the years, Allison has gained many loyal listeners and callers, such as Great Grandmother Helen, Sunny, the Cheesecake Expert; and Helen, the Cookie Lady. Allison said that no one has yet overstayed the welcome by calling every day or monopolizing the program. Allison doesn't rush his callers, however. "We have the time to develop things. And we do. We develop per-

"This is the best audience in all of broadcasting - forever - because they really go out of their way to help everybody." Allison said. "The gentleness and the kindness of these people is overwhelming."

Listeners don't call only to talk about problems. "A lot of people call up because they just really do want to talk. They don't have a problem, they don't have a question, they don't have an answer. They really just want to talk with somebody for a while. There's nothing wrong with

"The human being is alone in a major metropolitan market."

RADIO LISTENERS almost lost "Ask Your Neighbor" in 1978 when WWJ changed formats. But Allison was convinced to carry on with the program in a new way. He formed a corporation, sold commercial time to advertisers who had been pleased by what the show did for them during the last 16 years, and bought an hour of time each weekday on WIID (now WCAR), Garden City.

Allison was doing better than ever. The show became simulcast on WBRB, Mt. Clemens. four years. Then, "Ask Your Neighbor" moved to WLQV (now WCZY) for three years, and then, to WEXL

Doug Vergari is one of several outstanding runners at Salem, but the Rocks need to develop more depth to complement their top talent.

Chiefs boast quality depth

By Dan O'Meara staff writer

Depth is a key in any sport, but its importance always seems to be most

obvious in cross country. One team might have one or two outstanding runners who can always be expected to finish at the top, but that team is usually at the mercy of

an opponent with better balance. That was the case Tuesday as Plymouth Canton placed six runners between the Nos. 2 and 3 runners for Plymouth Salem and defeated the Rocks 25-36 in boys cross country at Cass Benton Park

Bill Atwell and Doug Vergari gave the Rocks first (17:12) and second (17:33) places, but the Nos. 3-8 spots belonged to Canton runners.

AS EXPECTED Jay Swiecki paced the Chiefs, being their first runner across the finish line in 17:48. Swiecki, a senior co-captain, continued his early-season progress and is just 17 seconds off his best time of a

He and fellow senior and co-captain Al Byrnes are the key figures on a Canton team that was 7-1 in dual meets and won the Western Division crown in the Western Lakes Activities Association.

"The reason we were successful was our depth," Canton coach Jim Hayes said. "Jay and Al are going to be our leaders, but we have a nice group of five-six kids.'

The Chiefs graduated Bart Hall, Dean Juergens and Ron Ziemba, but they have 10 runners back with varsity experience.

SENIORS BOB Beebe, Chris Way. Bob Mayes and Kurt Roessler, juniors Brian Callon, Jim Gallagher and Brad Hibner and sophomore Matt Hall provide Canton with plenty of

cross country

Hall is 24 seconds away from his best time of a year ago, Beebe ran seven seconds faster than he did last year and Callon, who had a knee op-

eration late last year, turned in a time nearly 14 minutes better than his '86 best. Roessler may be the biggest surprise of all. He is a ways from his

personal best of 17:39, but he began this season with knee trouble and was behind the rest of the veteran runners. However, he has made rapid progress in a short time.

"OUR GOAL is to get eight-nine guys running with our third guy." said Hayes, hopeful the Chiefs can repeat last year's success.

'Our season is going to be typical of Canton, and that's hard work and continued improvement from the three runner on down. Of course, we don't want to lose a Jay or an Al.

"We should be fine," he added. These kids work awful hard. You don't get successful by just wishing. The race is too long.

"We're going to be right there (in the division race). Last year we won a few close races, and the opposite could happen this year. It's that

ATWELL WAS Salem's top runner last year and will be again, with a chance to break his school record of

"He'll be pushing that again," Rocks coach Geoff Baker said. Atwell also was 22nd in the Class A individual race

Jay Swiecki figures to be Canton's top runner in most meets this fall. The Chiefs have a host of others to support his efforts.

Victory was anticipated by Chiefs — but 63-12?

By Bill Parker

Everyone at Plymouth Canton assumed the Chiefs would beat Willow Run Saturday night in both teams' varsity football opener, but no one thought Canton would crush the Flyers as they did.

The Chiefs scored a school record 63 points en route to a lopsided, 63-12 victory.

"It was real good to start this way," said Canton coach Bob Khoenle. "It's always nice to start the season with a win. I've been here 11 years, and I've never seen

this many (points). Overall the Chiefs totaled 473 yards, including punt and kick returns. On the ground, the offense churned up 193 yards while the aerial attack netted 76.

SENIOR halfback Roger Trice scored three touchdowns and rushed for 92 yards on eight carries in pacing the offense, and he also returned a punt 65 yards to paydirt. Including rushing, punt and kickoff returns, Trice had a 212-yard night.

'(Trice) put some real nice moves on those kids," said Khoenle. "He has so much natural talent.

"He has good speed and good feet. He's just a natural runner. We have some other good runners on the team. but Roger is the guy that sparks us.'

Senior halfback Joel Riggs is one of those other good runners. Riggs carried four times for 34 yards and scored on a 9-yard run from scrimmage and a 60-yard

THE CHIEFS took control early, scoring the first 28 points of the game.

Trice scored on the sixth play, staking Canton to a 6-0 lead. After the defense stopped Willow Run in three plays, Trice returned the ensuing punt. The defense again stopped Willow Run, and this time

Riggs returned the punt. On Willow Run's next drive, Canton's Mike Flynn recovered a fumble at the Flyer 25. Five plays later Scott

SOPHOMORE place-kicker Mike Krejcar added the PAT each time as Canton marched up and down the field at will.

football

The Flyers scored on a 40-yard halfback pass midway through the second quarter, but an attempt at a twopoint conversion stalled at the line.

Trice danced in untouched from 2 yards out on the Chiefs' next possession. Defensive tackle Jim Crews then recovered a Flyer fumble at the Willow Run 12, setting up Trice's final TD of the game. Krejcar's PAT made it 42-6 at the half.

The second string took over in the second half.

WILLOW RUN scored its final points of the game early in the third quarter on a 19-yard pass.

Moments later, after Riggs returned a punt 36 yards to the Willow Run eight, junior halfback Kevin Stackpoole plowed in from the 2-yard line.

Backup quarterback Scott Swartzwelter added a 10yard TD early in the fourth quarter, and Stackpoole scored his second TD of the evening on a 4-yard dive

with just seven minutes remaining in the game. Krejcar was perfect on seven extra point attempts while backup place-kicker Sam Trajcevski added two of

THE DEFENSE also dominated Willow Run, limiting the Flyers to 152 yards total offense.

The Flyers were forced to punt four times, lost the ball twice on fumbles, were intercepted by senior linebacker Brian Detrich and lost the ball on downs three times. They scored twice in just 12 posessions.

We like to think our defense is strong and it's going to get better," said Khoenle. "The mistakes we made are correctable. We got caught on a couple long passes, and that may be because the score was so lopsided. Maybe the kids just got a little lackadaisical."

The Chiefs will have their hands full Friday when they play host to seventh-ranked Westland John Glenn. "Glenn is a good, solid football team," said Khoenle. We're really going to be put to the test.

"We plan to go after them and beat them. We'll have to play good ball, but that's what we're hoping to do."

Bullets win under-16 soccer title

The Livonia Bullets blanked four opponents last weekend en route to the Girls Under 16 Division title in the Bay Village (Ohio) Challenge Cup.

Browne did the honors from 9 yards out.

The Bullets, members of the Illitch Division of the Little Caesars Premier Soccer League, defeated the Troy Blue Streaks for the crown,

They reached the final by defeating host Bay Village (10-0), Windsor, Ont. (2-0) and the Livonia Panthers

Goalies Dana Keller (Livonia) and Raschelle Jager (Burton) combined on the four shutouts.

Other members of the team include Denise Raphael, Lori Place, Francesca Priebe, Stephanie Speen, Christina Garry, Alyssa Belaire and Lori Godlewski, all of Livonia; Carrie Bowler, Redford, Michelle Geyer and Susan Gibson, Farmington Hills; Amy Goode, Karen Cavanaugh and Michelle McQuaid, Northville; Natalka Litkewycz, Brighton, and Mia McGinty, Dearborn.

Five of the six Livonians are freshmen at Churchill High School.

The Bullets, coached by Dennis Place, will travel next month to the Washington (D.C.) Area Girls Soccer Tournament.

THE WOLVES '77 boys soccer team, coached by Rick Hamers, captured a Labor Day Weekend International Soccer Club by blanking five straight foes in Akron, Ohio.

A PLYMOUTH HIGH SCHOOL FLASHBACK

In September of 1970, Plymouth Salem football coach Tom Moshimer moved a journeyman tailback Greg LaMirand, a 6'1" senior, into the starting quarterback position. Against rival Northville High in the opening game of the 1970 season, LaMirand, making his first start a Varsity QB threw 3 TD passes to glue-fingered 6'4" senior Charley Wolfe. That performance plus the durable running of Capt. Ed Scott, Don Chopp and Carl Huter enabled Plymouth to blitz Northville 36-8 and capture the Silver Bell emblematic of football supremacey in the rival between the two teams. It also marked the last time ever the Silver Bell was up for grab.

Exercise care with bad knees

Dear Myrna I'm doing non-impact aerobics because I have knee and joint problems which I need to guard carefully. Frequently I throw my knee out of place and have trouble walking and climbing stairs. Should I still continue to exercise?

My dear, you say you have trouble walking and climbing stairs and still want to exercse? What a dedicated exerciser you are!

If you had trouble walking into my studio, I certainly would advise you not to exercise. In fact, I might offer to drive you straight to the doctor's

I can appreciate your concern to continue to exercise Non-impact aerobics is the exercise solution for your knee problem.

The knee is one of the most mobile joints in the body. You can bend your knee 150 degrees, which makes it probably the joint most vulnera-

When the knee is fully extended, it is like a stick. It it totally stable. When it bends, it has lots of play in it - from back to front and from side to side. There are at least five places where the knee can be injured the cartilages, the ligaments, the muscles around the knee, the knee cap and the knee cap tendons

The knee is the junction of the upper leg bone (femur) and the lower leg bone (tibia). These two bones are held together by a series of tissues

Not only is the knee a meeting palce, but also a hinge and lever joint. Our knees really should be treated with tender loving care, but most often are not.

I am sure the doctor will prescribe either physical therapy or show you specific exercises which will strengthen the muscles around your

GOV. BLANCHARD has declared the week of Sept. 13-19 as Conservation Officer Awareness Week. It coincides with the centennial of the Michigan Conservation Officer.

On March 15, 1887, then governor C.G. Luce appointed Grand Rapids resident William Alden

Smith as Michigan's first game and fish warden: Through that appointment Michigan became the first state in the union to employ a full-time, paid game and fish warden. Although the first game laws were enacted in Michigan in 1859, up to 1887 they were enforced by sheriffs and local constables. Upon his appointment Smith appointed 143 deputy wardens who were paid by the counties they patrolled.

In those early days game and fish wardens received complaints through the mail and responded by foot, horseback, buggy or train.

In 1921 the Conservation Department - forerunner to the Michigan Department of Natural Resources - was established, and there were 160 full-time game wardens. They each covered areas of about 600 square miles and were paid \$2.50 a

Second-year coach George Przygodski's team has yet to run against its division rivals in the Western Division of the Western Lakes Activities Association, but Canton already is 3-0 in dual meets, having defeated Plymouth Salem and Ypsilanti in a triangular meet Tuesday at Cass Benton Park

The Chiefs have everybody back from last year's team, too, and will once again be led by sophomore Lori Penland, who took first place Tuesday with a 21:15 time.

'One of our goals is to win the dual-meet championship," Przygodski said. "That's what we shoot for every year, and, when you have as many girls as we have coming back, I think we have a fair chance of doing that.

"AND, WHENEVER you have a successful program, you have a chance to win the conference championship, and that's one of our goals,

Others who will play important roles and provided scoring help Tuesday are junior Linda Schendel (third, 21:58), senior Angie Miller (fifth, 22:57), sophomore Cathy McCabe (sixth, 23:03) and senior Sherry Sweeney (seventh, 23:09).

Penland will again be the team's No. 1 runner, and Schendel, a firstyear runner who was fifth best in the WLAA two-mile last spring, has demonstrated her capabilities.

MSU's Krumm recovers from early miscue on punt

staff writer

It was a moment Todd Krumm had long awaited

His Michigan State football team took the opening kickoff and marched 65 yards for a touchdown against University of Southern California Monday at Spartan Stadium. Then Krumm and his defensive mates took to the field and stopped the Trojans without a first down.

Momentum, which sided with the Spartans before the opening kickoff, was mounting even more in their favor. As Krumm dropped back to receive the USC kick, he knew they could build an early advantage so great the Trojans might never regroup.

There we are, playing on national TV," Krumm said later. "everyone watching, a big game.

SO WHAT HAPPENED? Krumm couldn't say for certain, but he sure didn't do what he was supposed to do. He never really fielded the punt. It slipped through his outstretched hands and bounced away and was recovered by USC's Tracy Butts at the MSU 21. Six plays later the Trojans had narrowed the gap to 7-3 on a 23vard Quin Rodriguez field goal.

Whatever momentum the Spartans had gained on their opening drive seemed lost, thanks to Krumm's bobble. Such a mistake might have knocked the selfconfidence out of a lesser player. Krumm, though, reacted quite differently

"After I dropped that first punt," he said, "I settled down. I realized everyone makes mistakes."

The senior free safety made few after that. He spearheaded a Spartan defense that bottled up USC, limiting the Trojans to 61 yards rushing and six points until the game was a sure win for MSU.

Krumm's performance after his early fumble was strong enough to prompt Spartan coach George Perles

to say, "With that big interception and the number of tackles he had, I'd have to say Todd Krumm was another of our defensive stars.

KRUMM MADE several key plays, but two that stood out robbed USC of touchdowns. Early in the second quarter with MSU ahead 10-3, the Trojans were at the partan 5-yard line. Quarterback Rodney Peete dropped back and fired a pass for Randy Tanner in the right corner of the end zone, but Krumm reached out and knocked the ball down. USC had to settle for a field

The West Bloomfield grad then washed out any hopes the Trojans might still have entertained in the final quarter. Peete drove his team from the MSU 43 to the 11, where on first down tailback Scott Lockwood took a pitchout and drifted back for a halfback option pass.

Krumm knew it was coming. "They ran that play every single game last year," he said. "For a free safety that's an easy read."

Krumm slid in front of the receiver Lockwood was throwing to, Erik Affholter, and picked off the pass. The threat was over.

After his shaky start, Krumm finished well. He had six tackles (five solos) and showed he deserved his nomination as a candidate for the Jim Thorpe Award, presented annually to college football's top defensive back. Krumm is one of 29 players so honored; midway through the season, that list will be trimmed to 10.

Should Krumm - who was also drafted by the New York Mets last spring and is still strongly considering a pro baseball career - be honored as the nation's top defensive back, he'll have earned it. Against USC, Krumm not only played every down defensively and returned punts, but covered kickoffs as well.

"I don't think I left the field," a very weary Krumm said afterward. "I'm going to feel it, I'm tellin' you." But probably not as much as the Trojans.

Rice grad opens holes for MSU ball carriers

By C.J. Risak staff writer

Moments after Michigan State had dominated University of Southern California in both teams' football season opener, witnessed by a crowd of nearly 78,000 and millions more on national television, Spartan coach George Perles matter-of-factly recited the reasons for the victory

"Lorenzo (White) ran for over 100 yards, Blake (Ezor) ran for more than 50 yards, Bobby (McAllister) ran for more than 60 yards. he said.

It was a key statistic. A year ago, the Spartans were unable to mount a consistent running attack. mainly because White - a preseason Heisman Trophy candidate was hobbled by injuries. It showed in the cumulative first quarter scoring in '86; MSU was outpointed

On Monday, MSU outgained the Trojans on the ground 238-61. And the Spartans outscored them, 10-3, in the first quarter.

Without doubt, if MSU can assert itself offensively early in its games, it will have a successful season. And to establish itself earfootball

ly, the Spartans must run the ball effectively.

"I KNEW we could run." said the newest starter on the MSU offensive line. Indeed, Bob Kula - a 6foot-41/2, 269-pound West Bloomfield native and Birmingham Brother Rice grad - was the only newcomer on the offensive front.

Monday's nationally televised game was not the easiest stage on which to debut. "It was different," Kula said. "But I calmed down after the first hit and played my

Kula and his teammates knew how important it was to get off to a good start against USC. "We wanted to drive, drive and score," he said. The Spartans did just that, going 65 yards in nine plays following the opening kickoff. They never did trail in the game.

"Everything was working well," said Kula, who earned himself a

starting role in the spring. "After spring ball, I spent a lot of time in the weight room," he said. "A lot of time. And I did a lot

of running."
The sophomore's work paid off, he increased his weight from 258 to 269, and his bench press went from

AND YET, there's more work to be done. "We've got a great team," said Kula, then added, "But the biggest time for improvement is between the first two games. The next game (Sept. 19 at Notre Dame) I'll know what to expect. I won't be as nervous."

If Kula was intimidated at all against USC, it didn't show - during or after the game. Asked if any of the Trojans impressed him, like linebacker Marcus Cotton, an All-America candidate, Kula replied:

'He didn't impress me at all. He's just a big talker. I think we got his goat early on."

Should MSU's offensive line continue to assert itself like it did against USC, it will be leaving lasting impressions throughout the Big

OU sports

Before the start of the season, Oakland University's soccer team was supposed to be strong defensively (all but one starter back), but inexperienced offensively (top three scorers gone).

And going into last weekend's Lock Haven (Pa.) Invitational, the Pioneers were expected to have the biggest problem with the host team.

Course, that's why they play these garies. OU's defense, weakened by irjury and a questionable red card to senior starter Brian Fitzgerald (of Southfield), was victimized by East Stroudsburg in Saturday's opener 3-2. The Pioneers rebounded with a strong defensive effort against Lock Haven Sunday, forging a 0-0 tie.

In the loss to East Stroudsburg, OU played a poor opening 15 minutes and it cost them a goal. Ken Wilson got it - his first of two with Brent Festenmacher assisting.

The Pioneers evened it with just

1:03 left in the opening half. Earl Parris crossed the ball to Alan Stewart, who chipped it to freshman Sel Eren for the goal.

OU was playing without starting defender Mikael Carlstrom, who pulled a hamstring muscle in the opening half. The Pioneers then lost Fitzgerald midway through the second half when he was given a red card for taking down an East Stroudsburg player roughly. Fitzgerald did not get a yellow card.

It took East Stroudsburg just 35 seconds to capitalize on its man advantage, and again it was Wilson doing the damage. This goal came after a throw-in to Festenmacher. whose shot rebounded off OU keeper Vince Aliberti to Wilson, who con-

The game appeared headed for overtime - until, with just 1:58 left, Festenmacher got off a hard shot. OU defender Matt Parkovits deflected it, but the ball went in for the game-winning goal.

The trouble is sometimes we think we know what that is even better than our children do. So when our son first told us he wanted to be a priest, we were surprised, to say the least. Disappointed. Even a little angry. It was all we could do to let him go off to Sacred Heart Seminary, thinking in time he might change his mind

Visiting Livonia Franklin put up a battle Saturday, but couldn't get past two off punts Lansing Sexton in a non-league season football opener for both schools.

Tailback Alan Haller, who rushed for 125 yards on day, scored on a 7yard touchdown run with 9:30 left in the final quarter to give the Big Reds a 21-14 triumph.

Turnovers figured prominently in the scoring.

Greg Panzl, a Franklin standout defensively all day with four solo tackles and 12 assists, recovered a fumble and rambled 21 yards to give the Patriots a 7-0 first-quarter lead.

Sexton answered with a pair of TDs, the first set up by a Patriot fumble on their own 24. Sexton quarterback Garvey McIntosh capped a short TD drive with a 1yard plunge.

The Big Reds then intercepted a pass and benefitted from a roughing penalty, putting the ball on the Franklin 11. Sexton's Wayne Harris then rushed 8 yards for a score to give Sexton a 13-7 lead. (Panzl blocked the extra point.).

Franklin, however, grabbed a 14-13 halftime lead on a 3-vard TD run by Brian Drabicki. The score was set up by Craig Allard's 42-yard pass to Brian Whalen.

Franklin made a goal line stand at GASS the 4 in the final quarter, but Sexton. helped by a short quick kick on third down, marched 39 yards for the winning TD.

"We were in the ballgame, but they dominated the game," said Franklin coach Armand Vigna, whose team was outgained in total yardage, 245-107. "We had little offense and our defense was on the field too long. We gave them too many opportunities. John Glaza was our only lineman who was effective offensively or defensively.

Westland Federation reached the gold medal game Monday of the Junior Olympic Super Series (15- and 16year-olds) before succumbing to hard-throwing righthander Marc Pisciotta and his Marietta, Ga., teammates. 6-0

The first baseball tournament, pitting three national champions and a group of all-stars from host Youngstown. Ohio. was sponsored by the U.S. Baseball Federation and Oscar Mayer (The tournament was played at Pemberton Park)

Pisciotta, who started and paced Marietta to the 1983 Little League World Series title, the last time an American team won it. was virtually unstoppable.

Westland, which qualified for the tourney by winning the American Amateur Mickey Mantle World Series last month, could muster only two hits against the imposing Marietta hurler.

The 6-foot-5 ace, who led Marietta to the 1987 Pony League Colt Division crown, struck out 13 Westland hitters en route to his second Super Series win. The only hits he allowed were to Catholic Central High's Leo Hutchinson, the losing pitcher, and Westland John Glenn's Jerry Koester.

"I'VE BEEN TOLD he (Pisciotta) is the best 16-yearold pitcher in the nation, and I kind of believe it," said Westland manager Jerry Pitcher. "When the game started he was throwing between 87 and 90 mph. 'He's legitimate

Marietta scored twice in the first inning and added three more in the second, thanks to three Westland errors, to put the game away.

Rusty Umphenour, who led Marietta with three hits, had the game-winning RBI in the first inning. The Super Series began Friday with Westland

outslugging the host Youngstown Bees, 17-9. Kevin Rogers (also of CC), Jimmy Bell and Bill Bannon (Livonia and Divine Child High) each had three hits

in a 14-hit Westland barrage. Westland broke a 5-5 tie by scoring seven times in the

third inning, all coming after two were out. Westland

baseball

then added more insurance, scoring four times in the sixth.

Hutchinson, who pitched for the second straight day, got credit for the win

IN SATURDAY'S second-round game against Phenix, Ala., the Dixie Youth World Series champs, Westland lost a heartbreaker, 4-3.

Bryant Satterlee (Glenn High) led a seventh inning Westland comeback, blasting a two-run double, but he was called out on a Phenix City appeal for missing the third-base bag. Satterlee had taken third and raced home on an overthrow, but the game-tying run was nullified. (Westland's Pitcher was ejected from the game protesting the call.)

Westland hurlers Paul Pencak, Ken Hendrian and Brian Burger allowed only five hits, but the trio combined to give up 13 walks.

Jeff Edmonds was the winning pitcher and Pencak was charged with the loss.

On Sunday, Westland fell to Marietta in the roundrobin finale, 8-5, but qualified for Monday's gold medal game despite a 1-2 record. With Phenix City and Youngstown also at 1-2, Westland gained the right to play in the title game thanks to a tiebreaker format based on run differential.

IN THE INITIAL meeting on successive days against Marietta, Westland jumped out to a 3-1 first-inning advantage thanks to RBI singles by Rogers and Bell.

Westland scored two more in the bottom of the sixth on a solo homer by Satterlee and an RBI sacrifice fly by Bannon, but still came up three runs short.

Rob Doherty was the big gun for Marietta, collecting three hits and scoring three times. Umphenour added a two-run homer to help hand Burger the loss.

Falcons remain strong despite loss of star duo

By Dan O'Meara staff writer

The big-name runners have graduated, but no one should expect Farmington to drop from the ranks of Class A powers in boy's cross country this fall.

Those who are knowledgeable in the sport aren't counting out the Falcons, who were runners-up in the state last year and have won the last three Western Lakes Activities Association titles.

All-American runners Chris Inch and Al Stebbins are competing at the collegiate level now, but Farmington returns a strong nucleus from a squad that also won its second and third consecutive Schoolcraft Invitational and regional championship.

The Falcons demonstrated their 17:14. intention to uphold that tradition Tuesday by whipping Southfield-Lathrup (20-43) and Berkley (16-47) in a double-dual meet at Southfield's Bedford Park

State may seek comp pay reimbursement

ruled a Michigan state fund created to pay benefits to injured workers has the right to seek reimbursement of benefits it pays to workers who recover personal-injury damages from third parties.

the Michigan state fund - known as the Second Injury Fund - may seek such reimbursement under a 1984 Michigan amendment, even though the man injured in the case was hurt in 1981, prior to the amendment.

The unanimous ruling by a threejudge panel of the 6th U.S. Circuit Court of Appeals reversed a decision by a U.S. District Court in Detroit in favor of plaintiffs Frank LoPiccolo of Warren and his wife, Marion.

AP - A federal appeals court the Second Injury Fund could not the employee's injury seek reimbursement of compensation damages it had paid to LoPiccolo, even though LoPiccolo was pursuing damages from other parties for his personal injury.

Frank LoPiccolo was injured in The court in Cincinnati ruled that February 1981 while unloading a railroad car at his Detroit employer, Safran Printing Co.

The LoPiccolos sued in November 1981 to recover damages from the shipper, Consolidated Rail Corp.; the rail car's owner, Burlington-Northern Railroad Co., and Blandin Paper Co., producer of paper rolls which LoPiccolo was unloading when he was hurt.

THE DEFENDANTS had the case moved into federal district court, where the Michigan state fund sought reimbursement. When the district court ruled against it, the fund appealed to the 6th Circuit.

LoPiccolo filed a 1982 petition for employer and differential benefits with the Michigan Bureau of Workmen's Disability Compensation against Safran Printing and the state fund, alleging that he was totally and permanently disabled. Safran and the fund agreed in 1984 to begin those payments.

The state fund paid \$14,110 in accrued payments to LoPiccolo in November 1984 and continues to pay weekly differential benefits of \$159.40, according to court records.

Attorneys file appeal n auto dealers case

- The federal government has appealed a judge's dismissal of charges that Detroit-area car dealers consipired to limit showroom The Detroit Auto Dealers Associa-

tion had been accused of conspiring to regulate its profits and limit comparison shopping by closing showrooms on Saturdays, Sundays and most weeknights.

Federal Trade Commission attorneys, who brought the case in 1984, wanted Administrative Law Judge James Timony to order dealers to open their showroom on Saturdays.

Timony dismissed the charges July 21, saying an agreement among dealers setting showroom hours stemmed from a labor dispute involving salespeople and therefore was exempt from anti-trust laws.

For more than a decade, the dealers "denied to Detroit-area consumers the benefits of longer shopping hours enjoyed by consumers in virtually every other major city in the United States," government attorneys said in the appeal filed re-

'I think this appeal is a case of bureaucratic actions ignoring reality. I have no doubt the commission should uphold Judge Timony almost as a rubber stamp.'

> - Roy Hunsinger, attorney for auto dealers

The attorneys said the judge ignored evidence demonstrating that the dealers' practice is unlawful and harmful and that consumers eventually paid for the restrictive hours in the form of higher car prices.

The dealers "did not lower their prices by passing on to consumers the cost savings they gained by closing their stores at the agreed-upon time," the appeal said.

Ernest Nagata, assistant director of general litigation for the FTC in

Washington, said the dealers association will have 30 days to respond to the appeal. FTC attorneys then will have a week to submit a rebuttal before a hearing is scheduled before the FTC, which can either uphold the decision or issue one of its own.

"I think this appeal is a case of bureaucratic actions ignoring reality," said Roy Hunsinger, an attorney for the auto dealers. "I have no doubt the commission should uphold Judge Timony almost as a rubber stamp.

'Homes, Homes on the Tour.

The Marshall Historic Home Tour will feature the Tom and Lucy Franke home, "Oak Hill," (Italian Villa, 1858). It is listed in both the His-

toric American Building Survey and the National Register of Historic Places.

WO HISTORIC home tours promise excitement and interest for the next two Sunday afternoons.

One is the Marshall tour, set for this weekend, and the other is the Old West Side Association tour in Ann Arbor, scheduled

for Sunday, Sept. 20.
Seven homes, three commercial restorations, and four historical museums, all built between 1839 and 1933, will on display for the Marshall Historical Society's 24th annual

tragrance bowl

BOWLS a home can never have enough. We're not talking salad bowls here, we mean extraordinary bowls that become functioning statements of fashion, personal taste, style and hand craftsmanship.

Bowls are back as an important accessory — on tables, on shelves, on the piano, at the entrance or exit, filled with things or as an object of visual pleasure, they're a must.

- The floor bowl is the perfect accessory with contemporary leather furniture. Hand crafted in the centuries old Indian tradition, the Shipibo bowl is entirely hand-made resulting in a unique character, making it an appreciated collector's item \$725. Gormans Gallery, Southfield.
- The reception bowl has undergone a metamorphosis from a little candy dish to a stunning architectural, handcut clear glass bowl. We filled it with chocolate kisses — but not for long. \$166. Ilona And Gallery, Farmington Hills.
- The fragrant bowl finds itself all over the house, wherever subtle, wafting fragrance adds a high note and the elegance of a carefully crafted, large bowl filled with fragrant petals is needed. Crystal bowl by Mikasa \$18.97. Wells Freight & Cargo, all stores.
- The decorative, brass trimmed Majolica bowl is adorned with handpainted birds, flowers and fans. It seems a shame to put anything in it, but when not dressed for company, it's handy for paper clips, coins, stones, shells and whatever. \$410.50. Jeff Fontana Designes Inc.
- And, lastly, the most functional bowl of all — the bathroom sink in an extraordinary Limoges procelain, handmade, hand-painted and trimmed in 24karat gold. We know what you're thinking — it is the ultimate for the throne room. Matisse design procelain sink, \$630. Russell Hardware, Birmingham.

condo queries Robert M. Meisner

I have read your column in the observer and am a member of a housing cooperative with an autocratic board of directors who feels that members have "no need to know" of the organization's financial activity. Repeated requests (oral and written) for annual financial statements have been ignored. Can you please advise as to what course of action I may take?

Check your documents to determine whether the board of directors is required to provide financial information to a embers of the associattor. If that is the case and your efforts have failed, you should contact an attende; and seek a court order requiring the cooperative to provide you with the financial information requested.

It it is government financed or side dized, you may also wish to conat FHA or suct other government entry involved requesting similar mormatier ! would also make a demand on each board member to comply with this request, advising them that you will hold them personally responsible for the costs and attorney tees incurred in protecting your rights as a member of the cooperative association Good luck.

Seeing your advice in the Observer & Eccentric concerning urea-formaldchyde. I questioned whether we would have a claim against the

seller, even though the house was sold eight years ago, since we just found out about the problem recently. Do you have any comments?

If the seller knew or should have known about the defective condition of the house, whatever be the nature of the same, and concealed it and did not otherwise advise you of such condition, the seller may be hable to you for misrepresentation. The fact that the detect was latent and could not have been discovered by you on reasonable inspection, may stop the statute of limitations for money damage against you.

Therefore, in a case of urea-formaldehyde insulation or the like where you would not necessarily know about that condition until the walls were torn out or other testing was done, you may have a basis to pursue the seller for misrepresentation, despite eight years having elapsed You should consult with a competent real estate attorney in that regard.

Robert Meisner is a Birminghum attorney specializing in condominiums, real estate and corporate law. Questions should be directed to him at 30200 Telegraph. Suite 467, Birmingham 48010 This column provides general information and should not be construed as legal opinion

THE IMPORTANCE OF LOCATION |

Any Realtor will tell you that the three, most important factors concerning the value of a house are "LOCATION, LOCATION, and LOCATION" Unfortunately, most home buyers ignore this important advice

Location is especially

vital when buying a house for maximum resale value Statistics say that you will Statistics say that you will be reselling your home long before the final mortgage payment is in the mail. Therefore, take a long, hard look, not only at the present, but the future prospects for the community and immediate neighborhood. Select a location where raw land and house values.

raw land and house values have an increasing price trend. Especially check into the zoning laws for any unfavorable change which could cause a depreciation in the value of the neighborhood and the resale price of your home in the near future. Remember — you can remove, replace or remodel a house, but you can never change the location. So choose carefully

If there is anything we can do to help you in the field of real estate, please phone or drop in at KENNELLY REALTY - 19500 Middle-belt - Ste. 201 E, Livonia, MI 48152 - 471-0404. We're here to help!

he New Breed

"I never saw anything like it. Handsome. distinctive buildings on terraced land, full of intriguing angles and architectural detail. A complete change from that old 'row-house' look

Every apartment has its own private entrance. unusual layout, and surprising extras like a washer and dryer, vertical blinds, full kitchen with dishwasher, and plenty of closet and storage space.

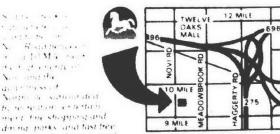

Some even have cathedral ceilings, oversize patio, and a large eat-in kitchen.

Hook out onto lush woods and ponds a jogging path . . . swimming . . . tennis and a comfortable clubhouse with exercise and aerobic rooms.

It's not just a place to live; it's a place I love coming home to. You'll see what I mean."

Create with color Warming up to the emotion of color

Ry Leatrice Fiseman special writer

OW CAN YOU create a room you love? Give free expression to your emotional preferences. Color choices are, after all, highly emotional, rooted in associations that go back as far as childhood.

So, if you picture yourself seated at your dining room table surrounded by walls painted a luscious peach, with

carpet to match, make it happen. We're fortunate to be living in a time when home decor has become as individualistic as hemlines, and the market offers abundant choices for translating our individuality into our sur-

If you adore peach, you're not alone: it's one of this year's most popular shades. Peach is particularly well-suited for the dining room. Studies have shown that peach has an appetitestimulating effect similar to orange. expressed in a less-shocking package. Guests in your peach-colored dining room will find their mouths watering - even before you've served the first

Peach also is attractive because of its warmth. We're comforted in these uncertain times by creating an ambience in our homes that makes us feel secure. For that reason, the color selections this fall feature a resurgence of browns, a family of colors that suggests stability and firm roots. But the security these browns promise is far from dull. As their names imply. they're sweet and spicy: milk chocolate caramel raisin, cinnamon and brown sugar.

AMONG THE LIGHTER neutrals now gaining favor are a lovely creamy beige and various shadings of offwhite. In some cases, these shades are replacing gray, which has been the leading neutral in home design in recent years. We're also seeing quite a bit of taupe, a bridge tone that's the neutral progression from gray to beige.

But, these new color trends don't mean saying goodbye to the gray wool carpet you purchased just two years ago. Although home design trends are following fashion more closely than ever before, from a practical standpoint, we can't possibly change the colors in our homes as often as we do those in our wardrobes.

But we can bring in a new look with out casting off vesterday's fine purchases. Combine that gray carpet, for instance, with a new ecru sofa. Then add a dollop of color - some coral or persimmon pillows for the sofa, perhaps — to create visual interest.

We all have a natural desire to seek balance in the colors we place in our surroundings. That leads us to complement the warmth of the beige, brown and coral tones by adding some cooler shades as well. The cool tones this fall are deep, rich, elegant jewels: lapis and midnight blues and jade greens. permeated with a brightness that generates excitement in a room.

Few interior design styles show this color balance more clearly than the Santa Fe influence, which has gained prominence in the West and is quickly catching on elsewhere. Santa Fe's blend of warm and cool tones yields an effect that's both visually striking and emotionally satisfying.

IF YOU'RE PLANNING to introduce the Santa Fe motif into your home, select the color with the greatest emotional appeal as the dominant tone that will cover the largest areas. You may wish to paint your walls a sand beige, for instance. Use a subordi-

- a coral, peach or terra cotta tone. Then add lively accents with cool splashes of turquoise, jade or honeydew in your lamps, objects d'art and area rug.

Or, you can use the area rug itself as your starting point. So many of the wonderful dhurrie rugs available today are self-contained designers' palettes. Find one you love and build your room around its marvelous sherbety colors. But, these rugs are so beautiful that if you need a new coffee table. you'll probably want to follow the principle of dhurrie-under-glass: buy a glass coffee table that lets every inch of that lovely floor artwork shine through.

Speaking of artwork, there's a greater appreciation of art today than ever before. And, with so many high-quality posters available, attractive art is an excellent way to bring today's colors into your home with relatively little

The growing interest in art is one aspect of a definite trend toward higher taste in home design. Another is the wide and varied selection of lovely fabries. Many of these rich fabrics permit us to emulate the tasteful, yet opulent lifestyles we see on some of the most popular television shows. We even can bring a bit of glitter into our living rooms by choosing fabrics subtly laced with threads of silver or gold.

COLOR CHOICES ARE increasingly evident in furniture as well. We're seeing not only painted wood finishes. but also laminates in fabulous colors. from turquoisey-teals to plums to aubergines. This slick look began with the art deco movement but now transcends all periods. We've been accustomed for some time to Parsons tables done in a high-gloss enamel. Today, we can find the same finish on a Queen Anne chair

Whether it's fabric, style or color, the key word is choice. We can speak of trends and color direction, but the bottom line must be what you find most comfortable and satisfying. If you're happy in your home with the English country feel, stay with it.

Or, if you love the light, airy look of hardwood floors that have been bleached, rather than stained - but also love the rich warmth of your mahogany furniture - simply combine them. Don't be afraid to try a little unconventional eclecticism. There's simply no end to the lovely environments you can create.

Leatrice Eiseman is executive director of the Pantone Color Institute, a not-for-profit organization created to study the psychology of color and the color preference system.

Blues are on the rise; almond has peaked

Fashion, whether in apparel or home furnishings, is always subject to consumer trends. One year, hemlines are up, the next year, they are down

Likewise, home fashion styles require interior decorators and homeowners to keep in touch with the latest styles and color trends.

After all, from floor to ceiling, each element of the room helps make a complete fashion statement reflecting the personality and lifestyle of its owner.

Now, more than ever, flooring is a major fashion element in home design. It can dominate or support a theme, depending on how a room is decorated. It is the key piece of the decorating puzzle. And color is an integral part of

According to Leonard A. Ludovico, vice president of styling and design for Congoleum Corp., a manufacturer of . resilient flooring, "Economic trends have an impact of fashion trends. The

economy is the single most important factor in determining what colors and styles sell.

What will the future bring for color direction in home decorating? Ludovico believes that:

- Blue is on the rise. Blue tones are the newest, freshest statement in color design. They will be a selling item, as well as a classic color making a cool
- There is growth of interest in the mauve, red and peach families.
- Gold tones are on the rise.
- The green family is a cool alternative that will become very popular within the next few years.
- Almond has peaked as the domi nant neutral; it will lose popularity just as avocado did in the 1960s
- Gray will replace it as the major neutral color for the balance of the
- Browns, especially deep shades like chocolate, are on the decline.

More and and more home owners are knocking on wood these days natural hardwood flooring, that is. According to industry sources, almost 23 percent of U.S. households now have wooden floors in one or more

Central vacuum system does quieter, better job

Because of the power unit location in a remote part of the house, a central vacuum system is quiet. It is possible to vacuum a room while family members watch television, or while someone talks on the telephone.

MOST IMPORTANTLY, unlike portable vacuum cleaners, central vacuums clean more efficiently because dust and dirt are removed to the stationary power unit rather than simply

Central vacuums clean better because the suction is more than twice that of portable vacuums.

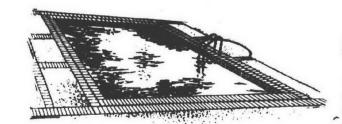

"Like other built-in appliances, a central vacuum system actually adds value to the home." said Jerome G. Santowski, senior vice president-marketing and sales for Broan Mfg. Co. Inc., a leading manufacturer of home specialty products, including central vacuum systems

On the average, installation of a central vacuum system can add \$1,000 to \$1,500 to the value of a home.

Today, central vacuums are being installed not only in new housing, but in existing homes as well.

Deciding which home improvement to tackle

S AN ARDENT, experienced doit-yourselfer, you've mulled for months over plans for this year's home improvement project. You've stashed enough cash away, studied the latest techniques and guidelines in dozens of do-it-yourself handbooks and even invested in a few new tools.

All that's left is deciding what part of the house to tackle.

"Which major home improvement project will offer the best payback value in case I decide to sell my home?" is a question many home owners ask themselves before pounding that first nail. The answer - paybacks vary.

THE ACTUAL RECOVERY on costs will depend on the age and condi tion of the home and property, the particular region of the country and current demand for housing.

Ideal improvements are those that immediately increase the value of a home by 100 percent of the project's cost, according to Steve Jackson, vice president of Georgia-Pacific Corporation's distribution division.

Most remodeling jobs will increase the sale price of your home, but to what degree depends on the neighborhood, the lifestyle of the potential buyer, and, of course, the nature and extent of the project.

With any remodeling project, your primary consideration should be to make improvements that will provide convenience and comfort now, and some financial reward when you decide to move, said Jackson.

AND KEEP IN mind that by doing it yourself, you'll reap a substantial savings on your home improvements - from 30 percent to 50 percent according to industry sources - not to mention the pleasure and satisfaction that comes from doing the job your-

Here's a list of average paybacks for some popular home improvement proj-

 Industry experts generally agree that, in most markets, interior facelifts yield the largest return on investment. New paneling, wallpaper, ceiling repairs and flooring are among the interior improvements most likely to appeal to prospective home buyers. Your recovery on costs can be more than

Erasing a problem

Framed pictures on the wall won't stay straight? Here's a simple solution: Cut a pencil eraser in half and glue half of it to one bottom corner of the fame and the other half to the

• An attic conversion provides a family with more living space, a highly desirable commodity in today's resalehome market. Including a bath in the project will help ensure its resale val-

You often can expect to recover approximately 100 percent of your costs in an attic conversion, depending on the number and types of improvements made and the size of the project.

 A basement conversion also is a sound investment and usually returns nearly 100 percent of improvement costs when a home is sold. (For a story and pictures on one such conversion. see Pages 12-13A)

Deck additions enhance a home's exterior appeal and provide the amenities of outdoor enjoyment during the warmer months. Decks are much in vogue and generally return 80 percent to 100 percent of their costs.

· Kitchen remodeling, like other home improvements, improves a family's "quality of life" and should not be thought of simply in terms of returnon-investment. A family spends much of its time in the kitchen and derives much of its pleasure from this room. Expect a return of approximately 74 percent to 100 percent from a major kitchen remodeling project.

 New siding is a quick and efficient way to give a way a fresh appeal. If you re-side with vinyl siding, you enjoy that "new" appearance for many years to come and will not have to worry about painting every five years or

If the existing siding is in bad shape. re-siding with a maintenance-free material such as vinyl could actually transform an "ugly duckling" into a prime candidate for resale. Depending on the shape of the original siding, you can figure a 60 percent to 100 percent return on re-siding when the house goes up for sale.

 Roof replacement with standard asphalt shingles should be considered after approximately 15 years. This expense really is "normal" maintenance. since the roof covering protects the house and its contents.

The mosts technologically advanced shingles today are made of fiberglass. They provide a high degree of "curb appeal," are designed to last many years with minimum maintenance and offer a high degree of fire resistance.

A sound roof will help sell a home. Expert to recover about 45 percent of the actual cost of the new roof. However, the "real" return on investment will in most cases be 100 percent. That's because you can't sell a home with a bad roof - and most homes are re- roofed when the roof is beyond re-

Laminates

Their versatility fits in well with today's hurried lifestyles

LEANING AND maintaining the home are tasks that everyone can expect to perform in their lives. So it can be reassuring to discover that there are ways to complete these monotonous routines as quickly and as effortlessly as possi

Laminate surfaces in the home provide easy care and maintenance features while offering a fashionable and versatile alternative to the hard work of shining and polishing surfaces such as glass, tile, wood and metal.

The hurried, time-intensive lifestyles of the '80s stress that products be economical, have a high level of quality, provide durability and require as little attention as possible.

ARP Surface laminate, found on the textured finish solid colors by Nevamar, is a more durable and abrasion resistant surface than conventional laminate, as well as many other surfacing materials.

In fact, your taste will probably change, and you will tire of the style and color of the laminate, long before the need exists to replace it.

IN EVERY ROOM of the home. laminate can provide benefits, beyond the aesthetic merit of this designer material. Laminate is so very practical! Virtually, it is maintenance-free and cleans up with a damp cloth or sponge and a mild soap or detergent.

The kitchen has become the nucleus of the home, and center of many cook-

Light-colored laminate in the kitchen is practical, too, because

ing-related and family activities, and can reflect the various tell-tale signs of its heavy usage. Laminate in the kitchen eliminates chores such as scrubbing unsightly grout lines or hand-rubbing wooden cabinets *3 a shine.

Another playground for dirt is the bathroom. As in the kitchen, laminate in this area will be easily maintained simply by wiping with a clean damp cloth or sponge. General purpose cleaners are also effective.

Never use abrasive powders or metal coated scouring pads, as they will permanently dull the surface. For tougher jobs, such as surfaces soiled by grease, ammoniated cleaners are the best choice. Just wipe and go

LAMINATE FURNISHINGS throughout the home, such as builtins, bookshelves, media units, cocktail tables, end tables, desks, etc., probably won't be in such extensive use as the kitchen and bath areas, and will be even easier to care for and maintain. A rag, a glass cleaner and a quick "onceover" are all you need to keep your home sparkling like a showplace.

Laminate, by Nevamar Corporation, will help make your busy day a little easier. Remodeled basement makes every inch of space count

It's valuable space, too. If building costs in your locale run around \$50 a square foot and your basement measures a typical 20 by 30 feet, you already have \$30,000 invested in your basement. But its real value lies in the dividends it pays when it's finished off properly.

Take the basement featured in a recent issue of Family Circle magazine. It was remodeled for a working couple with two teenage girls and a son away at college. As completed, the basement contains four distinct but connecting areas: a ballet/ aerobics area; an exercise machine area; a comfortable TV

area; and a snack center, where a mini refrigerator and microwave occupy a nook built into the space under the stairs.

The ballet/serobics area has a mirrored wall, complete with ballet bar. A handy bench placed against the stairwell, at the opposite side from the snack center, offers a spot to sit and catch your breath. It contains storage compartments for floor exercise mats.

SEPARATING THE ballet/ acrobics area from the exercise machine area, with its recumbent exercycle from J.C. Penney and its heavy-duty Nautilus equipment, is a long, low planter. The plants are, of course, fabulous fakes, so care is not a

The TV area has a comfortable sofa and two upholistered chairs (from Gilliam) and a Thomasville coffee table. The furniture faces the TV, which sits in a custom-made cabinet whose shape echoes that of the planter. Consistency of colors, shapes and patterns is critical in decorating a large open space.

The color scheme is a refreshing white, pale wintergreen, and peach — nice, light, soft colors for a basement that is naturally somewhat dark.

The no-wax floor is white with crisscross wintergreen stripes.
Above, a suspended ceiling (great for hiding pipes, ducts and wiring) repeats the geometric pattern of the floor. The ceiling's 2 foot by 4 foot acquistical pain rest in a crisscross metal grid painted the same wintergreen

All the cabinets and built-ins are constructed of top-grade plywood, covered with wintergreen-colored Wilsonart laminate. The mini blinds at the windows (by Hunter Douglas) are wintergreen, too.

The wallpaper pattern, from Imperial, consists of alternating stripes of lighter and darker shades of peach. Also peachcolored are the painted sliding wooden doors that close off various storage areas and the laundry room. Peach and wintergreen are the predominant colors in the sofa upholstery.

Both practical and decorative, this basement exemplifies careful planning, good taste, consistency, and attention to detail. They are the keys to any succes

7INDOW-WASHING aside, generous window space in a home often draws buyers. And who can argue? Windows provide the link with the outside world, as well as ventilation and sunlight. They provide information concerning weather and set the tone or the mood of any given day. Psychologically, people prefer windows to windowless spaces.

Yet, according to a Harvard Business School energy report, 36 percent to 40 percent of all U.S. energy consumption is for heat, air conditioning, light and hot water — and a big chunk is flying out the window. With speculation that fuel costs may soar again it is important to consider this when improving your home. What better place to begin conserving energy than at the

It's more than just a matter of closing them; home owners today have dozens of energy-efficient options available that are as aesthetically pleasing as they are functional.

One way is by replacing an existing window with one more suited to energy-efficiency and home design. Window replacement is one of America's most often requested home improvements according to David Sauer, president of Qualified Remodelers Inc. and this trend has propelled the prime and replacement window industry over the \$3 billion mark.

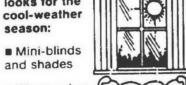

FOR ENERGY efficiency, many

window manufacturers now offer optional low-emissivity glass for their windows. Also known as "low-E glass," it has a special coating that not only contributes to energy efficiency but also helps to block the sun's ultraviolet rays and prevent premature fading of furniture and other fabrics. Tips for cutting out indoor pollutants

IGHTLY SEALED houses can trap in air pollutants that may cause even more problems than outside pollution. Signs of potential danger include condensation on the inside of windows in winter, mold or mildew on walls and ceilings, stale lingering odors and an assortment of flu-like medical complaints from family members.

If you suspect indoor pollution, the best thing to do is to remove or isolate the source and increase ventilation.

You also might be able to alleviate some of the harmful effects by installing air conditioners, air cleaners or ionizers in your home.

Dr. Ronald Simon of Scripps Clinic in San Diego said air conditioners take out at least 75 percent of the pollen in the air. But, if they're not kept clean, they can become harbors for biological contaminants, creating more problems than they correct.

Simon also believes high-efficiency, particulate air cleaners might be helpful. They're more efficient than the electrostatic type, and they don't leave any irritating ozone. Still, he says, such cleaners don't eliminate gases such as formaldehyde or cigarette smoke. A charcoal filter helps to eliminate cigarette smoke, and a chemical filter may work to neutralize formaldehyde.

Green-leaf plants, too, have been shown to clean the air of many impurities. In one 24-hour test, spider plants reduced formaldehyde by 85 percent Research scientist Bill Wolverton says 15 to 20 houseplants are enough to purify the air in an 1,800-square-foot energy-efficient home.

For those who don't have a green thumb, here are some suggestions for ridding your house of potential pollu-

FORMALDEHYDE

If new, pressed-wood furniture seems to be giving off irritating fumes, Tony Manoguerra, director of the San Diego Regional Poison Control Center, suggests you put the furniture outside and allow it to "vent off" for a couple of weeks. Unfortunately, he said, the insides of mobile homes, which often contain high levels of formaldehyde, can't be put outside to air.

Another way to contain the compound is to use a sealer paint or finish or to cover walls with vinyl wallpaper.

ASBESTOS

Avoid products that contain asbestos and discard items around the house that you suspect may contain it. It is generally best not to disturb undamaged materials. Additionally, experts warn home owners not to remove the product themselves, but to seek

To safeguard your family Manoguerra suggests you buy such potentially dangerous products as drain cleaners in small containers, use them only once, rinse containers and discard. It's also vital that you follow label directions precisely and wear gloves and, perhaps, goggles; do not use a plunger. CONSUMER PRODUCTS

To prevent problems, maintain ail consumer products in perfect working condition and follow manufacturer's directions, cautions Lori Saltznan of the U.S. Government Consumer Product Safety Commission.

DUST MITES

Because foam and down pillows are popular hiding places, Simon suggests patients bothered by dust switch to polyester. "The fiber doesn't decompose quickly, and it doesn't trap moisture." He recommends buying inexpensive pillows and replacing them every six months.

Because mattresses also harbor mites, the doctor suggests patients cover their mattresses with plastic to trap the old organisms and prevent new ones from getting in. He also says it's important to wash bedding weekly and blankets once a month.

Carpeting can harbor mites and mold. Shorter, tighter weaves are best, Simon says. Or, better yet, use tile or linoleum and throw rugs, which are easily cleaned.

Heavily padded furniture is another breeding ground, because dust collects in it. Whatever kind of furniture you choose, Simon said, "Make sure you clean underneath it."

MOLD AND MILDEW

Improving ventilation and lighting can cut down on mold and mildew Also, Simon cautions home owners not to let plants sit in water. If you suspect you're allergic to mold, he suggests hiring someone else to clean it up. If you must do it yourself, wear a

PLASTIC PIPES

If pipes have not been used for two to three days, flush them out by running both faucets for five minutes. Periodic flushings also are advisable.

AEROSOL SPRAYS

When possible, the Department of Consumer Affairs suggests you use non-aerosol products such as creams, solids, liquids and pump sprays, instead. If you do use aerosols, do not

PESTICIDES

Inherently dangerous, pesticides should always be used in well-ventilated areas. The best way to avoid problems, the EPA suggests, is to use nontoxic alternatives.

Let's get physical

A view of the basement's ballet/aerobics area, as described in a story on Pages 12-13A. The corner cupboard conceals a circuit breaker box. Note the mirrored lambrequins that make the small casement windows appear to be full length. Home remodeling experts note that a basement conversion is a sound investment and usually returns nearly 100 percent of improvement costs when the home is sold.

Here's how to care for ceiling fans

The best way to clean the blades of a ceiling fan is with a cotton cloth dampened with a mild soap-and-water solution. Be careful not to get any water into the motor housing. And don't use brass cleaner on a brass electroplated fan - it removes the finish.

Never use an oil-based polish on wood blades: the wood soaks up the polish unevenly and this will throw off the balance. Check the motor's oil level once a year with a pipe cleaner

used as a dipstick. The oil should to a half-inch from the reservoir top.

"FALL PLANTING"

Running now through December

By Susan Tauber-Hyke Freelance writer

"Think spring" isn I the only phrase to remember when you're interested in landscaping your property

Another is "think fall.

There are many advantages for planting trees and shrubs in the fall, according to Edward Eaton and Robert (Bob) Brand, co-owners of Eaton Nursery Limited in West Bloomfield.

"Less maintenance is required with fall plantings. Very little watering is needed unless there is an extremely bone-dry fall. Also, people don't have to be as concerned with pruning because the plants are dormant," explained Eaton.

Brand added that since root growth is especially active in the fall, planting then instead of the next spring gives plants a stronger hold on their new environment and better start the next spring.

Fall planting also offers an advantage to the customer. Landscape contractors generally aren't as busy during the months of September through December.

"It only takes us about two weeks to work up a plan for a customer and complete the planting. That's a lot faster than the three to four weeks it takes during the warmer months when we're sometimes swamped with landscaping jobs," said Brand, who's been in the nursery business for 13 years. Eaton has 23 years experience.

Everything except groundcover can be planted until the ground freezes, which usually is after Thanksgiving, stated the two Michigan State University graduates. Each received a horticulture degree.

"We can plant 90 percent of our stock late into the year, Eaton said.

Ninety percent means a choice of hundreds of varieties of trees and shrubs at Eaton Nursery. The nursery is situated on five acres at 5899 West Maple Road, it looks more like a park than a typical plant shop.

"We literally have people come here and browse for hours just to see the different types of trees and shrubs we have," said Brand, a Birmingham resident. "We specialize in uncommon items."

They also come to view the unique Christmas items that are displayed all year long. Eaton, who lives in Franklin, and his partner strive to maintain quality plants at their nursery. Brand said, "It's hard for us to give price quotes over the phone because there's no way to compare a 10-foot-tall maple tree that's three inches in diameter with another 10-foot-tall maple tree that's only one inch around that another nursery has advertised

"Customers need to learn to shop for trees according to the thickness of the trunk and the fullness of the branches instead of by the lowest price," he explained

You can't shop for quality plants over the phone. You have to go to a nursery and see them.

Eaton Nursery maintains its enormous inventory of plants throughout the year in order to support its landscaping business.

"Landscaping is our main business," admitted Eaton. "We keep a large inventory so we know we have the best selection available for our customers."

Eaton and Brand plan and execute landscaping jobs for homeowners anywhere in the Detroit metropolitan area.

The way they go about a landscaping job is first to meet with the homeowner and see the house

"This helps us learn what our customer's tastes are. We always design a plan according to the style of the house and the individual taste of the customer." Brand said

Once the design and itemized price list is completed, the homeowner comes to Eaton Nursery to personally select the recommended trees and shrubs.

"That way they see what they are getting before we put the plants in the ground. They can choose something else if they don't like what we suggested, "he added

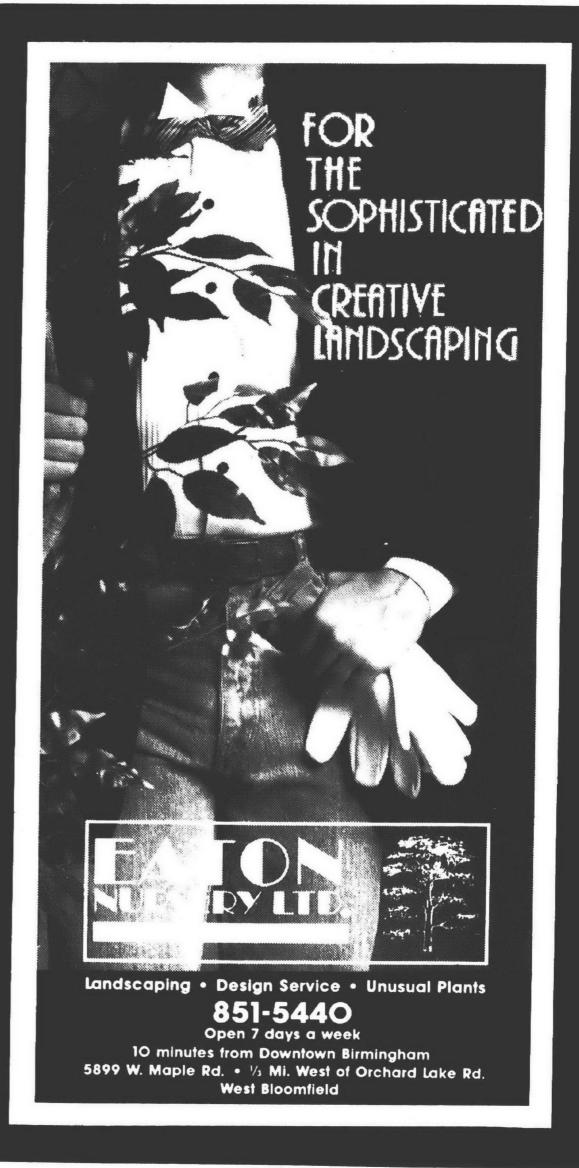

Only 50 percent of the nursery's customers completely follow through with the landscaping design. Most do it in phases.

But at least when they are done, there is a continuity to the look, even if it took three years to complete, according to Eaton

Eaton Nursery is closed January and February Eaton and Brand don't leave town for a two-month vacation however.

They spend as many hours as they can lecturing for garden clubs and other groups, as well as designing plans for spring planting.

Booths are money-makers for clubs

Individual booths are the Heart of the Festival. This is a listing of those booths and events that will be taking place at or near Kellogg Park in downtown Plymouth.

PLYMOUTH CANTON & SALEM CLASS OF '89

A little taste South of the Border, "nachos" will be sold through the combined efforts of Salem and Canton students from the Class of '89 to help fund their student activites for upcoming events.

CANTON SENIOR CLASS OF '88

Not to be outdone by its rival Salem Class of '88, the Canton Class of '88 will be selling hot dogs and chili dogs to those hungry Festival goers. Proceeds will help offset expenses for the class, such as the senior prom.

PLYMOUTH CANTON CIVITANS

It's picture time! Grab a bite of a Yaki Tori steak sandwich for \$2, while you have your picture taken and put on a button for \$2.50. Proceeds from this event go to many local services, including the Special Olympics and Salvation Army, and other local activities.

ODDFELLOW-REBEKAH TRUSTEES

As in years past, the Oddfellows will be holding their annual Flea Market at this year's Fall Festival. This event will be held at Oddfellow Hall, on the corner of Elizabeth and Ann Arbor Trail. conveniently close to downtown. The Flea Market will be open during

all the Festival hours. Proceeds from this event will go to local charities.

THREE CITIES ART CLUB

Three Cities Art Club will have an art display and sale on Saturday and Sunday, Sept. 12 and 13, in Kellogg Park. Prices range from \$10 to \$75. The club's goals are to promote interest in the arts and to stimulate and advance the appreciation of art in the community. Proceeds will be used to further these goals.

PLYMOUTH COMMUNITY ARTS COUNCIL

A must-see event. The PCAC presents the Artists and Craftsmen Show at Central Middle School. This event brings some of the state's leading artisans to Plymouth. Show hours are 10

a.m. to 7 p.m. on Saturday, Sept. 12, and noon to 6 p.m. Sunday, Sept. 13. Prices for these arts and crafts are determined by the artists.

PLYMOUTH COMMUNITY FAMILY YMCA

This "double booth" organization will be selling Italian sausage subs, potato chips and beverages, and will be giving away free "Y" fliers. Proceeds from the Festival will go to help programs organized by the YMCA.

PLYMOUTH THEATRE GUILD

The Theatre Guild's old-fashioned cotton candy and popcorn wagon typify the theme of the Plymouth Fall Festival. The booth's proceeds will go to

Firefighter Muster a Saturday favorite

The city of Plymouth Fire Department is sponsoring its eighth annual Waterball Contest and Muster for the Plymouth Fall Festival.

The Muster will include an Apparatus Dumping Contest, Hose Cart Race, Bucket Brigade, Antique Fire Truck Parade and Display and, of course, "Waterball."

The day of the "Big Event" will be

Saturday. Sept. 12. The Waterball Contest and Muster will take place on S. Main Street between City Hall and Fralick Street. The schedule is as follows:

- 10 a.m. to noon Apparatus Pumping, Bucket Brigade, and Hose Cart Race
- noon Assembly for Parade
- 12:30 p.m. Parade through

lymouth

- 1:30-3:30 pm. Fire Truck Dis-
- 1:45-4 p.m. Waterball Contest
 2-4 p.m. Children's Events
- Apparatus to be displayed all

This event is one of the favorite of all the events in the Festival. Kids of all ages have fun in the carnival atmosphere of waterball.

There also will be a Portable Residential Sprinkler Trailer present at this year's Festival manned by Plymouth firefighters. The purpose of these demonstrations is to show the effectiveness of an "in-home sprinkler system." There will be demonstrations throughout the weekend, beginning on

fund another season of community theater in Plymouth. The Theatre Guild has been putting on live shows in the community for more than 30 years.

CEP EXECUTIVE FORUM

The Centennial Educational Park Executive Forum is the sponsoring organization for a wide variety of student activities at the two local public high schools. They have also assisted in food drives, Easter Seals drives and the March of Dimes Fund, and have contributed to Growth Works.

Proceeds from the sales of those scrumptious waffle ice cream cones will be used to offset expenses of student activities such as homecoming. In addition, the funds will be used to assist in various charity drives.

PLYMOUTH SALEM SENIOR COUNCIL

Once again, this very popular booth returns. "Pizza by the slice" is always a much-heralded delight. These students use the proceeds from their booth to help foot the bill for their senior prom and to build a float for the homecoming parade. The price is \$1 per slice.

Student artwork on sale at Central

The Plymouth Community Arts Council will once again have its Student Booth as part of the Artist and Craftsmen Show on Saturday and Sunday of the Plymouth Fall Festival.

Students from Canton and Plymouth will be selling their art works and crafts in the show, which is Saturday, Sept. 12, and Sunday, Sept. 13. in Central Middle School, Church at Main Street, Plymouth.

In recent years the Student Booth has featured paintings, jewelry, dolls, stencilled items, woodworking, leatherwork, straw flowers and hand-cultivated live plants.

SYMPHONY LEAGUE ANTIQUE MART

This annual event will take place at the Plymouth Community Cultural Center at 525 Farmer Street. Dealers from across Michigan and nearby states will be participating.

All proceeds from the Antique Mart will be used to support the Plymouth Symphony Orchestra. This is one of several fund-raising events to support the symphony orchestra that the Plymouth Community enjoys so much.

PLYMOUTH OPTIMIST CLUB

Balloons and inflatable toys are the theme for the Optimists once again this year. These helium balloons will be on sale for 50 cents, along with other inflatable toys. The Plymouth Optimists use the proceeds of their booth to help a wide range of youth groups in the Plymouth community.

The Optimists sponsor Boy Scouts, Girl Scouts, chess and checker clubs for high school students, the annual Plymouth Oratorial Program and table tennis groups at the two high schools. They are also the sponsors of Optimist Park, located at Elm and Evergreen Streets in Plymouth.

PLYMOUTH COMMUNITY CHORUS

After spending the day walking around the Festival, you'll enjoy the ice cold pop supplied by the Plymouth Community. Chorus. The Chorus provides an outlet for musicians to learn more about music, and presents programs to showcase what they have learned.

The funds generated form the Fall Festival will go into the presentation of concerts, scholarships and other general budget items.

HENRY FORD MEDICAL CENTER

As a community service. The Henry Ford Medical Center will administer free blood glucose monitoring and/or cholesterol screening. Since January 1984 the center has provided health care to the Plymouth community.

STEPPINGSTONE CENTER for the POTENTIALLY GIFTED

Steppingstone Center's programs are designed specifically for the gifted/talented child. The curriculum emphasizes both the intellectual and the personal growth of the child. The Steppingstone will be sponsoring a beverage booth serving lemonade, coffee and iced tea.

Proceeds from the booth will go towards purchasing educational materials such as books and science equipment. The funds are also used for community events like Art in the Park.

CEP NATIONAL HONOR SOCIETY

The National Honor Society provides services to students of Plymouth-Canton Community Schools through tutoring programs. In addition, it helps by gathering food at Thanksgiving and Christmas for distribution by the Salvation Army. Society

'The Gathering' is the hot spot

the Plymouth Community Fall Festival Thursday through Sunday, Sept. 10-13

The Gathering is a pavilion conveniently located across from the Penniman Avenue side of Kellogg Park in downtown Plymouth. This will be the center of attraction throughout the festival.

First is the universal attraction of bingo. For all you bingo lovers, the Plymouth Business and Professional Women's Club will be hosting Thursday Night Bingo.

Last year's Bingo Night gave away \$2,000 in prizes, according to organizer Mary Brooks. "Last year was very successful. We had people lining up over an hour and a half early just to make sure they would get a seat.'

Bingo will begin at 6 p.m. and last until 10 p.m. Thursday under the Gathering. Proceeds will go to the BPW's scholarship fund.

Fish Fry Friday! The Plymouth Lions Club will hold its annual Fish Dinner from 10 a.m. to 10 p.m. Friday. Orange roughy, cole slaw, french fries and a hot or cold drink will be the menu. Proceeds will go to further help the Lions Club with its work with the blind. Tickets are \$4.25 presale or

On Saturday it's a double header! From 7 a.m. to 1 p.m. the Plymouth Kiwanis Club will be frying pancakes and sausage on the griddle for your eating pleasure. "We sold over 1.200 meals last year and raised nearly \$3,000, which we distributed to various charitable organizations in the community," says Kiwanis spokesman George Thompson.

Saturday night will feature the Plymouth Jaycees and its Steak Dinner. Eat while you enjoy all the free entertainment brought to you by the Fall Festival Board.

Sunday is a trip back to the original Fall Festival when Plymouth Rotary Club will serve its annual Chicken Dinner. Some 11,000 dinners will be served between noon and 6 p.m. The meal includes one-half chicken, an ear of corn, roll and beverage. Tickets are \$4.50 bought in advance; \$5 on Sun-

The Rotary Club first served its barbecued chicken dinners back in 1956, and they have steadily become a tradition of the Fall Festival. The dinners will be seved under The Gathering. There also will be a take-out center at the corner of Ann Arbor Road and Sheldon Road for those who cannot join in the festivities at Kellogg

ety members also take part in various other community drives, such as the Red Cross Blood Drive and gifts for needy children at Christmas.

Funds raised will help purchase gold cords for senior members and to help with a scholarship for one or more of

The National Honor Society will be selling a Festival favorite, Italian ice.

OLD VILLAGE ASSOCIATION

Children's games and novelty trinkets will be the theme for the Old Vil-

lage Association this year. Trinkets will go for 50 cents each or 3 for \$1.

The association helps with many beautification projects throughout the community. Also, with the help of the Salvation Army, the association adopts six families at Christmas and provides food, toys, clothing, etc.

Other uses for the proceeds include street lighting in the Old Village area.

POLISH CENTENNIAL DANCERS

Great Polish cooking is on hand at this year's Fall Festival. Kielbasa, kraut, pierogi and golumbki will be the entrees at the dancers' booth.

The Polish National Alliance Centennial Dancers of Plymouth perform at local nursing homes, community festivities, special events, church meetings, the K of C, the VFW and other community events. Proceeds from this year's Festival will help defer the cost of teachers and building facilities.

NEW MORNING SCHOOL

Carnival games will be the feature at the New Morning School's booth. This will be located at the Growth is a chance for all players to win a prize. Games include: fish pond, goldmine and high striker speed ball. Also on sale will be the book, "Peanut Butter Syrup."

FIRST BAPTIST CHURCH OF **PLYMOUTH**

This organization will be selling Christian literature, including books, tapes, records, pamphlets and buttons. A cold glass of water awaits you at

'Kiddie rides' return to festival after all

The Plymouth Fall Festival Board of Directors is sponsoring the "Kiddie Rides" at the annual event.

In the past the rides have been sponsored by the Old Village Association, but this year they decided not to provide that sponsorship.

Festival Board President Joe Henshaw stated that "the Kiddie Rides are an integral part of the Fall Festival and the board wanted to be sure we had the rides." The Festival Board reviewed the insurance coverage and past history of the ride operator in an effort to insure the safe operation of the rides.

The "Kiddie Rides" will consist of a Moon Walk, Fun House and Tug Boats. Rides will be in operation during all festival hours on Penniman between Main and Harvey.

Oddfellows prepare for annual Flea Market

The Oddfellow Hall is having its annual Flea Market for the Plymouth Fall Festival.

Hours will be 10 a.m. to 9 p.m. Thursday through Saturday and noon to 6 p.m. Sunday at the hall at Elizabeth and Ann Arbor Trail, two blocks east of Kellogg Park.

Inside the hall many dealers will

have vintage jewelry land antiques such as furniture, pottery, glassware, boxes, linens, pictures, Teddy bears and dolls.

Outside the hall will be a large variety of items, including arts and crafts, for sale.

The inside of the hall will be open rain or shine.
