## Woman found in freezer

By Diane Gale staff writer

A 19-year-old college student found the body of her mother, who had been missing for more than three years, in the freezer of her father's Avon Street home Monday, Canton Township police said.

The woman's husband, a 45-yearold Detroit Mackenzie High School teacher, was arrested in connection with her death

He was held in the Canton jail overnight pending a warrant that police said would be sought this morning from the Wayne County prosecutor's office. An arraignment was expected to take place this morning in 35th District Court.

CANTON POLICE said it appeared that the victim, Dorothy Tyburski, had been in the freezer since October 1985. The woman, born in 1948, was reported missing by her husband more than three years ago, "because of a domestic problem," said Rick Pomorski, Canton police detective.

'She hadn't called anyone in the family, and no one knew where she was," said Canton police Lt. Larry Stewart. "No one had seen her, and that was out of character

Stewart said he didn't know whether a relationship between the woman and her daughter's boyfriend had anything to do with the death. "She ( Dorothy Tyburski) was fond of the daughter's boyfriend. I don't know to what degree that relationship was," Stewart said.

Canton police wouldn't discuss the cause of death until an autopsy was completed by the Wayne County Medical Examiner.

"She's frozen solid, and it will take a couple of days before" the medical examiner would be able to conduct an autopsy, said Keith Lazar, a Canton police detective.

The daughter, who found her mother, is a Michigan State University student home on term break, police said.

She told police she dreamed her mother was in the freezer and that prompted her to pry open the locked freezer in the basement of the Avon Street three-bedroom brown ranch.

THE HOME is north of Ford Road west of Lilley in the Nottingham Forest subdivision.

Police discovered the body after the victim's two daughters and a male, whom police declined to identify, went to the Canton police station late Monday afternoon to report the incident.

Canton police received a search warrant and arrested the victim's husband. Blood was found at the scene, however, police declined to describe the scene or the condition of the body

They did say, however, the body was fully clothed and intact.

The daughter was at a relative's house Monday night. Police said they would seek psychiatric help to aid her in dealing with the shock.

## Intersection tagged worst in township

By Susan Mahoney staff writer

The intersection of Haggerty and Ann Arbor roads was the site of the most accidents in Plymouth Township in 1988.

In the city of Plymouth the most accidents occurred at the intersection of Main and Wing and the Sheldon-Ann Arbor Road area.

Plymouth Township Police Chief Carl Berry said accidents at the Haggerty-Ann Arbor Road intersection have been a problem for years.

They are turning accidents and people not stopping for red lights," he said.

But safety improvements at the Haggerty-Ann Arbor Road intersection are supposed to be made soon, he said. The county will widen the lanes by adding a right-turn lane and a left-turn phase signal. The signal will allow traffic to make a left turn on a green light.

Other township intersections that had a high number of accidents include I-275 and Ann Arbor Road; Lilley and Ann Arbor Road; Main and Ann Arbor Road; and Sheldon and Ann Arbor Road, Berry said.

Berry said he was not yet able to give statistics on how many township accidents had occurred in 1988.

Plymouth Township Police Chief Carl Berry said accidents at the Haggerty-Ann Arbor Road intersection have been a problem for years.

Plymouth Police Commander Michael Gardner said most of the accidents at one of the city's top mishap sites, the Main-Wing intersection, are due to improper turning, failure to yield, speed violations and careless lane changing.

He also said plans may be in the works to improve traffic signals at Main and Ann Arbor Road and Sheldon and Ann Arbor Road. Possible safety features might include a leftturn green signal, he said.

There were 282 incidences of property damages reported this year due to car accidents in Plymouth. Last year there were 329. Seventynine personal injuries resulted this year from car accidents compared to 72 last year.

Both township and city police said there were no car accident fatalities

## Recycling 1989

## Full landfills force new disposal methods

By Peggy Aulino

Local officials have seen the future, and it includes recycling.

That's the word from Canton and Plymouth township representatives, who predicted last week that 1989 will mark the beginning of municipal recycling programs mandatory, some voluntary.

We are going to implement a recycling program . . . the exact extent of it has not been determined as yet," said Maurice Breen, Plymouth Township supervisor.

In Canton, clerk Loren Bennett was just as confident that there will be sweeping changes this year in how township residents dispose of some types of trash.

"I believe that recycling is something whose time is overdue," Bennett said. "It's an issue that we have zero time left to address."

A mandate from Wayne County requires communities to reduce by 75 percent the amount of waste they send to landfills. Failing to do so by 1991 will result in penalties.

The question isn't if recycling programs will be adopted, Breen said, "The only question there is how do you do it.

## Company to recycle trees

You know how much space a Christmas tree takes up in your house, Imagine how much space a whole town full takes up in a Isad-

Canton and Plymouth Township officials, along with landfill opera-tors, had visions of such a thing, and they didn't like the looks of it.

Rather than sending the bulky pines to landfills this year, officials

have decided that Christmas trees

Canton Waste Recycling Schich serves residents in the two bown-ships, has set aside Priday, Jan. 13, as the day it will pick up Christmas trees. People who live in Canton or Plymouth townships can also drop off their Christmas trees at the company's recycling center from 10 a.m. to 4 p.m. that day or from

10 a.m. to 2 p.m. on Saturday, Jan. 14. Canton Waste Recycling is at 42020 Van Born Road.

"All the trees will be turned into wood chips, which will be reused," said Dave Denski, Canton Waste Recycling owner. "They won't be going to the landfill. That's the bottom line. That's what's important."

Trees to be picked up must be at the curb by 6 a.m. on Jan. 13.

He and trustee Smith Horton are working on a plan that may be ready for discussion by the board members in February.

**BREEN SAID Plymouth Township** will probably not make recycling mandatory "simply because we are not really ready to enforce those types of things.

'I think voluntary programs right now are the best way," he said. "I do believe most people want to get in-

volved on a voluntary basis." Plymouth Township may begin

with "some aspect of source separa-

tion," Breen said. That typically means residents are urged to put newspapers and glass, for instance, in separate containers for curbside

"We will probably be seeking contracts to do some of the pickup," he said.

Breen said he believes voluntary programs work best when coupled with an incentive program. An example of that, he said, is reducing the cost of trash hauling services to those who practice source separation.

In Canton, source separation will

be required, according to Bennett. The township board understands that it is something that will probably be mandatory," Bennett said.

An official of Resource Recycling

Systems, an Ann Arbor consulting firm that has been hired by Canton Township, said mandatory programs-appear to be among the most effec-

ing in the Christmas Light Parade. Saturday morning, the band traveled to Miami to march in the Orange Bowl Parade. Students returned to Detroit Sunday night.

A TOTAL OF 253 people traveled south, said Judy Lore of Plymouth Township, outgoing president of the Plymouth-Canton Music Boosters.

The CEP Marching Band includes 160 students. All of those making the trip were looking forward to their arrival in Florida

"They are excited," Lore said Lore said. Students arrived at the Wednesday morning. "They heard the temperature is in the 80s and Band members and parents had they are looking forward to sunshine and hot weather.'

A few students and parents traveled to Florida ahead of the rest of the group, taking time to visit with friends and family there. The large group leaving last Wednesday didn't have to worry about checking their luggage or musical instruments; those items were collected the previous day and taken to the airport.

Even with luggage worries eliminated, it took some doing to get the planes loaded. But everyone made it,

A GROUP OF proud parents gathered at the airport that morning. Not all of the parents were able to make the trip to Florida, but the shorter journey to Metro Airport was easier to arrange.

Jim Solberg of Plymouth was among parents saying their goodbyes at the airport.

"I think it's exciting for them," Jim Solberg said. "It's an opportunity to see another part of the country." The students wouldn't have had that opportunity if they weren't in the band, he added.

Both Solberg children went to Florida two years ago on a family vacation

"But this is different." They'll be

own age, Solberg said, and their time will be spoken for.

He and the other parents are proud of their children's accomplish-

They had a lot of good awards this year," Solberg said. The band performed Nov. 12 at the Grand National Marching Band Competition, held at the Pontiac Silverdome, and placed fifth in the nation.

Solberg was planning to tape the Orange Bowl Parade, to be shown on television New Year's Eve.

Diana Romanowski of Canton also was among parents at the airport. Her 17-year-old son, Chris, is a senior at Salem and a drummer.

"It's real exciting," she said. "He's very excited to go.

SHE AND OTHER parents have been busy in recent months, helping with fund-raising projects for the band trip. They've sold such items as candy and Domino's certificates.

Although it's been a lot of work, Romanowski and other parents are grateful students were able to make

"It's a nice way for them to end their year, especially for the seniors. They're a real close-knit group."

Romanowski was planning to spend Saturday night "right in front of the TV with the VCR on, taping every minute. They'd jokingly told

evening that they needed to be quiet while the parade was on TV.

This was the first time Romanowski's son had traveled to Florida. She wasn't too nervous about his making the trip.

"I think they're a pretty responsible group. They're used to taking on

some responsibility on their own. Judy Lore's son, Matt, had been to Florida on family trips. He's a 17year-old senior at Salem who plays the snare drum. Like many of the parents, the Lores were making plans to watch the Orange Bowl Parade on TV Saturday.

"I think most of them are arranging their New Year's Eve around watching the parade," Lore said. Many families planned to tape the televised parade, giving band members a chance to see the perform-

This trip was the second time the local band performed in the Orange Bowl Parade. In the mid-1970s, the Plymouth High School band was chosen to perform in the parade.

In raising money for this year's trip, band leaders asked for alumni support. Much of that came from former students who made that 1974 trip or from parents of those students, Lore said. Those students benefited from the experience, and wanted this year's group to have the same opportunity.

a voluntary basis. When they are made mandatory, the rate can go up to 90 percent, according to Jim Frey, the company's vice president.

Resource Recycling Systems is currently working with clients who represent about 125 Michigan communities. Many of them, Frey said, are considering adopting mandatory recycling programs.

States such as New Jersey, Pennsylvania and Oregon "have already made that political leap to mandatory rules being the accepted norm," Frey said.

He said elected officials may consider mandatory programs a risky

venture politically. "The people who have to make those decisions don't want to speak up" knowing there will be a "vocal minority," he said.

Canton was awarded a \$11,000 Clean Michigan Fund grant last year to be spent on a recycling education program. That is the money paying the fee for the services of Resource Recycling Systems. The company is designing and helping to implement the education program.

The plan includes a promotional campaign during the spring cleanup season, Frey said. He called it a "major effort to help citizens understand that recycling is here to stay."

Brochures on the how's and why's of recycling in Canton are being written by the consultants and a "train the trainer" program will be implemented. The latter involves teaching community leaders about recycling with the expectation that they will go out and "spread the word to the masses," Bennett said.

A quiet stroll through winter scenes, cross country skiing or ice skating are some of the attractions available at area Huron-Clinton Metroparks.

## Winter fun at parks

By Neal Haldane staff writer

The crowds have all gone

Well, almost all gone. There are still some hardy souls who continue to visit the Huron Clinton Metroparks long after suntan season has ended.

And park officials say they have room for more visitors during the winter months.

"It's surprising a lot of people prefer coming out at this time because it's not as crowded," said Ernest Burkeen, park superintendent for Lower Huron, Willow and Oak-

'We have plenty of things to do," said Kim Jarvis, park operations clerk at Kensington.

OBVIOUSLY, MOST of the activities depend on the weather. Snow and cold are necessary for a majority of the offerings.

Cross country skiing is one of the most popular activities in the parks.

Both Willow and Kensington rent skis at a cost of \$5 weekdays and \$6.50 weekends. That includes skis, boots and poles.

Kensington also offers crosscountry skiing lessons.

Beginners can find out all about the sport at 10 a.m. and 1 p.m. Saturdays and Sundays at Kensington. Advance registration is necessary.

In addition to skiing, ice skating also is a popular attraction. Three ponds provide plenty of space for skaters at Lower Huron. "We get people down there to

skate, especially during the holidays," Burkeen said. "On one pond we even have a couple of hockey goals."

The ponds are lit for night skating, and hot chocolate and a warming station are available nearby.

Like Lower Huron, Kensington also offers a place for skating and warming up. But neither park rents

Or how about a sleigh ride? Kensington has 20-minute trips through the park at a cost of \$1.50 for adults and \$1 for children.

Rides are available 12:30-4:30 p.m. Saturdays and Sundays at the farm center.

The horse-drawn sleigh holds 20

people.
"When we get the first snow it's crowded," Jarvis said. "Then it tapers off. Once and awhile, when you get lucky, you see deer and other wildlife.

Groups also can charter a sleigh ride in the evening at a cost of \$75 per hour Tuesdays through Sun-

Hayrides substitute for sleigh rides when the weather is not cooperating, she said.

STILL NOT interested in bundling up for an outdoor experience? The parks have still more to offer.

Many people take advantage of

the season to quietly stroll through the miles of trails that crisscross

through the woods. Kensington has a nature center with trails and also operates a working farm for visitors.

At the Oakwoods Nature Center, trails are open dawn to dusk for walking or skiing.

'We have five miles worth of trails ranging in length from 700 feet to couple miles," said Gerry Wykes, naturalist at Oakwoods. "We have a brochure that goes along with the trails.

"It's always very quiet here. You will see a lot of woodland life. You're apt to see white tail deer on your way into the park, squirrels and geese.

And a naturalist is in the building every day to answer questions. We encourage people to come

out, because we don't get a lot," Burkeen said. "It's a nice quiet place, and close by.'

## Mother of murdered Canton teen files lawsuit seeking \$10 million

By Peggy Aulino

The mother of the 13-year-old Canton girl murdered in 1986 filed a lawsuit Wednesday seeking \$10 million from the assailants, their families and a friend of the victim.

The lawsuit was filed almost two years to the day after Mary Anne Hulbert was shot seven times in a Superior Township field. Christopher Machacek and Steven Stamper, both 18, were convicted last fall in connection with the killing.

"I know I'm not going to get anything out of it," said Debbie Hulbert, the victim's mother.

She is pursuing it "so people know what is involved and what the legal battles are," she said.

**HULBERT'S ATTORNEY, James** Tanielian, said in addition to the two defendants, the suit names Tudie Braddam, Stamper's natural grandmother and adoptive mother; Diana McKenzie, Machacek's guardian with whom he lived at the time of the murder; and Machacek's mother. Mary Ann Scheim.

The suit also names Maria Karch, a neighbor and close friend of Mary Anne Hulbert's, "on a conspiracy charge," Tanielian said.

Karch testified at the trials, held separately in Washtenaw County Circuit Court in September, that on the day of the murder she drove Hulbert to the entrance of the mobile home park in which they lived. Machacek and Stamper were waiting to pick her up there, testimony indicat-

JEFFREY STROUSS, the courtappointed attorney who defended Stamper at the trial, has been retained to defend Braddam and Stamper.

The suit "looks like a ploy for publicity," he said.

Where's the money? It's just blowing smoke, is what he's doing," Strouss said Thursday.

Strouss said that based on the evidence presented at trial he doesn't believe Braddam can be held liable for Stamper's actions.

"I was there and I don't understand it," he said.

Braddam said she "figured" Hulbert would sue.

There's nothing I can do about it.

What can she get?" Braddam said. Richard Digon, Machacek's courtappointed attorney, said he has not been asked to become involved in the

HULBERT HAD dated both defendants, and at the time of her death she believed she was pregnant by Machacek. An autopsy indicated she was not pregnant.

After their arrest, Machacek and Stamper said they wanted to scare the girl into having a miscarriage by firing rifles near her. Both defendants, who were 16 at the time of the murder, blamed the other for firing the fatal shots.

In addition to seeking \$1 million in punitive damages from each of them, the suit asks for an additional \$1 million each for statutory rape.

Machacek was found guilty of first-degree murder and is serving a life sentence with no chance of parole. Stamper was found guilty of second-degree murder. He, too, was sentenced to life in prison, but could be paroled.

THERE IS "only a remote chance" that Hulbert could recover any money from the assailants, Tan-

telian said. He said wants to be sure that if anyone named in the suit comes into 'some kind of windfall," such as an inheritance, lottery winnings or profits from selling the story of the crime, they will not profit.

"It's to protect my daughter's rights," Hulbert said. "I don't want the story used for somebody to make money.

Laws are in place that prohibit convicts from profiting from selling the rights to a story about a crime in which they were involved.

The Hulbert case was featured on the television show "A Current Affair," and in Young Miss magazine. Hulbert said she cooperated with representatives of the magazine "because they are helping young kids."

Hulbert was killed Dec. 30, 1986. Her body was found by two hunters eight days later.

What area law enforcement specialists have long suspected is true
- recent bank robberies in western Wayne County are part of a rising statewide trend.

When it is over, 1988 could go down as the second worst year for bank robberies in récent state histo-

To date, there have been 170 bank robberies across Michigan - including a combined six robberies in Livonia, Westland and Plymouth.

BANK ROBBERIES are on the increase throughout the state after a long period of decline," said John ny, an FBI special agent assigned to the bureau's Detroit office. "And the Livonia area is certainly part of that trend."

The peak year for bank robberies was 1975, Anthony said, when robbers—hit 214 Michigan banks. State robberies had leveled to between 85-95 a year for most of the past decade, according to FBI statis-

There are, however, differences between today's bank robbers and 'Traditionally, we've seen an increase around the holidays, but this year it began in October.'

> —John Anthony FBI special agent

those of the past.

"Back in 1975 you had a rash of robberies by professionals. Just as some people go to work in an office or a factory, these people robbed banks," Anthony said.

Today's thieves are less experienced and, perhaps, more desperate, Anthony added.

"The big factor today seems to be narcotics," Anthony said. "People rob banks because they want drugs, especially cocaine."

The recent increase, however, doesn't appear to follow any traditional pattern.

"Traditionally, we've seen an increase around the holidays, but this year it began in October," Anthony said. "Actually, it looked like it was going to be an average year right up to that point.'

Since Oct. 1, there have been two bank robberies in Livonia, three in Westland and one in Plymouth.

IF THERE'S good news about the alarming robbery increase, it's that robbers are rarely successful.

Most, he said, are apprehended soon after the crime. Ultimately, 83 good, compared with a national av-

percent of Michigan bank robbery

ases are solved. "Our batting average is pretty erage of about 65 percent," he said.

Suspects are awaiting trial for robberies at the Heritage Federal Savings Bank, 33111 Seven Mile, Livoni; the Oct. 24 robbery at the Comerica branch bank, 6870 Wayne, Westland; and the Nov. 22 robbery at Michigan National Bank, 34930 Ann Arbor Trail, Livonia.

Plymouth police believe a suspect recently arrested by the FBI for a string of other robberies is responsible for the Oct. 28 robbery of the downtown Heritage Federal branch.

Like the 1970s robbery string, a few felons are responsible for most of the damage. Anthony estimated that five suspected bank robbers alone are responsible for this year's increase. Of them, he added, two have been apprehended.

Robbers generally receive less than \$2,000 per robbery, he said. But the money is rarely recovered.

"They can spend it pretty fast," Anthony said.

A previous breed specific pit bull ban was defeated and breed was not deemed relevant to animal control.

House Bill 4897, sponsored by state Rep. Willis Bullard, contains the following provisions: Dogs responding to provoca-

tion, torment or trespass will not be considered dangerous on that basis After an attack, bite or death has occurred, a fair hearing will be

tion and the circumstances and the penalties against the owner. · Fines will include community service, monetary penalties and jail

• Be a spectator at an animal fight.

· Knowingly own, breed, buy, sell or exchange any dog or offspring of any dog that has been fought or

trained to fight. Incite a fighting dog to attack or kill a person.

Dogs confiscated can be humanely destroyed immediately if they have injuries and are suffering.

juries can also be humanely destroyed within 30 days after a quick show cause hearing to confirm their danger to the community.

The Michigan Humane Society supported the legislation, particularly because it doesn't single out one particular breed. Many breeds can be manipulated and made dangerous, according to the society. They include German shepherds, Akitas, Rottweilers and even Huskies, among others.

Next year the humane society will actively urge the legislature and Gov. James Blanchard to allocate necessary funds to the state police to enhance enforcement of the new laws. With stronger law enforcement, the humane society is confident there will be a dramatic decrease in vicious dog attacks.

## Chiefs plan to build on year of success

In what might prove to be a watershed year, the Chiefs were 27-33 overall, including a 6-7 record and third-place finish in the Western

Furthermore, third-year coach Allie Suffety went with a young team last year, and he has eight players returning. Jodi Houdek and Carrie Pyhtila were the only graduation

"I think this team will determine its own destiny," Suffety said. "If they want to put in the time and be a good team, I think we can be.

"THE TEAM IS our theme this year. We want to establish a strong team concept.'

Along those lines, the Chiefs plan to diversify their attack. The team often looked to leading hitter Susan Ferko in crucial moments last year, but being a veteran team means the others are more confident and sure of their roles.

"I don't know if they relied too much on Susan as much as they didn't feel comfortable with what they were doing," Suffety said. "We volleyball

Everyone was worried about themselves in terms of how good they were and how they could help.

This year, I see a multitude of ways that we can win, including the use of Susan as a decoy and letting others rise."

Ferko, a 5-foot-11 junior, is one of the area's best hitters and will be an important key to any Canton success, of course. She led the team in attacks, serving percentage, aces and kills a year ago.

"IF SHE'S HAVING a great day, people start paying a lot more attention to her, but hopefully that will allow others to shine," Suffety said. "Her height has been a deterent to her being a better back-row player,

but we're working on that."
Complementing Ferko will be allleague setter Michelle Fortier, a 5-5 senior. She is a perfectionist who demands much of herself but has learned to recover quickly from mistakes, Suffety said. Fortier can be an attacker, too.

"Michelle is just a fine athlete, a heady player," he said. "She knows what's going on at all times on the

CANTON ALSO returns Candi Jones, Rhonda Kibilko, Melinda Yergin, Alissa Huth and Karen Keenan.

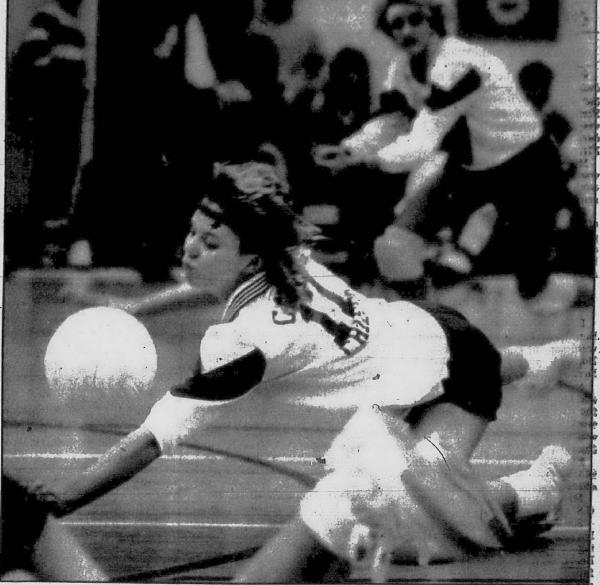

Jones, a 5-9 senior and outside hitter, is a clutch player who "excels when the game is on the exciting side," Suffety said. "When things get tight, you hope the ball is in her hands because she produces."

Keenan, 5-10 senior, has been the biggest surprise, becoming more of an all-round player instead of just a front-row specialist, according to Suffety, who compares her to Meath as the type who plays hard from

Kibilko surprised everyone at the end of last season when the 5-7 senior sparked Canton to its district win over Belleville. The Chiefs, making a strong finish, got as far as the district semifinals before being eliminated.

"She's become a better hitter and all-round volleyball player this year," said Suffety, adding Kibilko

He was an assistant this fall under Mike Morgan at Plymouth Canton where the Chiefs captured a district title. Boots also coached the nation's top-rated under-14 boys club team, the Metro Magic, which captured a state title and a 16-state regional tournament in 1988.

"I KNOW THERE were a number of high school coaching jobs open, but CC was the only one I was interested in because of the people," Boots said. "It's a nice coaching situation because you're getting disciplined student-athletes who want to learn. It's a great situation and I'm looking forward to it."

Boots is a graduate of Grace College (Indiana) and is employed as a sales representative for Glenn Caswell, a manufacturer of sportswear and sporting goods equipment in Noblesville, Ind. He lives in Novi.

There's an awful lot of potential at CC, and I think it's one of the premier coaching positions in the state," said the new coach. "They have a good feeder system and great support from their athletic people. 'And when you walk around the

school and see all the athletes' pictures on the wall who have gone on and competed successfully, both at the college and pro levels, that's just a perfect situation to get into."

Boots beat out several "highly qualified" candidates for the position.

"I THINK I have as much or more experience than most high school coaches," he said. "I was confident I was qualified, even though I know there were some awfully good people that applied."

Scicluna stepped down shortly after CC was eliminated by Southfield

in the district finals back in October. He was 63-23-9 in five seasons, winning a Catholic League crown in 1984 and a district crown in '86. The Shamrocks finished with an 11-6-1 overall record.

"Our styles are very similar," said Boots. "I'm my own man, as he (Scicluna) is."

Boots said he would like to be compared with perennial state soccer power Livonia Stevenson "within five years."

"That's a target, and I don't mean that in a derogatory sense," Boots said. "I'd love to be compared to Stevenson, but five years is what it's going to take."

## Canton skier ranks among best in state

The road to an Olympic dream is a step-by-step process. Athletes train for years and build on each successful endeavor.

The 14-year-old Grubb was recently honored by the NASTAR organization for placing third among Michigan skiers in the 13- to 15-year-old division of the 1987-88 Coca-Cola Junior NASTAR rankings.

Grubb, who was ranked 16th nationally, posted a season-best 16 handicap to achieve her lofty rating. Since the U.S. ski team sets the NASTAR standards, Grubb's handicap means she raced within 16 percent of the imaginary time posted by Troy Watts of Breckenridge, Colo., the team's fastest NAS-

Semester grades are in and it looks as if the Schoolcraft College men's basketball team is in trouble.

32 points in the first half, many from three-point range.

THE 6-FOOT-1 GUARD, who was third in the nation (NJCAA) last year

in three-point shooting (51 percent), nailed eight against the Ocelots.

"He's a Division I player, but the only thing big-time coaches question about Malcolm is his physical strength," said fifth-year Kellogg coach Harry Markwart "But he only coach Barry Markwart. "But he can shoot with anybody. After tonight, I'd say he's shooting somewhere around 59 percent on threepointers."

Reed, however, was not a one man

Keith Perkins, brother of former U-M star Phil Hubbard and a native of Canton, Ohio (McKinley High), scored 24, while Mike Whittaker

The team's two other starters, Danny Lewis and Derrick Gordon, chipped in with 13 and 10, respectively.

Of Kellogg's three losses, two have come against Macomb CC. ("We lost by one and two points," laments Markwart.) The other defeat came against Owens Tech of Toledo.

But Markwart is pleased with his team's play, despite the loss of four players, three to grades. (Another recruit was murdered over the sum-

"WE'VE BEEN outstanding for all the things we've gone through," said the Kellogg coach. "This is the best of the three games we played against Schoolcraft. We press and fast-break a majority of the time, but once in awhile we need a breather. Tonight we started out well, and then kind of floated for awhile."

Bogataj thought a number of his players floated throughout the night, but among the bright spots against Kellogg — at least point production-wise — was Detroit Benedictine product Bernard McGee, who scored 18 of his team-high 26 points in the first half; and Al Hudson (Romulus), who scored 12 of his 16 in the second

Also in double figures was Ken Fuster (River Rouge), who tallied 12, and Ed Hudson (Royal Oak Shrine), who netted all 11 of his points in the first half.

## Junior ace leads Indians past BB

By Steve Kowalski staff writer

Jay Greene might be the best basketball player Redford Bishop Borgess players see this year.

Unless they attend a game at The Palace. Greene and teammate Ali Fisher scored 25 points each Thursday, power-

ing Flint Central to a 69-62 non-conference win at Borgess. As good as Greene is, remember, he's only a junior.

The 6-foot-5 Greene, whose brother Terrence plays at DePaul, is one of 10 juniors on Central's 12-man roster. Fisher is the Indians' only senior, but Greene is the player they turn to in tight games.

'Jay is a junior but he's played three years on the varsity," Gooch said. "That's more than a lot of seniors play.

"MOST OF THE time Jay makes good judgments. He's an Oscar Robertson type. Unless a guy is big and a good defensive player, Jay's going to get

Central's record improved to 5-2 overall and Borgess slipped to 2-3. Greene scored 10 points in the fourth quarter, including four from the free throw line in the last 21/2 minutes. Central led most of the second half, but the Spartans trailed by only two, 64-62, with 1:19 left when forward Kareem

Greene made a layup on Central's next possession, however, and then nailed two free throws, giving the Indians a more comfortable 68-62 lead with 10 seconds left. The Spartans weren't able to score on several posses-

sions in the last minute. "We have a good team," Greene said. "We're young and it takes us awhile for us to pull together. When things get tight I feel I'm the one who should take over. The whole team played hard, though. I shouldn't take all the

BORGESS PLAYED its third straight game without junior starting guard Shawn Respert, who remained out with 14 stitches in his face because of a car accident.

Carpenter played a strong inside gambleading Borgess with 21 points and grabbing six rebounds. Charles North scored 17 points and Carl Woods added

11, but they weren't able to offset Greene's performance. "He's a nice player," Fusco said. "And he was a little off tonight. He would have had a few more points but a few lipped the rim. He's very deceptive because of his size. He gets up and down the floor well. He's a smooth

Borgess, no doubt, would have had a better chance to contain Greene had Respert been available.

Respert is the team leader at point guard, trying to make up for all the losses Borgess suffered last May because of graduation. Gone from last year's Class B runnerup team are Parish Hickman, Dwayne Kelley and Da Juan Smith — nearly 42 points a game. 'We hope to have Shawn back practicing this weekend," Fusco said. "Our

first three games he was our primary point guard. He and Charles North posed perimeter threats and that tends to open up the inside game and allow Kareem to do what he does best. "Kareem had a good performance. We wanted to get the ball inside to him

and when we did, he came through."

will be in the front row so the Chiefs can take full advantage of her attacking skill. Huth, 5-3 junior, fills the second

setting position, and she also was second to Ferko in serving percentage and aces last year. Yergin, 5-3 senior, started some in the back row and will help with the setting.

SUFFETY EXPECTS a pair of

transfers to help. Christyn Halliday, 5-6 junior from Utah, and Janice Krause, 5.7 junior from Dearborn, round out the roster. Both have volleyball backgrounds. Halliday is another left-handed hitter like Meath, and Krause is an attacker, also,

"I'm hoping (Halliday) can take Shannon's place when she graduates, because she's all over the floor and attacks really well," Suffety said.

## CC loses Holiday final at buzzer

By Steve Kowalski

Brian Marzolino wasn't supposed to take the last shot Friday night for Southgate Aquinas, but coach Ernie Price couldn't complain about the

Marzolino's off-balance 19-foot jump shot at the buzzer gave the Raiders an exciting 47-45 win over Redford Catholic Central in the championship game of the Aquinas Holiday Basketball Tournament. Detroit De Porres defeated Centerline St. Clement, 57-36 in the consolation game played earlier Friday.

All the excitement took place later in the evening during the champi-

A 3-point shot by CC's Jeff Shaner with eight seconds left tied the score at 45, and everyone in the gym expected Aquinas' sharpshooter Steve Pollack to take the Raiders' final shot, but he couldn't get open. Pol-lack led both teams with 24 points, having made four shots from 3-point

AFTER AQUINAS called a timeout, Marzolino raced the length of the court before trying his desperation shot. Marzolino finished with only 10 points, but the last two were the most important.

'We're fortunate the ball fell through, but shoot, we deserved to win," Price said. "They deserved to win too, but I'm elated it was us."

Said Marzolino: "The ball was supposed to go to Pollack, but I didn't even see him. I just went to the hole and hoped I got fouled. I just threw it up there."

The win kept Aquinas undefeated in five games. Four Aquinas players did not dress because of disciplinary reasons, so Price felt even better about the victory. CC, meanwhile, fell to 1-4 overall and coach Bernie Holowicki harbors immediate concern for Tuesday's Catholic League opener at home against Redford Bishop Borgess.

## basketball

'We need three weeks to get ready for Borgess and we've only got three days," Holowicki said Friday. "(Birmingham) Brother Rice and Borgess have the most talent in the league. Borgess is 30 times better than the (Aquinas) team that was out there to-

"WE GOT OUTPLAYED tonight, outhustled and outcoached."

The loss spoiled the fine 23-point effort by CC senior guard Terry Boykin. Shayner was the only other Shamrock player in double figures, scoring 10 points. Ray Richards, CC's biggest inside threat, finished with only five points.

"Boykin's got to be an offensive threat for us," Holowicki said. "But Richards had his first three shots blocked and he just died after that. We got no second shots and didn't rebound at all tonight."

CC led only 20-18 at halftime but Boykin scored seven points in the third quarter, and the Shamrocks increased the margin to six, 33-27 after three quarters. Boykin's 3-point shot with 1:13 left in the quarter had given CC its largest lead, 33-24.

Pollack and Dwynell Mitchell, who finished with 12 points, rallied the Raiders in the fourth quarter. Aquinas outscored CC 15-4 in the first 5 1/2 minutes of the final quarter and finally took the lead over CC, 40-37 on Pollack's triple.

Pollack scored nine points in the fourth quarter.

"Pollack is a good shootey."
Holowicki said. "I told the kids that and they didn't seem to listen. We tried to be alert for him today."

You can really save on energy use with the Trane XL90 gas furnace. It's a super efficient furnace, up to 95% efficient. If your present furnace is over ten years old, chances are it's only 60-65% efficient. Which means as much as 40% of the heat is going up the flue, not into your home. So replacing your furnace with the XL90 can make a big difference on the amount you spend for heating.

The Trane XL90 gas furnace is loaded with quality features, a hot, surface ignitor instead of an old fashioned pilot light, and a unique 2-speed inducer motor for quiet operation.

## New Year starts off with verve

For those of you still a tad hung over from all the New Year's revelry, you have time to get your resolutions in order for 1989.

I love resolutions. They're something you strive for two weeks to think up and exert three weeks of energy trying to keep but always end up forgetting by the fourth week of February. If by then the resolutions haven't gotten to you, the winter doldrums will.

So, trying not to sound too pessimistic, here's my list of New Year's resolutions that will surely

end up on the heap by February.

• I resolve to loose that double chin that I have been plagued with. The way I figure it, if the everlasting diet won't help, \$25,00 worth of plastic surgery should do

• I resolve to immediately get rid of all those silly kitchen appliances that are clogging up the fruit cellar and cupboards. That means goodbye to the salad shooter, the salad spinner, the electric doughnut maker, the mini deep fryer and about 1/2 dozen of those tacky kitchen witches that I'm sure had something to do with the burnt Christmas cookies this year.

• I resolve to find lids for all the Tupperware, Popetees and Rubbermaid containers that are reproducing themselves under the kitchen sink. Ditto for the cottage cheese containers and the empty potato salads containers from the Farmer Jack's.

. I resolve to get a Q-Tip and clean out the corners and little holes inside my microwave. Just by that statement, you can guess what lingers within.

· I resolve to clean out my car and, probably most important, to stop eating in it. I am sure my car is to blame for my double chin and Ronald Reagan cheeks.

. I resolve to, if not totally read, at least glance at the more than 15 food and cookie magazines I get every month. I'm getting so many mags delivered by an unknown person who slips them in a plastic bag and hangs them on my screen door that I sent that little elf a Christmas card this year.

• I resolve to put shelf paper on all my shelves. Nah, forget it, no one really notices, do they?

• I resolve to spend at least a day (if not more) down at Momma's so that I can learn her secrets when making meat pie, strudel, sliders and, god forbid, fruitcake

• I resolve to dust the top of the refrigerator. But then again, why sould I? I'm the only one tall enought to see it anyway.

. I resolve to cook something from scratch at least once a week and let one of the kids do it with

. I resolve to change the box of baking soda that has been sitting in the back of the fridge for the last four years every three months like I'm supposed to.

. I resolve to "do my part' for the environment. That means no more plastic bags at the grocery store, no more aerosol sprays, and to save the glass and plastic disposables for recycling.

e Last but not least, I resolve to help all the fund-raisers and charitable organizations. I can with a mention of what we, the readers, can do to help. I'll start right now with a promo for a new cookbook that has crossed my desk entitled "The Joy of Greek Cooking," which includes recipes, feast and fast day menus, histori-cal information, cholesterol guides, microwave tips and cook-ing charts. It's being promoted by the Annunciation Greek Orthodox Cathedral in downtown Detroit, and the book can be ordered at any Kitchen Glamor store by calling 965-2806. It's only \$10 and it's a jewel of a cookbook. (That's one resolution I know I'll keep.) Attention, all food related fundraisers; send me the info on your product, and I'll include it when-

By Larry Janes

When I'm feelin' blue, all I have to do is take a look at you, then I'm not so blue.

These are the words to a popular song, breaking the charts on today's

Top 40 record scene.

Unfortunately for me, they couldn't be further from the truth. When I'm blue, I eat. Yep, I realize

it's a problem. Usually, however, when I get uptight, I don't rely on my favorite recipe of tofu-lasagna or a package of Weight Watchers' Black Forest Cake. I want comfort

The food my momma made for me when I was a kid and filled my mind with such thoughts that food would really make things better. Food like tuna-noodle casserole that called for cooked noodles, a can of drained tuna, a can of Campbell's soup, tossed and sprinkled with a can of onion rings or, better yet, some crushed, stale potato chips. I still love things that are tossed

together and thrown in a greased yellow Corningware casserole with green flowers painted on the sides and baked at 350 degrees for one hour. What better a way to relive anxieties and frustrations than make a batch of biscuits from the back of a Bisquick box; top them with a box of

## COMFORT FOOD

partially frozen, sugar-laden strawberries that defrosted in a dish-pan of hot water while the biscuits were baking, and finish with eight or 10 squirts from a Reddi-Whip aerosol can. For the time being, heck with the ozone, I want comfort.

I REMEMBER "city chicken," chunks of veal skewered on a thick stick and cooked in canned mushroom sauce and more Campbell's cream-of-something soup. And the only accompaniment was a plop of the best tasting lumpy mashed potatoes (mashed by hand, of course) and flavored with a lot of butter, a little milk and far-too-much salt for to-day's health-conscious bodies. Des-sert was a red-colored Jell-O, usually loaded with bananas that were easily removed. It was a special

treat to find a can of Reddi-Whip behind the Miracle Whip (which to this day I still call mayonaise). The last of the white spray ended up on the flower-laden olicloth table cover, in little blotches that had us using our fingers to get the last drops.

People desperately want to eat something familiar. Even though to-day's kitchen would seem hare without the Kitchen Aid mixer and Cuistnart food processor, it's hard to feel cozy about something prepared by a famous young chef still green behind the ears known for his ditzy portions, squid pasta and high-falutin pricetags. In today's age of anxiety, the middle-class soul food we grew up with reminds us of safer times. A lot with reminds us of safer times. A lot of '50s' food was good, even better than we were willing to admit, expecially in this age of fresh goat

cheese, baby vegetables and sushi. When food fashion turned away from cheeseburger pies and cake-mix cakes, most home cooks re-mained faithful. Now the fashionable

food world is paying attention . . .

Can you still buy a blue-flower la-den ollcloth table covering? Is there a restaurant that can make me fried chicken that was rolled in crushed Ritz crackers and fried in 3 inches of Ritz crackers and fried in 3 inches of lard? Will someone please invite me to a dinner party that has a macaroni and cheese casserole made with Velveeta instead of blue-corn polenta shaped like a cornucopia?

All of a sudden I've got this insatiable urge to go home, slice a hot dog and stuff it with a slice of processed cheese, then wran in a Poppin-Fresh.

cheese, then wrap in a Poppin-Fresh dough triangle. I'll turn off the con-

vection switch on my stove, and while that's baking, I'll open a can of cream-style corn and simmer it till it looks like soup and partially sticks to the bottom of the Farberware saucepan I bought last summer at a garage sale.

Trying to watch my weight, I'll skip the strawberry shortcake but will get a fresh can of Reddi-Whip and a package of graham crackers, plop down on the sofa in front of the TV with a 12-ounce glass bottle of Grape Nehi and watch reruns of the

Honeymooners. Now that's comfort!

## Send recipe to contest

What's your favorite comfort food? What's the dish that reminds you of your childhood, that makes you feel cozy, that tastes so good? Send us the recipe, and if yours is one of the ones selected, it will be published in Taste.

Letters should be postmarked by Monday, Jan. 16, and ad-dressed to Comfort Food — Taste, the Observer & Eccentric, 36251 Schoolcraft, Livonia 48105. There will be prizes for the readers whose recipes are chosen

## 'The Cake Bible' is a wow of a text

"The Cake Bible" by Rose Levy for the passionate baker. Beranbaum, William Morrow and Co., Inc., 1988, \$25.

Ask any cookbook collector what's new in books and he or she will hand you a list with recommendations in nearly every food category from eth-nic baking such as "Festive Baking" by Sarah Iaia (Doubleday) to books about food philosophy such as " Seabout food philosophy such as "Se-cret Ingredients: The Magical Pro-cess of Combining Flavors" Michael Roberts (Bantam).

But there is one new cookbook which stands out above the rest, "The Cake Bible" by Rose Levy Beranbaum. My initial reaction was, "Wow!" From the beautiful collec-tion of her artistry displayed in the color photo section in the front of the

color photo section in the front of the book to the long list of endorsements on the back jacket including Jacques Pepin, Madeleine Kamman and Martha Stewart, I was impressed.

In between are 448 pages of easy-to-follow recipes, thoroughly written including scientific explanations guiding the reader on the how's and why's of baking. The last 100 pages or so are filled with dozens of baking charts, a chapter with just about all charts, a chapter with just about all you ever needed to know to bake wedding cakes, and lastly a section devoted to the professional and pas-

sionate baker. "The Cake Bible" is a serious text which would be quite a challenge for the average home baker who has never ventured into cake decorations or genoise batters. More appropri-ately, as Beranbaum describes, it's

GUILT-FREE CHOCOLATE CHIF-FON CAKE

Serves 14 's cup plus i tablespoon cocoa

% cup bolling water 1 % cups sifted cake flour

1 % cup sugar 2 teaspoons baking powder ½ teaspoons salt 6 tablespoons walnut oil 2 tablespoons safflower oil

6 large eggs, separated 4 egg whites

2 teaspoons vanilla 1 1/4 teaspoons cream of tartar

Preheat oven to 325 degrees.

In a medium bowl combine the flour, all but 2 tablespoons of the sugar, baking powder and salt and beat 1 minute to mix. Make a well in the center. Add the oils, egg yolks, chocolate mixture and vanilla and beat 1 minute or until a cake tester inserted in the center comes out clean and the cake springs back when lightly pressed in the center.

Invert the pan, placing the tube opening over the neck of a soda on wine bottle to suspend it well above the counter and cool the cake completely (about 11/2 hours). Loosen the sides with a long metal spatula and

Invert onto a greased wire rack and reinvert onto a serving plate. Complementary adornment: A light sprinkling of powdered sugar or co-

## Get new year underway with corn bread and soup

See Taste buds column, 1B.

Here's a favorite recipe from the Janes gang file that I know everyone will love, and it will make your kitchen smell great, especially on a cold winter's day.

tyle

ed

SUNNY CARROT CORNBREAD (From Cookin Light Magazine) 2 medium carrots, shredded % cup skim milk

1 tablespoon frozen orange juice concentrate, thawed 1 egg, beaten

1 cup flour

1 cup cornmeal 2 tablespoons sugar 1% teaspoons baking powder

2 tablespoons margarine, melted

1/2 teaspoon salt

Combine carrots with milk, of ange juice concentrate and egg. Mix well. Combine all the dry ingredients and mix well. Slowly add to the wet ingredients and combine, mixing well. Stir in margarine and pour into a lightly greased or wellseasoned 8 1/2-inch cast iron frypan.

Bake at 400 degrees for 35 minutes.

Serves 10. About 150 calories per one-10th wedge.

CHEF LARRY'S HOMEMADE CREAM OF GARLICSOUP (Great for a winter cold) 15 large cloves of garlic, peeled

6 cups chicken broth fresh white ground pepper to taste 2 tablespoons flour or cornstarch 1 cup cream

dash Tabasco 1 cup croutons (preferably homemade)

In a saucepan, combine garlic cloves with broth and cook over medium for 15 minutes. Remove from the heat and strain. Using the back of a spoon, press out all the juice from the garlic into the broth. Return to a simmer. Dissolve flour into cream (milk can be used). Slowly add to the simmering broth, whisking while adding. Continue stirring until slightly thickened, about 5 minutes. Correct seasonings with fresh white ground pepper. Just befor serving, add a touch of Tabasco and top with croutons.

## Decorative arts displayed

The Cranbrook Community of Bloomfield Hills was founded by George and Ellen Scripps Booth to showcase the decorative arts in architecture, painting and sculpture — in many traditional and non-traditional forms. Much continues to be pure fine art as well. One of the current exhibits at the museum is

"Recent Acquisitions," works donated by academy alumni and visiting artists. At left is Untitled Vessel by Graham Martks, earthenware with sandblasted black glaze. At right is Carapace III of bronze by Sandra Osip. Hours are 1-5 p.m. Tuesday-Sunday, 500 Lone Pine, Bloomfield Hills.

## Cleaning up after the tree

How does a person clean up those pesky pine needles? What's the safest way to remove candle wax from a favorite oak table? Molly Maid Inc., the nation's largest residential cleaning service firm, has some household cleaning tips individuals can use this holiday season.

For instance: 1. No Need to Pine over Gummed-up Vacuums The festive season can have its downside too - like vacuuming Christmas tree needles after the tree has been taken down. To make this job easier and to save considerable wear and tear on equipment, sprinkle a generous amount of powdered rug deodorizer over the needles before vacuuming. This will coat the needle and the deposit of

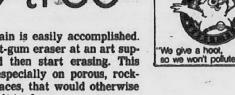

sticky, gummy resin at the needle's base with a fine layer of powder. The coated needles then pass up through the vacuum without leaving resin deposits which after a day or so would be almost impossible to remove.

2. Baking soda or corn meal can be a very effective grease-spot remover from carpets that have been soiled during the holiday entertaining. The spot should be sprinkled generously with baking soda or corn meal, brushed in, left as long as possible (overnight) and then vacuumed. This treatment may have to be repeated for heavy grease stains.

3. Holiday fires may have left smoke deposits on stone fireplaces. Removal of this smoke stain is easily accomplished. Pick up an art-gum eraser at an art sup-ply store and then start erasing. This works well, especially on porous, rockfronted fireplaces, that would otherwise he very difficult to clean.

4. Candle wax can be removed easily from a wooden surface by blowing warm air from a hair dryer on the wax and then wiping immediately with a paper towel. Note: Be careful not to have the dryer set on hot or concentrate hot air flow too long on a spot, or it can damage the furniture finish.

5. Wrap silver serving dishes in alumi-num foil before storing and they will not

condo queries Robert M. Melsner

Q. As board members, we are just plain scared to raise the asessments because of the fact that the homeowners of our condominium are on fixed incomes and/or are retired. I am the only one of the board who says that we must raise the assessments regardless of these economic circumstances. The other members say that they have friends living at the condo and want to be able to look them in the face. How can I move these other

A. Call your insurance company and ask for statistics regarding the number of suits that are being brought against condominium associations and their directors for malfeasance or misfeasance, particularly in regard to not adequately managing the affairs of the con-dominium because of insufficient economic means. Point out to the directors again that they have a fi-duciary duty to ensure that the condominium association is being run

Properly point out to them that, basically, you get what you pay for and that if you are not willing to pay, you better be prepared to suf-fer the consequences which could, in the case of directors, mean potential personal liability.

The penny-wise, pound foolish syndrome at condominiums must be abated if they are to succeed properly. There is an old expression that "He who charges least knows best what his services are worth and the directors of your association should be reminded of that maxim when making decisions regarding the operation of the as-

Q. I am sick and tired of the horse manure which is being dropped on our condominium by the adjacent landowner who seems to think that we are some kind of toxic waste dump. The board

seems unwilling to do anything about it saying that, because we are a rural condominium, we should have to live with this condition. What can I, as a condominium homeowner do?

A. If you can trace the origin of the droppings and determine who the owner of the horse is, you, as a co-owner, have a right, of course, to write the responsible party di-rectly and demand that such action cease and desist. You should also, of course, demand that the board of directors take reasonable steps to ensure that such activities are eliminated, particularly because of the unsanitary conditions an/or health or safety hazards which can develop.

Your board is obviously insensitive to the responsibilities as an as-sociation, regardless of the location and/or topography of the condomi-nium project. Often times, condo-miniums are "saddled" with prob-lems relating to droppings from dogs and other animals in urban situations.

Nonetheless, the association still has a responsibility to ensure that the condominium premises are properly maintained and that dog owners and/or horse owners must take whatever means necessary in order to ensure that their pets do not impair the soundness or safety of the condominium residents or

## Options open to furniture refinishers

AP — It's fun to find a fading piece of wooden furniture at an auction or garage sale and make plans to fix it. Before tackling refinishing, however, keep in mind the item could be an imitation not worth the elbow grease necessary to revive it.

Even worse, the piece could be a bona fide an-tique and removing the original finish could diminish its value.

Traditional Home magazine offers some questions to consider before taking the plunge.

Do you really like it? Just remember that in the

long run, a piece of poor quality or design is rarely worth saving and better left alone. Is it structurally sound? Make sure the furni-

ture is sturdy and intact. Broken slats or missing parts can complicate a project. Can it be cleaned up or touched up? A thorough cleaning and rewaxing sometimes works wonders

on found furniture. Try any commercially pre-pared product that dissolves old wax and grease without disturbing the varnish; check the label for harmful solvents. For disguising minor flaws, the most effective products are wax sticks, pigment-ed liquids and other touch-up products produced especially for repairing wooden furniture.

IS IT VALUABLE? Almost half the value of an antique can be lost by removing the original finish. This is particularly true of country furniture which has been decorated with graining, sponging or old paint. To avoid making a costly mistake, be sure to check with an expert before disturbing the

Is it strippable? Old color can't always be stripped entirely from softwood furniture. Make sure the wood type is identified before beginning. If uncertain, a phone call to an expert should solve the problem.

Is it worth it? Although doing it oneself saves money, personal satisfaction usually outweighs the savings. Keep that in mind when making a decision. If a professional is preferred, research the different method, and get several estimates.

## The 1980s activists use quiet approach By Larry O'Connor staff writer Where have you gone, Bobby Seale, Abbie Hoffman, John Sinclair and Jerry Rubin? Did you take all the young radicals with you or what? All that seems to be left are these drink-Perrier-at-the-bar, drive-a-BMW-car, watch-reruns-of-"Jeop-

ardy"-on-the-new-VCR thinkers. Their idea of social action is to take their Reeboks back to the shoe store to protest because the laces are

too tight. But, lo and behold, the activist of the 1980s does exist.

He's just harder to find. Much of the same reasons spur today's devout activist, such as taking on Big Brother and his web of multinational corporations that seek to contaminate us with dioxons, PCBs and sugar-coated breakfast cereals.

Today's social reformer, though, is more likely to participate in lower-profile forms of protest, such as letter writing and boycotts, than his picket sign-toting 1960s compatriot. The hair is also likely to be shorter and the only thing he might smoke is a Mariboro.

"I DON'T do drugs, so they can't blame it on that," said Bill Boyer, 27, formerly of Birmingham. "Radicals in the '60s did, and they were dismissed because of it. I think the commitment is stronger now.'

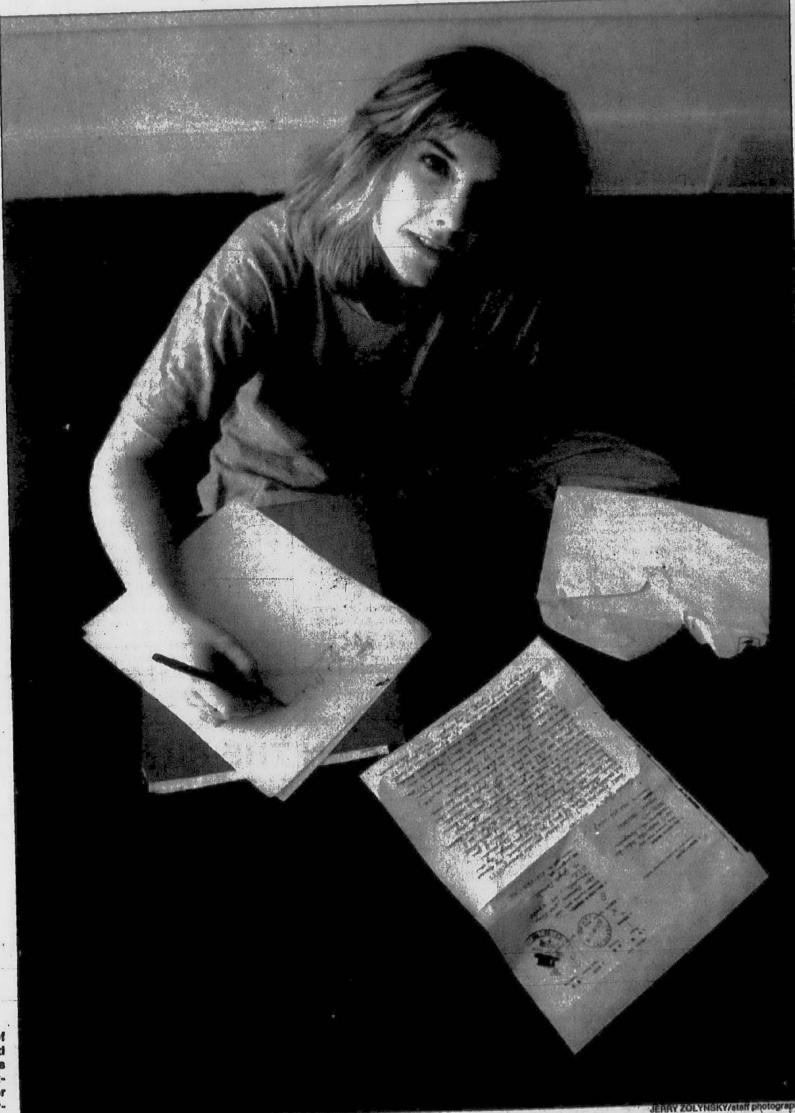

At least it is in Boyer's case. He has shunned his country club upbringing and now lives in the Cass Corridor of the inner city of Detroit, where he works for such environmental causes as Greenpeace and the Green Al-

Boyer is also a musician with local rock bands The Blanks and Angry Red Planet. They do benefits for local theater groups and dance companies.

## Looking for slopes in the right places

By Irle Sanderson Jones contributing trayel editor

Last week we talked about skiing in Michigan. If your love of snow is combined with itchy feet, you might want to consider packing your ski boots off to other destinations.

My new copy of the White Book of Ski Areas lists 700 ski areas in the United States and Canada. To give you some idea of where they are: more than 100 pages contain listings of ski resorts in the western states, especially Colorado; the same number in the northeast, especially in New England; 43 pages in the North Central area, almost half of them in Michigan; 14 in the south; and 43 in

You can also ski all over Europe, and in places as remote as Japan and the Soviet Union.

The Japanese started skiing in earnest after the 1972 Winter Olymples in Sappore; now 20 million peo-ple, or some one-sixth of their popu-lation, hit the slopes every year! The Soviets have always skied, but

this year I notice the first ski package from the United States to the Caucasus Mountains. It is called Ski Glasnost and is available through your travel agent or from STI Inc. Call toll-free (800)-225-2780.

COLORADO HAS always been the big out-of-state ski area for Michigan snow lovers. One of the highlights this year is the 1989 World Alpine Ski Championships to be held at Vail and Beaver Creek Jan. 29 to

This biennial gathering of the world's top amateur skiers includes 12 men's and women's competitions over a 15-day span. More than 500 athletes and coaches from 50 nations will be there. The last time this much excitement was generated by amateur skiing in Colorado was when the World Championships were

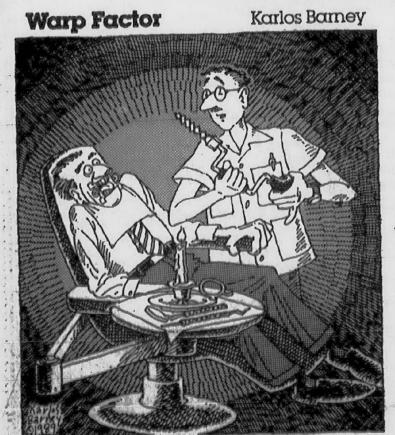

held in Aspen in 1950.

If you are a Club Med fan, you should also remember that there is a ski club at Copper Mountain in Col-

## DFT to open 15th season with 'Murmur'

for a week or two, but the Detroit Film Theatre at the DIA opens its 15th season with a very special event, the re-release of Louis Malle's 'Murmur of the Heart."

This brilliant 1971 comedy about a teenage boy coming of age will be released around the country in February, but the DFT has a special pre-release exhibition in celebration of their 15th anniversary.

Musical score by is Charlie Par-

ker; and the film runs 116 minutes. It will be shown at 7 and 9:30 p.m. Fridays and Saturdays and 1, 4 and 7 p.m. Sundays Jan. 6-15 at the Detroit Institute of Arts, Woodward at Kirby, Detroit.

In coming weeks, the DFT will feature the acclaimed Danish film, "Pelle the Conqueror," "Voices of Sarafina," "Women on the Verge of a Nervous Breakdown," "Salaam Bombay" and "Hotel Terminus: The Life and Times of Klaus Barbie."

Departing from their traditional format, these excepional films will play for two weekends. Watch for details.

With Private Drive, the pin wavers all over the musical spectrum and never finds a spot.

This band is tough to nail down. Listening to the fourmember group invokes a lot of images. One can hear a little Steely Dan, a dash of Elvis Costello, a smattering of blues and a pinch of pop rock ala Little Feat. Private Drive is all of those things, then none of them.

Yet instead of veering off in different directions, onstage Private Drive is a convoy of trucks heading fast down the same lane.

"Whatever music you're into, the band plays well and we communicate with one another," said Kurt Wolak, who is keyboard player. "People can appreciate that."

First, a little introduction is in order. Private Drive is a toned-down version of a previous outfit called The Phones. A six-member band, The Phones performed together for a number of years in the Ann Arbor area and included four of the present Private Drive players.

Members of Private Drive include a self-taught guitarist turned bassist named Kraig Catton, a raspy-voiced lead singer named John Latini (a.k.a. Johnny Jones), a classically trained planist and keyboardist, Kurt Wolak, and a drummer who's performed before Presidents Ronald Reagan and Gerald Ford, Bill Wynne.

CHALKING UP their days with The Phones as a learning experience, Private Drive has recently staked out to claim a name for itself in area music circles. The move is a calculated one.

Before venturing out into the club circuit, Private Drive spent countless hours holed up in the studio and in their basement, honing the songs they play near perfec-tion. The idea is to hit the college radio market with a good recording and then draw on the following that might

Live, there's a certain amount of intrigue. And that's provided by the Queens, N.Y.,-raised lead singer, whose graveled voice is a natural in the haze of a nightclub

Latini provides the band's "street-smart" edge. His 'New Yawker"-flavored vocals serve as a perfect vehicle for songs about everyday life.

"You have to realize with John's voice, we're not going to be doing Johnny Mathis covers," Wolak said.

If anything, Latini's voice gives Private Drive a sort of ige. Latini further enhanced that theory at cent performance at Sully's in Dearborn with his lefthanded guitar style, weaving through bluesy covers like Route 66 "

The guitar licks of The Allman Brothers and Eric Clapton have apparently left their mark.

"THERE WERE these rock bands playing the blues when I was learning the guitar," Latini said. "I stayed down in the basement in Queens and would solo to the album instead of learning the chords. That's not the most disciplined way to learn.

"What I lack in discipline I can cover up with passion,

Another element of Private Drive's music is directed by Wolak. The band is able to add a keyboard sound without sounding like a gaudy version of Happy Kine and the Merth Makers.

Wolak is Dr. Keyboard Knowledge. His experience ranges from classical piano to playing keyboards in a hard rock band.

'More than any other instrumentation, the keyboardist has to be very diverse in what he can put in," said Wolak, sounding very clinical. "Sometimes he just sits in the background and puts very light pads like strings, horns and stuff like that. In our music, I use very natural sound-

"We kind of live by the adage that one of the best musi-cal things you can have is nothing. Musical space, it

makes what you do play stand out more."
Stand out is what Private Drive does in live performances. The music is appealing and quite danceable. In the studio, the band is trying to find the middle ground between the energy they generate onstage and well-produced recordings.

IF ANYONE can pull it off, it's Private Drive. Band members appear quite committed to what they're doing. Even the circumstances surrounding their formation shows a group of people willing to working together.

Latini recalls hearing music through an open window across the street.

As I was leaving the house, I heard those guys. I remember standing by the car saying, 'Wow those guys are hot,' " Latini said. "I was standing out there shuffling my feet thinking, "How can I make an introduction?" So I went up to the window and said, 'You guys sound great.' You can't get any more forward than that."

Catton and Wolak were providing the music. They also provided a hand of friendship and invited Latini in to join

Together, they have moved forward without conscious-

ly jumping on one musical style.
"The only thing we've consciously done is have passion for what we do," Latini said. "We love the music."

Musical styles vary on this album. Ska can be heard in the number making light of the Catholic-Protes-

making light of the Catholic-Protestant struggle in "Kurious Oranj" while "Cab It Up" features the band in the role of upbeat pop rockers. All of the music here is appealing.

For instance the opening track, "Big Prinz," is sparse musically and lyrically. Yet the seductive guitar work of Craig Scanlon and Brix Smith (wife of lead singer Mark E. The sound is basic, really. The overture from "I Am a Curious Orange," a ballet based on the life of William of Orange (who sent King James II packing in the 16th Century) is case and point. The guitar work of Brix Smith on this is stunning while very understated.

Then there is the matter of Mark

E. Smith's lyrics and vocals. As a singer (???), many third string rappers are better. But his self-imposed irony comes through on many tunes with the way he twists and manipulates the lyrics. For example on "Jerusalem," Mark E. Smith opines about ripping the side of his head on a piece of brick. "It was the government's fault/it was the fault."

### THE BIG PICTURE - Broken Yoyo

There are a lot of things to like about the Royal Oak-based outfit Broken Yoyo. They show an unlimited source of energy, intelligent and well-written lyrics along with some fine musicianship.

But, ah, capturing that all on vinyl is often a difficult task. Apparently, that appears to be the case for Broken Yoyo whose "The Big Picture" (Fiasco Records) is even too massive for them to capture effectively at times.

The height of the Broken Yoyo musical euphoria is a big, brassy sound featuring a wide variety of instruments (trumpet, flugelhorn, key-boards and saxophone to name a few). Instead of trying to use these elements as textures, there is a tendency to fire all guns at once.

. As a result, "The Big Picture" never seems to settle in a particular groove. Once you get comfortable with one number, the next one jumps the tracks and goes in another direc-

The song "Don't Wake Up Alvin," penned about convicted murderer Alvin Ford, gathers momentum as a rather enjoyable pop-rock number. Then suddenly, it breaks into a trumpet solo before landing.

These progressive rockers do have their moments, however. The introspective dreamscape quality of "Dairy" is a highlight as are the searing guitar lines produced by Mike Mercatante in the jumpy "One Inch Left."

"The Big Picture" and "Brave Enough to Think" also carry their weight as dance-oriented numbers with thumping bass lines.

Deservedly so, this band has earned a reputation as one of the more innovative groups on the local scene. Live, this band's forte is combining other artforms (theater and literature) with music.

Creativity is certainly not lacking in Broken Yoyo's camp. The string that ties it all together is what's

Volume Two features Charles at his piano-playing best with classics like "Georgia on My Mind" and "Take These Chains from My Heart" like "Hide 'Nor Hair." The second collection also lends some evidence of why Charles is the legend that he has become.

His cover versions of Paul McCartney's "Eleanor Rigby" and Hank Williams' "Your Cheating Heart" display Charles ability to gracefully cross into other genres of

the music, such as pop and country, and leave his trademark with emotionally filled renditions.

Don't believe it? Listen to "Ameri-ca, the Beautiful" and if that doesn't leave you patriotic, then you proba-bly have a red under the bed.

A nice feature to this two-volume collection is the liner notes that tells the story behind each song. Theater's upcoming Polish opera presentation, the Bal Polonals has become one of the premier events of Detroit's winter social season.

It's noted for its appearance of a 17th century/ Polish court — garbed pages, herald trumpeters, jousting knights in shining armor, richy clad dancers leading the Grande Polonaise apres dinner and entertain-ment by Michigan Opera Theater

This year Edmund Cardinal Szoka, Mrs. G. Mennen Williams and Mr. and Mrs. Robert Dewar are the honorary chairman. Continuing as chair-man, a job she's held since founding the gala dinner-dance, is Mrs. Mitchell Kafarski of Bloomfield Hills.

Bal Polonais VI will be from 7 p.m. to 1 a.m. Saturday, Feb. 4, at the Detroit Athletic Club. Tickets cost \$125 per person (patrons \$175 each and benefactors \$250 each). They can be ordered by calling 642-2730 or 646-5250.

## Getting around

Getting around Detroit has just been made easier, thanks to the Detroit Convention and Vistors Bureau.

The bureau has unveiled a larger, more comprehensive visitors guide. The 100-page booklet contains infor-mation about 71 visitor attractions, 154 restaurants, 49 special events, 36 transportation services and much

The guide completes the bureau's Visitor's Fun Kit that includes a visitor's map, hotel/motel guide, "Feel at Home in My Hometown" lure and quarterly events calendar.

The guide is filled with the latest

information on area museums, theaters and parks as well as Detroit history and fun facts.

The neat thing about it is that you don't have to be a visitor to get it. Single copies of the guide are available at no charge from the Detroit Visitor Information Center, 2 E. Jefferson, Detroit 48226.

orado, where the all-inclusive price not only includes the usual food and drink but also the skiing.

FEWER MIDWESTERNERS seem to go east, but New England has some of the country's best skiing. If you have always been curious but have never really explored that, you can get information on several ski resorts through a marketing company called Ski New England, Box 800, Campton, N.H. 03223.

Many of the world's ski areas were developed through the Olympics. Lake Placid, N.Y., site of the 1980 Winter Olympics, holds the Subaru World Cup Freestyle skiing Jan. 13-15; Women's World Speed Skating Championships Feb. 4 and 5; and the Subaru Nordic Combined World Cup March 18 and 19.

All of these American ski states also offer some version of the crosscountry inn-to-inn experience. The hut-to-hut tours in Colorado are pretty basic: huts heated with wood stoves; outhouses down the trail. They are a little less basic, and the skiing less demanding, in the Adiron-dack Mountains of New York.

THE PERFECT combination seems to be in Vermont, where you ski groomed trails through rural farmland to homey old inns. North Wind Touring, P.O. Box 46, Waitsfield, Vt. 05673, is one of several companies that offer inn-to-inn tours.

Some of the continent's mightiest ski mountains are in Canada, especially in the Banff-Lake Louise area and at Whistler, British Columbia. Whistler is one of the few places where you can get out of bed, sling your skis over your shoulder and walk 100 yards or so to the bottom of two major lift systems.

The Laurentian ski resorts are a more likely destination for tis; even closer to home are the ski resorts of Ontario. Blue Mountain in Collngwood is the best known. Call the Canadian Consulate office in Detroit at 567-2340 for information on Canadian resorts.

THE BEST source of information about European resorts is often the national airlines that fly you there. Swissair has guaranteed its prices in U.S. dollars, so the price can't go up if the dollar drops against the Swiss

Swissair offers packages to Switzerland, Austria and France, with accommodations ranging from chalet-style inns to luxury hotels. Prices range from the new Salzburg Ski Safari, \$328 to \$578, to a seven-day vacation in a deluxe French hotel for \$2813. Condos are available at three Swiss resorts, from \$189 for one room to \$1767 a week for a place that sleeps seven.

Air France also offers fairly good packages, starting at \$287, through Jet Vacations. All of these are land package prices and do not include air fare. France is the site of the 1992 Winter Olympics, and the various French tourist organizations have banded together to make it easier for you to buy a ski package in

France. Call (212)-307-8854 for information on various skiing experiences

Lufthansa, the national airline of West Germany, is also a good source for skiing the Alps. Its ski holidays include Switzerland, France, Germany and Austria.

And if you really want to live it up, contact Special Interest Travel Ltd., 125/131 E. Main St., Mount Kisco, N.Y. 10549. Their Collineige Ski Vacations to Chamonix, France, are one option. Their treks to Nepal leave regularly through the winter

and spring.
In all of these cases, your best friend is your travel agent.

## Riding high

They've taking a ride on fame's roller coaster, going from an avant garde Birmingham, England, art school band to rock superstars to oblivion, But a paired-down Duran Duran three rather than five members — is making its presence known again with its latest album, "Big Thingl," and a 1989 tour. The group that soared to the top of the charts with "Planet Earth" will fill the Palace of Auburn Hills with textured

melodic sound and sophisticated use of technology on Friday, Jan. 26. The British group — Simon Le Bon, lead vocals, Nick Rhodes, keyboards, and John Taylor, bass — will take to the stage at 8 p.m. as part of the first leg of its Caravan Duran 1989 Tour. Sun shines on some signs in 1989

What does 1989 hold for you? Evelyn Button has an idea. A teacher, lecturer, radio and TV columnist, Button has taken a close look at 1989

a astrologically speaking and come up with an overview for each sign of the Zodiac for the New Year.

A sun sign astrologer, Button through Jupiter Enterprises, will be offering astrology classes beginning in mid-January. For information, call her at 464-1691.

As for now here's a climpte at some future for the second of t As for now, here's a glimpse at your future.

ARIES (March 21-April 19): The self-starter of the Zodiac may consider some career changes this coming year. This is true for those born March 21 through 27. Aries, in general, liowever, may look for recognition and/or job enhancements. Indicators are also taking place in the joint money department, such as taxes, insurance and/or inheritance. Look for old friends leaving your life as new ones join your circle. Family will play an important role as you mend fences. Your physical body needs attention. Time to start developing some new dietary habits.

TAURUS (April 21-May 21): Your emphasis is to remain open minded since you'll encounter new discoveries about yourself. This is not the year to engage in power struggles in both intimate or casual relationships. Jupiter, the Santa Claus of the Zodiac, leaves your sign in early March. You should have more money coming in this year, however, some of you may spend more then you receive. Just use good judgment. Taurus, a word to the wise — Be yourself and don't be ossessive or overprotective of loved ones. Let them grow at their own pace. The end of 1989 should bring about a quality change for you.

GEMINI (May 22-June 21): Starting in March, you will be the recipient of the benefic planet Jupiter. And it is about time your luck starts changing. However, many of you have started to feel the optimism in early December of last year. You have had a long seven years of strife and sorrow. Make sure you pay all your bills and start putting away for a rainy day. The eclipse in February places emphasis on the home and its environment. It's important you learn to develop your creative imagination and avoid any escapist tendencies. Go out and get that job you either want or need. You have been down for so long that you're apt to be a bit gun shy. The opportunities are there — go get 'em, Tiger.

CANCER (June 22-July 23): Many Cancers have been setting new goals and establishing new life styles. This continues in 1989. It's important that you take off the rose-colored glasses because there are still a few pebbles on the ground which could trip you up. Relationships have certainly not

been predicatble as many of you are still taking a second look at your partners. This is the time to resolve your problems and establish a new foundation. There may be some travel in your plans, while others may chose higher education. Some time after August you may find your waist line expanding. Is it food or fertility?

LEO (July 24-Aug. 23): The romance you had going with the planets is waning. It's time for some serious growth. Look for job or residential changes as there are new faces on your horizons. Power struggles are due for those born between July 31 and Aug. 10. Some Leos may be drawn to original and independent efforts, such as writing, art or other creative activities, while others may discover your shills to be pragmatic in husbests related matters. You conability to be pragmatic in business related matters. You continue to gain recognition for your efforts, but you may start getting bored with your job. Find something you really want

VIRGO (Aug. 24-Sept. 23): Good news is on the horizon. Look to 1989 for relief and rewards. You have been on the roller coaster of life. If it hasn't been one thing, it's been another. However, there is a fly in the cintment. The qu tion might be "do you know where your children are?" Fear not, because the next seven years the planets will surround you with a veil of protection. The birthday Virgos born be-tween Aug. 24 and Sept. 11 will experience the improved changes first. Your job, business and relationships look brighter. Now come on Virgo, be of good cheer because you know you're not the easiest person to live with. Now you don't have any excuses.

LIBRA' (Sept. 23-Oct. 23): Security matters prevail, whether they be family, business or relationships. Just don't confuse your priorities. You, the most diplomatic sign in the Zodiac, may find yourself at a loss for words. It would be wise to decline, if President Bush seeks you out for an ambassadorship. This is a time when outside factors may challenge your actions as well as your words. He this paried to lenge your actions as well as your words. Use this period to plan and program for the future and above all, be patient. Yes, this is a year of trial and error, but not defeat. In health related matters, it would be wise to visit your doctor for that checkup and review your diet. Stress can be such a culprit.

SCORPIO (Oct. 24-Nov.22): Your sensitivity will be showing. You will find yourself more caring and giving to those in need of your time and efforts. The year 1989 continues to bring changes and hard work as well as accomplishment. The very early Scorplos know what I'm talking about. You have been through it. Many of you may look forward to rewards and recognition. Your potentials are greater then

you realize. Just take your time and keep your eye on the bail. It's in your court. The success or failure of your effort depends on how you swing. Don't press your luck. However, it is interesting to note you are in a very favorable career cycle. But I must warn you, Cupid is pointing his bow in your direction.

SAGITTARIUS (Nov. 23-Dec. 21): The waterfall of challenges and surprises of the last seven years is slowing down to a trickle. You can rest easier now. The emphasis in 1989 seems to lie on material resources. Look for rewards and recognition only if you laid a solid foundation. Relationships may require some compromises. The early fall may find you making changes as you set new goals for yourself, such as leaving old groups and organizations and joining new ones.

CAPRICORN (Dec. 22-Jan. 19): Changes, responsibilities and a great deal of patience will test your endurance. You are a strong sign and should be able to handle this, but the real issue this year is having to let go of your need to be in control. Try to be objective as you encounter these sweeping changes along with delays and detours. Look for uneasiness in the area of work and career. Don't get discouraged because when all is said and done, you will rise above it. Many of you will find your work progress is slow, just hang in there because if you play your cards right and lay in that solid foundation, your promotion is around the corner.

AQUARIUS (Jan. 21-Feb. 19): You are the sign of futuristic and forward thinking, and this year you may look to new innovative and creative adventures. Starting in March, you are fortunate to have the blessings of the planet Jup which should bring about some improvements in your financial arena. If you were born between Feb. 1 and 6, look for power struggles, restlessness and the desire to change jobs. This could also be the year of tax audits or small litigations. The month of August continuing through the end of 1989, some of you may have an excessive need to impress people, while others may have a difficulty adjusting to new su The bottom line - excellent period to gain power, if this is

PISCES (Feb. 20-March 20): Your fertile imagination should produce some handsome dividends for you this year. Take advantage of this opportune time. Joining new groups or organizations are just the ticket for self-expressions. You're coming into a year of creative change, but more important to the product of the self-expression of the self-ex portant, your power of concentration will never be better. Authority figures may seek you out for promotions or recognition for jobs well done. You may be the last sign of the Zodiac, but your first on the rung of the ladder. Go for it!

## n search of . . . that 'megabucks' fad

By Loraine McClish staff writer

If fads could be predicted, every president of every toy company in the world would call his board to-gether and start budgeting for the next Hula Hoop, the next Cabbage Patch Doll or the next Trivial Pur-

"But it doesn't happen that way; nobody is budgeting for a 1989 fad," paid Ken Hakuta, better known as Dr. Fad. "There is no image formula. If there was, everybody would be using it. Fads just happen."

And Hakuta should know.

Dubbed Dr. Fad for his extensive work in helping individuals with fad ideas, he and Betty James, mother of the Slinky, are the only two persons In the United States who have had major successful fads and are still in the fad business.

"Hakuta's own success in the fad and fortune world came with the Wacky Wallwalker.

He was introduced to the sticky Jubber octopus-like figure, that, when thrown against a wall, walks down it, when a couple of them were sent as a gift to his children from his parents in Japan. At the time the toy was called a "taco," the Japanese word for octopus.

Hakuta is a marketer by profession, not an inventor. He marketed The toy with its new name here.

It was doing all right - "just so-so over the counter," when newscaster Dan Rather, who was looking for a light-hearted, two-minute segment for his television show, did a piece on the Wacky Wallwalker.

"TWO MINUTES on CBS evening news and 17 million were sold in two weeks." Hakuta said.

More fad fortune was poured upon him when Kellogg used the Wacky Wallwalker as a give-away in its ce-

"Something clicked, that was all," he said. "You could get two minutes on a national prime time television show and nothing would happen. The media experts don't know how to do it. The toy companies don't know how to do it. It just happens.

"Who would ever have believed every other home in America would have a Pet Rock?'

There are two Dr. Fads, according to Hakuta — the Dr. Fad for adults and the Dr. Fad for kids. And when it comes to fads, he "lean towards the

Hakuta has been conducting "The Great American Children's Fad Search" and recently stopped at Vandenburg Elementary School in Southfield as part of his nation-wide tour. He had a message for his 6- to 12-year-old audience.

"I'm looking for the most fun, the zaniest, the wildest inventions I can find," he said. "I want to know just how creative you can be."

Hakuta is convinced that children are uninhibited and open-minded. while adults have been conditioned to accept limitations.

"Once you get a child to rely on his imagination, who knows what he'll

be capable of creating," he said. Hakuta predicts that from his school, radio, and television appeartogether with his just-published book by William Morrow "How to Create Your Own Fad and Make a Million Dollars" and his newly-launched "Dr. Fad" television show, he'll receive 1,000 wild and wacky inventions from children in the metro area.

THE LAST TIME Hakuta was in Detroit was in January, 1987, when he headed up "Fad Fair," a national showcase for inventors with fad ideas which drew about 16,000 visitors.

Hakuta's book is written for adults and contains "everything they want

RANDY BORST/staff photographer

but that's not a problem. With a push and a shove, the brown "brown bear/white bear was invented by a child.

Ken Hakuta has a hard time deciding which bear he likes best, bear disappears inside the white bear and vice versa. The

to know about marketing."

"The common problem for adult inventors is that they first run to a lawyer — and what do they know about marketing?" Hakuta said. "Marketing will sell the fad and that's what I spell out in the book.

"The lawyer will sail them a said."

"The lawyer will sell them a patent and more often than not, that's not what you need. There aren't more than one out of 10,000 that's

good enough to steal,"
The Dr. Fad for klds asked his audience what were the most popular fads of today. The students responded with Nintendo, jean jackets, brand name shoes, skate boards, video games and Barbie dolls.

Fads, yes, but Hakut had a mes-sage for the students.

Expand on those things," he said. "Think about them. Think about what makes them popular. Think about inventing something you want that nobody has invented yet.

"If you want to invent a fad, make that an everyday creative exercise."

And if that creative exercise is fruitful. Hakuta would like to show it on his Dr. Fad Show.

The Dr. Fad Show was created by Children's Television Workshop "the same people who created Sesame Street, which sort of speaks for itself" - and is aired at 6:30 a.m. Saturdays on WDIV-TV, Channel 4.

YOUNG FAD inventors are invited to send their name, address, phone number, a picture and description of their creations to Dr. Fad, Box 11777, Washington, D.C.

"All submissions from kids will be acknowledged," Hakuta said. "Those with the best inventions will be invited - all expenses paid - to be on the show."

As with his fads, Hakuta is convinced "the Dr. Fad Show will go; the Dr. Fad Show will make it." And if it doesn't make it big on commercial television, "we'll go to public broadcasting, because it is a creative stimulus for kids, the best we've got," Hakuta said.

As for fads, Hakuta showed a few of the inventions that either had been or will be shown on his show a miniature couch potato for children only, with a secret compart-ment for hiding candy to be eaten under the covers after lights out, and a mask for bubble gum chewers so large bubbles of gum would adhere to the mask and not to the face.

Dr. Fad also had a few more imaginative examples:

An 11-year-old girl invented a shoe-boot. The boot was made into a shoe or the shoe into a boot with the use of a zipper around the ankle that detached or connected the two piec-

A 12-year-old girl invented a dog collar, so her dog wouldn't get lost when he went out at night. The collar is circled with tiny twinkling

ONE CHILD made a shirt for handicapped youngsters. The shirt appears to have been buttoned down the front, but the front is closed with

One child made a briefcase seat for his father who never could get a seat on a commuter train. Four poles are inserted into two sides of the case that can be removed and attached to the case to make a seat.

A six-year-old invented a card holder for games she wanted to play that required holding too many cards for her small hands.

"And don't forget fads can be reinvented," Hakuta told his audience. "Someone put a board on one skate and the skateboard was born. Then someone put plastic wheels on a board and the skateboard had a re-

But issues regarding the environment really get him rolling. He's been involved in demonstrations at the new trash incinerator in Detroit.

Compared to the people he grew up with in Birmingham, Boyer is definitely a shade different. The kids he went to school with are now in high-paying jobs, He lives on \$100 a week in the inner city, a far cry from the material suburban world he de-

"I was thoroughly disgusted with it at an early age." Boyer said. "They value how you look in subur-ban culture, which goes hand-in-hand with basing your success totally on financial gain."

TODAY'S RADICAL has a tougher go of it than those of the 1960s, Boyer said. Fewer people are willing to make the commitment he has.

Also, there is not one major issue to rally together on, like the Viet-

"For one, the media is less sympathetic to our issues," Boyer said. "And corporate control over the media has increased.

'We're different than the '60s radical in that we do our homework more," he said later. "We know more about dioxins, PCBs and contaminants . . . Today's radical is more educated."

JEFFERSON SHOEMAKER of Troy might agree. But that's probably the only thing he'd see eye to eye on with Boyer.

The Reagan Revolution has bred a new sort of radical. Shoemaker protests, not with sit-ins, but with mu-

Shoemaker is lead singer and songwriter in the rock and roll band, Figure 4. The music they play is reaction to today's steady stream of pop consciousness by artists like Bruce Springsteen, John Cougar Mellencamp and U2 and Bono (or "Bono Bonehead," as Shoemaker refers to him).

"All you hear musicians singing about is how bad it is in El Salvador," Shoemaker said. "You don't hear about the Miskito Indians or the Sandinista farmers who've had to move. It's a great marketing ploy the peace thing. It sells.

"What I can't stand is that if you oppose these people, you're automatically labeled a warmonger."

The band's song content is honed by Objectivism, a philosophy espoused by well-known author Ayn Rand. The main thrust touts the virtues of capitalism. Figure 4 pounds it home in anthemic fashion in heavy doses of loud rock and roll.

GAYLE FARRELL'S form of protest is much quieter. The Bloomfield Hills native is a letter writer for Amnesty International, a non-politi-cal, non-partisan group dedicated to freeing political prisoners of con-

Farrell read an article in Reader's Digest when she was a senior at Oak-land University and decided to join.

Members of Amnesty International try to write three or four letters a month to governments around the world, asking them to release those people imprisoned for their beliefs.

The group also has monthly meetings, where they work on cases re-quiring immediate attention. Farrell finds it quite rewarding.

"It helps me keep my perspec-tive," said Farrell, 27, who is a 1979 graduate of Bloomfield Lahser High School, "I like having a global perspective..."

Farrell lived in Japan for a while and has traveled around the world. She noticed how people abroad seemed to be more politically aware.

FARRELL FINDS the amount of indifference in this country among young people distressing.
"I think it's kind of a sad thing,"

she said. "We're living in Reagan's America where people are more interested in their own nest egg, get-ting their nice car and their M.B.A. instead of writing a letter for a political prisoner."

Boyer and Shoemaker echo similar sentiments. Indifference by people in general bugs them.

Boyer believes TV pacifies people, saying that few homes in the Cass Corridor area have them.

"I'd rather have a debate with some fascist, waving a sign for censorship, than just someone melting in front of the TV," he said.

in front of the TV," he said.

"Those people are more upsetting to me than those people who are committed to an idea that I don't agree with," Shoemaker said. "As long as they have their six-pack of beer, roast beef sandwich and can be supplied to the same on Sanday. watch the football game on Sunday, they're happy. That's fine, but don't drag me down with you."
