2 pick up petitions for commission race

Ex-officer, attorney first to request forms

A former city police officer and a local attorney have become the first prospective entrants in this year's race for seats on the Plymouth City

Jerry Vorva, 36, a student and former city police officer, and John F. Vos III, 49, a lawyer, recently picked up nominating petitions at city

"I feel that the present city administration and present commission has strayed from responsible and prudent government," Vorva said. "I don't think they're financially prudent.

Vorva, a city resident and police officer for 10 years, was fired as a police officer last December for violating departmental policy and showing

He's challenging that dismissal through

Vos, who's lived in the city for 20 years, said he's always been interested in politics and finally has decided to heed the urging of others and run.

"We need a tougher blight ordinance - or at least enforcement of it," Vos said. "We need more community participation in Plymouth, in city government and to get more citizens active on

NOMINATING PETITIONS, now available at City Hall, 201 S. Main, must be signed by at least 25 registered city voters but not more than 50 and returned by Tuesday, June 20.

There is no filing fee.

The terms of four commissioners - Mayor Karl Gansler II, R. Jack Kenyon, Robert Jones and James Jabara - expire this year. Several of that group are expected to seek re-election. All commission, a primary election will be conducted Tuesday, Aug. 8, to whittle the field to eight.

The general election will be Tuesday, Nov. 7. The top three vote-getters at that time win fouryear terms; the fourth-best finisher, a two-year

THE CITY COMMISSION approves the city budget and local ordinances, sets the city tax rate, rules on rezoning (land use) requests and sets general municipal policy.

The commission also hires the city manager, the chief administrative officer in the city and the city attorney.

Commissioners are paid \$10 per meeting, the mayor \$20. The mayor is elected from among its ranks by the commissioners. The commission gen-

Festival plans, ideas backed

Suggestions by an ideas committee to spice up Plymouth's Fall Festival were roundly endorsed for the most part during a special meeting of the festival's board of directors

Now it's up to community groups, civic organizations and local retailers to step forward and sponsor individual events, said Michael Pollard, president of the festival board.

'What we hope to accomplish is the festival will have a new look and feel, and people will enjoy themselves even more than in the past,"

"The exciting thing is the board has listened to feedback from the

community," he said. The festival in recent years has been criticized for being too food-

Probation is set for interfering with cop had no criminal intent.

By Doug Funke

A Canton woman convicted of interfering with a police officer in conjunction with an alleged trespass last spring at a Plymouth church received a deferred sentence last week from Judge James Garber in 35th District Court.

Cecile T. Jean, 45, was directed to report to the court's probation department monthly for 10 months, ordered to do five days of community service work and assessed court costs of \$100.

Garber will review the case after 10 months and make a formal disposition that could range from a \$100 fine and up to 90 days in jail to dis-

missal. "If she does stay out of trouble, and I suspect she will, the likelihood is the case will be dismissed and she won't have a (criminal) record,"

The case was unusual in that legal precedents couldn't be found to mesh with the facts peculiar to the inci-

Growing financial losses closed store, owner says

The owner of Pease Paint on Main in Plymouth said mounting financial losses prompted him to suddenly close the business for good at the end of the day Saturday, April 15.

"My account was cleaned out. There is no money left," said Sheldon Laxer, a West Bloomfield resident who bought the business in June

"It was never making a lot of money," Laxer said. "It was either break even or a small profit."

All customer accounts will be made good, he said.

"We've called everybody that's called us," Laxer said. "We've gone through our files."

Rouge fish unsafe, PCB tests reveal

By Peggy Aulino staff writer

This is no fish story: Don't eat anything you catch in the Rouge River.

That bit of advice might seem an obvious rule to live by, but it was issued as a recommendation last week by the Michigan Department of Public Health.

State environmentalists discovered unsafe levels of PCBs in fish taken from the area of Phoenix Lake. The lake straddles the townships limits of Northville and Plymouth and feeds the Rouge River.

"There are people who are suste-nance fishermen. They fish for food and many times they don't heed the advice" of public health officials, said Larry Chadzynski, chief of the state department's Center for Envi-

ronmental Health Sciences. Chadzynski said the state has not received complaints of PCB-related illnesses because of Rouge fish con-sumption. And contaminated fish would have to be eaten continuously over a long period of time before ill-

ness would occur. But he said the levels were sufficient for the department to issue a warning.

BILL BRESLER/staff photographer

Skin conditions that "can be disfiguring" are commonly associated with PCB poisoning, Chadzynski said. Long-term effects are not known, he said.

The department's advisory covers the Middle Branch of the Rouge, downstream from the dam at Phoenix Lake, and the Main Branch, downstream from Ford Road to where the river empties into the Detroit River.

The species of fish that were tested and deemed unsuitable for consumption are: Northern pike, largemouth bass, smallmouth bass, bullheads, channel catfish, carp and white suckers.

Chadzynski said the Department of Natural Resources is conducting an investigation to determine the source of the contamination. He said the culprit could be someone who dumped something into the system or it could have come from runoff.

Cris Kuharich has been poking around houses since she was a child.

Now, instead of being sent home by
the police after being caught in a
home under construction, she gets paid for pursuing her interest.

Kuharich, a 34-year-old Canton

resident, is the owner of Home Investment Security Inc. The company inspects houses and issues a report

"I go in your closets. I shake your shelves. I slither through crawl space. I stick my head in the freezer to see if it works," Kuharich said in describing some of her duties.

Kuharich is typically called upon by a potential buyer after he or she has signed a pre-purchase agree-ment. Her job is to make sure the buyer doesn't get any unwelcome surprises upon moving in - like a

pliance that doesn't work.

The most fruitful places are attics and crawl spaces, which she said are "like gold mines to an inspector."

"If there's a problem with leaking roofs, you're going to find it in an attic," she said. And if the foundation is cracked or there are problems with plumbing lines or electrical wiring, those will show up during after a trip through the crawl space.

The inspection can take three to four hours. The result is an "unbiased" 30-page report detailing the strengths and weaknesses of the structure.

"I'm not here to pass or fail a home. The only person who can do that is the buyer. I'm there to tell you what the working components

Kuharich sometimes has quite an entourage with her during the in-spection. There's her client (the buyer), the seller, a real estate agent and perhaps the buyer's parents.

"It gets a little cramped," she said, but having all those people there can expedite the settling of details. If some small repair job needs to be done, the seller might agree on the spot to take care of it, for in-

Kuharich's clients are often firsttime home buyers, who she said are sometimes driven by impulse.

"Buying a home is an emotional thing," she said. "You're attached to this. You've found your dream home. You're already placing furniture in your mind."

It usually doesn't occur to such people to turn on the shower and make sure it works or to look for water marks in the cellar.

-In the nearly two years she's been in business, Kuharich said she has been "surprised how many people spend 10 or 15 minutes in a house, then say they like it because it feels

"They don't notice that the thermostat's jacked up and there are space heaters everywhere," she said. Kuharich came to house inspect-

the teacher. Her service — for which she charges 10 cents per square foot up to 2,000 square feet and 5 cents thereafter — includes providing cli-ents with information on how to make basic repairs.

Being a female in a traditionally

male field has not hurt her business.

Kuharich said.

"First-time home buyers, especially men, are more receptive to having a woman tell them how easy it is to caulk," she said.

Sometimes, she has found herself explaining even more basic aspects of owning a home. Kuharich once

went to show a client how to chan the filter in a furnace. When she opened its door, the woman who was buying the house gasped: "There's a fire in my furnace." To which the real estate agent replied: "But darling, there's supposed to be a flame in there."

Crawl space is inspected.

Census set for next April 1 — no fooling

By Tom Henderson staff writer

Numbers were the topic of conversation last week when U.S. census official Dwight Dean addressed a meeting of the Southeast Michigan Council of Governments.

The census is nearly a year away - it will be held on April Fool's Day - and Dean was at Edison headquarters downtown to deliver a status report and to appeal for help from local officials as the national

day of counting heads approaches. The numbers ranged from the huge (the 250 million citizens the census expects to find) to the relatively small (two to three, the number of months field workers will be Other numbers discussed:

• \$35 billion — that's the amount of federal money, such as health and human services funds, that is allocated annually back to states and counties based directly on local census counts.

• 106 million - that's how many questionaires the Postal Service will mail out on March 23.

• 435 — the number of seats in the House of Representatives. As population changes from state to state, that number remains a constant, which means that House districts are redrawn every 10 years. Michigan is expected to lose one or two of its 19 seats in the House.

• 8 — the number of local census offices yet to open up in southeast-ern Michigan, including three in De-

Changing Expectations:

A Blueprint for Surviving and Thriving in The 90s

With the 1990s quickly approaching, isn't it time you discovered what it's going to take to survive and thrive throughout the next decade? The first two lectures examine women's roles in the past and the coping skills they'll need to help them make it through the 90s. The third lecture is for everyone who wants to learn to laugh more at life and turn that laughter into a way to build a healthier outlook on life. All lectures are presented by mental health professionals from Mercywood Health Building.

Being a Phymouth resident, I learned the hard way the facts on the new insumment policy, implemented by the city of Plymouth. duced (so I thought at the time).

This year, 1969, my assessment was increased the full maximum again, plus, the difference from my 1966 reduction for a total of 21 percent. In calling the Plymouth City Hall, I learned of the new Plymout policy whereby everyone with a re-duced assessment from the previous year was hiving the difference added to the 1900 assessment.

Once again I appeared before the Plymouth Board of Review and have just received two letters stating that unent was reduced, but my assessment was reduced, but only by the difference from 1988. I am still left with the maximum in-

crease for 1989. After all that - it hardly seems fair. Where is the justice? Is there anything to be done about the new assessment policy from the city of Plymouth? Although the Observer did warn it's readers about heavy asits for the next five years, I am still one angry Plymouth resi-

To the editor:

In today's Plymouth Observer M.B. Dillon reported that school board member Barbara Graham recently disrupted a class at Plymouth-Canton High School.

According to Graham, she "had time to kill" and "wanted to just walk around." She went on to say that she "got up into the English department . . . where some of our controversy comes from."

What is going on? When I "have some time to kill," should I stop by the school system administrative offices for an unannounced visit?

Apparently Graham doesn't believe art or newspapers belong in a

Gay column was unfair

To the editor:

I would like to comment on the letter written by David Seemann in regard to John Minuth's C.E.P. Perspective article.

I totally agree with his dispute. The comments aimed at the gay population totally disgust me. What is this world coming to? I thought our society was filled with enough appal-

Yes, Minuth has his rights, and yes, the press has the freedom to publish his opinion; but at what cost to our society? How could anyone in their right mind condone murder?

What a lame justification that the intellect was a severe of the statement of the state

Does sexual preference make one any less a human being? Should that nce take away constitutional

Sadly enough in this violent society, Minuth's opinion is probably shared by many. Bigotry and violence will continue to run rampant as long as we live in the dark ages. Adolph Hitler used preference of the Jewish faith to destroy human be-

ings and spread his hatred and fear.

Just one example Minuth could learn by "doing his homework." Journalism is a powerful force, why not use it to promote humanistic, rather than barbaric, attitudes, Mr. Minuth? As a former staff writer for the C.E.P. Persepective, I am saddened by such irresponsible and misguided opinions.

Visit was appropriate

Your editorials of April 20 expressed your opinions regarding my recent visit to Canton High School. You are certainly entitled to your opinion. I am however, entitled to be 'judged" a bit more fairly. For intance, what is the source of information from whence you collected the "facts" you printed? Example 1: I am not a member of CBE. CBE chose to support my election because we agree on a number of issues regarding school policies. Example 2: how is it possible for you, or any other adult to state that I "demanded to know the names of students who had read the paper," when I was the only adult in that classroom?

You are entirely correct in stating that "teachers have the right to use acceptable materials in the classroom." Because I took with me a "free" hand-out for class use, does not mean that I had any notion of "censorship" as you accuse. How am

I to be able to make any determina-tions about materials if I am not al-lowed to read them?

I fail to see how I have "abused"

the system by visiting classrooms here. A bit of research indicates this is now, and has been, a common practice by other board members.

During my visit to Canton High School, I personally viewed a num-ber of circumstances that I considber of circumstances that I considered not to be in the best interest of student education. I did not report these items to the admir the school board because it is un-timely, and can be addressed later. So, if this 'issue gets put to rest so school officials and voters can look at school miliages," perhaps that can best be served when the press stops

"gossip mongering"! Barbara Graham — Trustee Plymouth-Canton Board of Educa-

Education concerns

To the editor:

Your paper has recently printed a number of very informative articles regarding the 4-mill tax increase and 8-mill renewal proposed for our school district. Although I am not yet a parent I am very concerned about the quality of education the children in this community receive.

All taxpayers should be equally concerned because of the long-term effects on potential leaders of this community. I support the additional 4-mill tax and renewal of the 8-mill tax simply because it is the right thing to do. The Plymouth-Canton school district is one of the largest and best managed in southeastern Michigan. Many people move to this area because they want to raise their family here. I suggest that the Citizens for Better Education attend Board of Education meetings more regularly and also seriously consider subscribing to the Observer & Eccentric. They seem to be focusing their energies on misinformation, and their lack of foresight could po-tentially cause a hardship to thousands of students.

The article on March 30 by Marybeth Dillon seemed to fairly represent a very small segment of the prevailing opinion in our community. I hope we will hear or read opinions from other citizens.

Also competing Saturday will be bands and orchestras from Hartland High, Millington High, Mt. Morris High, Port Huron High, Waverly High in Lansing, Lakewood High in Lake Odessa, Three Rivers High, Benton Harbor High, and Flint Central High.

CEP musicians in Market owner tastes success

By C.L. Rugenstein staff writer

Joe Randazzo, owner of the new Randazzo's fruit and vegetable market, wanted to come to America so badly he did it twice.

The new market at the northwestern corner of Newburgh and Warren, a measure of his success, is his fourth and largest.

Built at a cost of about \$3 million, the 25,000-square-foot building in Westland also will have three-acres for nursery stock in two months.

Randazzo, who owned a piece of land near the new shopping center at Warren and Yale, had intended to

But Westland Center wanted the land, so Randazzo sold it at a profit and relocated to the present site.

THE PROFIT made from the land sale reflects the success of Randazzo's life since he made his first trip to America in 1953.

A native of Sicily, Randazzo said "wanted to come to America so badly," he got a job on a boat and worked his way over. But he did it without first getting required passport and visas and was deport-

He would go out early in the morn-ing and "sell from the back of the truck" in neighborhoods, he said.

He bought his first piece of property 25 years ago on Detroit's east side, at Seven Mile and Outer Drive.
"I built the foundation myself, dug it with a shovel," he recalled. With the help of a friend he built the 20 by 90 foot building that houses the original Randazzo's fruit market. With hard work, the hazingen "green and hard work, the business "grew and grew," Randazzo said.

He added a second east side location, and seven years ago expanded to the west side in Dearborn Heights. But the heart of his operation and main warehouse is still the Seven Mile market. He has a cooler there that can hold "100 rail cars of food." he said, and it's full now.

Over the years he's added five trucks to move the produce from the main warehouse, and 350 employees to staff all four locations.

County officials seek larger hike in gas tax

staff writer

Members of a state legislative committee got an unusual message when they held a hearing Friday on proposed tax increases: Taxes would not be he raised enough under the plan, said a group of representatives from Oakland and Wayne counties.

The three House bills are known by sponsors as the "Safe Roads Packages." They would:

· Increase the state tax on gasoline from 15 cents to 17 cents, raising about \$90 million annually for state transportation needs.

· Add a fee of one cent a gallon to all petroleum products at the refinery level, raising about \$55 million annually.

· Allocate \$14 million of the refinery fees to clean up leaky underground storage tanks.

• Allocate the remaining \$41 million in fees to finance up to \$410 million in bonds for construction and maintenance projects by the Michigan Department of Transportation.

But members of the House Transportation Committee, which met Friday morning at Metro Airport, were told repeatedly by local officials that the money for roads was inadequate and that their constituents would support larger tax increases earmarked for roads.

The officials expressed fears that not enough money would be spent in southeastern Michigan, and urged that the gasoline sales tax be raised by five or six cents a gallon.

WAYNE COUNTY Executive Edward McNamara was the first speaker before the committee, which was chaired by Rep. Curtis Hertel, D-Detroit. Committee member James Kosteva, D-Canton Township, was present, while member Mat Dunaskiss, R-Lake Orion, was not.

McNamara asked for an increase in the gas tax of six cents.

FRIDAY

APRIL 28th

He said that 40 percent of the 1,415 miles of county roads are classified as inadequate and that 61 of 254 county bridges need major repairs or replacement.

McNamara quoted a state study in 1984 that predicted a shortfall in the county of \$700 million in available funds just to repair road deficiencies, and said that money would have to be found for new roads in and around the airport if development there is to incre

"Without a source of new re these new roads will not be built and in effect, we have managed to dismember economic development for counties like Wayne and Oakland," McNamara said.

"The cost of continuing to postpone an increase in the statewide soline tax would be devastating gasoline tax would be devastating for Wayne County and all the counties in the state," he said. OTHER SPEAKERS in favor of a

larger tax increase than the two cents the House proposes included Southfield Councilwoman Barbara Talley; Troy city manager Frank Gerstenecker; Del Borgsdorf, Ann Arbor city administrator, Wyandotte Mayor Jim DeSana; and Brent Bair, deputy managing director of the Oakland County Road Commission (see related story).

Bair blasted the current proposals, saying that Oakland County alone needs about \$940 million over the next 10 years to build and maintain roads. He recommended:

• The state fuel tax be increased by two cents a year for each of the next three years.

• Putting half the money into an Economic Development Fund for road improvements in areas they are critically peeded, such as Oakland

County. • Increase the percentage of gas tax revenues that go to urban areas. Talley told the committee that Southfield needs \$71 million in the next six years to build and maintain roads and bridges.

"A two-cent or three-cent gasoline tax is not enough," she said. "In Southfield's opining, the five-cent gasoline tax will begin to address the needs and alleviate some of the road (and) transportation problems. Just give us the legislation, and Southfield will work to garner the support."

There is a real financial crisis in K-12 education. I would go as far as a full penny with 60 percent going for K-12 schools, 35 percent for universities and 5 percent for community colleges.

Gov. Blanchard later issued a statement endorsing the Harden proposal, adding he favors "an additional proposal to provide permanent relief from rapidly rising property taxes."

Turkey is versatile and light

Having been part of the con-sortium to eradicate the generic term "light" from our culinary conversations, I will mention, but only once, that turkey is today's "light" meat.

Unfortunately, many of us still relegate turkey strictly to Thanksgiving Day and the sub-sequent days following. Howev-er, with modern processing techniques and Americans following a more healthy lifestyle, a trip to the market can have us encountering turkey breasts; turkey ham and individual wrapped turkey legs (Dad's favorite), not to mention a whole flock of turkey luncheon meats and, now, ground turkey.

When I was growing up in Wyandotte, hamburger was a big part of the Janes Gang diet. Mama frequently concocted casseroles of goulash, loaf pans brimming with meatloaf and gi-ant skillets of tacos and sloppy

Back then, Mama would send me to the local A&P with orders to "search out the best pack of stewing beef you can find." It was then up to me to push the little buzzer that summoned Mr. Stevens, the butcher, who always so graciously offered to grind it into "burger" the way your Moaa wants it."

Ah-ha, but times they are a-

IN THE JANES Gang freezer, seldom does a piece of red meat cross paths with the Popsicles. A quick glance, however, will show numerous packages of ground turkey, ready to be made into this week's pre-planned menu consisting of lasagna, spaghetti sauce, Swedish meatballs, chili and the family favorite,

turkeyburger pie. Ground turkey is becoming more and more popular, especially in the metro area. Last year, you would have had to search out frozen tubes of ground turkey, sometimes hidden under those big 20-pound whole suckers in the freezer case. Today many markets are featuring an assortment of ground turkey brands (e.g., Louis Rich, Longacre Farms and Mr. Turkey) in the frozen case, easily in view between the Cornish hens and Jimmy Dean's pork

In recent months, however, yours truly has noticed that many markets are offering fresh ground turkey. A recent trip to the Shopping Center market near my home found fresh ground turkey at \$1.99 per pound and the frozen varieties available at \$1.19 per pound.

Of course, prices vary wherever you shop, and I've seen the ground turkey, when it's on sale, for as low as 68 cents per pound, with most averaging between 99 cents and \$1.09 per pound. Compare that to fresh ground stewing beef and you will notice more than a 50 percent savings.

What's even more important is the fact that ground turkey is much lower in fat, cholesterol and calories compared with ground beef. Ground turkey is, at minimum, 50 percent lower in fat compared with other ground meats.

NEEDLESS TO say, it's a great choice for a diet low in calories and cholesterol. Of course, because of this lower fat content, ground turkey offers a higher proportion of usable protein compared to other ground meats. Need proof? Brown up a pound of hamburger next to a ound of ground turkey. Cheat a little and use a "lean" hamburger. Then, pour off the melted fat and compare. The results are shocking.

So before you all rush out and gobble up (excuse the pun) all the ground turkey, there are a few more things you should know. Try not to view this as a negative response, but when I prepare ground turkey, I find it to be somewhat bland.

An invitation to the Hilden home in Farmington Hills might mean an evening lounging in the hot tub. On the other hand, it might be the ticket to a home version of the

"Gong Show." "You only live once," said Hilden. "Enjoy yourself. Relax and enjoy yourself and have fun."

Sue Hildon, a 41-year-old owner of a tanning and body-toning salon, and her 43-year-old husband, Russ, owner of an oil company, have been throwing parties for as long as they can remember.

The Hildens' style is casual and informal, and based on a strong desire to be with friends and family as often as possible.

"We have very wonderful friends, and we love to have them around," Sue Hilden said. "Many times we entertain on the spur of the moment. After a couple of weeks have gone by, I start thinking about what we can do to get together.'

The Hildens, formerly of Livonia, moved to Farmington Hills about two years ago. The house, designed with entertaining in mind, has a swimming pool, indoor hot tub, special stereo system and lots of sliding doors leading to the backyard deck.

SIMPLE, EASY-TO-EAT foods are the norm. Often guests contrib-ute favorite dishes for the buffet

Sue Hilden always tells guests how to dress so they will be comfortable and in tune with planned activities. Although she often dreams up a theme, she's flexible.

"When you give a party you have to go with how things are going," said Hilden, noting that guests sometimes prefer to chat rather than play games. "I take my cues from the guests. I'don't plan a lot ahead of time."

Hilden favors active pastimes, such as pingpong tournaments and relay races. She especially enjoys teaming up people of different ages.

"In Livonia we had a small home but that didn't stop us," she said. "I enjoy most the different age groups and how they get along."

Children are always welcome at a Hilden get-together. And friends have learned to be good sports about the activities. One of Hilden's more outrageous themes was a "Gong Show" party, in which her friends had to risk the "gong" while performing their "talent."

"They made me promise I would never do it again," Hilden said, with

The family's cottage near Jackson is the setting for barbecues, hot dog roasts and parties several times a year. Especially popular is the Hildens' annual Halloween party, which last year drew 200 people to the cottage property.

Guests drove down a dark, winding road to the beach. Along the route were assorted costumed characters jumping from behind bushes to keep everyone in a proper Halloween mood. Activities included a scavenger hunt to "gather ingredlents for the witch's potion," Hilden

PARTYGOERS dined on grilled Italian sausage, kielbasa and sauerkraut, chili, pumpkin pie and

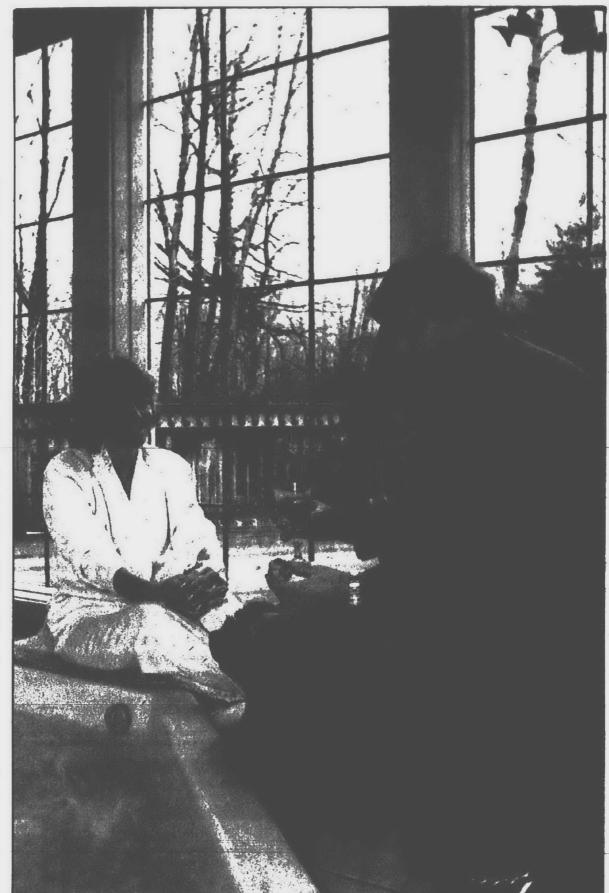

caramel apples. ."That's our most elaborate party," Hilden said. "We actually had strangers come and ask if they could pay and attend."

The fun-loving Hilden is planning a lip-synch theme party. Presumably, her guests will impersonate a singer and mouth the words on a

"I may lose all my friends after that," Hilden said.

Hilden says she doesn't like to serve the typical lasagna and baked-beans party fare. She prefers simple but delicious foods, prepared "with a twist." She generally decides in advance if the party will feature a main meal or assorted finger foods. "I usually don't combine the two,"

Katz, a Bloomfield Hills homemaker, likes nothing better than serving wonderful meals on a dinner table decked with flowers, fine china and fresh, crisp nap-

"It's really a labor of love," Katz said. "It's very exciting."

Katz and her husband, Samuel,

owner of a Madison Heights produce market, host several dinner parties each year. They are generally elegant, formal affairs for friends and family members.

The guest lists range from "intimate" groups of 12 to as many as 30 or 40 people. Usually the dinner is a complete, sit-down meal, but occasionally it is a buffet.

Although Katz does hire people to serve the meal, she does all the cooking herself on the day of the party. And she never serves the same meal

"I put all my energy into cooking, from start to finish," Katz said. "It's the way I want it to be. The cooking part has never been anything but a pleasurable experience. I don't use

Giving a dinner party affords Katz the opportunity to indulge her creative energy, from planning her theme and issuing unusual invitations, to setting a beautiful table and cooking a special meal.

HER THEMES may be seasonal, such as springtime and flowers, or whimsical, such as "ritz and glitz," or "buttons and bows." Although the theme is reflected in the decorations, Katz usually doesn't stipulate an unusual dress code.

"I don't like people to be inconven-ienced," Katz said. "I would rather that they just come and enjoy the

Invitations, mailed four weeks in advance, often reflect Katz's flair for the unusual.

"I think it sets the mood," she said. Once, for a springtime theme, Katz attached an invitation to a single silk flower packed in a florist's box. Each box, containing the innevative invitation, was delivered to the prospective guest's home. Katz said guests seldom turn down an invitation to one of her dinner parties.

Three days before the party, Kats sets her dinner table. She has several sets of fine china and fancy napkins, which she likes to mix and match for maximum effect.

Antiques are used as accent pieces. "I think a table should be dres like a woman," Katz said. "I love setting the table. It's a form of art, for me. The effect is never boring. Each person is interesting, and each place setting should be"

KATZ'S LOVE of cooking was nurtured as she grew up watching her grandmothers, both from Eastern Europe, prepare favorite foods and roll dough for fragrant, tasty strudels. As she grew older, cooking became an increasingly satisfying

"I tried to emulate them," Katz said. "It just carried over. I began with small dinner parties. Friends would call me and ask me how to cook. I enjoyed being able to tell them how to do it."

Katz would rather cook than eat in a restaurant. Her repertoire ranges from soup to desperts. And, she said, some of her happiest moments are spent in the kitchen, hasting the meet and talking with her three grown daughters.

A main meal party might consist of a hig pot of beef streganoff, served with needles, a special blend and a huge saind her. Dessert usual-ly comes from the bakery because, "I'm not into baking," Hilden said.

Oh HILDEN might set up a make-your-own sundae bar, offering ice cream and several toppings.

"If people are having a good time, nobody cares as much what they are leating," Hilden said.

Finger foods, too, are innovative. For example, Hilden likes to deepfry thin strips of boneless chicken breast and serve it with several isauces for dipping. Or she serves small wedges of spinach pie, minia-

STUFFED MUSHROOMS

Hilden also likes to stuff fresh mushroom caps with bread crumbs mixed with Parmesan cheese, garlic salt and onion salt. She tops off the stuffing with mozzarella cheese and bakes the mushrooms until the cheese is melted.

Mistakes are taken in stride. They go into the memory bank and provide laughs at a later time.

Once Hilden popped a turkey into the oven but forgot to turn on the heat. When she discovered her goof, she rushed the bird to a neighbor's microwave oven for a faster heatup.
"You have to laugh and go along,"

Hilden said. "Too many people want everything to be perfect."

"Yes, I'm always nervous, to some degree," she added. "I think maybe

it's more anticipation. The key is to let the party take its own direction. And have a nice group of friends."

PARTIES HAVE given the Hildons many hours of pleasure. But equally important to Sue Hilden is the effect entertaining has had on her children, ages 18, 23 and 23 years. "They learned to relate to older people at an earlier age."

Although Hilden enjoys relaxing at other people's parties, she can't escape her hostess instincts. She often finds herself reaching out to help other guests feel comfortable.

"I wouldn't have as many parties if I didn't like my friends so much," Hilden said. "I feel sorry for people who can't enjoy themselves. They are too afraid to be themselves."

"You eat with your eyes," she said. There are always little tricks in cooking and it's the tricks that make the difference. How you cut things is as important as how you cook them."

FOR A RECENT Passover dinner, Katz planned a special entree of baked chicken breast stuffed with mushrooms and unleavened matzoh.

With the chicken she served Idaho potatoes, which she peeled and sliced, three-quarters through, at an angle. The potatoes were seasoned with onion powder and garlic powther and paprika, rolled in olive oil and sprinkled with either sesame or caraway seeds. They were baked unbovered one hour at 350 to 375 degrees in a baking dish greased with

SANDERS TOURS

Free tours of the Sanders Plant in Highland Park are conducted by appointment Tuesdays-Thursdays. Call 868-5700 for more information. The tour provides a behind-the-scenes glimpse of candy making, where small batches are still made by hand. Guests also will observe the art of cake decorating, donuts traveling on conveyors above their topping from a 100-year-old recipe slowly cooking in copper kettles, and ice cream being frozen. There are 18 Sanders stores in Oakland, Wayne and Macomb counties.

McNamara will veto payment to jail site runnerup

staff writer

A \$30,000-a-year payment to a city that doesn't obtain the new Wayne County Jail will be vetoed, a spokesman for County Executive Edward McNamara said Friday.

One day earlier, county commissioners narrowly approved a consolation payment to either Hamtramek or Highland Park if the other city obtained the jail. Payments would be spread over the 10-year life of the county's voter-approved 1mill jail tax and would total at least \$300,000. Payments could also be extended if the jail tax were renewed. The losing bidder would also receive free use of five jail cells.

Hamtramck and Highland Park are considered the leading candidates for the new jail.

While the county will provide an annual stipend to any community that obtains the jail, deputy county executive Michael Duggan said attempts to pay a runner-up will be

"IT'S NOT legal," Duggan said. "Our charter makes it clear we can't do something like this for one community unless we do it for all the other communities in Wayne Coun-

The county will pay a stipend equivalent to property taxes to the community receiving the jail, even though the jail would be exempt from local taxes.

"In concept, it's similar to what Livonia receives from the state for having a race track," Duggan said. "But Westland and Redford Township don't receive anything for not having the track."

Even without the veto, the proposed consolation prize isn't enough to make Westland officials interested in promoting a site within their

"I'VE KNOWN about it from day one, and it makes no difference, Westland Mayor Charles "Trav" Griffin said. "The property will eventually generate far more than that once it's developed.'

Westland is a rumored jail site because it contains Eloise, more than 300 county-owned acres, formerly the site of a poor house and a mental hospital. McNamara has said the jail would be built on the Westland site unless another community stepped

not be chosen, because both Highland Park and Hamtramck are lobbying for the jail. But if it were, officials said, the city would make demands of its own. "I could guarantee you that." Griffin said.

Commissioner Arthur Blackwell II. whose district includes both Hamtramck and Highland Park, proposed building a jail in each community. McNamara administration officials said such a move is unlikely.

Commissioners were sharply divided on the issue of payments to the community that didn't receive the

"It's not what the voters voted

for," said Commissioner Kay Beard. Beard's district includes Westland and Garden City.

Commissioner Milton Mack, D-Wayne, said the county couldn't afford a policy that would make payments to unsuccessful bidders.

"It would be bad policy for the county to make payments in this fashion," said Mack, whose district includes Canton Township.

Other area commissioners supported the proposal. Commissionr Richard Mannning, D-Redford Township, called the payments "fully justified".

The \$30,000-a-year payments could be used for community service projects to be performed by offenders instead being sent to jail.

"It's not a gift," Manning said.
"The money will be used for work that will benefit the county."

Blackwell added the work could be performed in any community, not just Highland Park or Hamtramck.

He said it was difficult to get any community to step forward to accept the jail.

The problem was getting anyone to show any interest," he said. Blackwell added that Highland Park's entry has forced Hamtramck to reduce its demands, saving the county money. "You find me a community that wants to take a jail for free," he said.

ACTIVITY AFTER A JOINT INJECTION

Traditionally, after you had medicine injected into a knee or shoulder, you were expected to remain at rest, even go to bed, for 48-72 hours.

The reasoning was that the injection gave you immunity from pain, and without special rest you might 'overuse' the joint and add injury to inflammation. Recently medical researchers tested the validity of this assumption. Patients receiving joint injections were divided into two groups: group 1 received 2 days of bedrest following a knee injection. Group 2 upon receiving their injections, were instructed to continue their usual activities with no restrictions. The researchers followed both groups for 6 months. During that period on-going evaluation found no difference in the effectiveness of the joint injection between

The investigation concluded that bedrest conferred no extra benefit after joint injection. They recommended that patients be encouraged to remain active and so avoid the possible blood clots, bed sores, muscle weakness and depression

that comes with prolonged rest. Quite likely, when these studies were validated by experience, an early return to regular activity will become the practice after knee and shoulder injections.

Salem earns right to claim top billing

By Dan O'Mears staff writer

Plymouth Canton will remain the defending Class A champion until it puts that title on the line in next month's state tournament.

But there's a new No. 1 at the top of the high school girls soccer rankings this week in the wake of Plymouth Salem's 2-0 victory Friday in the battle between unbeaten and topranked teams.

The Rocks, 4-0 and ranked No. 2 a week ago, moved into the penthouse after defeating previously No. 1-rated Canton behind the excellent goalkeeping of Jennifer Emmett and breakaway goals by Sara Hayes and Michelle Minton.

"It means a lot," said Salem coach Ken Johnson of the significance of the victory. "The girls will have confidence the rest of the way. They'll have the desire to hang on to that record, go for the shutouts and do well in every game."

Emmett, though only a freshman, has been a great addition to the Salem team and somewhat of a surprise. She was a central figure in Friday's game and remained unscored upon in four games and nearly 300 minutes of action.

EARLY IN the second half, she came out of the goal to make a save in front of Canton's Shannon Meath, resulting in a collision between the two. Later, after Jenny Russell's penalty kick hit the left post, she covered the ball to avoid a scramble in front of the goal.

"It doesn't matter how good your team is if you don't have a good goalie," Johnson said. "The other players need to know they have somebody in back of them. Now they have confidence in her, and they know she's going to hang in for

'The other players need to know they have somebody in back of them. Now they have confidence in (goalie Jennifer Emmett), and they know she's going to hang in for them."

> - Ken Johnson Salem soccer coach

Hayes gave the Rocks a 1-0 halftime lead and all the scoring they needed. She picked up a pass from Minton while on the run, and a breakaway opportunity opened up in front of her.

Canton goalie Michelle Fortier came out to meet Hayes and blocked her shot. But the rebound caromed off Hayes, who regained control of the ball and continued her charge on the goal, shaking off a defender to score in the open net.

"(Fortier) did what she was supposed to do," Canton coach Don Smith said. "She came out and took it away, but it wasn't meant to be."

Foot speed was a factor again in the second half when Minton scored on a similar play. The junior center/ striker charged down the left sideline, keeping the ball in front of her until she lifted a crossing shot that was too high for Fortier to reach.

"THEY HAVE a good defense, but

what helped us was our speed," Johnson said. "We were better at that. Speed in soccer is very import-

"Jill's passing and Michele's speed kept them off balance. Michelle loves to use the whole width of the field. She likes to run out and come back and go for the through ball."

Canton had a number of near misses, but the Chiefs rarely attacked the Salem goal in concentrated numbers, failing to create moments of confusion in front of the

Smith blamed himself for Canton's lack of a team-oriented offense.

"We didn't involve the halfbacks in play as much as we needed to," he said. "We were trying to do too much with the forwards up there. I don't think I substituted enough at for-

"We tried to outrun them, and that's not good soccer. We've got to do it more as a team. I think the team realized it when it was all

Salem's defense, spearheaded by Maria Wordhouse and Jennifer Marshall with support from Melissa Uhl and Kim Larner, played a pivotal role in the outcome, also.

ON A PLAY early in the game, the ball eluded Emmett's grasp, but Wordhouse raced in and put herself between the goal and Meath, knocking the ball out of bounds. Johnson pointed to the six seniors

in Salem's starting lineup as being a key to its success thus far. Wordhouse, Uhl, Estey, Teri King, Larner and Missy Smith are the seniors.

"All six seniors start, and I think that's the difference between this year and last year," Johnson said. There's a little more maturity."

Howie Blanchard started on the mound for the Rocks and was exceptional, allowing one run on four hits and a walk in five innings, striking out two. Rob Kowalski relieved and matched Blanchard's performance, giving up just one hit in two innings while striking out four.

Teams's goal: To be sport's best

By Dan O'Meara

Pat Boyle Chevrolet men's modified fastpitch softball team is expecting good things in

First of all, the Western Wayne County-based ballclub has a new sponsor. The team, formerly known as FGS Radiator, will play under the banner of the Belleville auto dealership.

Secondly - and possibly just as important to the team's aspirations - veteran pitcher Al White has returned to the team he founded in

White, one of the best-known pitchers in the modified game, departed for Florida five years ago and helped a Miami outfit win a national championship.

And that's just what the 15 players on the Boyle Chevrolet team hope to do.

THE TEAM'S player/manager, Don Dreher of Plymouth, and longtime team member Dave Brubaker, formerly of Farmington Hills, sought a bigger sponsor in hopes of enhancing those chances. They believe they have found the right sponsor in Boyle Chevrolet, which liked what it saw and when Dreher and Brubaker made their

The team hopes to upgrade its travel schedule and increase its level of competition.

"We've been trying for eight years to win a national championship, and we're hoping to fund some out-of-state tournaments," Dreher said.

Boyle Chevrolet begins regular season play today in the Livonia Parks and Recreation Modified Division I League and also will compete in the Plymouth Modified Fast-Pitch League.

The team has won the Livonia title five of the last seven years and has been the Plymouth champion eight years running. Furthermore, the club has held the title of Metro Detroit champs six consecutive years and seven of the last eight.

In addition, Boyle Chevrolet will take on the renowned King and His Court, featuring pitching whiz Eddie Feigner, and will sponsor a home runhitting contest in July.

UNDER ITS former title, Boyle Chevrolet finished third in the nation in 1983 and tied for ninth last year, and it was at the big tournaments the team realized what it was up against.

While most of the nationally regarded outfits receive extensive sponsor support, the local players fancy themselves as "the blue-collar guys from Detroit." The team has made a tradition of playing in BP's National Invitational in Atlanta every year, finishing as high as second place last

Dreher said a player from another team at that annual tournament asked how much his players were being paid.

I told him we get a uniform, our name on the back and some entry fees;" he said. "He couldn't believe we weren't getting any money.

"It's also tremendous incentive for us to go out and compete against these guys. One time the (opposing) manager had to call home and explain why they lost. We kept saying 'Let's make this guy make another phone call.'

Helping to increase Boyle Chevrolet's outlook for '89 is the fact it has two outstanding pitchers. Curtis Richards of Livonia is another longtime member who has developed into one of the top modified pitchers in the country.

IN ADDITION to Dreher and Brubaker, the team's catcher, the Boyle Chevrolet roster includes Charlie Johnson, outfielder, Plymouth; Rick Dreher, outfielder, Canton; Keith McMana-way, infielder, Westland; Jeff Campbell, catcher, Novi; Dan Pierce, outfielder, Plymouth; Scott Collins, outfielder, Wayne; Jim Stoitsladis, outfielder, Livonia; Kevin Dial, outfielder, Ann Arbor; Dan Cook, outfielder, Livonia; and Mike Kessin, infielder, Canton. White lives in Canton.

Boston Marathon tough test for 'Flying Johnson Sisters'

All the training runs in winter's wrath were history. It was Patriot's Day in Boston, and 18 Redford Roadrunners were among the 6,418 runners excitedly awaiting the start of the 93rd Boston Marathon in the hamlet of Hopkinton.

you. He looks good.' "I said, 'I don't care,' " laughed

Seconds ahead of Swanson, Frank completed his second Boston - his 15th marathon.

"I'd say the temperature was in the high 60s. I got sunburned," said Frank, who included a 30-mile run in his training program.

Vicki Webster of Livonia finished her first Boston Marathon in 3:46.

"I wish I could have done better, but I'm glad I finished," said Webster. Webster ran the first mile with her sister Laura before Laura left her to try to catch Donna.

"You've got to do it once to enjoy the course and the spectators — it's great," said Webster. "You wonder what makes Boston so special — I think it's the crowds. There are so many people; all the elite runners; and the whole thing starts in this small little town of Hopkinton. The marathon just overwhelms this

Plymough Salem's top girls track soorer this spring has been Jennifer Harris, a dynamite junier wie won three more events Thursday.

The Rocks improved their dual-meet record to 2-4, winning every event in a 112-16 rout of visiting Northville.

Harris' wins came in the high jump and the two The Rocks weren't tested in the field events,

scoring wine by Tara Murphy in the shot put (28-646) and discus (78-9), Harris the high jump (4-7) and Kim Ploucha the long jump (15-6).

Harris' winning time in the high hurdles was 16.65, and she took the low hurdles in 50.44.

"Jenny's pretty solid in those three events," Salem coach Mark Gregor said. "She leads more by ability — because she's a junior — and leaves the leadership to seniors and our co-captains (Traci Thomas and Rima Zayed)."

The other Salem victories went to six different runners. Andrea Kinnelly won the 100 dash (13.5),

Nikki Wygonik the 200 (28.7), Melissa Benoit the 400 (1:08.5), Thomas the 800 (2:41.2), Amy Hobgood the 1,600 (6:00.4); and Tammy Hickey the 8,200 (13:43.6).

The Rocks also won all four relays. Plouchs Wygonik, Tracey Livermore and Kinnelly won the 400 in 54.7. Ploucha, Wygonik, Trish Hill and Zayed earned a first in the 800 (1:54.1). Salem took the top honor in the 1,600 as Hobgood, Benoit, Jenny Marshke and Zayed clocked 4:43.22, and the 3,200 title belonged to Alison Rybski, Marshke, Payal Parekh and Thomas (11:056.

THE SALEM BOYS also triumphed Thursday, winning its second dual meet without a loss at Northville, 72-65. Northville slumped to 2-2.

Roger Parry excelled in the field events, winning the high jump (6-0) and long jump (19-2%). He also picked up a win in the high hurdles, clock-He also picked up a win in the high burdles, clock-ing 16.4, and he was second in the low burdles.

Salem's four running wins came from Joe Pawluska, 400, 54.06; Dave Hamway, 800, 2:09.34; Scott Stryker, 1,600, 4:50; and Sean Speakman. 3,200, 10:40.43.

The team depth in the distance runs was a factor again. Brendon Masterson was second in the 800, Greg Christensen second and John Thomas third in the 1,600 and Thomas second in the 3,200.

Leon Hister, Todd Marsee, Pat Bowie and Matt Perron claimed first place in the 400 relay (48.36), and Thomas, Bob Anzivino, Hamway and Masterson took first in the 3,200 relay (8:48).

Falcons win No. 5

By Steve Kowalski staff writer

Farmington coach Cathy Cole was talking to a reporter Friday after the Falcons' 2-1 win over host Livonia Stevenson, when Margaret Martin interrupted the conversa-

"We're doing our best to give you an ulcer," said Martin, a junior

A mild understatement.

Carrie Maier, a multi-talented senior forward, scored both goals for Farmington, including the game-winner with only 22 seconds

Maier, who scored a hat trick in a game earlier this year, ended a wild scramble in front of the Stevenson net by sliding the ball pass goalkeeper Alicia Smith.

THE WIN opened the Western Lakes Activities Association Lakes Division schedule, and gave Farmington a 5-0 overall record. This is Cole's first year at Farmington after spending the past few years at North Farmington.

And there's no doubt where her loyalty stands.

She enjoys all the suspense.

"I love them," Cole said. "They're real dedicated, hardworking athletes. It went right down to the wire in both halves. I expected a tough game, knowing the tradition and history of both teams. I thought we'd play hard to the end."

Shannon Wilkinson, a freshman midfielder, tied the game for Stevenson at one with 6:12 left in the game, but the Spartans weren't able to put the game-winner by Farmington keeper Debbie Westerkamp.

This was the first coaching loss ever suffered by Stevenson firstyear coach Mary Kay Hussey, who played on two Class A Stevenson

where you are."

champions earlier this decade. The Spartans are 3-1 overall.

"IT FEELS worse as a coach (to lose) than as a player," Hussey said. "But we'll be OK. Farmington's a good team and Carrie Maier is as good as you'll find. It was a great game. I put my best defensive player (Lisa Thomas) on her but Carrie's awesome - and Lisa played great."

Maier was a standout at the end of both halves. She scored the game's first goal just before time expired in the first half when she raced by the Stevenson defense and pushed a loose ball by Smith.

Maier's game-winning tally came after a cross by Amy Trunk The ball bounced off a few legs before it finally got to Maier, who knows what to do when she gets it.

"It was all a team effort," she said. "We built it up from the backline and Amy made a great crossing pass. The whole team scored the last goal."

Maier, Trunk and Sue Gibson double as athletes in the spring for Farmington's track team and that makes them more effective in soccer, Cole said.

"CARRIE IS real quick - one of the top five runners in the 200 (meter dash) in Observerland," Cole said. "Being able to run the field really helps them, and Carrie is a very disciplined, well-skilled player. She's very skilled and works hard because of that."

Stevenson outshot Farmington 8-6, and seemed to pick up the intensity a notch in the second half. The Spartans had several chances in the second 40 minutes, getting a boost on the frontline by the play of senior co-captains Sharlene Sudek and Karen Carney and sophomore Lori Godlewski,

Maier's goal at the end of the first half discouraged Stevenson, but Hussey wouldn't let the Spartans get down.

edged host Livonia Stevenson and the Bloomfield Hills Cranbrook B team to win the Spartan Tournament

The Chiefs, who won titles at three flights, had 11 points, while Stevenson and Cranbrook notched 10 each. The fourth team, Lake Orion, won only one match and scored one point.

Cranbrook is a perennial state contender in Class B tennis, and the Cranes offered formidable opposition even with their second unit.

"Their second team is a fine tennis team." Canton coach Jim Hayes said, "because I saw them play and they can play tennis."

The tournament format devised by Stevenson coach George Croll called for two flights of singles play and six doubles flights.

"George did a great job of organizing and conducting that tournament," Hayes said. "Too often the people responsible do all the hard work and don't get any credit."

Canton's Dan Orlandi was the No. 2 singles winner, defeating Cranbrook's Jason Karolak in three sets, 6-4. 2-6. 7-5.

"He's playing better tennis than he ever has at Canton," Hayes said. "He's working real hard and has been a solid performer."

The No. 1 singles championship went to Stevenson's Roland Wolff, who defeated Jim Gallagher of Canton. 6-2. 6-2.

Canton's Brian Schmidt and Chris Harper won the No. 1 doubles flight, and the Chiefs also had the top team at No. 3 doubles with Jeff Binder and Scott Jones. Stevenson's Phil Haratsaris and Shane Millner captured the No. 6 doubles title.

No. 4 doubles, Jeff Hines and Brad Flowers drew special praise from Hayes. The duo took Cranbrook's Dave Rhee and Adrian Gough to a first-set tie-breaker before losing the final, 7-6, 6-4.

Mercy rebounds to sweep Regina

Farmington Hills Mercy got back on the winning track in a big way Friday, sweeping a double-header from host Harper Woods Bishop Gallagher, 6-

The Marlins, 8-4 overall and 4-4 in the Catholic League, lost a double-

header Tuesday to Livonia Ladywood.

Amy Edward picked up the win in both games, going the distance in Game 1 and throwing four innings in the nightcap before giving way to reliever

Mercy trailed 3-2 after four innings of Game 1, but Pam Thompson gave the Marlins the lead for good in the top of the fifth, driving in a run with a

Kathleen Berrigan, Kerry Sayers and Thompson had two hits each, pacing Mercy's seven-hit attack. Edward accounted for the Marlins' other hit, a double, and drove in three runs.

Sayers stole three bases and scored three runs, while Berrigan had two RBIs and scored a pair of runs.

Mercy scored four runs in the fifth inning of Game 2 to give it a 5-0 lead.

Aimee Cox was 2-for-2 with two RBIs in the second game. Kim Reichard and Jenny Gondek drove in two runs each during the fifthinning rally with a double and single, respectively.

FARMINGTON 11, STEVENSON 4: Melissa Tisdale had a double, triple and three RBIs Friday for visiting Farmington, as the Falcons upended Livo-

Lisa Rockafellow tossed a complete game to earn the win for Farmington, allowing nine hits and walking nine. Dianne Buszka suffered the loss and was pulled after three innings.

Rockafellow helped her cause, going 3-for-4 with three RBIs.
Kelli Miller, Niki Italia and Carie Palmisano had two hits each for Stevenson, with Miller driving in two runs.

FRANKLIN 19, HARRISON 6: The only thing Farmington Hills Harrison had going for it Friday was the home-field advantage. Livonia Franklin trounced the Hawks in a game called after five innings because of the mercy

The Patriots smashed eight hits off Harrison and improved their record in the Western Division of the Western Lakes Activities Association to 2-0. Jenny Mayle worked five innings and scattered three hits to pick up the win for Franklin. Karen Brown's bases-loaded triple in the third inning highlighted Franklin's rout.

Northville pitcher quiets Canton bats

Amy Friemund is one of the area's best softball hurlers and Friday she proved why, leading Northville to a 2-1 win over visiting Plymouth Canton. Friemund went the distance for the Mustangs, scattering four hits, walking only two and striking out 15. Twice the Chiefs let Friemund bale herself out of trouble, stranding runners at third base.

Canton starting pitcher Stacey Thompson didn't back down from Friemund's challenge, throwing a one-hitter over six innings. An error led to one of Northville's two runs in the fifth inning.

Stacey Arnold gave Canton a brief, 1-0 lead in the top of the fifth, crossing the plate after she was sacrificed to second and Northville made a throwing error.

Wednesday, the Chiefs took advantage of Walled Lake Western's pitching wildness to defeat the visiting Warriors 11-6.

Canton had only three hits but capitalized on 14 walks. Thompson, the winning pitcher, allowed four hits but issued only four free passes. She struck out five while going the seven-inning distance.

"We're not hitting the ball, but when the pitcher gives you 14 walks she's not throwing a lot of strikes," Canton coach Dave Racer said. "I'm a little concerned about not hitting, but the balls just aren't finding the holes right **O LONG-DRIVE CONTEST**

story this way.

"At active polits, Tem was complaining that his social were constricting that toer and causing them to curf up. He was trying to do to curf up. He was trying to do something about it on somebody's lawn when a woman came up and asked if he was having problems. Tom said, 'Yes, I think I'll have to drop out, I need new socks.'

"This woman had blue knee

socks on. She began to strip down, and gave him her socks. Believe it or not, they matched his shoes perfectly," said Webster.

"Her little son asked if he could

have his autograph. Tom didn't have time. He was running the

Gerou ran 3:13, despite his sock

Roadrunner Melba Hatch of Canton, in Boston to cheer on the runners, was proud of roommate Fran O'Connor. O'Connor, who ran 3:37, "looked so fresh. She didn't even look like she'd run a marathon," said Hatch, a champion masters runner.

O'Connor must not have felt like it either. She was - the only marathoner Hatch saw opt for the hotel stairs after the run. "Everyone else used the elevator," said Hatch. "She walked up five flights

John Wehrly finished his fifth consecutive Boston in 3:18, re-qualifying for next year.

"I really got to smell the roses. I wasn't in shape to run a P.R., so I got a chance to see everything," he said. "I must have slapped all but three girls' hands at Wellesley."

Thousands of college students and their moms and dads line a mile-long stretch of the course that passes their school. Their cheers and applause are so loud they can be heard half a mile away.

Lyle Hamilton of Southfield, also a first-timer at Boston, battled cramps and dehydration to run

The highlight for me was the crowd." said Hamilton. "The noise and the support are unbelievable. The people of Boston make you feel

lthe regulty the whole weekend."

Hamilton is hoping his brain cells regenerate.

"After the glycogen goes, you burn brain cells. I'm hoping they

Mike Webster of Livonia was "shooting for 2:45, but I throttled back to sub-2:50 when I saw how

"The last mile got a little tough I ran out of gas. But I ran a P.R. by 16 seconds, so I was really happy."
Like Wehrly, Webster enjoyed
the women of Wellesley.
"I think all the males run their

fastest mile there. It really fires you up," said Webster, Vicki's hus-

SANDY DOMAGALSKI, 29 second fastest Michigan female runner, finished in 3:13, easily requalifying for next year.

"I took it easy the first 10 miles, and then I took off," said Domagalski. "At 15, my quads started feeling bad. I didn't know if I'd finish at that point. The thing that brought me back was gravity. That was the only thing that pulled me to the finish.

Despite feeling poorly, Domagalski ran practically even splits -

JOHN SPRINGER of Redford Township had a 2:40 in mind. He ran 3:07 and had "the worst day of

"My calf muscles really started cramping up about 10 miles, and it got worse. By 19, I thought I'd pack it in. I kept looking for 22, where I knew some friends were going to be. Once I got there, I figured, I've gone all this way, I may as well finish. My muscles will recover

some day," he said. "The Jeff Galloway book burning party is coming up," added Springer. Galloway is the author of a book and over-distance training program that Springer unfortunately read and followed.

Ken Schrader, who entered the race as Wildcat Drew, "never felt as good" in a marathon. He ran

2:20:50 and "someone had to grab me at the finish-line to slow me down, I ran a consistent race.

"It was my first Boston, and not the list," said Schrader. "All the way you get goose bumps on your arms when the crowd yells, 'Go arms when the crowd yells, 'Go Michigan.' They look up your number, and cheer for you."

Larry Huff; in fact the splits the nned to run were penned on

We got separated at the first water stop, and that was the last I saw him," said Schrader. Huff fin-

Jim Wahl stopped several times, said fellow runner John Wehrly. At the 25-mile mark, a spectator came up to him and asked, "Would you like some water?" Wahl said yes, and waited. Xiid waited, and

"Eventually Jim looked up, and saw the guy walking down the street. He was just curious. So Jim got up and walked again," he said.

Dominic Vella of Livonia ran 3:21, and masters runner Hugh Sweeny of Novi clocked 3:37.

Bill "Bull" Boyd of Canton, Detroit Free Press International Marathon masters champion in 1985 and 1986 with a pair of 2:36's, attempted Boston despite lingering knee trouble

"I knew in the first couple of miles I would't make it. I couldn't push off on it," said Boyd.

Boyd had to drop out at mile nine, but he took it in stride. "I've had a lot of good times running. You have to take the good with the had" he said

To runners on the bus to Hopkinton marathon morning, it looked like Boyd was having a great time. He had a can of Bud in his hand.

"It was a beer can filled with Exceed. But I really shook 'em up," said Boyd. Larry Schlanser is a veteran

Boston marathoner who didn't enter the race this year. How did it feel to be at work instead of on the streets of Boston

'Horrible. Go ahead and quote me," said Schlanser. "I looked at the clock at 2:15, I could visualize

the hills at 18 and 20 . . . it was terrible stuff. Just awful."

For the avid bowler, season keeps rolling

r MUST HE THAT TIME of year, when we get ready to put the bowling hell away for the num-mer and put the heat in the water. rait a minute, what do we have

Spring and summer insgrees.

They're being formed all over town, with lote of air-conditioned action for those men's leagues, kids leagues, woner's afternoon teams and bowling, mixed leagues and trite — all kinds of activities and usually at better rates.

letiques and trice — all kinds of activities and usually at hotter rates.

Although we are still finishing up the regular season, this is the time to check the bulletin boards and find the right summer action to suit your own preferences. Many of the spring and summer leagues have a 10-week season, so there is less of a commitment and since most of them are not sanctioned, this is just a need time to been up with and improve good time to keep up with and improve your skills. The summertime is also a good time to get those lessons from the local pro, who can tell you all the things you are doing wrong, and then get you straightened out to be the "top gun" in

IN THE NEXT few weeks I will compile a listing of who and where the best are fortunate enough to have some of the best professional instructors around. Many are great bowlers in their own right, but also have the ability to convey the idea and concept to the aspiring howler to score better and get much more out of your game. Bowling is fun and when you can do well, it is even more fun. The summer season is also the time to consider whether or not you need new equipment. To buy or not to buy, that is always is the question. If you are going to obtain a new ball, the off-season is really the best time, since you have all summer to go out and practice at reduced rates and get used to the new ball. I will have some up-to-date information a few weeks along about the various new balls avail-

· Every once in a while, dad can be pretty proud of his kid. This dad is no exception, as my 16-year-old son, Don, rolled his own personal best game last Saturday in the high school league at Country Lanes with a 278. This is the high score for the league. The very next day he came back with a 289 game in the Ward's Invitational Travelling Youth Classic at North Hill in Rochester

• The Michigan Cancer Foundation is conducting its Third Annual "Bowl with the Stars" tournament, which will run from April 22 through June 2. Among the six area establishments participating is Merri-Bowl in Livonia. They host this event the evenings of May 2, 3 and 4, starting at 7:30 p.m. Among the celebrities who will participate include former

10-pin alley Harrison

Tigers star Bill Freehan and Rod Hansen of WJR in Detroit. The area finals will be held at Marri-Bowl. The first prize is \$3,500 and the entry free of \$25 will include a souvenir towel and a snack. The proceeds will go to the Michigan Cancer Foundation.
For more information, call the Michi-

gan Cancer Foundation at 833-0710.

Motown sound lives

on walls of museum

It's where it all began.

If you close your eyes, you can picture Stevie Wonder at the black grand piano or Diana Ross and the Supremes standing behind the microphones.

It's Studio A at Hitsville, U.S.A., a small record company that in 1960 became Motown, and no, it's not the fancy studio in which you'd expect that all of those great songs were recorded.

It's a drafty room with poor lighting and a small control booth, and it's in the basement of a home on Detroit's West Grand Boulevard, bought by Motown founder Berry Gordy Jr. back in 1959. A family loan of \$800 was enough to get the now multi-million-dollar empire started.

"Motown was something that just evolved," said Esther Gordy Edwards, Ber-

ry's older sister and director of the Motown Museum, housed in the Hitsville building.

"We didn't set out and plan to make history.
"Berry started as a songwriter while he was employed at the Ford Motor Co. on the Lincoln Mercury production line," she said.
"I remember he used to say that if he didn't have songs on his mind he wouldn't have been able to get through the day."

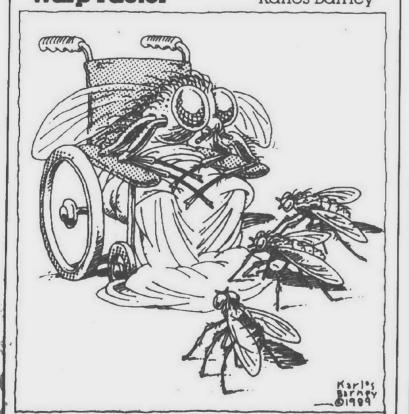

So, one day he quit his \$85 a week job and decided to write songs for a living, much to the dismay of their parents, Edwards said. He wrote all of the songs for Jackie Wilson, including "Lonely Teardrops" which helped launch his career.

GORDY'S ORIGINAL plan was to make recorded masters in his basement studio which he would sell in New York as an independent producer, Edwards said.

When spring comes to Michigan

By Iris Sanderson Jones contributing travel editor

Q: Now I know how a tulip must feel, sitting there under the ground waiting to explode into bloom. I've got my fishing rod and my golf clubs ready. I'm tired of hearing about how its spring down south! When does the action start in Michigan?

A: Hang on to your golf and fishing hats. Spring is about to bust out all over, even if the leaves have forgotten how to turn the trees green. Golf, fishing and flower time is on its way!

Tulip Time will turn Holland, Mich., into garden city May 15-20. While you are waiting for that, you can hit the maple syrup festivals in Shepherd and Vermontville April 28-30.

That seems to be the first real weekend of spring this year, even though spring is officially a month old. The National Trout Festival is on in Kalkaska that weekend and the Walleye Festival is going on in Freeland April 29.

They've got a kite fest in Kala-mazoo April 29-30 and a bike-athon at the farmer's market in Ann Arbor April 30. If you really want to know what its like to bust out of the earth into spring, consider the Blossomtime Festival in Benton Harboor April 30 to May 7 or the Mushroom Festival in Mesick May

Come June 2-4 you can sample the pleasure of canasis such waterways as the Haron River in Ann Arbor dur

Mushrooms are Michigan's way of telling you its spring. They've got a mushroom festival in Harrison May 6, the Morel Mushroom Festival in Lewiston May 13 and the National Mushroom Hunting Championship at Boyne City May 13-14.

You'll notice that a lot of those events are on the west side, so you can do several in a weekend, if you're really busting out into apring. Do the tulips in Holland, explore the boutiques and bed-and-breakfast places in Saugatuck, and then go mushrooming hear Traverse City.

IF GOLP IS more your style, there is a statewide "Golf Michigant" promotion, offfering free clinics for beginners, at several dozen courses around the state May 15 to June 16. And Grand Travers Resort is offering free golf, raque ball or tennis to their gold

'See You in the Morning': Nothing soapy in this film

Baron Munchausen" (PG) is "great entertainment for all ages." She's quite right, there are some scenes which might frighten younger chil-dren. Our society's widespread acceptance of gratuitous, graphic violence and explicit sexuality in the media tends to numb us after a while and I just didn't stop to think as I praised the film beyond its rating.

Speaking of apologies, film distributors owe one to our metropolitan community. Woody Allen's "An-Woman" (PG) opened Friday with little fanfare and no advanced screening. Rather strange for a Woody Allen film starring, among others, Gene Hackman, Sandy Dennis, Mia Farrow and Gena Rowlands.

What's wrong with the Detroit market in the minds of Orion execs? The film opened nationwide last October and is the story of a college professor (Gena Rowlands) discovering her true nature.

Among the film's unusual attributes, the accomplished principal cast members, with the exception of Mia Farrow, all are making their first appearance in an Allen film.

"Another Woman" may not be the greatest film produced, but it is the 17th Woody Allen has written and diket decide for itself? To top it off, the video of "Another Woman" has been advertising as available on May 25, just a month after its local theatrical premiere.

Accomplished casts are the main item on this week's agenda as two of the eight new films feature bravura performances: "See You in the Morning" (A-, PG, 112 minutes) and "Jacknife" (B+, R, 95 minutes). In fact, if both films had been as good as the acting, we would all be in some sort of theatrical heaven.

In "See You in the Morning" Alan Pakula ("Sophie's Choice") has concocted a finely textured film and drawn superior performances from a masterfully adept cast.

On the surface it's perilously close to well-done soap opera, but Pakula straddles that line between daily soaps and refined, moving sentiment. He has turned out a sometimes annoying, sometimes touching statement about the problems of family life and making marriage

Despite their apparent idyllic family, New York psychiatrist Larry hivingston (Jeff Bridges), is informed by his wife, Jo (Farrah Fawcett), that her wandering libido dictates a divorce.

Meanwhile, Beth Goodwin (Alice Krige) suffers as her husband, Peter (David Dukes), looses his ability to perform as a concert pianist. After his suicide, she meets Larry. Ultimately, they resurrect their lives through love and commitment as well as the comprehension that to nurture marriage and family requires devotion and a massive exnditure of effort, energy and emo-

In spite of these major structural faults, superb performances by De-Niro, Baker and Harris, along with excellent photography and fine music, create an excellent, albeit painful and emotionally wrenching film. There's a number of other, lesser

movies this week. "Speed Zone," (Z) (PG) 90 minutes, is so bad that some of the audience left before it started. Words such as "stupid," "ridiculous" and "dumb" come to mind, but they are inadequate to describe this lame continuation of the "Cannonhall" series. Many talented stars cannot save such a poorly written, bady directed, slow-paced film with an infantile mentality.

'Record': A TV nightmare

The Record" (at the Tele-Arts this week) is a remarkable little Swiss film about the hazards of being a couch potato.

It's a hard film to categorize. It starts out as a crime thriller, turns into a broad satire, then with a twist of plot, becomes science fiction. Not knowing what to expect next of this film is one of its weird charms. Rico (Uwe Ochsenknecht) is a

handsome, shifty young punky type who runs a video piracy ring with his girlfriend Bigi (Catarina Raacke) and techno-wizard pal Banana (Laszlo I. Kish). They make illegal tapes of the lat-

est first-run features, which they deal out of their video store. An obsessive video addict, he dreams of owning his own illicit broadcasting

In order to raise the revenue for this new scheme, Rico comes up with a publicity stunt. He will set a world's record for TV-watching by spending 180 hours in front of the tube, with no interruptions, not even sleep. A greedy sponsor talks him

By the last 48 hours of his self-imosed ordeal, Rico is a weeping, babbling, half-psychotic wretch who looks like Michael Keaton in "Beetlejuice" and hallucinates that what

FOOLISHLY, he persists, pushing the boundaries of TV viewership beyond the known limits of mortal capability. As a result, he undergoes a horrible transformation, somewhat similar to what happens to William Hurt in "Altered States," only rather than reverting to a beast, he is catapulted into electronic vegetabledom.

Both films feature a very hip, urbane, rock and roll sensibility, yet they are as mushily romantic as anything dreamed up by Hoffmann or

JUST AS Wender's angel hero finds bliss through the love of a mortal woman, Rico is rescued from mental oblivion by his senisble, devoted Bigi. Love conquers all, even terminal vidiot-ness.

There have been other films critical of the television phenomenon from "Network" to "Videodrome." But it would take a movie-mad European to make something as pervasive and subversive as this.

I would love to find "The Record" listed in my monthly cable guide. And I can't wait to see it at Block-

Let it be said that the Idiots know

At least the musical ones do. Though new on the local music circuit, Mr. X and the Idiots go back a

Lets start with the main Idiot himself, Mr. X, who is also known as Glynn Scanlan. He's seen action as a drummer and as a guitarist in a number of bands, including the Regular Boys and the Mailmen.

Scanlan graduated from high school the same year as Steve Bauer, who is also bass player in Sensitive Big Guys. He also knew Mike Liedel. His brother, Paul Liedel, is Idiots'

But, for the time being, let's skip the formalities. Get to the issue —

"Just because we don't take ourselves too seriously, really," said Scanlan, who is a 1985 graduate of Livonia Franklin, "and because we are kind of idiots."

And the Mr. X handle?

"Glynn Scanlan would've sounded stupid for a tape," he said. "I didn't want a stage name like Spike or Mallet Head. Mr. X sounded silly enough.

- THOSE FEW fortunate souls who have a copy of Mr. X's "The Tape With No Name" might disagree. A low-budget production, the sevensong cassette is a humorous blast of guitar punk at its quirky best.

Even the Diamond man himself would likely have a chuckle at Scan-Jan's rendition of "Song Sung Blue."

There's also an acoustic spasm of a gem, "Sick," in which Mr. X whines about being ill all the time. Another tune from the tape, "I Was Abducted By a UFO," will find its way on Rick Anderson's compilation of local artists due out in the next

Scanlan financed the project himself, emptying his bank account to the tune of nearly \$600. About 50 copies of the tape were made. He's given 35 to friends and radio people and sold five copies at Desireable Discs in Garden City.

The Billboard charts are not quaking, but interest in the tape has Scanlan cracking a smile of optimism. "The Tape With No Name" is receiv-ing airplay on college stations, such as WORB-FM at Oakland Community College and WHFR-FM at Henry Ford Community College.

"Some guy named Shane from Garden City called me after he bought the tape," Scanlan said. "He said, 'Wow, I really enjoy the tape

"I DON'T know if he liked our show. I haven't heard from him since."

People are hearing from Mr. X and the Idiots, though. The band is playing regularly on the Hamtramck circuit at The Pub and Paycheck's

As refreshing as the tape itself is Scanlan's and the band's attitude. While most talk of record deals and other cosmic debris, Mr. X and the Idiots are keeping things in perspec-

"We just like to have a good time," Scanlan said. "When I start thinking big, like why not make this tape into an album, I wake up and say to myself there's so many bands around that are going nowhere. I'm more re-alistic about this band."

That easy-going attitude perhaps can be attributed to the quality of "The Tape With No Name." There's no pretension, no catering to record

LIKE A PRAYER - Madonna

If Madonna's perfume wasn't so distracting, I'd already be telling you a bit about her new album. No, she hasn't come a-visiting. But

the sleeve to her new album, "Like a Prayer," is sprayed with her favorite perfume.

Well, right then, on to the review.

First, your reviewer realizes that while Madonna is a big star, most people he has met dislike Madonna or at least smirk at the mention of her name.

Apparently, Madonna strikes a nerve in some fells that just gets them mad. She thinks she's so bot, she can't sing, she's tacky, they say.

Felix comes naturally to Conway

By Larry O'Connor staff writer

He never saw the play. He never watched the TV show. But to comedian Tim Conway, doing "The Odd Couple" comes as natural as swinging a nine-iron does for Jack Nick-

"It's fun to do," said Conway, who is appearing Tom Poston in the Neil Simon play Tuesday through Sunday at the Fox Theatre. "No matter how many times you've seen it, it's like an old friend that wanders into the

Some of his most humorous spots came as a regular on the "The Carol Burnett Show." He served as the perfect foil for Harvey Korman's stiffupper-lip style of laughter. Even the straight-faced comedian would melt when he came eye to eye with Con-

Anyone who watched the skits by Conway and Korman has a favorite one. The characters he created were definitely his own. Yet while hilarious, they were never offensive.

Conway is proud of that. Though comedy is big business today, in his cially with the emergence of shock comedy.

"That's the new big thing where you use a four-letter word to get a laugh which isn't really funny," he said. "In the old school, first you couldn't do it and, secondly, you had to be funny because we were live (on TV). One show would eat up all your material. You had to be funny or you didn't stick around."

His 'thinky stuff' generates laughs for Jim Samuels

staff writer

As a comedian, Jim Samuels knows you gotta get a reaction. Even if it is only someone spilling a drop of wine on their cardigan sweater.

The dean of San Francisco comedians has had his humor described in such cosmopolite terms as sophisticated, cerebral and thoughtful.

"My stuff is kind of thinky stuff," said Samuels, who will perform Wednesday through Saturday at Joey's Comedy Club in Livonia. "It's getting more that way the older I

But leave the dictionary and the thesaurus home. Samuels humor

does have wide appeal. He just has some questions, like, for instance, when a convict was sentenced to death in Texas. Samuels wants to know why did they swab his arm with alcohol before inserting the lethal injection? Where they afraid he'd get an infection or some-

thing? Or like recently when he saw a road sign that said, "Fine for litter-

ing." So he emptied out his car.
"Fads change; styles change,"
Samuels said. "If you have a solid base of intellectualism . . . I think it's better in the long run."

SAMUELS IS testament to that

Jim Samuels, the dean of San Francisco comedians, has had his humor described in such terms as sophisticated, cerebral and thoughtful.

theory, performing, writing and teaching comedy for more than 16 years. He's been a comedy writer for such shows as "The Jacksons" and "Rock Concert" and is a comedy coach and consultant.

Onstage is where Samuels has made his name. He's appeared on such television shows as USA cable's "Make Me Laugh" and Showtime's Comedy Club Network."

He's performed with the likes of Robin Williams, Ray Charles, Joel Grey and The Pointer Sisters. So, perhaps, who is better at gauging a crowd then Samuels?

"You can," he said. "You don't judge so much on the intellect as to find out how rowdy they're going to

"If they're drinking beer out of their boots, you know you're going to face a boisterous group."

Scouting the audience isn't the hard part, but writing material to make them laugh can be.

Unlike the old days when comedians would buy jokes from guys in trench coats in alleys, most jokesters today have to come up with their own material. Samuels has become quite adept at it through the years.

Nonetheless, Samuels agrees comedy is something that is not learned. And this is from a comedy coach.

"The theory is pretty much bull---," he said. "For every rule there is, someone is breaking it and becoming a success at it as well. But there are

Those who come under the tutelage of Samuels learn the finer comedic techniques such as how to stand at the microphone, how to come across self-assured.

Samuels said he's impressed with the upcoming crop of comedians, especially the ones who are writing and performing clever material. Those comedians have the staying power, he believes.

Jim Samuels will perform on Wednesday through Saturday, April 28-39, at Joey's Comedy Club, 38071 Plymouth, Livonia. For information, call 261-0555.

"We're going to expand into the Northville, Plymouth and Novi areas," said Bob Hargis, owner of Chaplin's. "The area is growing and prospering and will continue to.

Hilton general manager Tom Galano agreed. "It's a good opportunity for the comunity and the hotel, an added extra for our guests," Galano said.

Future plans for this joint venture include the adding of dinner/show packages and weekend getaways. Hargis also mentioned the possibility of utilizing the Hilton's banquet facilities to bring in major headlining acts with concert-style seating. The capacity with such a seating arrangement could go as high as 2,000,

The results are hardly surprising. The wine is a red Bordeaux from

France, legendary for fine wines.
In this instance, the wine is Chateau Margaux, a top-rated wine that was bottled and corked in 1970.

The cork reflects what is special about Bordeaux. It is nearly an inch longer than a normal cork and inscribed with the name of the wine it is charged with preserving.

"Very special; very fine wine," Jean-Louis Triaud said during a recent wine tasting event, hosted by the Detroit chapter of Commanderie De Bordeaux, a society of area wine

Peter Heydon, a university English professor who is master of the Detroit Commanderie, concurred with Triaud

"The great old wines of the world come from Bordeaux. They are the most prestigious wines in the entire

Triaud's family has produced Bordeaux wines for four centuries from the family's three chateaus or wineries. He is one of a host of French vintners who recently toured the United States, promoting Bordeaux and its fine wines.

"We are here to promote, not to sell, but to promote," Triaud said in excellent English.

ALSO TOURING are vintners Sylvie Cazes-Regimbeau and Bruno Borie. Regimbeau, an English teacher who is the mother of three young children, joined the family business three years ago. Her grandfather bought the family's winery, Chateau Lynch-Bages, in 1934.

Borie, accompanied on the tour by father Jean-Eugene Borie, is one of two sons who are vintners. The family owns four wineries, including Chateau Ducru-Beaucaillou that is rated second-growth. Growths, ranked one to five, were established in 1855 for all chateaus then in Bordeaux.

"This is mostly friendship. It is good to meet with wine connoisseurs and not talk business, but just enjoy the company," the younger Borie

FOLLOWING THE afternoon tasting event, Commanderie members and vintners gathered for a gourmet feast that included approximately eight different wines served before, during and after dinner. The local group meets several times an-

"It's somewhat of a tradition in our chapter that any member who wishes, may share a special wine," sald Commanderie member Gordon Areen of West Bloomfield.

When this occurs, a single meal might include servings of 10 different wines, according to Areen.

A retired Chrysler executive, Areen developed a deep interest in wine while working in France. In

wiffe vault that he promptly filled with bottles of French Bordeaux, then costing approximately \$10 each. Today, their estimated value is \$150 each.

More important to Areen, they are now nearly ready to serve.

"FIRST-GROWTHS take nearly 20 years to mature. You certainly would not drink them before 10 years and it would almost be a sin to drink them before 20 to 25 years," he

Dr. George McCarty of Birmingham, a Commanderie member, is a wine enthusiast whose interest developed while serving as a military physician in Germany. It grew to include French wines.

His prized possession is a 1978 magnum of Chateau Lafite Roth-

"It won't be ready to drink for 15 years. I plan to draw the cork for retirement," quipped McCarty, who is now 46 years old.

RANDY LORENZ, co-owner and manager of the Mayflower Hotel and The Round Table Club in Plymouth, also owns a Chateau Lafite Rothschild corked in 1929. In fact, Lorenz once owned five such bottles, but he has served two to Round Table cus-

tomers at \$900 each. "I actually sold two bottles," Lorenz said, somewhat astonished.

The Round Table cellar contains approximately 1,200 bottles of wire, including 35 different red Bordeaux and four white Bordeaux. Lorenz has one bottle left of Chateau Margaux corked in 1961, priced at \$380.

The best buy in the house, an "exceedingly good wine that is an undiscovered good value," is a 1982 Puy La Coste that retails at \$44 a

Lorenz has no favorite wine.

"WINE IS mood specific, situation specific. It is what is called for at a particular instance," Lorenz said.

Bill George, who owns the Red Wagon Wine Shop in Rochester, said French Bordeaux are always strong sellers, first-growths that are "in a class all by themselves" and retail for \$800 a case and up, and secondand third-growths that sell for \$15 to \$50 a bottle.

"When I started in the business in 1965, Bordeaux were the wines to drink. They still are," George said.

"California is trying to copy the French style and is making lots of progress competing, but French wines are classic. Their weather and soil is special."

During the tour to Detroit by to dine with Bruno Prats of Chateau Cos D'Estournel, who is president of the association for classified wineries. Prats' chateau is second-growth. He also oversees annual tradition-

al festivals in which chateau owners don wine-colored gowns symbolic of their nectar. They also don hats with white crowns, reflective of the egg white froth that is used to clarify the wine prior to bottling and corking.

Chateau Margaux (center) is a top-rated Bordeaux wine. Bottled and corked in 1970, it costs \$150 a bottle.

to buy the house across the street." That house, which still sits on the right-hand corner across from the museum, was artist development. That's where the artists learned the dance routines to go with their songs and it's where they were taught manners, how to dress and how to behave on the road and when meet-

ing important people.

Almost all of the Motown stars were from Detroit. A few exceptions

were Gladys Knight, who came to Detroit from Georgia, and Marvin Gaye, from Washington, D.C. The Marvelettes were from Inkster, Edwards said.

"We're fortunate that Motown was able to grow and a lot of young people out of the inner city could grow up to be superstars, legends and just good human beings," she said. "Almost all of them came from the ghetto and most came from one-parent families."

IN 1968, Gordy bought a 10-story building on Woodward and moved most of the offices there, with one exception. Studio A remained the place where all of the recording was done, that is until the company moved to California in 1972.

From 1960 to 1985, Motown pro duced 100 number one pop and R&B singles. In its humble beginnings, the studio was one-track, meaning all of the artists and musicians were in the studio at one time, recording live as if they were performing for an audi-

"Shop Around" Motown's first mil-

A tour through the museum starts in the lobby, where visitors can see gold and platinum albums by Marvin Gaye, the Temptations, Rare Earth, the Jackson 5 and many others. Old blown-up photographs grace most of the walls and a videotape showing the deflection of the management his the dedication of the mu torical marker back in December 1987 plays continuously.

Any Motown fans worth their salt should get goose bumps just knowing they're in the same room where so much history was recorded.

UPSTAIRS ARE mementos of the early years, including a wall collage of album covers and more black and white photos than you can absorb in one trip. More gold records and many awards are also dislayed, as well as newspaper clippings and sheet music.

Then there's the Michael Jackson room. The star gave \$125,000 to the museum that preserves for posterity the place where he got his start.

In the room are large pictures spanning his and his brothers' successful career. Visitors also will see a hat and that famous sequinned glove, as well as a costume worn back in the early '70s, encased with a gold record of the song "Dancing

"This museum came into being much the same way Motown came into being," she said. "People from all over the world just kept showing up on this doorstep wanting to know up on this doorstep wanting if this was where it all is They treated the outside of the ho like holy ground.

Degrease windows

Betty spent the whole day washing windows, only to realize later that her windows reflected a cloudy appearance. After all that work, what went wrong?

Betty had used what she'd always used ammonia - but this time the sun and wind had quickly dried the solution before she could rinse it off. The result: bleached windows. Besides surface bleaching, other reasons to be careful using ammonia include potentially dangerous fumes. Ammonia should be used only in well ventilated areas and never mixed with bleach. The results could be deadly.

Many retail items like Glass Plus or Windex work well for everyday window cleaning, but are far more expensive than concentrates. Concentrates, purchased at janitorial supply stores, can easily be mixed in spray bottles designed to measure appropriate ratios. These end up costing less than 25 cents per pint, while you can pay \$1.50 per pint for ready-mixed retail cleaners.

A degreaser is need for the first spring window cleaning because grease accumulates through the air over the winter. Once degreased, regular glass cleaners can be used. You can do this by adding about 25 drops of a degreasing dishwashing detergent, such as Dawn, to a gallon of your reg-ular cleaning solution. (Not all detergents

contain degreasers.) My favorite janitorial supply — Oliver's in Pontiac - sells a product called Blue Max which contains a degreaser and works perfectly on windows when mixed 50-1.

The myth that vinegar is a washing agent needs correcting. Vinegar is a rinsing agent and works well for neutralizing soapy residue; it is not a soil remover. Some people use one to two teaspoons of kerosene per gallon of water, but this will dry out putty and cause it to pop out prematurely. TSP (Trisodium Phosphate) is inexpensive and fairly effective but more than one teaspoon per gallon can leave a chalky residue. Hospital disinfectant cleaners also clean windows and mirrors nicely, but are designed to be used daily and won't handle soll build-

One last warning: Don't mix different cleaning agents together unless you know it is all right; otherwise, dangerous conditions and/or poor performance could result.

condo queries Robert M. Melsner

Q: I am a real estate broker and am concerned about the recent article in your column where you pointed out that brokers were liable for the acts of their employees based upon a recent Michigan case. This will, no doubt, change my whole outlook on my salespersons in terms of our firm's potential liability. What can we do to insulate ourselves?

A: I am reasonably confident that real estate brokers will mount whatever legislative efforts that are necessary in an effort to reverse and/or revise the recent opinion of the Michigan Court of Appeals by legislative fiat. But, whether or not that happens, the real estate community should be alarmed about the decision of the Court of Appeals and should take the appropriate measures to ensure that real estate brokers and their firms are adequately protected by way of liability insurance and otherwise in connection with the acts of their "salesperson-employee" agents.

This may result in a change in the relationship between the broker and the salesperson contractually, as well as an increase in the responsibility undertaken by the salesperson by way of indemnification or otherwise to the real estate broker by the

With the courts becoming increasingly sensitive to the legal and ethical responsibility of brokers and real estate people, particularly in a conflict of interest situation, exposure for brokers is becoming increasingly substantial. Make sure you are properly insured and have consulted with legal counsel in terms of listing the various areas whereby you can insulate your potential lia-

Arlyne Cherrin gathers up silk flower blooms at one of two Silk Forest shops she owns. Her success, she says, is due to service-oriented decorating. Many new office builder owners, for instance, are opting for floral arrangements in lobbles and atriums, she said, rather than artwork.

New leaf in decorating

By Charlene Mitchell special writer

LANTING, pruning, watering and grooming. Those are just some of the time-consuming chores that go into maintaining beautiful plants and flo-

If you don't exactly have a green thumb but still enjoy the fresh feel provided by plants, look no further. Entreprenuer Arlyne Cherrin is improving the look of hundreds of homes and floral arrangements that are nearly foolproof. With showrooms in Southfield and Birmingham, Cherrin is able to display an amazingly large number of tropical and desert varieties.

"Can you believe we've carried nearly 20,000 different species?" says Cherrin as she walks through the rows of ficus trees, scheffeleras, apple trees in blossom and hanging baskets. "Just look at these wonderful silk plants, aren't they just gorgeous, and you'd never know they weren't alive would you?"

AS THE PLANT LADY continues her oration on the merits of silk blossoms, she relates the story of the woman who was allergic to live plants and found satisfaction in silk counterparts. "There are also a lot of plant lovers who just can't seem to keep the plants alive. They waste so-o-o-o much money replacing them."

Don't be fooled though, silk plants can be costly too, but they are guaranteed to live forever and the only maintenance they need is a bit of dusting now and them.

The beauty of the merchandise at The Silk Forest which Cherrin first opened in 1985, is that it is part of today's rapidly growing trend in service-oriented decorating.

Owners of large office buildings who may not want to invest a bundle hiring a decorator to select artwork for a lobby or atrium area, may opt instead to hire someone like Cherrin, who will work with them to decorate with plants and flowers. Goldfarb Advertising Co. at Northwestern Highway and Lahser is one example of a

new building that decided to hire Cherrin.

The Silk Forest claims to have an unlimited service covering all of metro Detroit as well as out-lying areas like Ann Arbor and Lansing. Since going into business more than 300 homes and almost 100 businesses have become Cherrin's regular clients.

For example, the popular Beau Jack's restaurant in Birmingham has its plants re-furbished every other year in order to freshen the look and

get rid of the smoke odors that accumulate.

The exclusive Rodier Store at Somerset Mali had its own New York designer work directly with Cherrin when decorating the shop. Doctors' offices are also fun for the perky businesswoman who never seems to tire. She convinced cosmetic surgeon Dr. Joseph Stern into giving a beauty lift to his waiting room at the Cosmetic Surgery Center in Farmington Hills.

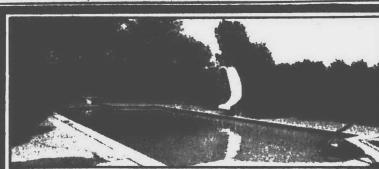

Whether it's a big job, or a small one, Cherrin says her heart is always in it.

'I buy all my goods in person at the marketplace, and that means traveling to Atlanta and Texas a few times a year," she says. Cherrin added that many retailers who deal in silks buy from catalogs, something she considers very compromising if you are interested in getting

THE HIGH QUALITY silks are 100 percent pure, with no oil to attract dirt. Some of the species, because of the nature of their appearance, contain a small percentage of polyester for durability and flexibility. Those artificial plants or flowers that contain more synthetic than silk are usually not as authentic looking. Another thing to look for in buying silk trees, for instance, is whether the trunks are from "real" trees. Cherrin says that's the thing that makes them appear so real.

"But it's not just the product they get, it's the service", says Cherrin. "We'll use their pots or ours. If they have certain fresh floral arrangements that they just love, we'll re-create it for them in silk so that it's always there looking good to make them smile everyday."
